EDITORIAL EDITORIAL EDITORIAL.

Hello, and welcome to No12 of British Oi! and the first issue from my new address instead of the old P.O Box. The decision to leave the P.O Box was due to me not collecting the mail regularly enough to keep a good quick standard of return orders etc. The new address will be much more convenient to both you, the readers and myself. Anyway enough of this. Onto this issue. It includes 'White Noise the top Australian Nationalist band', The Allegiance and Immoral Discipline from the U.S, A indepth interview with up and coming Unity lads 'English Rose', Power Skins from Italy and much much more. Anyway I'll leave it at that for this issue, DON'T FORGET THE NEW ADDRESS!

Until next time... KEEP THE FAITH !!

Chris - BRITISH OI! -

Did You Know.....

THE new split "7 with Violent Storm and Skullhead is out now and is purely great. 'Blame The Bosses' is the Skullhead song which explains why they're getting more acclaim every week and the other two tracks 'Celtic Warrior & Unemployed Voice' by Violent Storm surely roost them as one of the best and quite exciting new Nationalist bands around today, can you afford to be without it. Only £2.50 Inc P&P from C.C. Records, PO Box 340, Cardiff, CF1 7UX.

.... That Loughborough local heroes 'English Rose' (See interview later) have plans for a "7 on French label 'Rebelles Europeens' with two tracks one being my favourite 'English Rose' song 'Marching Into Battle'. Good luck English Rose!!!

.....That 'Unity' the new Nationalist music organisation which isn't a political involved thing and in between B&H and C.Culture for the musics sake plan a L.P featuring all the Unity involved bands from the bottom of the barrel to the top of the list of nationalist bands. Sounds really good.

... Swedish Oi! bands 'Dirlewanger', 'Agent Bulldogg', 'Pro Patria' and 'Vit Aggression' have an LP out soon on Rock 'O' Rama called 'Nordland' which by my personal view is great especially the 'Dirlewanger' tracks.

IMMORAL Discipline

Well heres a band who've started making a name for themselves around the U.S and were a prominent feature on the Link LP 'The U.S of Oi!', anyway from the darkest corners of Silver Springs comes the 'IMMORAL DISCIPLINE' interview.

1. When, why, and where did I.D form?

Shawn - I started I.D in California which is where I'm originally from. When I moved to Washington D.C, I decided to get a new line up and start another band but with the same name, playing a different style of music than the original band though. We started playing gig at around Nov.'86 in the D.C area mainly to give variety to the D.C scene and give skinheads a band to identify with.

2. Whats the current line up? Have you gone through many changes?

Shawn - The current line up is Me (Shawn Garard) - Vocals, Todd - Bass, Bill - Guitar, Brian the other guitar and lastly The Bhatman on Drums. We've gone through numerous line up changes, our original bassist James Wood was stabbed to death in a fight, our first drummer Bryan Kelly went off to college, nowadays the line up is pretty steady.

3. Have any of I.D been in any other bands? If so who?

Yes all of us have, Me - I.D (California), Todd - What Happened?, Bill Clouse and What Happened?, and the Bhatman was in Toxic and Sleg.

4. In Washington, how do the general public react to you, being skins etc?

Shawn - I'm actually the only skin in the band and the majority of people in D.C are used to seeing punks and skins around the place so they don't question us. Some people just cos we are skins want a fight and we do oblige and of course theres the regular idiots who beleive all the rubbish the media pumps out about skins etc but generally we don't get much hassle of locals.

5. Have you released any merchandise etc yet?

We have a 5 song demo called Boots and Braces, Stars and Stripes and we have two songs on the U.S of Oi! LP. We're going into the studios soon to do more recording for either a E.P or maybe a LP ???!!!

6. How many gigs have you played? Where and with whom?

Shawn - I'd say we've played about 30-40 gigs all in all. The majority of these being in the D.C area. We've played with such bands as - The Exploited, Warzone, Half Life, Youth of Today, Token Entry, Best Defence and many many more. Our biggest show was about 300-400 people and the smallest was about 20-30 as it was midweek and it was poorly advertised.

7. How do you feel about the U.S wars such as Vietnam and conflicts with other countries like Grenada and Libya? Do you back the government on these issues?

The U.S has fought some very tragic and pointless wars in its history. We only support the government when the decisions are on worthy causes but when it comes down to unnecessary wars we don't even listen to the states lies about it.

8.. How would you class your music, and who has influenced you?

We play a mixture of Oi! and hardcore music, we have a wide variety of influences individually but we all share the love for Oi! music.

9. How many skins are there in your area and do they all support you as a band?

In the Metropolitan area of Washington, which includes parts of Maryland and Virginia, I'd say there was about 300-400 skins alone, maybe more. Most of these support us as they can relate to us but we do have our own large following anyway, most of these are skins but alot of other people like us.

10. Are there any other Oi! bands in your area?

Theres only one worth mentioning and thats a band called A.S.H Regime, a Oi!/Hardcore band who are still trying to get thungs togetner, they have great potential.

11. How do you feel about the current U.S Oi! scene and what do you think of your fellow bands such as The Anti Heros and Moonstomp?

We are very happy that the Oi! scene in America has progressed so rapidly and we're very glad to be a part of it, its taken off. As far as other bands go we'd like to keep in touch with them and wish them all the luck for the future.

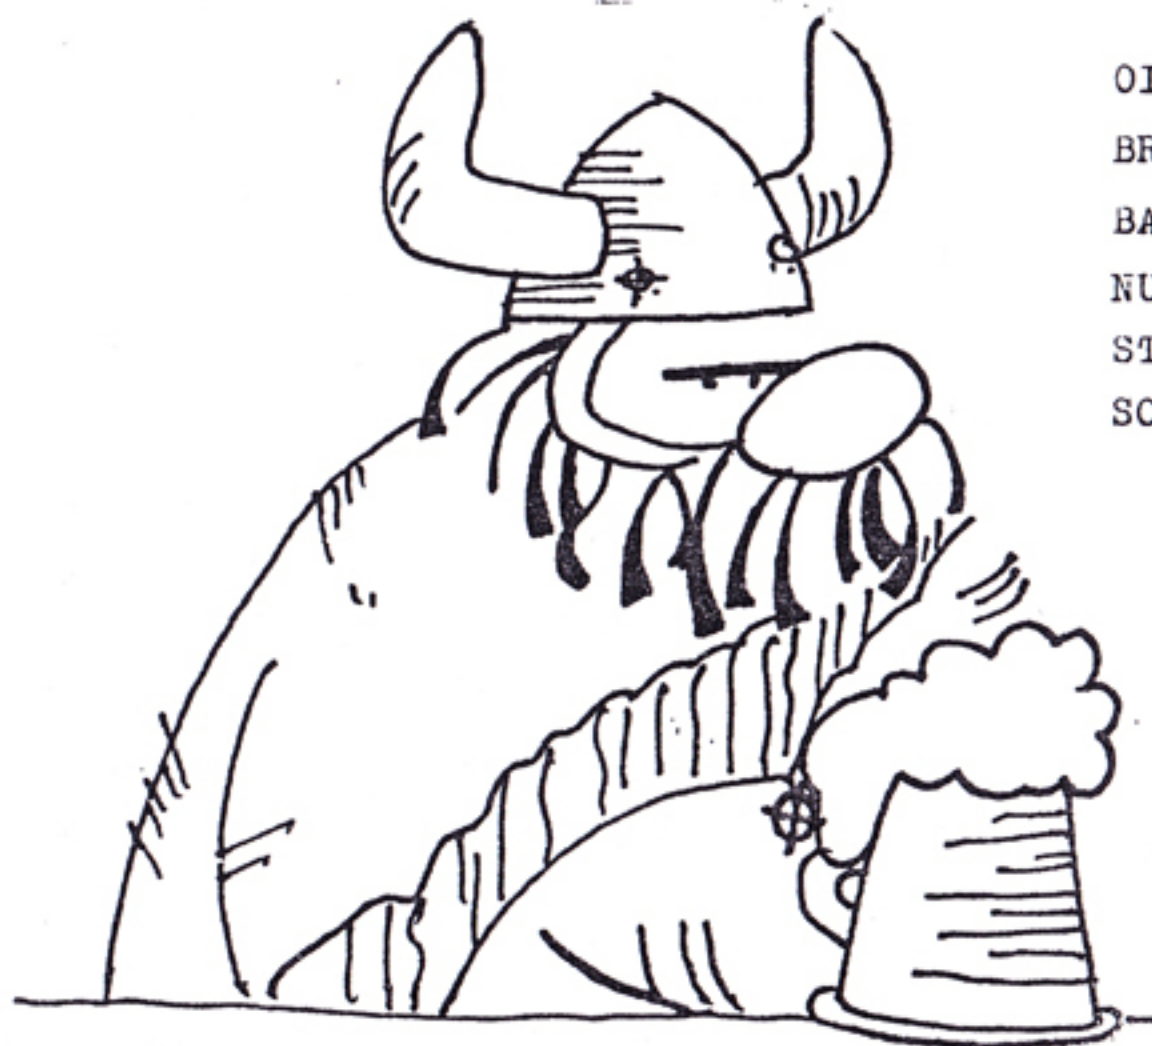

12. How do you feel about other U.S movements such as CASH, MASH, Confederate Hammer Skins etc?

We've only heard about these movements through the media which we all believe isnt true, before we express opinions on such gangs etc we'd like to know more.

13. Anything else to add?

Anyone who'd like to order our demo tape send 4 dollars and if anyone would like info etc then write to Shawn Garard, 1010 Stirling Rd, Silver Spring, Md 20901, USA. All the best wishes to the British Oi! readers and many thanks to Chris for everything.

Oi!
in
Frankfurt

Here is a short report on the Oi! scene in Frankfurt and many thanks for the South End Frankfurt skin Oliver for the report.

Hello their readers of British Oi!, we are skins who only number about 5-7 with an average age of 19. We always meet regular in the South of Frankfurt trying to keep a small part of the Oi- scene alive.

We have many enemies and troubles which include Police oppression and street gang fights. These fights are normally with immigrants

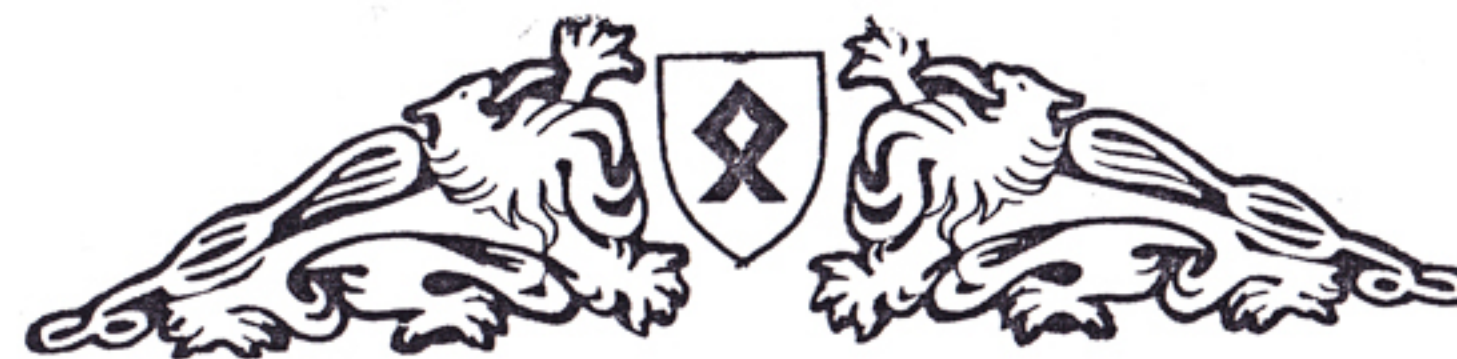

who hate skinheads. We haven't really got any other contacts with other skins because of arguments about Football, Local Patriotism, or political topics. Due to these facts its a bit hard to say how many skins are in Frankfurt but I estimate it numbers about 110-130 all in all.

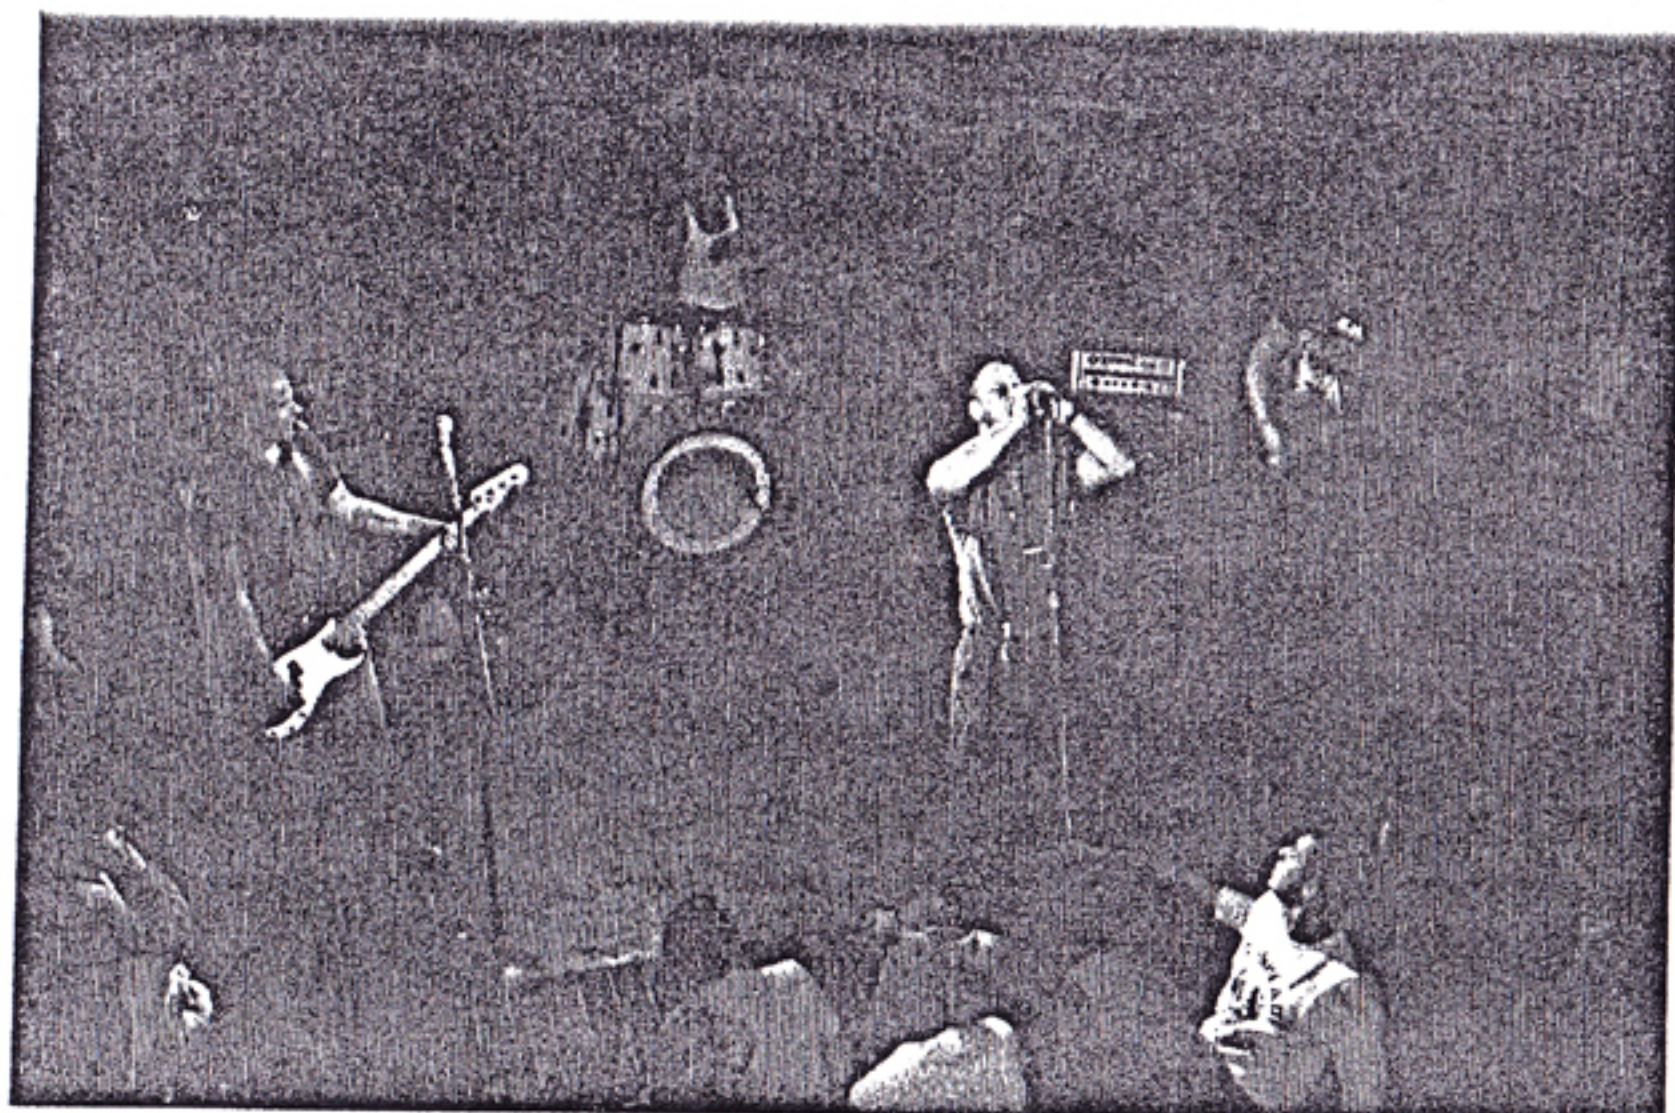

The punk scene isn't large either as it is in other German cities like Hamburg or Berlin, anyway most of the punks drifted into the left wing movements. In Frankfurt all of the skins have a varied view on politics, some are Red Skins, alot of White Noise Skins, Clockwork Skins etc etc.

Musically we haven't got any local Oi! bands but the biggest band here must be Bohse Onkelz but saddly they have changed alot and of course ideologically aswell. They don't have much to do with Oi! anymore. Their are a couple of punk bands but nothing worth a good dance.

Well actually I have got the impression and hope that Oi! and White Noise is growing in Frankfurt and skins are rising again. Let us hope so !!

MOONSTOMP

MOONSTOMP & YOUTH DEFENCE LEAGUE - THE WHITE DOT, ATLANTA, US of A!!
By MARK WAGEE of The GLORY & CONDEMNED 84.

Well it was my last night in the good old U.S of A, so I decided to check out these two bands before I left. We were all sitting round a table while I was showing those nice American boys how to drink, when all of a sudden the background music stopped and there was a commotion at the stage. I thought "Whats going on then, has somebody nicked the tape machine or something", my mouth fell open as I saw three big bouncers get up onto the stage - "There certainly wouldn't be any trouble in here tonight" - A smaller good looking chap with greased back hair climbed behind the drums and the so called Bouncers picked up there guitars and started to play the musical tune Moonstomp now open their set with. "Interesting" I thought and decided on a closer look. As I got nearer to the stage all the skins and various other sub-cultures were taking in the music and were definately starting to move!! After this tuneful intro Townsend, the singer, King Kong with a crop and braces, takes the stage and announces 'White Riot', CHRIST!! Was he giving an instruction or was that the name of the song. The dance floor became

Strong Free Nation

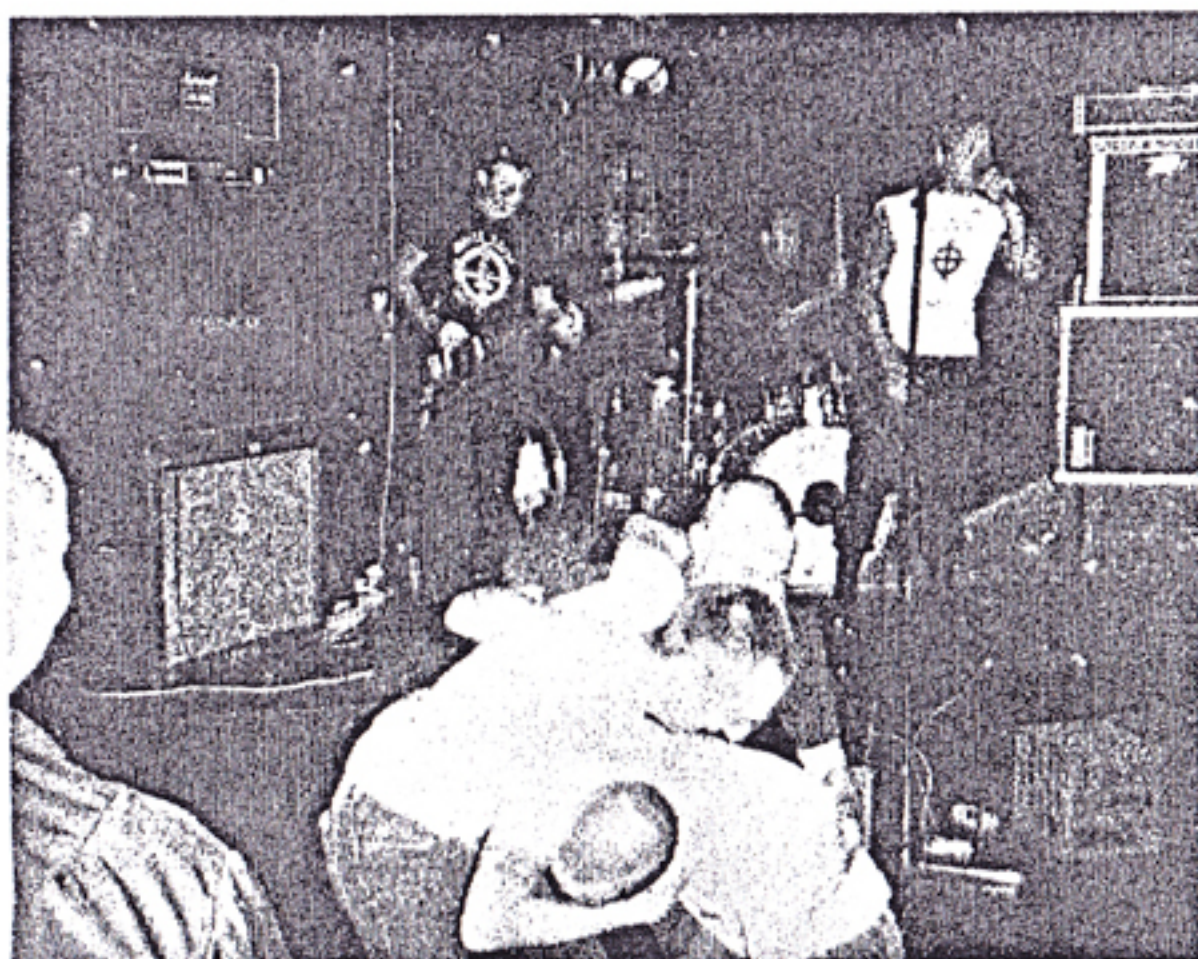

GIG REVIEW

a mass of electrified bodies. Townsend ran backwards and forwards throwing his fists to the brilliant rendition of The Clash classic demanding the crowds attention. The last time I saw something this tight it was glued to the toilet seat! The band continued to reel off brilliant songs for the rest of their set the best one being for me "Strong, Free Nation". Now wait a minute though, this band are no way nazis or right wing, just ask Townsends flatmate Rob cos hes the blackest skinhead I've ever seen. The band also did a few other covers all being excellant renditions like the great Resort (Moonstomp) Bootboys. Well that really tied up there set and I would've loved to sit through the whole occasion again. Well all I can say is that someone (LINK ??) should grab them quick while they're available, as , as far as I am concerned out of all the U.S bands Moonstomp are top of the scale, and it would be a shame if they went to an inferior label.

After a short interval and a quick beer, on with the show. Y.D.L took to the stage amid cheers. I could see from the start that the standard of musicianship was excellant although the guitar did have a habit of wanting to stay out of tune. Singer Nick ran around the stage like a psycopathic skinhead with a rapid ferret down his trousers! Well although the reaction was good, with a small core of skins freaking out at the front, not the same overall reaction as Moonstomp. Unfortunately at this point I became "Otherwise Engaged"! So although I could still hear the band I couldn't hear what all the songs were called. Of course I did manage to catch the excellant ' Turncoat '. The band also did two Skrewdriver songs as a request and much to the delight of a certain "Element" in the crowd "Say no more John", Oh yeah one of these featuring the very talented Alan Sullivan of Moonstomp on bass. Well, sorry about missing some of your set lads as I said to singer Nick afterwards I was very impressed and look forward to your debut LP on Link - GOOD LUCK!

WHITE NOISE

Well, here is the most popular and most heard band from the nation of soap operas 'Australia'. White Noise have progressed to great heights in many nations and they seem to be doing the same over here in Great Britain with the surface of their LP. Well heres an interview I conducted while Jim their vocalist was serving time in prison earlier this year, all questions are answered by Jim :
When and where did White Noise form ?

" White Noise " formed in Perth, Western Austrailia in 1986. However, the history of the bands actual concept goes back to 1977 , then we were known as " Quick & The Dead ".

2. How many line up changes has there been and whats the current line up ?

Up until now, the band has gone through countless line up changes. The most recent one occurred immediately after we recorded our first LP last year. The band now consists of : Glenn S - Guitar, John S - Bass, Mad Matt - Drums and myself (Jim) on vocals.

3. Why did you choose the name White Noise ?

We chose the name " White Noise " mainly and simply for its nationalist overtones.

4. What movements do White Noise support ?

We give our support to any-all pro white, Anti-Commie organisations, wherever they are. We all support The White Noise Club and we beleive its very positive to say the least.

5. Could you tell us about your LP ?

" The First Assault " is out now and has 12 tracks on it, which you'll know alot more about when you (Hopefully) buy it....

6. Could you tell us more about the LP and what it concentrates on ?

As far as the material on the LP is concerned, we feel it is more or less music ' for musics sake ' in that the songs, generally, aren't conveying any sort of ideas or messages. Its our first album, we just wanted to establish the name before we try to rush our idealology.

7. What topics do you sing about ?

Since our last line up change, we have concentrated more and more on nationalist topics, all subjects.

8. What merchandise have you got available ?

We stock quite a few items, t-shirts, posters, stickers, and cloth patches, all we need now is a P.O Box to operate it all from - COMING SOON.....

9. How many White Power bands are there in Oz ?

I dont really know how many White Rock bands their are in Oz, the only one I'm sure of is "White Lightning" who I try and keep in contact with but haven't heard from them in a longtime.

10. Are you N.A Members ?

We are pro-white and anti - zionist!/communist for a start. National Action (N.A) have our support as do the Australian Nationalist Movement but unfortunately the two organisations are at odds with one another. This makes it hard for would be nationalists to have faith in either of them!

11. How many skins are in your area ? Do they support N.A as a band ?

In Western Austrailia there are probaoly 100-150 skins and most of them like us.

12. How readily available is Oi! music in Austrailia ?

We can buy most records released by Oi! bands from shops here, however white rock bands we can only get by mail order, mostly through R. O. R.

13. What hobbies do all of the band have ?

We don't have any hobbies to peak of, well not any real ones to speak about, apart from our band. Sound production and sound engineering hold quite a bit of interest for us though. I don't think many of us are football fans unless your talking Rugby football cos if so I support Balmain 'Tigers'.

14. Anything else to add ?

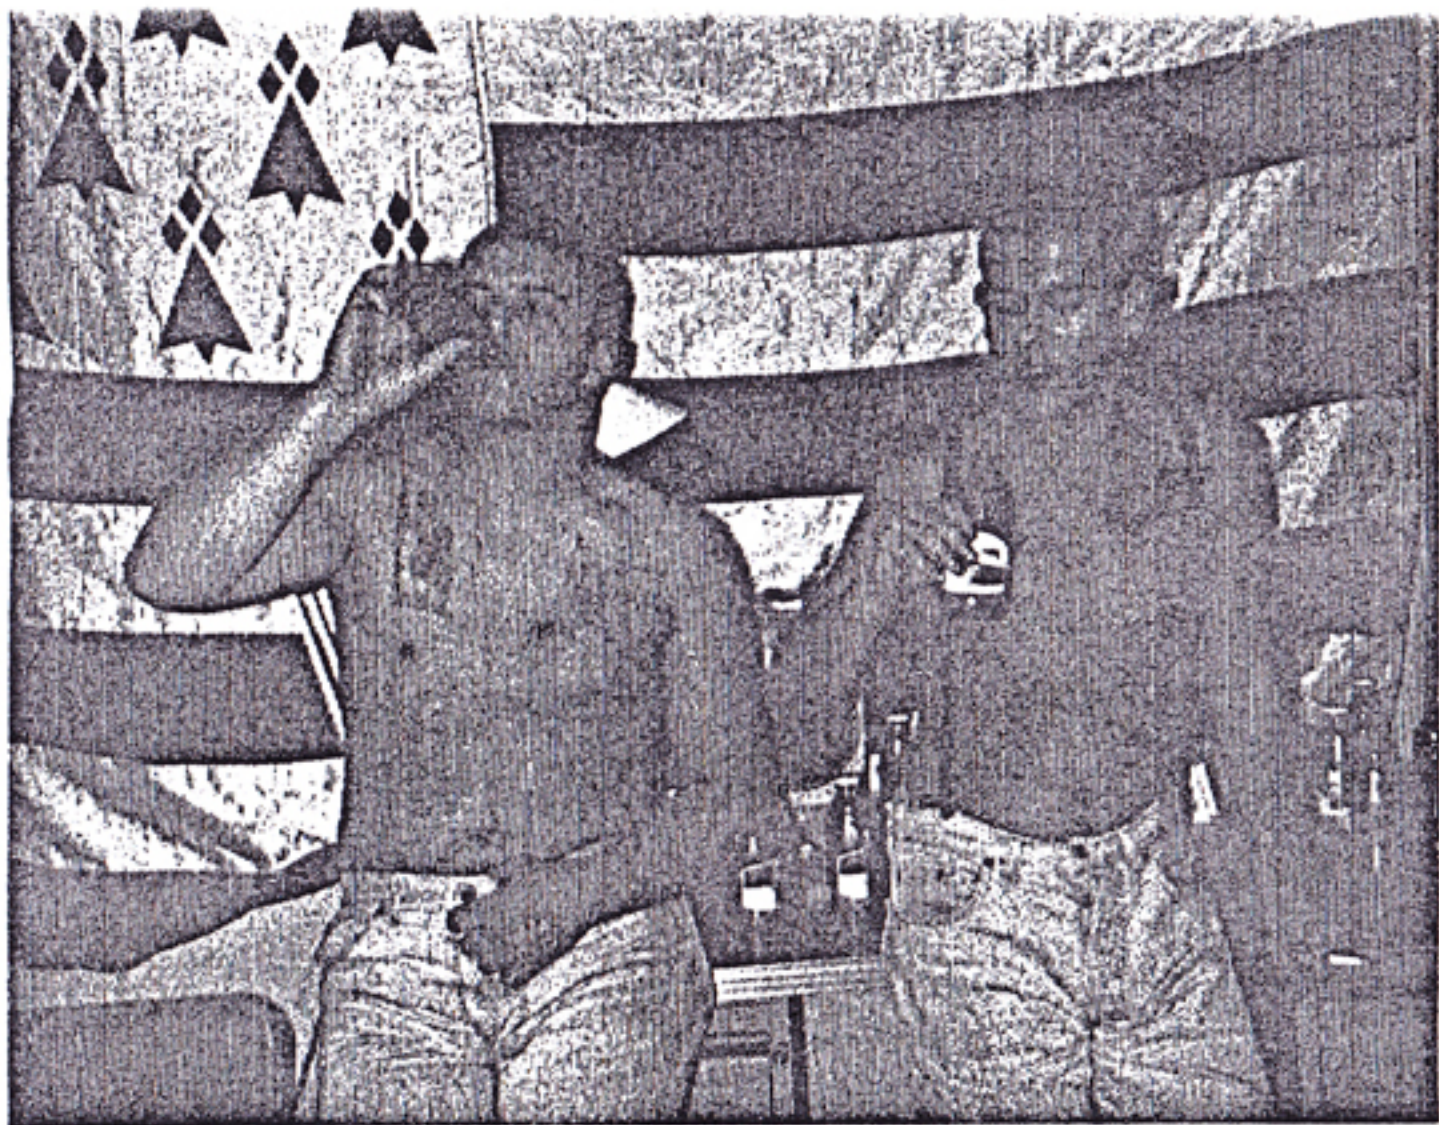

Just that I, along with practically all the N.Skins in Austrailia, would like to see W.N & BandH find some common ground, admittedly, I don't really know what all the ruck is about, but I do know that we will all need and be reliant on each other sooner or later, hopefully sooner.

The W.N.C and B & H dont seem to realise that, through them, there is a great potential for a united white world, the inspiration for such unity must come from example.... And if Britains two main voices in Nationalism can't see that kind of example, what the F!K are we gonna do?????!!!!!!

Thanks alot Jim for the informative interview, good luck with the future.

THE Allegiance

Well heres yet another U.S Oi! band who have alot of future promise. They are The Allegiance and hail from Lancaster in the Pennsylvania area of the states. Joe their drummer has answered and forwarded on the interview. Here goes :-

1. When, why and where did you form ?

When?? 'Round late April of last year. Why ? We wanted to put our god given musical talents towards something useful and where ? In Lancaster - Pennsylvania.

2. What is the current line up ?

The line up is :
Brian Carlson (20) on Bass,
Joe Gerlitzki (18) on Drums and
Dave Stallings (18) on Guitar and
Vocals. We were considering adding a
second guitarist, but decided not to as we are happy with this 3-piece line up.

3. Why the name 'The Allegiance' ?

The Allegiance was the best way to sum the band up in a couple of words. We are loyal to our great country, and we pledge full allegiance to the flag that represents our land. We have a song about this and its called ' Old Glory '. This song is basically how we feel as Patriots and Nationalists.

4. Have any members been in any previous bands ?

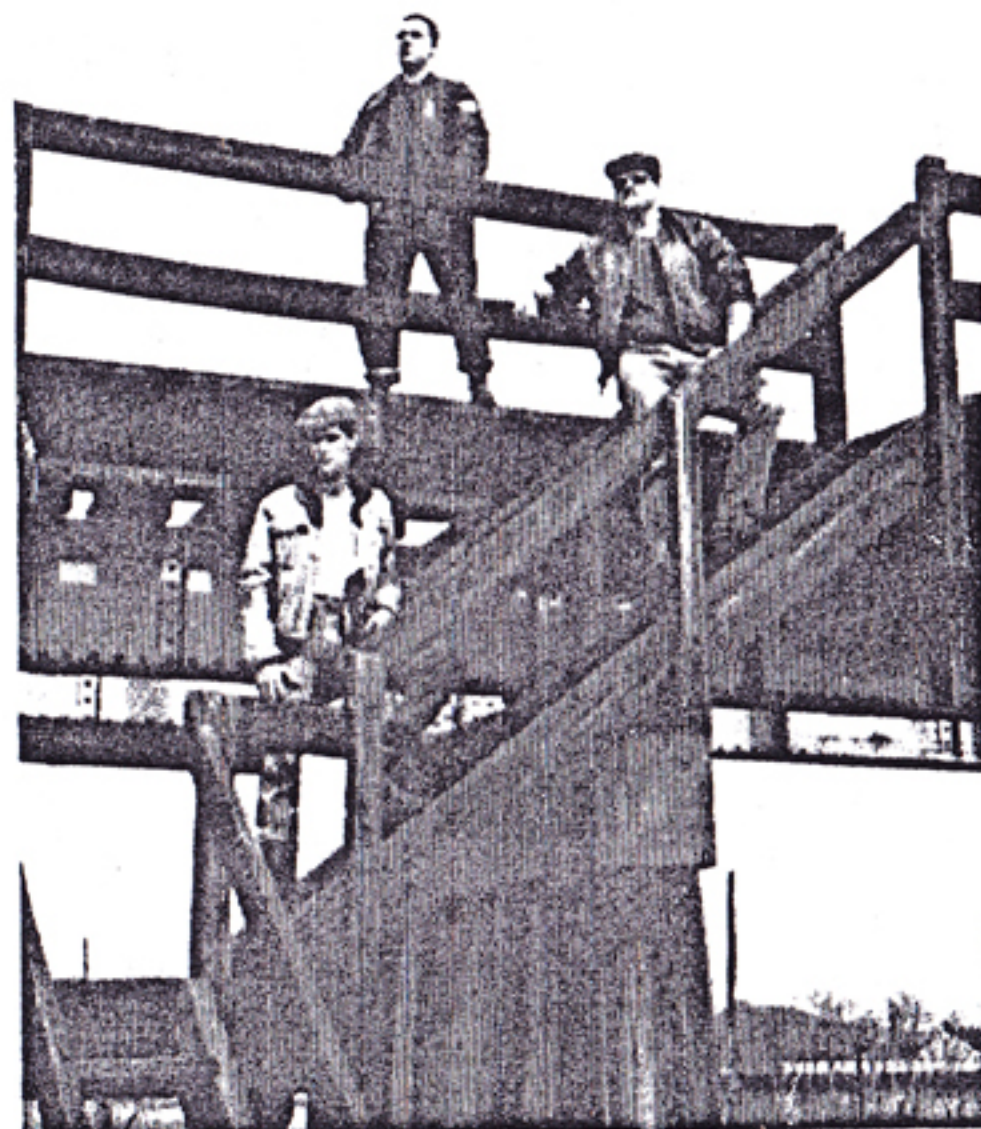

I played guitar for a band called ' Warriors Pride ' but I soon left after the other members started getting into drugs.

5. What topics do you sing about and which would you class as a crowd favourite ?

Well, we sing about alot of different topics. We have songs that deal with important social issues, songs about the skinhead way of life and we also have a few songs which are just for fun. We believe in getting well pissed up and having a laugh. But when it comes down to such things as our country, our race and our future... WE ARE VERY SERIOUS. Our crowd favourite, at least for now, would have to be ' Rough Justice '. That song is about our hate for judges, lawyers, politicians etc. It is also about how we want to see rapists, muggers and murderers get what they deserve..... DEATH!!

6. Have you any record plans , if so when ?

Yes! We have signed to Rock 'O' Rama Records. Our first release entitled ' Rough Justice ' should be out soon in Europe. It is a 7 track mini LP. We have also started recording for our 11 track full length LP, it's tentative working title is ' We Pledge Allegiance '.

7. Are there many skins in your area ?

Their are about 10 - 15 true blue skinheads in the city of Lancaster and the rest are really just weak hearted baldie types or trendies.

8. Does the band take a political stance ?

Our political beliefs and ideals are pretty much influenced by the works of The White Noise Club /NF. Although we cannot understand support for Libya and Iran. We do understand your stance is on European politics. We are not race naters, but we believe in race separation to solve the racial problems of this country. A lot of people think separatism is racism - how do you keep 2 Siamese fighting fish from killing each other. YOU SEPARATE THEM !!.

9. What can you see developing for the band in the future ?

Well, after we've released a few more records and make a name for ourselves, we'd like to try to set up a mini tour of the east coast with our close mates in Arresting Officers. We are also working on t-shirts and stickers, the budget is tight at the moment though.

10. If you ever came to the U.K for a gig, what bands would you most like to gig with ?

The band we would most like to gig with would be Skullhead, they are a great band and Kev is a great bloke. As for other bands we would like to gig with, they would be : Condemned 84, Brutal Attack, Violent Storm and a few more.

11. Have you got any contacts with other U.S bands like The Uprise, New Glory, Anti Heros etc ?

We are best friends with Arresting Officers, we get together alot to drink and they come to the studio to help out with backing vocals whenever possible. They are a great bunch of geezers and we wish them the best of luck with the LP and all future recordings. We are also in contact with Rob of New Glory, Joe of The Anti Heros and many more.....!

12. Anything else to add ?

Yeah, congratulations Chris on your engagement to Joanne! On behalf of all of The Allegiance, I wish you and Joanne the very best of luck for the future (Cheers Joe !..) and also before I boot off, I wanna say hello to Sara, Shelley, Baird & Joani and all our mates in A.O (Brian, Paul & Bob) - Keep on fighting.

English Rose

Above L-R -Spen-Spens Kid-Jonesy.

Heres a bright and cheerful foursome from Loughborough in Leics and are currently making a good name for themselves up and down the country from their excellant demo tape (See Details..). All the interview was completed by Jonesy 'English Roses' vocalist :-

1. When, Why and where did E.R form ?

The band was first an idea back in mid '87 when Spen was playing Bass for a local non political Oi! band from the Coalville area by the name of British Born, and I was helping the band out with lyrics to a couple of the songs. We talked about getting a nationalist skinhead band together and went in search of a drummer and guitarist, it took a little time but in the end we managed to get a full lie up together.

2. Whats the current line up with ages and has there been any changes in this line up?

The current line up of the band is :
Jonesy (21) - Vocals, Spen (20) - Bass, Mick (18) - Guitar and Blakey (21) on Drums. There has only been one line up change, we did have two guiatrists but we asked him to leave through lack of effort.

3. Whats the bands views on the big split between White Noise and Blood & Honour ?
Surely there can't be any compromise with so many political differences ?

The split has happened and I think people should forget about it and carry on the fight against the real enemy. Their are alot of political differences but not that makes us enemies, in Leicestershire nationalist and N.S skins are all united and see no reason to fight, we are all white and have all the same enemies, does it really matter if you clench your fist or not when you raise your right arm ?. Their have been arguements between us which I think should all be left behind us and we should concentrate on fighting the other side and not each other, stand united for our land and for our people - White Power!!.

4. What subjects do you sing about ?

We sing about quite a few different subjects but basically anything we feel strongly about we'll put across in our songs.
' Wasting Away ' is about the skinhead way of life and how a skinhead is locked away not for his crime but for his appearance and his political views.
' No we won't listen ' is about how people reject us for what we are and how they try and change our ways but No! We Won't Listen.
' Take Vengeance ' is about the boys in blue who use there position to oppress us but in the end we will hit back.
' Proud Nationalist Warrior ' is about the White Warrior who stands proud and fights back for his race and nation.

5. When will you be venturing into the studio to do some recording ?

We do have a tape out at the moment which contains 8 tracks these being :

Proud Nationalist Warrior.	Uprising.
For Race & Nation.	Take Vengeance.
Ulster Awake.	Pervert Scum.
Wasting Away.	No We Wont Listen.

This tape is just to give people a rough idea of what we're about. We will be recording 2 or 3 tracks to send to Rebelles Europeens soon to see if we can get some kind of a deal off them. We hope so. If anybody wants a copy of the tape its £2 Inc P&P from the adress at the end of the interview.

6. What do you think of subjects such as - Drug Pushers, Capital Punishment, Abortion and Race Mixing ?

Drug pushers are no good evil scum, they push their drugs upon peoples who are sometimes to weak to say no, they bring misery to these and their folk aswell, scum such as drug pushers are definately contenders for the rope...! Capital Punishment - well the whole of the band think it should be brought back for the likes of Drug Pushers, Rape, Murder, terrorism and so on. It should be brought back because the scum that commit such crimes know that they are getting off so light when they are caught and sentenced, so to bring back Capital Punishment would be a great deterrent. Are there any governments left with enough bottle to reintroduce it ? Well onto Abortion! I think I speak for the rest of the band when I say it shouldn't be allowed as to me it is simply MURDER! Onto Race Mixers - it doesn't work mixing races as history shows and to be honest we don't need them around. There will be in time a race war so repatriation now is the sane thing to do while time is still on our side.

7. Are all of E.R skins and whats your influences musically and politically ?

All of E.R are skinheads in dress and appearance except for Mick our guitarist who was a skinhead for a number of years but now has a flat top. We are influenced musically by the usual skinhead bands old and new with both political and non political stances, our sound we see as a straight forward skinhead sound with no fancy bits but in the future we hope to develope a more heavier sound. Politically we are a nationalist band.

8. As we are led to beleive Jonesy you were recently released after a prison term. Could you tell us all about this ?

Yes, I've been out a few months now after doing 12months of a 18 month sentence. I was nicked one night by the local old bill who I think had nothing better to do. To put it simple 2 of us were nicked, the other skin from out of town, we were put in a cell for the night after resisting arrest. When the morning came I wasn't expecting to be charged for much really but this wasn't the case. I ended up with 2 charges of ABH and a wounding charge, the other skin wasn't far behind me. We went to court and the old bill went for a remand on me not the other skin. I was put up on remand for 6½ months until my trial came up. I went up for my charge to find the wounding had changed to a ABH and the other charges dropped. As it happens a Paki barrister who defended me decided not to say anything on my behalf as he thought silence was better Ha Ha! Thats how it went.

9. In Leics how many skins are there ? Do they have a main pub and do they like ER ?
We hear at B.Oi! their is alot of friction between football boys and skins after a Glory gig ?

In Leicester I can't really say how many skins their are as I only know one or two. Our lot are from a town called Loughborough and the surrounding villages. We get together on Saturdays and have a good drink and a laugh, we pile into any pub that'll have us. Most of the lads and lasses show their support to ER for which we would like to say CHEERS!. You say their was some friction with the football mob after a Glory gig. That I can beleive. Most of the shit skinheads get in this area is from casuals etc, not blacks and reds. The football mob around here are known as the Baby Squad and in gangs they're tough but alone they are shits.

10. Why the name
English Rose ?

We have been asked this before, I don't know really. We were called White Aggression originally but we changed it after hearing about the Swedish band of the same name. We had a few other names in line but we opted for E.R. I didn't like it at first but its grown on me.

11. What skinzines do you enjoy reading and what do you think of money making scum like tatty crap
Beyond The ?

There are a good number of zines around today and I read as many as I can. British Oi! is always good and I look forward to receiving it, also Unity, Boots 'n' Braces, Blood & Honour, White Noise and just about every zine about. I think the quality of zines has gone up no end. I can't comment on the zine 'Beyond The' as I stopped buying it a couple of years back. '14 Up' could be better but thats up to Gord the editor. My advice though is steer clear of him as he is only in the game for his own gain and word is he sells zines, tapes, videos etc without the bands permission of the owner people like that should be stopped.

12. Anything else to add to conclude this interview ?

First off we'd like to say a big thanks to you Chris for the interview and the best of luck with British Oi!. Thanks to all the lads 'n' lasses we know in Leics, Kev Turner, Violent Storm and all the skinheads who've stayed true. All E.R info and demo can be obtained from Dave Blake, 95 Wharncliffe Rd, Loughborough, Leics, England.

Cheers Jonesy for the great interview and in depth news on E.R. Well readers I have seen English Rose twice now at Stoke and Loughborough and they are a great band. Well worth going along to see. also their demo is a work of brilliance - BUY IT!!

BRITISH OI! REVIEWED!!!!!!!

The article reprinted here is a review British Oi! was given by the nationwide scooter enthusiast maga-

zine 'SCOOTERING'. Fair enough the good review is more than appreciated but why the terrible 'I wouldn't wipe my A**E with it' review of No.9 ? Oh well one good review is good enough eh ?!!.

bands from far flung places, like Brazil goddamnit! When was the last time you heard of anything from Brazil 'cept Salsa, beans, carnivals and dead trees?

All the band and record reviews are intelligently put together, there are plenty of photos (though admittedly the reproduction is a little weak) and best of all, politics is kept out of the picture.

British Oi! is available from:

British Oi!
(Issue 10) 50p **
British Oi! is British based, or to be more accurate, Welsh based, but is most definately internationally minded. It covers the Oi! and White Noise scene world wide. And by world wide I really mean world wide, it doesn't just run a couple of French bands the editor bumped into on holiday last year, like some fanzines might, but really goes out of its way to track down

Power Skins

Well heres a rather short interview from Italian up and coming nationalist band 'The Power Skins' -

1. When, why and where did you form ?

Our band was born at the end of '85 with the original line up being - Franco(Bass), Enrico(Guitar), Bruno(Drums) & Caio(Vocals). This was our first ever band and we did do some gigs and later on recorded a demo. Since this line up, up until now we've had countless changes. The line now is - Franco(Bass), Enrico(Guitar), Edi(Drums) and Franz(Vocals).

2. Are any of the band members of any political party ?

We are not members of any political party at the moment. We are all right wing but have no deep interest in politics.

3. What are The Power Skins songs about ?

Our songs are about the social problems in Italy and in Europe but we also have songs about beer and women.

4. How many skins are in Trieste your region of Italy ?

We only number about 10 at present. A bit disapointing but we have all joined together and united our forces into one. We're disliked and put down but most people.

5. Do the local press and media portray skins and nationalists bad in Trieste ?

The regional media, newspapers and T.V etc have never really had cause to talk about skins and patriots, even though some of them have marks on their faces the shape of a Dr. Marten boot. Will they ever learn!

6. What are your views on the nationalist movements of Europe at present ?

We are all on the same lines of thinking when we say that nationalism is growing and its a stronger force each day, we are convinced it'll grow.

7. Anything else to add ?

Only that we'd like to seize the oppurtunity to thank you chris and salute all European but especially Italian skinheads.

VIOLENT STORM & SKULLHEAD - Third Way - Counter Culture Records.

The debut single from the newly formed 'Counter Culture' formerly White Noise. A great start. Skullhead feature on Side One with 'Blame The Bosses' a tale of hate towards Capitalism and the evil it has brought to our fair shores. This song is in the same vein of sound as Look Ahead their "12 track but has alot more bop in it. Side Two features proud nationalist Welsh lads Violent Storm, there debut on Vinyl with two great songs 'Unemployed Voice' and the already classic 'Celtic Warrior' two smashing songs that definately put Cardiff on the Nationalist map for quality bands and music. If you haven't got it then why not ?? Your answer isn't good enough. Only £2.50 inc post from CC Records, PO Box 340, Cardiff, CF1 7UX.

CARRY ON OI! - Various - Link Records.

Another re-release from Link in the form of one of the famous Oi! LPs ever. Carry on Oi!. An LP full of life, full of speed, full of Oi!. Bands include 'Blitz' P.T.T.B' 'The Last Resort' 'The 4Skins' 'The Gonads' 'The Partisans' and more. Yet again a cover illustrating a new view of Carry on Oi!. 110% aswell. What has been said about the LP in the past is true. Its a classic. Get it now.

CONDEMNED 84 - Live & Loud - Link Records.

C/84s 3rd LP but this time on Link. Condemned 84 seem to be ever popular around the world shown by some true dedicated fans who travelled all the way from Sherbrooke in Canada to New York to see the live on there U.S tour shows how popular they actually are. 12 brilliant songs such as 'Face The Aggression' 'The Nutter' 'Keep The Faith' 'Boots Go Marching In' 'Skinhead' and many more. Recorded in '88 at the PorterHouse in Retford in front of a noisey crowd only gives more atmosphere to the LP. A must!!!

OI! OI! THATS YER LOT - Various - Link Records.

Yet another re-release from Link. Oi! Oi! thats yer lot was really done when Garry Bushell had got bored with trying to make money so he converted to The Sun of all people! But all in all a good LP thats shows the talent around at the time was still strong, still Oi!. Includes Crux, Five O, Attack, Black Flag and more all of which are great. But where are The Oppressed? One of the best, if not the best on the original isn't on it. Shame as those 4 magical Welsh Oisters were great. Oh Well. Yet again a new cover. One again to get hold of.

NEW GLORY - Never Surrender - Street Rock 'N' Roll Records.

A brilliant two track single from one of the best U.S bands. Never Surrender proves just why they're so popular amongst skins throughout this planet. Its a song about your self pride in being White and not bowing down to the multiracist beleive but your own pride being a strong tool against their corrupt system. Side Two features Sarge, a brilliant song about a war vet from Vietnam who nowadays is a down and out and it tells of his struggle to survive, so Fran of the band tells me, its about an actual man they met. These two songs are just a taster of there LP on Rock O Rama called 'BackLash' Get them both, they're brilliant.

PUBLIC ENEMY - 'There is only one..' - Rebelles Europeens.

The first LP from a British band going under the same name as the old Public Enemy from the old R.A.C days of '83 - '84. Somehow I get the impression that its Paul of No Remorse teamed up with some musicians to do some tracks. Songs include 'I'm The Answer' 'For You' a slow ballad of love for our land, 'British Justice' 'Hang The Marxist IRA' and my personal favourite 'Forward to Victory' a classic Rock_Oi! song about combatting the scum in the land. All in all a great LP.

ENGLISH ROSE - Demo.

A brilliant 8 track Nationalist Oi! tape by one of the best up n coming bands of '89. Tracks include 'Ulster Awake' 'Wasting Away' 'Proud Nationalist Warrior' and my favourite 'Uprising' about the White people of this nation Uprising and freeing our land. As I say 8 great tracks. Get it from the info on the English Rose interview included.

DAILY TERROR - Deutsches Bier - Skan Productions.

A brilliant "12 by one of Germanies best known and well loved Oi! bands. 3 classic tracks - being, Hier & Herte, Jubilirium and the singles title German Beer. I can't say which is exactly the best so think for yourself. Only £3 from Skan Productions, Hamburger Str, 73, 3300 Braunschweig, West Germany.

GUTTERSNIPE ARMY - Never Die - Link Records.

Great stuff, about time, finally a new and exciting band on the Oi! scene and yes they're British and proud of it. 12 tracks of sheer brilliance. Tracks include the title 'Never Die' which is dead lively and a definat for a dance at gigs, War Dead, England's Soldier, British Born, Armed Robbery and my favourite 'The Real Oi!' surely one of the modern day Oi! classics. Buy it or be bored!!

Oi! CHARTBUSTERS VOL.5 - Various - Link Records.

Volume 5 in the highly popular Chartbuster series. They seem to improve every Volume. Includes bands such as P.T.T.B, 4 Skins, Infa Riot, Crack, One Way System and my personal favourites on the LP 'Criminal Class' with their excellant contribution being oldie 'Soldier', it must be in the collection.

THE GONADS - 'The Revenge of...' - Link Records.

Well what 'ave we 'ere. Yes 16 tracks of pure punk for row people. The Gonads present previously unheard studio tracks, only heard live before like Sandra Biggs, Punk Rock Will Never Die, SE7 Dole Day, Eat The Rich, T.N.T and my favourite Gonad track 'Getting Pissed' which brings back alot of memories. Buy it.

THE CRACK - 'In Search of' - Link Records.

A debut LP from one of the up and coming brilliant acts of this year. 10 tracks of inspiration Rock/Oi!/Punk/Mod music. Its really great stuff. Sound so much like a lively Slade you'd beleive it was. Tracks include the great 'My World', You Keep Running, The Glory Boys, I'll Be There and The Giddy House. All brilliant. If the Business do have their last gig soon then maybe, just maybe The Crack will take over as No.1 street band. You've got to get it!!!!!!

THE SECRET LIFE OF PUNKS - Various - Link Records.

A re-release from link in the shape of one of the better compilations from Secret in the early years of the '80s. Includes some classic and quite brilliant material such as 'Dogs of War by The Exploited', 'One Law For Them by the 4Skins', 'Kids of the '80s by Infa Riot' all in all 14 great songs of classic street rock music. My favourite has to be the street anthem of 'harry May' by The Business. This re-Release as all Link records has a much better cover than the original with alot more pictures etc showing records out at the time, all the Punk and Oi! that is. Get it its a classic.

INFA RIOT - Still Out Of Order - Link Records.

Another re-release from Link from Secret this time in the form of one of the most sought after and popular LPs of '82 which incidently cruised into the National Charts at No.42 shows just how popular they were. 14 strong hard Punk songs from one of the bands who were devoted to 'Skins and Punks uniting, whether they did it or not is another matter but I personally beleive they did. Tracks include 'Each Dawn I Die', 'The Drug Squad', 'Power', 'Bootboys', 'InFor A RIOT!!' and others of which my fave is 'Catch 22'. Yet again a exciting LP cover which also includes a short and sweet history of Infa. Oh yeah, nearly forgot it also includes a extra track not originally on the LP, 'Kis Of The '80s'- Great! Its a must.

SHAM 69 - Shams Last Stand - Link Records.

Another Live LP by Sham released by Link. This time its the 'Last Stand Gig' held in London which led to quite a bit of Violence but I guess thats the past. 10 tracks of Chaos for the Sham Army to enjoy. Includes 'Borstal Breakout', 'I Don't Wanna' 'Voices' and more with my fave being 'Rip Off'!! Another great write up by Gary Fielding on the back aswell. A definat one for the collector.

THE RESORT - ' 1989 ' - Link Records No.'88'.

Well heres a LP that has been waited for, and well worth the long wait. The new look Resort (Roi Pearce with long hair but familiar glasses!!!) have some great tracks on this 10 track LP. A much more rockier sound compared to their other material which all in all improves their sound. Favourite and outstanding tracks are 'Right to Remain Silent', '7 Days, 7 Nights', 'Rubber Jenny' and 'Rock'N'Roll' with remakes of the classics like 'Rebels with a cause', 'King of the Jungle' and 'Horror Show'. One to get hold of !! 10/10.

MOONSTOMP - ' They Never See ' - Link Records No.86.

The debut LP from one of the USA's finest skinhead bands. Yet again another band from Atlanta, but they are somewhat better than comrades Anti Heros and Kicker Boys. Moonstomp have energy and a sound of pure Oi! that you don't hear much nowadays. *14 classic tracks and outstanding out of those are ' Nothing At All ' 'Stars 'N' Stripes' 'Streets At Night' 'Under Attack' and 'Get You Back'. If you don't get this your missing out on some great Oi!. 10/10. BUY IT!!

WHITE NOISE - ' The First Assault ' - Rock O Rama Records.

Debut LP from White Noise the up and coming nationalist sensation of the year. As mentioned earlier in the zine it has 12 great tracks with power of the fast and hard kind. Jim the vocalist makes alot of the songs great with his raw voice even out doing Kev of Condemned 84. Tracks include 'Paranoid' 'Clockwork Violence' 'Weekend Binge' 'Sick Mind' and the brilliant track 'Culture Shock' voicing their hate for the likes of queer scum like boy George and his bum licking partners. We want more WHite Noise. 10/10.

POP Oi! - 'Compilation LP' - Link Records No.95.

Another link compilation LP in the form of POP Oi! a rather unusual name but to reassure you theres no pop on it, just pure Oi!. 16 classic tracks. Bands include Moonstomp, The Crack, Guttersnipe, The Hoopers, American Eagle, The Madhatters, Frankie Flame and more. Best tracks are 'Fighting the System' by Criminal Class, 'Ginger Cringe' by The Hoopers, and Welsh lads Foreign Legion with the catching song 'Surf City. A great comp. 10/10.

The Business - ' Live & Loud ' - Link Records No.97.

Sadly The Business are no more but their records still go on. This Live LP is one of the best in Links Live & Loud series. 13 classic tracks. Recording is from The Main Event (NO.1) which as we all know ended with Commie band The Upstarts being kicked off stage. Anyway back to the LP. Tracks include 'Product' 'Never Be Taken' 'Welcome to The Real World' 'Do A RUNner' and my favourite on the LP 'Harry May'- the Business at they're best. 9/10.

UNDERGROUND ROCKERS Vol.2 - 'Various Streetbands' - Link Records No.94.

Vol.2 in the successful series of compilations with todays modern Punk bands. This LP has 7 bands each contributing 2 tracks. Bands include 'H.D.Q' 'THE AB'S' 'MANI STREET PREACHERS' 'SUSPECT DEVICE' and 'IDENTITY'. A reasonable LP much more inclined for the modern Punk but, as I've said it has modern Punk on it and some of it is really good. Favourite Track - ENGLEBERT HUMPERDINKS RACING PIGEON by Welsh lads 'The AB's'.

SKREWDRIVER - SHOWDOWN - White Pride Records.

A quite brilliant "7 by the famous Skrewdriver. Single presents two tracks, being Showdown the title track which details the future - race war and tells the truth that British Patriots should unite and destroy all the enemy scum in these lands. A brilliant song maybe one of their best tracks ever. Side two is Deep Inside a true song about jailed proud white men who although the system would love to change them, they won't. Their spirit will never die. A classic "7. *10/10.

SLAUGHTER & THE DOGS - ' The Slaughterhouse Tapes ' - Link Records No.92.

Well heres a band I've not really listened to for quite a while. This LP is it could be put , a bit of history as without Slaughter alot of bands like Sham, Cock Sparrer, and The Rejects wouldn't have had as much zap without the strong influence of Punk Godfathers S. & T.D. The LP itself consists of 12 songs with a mixture of live and demo tracks. Outstanding track is 'Situations' - BUY IT. 10/10.

THE LUNKERS - ' King Of The Mountain ' - Link Records NO.87.

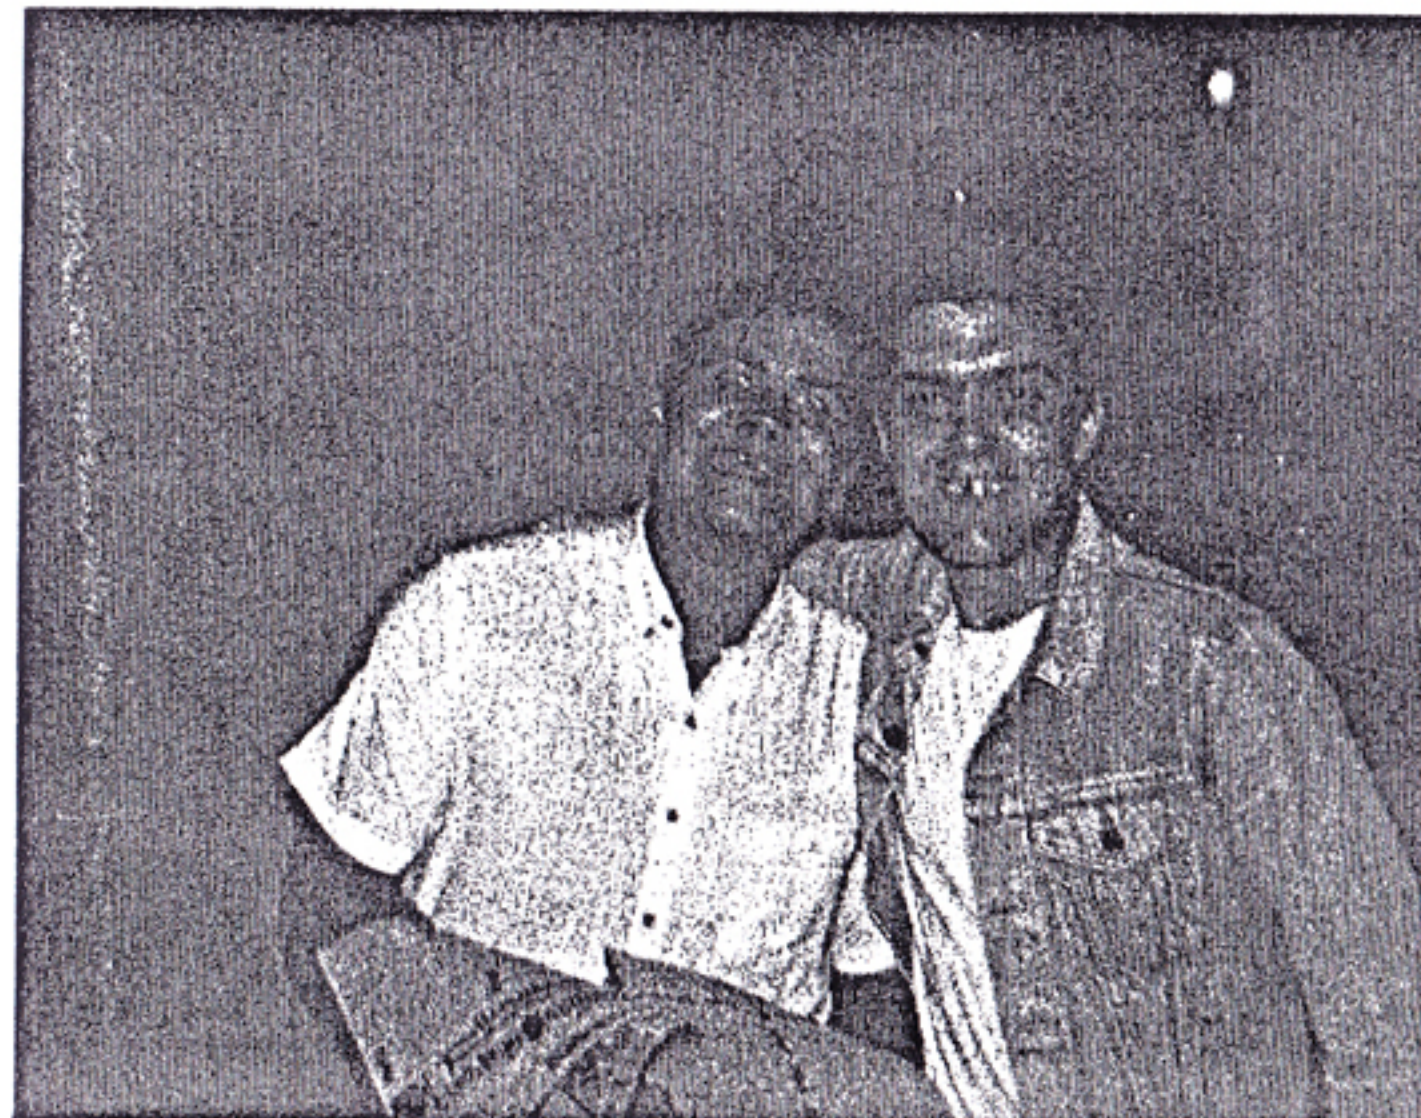

The comeback LP of one of the old punk bands of the past. This infact is a mini LP only containinf 7 tracks of the new improved band. And what an improvement. 7 brilliant songs all with the great fast punk beat of their own. Tracks include 'Barbara Blue' 'Unfinished Business' 'King of the Mountain Pt.1 & 2' which are classic, fast and raw, and the LP's best track 'Lucky John'. Great stuff. 9/10.

THE 4-SKINS - LIVE & LOUD - Link Records no.90.

A bit of Oi! history on vinyl. The 4skins live in front of their home fans and the famous Oi! inlet 'The Bridgehouse'. 11 tracks including 2 encores are on the LP which could've been recorded better but Oh well its still great. All the faves are their - Evil, ACAB, Jealousy, I dont wanna die and my favourite off the LP 'CHAOS'. A great LP 10/10.

MORE RECORD REVIEWS NEXT ISSUE

Section 5

Heres a good little interview I had a few months back and its with Tosh of Section 5 just asking what they're up to and asking a few questions to straighten up a few rumours circulating at the moment.

Read ONKKKKKK.....

Left : Tosh and
Mark Magee out
of the 'GLORY'.

1. Could you tell us a bit about the saga of Nik leaving the band and who the replacement is?

Well Nik left the band on a mutual agreement with me and Sid.

The replacement we had originally became unreliable so he never really joined the band as such. Steve of Close Shave fame is drumming for us nowadays. Hes drumming for both bands. Hes really adjusted to the band well.

2. We hear at the British Oi! headquarters that a new LP is on the horizon, could you tell us more?

We are due to record soon, mind you we've been saying that for quite a while but hopefully something will happen soon. We haven't decided on a title yet.

I'd say we have around 10 possible tracks for it so far but we'll see what happens.

3. Will this new LP be in the same vein as 'Street Rock & Roll' or back to the more original Oi! side of Section 5?

It will probably be different to Street Rock & Roll and also different to our Oi! stuff but it will certainly be typical Section 5.

I always class our stuff as Oi! even if others call it rock. To me Oi! is just a label. All the best bands originally had the ability to produce quality music and for Oi! to gain recognition on the airwaves its got to reach a wide audience without losing its roots and identity.

4. Nowadays you are a quite famous household name for a Oi! band. Do you find gigs more regular now or are they still few and far between? What gigs have been enjoyable lately?

Gigs are still few, this is due mainly to mugs who still think if they allow a skinhead band to play a repeat of Southall will occur but thats just their plain ignorance. Mind you their is still a mindless few at gigs that need to be stopped.

5. The rumour going round the Oi! circuit is that you and Sid were going to join the reformed 'Blitz' aswell as doing Section 5. Could you tell us more?

Originally both me and Sid offered to help Nidge Miller reform Blitz. Nothing was heard from Nidge for a while then I had a phonecall asking if I'd join him and play bass and sing. I felt I couldn't give him a definite answer because of personal commitments and I didn't want to put him in a position where I'd be wasting his time or possibly let him down. Nothing since has come of the matter also we feel Section 5 come first so with all the travelling involved it would've become hard to keep it up.

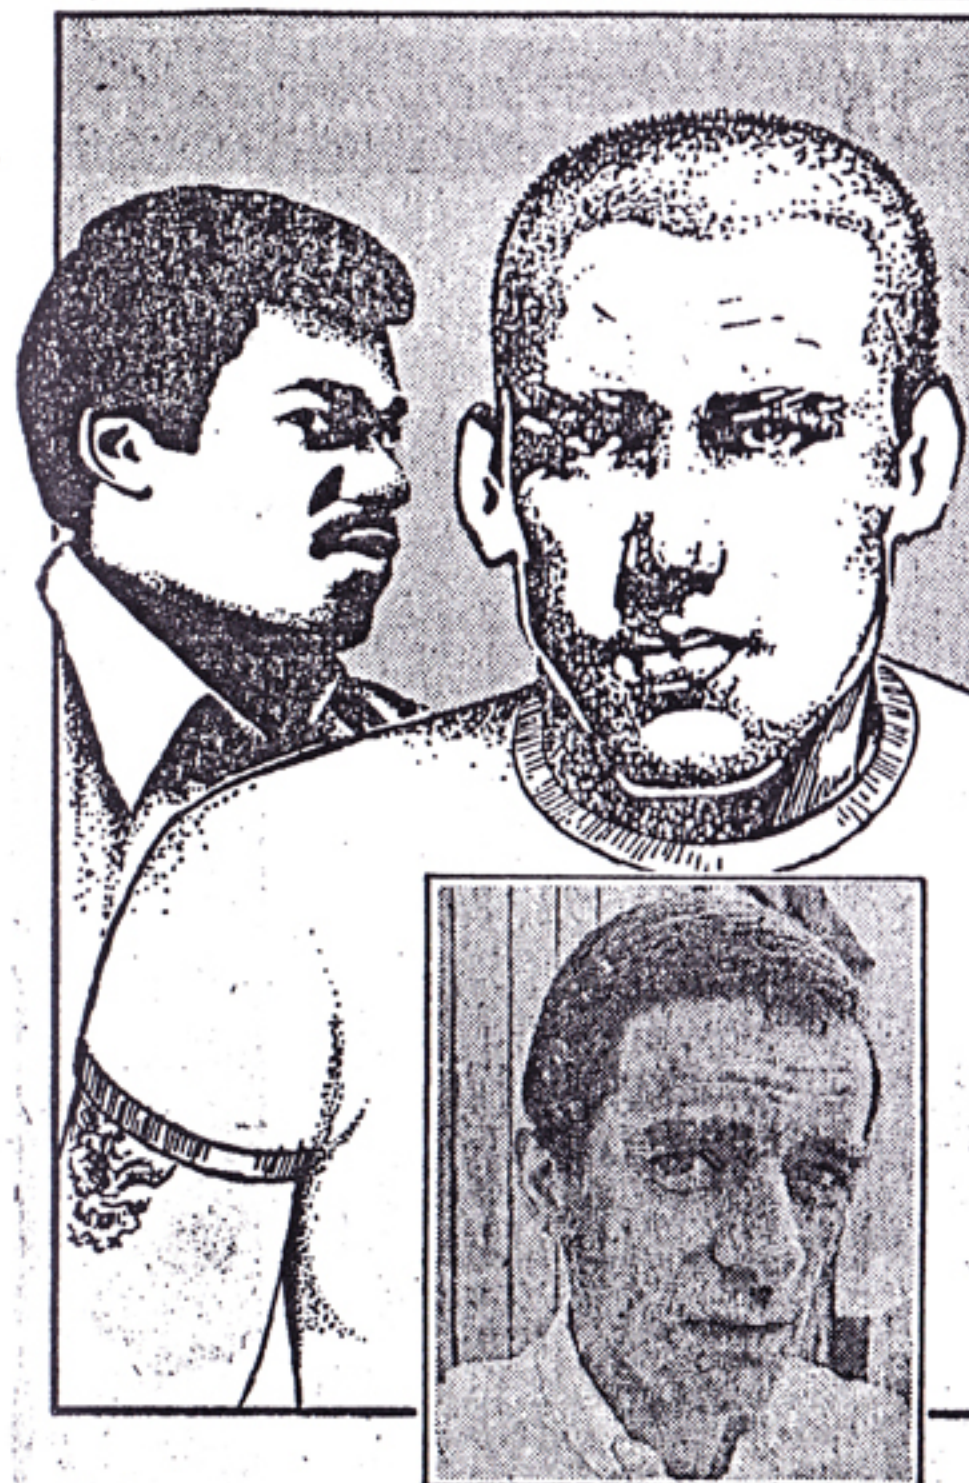

6. Anything else to add?

Only cheers for the interview Chris. Also chhers to all our mates around the country.

Happy Birthday

A big British Oi! HAPPY BIRTHDAY on your first joyful year of life goes to Rhys gorgeous and great little son of friends Julian & Melanie of Cardiff. We wish Rhys a lovely life and may he lead a youth revolution in his time.

HAPPY BIRTHDAY RHYS!!!!!!!

SUSPICION: BUT Moreno (inset) is fighting back

Skinheads set to stop political hijack

A FRIEND of mine recently gave some cigarettes to two skinheads in a popular pub in the centre of Cardiff. They had run out of tobacco, and Dave's gesture was an attempt to 'treat them like anyone else.'

quiet-looking Asian student who they claimed had been staring at them.

After a discreet inspection of their tattoos, Dave concluded that the olive branch had been offered to a couple of young racists.

We all shared his despair at the display of brazen sense of conviction we had witnessed. We did not share any more cigarettes.

This sort of experience is why many people are wary of skinheads, and often regard them as inherently nasty characters. Yet like anyone else's, their world is full of contradictions.

Scratch the surface of this sub-culture and the proverbial different picture emerges. In fact, the very idea of 'skinhead' is currently a site of struggle, as various interpretations, meanings and individuals compete for the 'skinhead' identity. Roddy Moreno, of Grange Town, Cardiff, is a particularly significant example.

At 32, with a prison spell behind him, Roddy has been a skinhead since he was 12, and with Spanish and Irish grandparents, is only too aware of racism.

Eighteen months ago he founded the first UK branch of SHARP (Skinheads Against Racial Prejudice) after discovering the organisation during a brief holiday in America.

SHARP now extends to Huddersfield, Bournemouth, Ireland, Belgium and Australia.

SHARP is committed to re-appropriating skinhead culture from what it sees as a political hijacking by Right-wing extremists.

Determined and articulate, Roddy explains: "We're saying to ordinary skinheads 'Stand up and fight for your scene, because otherwise, the Nazis will steal it'."

In South Wales this means organising good gigs where SHARP leaflets are available and profits go towards the next event.

Roddy makes a modest living from running two record labels — but since feeling comfortable with his identity is very important to him, SHARP is equally crucial. So what does it mean to be skinhead in Wales as we enter the 1990s?

"It's not like it was... we used to get 300

Mike Ormsby

On...
Fighting racism

of us going to Barry for a day out. That's all gone now, I think the fascist stuff puts people off," said Roddy.

He sees a racist skinhead as a contradiction in terms: "To me, our way of life is all about mixing cultures, sounds and styles... that's how we started, that's how it should be..."

But according to a skinhead I approached outside Ninian Park after a recent evening match, this is not how it should be at all.

Chris, who declined to give his surname, is 18, employed, and has been skinhead for six years. He knows of Roddy, likes the music he made as leader of the Oppressed, but remains unmoved by SHARP. Soft-spoken and with a ready smile, Chris is an active member of the National Front.

A stranger came up to me after Chris and his friend had walked on. A young Welshman, working as a journalist in London, he is a member of an anti-fascist organisation and could barely conceal his anger.

He knew of my two interviewees, and insisted that I include his denunciation of 'those scum' in this article. "They're all the bloody same," he said.

"They're not", I replied, and told him about Roddy Moreno.

Well heres a interview with a great Polish band by the name of White Eagle. They purely represent revolution. Lets hear what they have to say;

1. When, why and where did White Eagle form ?

We formed in the Autumn of '89 in Bydgoszcz (in english said - Bidgosh). The reason we formed was due to the fact that no real skinhead band exists in Poland. Just hardcore and Punk. We wanted to spread nationalistic views and so a band is a great way to spread our propaganda.

2. What jobs do the band do ?

Two of us work in a hospital and the other two are still students, we all age about 20.

3. Have any of White Eagle been in any previous bands ?

Our bassist and drummer were both in a hardcore band but our guitarist and myself (Rudy) are new to being part of a band.

4. What political stance do the band follow ?

We are all nationalists and racialists. We hate especially the zionists and communists. We beleive in the idea of a White Power Europe.

5. What are your views on the eastern block revolutions and the coming down of the Berlin wall ?

We're very happy about commies being smashed in Eastern europe but we dispise the fact that they've been replaced by power mad zionists.

6. What topics do you sing about ?

Our lyrics really just cover our political beleifs, we sing about anti-zionism, anti communism and our love of the white race.

7. What do the band members do in there spare time ?

Before anything, we drink, and we drink lots of beer and also go to concerts and football, our team is Zanvisha.

8. Why the name White Eagle ?

We chose this name because it is the symbol of the polish nation. The sign was on the flags of Polish Knights.

9. How is it to be a skinhead in Poland?

The mass media shows us as bandits and the police oppress us as much as possible.

We fight against the punks and anarchists.

Generally, when you're a skin in Poland you get threatened and picked on all the time.

As far as it goes with clothes, we look like skins in Western Europe and have crops, wear DM Boots, wear Levi's etc etc.

10. What bands do you like?

Our favourites are Skrewdriver, Rejects, Cock Sparrer, Skullhead, Evil Skins, Bohse Onkelz, The Allegiance and lots more.

11. What contacts have you world wide?

We have connections all over the White World. We keep in touch with skins in Australia, the USA and of course our Europe, we have great contacts in France.

12. Anything else to add?

Yes. The band (Rudy - Vocals, Pawel - Guitar, Dhigi - Bass and Sloik - Drums) send their best greetings to all our comrades over the world and everyone involved in the hard racial struggle. Cheers to BRITISH Oi! - WHITE POWER.

Well here's an interview with the above named 'VIT REBELL' which is a skinzine from Sweden which has gained a lot of publicity in Sweden from its blatant reports on the state of today's Europe. Anyway, I sent along the following interview to Peter one of its editors.

1. When and why did you start 'Vit Rebell'?

Peter: I decided to start Vit Rebell in early 1989, because there was not any Swedish magazine which satisfied my musical taste and my nationalist views. The first statement I made in Vit Rebell, which I think answers the question 'why'? a bit more in depth, was the following:

'Nationalists Unite' - this is the message that the new white revolutionary magazine preaches. The time has now come to start the gigantic final battle, to totally smash the rotten and occupied system and build up a new order upon its ruins after N.S Principles, National Freedom, Social Justice and Nordic Union.

2. What was the response to Vit Rebell in Sweden?

Peter: Among most nationalists the response was great. I think that many nationalist minded people at last found a magazine that suited them straight to the point views. The magazine was also a 'home' for all the Swedish nationalist bands. The sick government response was to recently prosecute me for 'inciting racial hatred' because I had included a few quotations from 'The white man's bible' which is written by Ben Klassen the founder of the Church of the Creator.

3. Why did you choose the name Vit Rebell?

Peter: Because Vit Rebell (which means White Rebel) is exactly what I and every racial conscious freedom fighter could be labelled as. At first I didn't want to call it this due to the fact there was a French zine - Le Rebelle Blanc already on the scene, but after a while I decided to use the name as I like it.

4. What contacts do you have worldwide?

Peter: I have too many contacts to mention, but the most regular ones are: The White Separatist from Australia, Sieg and J.A.M. Wikinger from Austria, De Levenswil from Belgium, Boot Boys and Gjallarhorn from Norway, Race & Patria from Brazil, Der Nahkampf from Germany, Martel en tete and Tribune nationaliste from France, The Oklahoma Separatist, The New Order, W.A.K from the U.S.A., Hammer of Thor, Blood & Honour, Unity, The Sunwheel, Last Chance and of course British Oi! all from the UK.

5. What topics does Vit Rebell cover?

Peter: It covers any topics that would be of interest to nationalists. It has included reports of skinhead concerts, interviews with skin bands, record reviews and articles on what the future holds in store for us, also world wide political topics.

6. How is the skinhead scene in Södertälje?

Peter: There is about 20 skins in our area and also a skin band Vit Aggression. We've been harassed by police for our fights and threats to communists and when we organised our first ever national day festival in Södertälje it nearly turned into a full scale race riot. After this there was loads of tension towards us in our area, however the real enemy is the Zionist and their lackeys who feel unsafe as long as we keep our resistance alive.

7. Which Swedish and non-Swedish bands do you prefer ?

Peter: The Swedish bands I enjoy are Vit Aggression, Dirlwanger and Division S as their music is good and there lyrics are straight to the point. But not forgetting Agent Bulldogg and Pro Patria. Its impossible to say whos the best. My favourite band of all are Brutal Attack they are the number one skinhead band in the world today, my favourite track is 'Follow Me!' (The Warrior Awaits). There are loads of bands on todays scene who I enjoy from many countries which would be a long list, keep on giving us good music.

8. What do you think of Nationalist Unity ?

Peter: I think that splits in nationalist 'Parties' should have taught us a lesson. What we need is NOT a new party which holds meetings and talks about unity and holds fiery speeches about the devils who oppose them should be fought. No, what we need is a hard way of thinking. We must give hope to our warriors, the music is our sword and with hard lyrics can be very explosive. Our movement should have small Cadre units which fight independtant of one another, they must prepare for the fanal war, a good book to read on such a life is in 'The March up country' by Harold A. Covington - Hail Victory.

9. How was the Skrewdriver concert in Sweden (*1989) ?

Peter: Lets not forget the other bands Dirlwanger, Commando Pernod and Pro Patria. I organised the concert and it was quite good. 300 or more turned up from Sweden, Finland, Germany and England, 300 is alot as only 8 million live in Sweden. The Anti Fascists from England (Searchlight) tried to stop the gig, they told the police that "nazi leader Ian Stuart was in Sweden to inspect his troops", this really scared the police and they even called in extra police and had the military on reserve, this in turn scared the people who owned us the concert hall, so they refused to hire it to us. But a second hall was found and the concert was held in Swedens capital Stockholm instead, the most popular song by Skrewdriver was (of course) ' LAND OF ICE! '.

10. Do you sell any merchandise ?

Peter: No, not at the moment, but I will try to start producing t-shirts, posters in the near future, it also depends on how my trial ends up!!!!

11. Do you have any final statement to add ?

Peter: I would like to hail all my revolutionary comrades and especially you Chris for this interview and good luck with the future mate. Let me end with a quotation from 'The March Up Country' by Harold A. Covington -

".....We are entering a crucial period because under the best of circumstances the calmination of a successful revolution is going to take the span of years measurable into two figures, and if we don't get our act together and make a serious beginning very soon the clock is going to run out. I'm convinced that we can still pull it off, despite the decades we have wasted on assorted silliness, we can still pull it off if we can stop the nonsense and get started now. The preliminaries have lasted over long but now they are over. Its time for the main event....".

Remember we are not the last of today but the first of tomorrow.

Many thanks for the interview Peter and good luck with the trial and also the best of luck with Vit Rebell in the future.

'999' - The Cellblock Tapes. Link Records No.125.

Another 999 LP off the Link label, not the best but it does capture there early style in the form of rare demos and live music. 15 listenable tracks which may appeal to you or they may not. 7/10.

Oi! Chartbusters Vol.6. - Various - Link Records No.127.

Volume 6 and much the same vain as the previous 6 with rare demos, live recordings and just plain rareties from the classics like - Blood, Lurkers, Crack, Rejects, Section 5, Business and more. Worth a listen. 9/10.

Ultima Thule - Hurra For Nordens Lander - Rock O Rama Records.

The brilliant Swedish nationalists are finally caught on a LP. All the classics from the demos are included like Sverige, Sverige Fosterland, Vikings, Ungdomstak, and Engelbrektsmarschen. Great musical anthems to stir the heart of any Swedish patriot. Get it 10/10.

CLOSE SHAVE - Hard as nails - Link Records No.117.

The second LP from one of the best Oi! bands in Britain today. 14 great tracks, with all the makings of a class band. Tracks include 'Lock up your daughters, All for England, Ding dong merrily Oi! Oi!, On your own, we're coming back, and my personal favourite 'Death Row' which tells the tale of restoration of the death penalty. With good music and a gravel voice of Fluffy you can't go wrong. Buy it and enjoy it - 10 / 10.

100 Birthday Anniversary - Various - Rebelles Europeans.

A birthday celebratory LP for Hitler made up by Gael of R.Europeans, includes most of the N.S bands on his label like No Remorse, Dirlwanger, V.B.M., Bunker 84, Legion 83, Lionheart and Public Enemy, all in all 10 tracks the best in my view being 'Things I remember' by Swedes Dirlwanger. I think Gael could have done it better but its well worth getting hold of. (9/10)

Oi! Oi! Oi! - Various - Link Records No.130.

A continuation in the Oi! compilation LP's from Link, this LP maybe better than the rest, it has some great songs. Includes the brilliant Distorted Truth, Section 5, Last Resort, The new improved line up of Blitz, Close Shave, Crack, Guitar Gangsters and the Boneshakers. As I say some great tracks. My favourites are 'Party Political Bullshit' by Distorted Truth and THOSE DAYS by Blitz. Well worth getting hold of. 10/10.

DIRLEWANGER - Rocking for the Golden Race. Rebelles Europeans.

A great debut LP by one of the better known Swedish bands but as of yet never featured in British Oi! so I'll have to see what I can do. Well this LP is brilliant. Contains 11 tracks, one side being in English, the other in Swedish. Both sides show Dirlwanger are at the front of Swedish white nationalist music. Tracks include 'The Call, It was power, Justice of today, Dig ett jobb, Jugen nad and Sverige e vart. Can't really say my favourite as I enjoy alot of them. Get it, its worth it. 10/10.

BATTLEZONE - RIGHT TO MARCH/SQUALOR "7 - Rebelles Europeans.

A great second single by the 4 lads from Essex. Well done boys. Right to March the A side shows a new side to Battlezone compared to their first single 'Way of Death' a much better sound all in all, this song describes our plight to march to air our views. A classic number! Squalor in the same vein as R.T.M. tells the tale of our once great Britain but now sadly decaying, and of course how we want it back. I can't speak enough of Battlezone - BRILLIANT. Roll on the LP. 20/10.

SKULLHEAD - Odins Law - Rock O Rama Records.

The second LP from the north easts finest. A brilliant LP and a marked improvement on there debut. 10 great tracks including Odins Law, The way it is, He's Red, Stormtrooper, Patriotic Pain, ANC and a remake of the classic 'Chaos'. All songs served up with great music and vocals, can skullhead keep this standard up? I damn hope so. Fave track Way it is / ANC. 10/10.

BRUTE
FORCE

Here are a band to tell the truth of, I didn't know little or anything about except a few people had expressed to me how they've enjoyed them at gigs etc. Anyway lets hear what BRUTEFORCE are all about...Answers by Dave the bassist.

1. When, why and where did you form BruteForce ?

Dave : We all knew each other and two summers ago we just decided to start a band because there were no real Oi! bands in New York City, the members are from areas of New York - Manhattan, Brooklyn and Long Island.

2. Whats the current line up ?

Dave : The current line up is....Ben - Vocals, Keyboards and Harmonica,
Chris - Lead Guitar,
Lewis - Rhythm Guitar,
Tony - Drums and
Myself on Bass.

Over the years we've gone through several line up changes, this is the final line up.

3. Why the name Brute Force ?

Dave : It sickens my heart to see my White kindred that have lost their racial identity through decadence, materialism and brain washing. The sheepish masses that are content with their lives despite the fact that their cultures, countries and communities are being torn apart, Your cowardly politicians will not do anything and the medias whores won't save you but BRUTE FORCE will.

4. What topics do you sing about and which do you class as the most important ?

Dave : We sing about many topics but the one closest to our hearts must be our racial beliefs. We sing about the legacy of the White Race, revisionism, life in Jew York, abortion, Gun control and drinking beer. Your better off listening to our words and making your own mind up.

5. Are you political ? If so who do you support ?

Dave : Yes, we support all organisations sincerely dedicated to White survival regardless of whether they are national socialists, Odinists, Populists, Creators, Klan, W.A.R or Identity Christians.

6.. Have you any current vinyl plans ?

Dave : Yes we plan a "7 E.P soon to be released on the U.S Oi! label - Oi Core.

7. How many gigs have you played and who with ?

Dave : We've played several gigs with Sick Society, American Eagle, Forced Reality, Doc Marten, Anti Heros, Y.D.L, Madhatters and more. We'd like to tour the U.S and especially Canada if the chance arose.

8. Have you any merchandise available ?

Dave : We have a 5 song demo for 4 dollars in the U.S and 5 dollars overseas. Also two different t-shirts, which cost 8 dollars each.

9. What do you think about films such as 'Class of '84' and 'Suburbia' ?

Dave : We couldn't care less.

10. What has influenced Brute Force musically ?

Dave : Musically we've been influenced by Lynyrd Skynyrd, AC/DC, Raging Slab, Skrewdriver, Guns N Roses, Molly Hatchet, ZZ Top, The Cult and Rush.

11. What U.S bands do you like and which do you dislike ?

Dave : We like Sick Society, Midtown Bootboys, Bound For Glory, Arresting Officers, Retaliation, Carnivore and Elite Terror. We dislike 'The Press'.

12. Anything else to add ?

Dave : Thanks to Chris for the interview and to anyone and everyone who has ever stood by and behind us. You know who you are - HAIL VICTORY.

Cheers to Brute Force for the interview and good luck with the forthcoming EP. Also if readers are interested, Dave produces his own skinzine called 'Look to the future' and issue 2 should be out by now, also No.1 is still available, contact both Brute Force and Look to the future through....

Here goes a interview answered by Lenny the bands singer.....

1. When, why and where did Squadron form ?

Lenny : Squadron formed in 1985 but disbanded, it reformed in 1987 with two of the original members being Rob on drums and Shock on bass. Shock then moved onto vocals but left the band in 1988, and was replaced by myself (Len) at the end of '88. Rob left the band in '89 and was replaced by Neville.

2. Whats the current line up ?

Lennie :
Jim - Guitars - Aged 21,
lennie - Vocals - " 24,
Brad - Bass - Aged 22, and last but not least....
Nev - Drums - " 23.

3. Why the name Squadron ? Did you consider any other name ?

Lennie : The name Squadron was picked out of a dictionary with a pin in 1985, Two other names were considered but I can't remember what they were, so Squadron it is.

4. What topics do you sing about ?

Lennie : We plainly sing about life, real life, about communism, Child Molesters, Rapists, Jews and race mixers.

5. Have any of Squadron been in any other bands ?

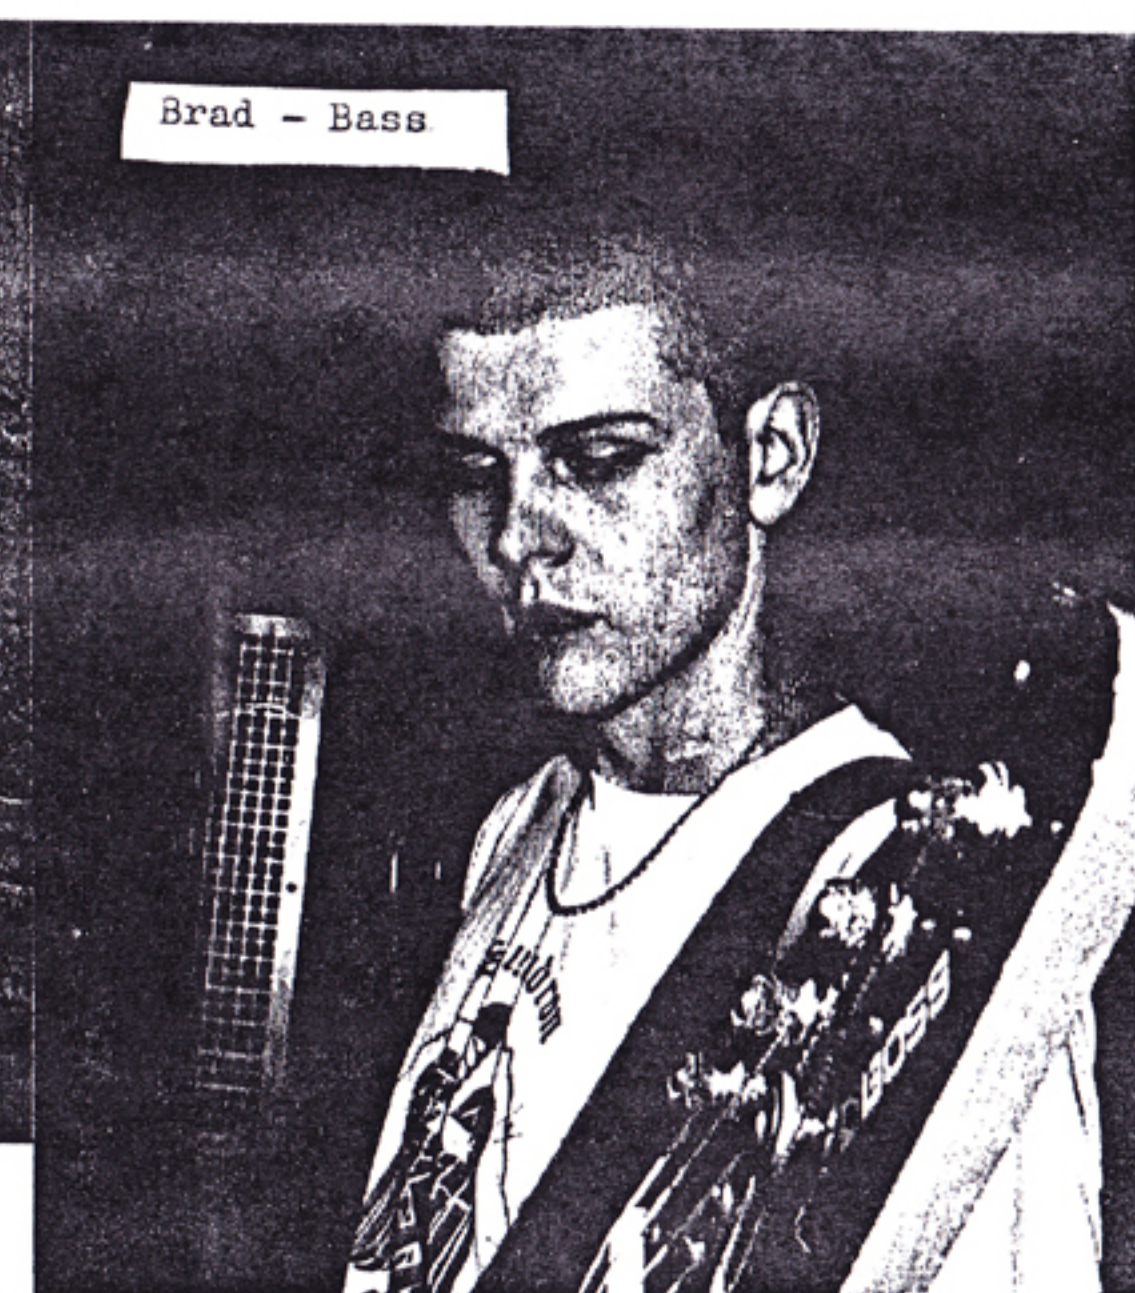

Lennie : Yes a few, mainly ranging from Punk, Metal and of course Skinhead bands.

6. What has been the reaction to your GODS OF WAR appearance ?

Lennie : The reaction to Gods of War Vol.3 has been better than expected - Cheers.

Jim - Guitar

Brad - Bass

What are your views on the following :

- A. Unification of Germany ?
- B. Decline of communism in Europe ?
- C. Hong Kong Chinese getting British Passports ?
- D. Our current government ?

Lennie : A. About time, its great news. B. Communism in Europe was only a fashion like alot of other things. C. We don't want anymore immigrants, or the ones we've already got. D. Our current government has alot of faults but couldn't get worse than the labour party.

8. How is the skin scene in your area ?

Lennie : The skinhead scene in our area is very quiet.

9. Do you get much hassle from reds in your area ?

Lennie : No, not much hassle here. (Squadron are from the London region of Great Britain.....Editor.)

10. What future plans are there ?

Lennie : We have made two LP's now, one of which is out now and is called 'Our time will come'. The second will be out in a couple of months and is titled Take the Sword. Future plans....play as many gigs as we can and record more.

11. How many gigs have you done ?

Lennie : About 10, they were with Skrewdriver, Brutal Attack, Skullhead, and others all of which were good.

12. How do you see the nationalist scene worldwide ?

Lennie : Slowly but surely the white Power movements grow as time goes on.

13. What hobbies have the band got ?

Lennie : Drinking, Playing gigs and sex and rock and roll.

14. Anything else to add ??

Lennie : Thanks for the interview Chris and if anyone wants us for gigs we don't charge, we only ask for enough to cover our expenses - travel and drinks. Contact us

DIVISION 'S'

On the right is the photo of a fairly new Swedish band - DIVISION S who hail from Stenhamva which is near Swedens capital of Stockholm. Anyway here goes the interview which was answered by Niklas the guitarist of the band.....

1. When, why and where did you form Division S ?

We formed our band at the beginning of 1989 because we wanted a laugh and also to spread nationalism through our songs. We all come from Stenhamva which is a little suburb to Stockholm.

2. What is the current line up ?

The current line up is : Johan - Vocals (20), Niklas - Guitar (19),
David - Bass (20) and Thomas - Drums (23).

3. Why the name DIVISION S ?

The name Division S comes from the old German - Division SS but we only use the one 'S' which stands for Stenhamva our beloved home district.

4. How many gigs have you played and who were they with ?

I think we have played about 5 - 6 gigs , most of them being local, one with 'Agent Bulldogg' in Uppsala and we recently had a gig in Eskilstuna, where we played with Agent Bulldogg, Vit Aggression, Dirlwanger, Pro Patria and Skullhead.

5. What politics do the band follow ?

We are all extreme nationalists but we don't follow any organisations which is very sad because we have to unite, but no movement suits us at the moment .

6. What are your musical influences ?

The bands that influence our music are :- Legion '88', Bunker '84, Black Sabbath, Motorhead, Vit Aggression, Brutal Attack and Skrewdriver but as individuals we enjoy lots of bands we probably wouldn't fit on this page.

7. Have you any merchandise available ?

Yes, at the moment we have an E.P out on Rebelles Europeens and we soon hope to get some t-shirts out.

8. What topics on this E.P do you cover ?

We really sing about the coming race war and the end to the rotten system in Sweden and also about how the zionists control everything. The songs on our EP are :

Utsugana (Parasites or Extortionists) - this is about the zionists who run Sweden and how the foolish Swedes listen to them and also the politicians and how the politicians close there eyes to what is happening all around them.

Valhall (Valhalla) - This tells you that when you die as a warrior, life in Valhalla is one big party.

Segra Eller Do (Triumph Order) - This song is about a race war in the future and how it will be and how we will deal with the traitors and our foreseen VICTORY.

Efter Revolutionen (After the Revolution) - This song was written quite positively. This song details how we will hail victory once more.

9. What does the future hold for you ?

We are hopefully going to record our first LP this summer and also do more gigs.

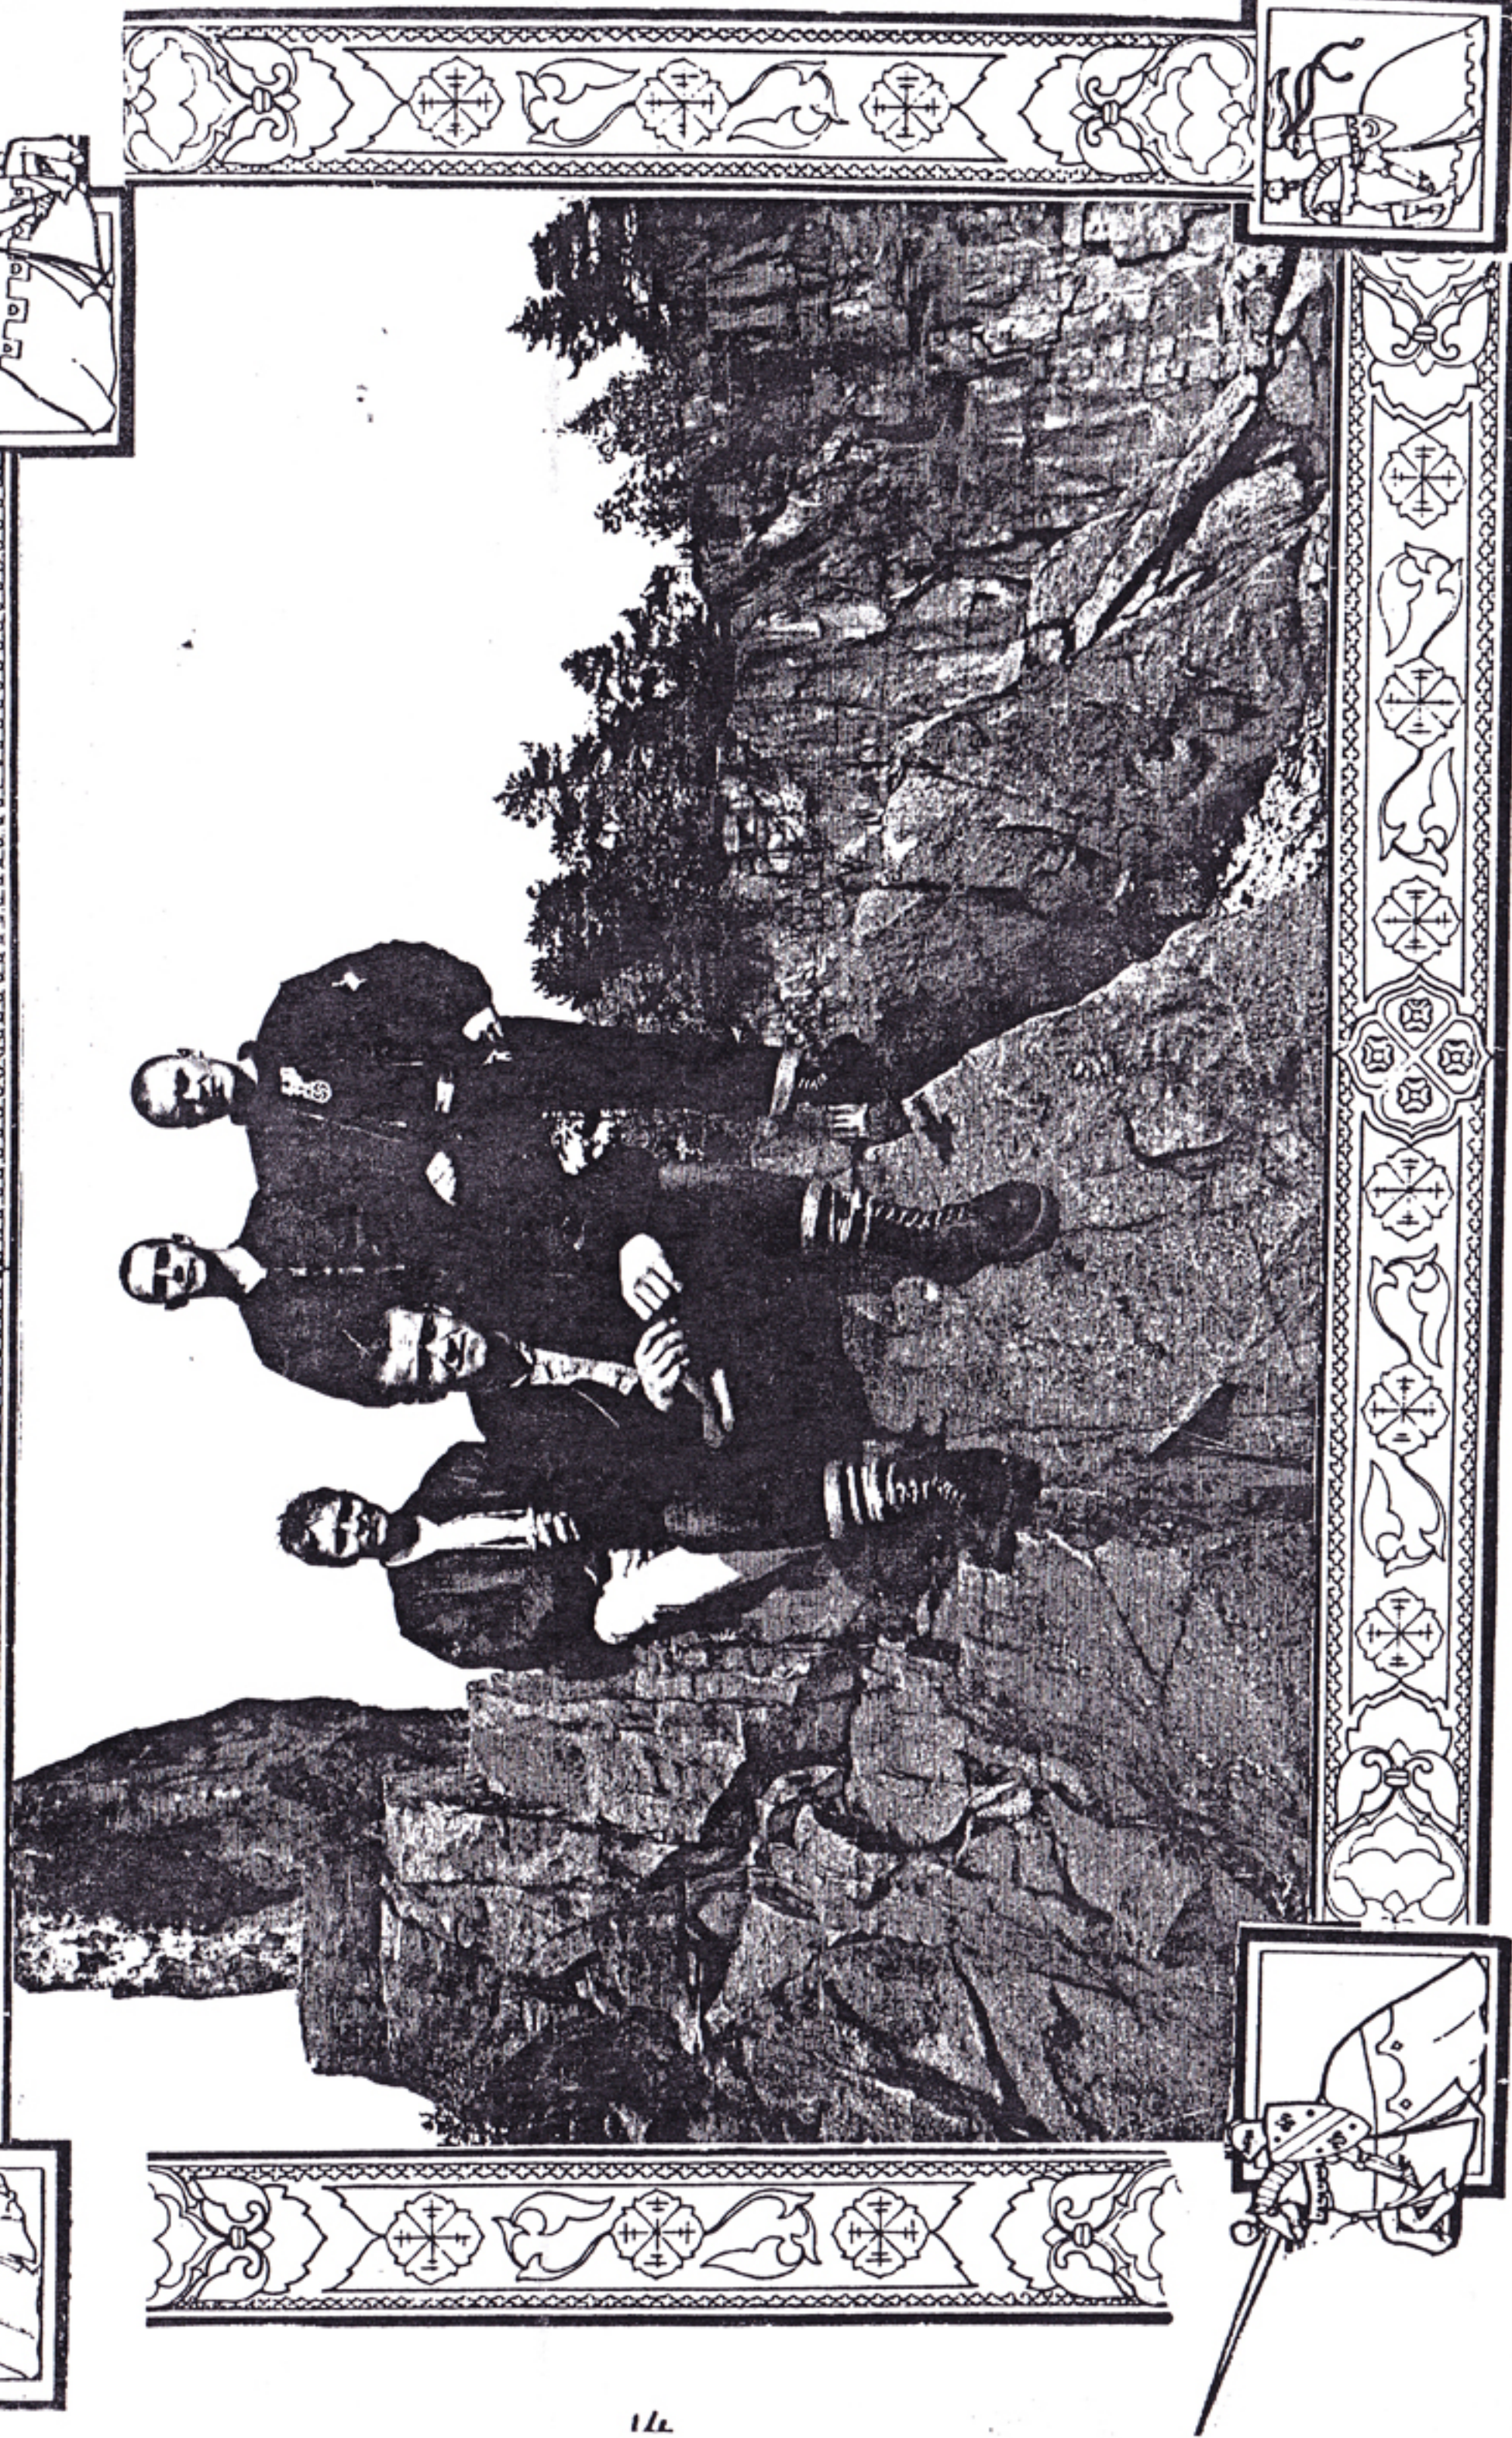

10. What do you think of the eastern block revolutions ?

We think its great that they have overthrown communism and its good news for all of them.

11. Anything else to add ?

We would like to thank Chris of British Oi! for the interview, Vit Aggression, Peter Rindell, all of the nationalists who support us and come to our gigs and to all nationalists in Europe. Hail our Victory.

For more info. on DIVISION S write to Niklas, Kvistgrand 11, 17900 Stenhamva, Sweden.

THE STORY SO FAR

P.O.BOX 534,CHELMSFORD,ESSEX,CM1 2RN

Right you 'orrible lot,after the first edition of SSF I thought that the response to it would get better not worse! How wrong I was we actually received an amazing zero amount of letters which is a bit of a pain in the arse and makes me think that noone reads these pages,but I have been assured that this is not the case and its the exact opposite and alot of people actually make a point and I could even go as far as to say that a few people wouldnt buy British Oi if this wasn't in it , so really its quite lucky that I've got a web of reporters and 'informers' who keep me in touch which helps me to keep the ol' finger on the pulse. Anyway enough of this banter and lets get on with whats news. Oh yeh,by the way you should also be seeing this feature (SSF) in Last Chance fanzine as from issue 6. Carry on reading for more details on this and more.....

THREATENING BEHAVIOR

What the hell is the world,or at least the skinhead world coming to ? The whole idea of fanzines is to give you the punter the news and views of whats happening within our scene.What I found distressing was to hear that a very good friend of mine who edits an excellent fanzine (he shall remain nameless) received threats from other skins purely because he 'slightly critcsised' No Remorses new Lp. Now dont get me wrong this bloke loves NR but he happened to mention that it wasnt as good as their previous releases.Now I am pretty sure that the lads of NR dont mind a bit of honest criticism because it lets them know what people want to hear and helps give them direction.And I'm also sure that they would disagree of people who speak their opinions getting threatened (violently).So whoever is doing it can they please give it a rest cos it aint needed.

MILTON KEYNES SUCCESS

The recent gig held in Bletchley and organised by the BNP went really well. There was four bands on the line up which wre Battle Zone,Skrewdriver,Skullhead and No Remorse.The venue was excellent and the crowd was good and the whole event was no doubt enjoyed by everybody there.The only bad point to the evening was the dodgy PA system which was used which is totally beyond the control of the organisers,(I mean how were they to know that the PA man was a Paki!)Anyway we have been assured by the organisers that due to the success of this gig there will be more (but in another venue) So watch this space.

BEAT OF THE STREET CON ?

Do any of you lot remember a magazine called 'beat of the street'?It was originally the fanzine or magazine of Link Records.Well if you were unlucky enough to subscribe to it as I did you will be a bit miffed as to why you have not received anything for over a year.I was pretty miffed about it too so I looked into it a bit further. Because of the heavy workload that the staff of Link Records have to endure they could no longer cope with producing the mag,so what they did was pass it on to someone who could ,This person happened to be none other than George Marshall of ZooT fame (?).Well he managed to bring out one edition late last year (which to be honest looked more like a copy of ZooT)That was the last anybody has heard from BOTS. I'd written to Mr.Marshall several months back explaining the situation to him and I'm sure that I'm not the only subscriber,but unfortunatley have received no reply. Shame really,but I'm not surprised cos he'd have to explain why he took on something on that firstly he knew nothing about (except perhaps the Ska column) and secondly he had no intention of finishing.So now I will send him a copy of this and ask him again.We either want a regular magazine (with the free record as originally promised) or give us our bloody money back .

WEDDING BELLS

Only one wedding this time (although I'm sure that there is many going on that I havent been told about).This one is for Richard Alden and Caroline Watson who are both skinheads from Chessington.They will be saying their vows to a part skinhead audience on Saturday the 6th of October and their reception will be held afterwards in the pub that they live in.SSF and I'm sure that British Oi wish them both the best of luck.

LAST CHANCE

The Leicestershire based fanzine which reached issue 5 is no longer a leicestershire based fanzine.I, yes Me have taken it over ! (as if I aint got enough on my plate). Yes as from the next issue (6) it will be run by me at this address.I will try and keep up with the good quality that it was but I will also be adding new ideas of my own to it.If anybody is intersted in helping or contributing to it they would be more than welcome.Also back issues of it (except issue 2) are available from me for 50p and an SAE.my first issue should be out within the next couple of weeks.

AND ALL THE REST.....

I've left quite alot of space for this bit because there is a few bits and pieces that might be of interest.Firstly I hear that Brutal Attack have definately split up I know that this isnt news cos most people knew a long time ago but did you know that some of the ex-members have formed another band called Emyre.Although Ken is not in it.Whilst on the subject of Ken Maclellan I also hear that he will be releasing a solo LP which should be entitled 'A wounded man'.So look out for that.London band No remorse have recently finished a tour of the U.S and Canada, they played a few gigs out there and apparently went down very well(are you surprised?). Now for what I am about to say I would suggest that you should take a seat as this is a major blow for the skinhead movement.(Ha Ha !).Roddy Moreno the leader of British SHARP skins has retired from the scene as he wants to settle down,and let somebody younger to take over.Well as the mentality of SHARP skins is pretty dismal hes gonna have trouble in finding anybody to do it.It must be hard to front an organisation that doesnt really exist.Roddy you will be sorely missed.(will he hell !). Immoral Discipline the american Oi band have split up but some of the members are going to start an Oi/Ska band called Boot Skaloot. The Macc Lads have pretty recently finished their tour the last actual date of the tour was in Southend. I went and to be quite honest it was crap, have this band sold out or what ?.There is no doubt about it they're in it for the money.Its sad when you let it get to your head. Battle Zone have yet another drummer and are hoping that this time they have got a permanent one , his name is Richard. I also hear that the Ovalteenies have reformed. But I know no more than that at the moment.Squadron are still waiting for their first Lp to be released in the UK, but they have already recorded the second one and are about to start on their third. It seems that ROR cant keep up with the pace ! Skullhead have just come out of the studio,they have recorded a new Lp which will have 10 trax on it and they also have recorded a Yuletide single which will be out before X-mas and the Lp should be out in the New Year,the title ? should be 'Crys of War! I'm looking forward to hearing that. More new releases are Violent Storms single which should be out any day now.Public Enemy have got a new single out and their second Lp will soon follow.Rebelles Euro peens are also gonna start releasing Cds.There first CD will be the No Remorse LP 'This Time the World' followed by Skinkorps 'Mr. Clean'.Battle Zone will be in the studio very soon for their debut Lp which is too being released on CD and vinyl. Also their new single is out and is available (see ad on page 9). Hungary has a very large skinhead scene at the moment with several bands (regularly pulling 1000 people to gigs)They also have a few fanzines, the best one being 'Pannon Bulldog'although it is in Hungarian it is Excellently set out and interesting to see if you want a copy or are just interested in the Hungarian scene write to.PANNON BULLDOG,1399 BUDAPEST,PO BOX 701.LETET 118,HUNGARY. I've only got space for a few more lines so I'll keep it short but I would please ask you again to keep in touch and if you know anything that you want everybody else to know feel free to write.Oh yeh, just one more thing SSF will also be appearing in Last Chance fanzine, so a few more people can become enlightened with all the gossip!

Till next time.....

Here's another word puzzle for you to sift through, this time instead of bands all the words are song names, good luck....

The BONESHAKERS

Well here's a fairly new band to the readers of British Oi! although they have been going some months now. The Bonshakers play a cross between Oi! and Rock and should really be heard, as they are really good. The following interview was answered by Sandy the bands bassist, lets hear what the Boneshakers are all about

1. When, why and where did you form ?

The band formed in October '89. Three of us had just quit a band due to differences in the line up and me, Rob and Brendon were all still good friends, so we decided to still play together. We all originate from areas right outside Philadelphia.

2. Whats the current line up ?

The current line up is as follows ; Sandy - Bass, Rob - Vocals, Brendon - Guitar and Wheels - Guitar and last but not least Mike on drums. There has only been the one change and that was when we got a new drummer as the drummer on the LP we have recorded left to go back to his old band.

3. Being a fairly new band, have any of you been in any previous bands ?

Yes. I (Sandy) and Brendon were in the Madhatters. Rob is the rock & Roll veteran though. He was the founder member of The Uprise and he was also in New Glory before they became political, and finally he became drummer in Madhatters for a month or so before going on vocals for us.

4. Why the name 'BONESHAKERS' ?

We chose the name Boneshakers as its a fun kind of name and we are a fun kind of a band, also nothing else was really mentioned.

5. What politics do the band express ?

The Boneshakers are not a political band. Views within the band clash on various subjects so we decided to leave them out.

6. What are the main topics you sing about and what do you aim to acheive through the band ?

The songs on our forthcoming LP include a variety of topics such as greed, people who have nothing to do with themselves than start rumours, Anti-Drugs and sings about hanging out, causing a bit of trouble and having a laugh, which is our main goal.

7. How many gigs have you played and who with ?

So far we've only played a few small gigs with bands most have never heard of. We will soon play a Oi! festival in New Jersey with bands ; The Law, Militia, Forced Reality, Stars & Stripes, The Bruisers, The Boneshakers and The Glory.

8. We hear you are a record producer! Does this interfere with the band ?

Producing records doesn't interfere with rehearsals, the short coming is that I spend every penny I have on getting records out which leaves my band equipment a bit shabby.

9. Could you say some more about the forthcoming LP ?

Yes. We have our debut LP coming out in April on Link USA. Its called Shake, Rattle and Roll and contains 12 tracks.

10. What would you like to see happen to U.S Oi! over the next 5 years ?

Oi! and street music are doing well in the U.S right now and I hope to see it continue without it becoming trendy. I'd really like to see more Oi! gigs as there are hardly any. Also the American bands should try to be more original instead of duplicating the european style, don't get me wrong, the european style is great, you are the originators but imitators are always lacking.

11. Anything else to add ?

Chris thank you for the interview. Keep up the great work. Anyone who wishes to contact us can write : The Boneshakers, PO BOX 1152, Morrisville, PA 19067 - 0311, USA.

FIGHT BACK FOR BRITAIN!

British Oi!

A REAL HORRORSHOW READ

British Oi!
15 Brough St.
Derby, DE3 3EN
Great Britain.

EDITORIAL EDITORIAL

British Oi! No.21 - Jan. '92.

Well firstly a belated happy new year to all you British Oi! readers out there!! And lets hope this years a good one.

Well I've finally reached No.21 eh, well it seems like only yesterday when I did No.1 which to my more modern readers wouldn't know but No.1 appeared on no less than 5 different coloured sheets of paper.

My apologies go out to one and all for the poor quality of No.20, I had no printer to do it so a friend helped out on a small photocopier and basically it couldn't handle the volume of copying it was doing and so a poor end result, now as I write this I have a new printer so when this is done the end result should be 100% better, so I hope my apology is accepted.

Well the new year brings a bit more of a new look British Oi!, you'll notice that the Story So Far isn't included, shock horror I hear you cry but don't worry S.S.F is continuing in a volume of other zines. Now to replace it will be 'Skrewdriver News' and you will find it inside this issue, I hope this will fill any gap left by the Story So Far, oh, incidentally 'Skrewdriver News' is done by Ian Stuart himself, so all news is coming straight from the horses mouth.

Also in future issues I shall start doing the 'Charts' page as it has been asked to reappear by public demand, so folks send in your top 10 favourite songs now, if you can send a photo of yourself aswell as it'll make the charts more interesting, but if not its OK.

Well I shall stop babbling on and leave you to read the zine in peace. Cheers for buying the zine and remember....Victory Shall Be Ours!

British Oi! Editor - Chris.

W.A.Y

Above : Chris,
Below : Mike.

The W.A.Y (White American Youth) are a up and coming band in the U.S nationalist/N.S music scene. In fact I was going to include this interview in NO.20 but heard they might be splitting up as Chris their singer was going to move to Georgia, well hes not and the W.A.Y march on. Well the W.A.Y originate from the Chicago area of Illinois. Lets hear what they have to say for themselves....

1. When, why and where did W.A.Y form ?

The W.A.Y formed in January of '91 so we are a relatively a new band. We formed as there was a need for a N.S band in our area.

2. Well whats the current line up of the band ?

The current line up is as it always has been :-
Chris - Vocals (18), Derek - Guitar (17), Tom - Drums (17) and Mike - Bass (17).

3. Why did you choose the name W.A.Y ?

We picked the name W.A.Y as it is exactly what we are, as one of our songs says " The W.A.Y is our name, White Power we follow, We're White American Youth of Tomorrow !! "

4. In what way would you describe your music and who has influenced you ?

I would describe our music as a kind of White Power, Oi!, Rock type. The bands that have influenced us are Skrewdriver, No Remorse, Condemned 84 and the Last Resort.

5. What topics do you sing about and could you give us some samples ?

We sing about the problems of immigrants and zionists occupying our country, our core America. People not being able to see that the future will not be ours if we don't unite soon (Open Your Eyes). Also a song which deals with the great scandal the Holocaust (White Pride). A song about the SS and how they spread fear (Happy Death). A song about misunderstandings that parents put against us (Rights of the Abused) and our name song about Skinheads (The W.A.Y).

6. What U.S political movement do you support ?

We follow the N.A.A.W.P (National Association for the advancement of White People) in which the leader is David Duke. We think he is a up and coming force in the U.S government.

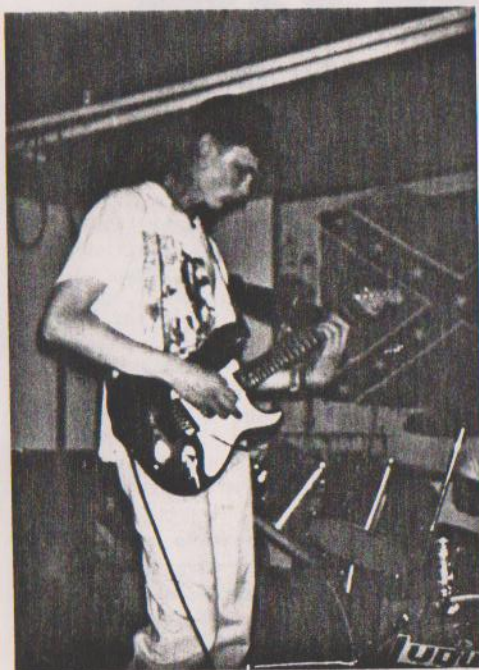

7. How many gigs have you done and who with ?

We've done 4 gigs, in which the first was interrupted by some SHARP scum who we put in there place, they never came back. These gigs were all by ourselves bar our last which was with Bound For Glory and was great, good crowd and a great gig.

Above : Tom.

Below : Derek.

8. What merchandise have you available ?

We did have some t-shirts that were really cool but they ran out so we'll get some more done soon. We have a demo available which costs 5 dollars inc P&P which contains 6 tracks. From W.A.Y, Box 734, Midlothian, IL 60445, USA.

9. What's your local skin scene like and whose your No.1 enemy ?

Our local skinhead scene is strong, we have not yet been beaten, to all you SHARP, come and get us we're on FIRE!! Our No.1 enemy is everyone who isn't like us, short and simple.

10. What other U.S bands are you in contact with ?

We have contacts with Third Force from Marietta, Georgia. and the great Pound For Glory. I also knew Final Solution that were from our town but split up, the drummer was my cousin, (that's Chris the singer).

11. What recording plans have the W.A.Y got at the moment ?

At the moment we haven't had any offers but are hoping for something to come along and hopefully we'll sign to a good label.

12. Besides the band, what other hobbies or activities are you involved in ?

Besides the band, Derek works at a Elevator Company and Mike is a great skateboarder, Tom is a good baseball player and I, Chris, am the Director of Chicago Area Skinheads (C.A.S.H). The Terror of Illinois.

13. Anything else to add ?

We would like to add many thanks to the N.S.Y.O.G (National Socialist Youth Of Georgia) and of course to you chris for this interview.

W H I T E P O W E R !! "1981".

Well cheers to the W.A.Y for the interview. I wish you all the best for the future. I've also heard they have a new better demo out lately. So that should be good.

Well produced USA skinhead zine ' Skinhead Power has a new address and it is ' Skinhead Power, Spike, 8221f Pineville/Matthews Rd, Charlotte, NC 28226, USA, a good zine full of interesting stuff, send 2 dollars for a issue!

Hobnail

Above : Lir Sean, Lee & Greg.

Hobnail are a Jewish name in the world of Nationalist music but have had some interviews in fanzines such as 'Unity' and they also have a five track demo tape available. They arise from the Stoke On Trent area in Staffordshire where the popular Section 5 come from.

Well enough about the band, lets hear what they have to say for themselves.....

1. When, why and where did Hobnail form ?

Hobnail formed around October 1980, me and Sid had a Oi! band but we decided to form a Nationalist band because we weren't putting our views across.

2. What's Hobnails current line up ?

The current line up is :-
Greg-Bass (22) , Lee - Vocals (23),
Sean - Guitar (21) , Sid - Drums (22).

3. Why the name Hobnail and did you consider any other names ?

We chose the name Hobnail from the old British Army boot, we feel the name has impact and aggression associated with it, we did think of other names which were Corsican, Firepower and White Lightning but we chose Hobnail.

4. What do you sing about and what topics do you consider the most important ?

Our songs are about IRA terrorism, the state of our country at the moment and that we shouldn't give into the pressure we get to give up our fight for freedom. Personally (All questions answered by Greg the bassist..) I haven't got a most important topic as I think all aspects need solving so take them however we can.

5. Can you name some songs and the stories behind them ?

Some of our songs are ' A Nation Apart ' which is about the IRA and how one day we will catch the terrorist murdering scum and hang each and every one of them. ' Living for our land ' is really what the title suggests, its about how we must carry on and progress with our fight and stand strong at all times. ' Heart of Stone ' is about how we feel inside, how we have strong and tough hearts and that we have been fooled in the past but not again and we will go on to win in the end.

6. How would you describe your musical style and is it influenced by anyone ?

Our music has a hard rock feeling to it although we have got slower songs and ballads which gives us a varied sound. Our musical influences come from lots of bands but mostly Mothead and Black Sabbath. Lyrically our influences come from ourselves and other nationalist bands.

7. Who or what politically influences Hobnail and do you support or belong to any certain party ?

First of all we don't belong to any party but we will support any party who are worthwhile supporting, as for our political influences they come from our own personal happenings but also from our heritage, opinion and the last two world wars.

ON THE WORLD

8. Have you played any gigs yet? If so with which band? Do you plan anymore?

We have played two gigs so far which weren't really successful as Habbail gigs because the set only included about three nationalist songs and was filled up by songs of the Oil band we had as mentioned a while. The first one was supporting Fuller Impact and the other should have been supporting Level 1. I think they couldn't make it so we played with Section 5 and English Dogs instead. At the moment we've no gigs planned but we are hoping for a venue in our area, also if any body wants us to support them in a gig just get in touch with us from the address in question 11.

9. How is the skinhead scene in Stoke and do they support you? Are you friendly with Oil group Section 5?

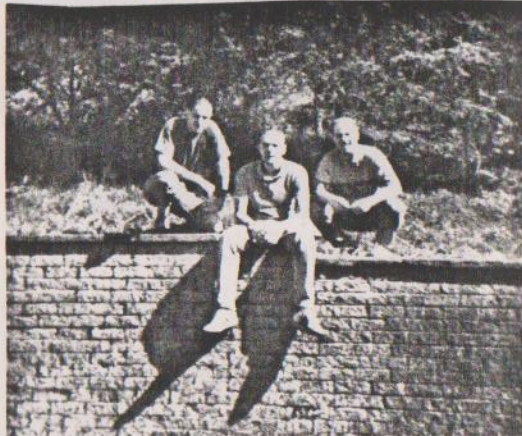

The skin scene in Stoke is more or less dead but the ones who were skins still listen to the music and from what I gather are pretty interested in us. We are friendly with Tosh and Sid from Section 5 but we haven't seen them about for a longtime.

10. What zines do you normally read?

I'm afraid I haven't read any zines lately apart from Hammer of Thor and Unity which we had interviews in but I intend to change that. The last one I read when I used to get them regular was British Oil No.5.

11. Do you have any recording plans? If so what and when?

At the moment we are in a bit of a muddle about this. We received a letter from Rebelles Europeans asking us if we wanted to do a record, we replied saying we did but we haven't heard anything since I'm going to write again so I hope we can find out what's going on. But to keep on we have a 5 track demo tape available priced £2.50 including P&P this will let people hear what we're like. When we do get a record deal we will do a E.P to start with.

Above - L-R Greg, Sid and Tom

12. What are your views on the following :- 1. Communism, 2. Capitalism, 3. Zionism, and lastly 4. Socialism??

1) Communism has collapsed in the east where it originates from but its quickly growing in our country, which must be stopped or it will destroy our once democratic land.

2) Capitalism is a disgrace, its those people who thrive on other peoples misfortune. To drain every penny from whatever opportunity they get and to dump it when its not a money making scheme anymore.

3) Zionism is so in the media, unfair racist based shit that spreads shit about people or movements that oppose them.

4) If the sign of Socialism is the idle bastards who try to sell the Socialist Worker then they can F*ck off.

13. What are your views on a band?

Our aims in Habbail are simple, to spread the word of nationalism.

14. Have you anything else left to add?

Thanks alot Chris and anyone with any gigs please drop us a line at - Greg, 15, Primitive Street, New Gap, Stoke On Trent, ST7 3HF, England.

Well Cheers to Habbail for the interview and good luck in the future with everything.

Above : LIR Senchy, 2 unknown girls, Ress and Jules, Yugoslavia '91.

Well here we are, another installment in my series of 'On The World' reports, now the question has been asked "Why do you bother as most zines do a skin scene report" well its not a skin scene report but a view of a country, its people, its politics etc...Yes it is still skinhead based but I try to go a bit further with my investigations than the same old, and now having subjects such as what bands there are and their it, I'll mention music of course but I hope you understand what I mean.

This issues contribution to this on going article is about the much reported and much troubled country of Yugoslavia. So much has been

written in the press and so much put across on the television, I hope that my account will help understand REALLY what's happening.....

Well Yugoslavia, a famous country for european holiday makers, renowned for its beauty, its history and its clear waters is bordered by the countries, Italy, Austria, Hungary, Romania, Bulgaria, Greece and Albania.

Although a poor country compared to the likes of Britain, Germany and France its not in the depths of despair such as Romania and Albania. Food is relatively always available and, it is a fairly self sufficient nation.

Now as in great Britain there are several nationalities, for example - Welsh, English, Scottish, in Yugoslavia it too has individual nations within the national name, the nationalities of Yugoslavia are Serbians, Croatians, Muslims, Montenegrins, Slovans and Macedons. I believe the Serbians have the largest population throughout the nation and are the main driving force in the national army.

The roots of the current 'Civil War' were made several months ago and can go as far back as last October 1990 when such goings on like Serbians shot at a Croatian leader Franjo Tudjman during a pre-election rally, and there followed very retaliations from Croatians etc and since have escalated into war, now I'm not saying this war happened because of this incident but it all contributies.

As far as I know skinheads won't that much involved in the war, some are forced to go to national service but personally as I've had to believe, Serbian and Croatian skins would rather unite for white unity than kill one another. Yes there are some differences but not many.

Serbian skinsheads belong to such movements or political parties like : 'Serbian National Movement', 'Serbian National Recovery' and 'St. Jovan Party'. I've had to believe all are nation list but have a few differences. In Bosnia one of the states in Yugoslavia, Muslim skinsheads belong to the 'Movement for Democratic Action'. Croatian skins and nationalists belong to or are in splinter groups of the nationalist party Croatian Democratic Union who believe in the 'Independent

Croatian State ' which was created by Hitler in 1941 and had a leader named Ante Pavelic.

Now concerning the number of skins in the nation of Yugoslavia I can't really say as I only have contacts in Serbia and Bosnia but in Serbia theres about 150 - 170 skins and in Bosnia 20 - 25 skins. So as a rough guess for the whole country about 250 skins are around. The strongest skinhead scene in Yugoslavia is centred on the city ' Novi Sad '.

The bands that come from Yugoslavia are all nationalist, no middle of the road bands, skinheads favourites are " Ritem Nerada " from Novi Sad who have a record deal and have several demo tapes available, two of there members are involved in the war on the Serb based national army, incidentally there old guitarist Pritz was killed in action during the war (RIP Comrade). Also from Novi Sad are a new band ' Generacija Bez Buducnosti. Belgrade also has bands - ' Direktori ' and ' Saht ', there was another band called ' Klasni Problem ' but they recently split. ' Skin Attack ' were a band from Sarajevo who sold out and became traitors to there race and movement.

Concerning skinhead merchandise in Yugoslavia, apart from the above bands making there own T-shirts, tapes etc, all merchandise has to be bought from overseas such as Germany, Italy, Britain etc. The skins in Yugoslavia aren't behind the times as such as the ones I know are upto date on all the record releases etc. The traditional skin clothes such as Levis, Flight Jackets, Fred Perry's etc can be bought but at very high prices as they all have to be shipped in. Doc Martens aren't available at all so army boots are the usual foot wear.

Enemies. Well as across the world, our enemies include communists and immigrants, well Yugoslavia isn't any different, as I asked one lad, " Whats your worst enemy ? " the reply was simply "Immigrants, Commies and Punks ". The latter the Punks, referring to the commie, pinko vaggie types who I really hate, the type of Class War Dross.

The Future of the Yugoslavian skin scene is hard to predict but the general enthusiasm in the ones I know is so strong, so proud, the future to them is in there true Balcan race. If the Civil War comes to a end without to much death and bloodshed then the threat of nationalism as a true political force for this nation will become areality if done right with the right leaders etc.

Well that concludes this article. Thanks to all Yugoslavs who have taken the time and trouble to help me with this.

PAUL BURNLEY & THE FOURTH REICH - Rebelles Europeens.

The debut LP from Paul Burnley of No Remorse fame. It was mentioned in No.20 of British Oi! but I thought I'd still review it. 10 powerful racial revolutionary rock anthems. Tracks such as ' New Breed ' ' Bonded by Blood ' ' Birth of a Nation ' and ' England ' are included and rip off of the Beastie Boys ' Right to Party ' but renamed ' White Country ' great stuff. To me this LP is one of the best to come from the No Remorse camp and has to be heard. The best track to me has to be ' Win or Die ' which is powerful and great. Oh, not to forget the reggae song ' Ragga ' which is a good piss take. 10/10.

IAN STUART & STIGGER - Patriotic Ballads - Rock O Rama.

Originally released on tape this made it onto LP and CD through public demand. 12 great tracks of the quality you'd expect from Ian Stuart. Only Acoustic guitars and patriotism is on this tape. Its good to hear things like this as it proves that people can do various things and do them well. Tracks include ' Phoenix Rising ' ' The Red Threat ' ' Stand by your Own ' and remakes of ' The Snow Fell ' ' Tomorrow Belongs To Me ' and ' Green Fields of France ' to name a few. All are professionally done and have great blends of piano etc in them. Hope theres gonna be more. 10/10.

RITAM NEREDA - Nikog Nema - Ghost House Tapes Yugoslavia.

12 good tracks from Yugoslavia's best band to date. All played in the great spirit of Oi!, reminded me of British Oi! type style but unfortunately I can't understand the lyrics which is disappointing as they sound very good, tracks include ' Football, Nikog Nema, Casa, Idem Sam and the best on it Skinheads '. 9/10.

SKREWDRIVER - Live & Kicking - Rock O Rama.

22 live tracks from the Godfathers of nationalist music. A great recording, not simply as I'm mentioned on it (Blood & Honour) but its well produced and all the Skrewdriver favourites are included like ' Strikeforce, White Power, Hail the New Dawn, Showdown, 46 Years ' and many more, oh and the great ' The Snow Fell ' live and kicking, they sure are, 10/10. Double Open Sleeved LP.

OPEN SEASON - Front Line Fighters - Rebelles Europeens.

Australias best on LP. Well I was really looking forward to this having heard there demo but when I received it what a disappointment, however my disappointment was short lived as I had a tape of how the LP should have been. You see the LP has been pressed with it wrongly mixed and so the guitaring is virtually non-existent but on the tape I received its more than present and good. A extreme band with no nonsense lyrics, tracks include ' Open Season, Knight rider, New Reich, Kill The Poofs ' to name a few of the 13 on the LP. My favourite has to be ' Its time ' which is great. 6/10 for the LP, 9/10 for the tape version.

ULTIRA THULE - Svea Hjalmar - Rebelles Europeens.

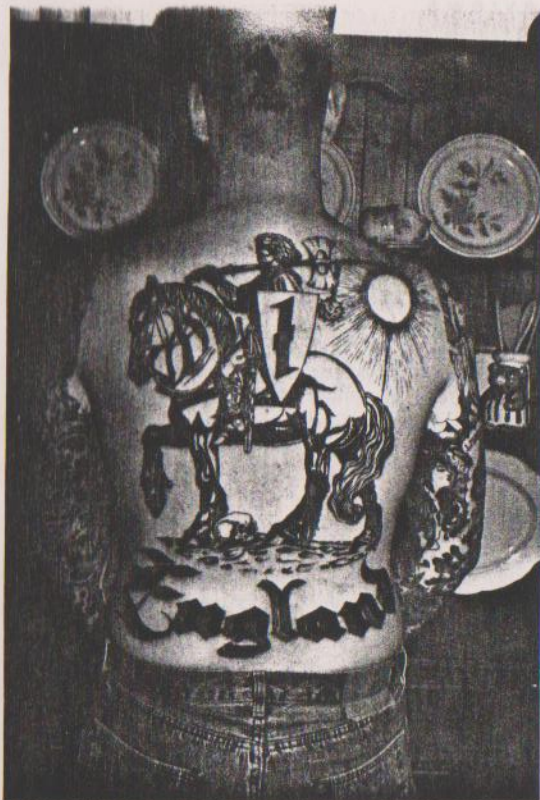

The second LP from Swedens finest. 10 great tracks of great music. Tracks include ' Ragnarok, Mitt Land, Ravens, Ensamt Oga, Protect and Preserve and Election Day '. This band has a great style, a one off, get this its worth it. Best track - Mitt Land. 9/10.

BOUND FOR GLORY - When the Hammer Falls - Rock O Rama.

B.F.G's 2nd LP and brilliant. There fast Oi/Rock style works well. 11 race rock tracks and titles include ' Dresden, Valhalla's Calling, Spirit Lives On, Winds of change and my two faves, Aryan Nations and A Call To Arms. Long live BFG. 10/10.

WHITE DIAMOND - The Reaper - Rock O Rama.

The debut from Ian Stuarts rock outfit White Diamond. A good debut but the guitaring could be abit more stronger. 11 good tracks that include ' Judge, Talisman Hard Road, Bright city lights, and my fave a slow great song Memories. I'll be interested to see how they develop. 9/10.

Ultima Thule are to me one of the best European nationalist bands around today and probably the best from Sweden. I've known about them for many years but never actually wrote to them or anything so I thought it was time to see what they're all about. Look out for there new LP which is out now and is on the record review page.

1. When, why and where did Ultima Thule form ?

Ultima Thule was formed in late '84, and played together until we split up in '86. During that time the band recorded 15 songs, some of these were released on our debut LP ' Hurra For Nordens Lander ' which is on the Rebelles Europeens label. The new support from the LP, a so called ' revival ' gave us inspiration, so we got together again and discussed the future possibilities and plans for recording new songs for our second LP mentioned later.

2. Whats the current line up and have you had any line up changes ?

The line up is :- Ulf Hansen - Drums/Vocals,
Niklas Adolfsson - Guitar/Vocals,
Tomas Krohn - Bass/Vocals,
Jan Thornblom - Vocals.

Our original singer/lead guitarist quit and was replaced by Niklas A. on lead guitar, and our second guitarist then went onto to vocals now.

3. Why the name ' Ultima Thule ' and what does it mean in english ?

It is latin and means - As far north as possible. Old explorers from Greece gave the land they knew as ' Far North ' the name ' Ultima Thule '.

4. How many gigs have you done ? Who with etc ?

With our new line up no gigs as of yet but with the old line up we played with various skinhead bands of Sweden which were all good.

5. What political party/movement do Ultima Thule follow ?

Ultima Thule support and follow the activities and help promote the Swedish Democratic Party. (The Swedish Democratic Party are similar to the old British National Front but do have some separate policies...Editör)

6. Are the band skinheads or if not what cult would you say you belonged to ?

In the past we have all been skins and loved it, and of course some of the skinhead feeling is still in our hearts and always will be, we haven't given up our thoughts even if we don't look like skins. Now....we are nationalists, say no more.

7. Your debut LP, how has it sold and how has it been received by nationalists worldwide ?

Well actual numbers of how many have been sold we have no idea but its been well received by our friends and people that have written to us, to date we've had no complaints.

8. Whats the main influence behind your lyrics and music ?

Our lyrics are made out of all forms of inspiration, it can be anything, old tales, the great old nordic religion or basically whatever comes around. Musically we follow no special style.

9. What do you think about the following :-

- A. Gulf War - We're glad its over and that terrorism should be stamped out across the world.
- B. A United Germany - Great, now the united German people can show the world they can take care of themselves. Its never good to split a country and its people.
- C. Cultural Destruction - Who needs destruction, preserve your heritage.
- D. Mass Influx of Immigrants into Europe - Who wants it. The help should be given where its really needed in there own lands.

10. How do you see the Swedish Nationalist scene developing over the next few years ?

Its not easy to play nationalist music today, but we beleive the winds are changing, more bands, more zines, more dedication, how can we fail.

11. Which zines do you read and which do you like/dislike ?

We read everything that is sent to us, some good, some bad. The British Oi!'s we've seen always seem to be good.

12. Anything else to add ?

Yes our second LP is out now and contains 10 new songs, 6 in Swedish, 4 in English, its on Rebelles Europeens, but it and we hope you enjoy it. Cheers !! Ultima Thule.

Thanks to Ulf of Ultima Thule for answering the interview and if you get the chance buy there records as they are well worth getting.

SKREWDRIVER NEWS

ABOVE : IAN STUART & ROUGH JUSTICE.

mined to stop the much publicised gig arrested all English people in the near vicinity plus the German organiser of the concert. When the red fuzz realised that they had arrested the wrong people, they discovered that they had all Skrewdriver plus two roadies, but not Ian Stuart they panicked. Scouring the whole area they finally arrested Ian and his fiancée at gun point at their hotel room. No explanation was given and no phone calls allowed. However many people who were with Ian that night came forward, and the reds were forced to release Ian and his fiancée 13 hours later. Realising that uproar would occur at this blatant wrongful arrest the police transferred the rest of the band to Berlins high security Moabit prison. Despite the language barrier the record companies solicitor plus local people tried their best to trace the missing five English plus one German. The communist curtain of secrecy once again descended and no trace could be found.

Ian Stuart travelled to the gig in nearby Werben and performed 6 songs with the German band Storkraft to over a thousand proud young nationalists.

Meanwhile the imprisoned patriots refused to give statements to these stasi type interrogators and this explains why only now, after nearly 3 months, the band have been released on bail. Two lots of bail money have gone missing and are now being traced. Talk about communist corruption.

Also one judge who turned out to be a long standing communist has been dismissed from the case due to extreme bias (Good riddance). He is now looking for work (How about a job as newspaper reporter or the BBC. eh Trotsky).

Quite a few things happening on the Skrewdriver Front this issue. Well, after their highly successful concert in Bassano del Grappa in the North of Italy, you might know that the zionist controlled police forces of Europe would be out for revenge. The band travelled to Germany and did a successful, if badly organised concert to nearly 800 people near Saarbruck and then travelled onto Cottbus in East Germany. What happens there has been highly reported in the world zionist press. The only thing missing from the reports, as usual was the truth! A fight occurred between local rival gangs who then fled as the police arrived. The still predominantly communist police who were deter-

On the record front. Ian Stuart's new solo LP ' Patriot ' has been released plus the double Skrewdriver LP ' Live & Kicking '. Ian has also recorded a mini LP entitled Ian Stuart & Rough Justice - ' Justice for the Cottbus Six, to draw attention to the case A new Klansmen LP is on the way called ' Rock & Roll Patriots ' featuring the Steve Earle classic ' The Devils Right Hand '.

Rock O Rama have also decided that due to the popularity of the ' Patriotic Ballads ' tape, to release it on LP and CD.

The next Skrewdriver LP ' Freedom What F----- Freedom ' should be available by the beginning of February, and is said to be a return to the ' Hail the New Dawn ' format but with alot more power.

Ian Stuart is still involved in the case to stop police harassment of the band and its supporters, his solicitor has so far been ignored by the police (Surprise, Surprise) but another letter has been sent regarding the mail of Ians which was stolen by the police on the first raid of Skrewdriver Services well over a year ago. Apparently the mail was in the possession of the then Director of Public Prosecutions Alan Greene. He has since been convicted of consorting with prostitutes so god only knows where Ians mail has ended up.

The police however are still involved in illegally threatening pub landlords to ban Ian and the band from even drinking at the pubs. This however does not seem to have worked and no bans have been imposed as of yet, but we'll keep you up to date.

Well from amongst the flailing truncheons and zionist gutter press, we'll wish you a happy new year, and promise to you that whatever the vermin do, we'll always be there with a pint and a stiff right arm. Make 1992 White Pride Year.

Cheers Ian Stuart & Skrewdriver.

NEWS FROM THE RIGHT SIDE

Well I thought I'd add a news page to the new look British Oi! '92 to keep you upto date on how things are developing around the country and indeed the world so here goes, oh, by the way, if you have a new band, have a record deal etc and want it mentioned, drop me a line and I'll put it in 'News from the RIGHT side' or really anything of any sort of interest to my readers.

News hot from the USA is that Ed the Guitarist with great band 'Bound For Glory' looks set to do a single with a view to more releases with none other than Cliff the ex-drummer of Condemned 84, now Cliff and Ed live hundreds of miles apart so I wish them luck. Staying in the U.S of A - W.A.Y (See elsewhere for there interview) have now got a record deal with Rock O Rama Records of Germany and have recorded there debut LP, title unknown to me as of yet but it should be out early February, so support White American Youth and buy it. It was rumoured that Chris the WAY singer was moving to Georgia to form a new band but he has assured me hes staying in Chicago and recently he got engaged to his longtime Girlfriend now fiancée Lisa, so congratulations Chris.

The skinhead scene seems to be exploding in Chile as of late, I've had letters off no less than seven new bands and all have nationalist views, but still the most popular band out there I think is 'Ochos Bolas' who incidentally had a good write up in the pro-SHARP newspaper 'Skinhead Times', I wonder 'Skinhead Times' if you knew that a member of Ochos Bolas also is involved in a nationalist come national socialist band 'Golpe Frontal'!! Oh, talking of 'Skinhead Times' there new book has been out for a couple of months now called 'Spirit of '69' it claims to be neither right or left wing supportive, I haven't seen it yet but we'll have to see. If readers have any comments on this then let me know by all means, oh, one of the shops that funds 'S.T' still owes me money for several issues of British Oi! so we'll see how that develops.

Derby based band 'EXECUTE' are still alive and kicking, regular practices were interrupted due to the christmas period but serious plans are being made for the progress of the band in 1992. If anyone wants to contact Execute then please write via my address.

I had a letter recently from two organisations asking to be mentioned in British Oi!, the first was from Vicky a girl who runs the 'Women For Aryan Unity' UK branch, and she asks any girls interested in finding out more to contact her at 'W.A.U', PO BOX 3245, Dublin 8, Ireland. The second letter was from the 'Aryan Resistance Movement' originally a Canadian thing but now has a British Branch, there claim and aim is to unite all forms of white racists etc, regardless of class, religion, political, and regional differences. They seem a good bunch so give them your support, write - A.R.M, PO BOX 2467, Small Heath, Birmingham, B10 0JN, England.

In late November last year English Rose played a gig in Baldock which I think is in Hertfordshire, well the gig went well, a small attendance, but a good time had by all, on the way home 13 of the lads including English Rose amongst others in a van got lost and ended up in some village, fighting broke out amongst a few skins and some scum, next thing, all 13 are arrested, none of the other mob. A couple admitted to the trouble to help the others as they had nowt to do with it. Only two were released, eventually after being up in front of the magistrate 10 of the lads were remanded in custody, the court played on the right wing memberships etc and they seemed doomed. 3 more were released, now you can imagine, these lads all remanded and held in Pentonville full of undesirables, things didn't go smooth, all the lads were moved to a more suitable wing. Luckily they all got bailed before Xmas but still face court cases, so we should all wish them luck. Through this it seems English Roses new guitarist Guinness has quit but they have recorded a LP and it should be out in a month or so called 'Never Be Silenced'. The state will never give up trying to oppress, we shall not give up the fight!!

MORE NEWS FROM THE RIGHT SIDE IN NUMBER 22.

Noie Werte

The following interview was done sometime back and was lost in my filing system (??) until now and is a interview with the up and coming German band 'Noie Werte'. Now Steffan the singer answered the questions but had to translated into English so my thanks go out to Magnus of Birmingham for helping me out, cheers. Well lets find out more about Noie Werte.....

1. When, why and where did Noie Werte form?

Noie Werte formed in 1987 in Stuttgart. The band was a reaction to all the left wing and communist bands in our area.

2. Whats the current line up and have you been through any line changes?

The current line up is as follows : Steffan - 20 - Vocals, Ol - 22 - Guitar, Reiner - 22 - Drums and Oliver - 21 - Bass.

Many changes have taken place over the years within our band. Only Reiner is left from the original founder members. I myself played Bass from 1989 onwards, but changed over to go onto the microphone. Ol too has been with the band since 1989 and oliver joined in 1990.

3. Why the name 'Noie Werte' and what does it mean in english?

Firstly lets consider the 'Oi' in 'Noie Werte'. The 'Oi' suggests that we were originally a 'Oi' band. The correct spelling of course is Neue Werte which means 'New Values'. Today we consider ourselves as a white skin rock band. The name was choosen because we stand for new values. Values such as Comradship, Pride and sticking together all have nearly now died out amongst the German youth. Our opponents like the Turks stick firmly together. Our German youth now no longer has any proper pride, this pride is what we want to see restored within the German people. 'N.W' reflects on new values.

4. We hear you have a LP out, could you tell us about it?

The LP was released at the end of 1990. It will only be available from us the band or Rebelles Europeens. The LP is still boycotted by Rock O Rama, the LP is called 'Kraft Fur Deutschland' which means Strength for Germany, there are 11 songs on it and amongst these one about Rudolf Hess.

5. What topics do you sing about and which is the most important?

Our songs are called 'Stick Together' 'Rudolf Hess' 'Strength For Germany' 'My Land' 'Beer in my Blood' etc. The most important for me is 'Strength For Germany', we need the strength to chase the multicultural scum from our land and close the barriers to communists. This is the only way to create a free Germany and a free Europe.

6. What German political party do you follow?

No German political party represents wholly our viewpoints, we are political but belong to no organisation. We are trying to put our viewpoints across through our songs.

8. Who or what political party do you support ?

We used to be members of the NP but left soon after the break up. None of us now are members of any political party but we do support the BNP in their fight for a white Britain.

9. What topics do you sing about and could you tell us about your songs ?

We basically sing about whats going on in our nation and the world today also on matters like race which concern us.

10. Do you have much support up in Scotland ?

We have the support of all of our mates and from people who agree with what we sing about but mostly from nationalist skins.

11. Whats your views on the following :-

A. S.N.P - How can any so called nationalist party let pakis stand as candidates!!!

B. S.W.P - Socialism by their means has no part in our nation, the S.W.P is communism watered down.

C. B.N.P - Any party which has the same beliefs as ours, we support, the B.N.P are doing a good job for Britain.

12. Have you any merchandise available ?

We t-shirts with different Logos available and a demo will be on sale soon. Any enquires - John, 1 MacDonald Cres, Twechar, Glasgow, G65 9SH, Scotland.

13. Apart from the band, what other hobbies have you got ?

The only hobbies we have are the football and the band. We go to the football every week, whether its home or away.

14. Anything else to add ?

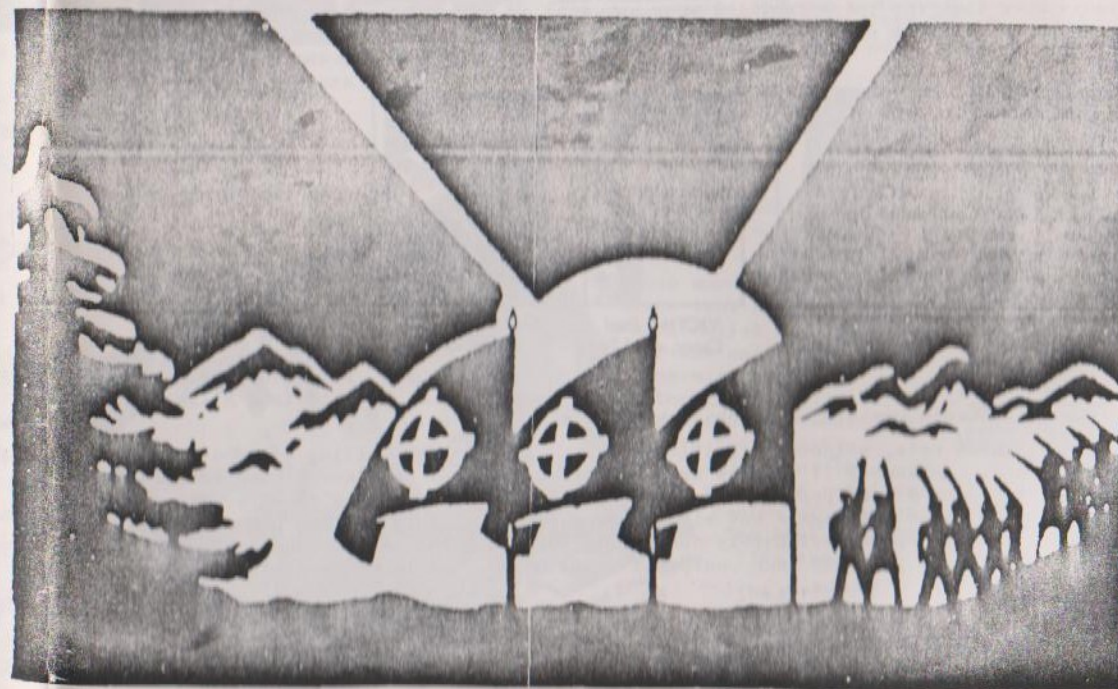

All we have to say is thanks for doing this interview on us, and we wish you good luck with the zine and your new band, and cheers to all our friends and families, All the best - White Pride - British Standard.

Cheers to B.S for the interview and I look forward to hearing alot more from you in the coming months, good luck.

FIGHT BACK FOR BRITAIN!

On the 13th March 1992 the worst tragedy to hit the skinhead and nationalist world happened when sadly four good friends of mine and most known to you, the readers, as either good friends - mates or great musicians of the Welsh Skinhead band 'Violent Storm', three members of the band, Casey, Barran and Sheeley and one close friend of them 'Jask' sadly died in a vicious car crash, while on the M4 near Bath, Wiltshire en route to Gatwick Airport where they were due to catch a flight to Madrid to perform a gig in Valencia in Spain with fellow bands No Remorse, Battlezone and new Spanish band Division 250. The only survivor was Billy the singer of 'V.S.' and was badly injured in the process, as he was hurled through the windscreen of his Ford Cortina in terrible storms on the day mentioned. The story varies so far on how the crash occurred but hopefully we'll soon know the real truth as an official inquest opens soon.

I will not dwell on the causes of the accident as it has happened, and by god I know we'd like to change it, but sadly we can't. These four will always be remembered and I for one, and I know many hundreds more, will cherish the memories of them and will always have time for there families when any need or emergency arises, the four comrades now at rest we will never forget you.....British Oi! No.22 is dedicated to the four who sadly died.

SON: Darren Sheeley, aged 18

SON: Brian Sheeley, aged 25

VICTIM: Paul Casey, aged 24

SURVIVOR: Billy Bartlett, aged 24

Left : 3 of the dead and survivor Billy, Taken from the 'South Wales Echo'.

With this sadness in our minds and hearts, the future of Violent Storm is yet to be decided. I'm told Billy is

reforming with old members so we shall have to wait and see.

On a lighter note, welcome to British Oi! 22, Europe's Best Selling and most popular zine. In Number 21 the new articles of Skrewdriver News and 'News from the RIGHT side' proved very popular and I have received a flood of new enquires etc. This issue contains both again but with an extended 'N.F.T.R.S' to two pages instead of the previous one. Unfortunately due to lack of space the newly planned re-emergence of the Charts page has been postponed until No.23, but if you want to be included send your top 10 in now....

Well for this issues comment thats it for now, see you in No.23, For the sadly departed comrades SLEEP WELL & R.I.P.

ROCK GROUP WIPED OUT IN SMASH

By SYDNEY YOUNG

FOUR members of rock band Violent Storm were killed and a fifth seriously injured when their car smashed into a bridge on a rain-lashed motorway yesterday.

The car is thought to have been lifted six feet by a freak gust of wind and hurled against the bridge on the M4 near Bristol.

Ambulanceman Bob Wilkins said: "The car was upside down, but all those inside were still in their seats with the seatbelts on."

Two of the dead were named as lead guitarist Brian Sheeley, 25, and his 18-year-old brother Darren, the band's drummer.

VICTIMS: Violent Storm at one of their concerts

Survivor

Bass player Paul Casey, 25, and rhythm guitarist Jason Collin also died.

The only survivor of the horrific Friday the 13th crash was singer Billy Bartlett, who was found

with head wounds 20 yards from the crushed car after being thrown through the windscreen.

Last night he was improving in hospital.

All the members of the band lived in the Ely area of Cardiff.

The Sheeley brothers' uncle, Johnny Sheeley, 50, said the band had just recorded their first album.

"They had signed a record contract and were due to tour all over Europe."

"I'm devastated."

The group were heading for Gatwick airport to give a concert in Spain.

ALWAYS REMEMBERED,
SADLY MISSED & NEVER FORGOTTEN!

These words are the sad words that every skinhead nationalist and friend of the sadly departed comrades would've thought or said over the last few weeks due to the horrible tragedy of the crash and resulting deaths of some of the best friends I've ever had.

ILL FATED: Band members (from left) Darren and Brian Sheeley, Paul Casey, and sole survivor 'Billy' Bartlett

The four who died were Paul Casey, Brian &

Darren Sheeley, and

Merthyr Skinhead Jason 'Jask' Oakes. The first three

being members of 'Violent Storm'

and Jask a great friend. The above newspaper clipping is from the 'Daily

Mirror 13.3.92' and gives a fair account of

what happened but a inquest for a more detailed account of what happened will start soon.

All four were buried and now rest and peace, all the funerals were well attended and a big thank you comes from all the families, for all the support everyone has given them in their time of sorrow. Words cannot say the pain these deaths have caused and the love for the departed friends will always exist. Casey, Jask, Darren and Sheeley - Sleep Well.

SHEELEY

Brian and Darren, — We often think of bygone days, When we were all together. But memories will be with us forever. Love — Stephen, Anthony and Joanne.

SHEELEY

Darren, I never thought I'd miss you half as much as I do, I'd never thought I'd feel this way the way I feel about you. Our time together was short but our love for each other is forever. Love always. — Susan. XX.

CASEY

Paul, — We'll remember you always. A true friend and a patriot. Your spirit lives on in our hearts. — Spike, Stuart and Wyn.

Buldok

Well here a new band to me and probably most of you, its Buldok and they are a Czech band. Well I don't know really what more to say of the band, except, on with the interview....

1. When, why and where did you form ?

We thought about forming the band in Nov. '90 but we started to play in June of '91 in Trutnov, a town in the East Bohemia and the Krkonose Mountains. Basically we felt

the need to express our views by music and we wanted to encourage our poor Oi! scene.

2. Whats the current line up with ages ?

The line up is : Tom, Guitar and lead vocals, 24,
Josef, Guitar, vocals, 20,
Marek, Bass, Vocals, 18,
Hugo, Drums, 20.

Josef and Hugo are brothers, from triplets, the third brother Pavel is 'Buldok Security'.

3. Have any of the band been in any previous bands, if so who and what ?

Yes, all of us have played in previous bands before 'Buldok' but we think this isn't important, 'Hej ty!', 'Brigada Oi!' etc..

4. What topics do you sing about ?

We have 18 songs. 'Nas Hnev/Our Anger, A Patek/Friday are classic working class protest songs. Invaze/Invasion is a song about immigrants and the criminal attitude in politics, which is running our nation to ruin. Probud se, Evropa/ Wake up, Europe - In the past every tribe, every nation fought for their country, at present every nation is infested with foreigners and its killing us off slowly, this is the song about the unification of a white Europe, of white skinheads and white European warriors. We also have songs such as Elita/The Elite about Proud Skinheads, Ruda Hrozba/Red Threat which is about our hate for communism, also songs about Hooligans, Apartheid, Fights and the White Race in general. I think all of these are important and we all in the band think these attitudes of love for our race are natural and right!

5. Why the name Buldok ?

'Buldok' is Bulldog in our language and we see this as the international symbol of skinheads and pride and power.

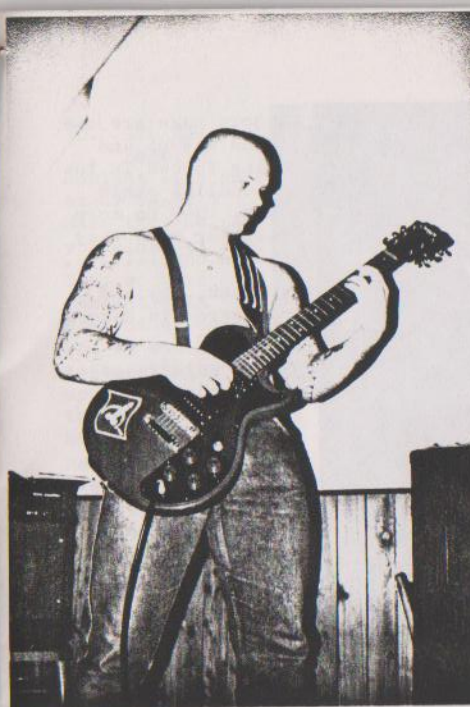

6. How many gigs have you done ?

We have only done two gigs to date. The 1st was in Sept.'91 in Valmez with Oi! bands 'Valassaka Liga' and 'Kratky Proces' and the 2nd was at the Hubert Party in November, 'Hubert' is our skinzine. This was with 'Valassaka Liga', we plan quite a few for '92.

7. What other Czech bands are there on the scene ?

Thats difficult to answer, there are some Oi! bands in Czechoslovakia. Like Orlik, Branik and Anti Panika are in Prague. At the beginning Orlik were good but now they are commercial idiots. Branik is a false band with crap lyrics, Anti Panika is a skinhead girls band.

Cont.....over leaf.....

'Valassaka Liga' from Valmez are good but too much influenced by the pub. 'Kratky Proces' from Bratislava/Slovakia are a very good band of patriots, they are our good friends in the same way as Valassaka Liga.

8. Whats your views on

A. Communism, We live in a country that was under the hammer and sickle of hard dictatorship for 40 years. We hate communism and we laugh at the Red Skins and ultra lefty anarchists and their naive opinions, this dirt must be destroyed world wide.

B. Nationalism, We are nationalists.

C. Spiritualism, The Communist blockade has let us know little of this, so we can't comment.

9. How is the skinhead scene in your area ?

The skin scene in our area is bad. Buldok is the only band in this area, and the same through out the whole state, alot of skins are young and never take it serious and use it as a fashion. The skinhead scene in our country is very dis-united.

10. What merchandise have you available ?

We have two designs of t-shirts and some badges.

11. What future plans have you got ?

We want to play lots of live gigs and spread our views to everyone, who would like to listen. We want to do a demo and then in mid'92 do a LP.

12. Anything else to add ?

I would like to thank you Chris for your interest and good luck with your zine and your band. Also we'd like to greet bands like Skrewdriver, Skullhead and Close Shave and all White Power Bands. Razors Edge are one of the new up and coming forces in the nationalist music scene. Say no more lets hear what they have to say.....

1. When, why and where did Razors Edge form?

Razors Edge formed in Brum in July 1990. We decided to form a nationalist band because at the time the skinhead scene was dying out in Brum and through the band we are trying to revive it.

2. Whats the current

The current line up of Razors Edge is : Andy-Vocals-26, Kev-Bass-19, Dirk-Guitar-23, and Sid-Drums-25.

3. Have any of the band played in any other bands?

Dirk our guitarist is also the guitarist with Close Shave.

4. Why the name Razors Edge, and did you consider any other names?

We considered a few names before settling on Razors Edge. They were - Odins War, Badlands, Lethal Weapon, Warhead and Battlecry. We got the name 'Razors Edge' from AC/DC who are one of the bands who influence us musically.

5. What topics do you sing about and which do you consider the most important?

All of the topics we sing about we consider important. They include :- The A.W.B, U.F.F, Jobs not immigrants, unification of Germany, Vikings, Free Speech, serving in the armed forces, and the influx of immigrants into Britain.

6. How many gigs have you done and can you tell us how they went?

We have done 3 gigs to date. Our first gig was supporting Skrewdriver and Battlezone in Brum. Our second gig we played with Close Shave and Battlezone in Northampton. Our third was with Skullhead and Violent Storm in Brum again. The three gigs went very well considering we are a new band and no one had heard us before.

7. What vinyl plans have Razors Edge made?

We shall be approaching Rebelles Europeans to release an album, as soon as we have put enough new material together.

8. Have you any merchandise available?

Not at the moment, but we will have t-shirts and demo tapes in the near future.

9. What musically and politically influences the band?

Musically we are influenced by the 4 Skins, Rejects, Cock Sparrer, Condemned 64, Skrewdriver, Brutal Attack, Skullhead, No Remorse, AC/DC, Squadron, Iron Maiden etc. Politically we admire and party or movement/organisation that stands up to protect and to fight for the white race.

10. Are Razors Edge in contact with any other bands? Have they helped you along at all.

Yes, we have contact with some other bands and we would like to take this opportunity to thank Alex of Battlezone for putting us on his Last Chance Compilation LP. Cheers.

11. What future plans have you got?

To release our first LP and keep on gigging.

12. How is the Birmingham skinhead scene? Do they support Razors Edge?

The Brum skinhead scene has been dying out for sometime now, but the diehards that remain support us.

13. Anything Else to add?

Thanks to Chris for the interest shown in the band and good luck with the zine. To all nationalists fighting for this just cause, Keep The Faith.

Racial Regards - Razors Edge - PO BOX 2408, Castle Bromwich, Birmingham, B36 0UZ, England, Great Britain.

Cheers goes to all the lads in Razors Edge especially Sid for doing the interview. Watch out for Razors Edge as they are a great band and I wish them the best of luck.

ON THE WORLD

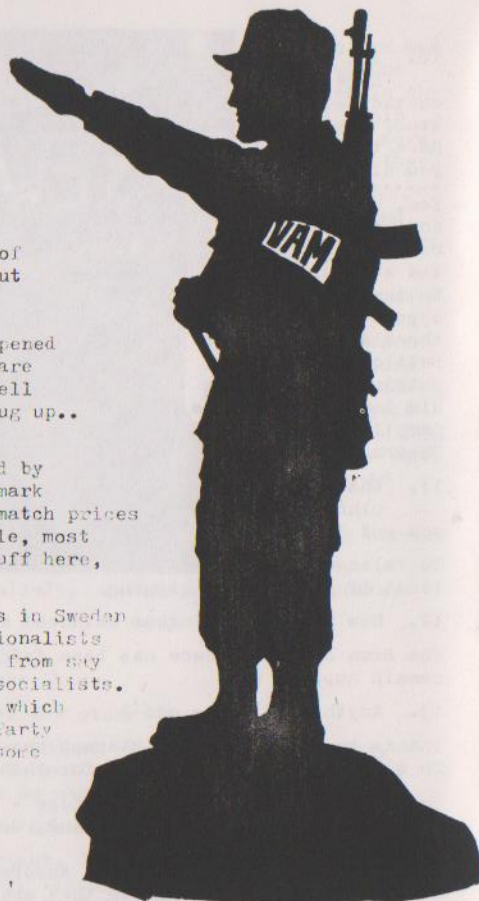

In the series of 'On The World' reports now comes probably one of the most important of them all. This issues detailed report is about the nation of Sweden. Now a nation that can boast strong activism and dedicated national revolutionaries can't be bad, so much has happened in Sweden over the last year the authorities are panicking at the growth of national pride. Well lets see what my investigations into Sweden dug up..

.....

Sweden a strong Nordic nation is neighboured by fellow nordic nations Finland, Norway and Denmark and has a wealthy economy but if you want to match prices of things I'd say we're better off, for example, most items in Sweden are double the cost of our stuff here, especially beer, fags etc.

Concerning nationalist parties and movements in Sweden and saying its a small populated country, nationalists are well catered for and have a varied choice from say an extreme conservatism to outright national socialists. Parties include 'National Democratic Party' which I'd consider similar to the British National Party or early eighties National Front. They have some support of alot of the working class. Then theres the 'Swedish Church of the Creator' led by Priest Tommy Ryden which has a good support among Swedish nationalists. Parties that were around but I haven't heard of for a longtime were the 'Keep Sweden Swedish Party' and the N.S 'Nordic Reich Party' and the 'Swedish National League' which I think is the longest running nationalists organisation. Now all these seem to be well governed and well represented among Swedens nationalists but one new movement has caused such a stir its been given the title in my books as the best and most active of all Swedish nationalist groups. Its called 'VIT ARISKT MOTSTAND' (V.A.M) which translated is the Swedish version of the well established and radical American movement White Aryan Resistance (W.A.R.).

Now V.A.M as I say have caused the state to worry. VAM have several units throughout Sweden and I think its main office is in Stockholm but I'm not sure. VAM made national headlines in Sweden when four of its members including its leader Klas Lund broke into a Police headquarters at Lidingo Island Nr. Stockholm and over powered a duty officer who they gagged, handcuffed and blindfolded. The four VAM activists then broke into the armoury and coolly walked away with 26, not 36 as the press claimed, Sig Sauer Guns. The police called it a 'Precision Style Job'. After a massive manned manhunt and a few close brushes the VAM men still weren't caught, and people believed they had left the country and claims were they stayed with comrades in Denmark and Norway, and possibly Germany. Klas Lund and his comrades were finally captured after a bank robbery in Vandelen when 15 armed police swooped on them afterwards at a cafe and they were arrested. The gang were apparently on the way to a farm, a safe house, on knowing this, the police searched the place and discovered most of the guns and a proportion of the bank raid money.

4 STORM

VIT REVOLUTION UTAN PARDON

These activities show that a modern day racial war is being fought in Sweden and they show no signs of letting up, VAM continues to work hard for their final victory and I feel sorry for any red that decides to get in their way, back in Britain the hatesheet 'Searchlight' has even given a headline on V.A.M claiming they are 'The Order Return'. Say no more.

VAM's modern day newspaper/magazine is the above detailed 'Storm', this has led from previous Skinhead zines, 'Streetfight' which was outlawed by the state, and 'Vit Rebell' which were both inventions of nationalist comrade Peter R. He is also co editor of the mentioned Storm. Storm alone has caused a stir with its direct views on policies such as race etc. It still includes skinhead bards but is more a magazine for the V.A.M.

Away from the political scene now lets see what else in the skinhead scene is happening in Sweden.

There are a few White Power/ White Rock'n'Roll bands in Sweden and they are Vit Aggression, Dirlewanger, and Division 3. Dirlewanger out of these I've heard the most of and are very enjoyable and have LP's on Rebellies Europeans entitled 'Rocking For the Golden Race' and 'Unity of Honour', they play a skinhead/come rock'n'roll style and to all readers should be heard, also a added bonus is, on there LP's one side is always in english, the other in Swedish. Dirlewanger are currently planning a third LP. Theres not many unpolitical bands in Sweden and all I can think of is Agent Bulldogg who are really good and have a great sound. Ultima Thule are also a great Nordic band, although they aren't skins, there music sound in my eyes is the best of all Swedish bands, Ultima Thule (Interviewed in British Oil No.21) are members of the 'National Democratic Party'.

A few British bands have played in Sweden over the past years and these include Skrewdriver, listen to there song 'Land of Ice' to hear how much they enjoyed it, although the state was warned by 'Searchlies' that Ian Stuart was going over to inspect his troops and even the national guard were on duty near the gig venue. More nonsense spread by the hatesheet! Other bands to play Sweden have been Skullhead and Indecent Exposure. Skullhead commented to me once that the Swedish bands were really underated and need more recognition, so buy a record of theres and listen. When Indecent Exposure went over, apparently they wanted to be like pop stars and refused to go over by ferry, only by plane which the gig organisers had to pay out for, who needs would be stars eh!!!

Skinhead clothes in Sweden seem really expensive to get hold of and even through high prices, skins in Sweden still dress like us, Flight Jackets, B's etc etc. It seems to me mail order services to Sweden would be cheaper than actually buying from Swedish shops, but I wouldn't be willing to send money to shops like the here though, would you????

A big day in both the skinhead and nationalist diary is the commemoration of Swedens 13th Century Warrior King Karl XII, this is on November 30. Normally on this day a march or demonstration is planned and alot of beer drunk. A fight normally comes off too, with the crews in the anti racist organisations over there mounting counter demos. Needless to say who normally wins.

Well that just about rounds off this issues On The World article and my thanks to all that have contributed to it, especially Peter R. Cheers. To obtain a copy of 'Storm' send £1 to Storm, PL 170, 114 79, Stockholm, Sweden.

Well here goes with the second 'News From the Right Side' since it appeared in No.21 the response has been pretty good and info to include quite exciting. I'm trying, with this news page to give a view of world goings on, not just British and European news but as a say a world view. Well before I start, if you have anything that you'd like to have included in this, then write and let me know, whether its a new zine, new band, new group etc, it all helps.....

Nazi killer knife probe

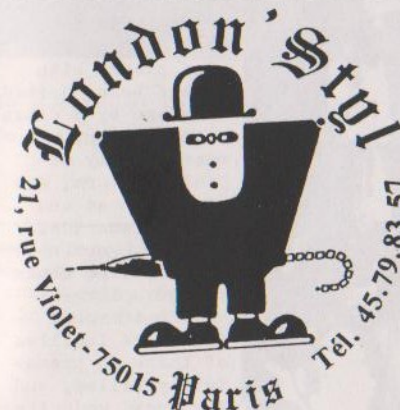

The news headline on the left was one among a mass of publicity in Melbourne and indeed across Australia about the trial of two skinheads, who were nationalists and were on trial for murder. Well the story goes, that on April 21st last year Dane Sweetman & Martin Bayston while partying down at a Celebration of Hitler's Birthday, murdered a 29 year old - David Noble. What these men actually did was disturbing and quite sickening, as apparently, Sweetman hit the victim with a pick axe and Bayston had stabbed him 20 times with a boning knife, and as he wouldn't fit in a car to be dumped they had to cut his legs off. Now no way can anyone condone this and no one should, but because these murderers happened to be racials the headlines were dominated by this, as if being a radical nationalist was worse than being a murderer! At the actual sentencing in the Melbourne Supreme Court, Sweetman pulled out a Knife, the Melbourne Skrewdriver, with rage as a handle and shouted to the court "You see, if I want to kill someone, its simple, and I can do it just like that". Sweetman received a sentence of 20 years with a minimum to serve of 15 years and Bayston received 18 years sentence with a view to a minimum of 14 years inside. On leaving the court, the men both angered at the conviction and claiming the whole case had been blown out of proportion, they spat at the media present and Sweetman shouted "You Zionist maggots are going to get what you deserve, Sieg Heil".

On a bit of a lighter note, lets hear what the music world has been upto..... S.P.E and Lion Records have recently been in touch and asked for a mention of the two new singles they have available, the first on SPE Records is a Close Shave single 'Keep on Rocking' which shows the new Close Shave with Lurch singing and Sid of Section 5 fame on Bass. The second single is from French Oil band The West Side Boys and is entitled 'Hooligans' and is claimed to be a single that marks the revival of French Oil, this is on Lion Records. Both singles can be bought from SPE Records B.P No.20, 94251 Gentilly Cedex, France, either for 25 FF inc P&F or 4 Dollars inc P&F.....Chris of the White American Youth (W.A.Y) was recently in touch to say the WAY has been put to one side for a while, they haven't split but are having a rest as Chris and the WAY bassist have reformed the old Chicago band 'The Final Solution' and claim to be the No.1 white rock band in America, I wonder if Bound For Glory might have a comment on that ??, well Chris of WAY informs me they have a record deal with Rebelles Europeans and shall be recording there first LP soon. Meanwhile to keep all the U.S racists happy the W.A.Y debut LP should be out by now so buy it as it should be good.....Kordic Thunder a new U.S band from Newark, NJ, were also recently in touch to say hello to all white warriors worldwide, look out for a interview with them soon, and I'm led to believe there demo is really well done.Execute the Derby based band are still hard at it and hope to do a demo soon, so watch this space, they recently had to turn down a gig due to them not thinking they were good enough, but watch this space.....English Rose the Leicestershire based band seem sadly to have split up for good but, never fear Jesusy the vocalist recently wrote to say there debut LP 'Never Be Silenced' will still be released soon and he hopes to plan a few more records with some friends of his on the instruments which would be good..... MORE BAND NEWS OVERLEAF.....

.....The Raven the new venture by the Georgie lads seems to be going very well and have big plans for there own record label on which they plan to attract alot of the big names in the nationalist music world, for a copy of the Raven, send £1 and SAE to The Raven, 10 Box 18, Stockton On Tees, Cleveland, TD19 9YA, England..... No.12 of the great Flood & Honour is now hot off the press and shows a marked improvement on No.11 with alot more news features, articles and interviews, 16 pages of White Pride, what I thought was brilliant in it was the photo of the Croatian Freedom Fighters saluting and includes a skinhead called Ernest who does an Italian Zine 'No Surrender', good luck to the Freedom Fighters, against communist aggression! Flood & Honour is £1 and SAE from Flood & Honour, BM Skrewdriver, London, WC1N 3XX, England and well worth getting hold of..... No Remorse now have out a fully detailed and well laid out merchandise catalogue and contains lists of Records, CDs, posters, badges etc, for your free catalogue send a large SAE to No Remorse, BCM Box 5103, London WC1N 3XX, England..... ...Two interesting things have happened on the gig front lately, after a highly successful gig in Ellistown in Leics, with Squadron and Skullhead, a second gig was planned at the same venue, now the newly formed, or should I say reformed so called red mod 'The Anti Nazi League' claimed they were going to picket the planned No Remorse & Skullhead gig on March 7th, needless to say they never turned up to face the proud patriots present, a coach early in the evening was seen to pull up but hastily pulled away, never to be seen again, was this the reds? We'll never know, they sped off so quick, now on this very same day in London a Battlezone gig had been planned but due to some reason Battlezone had to pull out, in the short time of doing this, gig organisers couldn't get the word out to people who would be coming to the gig, the 'Anti Nazi League' apparently did picket this one but as of yet I've no reports of how the gig goes and the 'ANAL' fared, How dare they picket our shows, I wonder how the Police do nick this rabble for inciting violence and causing a public nuisance of them selves, well its the same old story, one law for us, which is the strong arm of the law tactics against genuine lovers of this Great land, and another law for them, the mixed buncce of red affiliated monstrosities.....

In the past months I've, in the first edition of this news page/s told you the story of the nationalists of English Rose and Friends getting picked after a disturbance in the Hertfordshire area. Well still to this date the case hasn't been solved, it should still be a while before sentencing takes place but it looks as though four at least will get jail terms, mainly due to them admitting to the crime, to basically help the others out who weren't involved, but readers please spare a thought for a comrade who has been detained since the disturbance happened, incarcerated in one of our lovely hell holes called prisons, his name is Spike from Milton Keynes, we wish you luck Spike! Any developments on this case will be brought straight to your notice through these pages.....

Well that basically draws this issues, 'News from the Right Side' to a close, don't forget, if you have any news, new zines, new bands etc that want mentioning then don't hesitate, send them in today.....See you next issue.

On the left is the name and address of a shop in Paris that were recently in touch and asked for some space in my zine to let the French skinhead world, and further a field that they have a large stock of all skinhead clothes, shirts, t-shirts, boots etc etc and also a large stock of Records of all the names around, such as Rock O Rama, Link, Rebelles Europeans etc. Now not knowing if this shop is straight up, approach with caution just to make sure its no rip off. All I have is there catalogue, so if any readers out there do know, and buy from the shop, by mail order, let me know OK.

Skrewdriver News

Since the first Skrewdriver News has appeared in British Oi! No.21 the response and interest in both the zine and band have grown alot and although this issues is alot shorter than last issues, I hope you still enjoy hearing what the worlds top nationalist band have been upto. Well I'll leave it up to Ian himself to tell you the goings on.....

Not really a great deal of news on the Skrewdriver front

in this issue. After the apparent success and popularity of the Patriotic Ballads LP, Ian Stuart & Stigger (Or Stigger and I) have been offered several gigs playing the material from the LP. This should be a nice change from the usual mayhem and madness of a Skrewdriver gig. Stigger will also be recording his solo LP soon and this will be out on Rock O Rama.

Skrewdriver played a comeback gig a while back in Burton On Trent which showed the return of the band to the gig scene, since the troubles that occurred in Cottbus, Germany. Since then we have also played at the recent ' Violent Storm '

benefit gig in Leicestershire but due to late arrivals and faulty amps Skrewdriver were forced to cut their set by half and play without a bass player with myself being joined on stage by 3 extras on each song, namely Billy of Violent Storm, Kev of Skullhead and another comrade. However, good news was that the concert raised a large amount of money for those families of those so prematurely killed, and the crowd made the best of a good cause.

SKREWDRIVER LIVE IN ITALY.

SKREWDRIVER & THE LARGE CROWD

Skrewdriver

Rising

BM Skrewdriver,
London WC1N 3XX

Three more Skrewdriver concerts are planned as British Oi! goes to print. The first being on April 11th in Lancashire with Skullhead & No Remorse, the second for St. Georges Day in Derbyshire on April 25th, the third on May 30th again in Derbyshire with the support bands not sorted out yet.

On the record front, the newly released ' Ian Stuart & Rough Justice ' LP isn't produced as planned, now this doesn't concern the record but the cover. The cover was banned in Germany as it showed ' Rough Justice ' in all black with balaclavas on with myself standing in front of them, well apparently this was banned as it was too para-military or something along those lines. Advance orders on the forthcoming new Skrewdriver LP ' Freedom What Freedom ' are apparently so good that a second pressing may be needed before the LP goes on general release. The new Ian Stuart Solo LP ' Patriot ' has also been repressed, so things are going from good to better. Concerning nationalist records a two year investigation by the Zionist controlled race relations board are trying to prosecute or at least attempting to prosecute traders for selling six different LPs. Now not one of these LPs happens to be a Skrewdriver one, so why

are the so called free thinking shops only refusing to sell Skrewdriver records, so much for democracy.

Recently a magazine called ' Scooter ' featured what amounted to a party political broadcast by the Anti Nazi League. These down and outs as usual brought Skrewdriver up for some peculiar reason, mind you people will do almost anything to sell their tedious, dull magazines.

Not alot else to tell you this issue so I'll leave you

IAN & STIGGER

with a quote of honour for Violent Storm.

To those who died, whose spirits still march with us,
Gone but never forgotten. Rest in peace comrades.

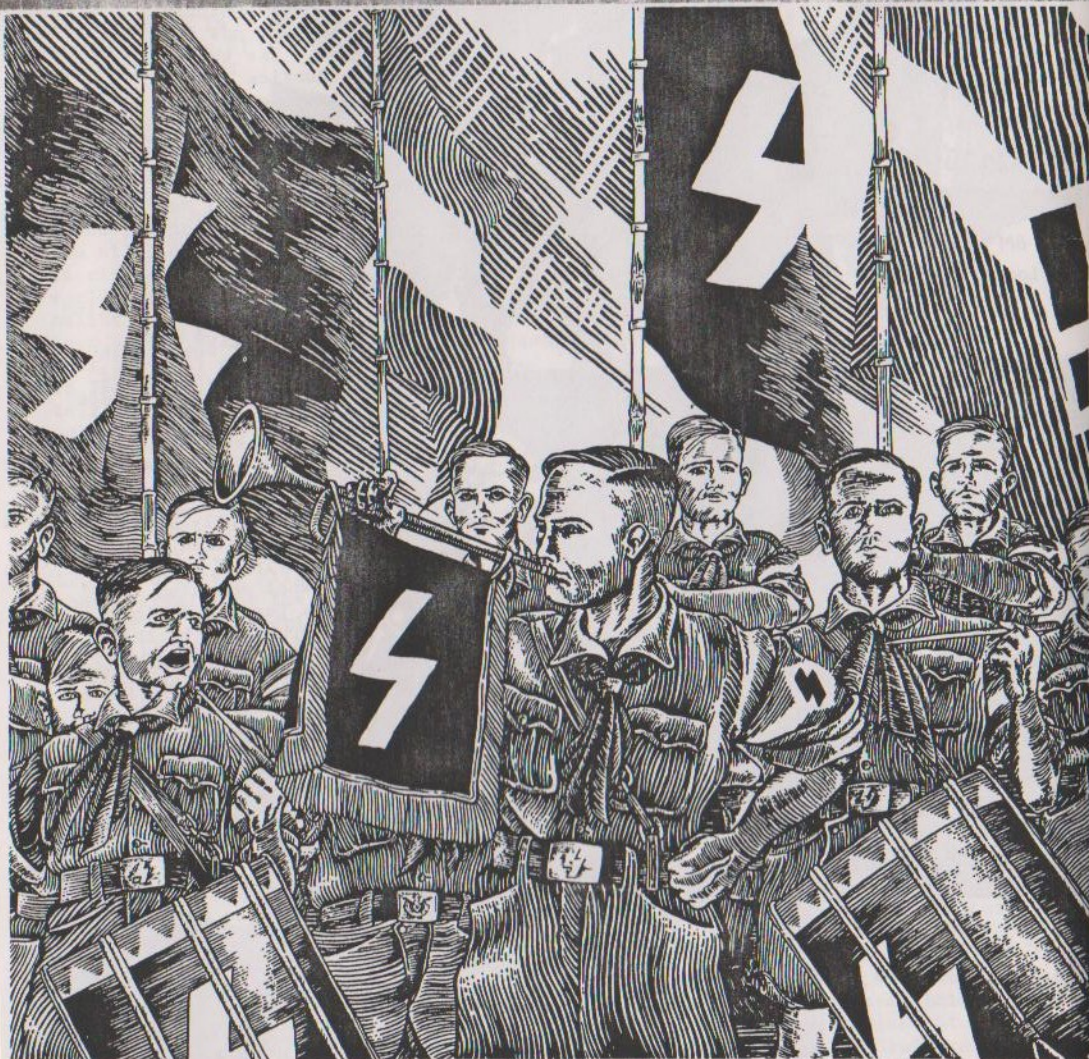

Ian Stuart.

Don't forget, Skrewdriver News appears in every British Oi! and will keep you upto date with all the nationalist goings on that the band are or will get upto. So don't delay any longer, take out a British Oi! today.. Details are elsewhere within this zine.

SKREWDRIVER - ' Freedom That Fighting Freedom ' - Rock O Rama Records.

Just what the doctor ordered, a brilliant LP by the best in the trade. In my view this LP tops the likes of Blood & Honour, Warlord etc as it expresses a professional style of white rock music with the good old Skrewdriver way of thinking. Somewhat a return to the old days of the great 'Hail the New Dawn' but better. The 13 tracks on the LP are - Intro Mother Europes Sons, Freedom That Freedom, European Battle Song, This Little Piggy, This Reeling, Blood of the Kings, One Land, Stolz, Return to Camelot, Oh No Here Comes a Commie, When the North Wind Blows, God of Thunder, Epilogue-Road to Valhalla. All tracks do not lack, but the outstanding tracks to me are - 'This Little Piggy' a great song of hate for our boys in blue, 'Oh No here comes a Commie' which details itself, the great song for Italy about the bands recent visit 'Return to Camelot' and the unusual but quite good 'Stolz' sang in German, which first heard is strange but the European Unity of Skrewdriver then shines through. Can you better this Ian ?? 10/10.

IAN STUART - ' Patriot ' - Rock O Rama Records.

The third and by far the best from the solo career of Ian Stuart. The sound and quality of this LP/CD is second to none and it provides in all songs a sense of rock and great experience in the white power circuit. 11 powerful tracks that include 'Patriot, Then the lies begin to crumble, Stand Up, Ship of Destiny, Fight the Poison, Sooner or Later and more'. It also includes a cover of a Rolling Stones classic 'Paint It'. The best tracks to me are - Ship of Destiny, Fight the Poison and the great 'Down in the city'. 10/10

BOB NAIL - Five track demo.

This is the first time I've heard this Stoke based band, and to say the least I was quite surprised on how good they sound, they have a rock come Oil sound and put across a strong nationalist view. The five tracks are - A Nation Apart, Living For Our Land, Heart of Stone, Intruders and the Time has come. Hard to pick a favourite but I'll choose 'Living for our land'. For a copy of the demo, send £2.50 to Hobnail c/o Greg, 18 Primitive St, Mow Cop, Stoke On Trent, ST7 3LE. 3/10.

IAN STUART & ROUGH JUSTICE - Justice for the Cottbus Six - Rock O Rama.

A one off LP from Ian and the mysterious 'Rough Justice'. A LP dedicated to the Cottbus Six, six people - 3 members of Skrewdriver included, who were nicked while Skrewdriver were in Germany on trumped up charges. Although this is a mini LP its still good but it does leave you wanting more than just 6 songs. Songs are - 'Can't Spare you the time, Pressure, Early Warning Sign, Having a good time, Dont try it and the ultimate - Justice for the Cottbus Six. All songs are good with the 'Justice' song sticking out as best in my view among them. 10/10.

POLISH SKINHEAD BANDS DEMOS - Legion Records & Tapes Polish Music.

I've had a variety of tapes sent to me from Legion Tapes. The demos were from bands 'Konwista 88', 'Legion', 'Storm 69' and a Polish Skinhead compilation tape entitled 'Skins from Poland'. All of these bands are nationalist and musically I can't mean about any but obviously the language barrier lets it down, cos, I dont know about you but I can't understand Polish. I'd say 'Konwista 88' would be the best. These tapes can be bought for 4 dollars and 1 dollar P&F from Legion Records & Tapes Poland, Mirosław Rajpold, Ul. Gdańska 26/8, 85 006 Bydgoszcz, Poland.

NORDIC THUNDER - Demo.

This fairly new U.S skin band come across as a good band with alot to say for themselves and musically they have some powerful tracks. This 6 track demo includes the tracks - Skinhead, Blood On their Hands, Behind the wall, True Heroes, Shape Shifter and No Guilt. It can be bought for 5 dollars from Nordic Thunder, PO Box 9441, Newark, DE 19714-9441, USA. 8/10.

British Standard

British Standard are welcome band back on the scene now, firstly, because it puts Scotland back on the map as a nation with a nationalist band but it also brings a band back who first around didn't really get the praise they deserved, but now they are back with vengeance

1. When, why and where did

British Standard form ?

British Standard were originally formed back in 1982, by nationalists in the Glasgow area. We thought the only way to get our views across and heard by our own people was to play in a band.

2. How come British Standard have been given a new lease of life after most would have classed you as dead and buried ?

British Standard has now been back for about 8/9 months but we were never dead and Buried, it was just a lack of people getting off there arses and doing what they said they'd do.

3. Whats the current line up of the band ? And why has your original vocalist Lorraine left ?

The current line up of the band is :- Vocals - Midi - 29, John - Guitar - 19, Sim - Bass - 25 and Jim - Drums - 25.

Lorraine left the band because of other commitments, thats why we finished for a while.

4. Why the name British Standard ?

The name British Standard is another word for Union Jack, the British Flag as the band considers its self to be British after the being Scottish.

5. How do you want the band to develop over the coming year ?

Firstly we want British Standard to be heard, and our music and lyrics enjoyed. By folk who know the meaning of White Pride and white Unity in our world today.

6. Do you have any vinyl or demo plans ?

At the moment we are putting together a demo, but we are taking our time at it. It would be great if a record deal came along, but only time will tell.

7. Whats the bands views on the Loyalist and Pro-IRA stances of the two Glasgow football teams ?

Well being brought up with religious barriers all around us, the name British Standard speaks for itself. We are loyalists and we believe loyalists are the only ones truly fighting for Britain in our nation today. Our thoughts on the IRA are simple - Bang IRA Scum ! Jim and Sim are Rangers fans, whilst John & Midi support Clyde FC. None of us support Celtic FC.

"Living and Fighting For The White Race"

Nordic Thunder

Well heres a band I've mentioned very briefly in previous issues of British Oi! but haven't actually interviewed. Nordic Thunder hail from the Newark area within the U.S of A and are all active members of the racial skinhead movement the ' Hammer Skinheads ' and indeed they run the Eastern unit. Well enough of my chit-chat and on with the

interview.....

1. When, why and where did Nordi Thunder form ?

We formed in the summer of 1991, where we actually live is in the Baltimore/Maryland area. The reason we formed Nordic Thunder was to voice our political and racial views.

2. Whats the current line up with ages ?

Our line up consists of Bob Huber (19) - Guitar, Ryan Huber (17) - Drums, Eric Simonson (17) - Bass Guitar, and Gary Delp (19) - Vocals.

3. Why the name Nordic Thunder ?

The reason for the name Nordic Thunder is because you tend to think of the sound of vikings raging into battle when you hear the name ' Nordic Thunder '. We did not consider any other name.

4. What topics do you sing about and which do you consider the most important ? Why is this ?

Our songs are based on things that occur in everyday society and that no one wants to recognise, such as race mixing, white traitors, the communist problem, and the money grabbing disgusting zionist filth.

Our most important topic is the corruption and evilness of the zionists in our White Society.

5. Have you played any gigs yet and could you tell us about them ?

We've played two gigs so far, the first was with some Heavy Metal bands and the second with comrades in fellow white power bands.

6. What merchandise do you currently have available ?

Currently we only have our demo (Reviewed in British Oi! 22) which costs 5 dollars including P&P, but we intend on putting a LP out through Rebelles Europeans. Then we shall start to produce T-shirts, stickers etc.

7. You mention a LP, could you tell us more about this ?

Yes we plan a LP and it will be released through Rebelles Europeens but its still in the planning stage, but we should get down and record some tracks soon.

8. Could you explain to us British Skins what the ' Hammer Skins Network ' is all about ?

The Hammerskins are a Brotherhood of Skinheads who physically and mentally prepare themselves to fight the enemies of the white race. We perform many activities such as literature distribution in order to educate white people who are ignorant of the truth, and we do battle in the streets when its necessary with Red Scum and minorities.

9. What political party/movement do you belong to ?

We don't follow any one direct political movement but follow many, and indeed support any white racist organisation.

10. Are you in contact with any other fellow White Power bands ? If so have they helped you out at all ?

Basically we only have contacts with Bound For Glory (Ed) and ' RAHOWA '. Ed from BFG has helped us get alot of publicity and contacts, especially with European comrades.

11. What hobbies apart from the band have you got ?

Bob is into cars and alot of drag racing, Ryan enjoys reading and weightlifting, Gary doesn't really have any hobbies and Eric has no time for anything else.

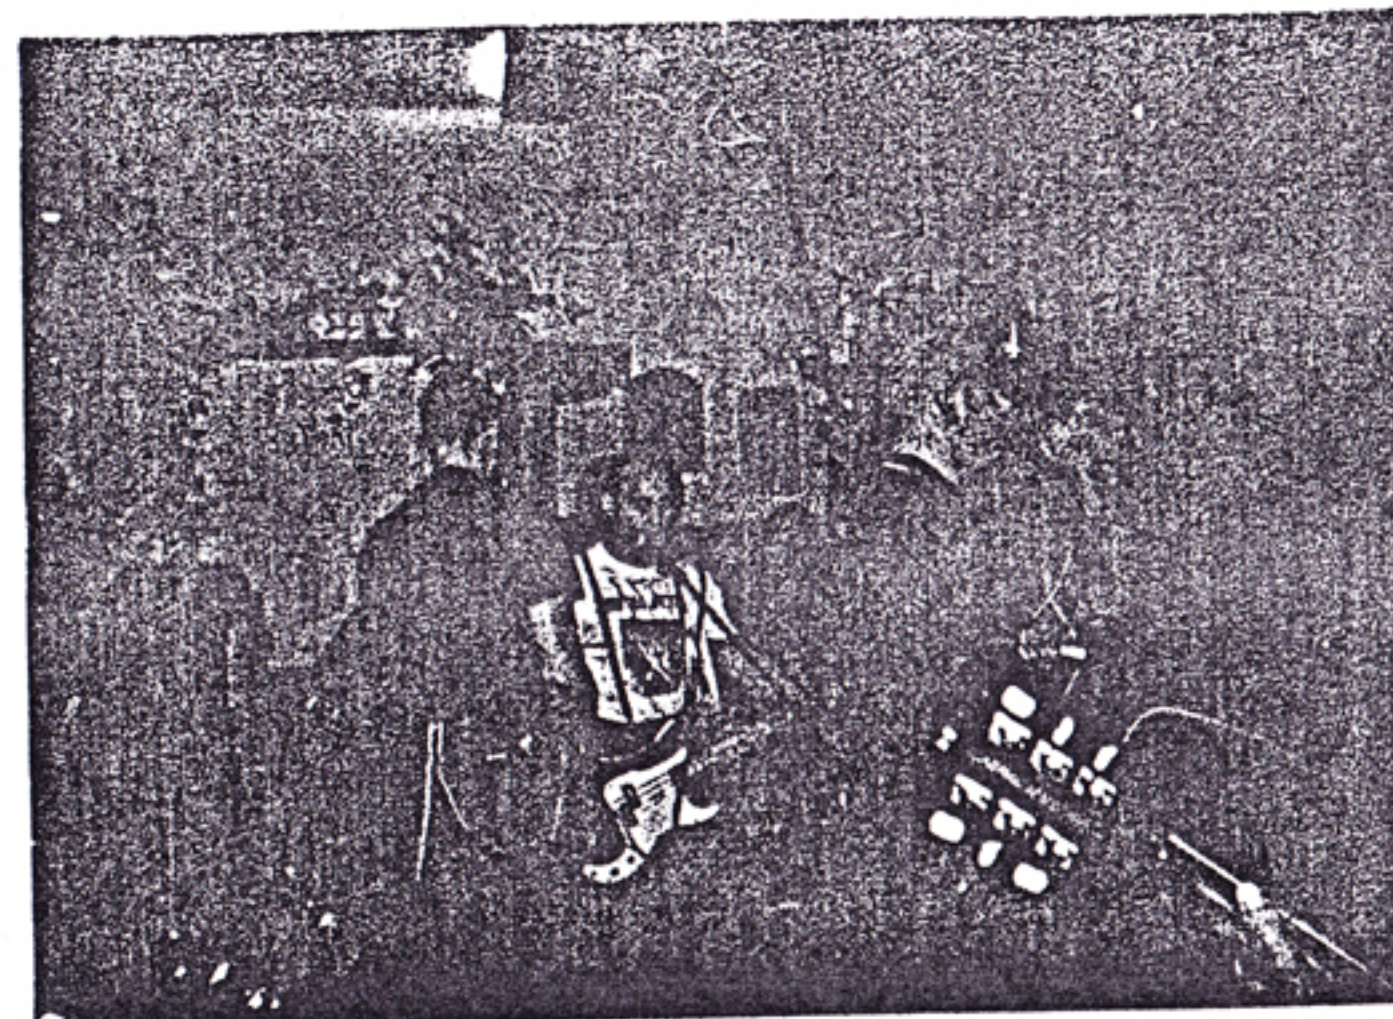

12. What do you hope to acheive with Nordic Thunder ?

With our music we hope to unite Racialist Skinheads and educate white youth, aswell as having fun at the same time.

13. Anything else to add ?

White Power !!! From all the members of ' Nordic Thunder ' and the Eastern Hammer Skinheads. Stay strong and always keep the faith " 88 ".
Nordic Thunder, PO BOX 9441, Newark, DE 19714, USA.

Cheers to Nordic Thunder for the interview and good luck for the future LP !!

Werwolf

Well heres a band that I don't really know much about except they are a rising force on the German Skinhead scene, so I'll not talk on for ever, lets here what Werwolf are about.....

When, why and where did Werwolf form ?

We formed at the end of 1987 here in Sutersloh, we were fed up with sitting around and drinking and we thought we'd do something

positive.

Whats the bands current line up ? And could you tell us of any changes you've experienced ?

The line up at present is : Bodo - Vocals (24), Ferd - Drums (24), Ohv - Bass (26), Brasi - Guitar (24), and Ahli - Guitar (23).

We were originally a four piece band but in 1989 Brasi joined us, to be our second guitarist, we've had no other changes.

Why the name ' Werwolf ' ?

A friend of ours suggested it at the time of us forming, and we had no other suggestions and so it stuck.

What topics do you sing about and which do you consider the most important and why ?

We sing about our problems, Germany, drinking, fun, women and lots more. I think our best song is on our first LP and is called ' Herz aus Stahl ' which translated means ' Heart of Steel ' and this song details our views and feelings very clearly.

How is it to be in a united Germany ?

First off we think its the best thing to happen to Germany in the last decade but on thinking about it the second time round, theres many problems with unity. The reunification cost large sums of money and the likes of us the working class have had to pay for it all in the way of ultra high taxes. Eastern comrades in Germany suffer high unemployment and theres many things that also go on that aren't broadcasted around the world, and so not seen by other countries.

What German party do you support ?

We don't favour any political party, as , asof yet we haven't seen a politician that tells the truth.

Whats your views then on the likes of nationalist parties in Germany like the DVU, Reps, FAF etc ??

Skinheads should be skinheads and should not be used as tools, or told what to say by any person. We have seen over the years how skirheads have been exploited by politics.

There is one party in Britain that does care about young white people in this country, and that is the **British National Party**.

We demand that white people, who create and earn most of the wealth of this country, should have first claim in the way of government and local government grants. Britain is after all our land. Why should we be treated as second-class citizens in it?

Join us now — and help us work for the day when British people again take possession of their country — and governments put British people first in all things!

Find out more about us by writing for information. Please fill in your name and address below and send it to us, together with 30p in stamps to cover costs.

BRITISH NATIONAL PARTY

BNP

Printed & published by BNP, PO Box 117, Welling, Kent DA16 3DW

Are there many skinheads in your area and do they support Werwolf?

A few years ago we had quite a few skinheads here and some grew their hair. But we've also had new skins come on the scene. We hope all the locals support us, also we have Werwolf security and its made up of our friends and people who follow the land.

How many gigs have you done and which would you consider the best/worst?

About 9 gigs so far with bands such as German comrades Storkraft, Endstufe, Kahlkopf, Radikahl etc. Also with British bands Skrewdriver and No Remorse and Swedes Dirlwanger. I think our best gig was in a small town near Cologne in 1989.

What band merchandise have you available?

You can get our merchandise list at: K.M. Music, Postfach 2114, 4830 Sutersloh 1, Germany. We have LPs, CDs, T-Shirts, stickers and more on sale.

What record plans have you at present?

Since we recorded our second LP last year we lost our practice place and so didn't have anywhere to rehearse new material. Now we have a new practice venue, we are rehearsing new songs for a third LP.

Whats the bands basic ambitions?

Drinking, being a skinhead and having a laugh.

Any last comments?

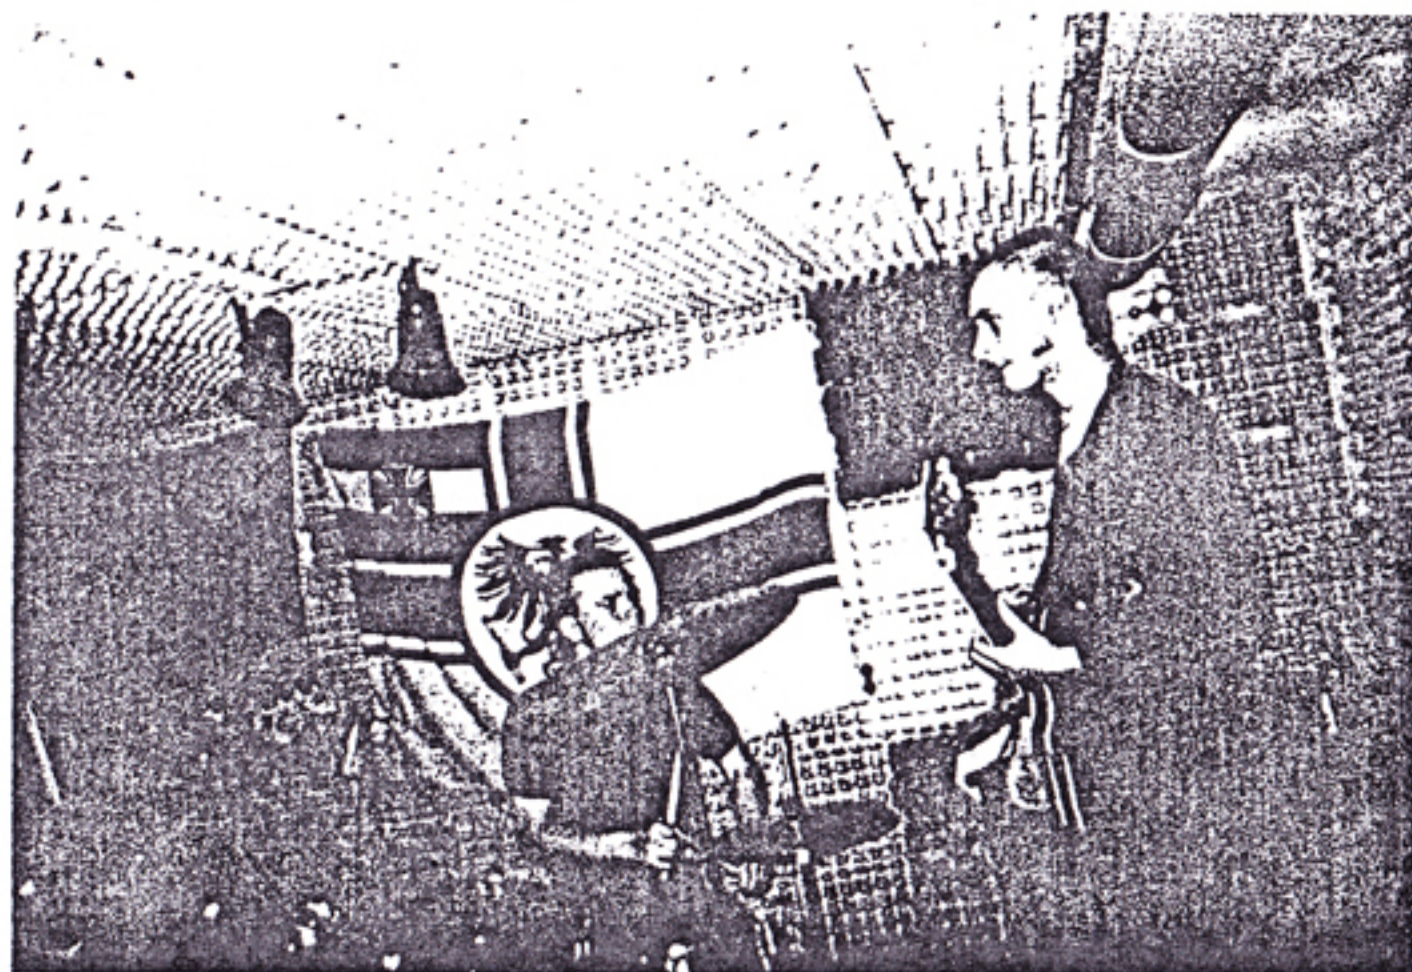

Only cheers for taking a interest in Werwolf, and it would be great to hear more from our British Skinhead comrades.

Cheers to Werwolf for completing the interview and good luck for the future. Oh by the way if anyone thinks I've been mis-spelling Werwolf, I know it should be Werewolf but thats the way the Germans spell it.

' BEWARE ' of a skinzine or so they think it is called ' Birth of a Hooligan ' which operates from a Derby PO Box, its editor, who happens to be a practicing queer living with a deaf homosexual geezer, is also sharp and a out and out multi racist! You have been warned!!

Well ' British Oi! ' have been good enough to give us some space in this issue to let you lot out there know what we've been upto lately. Not alot as I shall now explain.

Our last live performance was back on Nov.22 in Baldock, Herts and following this our problems began. On our journey home a fight broke out in a small village, Buntingford, resulting in all 4 of us in English Rose and 9 other proud whites being arrested. Ten of us were charged with 'Violent Disorder' and put on remand but we all managed to get bail and 2 defendants eventually got the charges dropped all together. Myself (Jonesy) and Spen still have to face the charge in crown court soon and if the corrupt system gets its way, prison looks inevitable. If this does happen, we're sure British Oi! will let you know of this and probably our addresses too.

Away from the court case, the band has been kept off the live scene due to the departure of our guitarist but we haven't been silenced yet. Before he departed our company we managed to record 14 songs, 4 for the Last Chance Comp.LP and 10 for our LP "Never Be Silenced" which is now being pressed by Rebelles Europeans.

We are currently writing material with a session guitarist helping us out but as of yet no recording dates have been set. We are looking for a full time guitarist to join us for gigs and recording, anyone whose interested contact us now!!

Thats all we will say for now, thanks to British Oi! for being there, and keep up the great work, cheers to everyone whose kept in touch and sorry if replies have been delayed. Anyone requiring interviews, info, news etc then please get in touch with either a SAE or IRC to English Rose, 14 Hollyhayes Rd, Whitwick, LE6 3GG, GB. A PO BOX will be coming soon aswell.

On the left, from Left to right... Jonesy - Vocals, Blakey - Drums, Spen - Bass.

ON THE WORLD

01 Band - Kratky Proces.

Well this issues On the World comes from the eastern country of Czechoslovakia and basically as with all the On the Worlds looks a bit below the surface of the Czech skin movement and says what its all about.

Czechoslovakia a mouthful to many is a country which has the border countries of Germany, Austria Hungary and Poland. Czech has a fairly good relationship between all these countries and skins especially are united with comrades in all these countries.

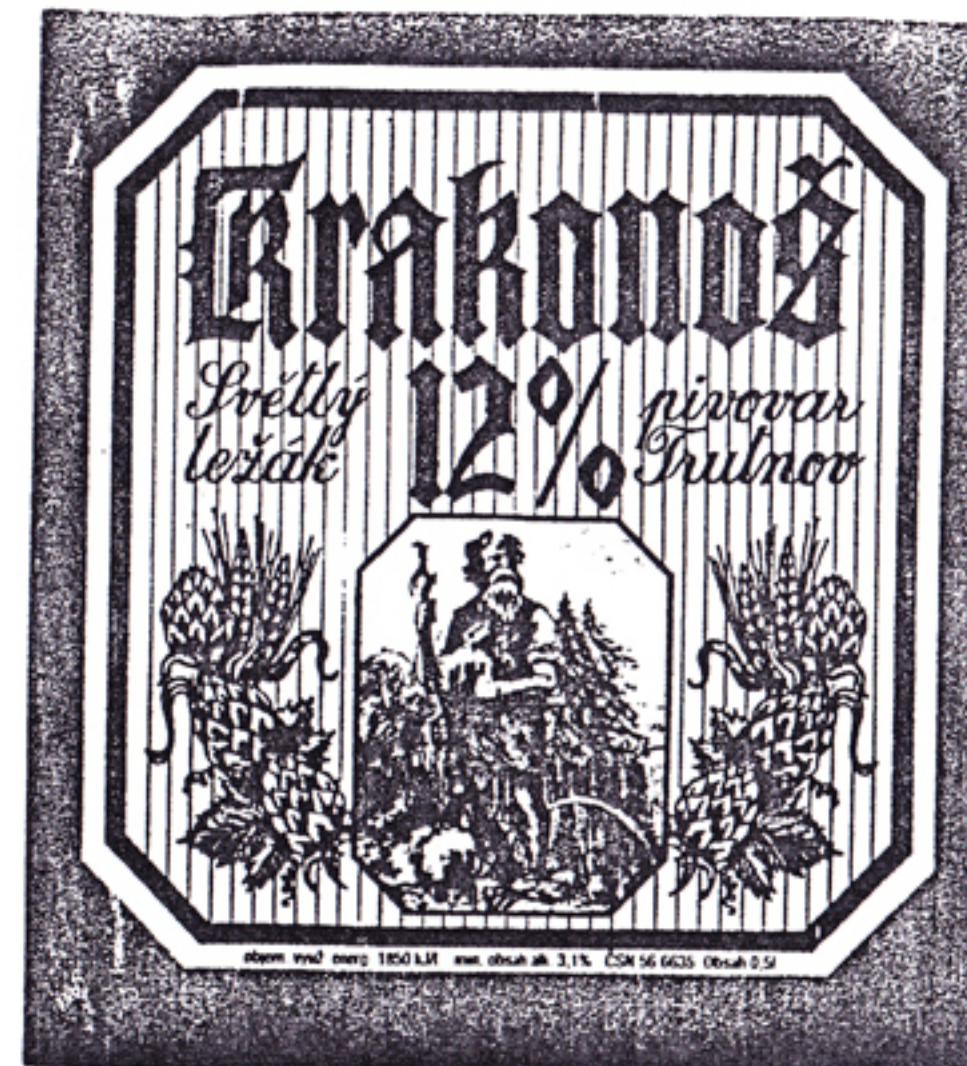

Lets look first at the country, considering Czechoslovakia (C.S) has just become a independant state after 40 years of communist/soviet oppression, the economy is quite wealthy and can't even be thought of as in a state of poverty like such countries as Albania, Romania etc.

Actually in C.S if your unemployed they have a fair system, if you lose your job, a claim will be made for 3 months salary from the previous job and then the dole will pay each week 60% of your old salary for upto 6 months and then it lowers a bit more, but if your unemployed you have to attend a work office.

Now the main political parties of C.S cover a wide range of politics but note, in C.S there is no nationalist party, as like the BNP etc and in fact it is in state law that if your a racial nationalist or try and preach the view of racial nationalism you will be prosecuted for the label of ' Racial Hatred ' and face a jail term of between 1-5 years in nick. Zionism is rampant in C.S. All in all theres none short of 42, yes 42 different parties in C.S, no doubt preaching liberalism and socialism! The main parties are the O.D.S which is the Czech version of the Tories, the O.H a version of the Liberal Democrats, and commie parties are still strong. Then you have such names as ' Friends of Beer Party ' and the ' Independant Erotic Iniciative '. In the area of Bohemia which I have learned alot about the Christian Democrat Party seem most popular. The people of C.S have elections coming up soon, so it should be interesting to see what happens with so many different candidates about. But as I say, to represent the White folk of C.S is against the law! Apparently, the state has taken this view from books of out and out promotion of zionism. As far as I know the only party supported but the C.S skins is the SRP-RSC party which is a republican party, its leader is Miroslav Sladek, but according to other skins, all the effort put into this, just brings no rewards!

Czechoslovakian skins believe in the state of Slovakia that was declared during World War 2 and the policies of that state. Something to up hold the banner and shout aloud ' Rights for whites '. For skins, the word dislike isn't strong enough for the hatred they feel towards the commie orientated parties like the KSCM, SDL etc and lately a few demos by angry nationalists have occured due to the fact, that gypsies have been allowed to field candidates and still the hate law against radical Czechs is still in force.

Away from the political scene now, lets have a look at what skin bands there are in C.S. Well theres a few to mention, firstly I'll outline a traitor band that exists in C.S. They're called Orlik and claim to be skins but really are pop stars on a ego trip and worked along side the hate mongers of communism before independence. Bands in C.S preacha mixture of topics, some bands are political, some aren't. Buldok seem to be popular and have a good sense of white pride (Read there interview in British Oi! 22) and other well liked bands are Valasska Liga, Branik, Anti Panika and the popular Kratky Proces who are a quick tempered band, rough sound and good lyrics. Other up and coming new names on the scene are ' I.P.B, Mlada Boleslav, Ostrava, Diktator and Nachod. These bands are still quite new, so I know only a little of these.

for records is indeed very poor.

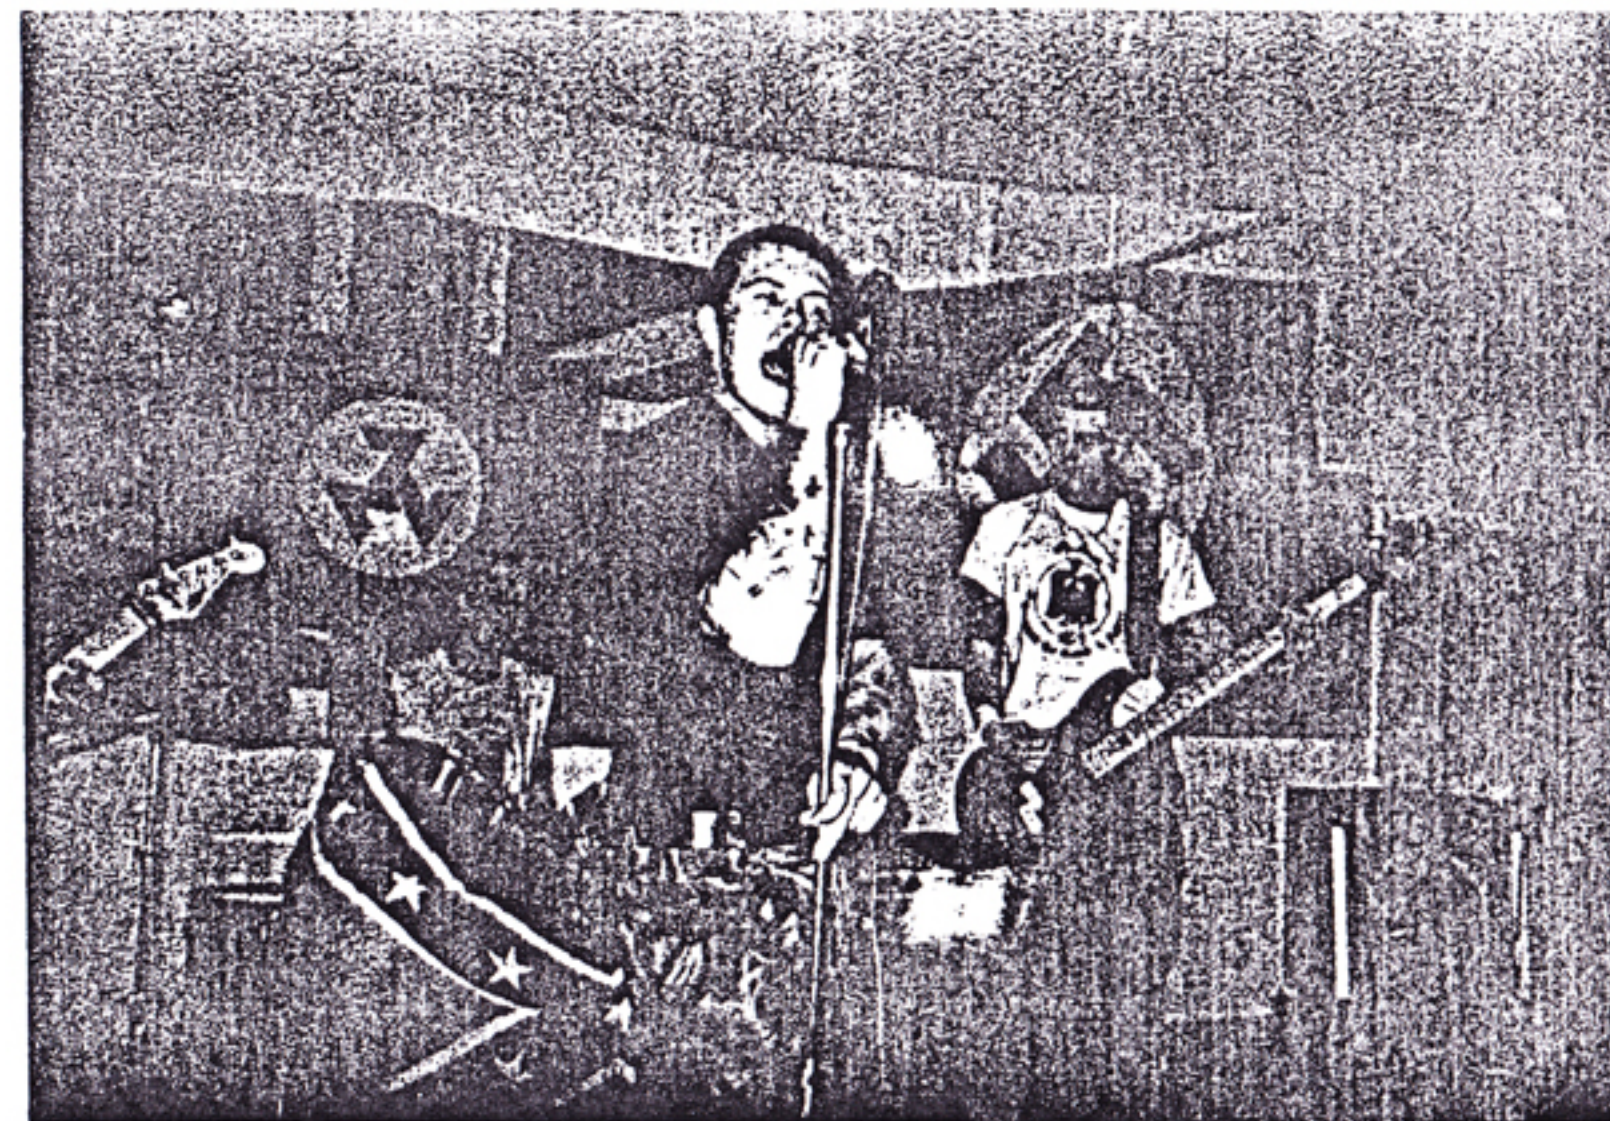

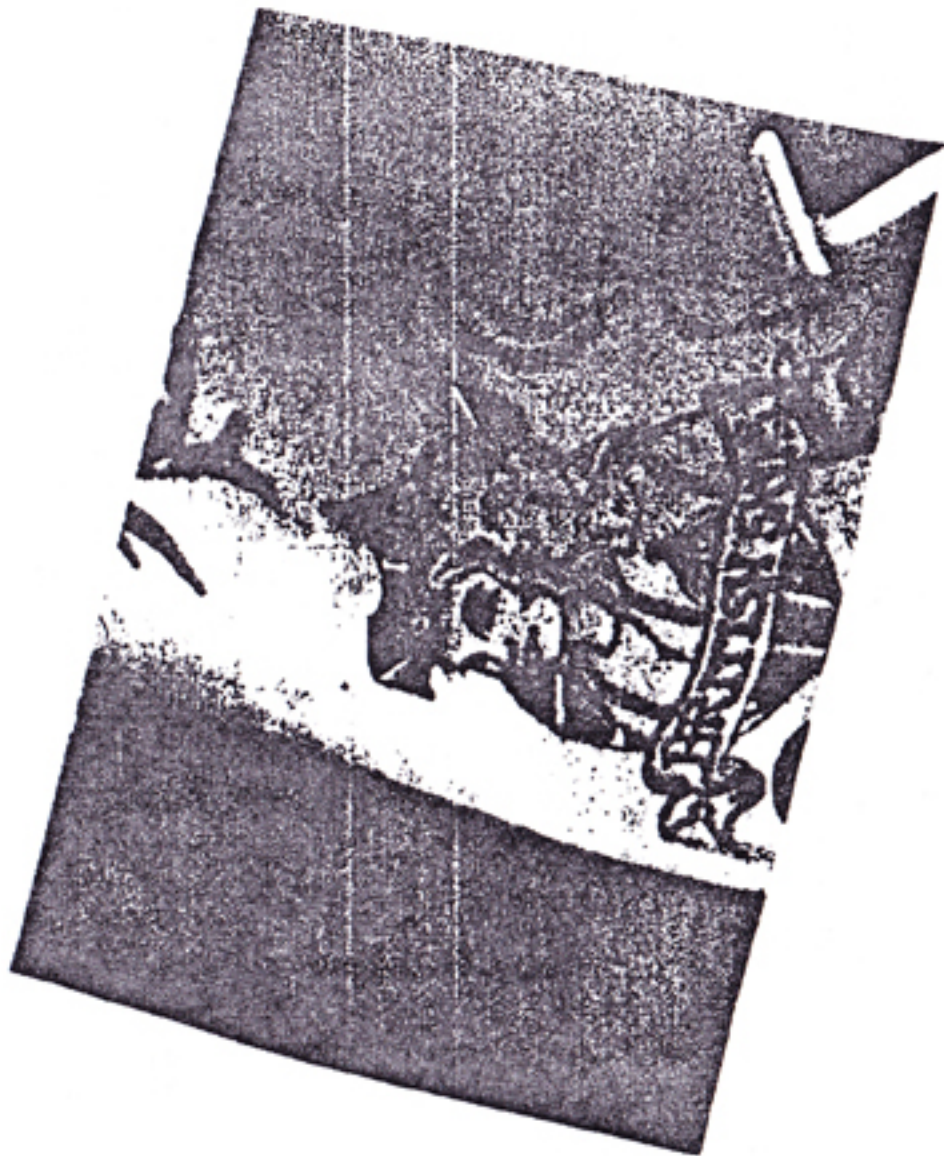

Well a topic that is vital to us all is, the burning question, what about beer ? Bohemia in C.S is called Beer Country as it contains alot of breweries and boasts a tremendous amount of quality biers. The one is mentioned above/left. The best known labels in C.S and the most widely drunk must be - Pilsner Urquel, Budvar, Gambrinus, Staropramen and the ever popular Trutnovs Krakonos Beer, Rum and Vodka are also widely consumed.

Back to the skinhead scene in C.S. Well its quite difficult to obtain a quite accurate amount of skins in C.S but skins can be seen on the streets and in the pubs of most towns and cities if not all and the good thing to point out is that C.S skinheads are nearly 100% race orientated and believe in the struggle for white unity. Subnormal hate groups of dross like the SHARP or AFA haven't a chance in C.S which must be very good to say the least, a sound youth movement is an advantage against the state oppression.

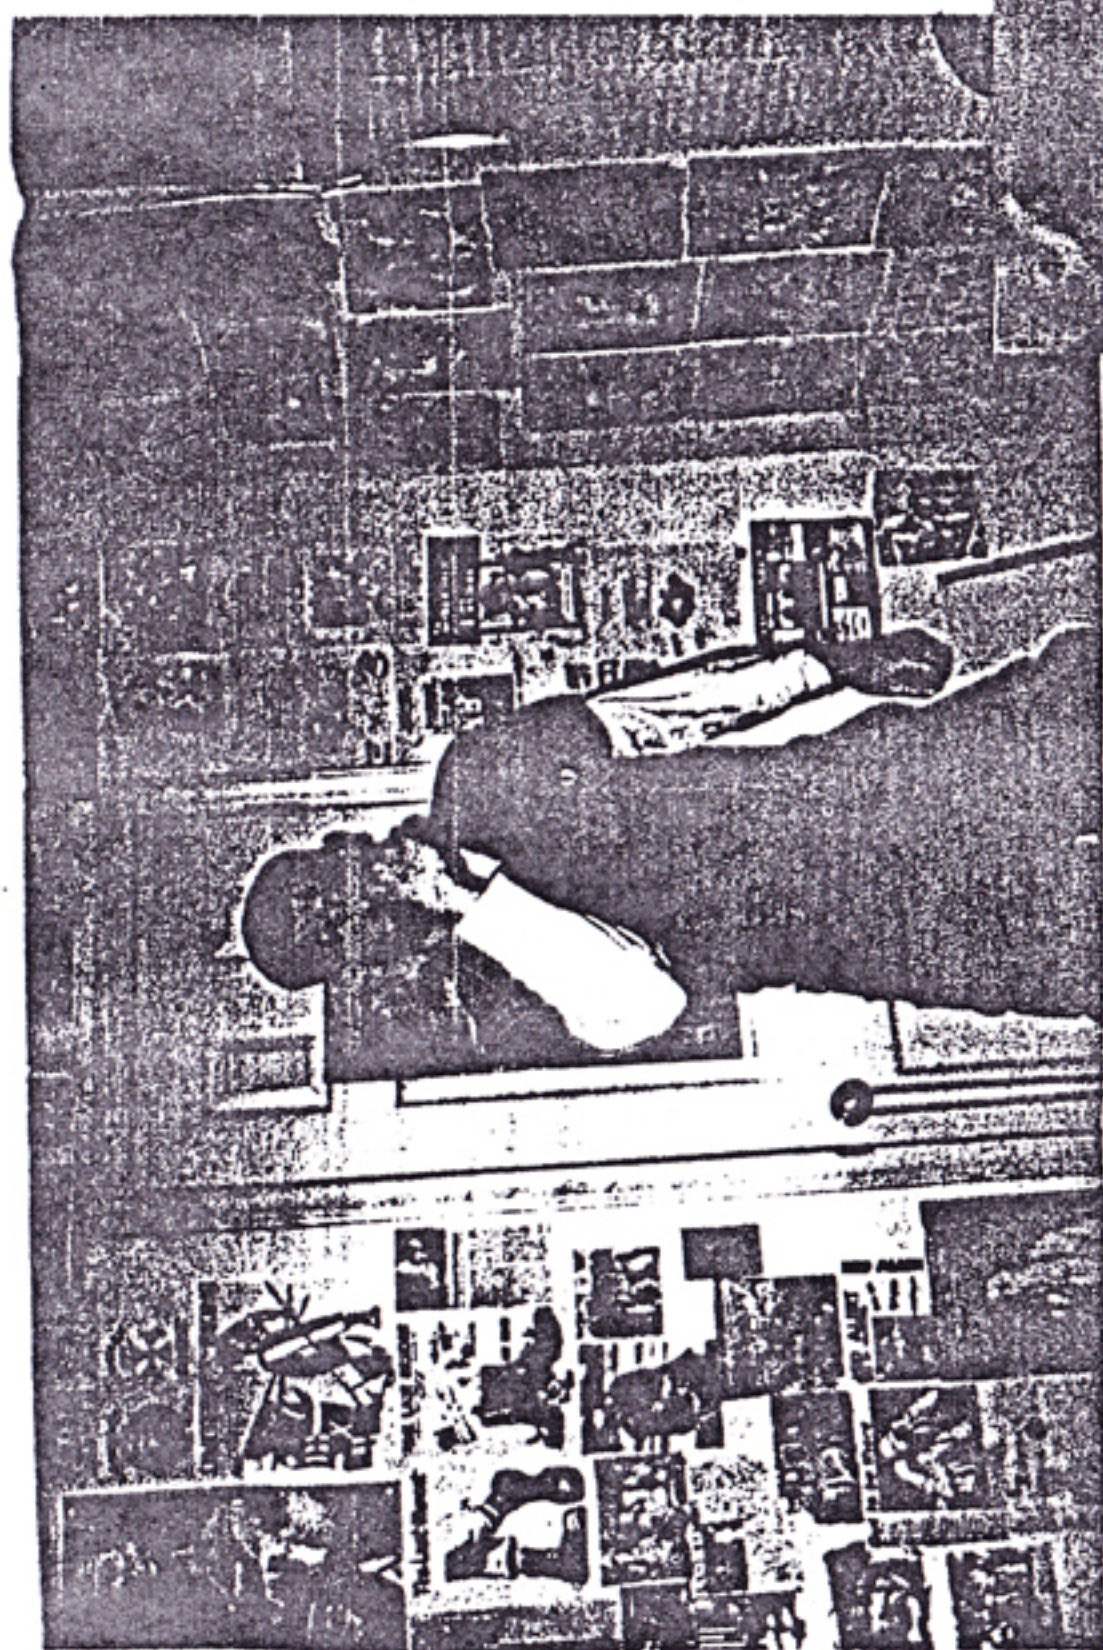

The future in Czechoslovakis over the next 5 years is looking quite interesting. Five years ago the nation was under the dark hammer of communism and the people were as you'd understand unhappy with life, and thats no lie, this was said to me by a comrade with experience of this. Under the beast the skinhead movement did exist but it never really did anything. In 1989-1990 when the doctrines of Marxism and Leninism fell, the skinhead movement increased. In 1990 the first of many large clashes with the No.1 enemy - gypsies occured, practically in every town, there was fighting on the streets. At that time, the so called new democratic government stood behind the gypsies even though they are destroying the country. Also in 1990 the traitors of Orlik appeared on state T.V to appeal for skins to stop fighting against the gypsies. The slogan - Beware of Traitors, it seems is valid always and everywhre. The next five years promise a increase in national pride and a increased population shaving there heads and becoming skins. Now at the moment there are alot of young skins, as at the moment its all the rage to be a skin and of course, the real skins have disassociated with these and clashes have occured on the scene. These problems can be overlooked and classed as experience. On the whole, looking a C.S now, and looking into the future if thats possible, it looks good!

While I was getting info for this article I was asked to point out that alot of Czechoslovakian history includes alot of Celtic pride and indeed the word for the area Bohemia is a Celtic word. Skins of C.S would like to point out, that the heritage, the ancestry runs through there veins and can only help up lift there race and bring about a whole rise in C.S nationalism. And C.S skins beleive that they will see victory! WE ALL HOPE SO!

My thanks for this article go out to Karel who without his help it wouldn't have been possible - Cheers.

NEWS FROM THE RIGHT SIDE

Well the news from the Right side is becoming quite popular out there according to the good response I'm getting from the British Oi! readership. All the news, births, paper clippings etc are more than welcome, so keep them coming in. Well whats been happening lately.....

A rather irritating 'Trendy Lefty' glossy magazine 'The Face' recently had two articles in it which would interest nationalists. The first was a two page spread complete with photos of the covers of German skinhead LPs of the bands Storkraft, Tonstörung and Kahlkopf which tried to go under cover into the German skinhead scene and see how it all ticks. The article entitled 'Out of Tune' quotes Storkrafts lyrics translated into english and basically is a ultra knock down of German skins and there bands. For some reason it keeps on going on about guns and paramilitary groups etc, trying no doubt to get the police forces and special branch etc onto the skins backs. The article drones on about gigs and how much more attended they are being now the east and west are united. Every paragraph seems to have a little dig at skins and nationalists. Basically with all the name calling and saying everything without a red star on his beret is a nazi, this magazine is utter nonsense and should be well avoided. The second mind numbing article is undoubtedly a counter punch to the nationalist scene. The article entitled 'Tuning Up - Rave against Racism - Techno fights back' is a story of a German LP of Rave & House tracks against Racism. Its produced by no less than nine Frankfurt producers with the main organiser being a Heinz Roth? Perhaps Frankfurt nationalists know of him or should do? This magazine is so blatantly pro- this crap even quoyes these following lyrics off one of the bands as uncompromising and good - "Its against people who are stupid in the head" and follows on to say "Nazi Rednacks F**k Off", it shows a large photo of some rather peculiar looking people with pony tails, dreadlocks and silly grins holding cards up that all combined say "No More Ugly Germans" and a little photo which shows the world with the slogan 'You are welcome to stay here' on it. It praises this article so much it, it makes me sick. Avoid this trash.

The white race strives on is the thought that came to my head when three comrades recently had babies brought into the world. The first a baby girl named Alaina and weighed in at 10lb 13oz is the pride and joy of Paxo and Jane from Kent, Paxo is known for his mail order service Thunor (See this article later). Alaina was born on 7.5.92. The next day, the 8th - Alice Jane was delivered and weighed in at 10lb 6oz and is the bundle of joy of Pete & Jane from Burton. On Trent and Alice Jane makes that the second for Pete & Jane and makes a sister for Shaun. The third girl born on 22.5.92 was a bouncing 8lb 3oz and was named Katherine and is the daughter of local comrades Tony & Helen, and British Oi! says congratulations to all three happy couples with their new found joy. If anymore readers have had babies lately let me know and I'll include it within these pages.

In Memorandum - Simon a skinhead from Bath was recently in touch and asked if I could print a message for him, here goes - 'For my dog, Buster the Bulldog who sadly died on April 13th '92 aged 18months of a heart attack, caused with or by a windpipe defect which he had from birth'.

A few new skinzines have been knocking about lately, firstly one done by some Geordie comrades is 'Aryan Warrior' which to USA readers has no connection with the old American Front paper of the same name, this zine covers nationalist bands, odinism and also interview with movements such as in No.2 with the SS Action of the USA. A good zine with some interesting stuff in it - £1 inc P&P, PO BOX 18, Spennymoor, Co.Durham, DL16 6PA, England. Incidentally on their little stickers it has on the bottom 'NSSH Europa' which I gather means National Socialist Skins Europe, so whether they are doing the European unit of the USA idea, I don't know.

Another new zine is Dixie Rose from Texas. No.1 is out now and contains interviews with Stormwatch, Radikahl and a article on a White Knights meeting and some other bits and bobs. Not a bad No.1. 3 Dollars inc P&P from Popeye, PO BOX 940922, Plano, TX 750094-0922, USA. The third new zine I received was a new more political concentrated zine from Rudy a comrade from Poland. Its called 'The Lightning' and exchange zines are welcome for it, or 2 dollars inc P&P, unfortunately its all in Polish but it seems well put together and basically pushes, and it pushes it strong, the views of N.S. From Rudy, Ul. Gdanska 26/8, 85-006 Bydgoszcz, Poland.

Did anyone happen to see the programme recently on BBC2 'Open Space - Fighting Talk' a programme made by the scummy Anti Fascist Action in conjunction with oh, would you believe it, that classic toilet paper - 'Searchlight'. It was a blatant smear against the expanding and ever progressing British National Party, the BNP. It was narrated by Mensi, formerley a Oi! favourite with the Angelic Upstarts, but now AFA organiser and still singer with the upstarts but who could support them now, as they are pro IRA, pro-Marxist etc. The AFA in fact in my eyes made themselves look cowardly, I mean, if you saw it you'd know, but to those who didn't, the NF got a mention and it showed 3 of the NF on a paper sale, it took nearly 30 AFA, in front of a TV crew to oppose them. It kept on preaching how evil the BNP were and for some strange reason kept showing silent pictures of Hitler. Well as per usual this programme just goes to show how biased the BBC is, I wonder if they'll let us air our opinions on TV at a peak time, some how I think not, so much for the 'Open Space' eh!! On the matter of the TV, On April the 25th Channel 4 filmed a gig in Nottinghamshire where Celtic Warrior, Squadron and Skullhead played, they interviewed also Ian Stuart and quite a few of the crowd present about a variety of things, from tattoos, to politics etc etc. Its gonna be a documentary about skins, so keep an eye out for that, and lets see, how they portray us.

The Grand Dragon of the Templar Knights of the KKK, JD Alder was recently in touch to wish British Oi! readers all the best and if anyone is interested in helping them out with activities then to get in touch with him, Box 7131, PI. ST, Lucie, FLA, 34985, USA, or Telephone (407) 878 5567.

Onto a bit of band news.....Grade 1 the Cambridgeshire band recently split..... Battlezone split up not long after their gig in Spain but I'm led to believe Alex has a new line up and shall be working on a second LP soon which Alex says will be in the same vain as the first LP, gigs by Battlezone after recording will hopefully start aswelll.....Squadron are waiting for a payment off Rock O Rama and then will set about recording there third LP 'Combat, Battle & Burn', they have been playing some of the new material on the gig circuit and by the sounds of it, the third LP should be a blinder....Moral Outrage the up and coming US band have changedthere name to Stormwatch.....USA bands Bound For Glory and Final Solution recently went down well at a big gig in Germany and I think Bound For Glory plan to go back soon.....Skullhead have been busy lately, after playing gigs literally every weekend around Britain they've also played a gig in Italy and also recently a gig in Germany with No Remorse amongst others.....After the Violent Storm tradgedy, Billy has reformed a band playing mostly V.S numbers but under a new name for obvious reasons, they now called Celtic Warrior.

Thunor Services were recently in touch to say they are still knocking about and plan a third catalogue to be out soon and have some great new t-shirt designs, some new world war 2 posters, and are expanding into selling CDs from Link, not all the garbage Link are selling now but the good CDs they've released like the 4 skins, Section 5, Some Sham etc etc, why not write and see what they've got to offer write with a SAE to Thunor Services, BM Box 46, London, WC1N 3XX, England.

Well that just about closes this issues 'News from the Right Side', and don't forget, if you have any news, anything of interest to nationalists or births, messages etc, don't hesitate, send it all in, as without, your help, the N.F.T.R.S wouldn't be possible.

SKREWDRIVER NEWS

Since Skrewdriver News has been introduced into British Oi! it has proved increasingly popular with readers and of course fans of Skrewdriver as it keeps you upto date on the hectic goings on of the No.1 nationalist band. Well I'll leave it up to Ian to fill you in with whats been happening lately.....

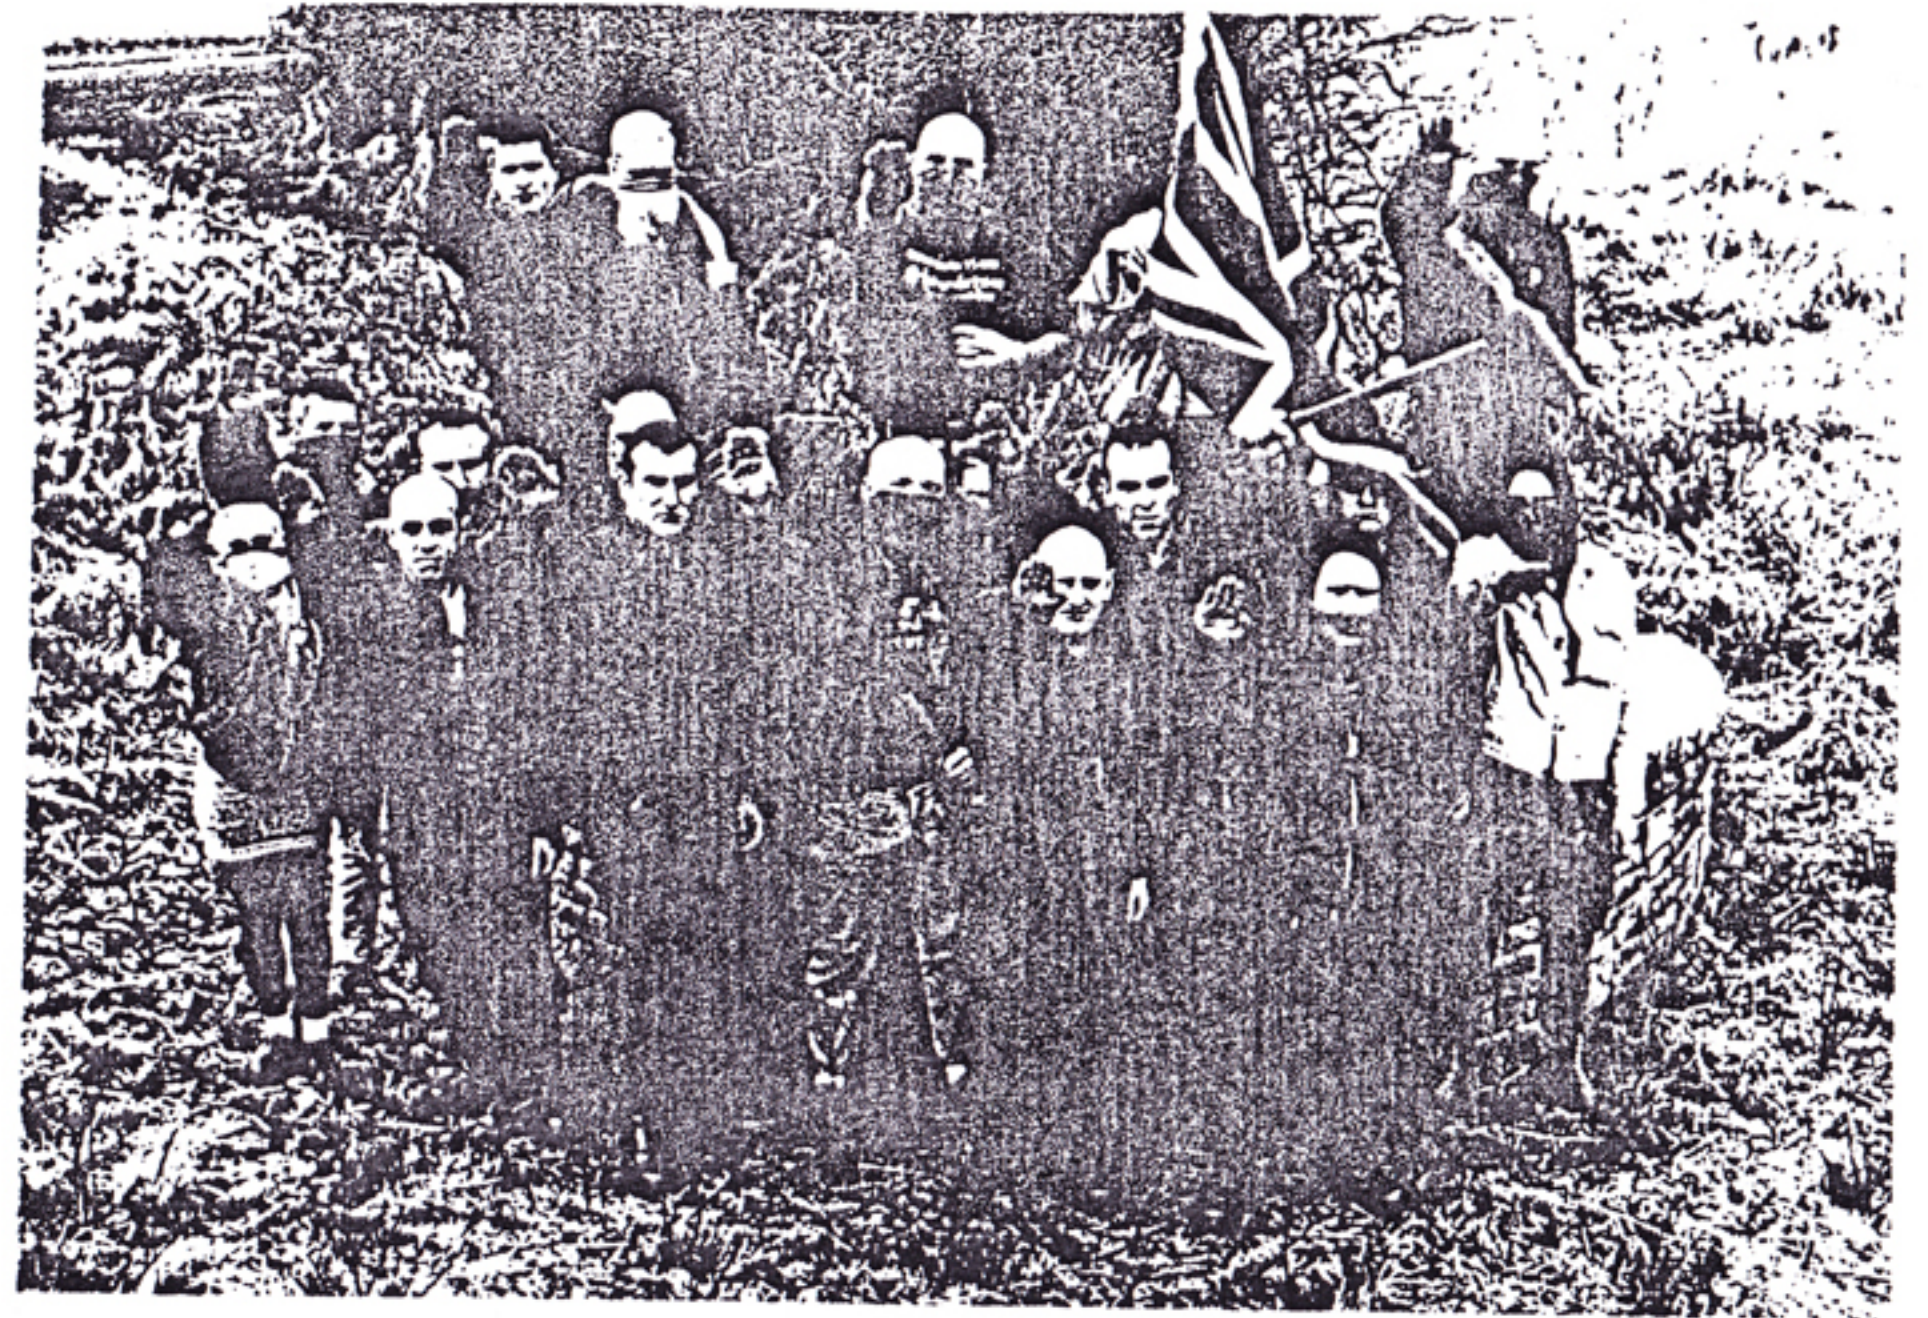

Members of Skrewdriver have been quite busy lately, helping out and being involved in several other projects.

Johnny B. and Jon Hickson have both been helping out No Remorse who haven't managed to get a permanent drummer or bass player as of yet. Stigger at this very moment is in the recording studio, recording his first solo LP, although stigger doesn't sing. The LP already over half done is said to be a mixture of cover versions and new songs by bands as varied as Black Sabbath, Jon Bon Jovi and songs by myself. This LP as of yet untitled, promises to contain some fine guitar work.

I have recently been in Germany on two occasions, as a guest of German Nationalist band 'Storkraft'. I played two concerts in both North and South Germany and played a rousing set of twelve Skrewdriver numbers which the excellent Storkraft provided strong musical backing for. More concerts featuring Storkraft and I are being planned for the future, also a interesting joint LP of Skrewdriver and Storkraft is now being arranged.

Skrewdriver are now rehearsing for several British concerts beginning in late July come early August. A couple of European gigs are also planned, so keep your ears to the ground for more details as they all come off. At all of these concerts, as with the last so many gigs, Skrewdriver will be playing a strong set of new and old material to keep all present happy from songs such as 'Voice of Britain' through to most recent compositions such as 'Oh No Here comes a Commie' off the new LP 'Freedom What F***** Freedom'. The gig set will have about thirty songs all in all.

Myself and some fellow Blood & Honour officials will be visiting several parts

of Europe soon to cement work already done and spread the influence of the work done by Nationalist music across this great European continent.

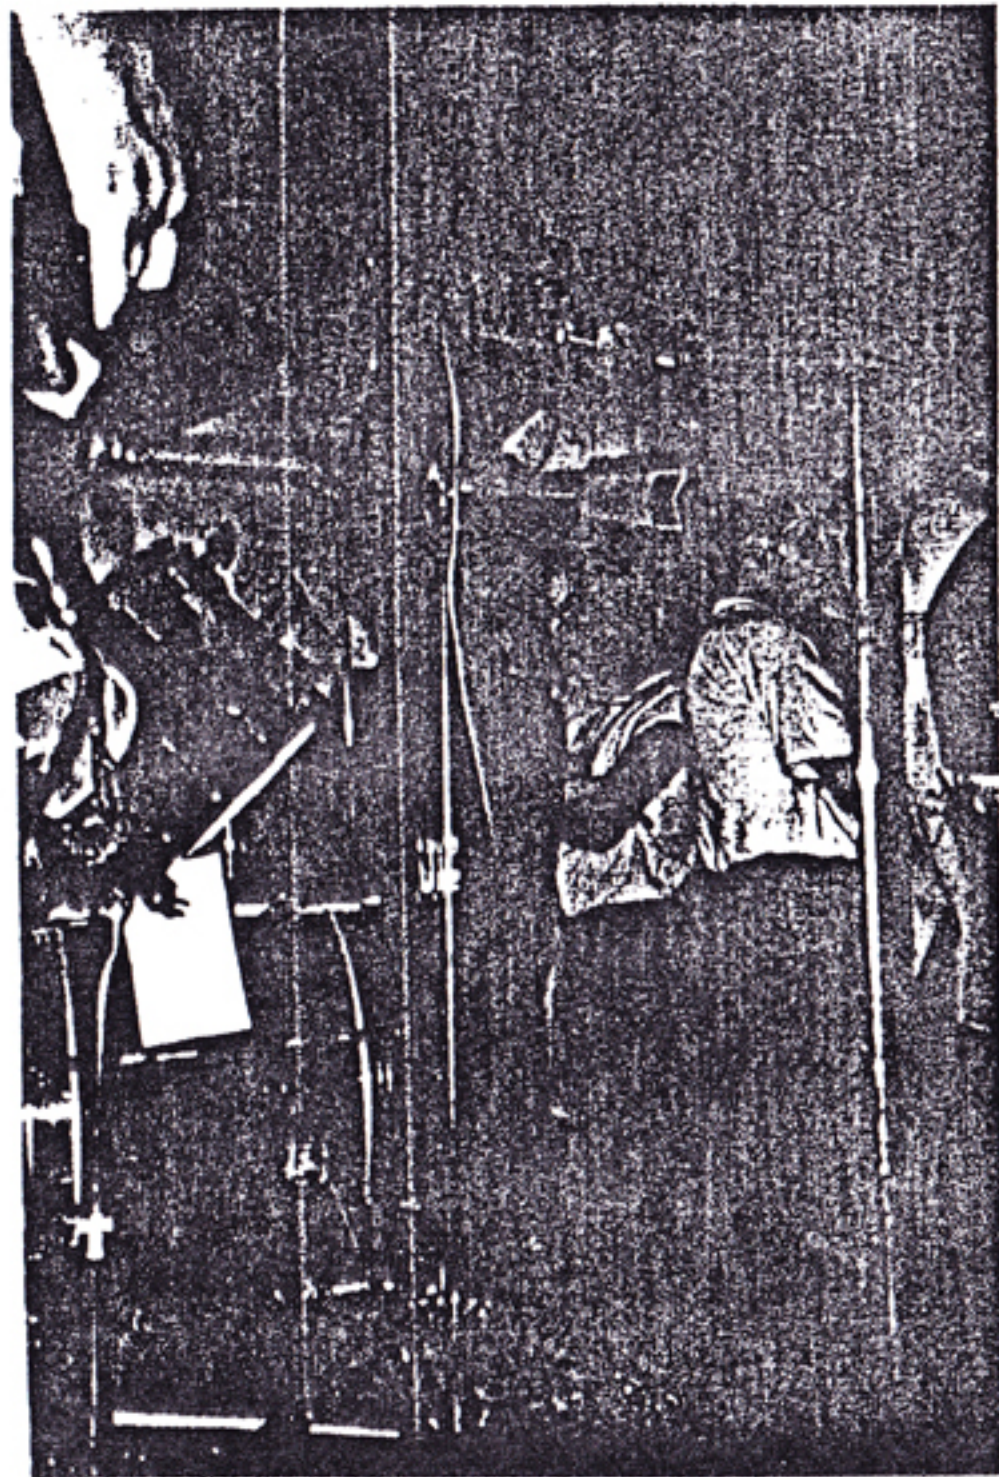

On the Skrewdriver Services from all seems to be running well with new t-shirt designs etc out quite often. The court case against Roy & Kev who used to run Skrewdriver Services has been sent to crown court now. The high powers that be are trying to make six LPs, none of which are Skrewdriver, against the law to even have in your own home. Next they'll be trying to pass a law against short hair ???

Lastly for this news bulletin, I would just like to thank all German comrades involved in the organisation of gigs, especially Alex, Jorg, & Storkraft, Steffan & Noie Werte, Petra, Doug (M.F.) Dobalina, Janette, Nicole, Melanie and Wolf.

The two photos on the left are from the German gigs, and the one above is of the Blood & Honour Strikeforce.

Europe Awake,
Ian Stuart.

CAUSE OF HONOUR

Well heres a band I've heard
of through a few other zines
but never really found out
that much about them as a band
etc. So I got in touch with
them and heres the end result,
on with the Cause of Honour
interview.....

1. When, why and where did you form ' Cause of Honour ' ?

Cause of Honour formed back in December of 1990 in Catithea (a area of
Athens, Greece) because at that time a new skinhead scene was emerging in
Athens, and all these young skins needed a new band by young skins to show that
skins in Athens were alive and kicking.

2. Whats the current line up with ages ?

Its - Jimmy, Vocals, 20 - Stefanos, Bass, 19 - Kostas, Guitar, 21 -
and Tasos, Drums, 19.

3. Why did you choose the name ' Cause of Honour ' ?

The name was actually a idea from kostas, as in a conversation before the band
was thought up, he said, honour was something that people don't count anymore
in this day, but in the past honour was the driving force and reason for the
Greek people back in 1821 to start a revolution against the Turks, and make this
land free from F**k**g muslims. So the Cause of Honour in our view is always
the first and foremost reason for a skin to fight for his beliefs.

4. How would you describe your style of music ?

I would describe our music as a mixture of Oi! and hardcore because of our
different musical tastes. Me (Jimmy) and Kostas are into Oi! but Tasos and
Stefanos are more into American hardcore. This could be a problem as its so
different but we've managed to play together for 1½ years now.

5. What topics do you sing about ?

Our songs are about the strife of being a skinhead and about our corrupt Greek
politics and politicians, who want to sell our land out to large multinationals.
In the songs about this, we also include the solution to this corruptness with
strong support for nationalism. We don't just sing about problems though, we also
have a song about wine and our ancient god Dionisos who was the god of wine in
ancient Greece and our song says " Keep the faith to Dionisos and start drinking
wine if you want to pray to him ". We also have a song about Alexander the Great
who was the leader of the Macedonian Greeks 2000 years ago and is a answer to all
these fake Macedonian Slavians who want to steal our history.

6. How is the Greek skinhead scene and do all the Greek skins support you ?

The greek skinhead scene has over the years been at different lavel's, it
started back in 1932 and from then on until modern day, people have appeared and
disappeared from the scene. Right now there is a new skinhead scene around Athens
with new bands and a more strong support for extreme politics than previously in.

Above : George from Athens.

the past. About 80% of Athens skins belong to the N.S party ' Gold Dawn ' and the rest are nationalists or simply just patriots. Since we started most Athens skins have become close to us perhaps in some cases to close, as big fights have occurred after gigs and so now its hard to get a venue.

7. Have you any recording plans ?

Yes, we plan to record a single, we already have a demo but its a bad quality recording, but at the moment we have a few problems as Tasos is in the Army in Sauos, and I've joined the army to become a officer for 5 years, so as you can imagine, to get to practice is at the moment quite hard. But we've decided to keep the band going and to play every time we get together. Another problem is the bad reputation of the band and I suppose to all skin bands that record companies are frightened off due to our politics and our fights at concerts etc.

8. Are there any other Greek bands, if so, could you tell us about them ?

At this time of writing there are only two other skinhead bands in Athens, ones called ' Southrise ' with Greek lyrics and the other is a N.S band called ' Storm bringer '. Theres another band in Thessaloniki called ' Warriors Pride '. Oh, theres a Ska band in Athens too, they're called ' The Traces '.

9. Are ' Cause of Honour ' a political band ?

Cause of Honour is a political band because politics are the main reason for all our problems in Greece, so if we want to face these problems, we have to be into politics and our politics are nationalistic without rejecting some of the ideas of National Socialism. Kostas has been a member of 'EPEN' a nationalist party for sometime and Me and Stefanos are supporters and into the N.S party ' Gold Dawn '.

10. Do members of the band have any hobbies ?

As for me I enjoy to make model plastic miniatures of the German Panzer Divisions and Kostas enjoys to play pool with me (but hes better than me !!), Tasos is learning Kickboxing and stefanos, well he just plays Bass guitar.

11. What ambitions within the band have you got ?

Our only ambition at the moment is to get together as regular as we can, from our current army life, and to practice some new songs I've written.

12. Have you anything else to add ?

First off I'd like to say a big cheers to everyone who has written to us over the past year, especially to Last Chance and Pure Impact zines, and of course cheers to you Chris. Finally if you do write to us, it might take a while to write back due to our Army duties. Our contact address is : George Veduras, M.Botsari 14 Dafni 17234, Athens, Greece.

Well cheers to Jimmy of Cause of Honour for doing the interview and British Oi! wishes you all the best for the future. Also a big thank you to George for helping me out.

EDITORIAL

Racial Comrades,

First of all many thanks for buying this copy of British Oi! No.24. I hope that you enjoy the content and if you have any comments on how to better this publication, please, let me know.

British Oi! No.24 was delayed through family reasons, namely the birth of my second daughter who was brought into this world on Sept.4th and weighed in at a petite 7lb 10oz, we've named her Freya after the Nordic Goddess. My love and thanks go out to Jo, my fiancée, for giving us another beautiful child. Also in December your very same British oi! editor will be marrying his fiancée. So as you can imagine, life is summat busy lately.

In this issue, you will find the usual amount of interviews, news, charts, photos etc but you will notice the 'On the World' article is missing. I have chosen to include a interesting article instead from a glossy mag which covers British comrades trying to attend the annual Hess Rally in Germany. Also on the same page as Skrewdriver News, it announces the launch of both Blood & Honour East Midlands and the Northern Division of Skrewdriver Services which shall be good to be involved in.

Well I'll leave it at that for this issue, see you soon, and don't forget.....Victory will be ours!!

Squadron

Well afew things happening on the Squadron front at the moment.

The London lads have been busy gigging in Belgium, Germany and the UK over the last few months and are gaining a good loyal support from nationalist youth.

Squadron in my view need more of a break with gig organisers as musically they are fantastic, and after the success of their first two LP's 'Our time will come' and 'Take the Sword' they are, as I speak,

in the studio recording there third LP 'Combat, Battle & Burn'.

Tracks included on this LP are - 'Der Sieg Wird Unser Sein' 'I hope thats right?' which translated means 'Victory Will Be Ours', 'Death Before Dishonour', a remake of the old Strike song 'Skinhead', a remake of the classic Manowar track 'Blood of the Kings', 'The Elite' a track about the SAS, 'We'll start the War', 'Mr Media', 'This Axe we Grind', 'You know the score' and a few more to make up an 11 track LP. It is rumoured to be there best so far, so be sure to get it on release. It should be on sale in about 2 - 3 months.

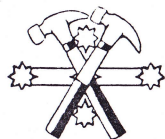

Also Squadron merchandise, which is hard to come by at present will soon have its own outlet. After Thunor Services called it a day, Squadron have stepped in to use the PO BOX address as its always been that on the LPs and are in the process of forming 'Squadron Services', which will stock all the records, CDs, and they have three new designed t-shirts aswell as the t-shirts currently available. As of yet, I'm not sure if Squadron Services is fully operational, but if you'd like a merchandise list, then send a Large SAE to Squadron Services, BM BOX 46, LONDON, WC1N 3XX, GREAT BRITAIN.

FORTRESS

United in the fight for Race & Nation

Fortress are a new up and coming name on the skinhead music scene and hail from the land, down under, Australia, also home of such bands as Open Season and White Noise. They currently have a seven track EP out on Rock O Rama, and although as I write this, I haven't heard it, it is said to be really good, so look out for it. Well on with the interview.
.....

1. When and why did you form Fortress ?

We formed in June 1991 due to our deep interest in music and the desire to promote and spread the message of WHITE POWER !

2. Could you tell us the current line up of the band with ages ?

Andy - Drums - 25, Dave - Bass - 24, Scott - Vocals - 24, Anthony - Guitar - 25, and Sid - Lead Guitar - 22.

3. Why did you choose the name Fortress, and did you consider any other names for the band ?

We originally called ourselves ' Crossfire ' but changed it to ' Fortress ' after finding out another band was called Crossfire. We chose the name ' Fortress ' because it gives the impression of strength and something solid standing in defence.

4. Could you tell us about some of your songs ?

We do songs about our country, the white race and basically issues that affect us. We have a song called ' Defenders of the faith ' which deals with survival and the future of all the white children, a topic that we consider highly important.

5. Have any of Fortress played in any other bands, if so, who and when ?

Sid and myself (Scott), previously played in a band called Phoenix Rising, and that was a couple of years ago.

6. How many gigs have you done and who were they with ?

We've played several gigs on our own as there are no other bands to play with.

7. Have you any merchandise available ?

At the moment we are in the process of getting things done like t-shirts etc and so they'll be out soon, there is the 7 track EP on Rock O Rama.

8. What other vinyl plans have you got at present ?

We are currently polishing off a whole lot of new songs for a new LP and they should be well rehearsed enough to record within the next couple of months.

9. How is the skin scene in your area ?

The skinhead scene in our area is OK but it could be better. We have one of the biggest scenes in the area or should I say Australia and we usually get good crowds at our gigs.

10. How do you feel about the Aussie skinhead bands in Aus. today ?

As far as I am aware, we're the only white power rock band still going in Australia. I'd have to say that I consider ' White Noise ' one of the best bands to come out of this country !

11. Whats the bands views on Australian Nationalist parties like - National Action, Australian Nationalist Movement etc ?

Members of Fortress support National Action and the Australian chapter of the White Aryan Resistance (W.A.R). National Action is the major nationalist movement in our country and its support seems to be increasing. The A.N.M has virtually ceased to exist. Leaders of the A.N.M are presently in jail serving extremely long sentences of approx. 15 years for arson attacks on Asian businesses. If these crimes weren't considered racially motivated they would all be out by now. This nation too has its share of Z.O.G.

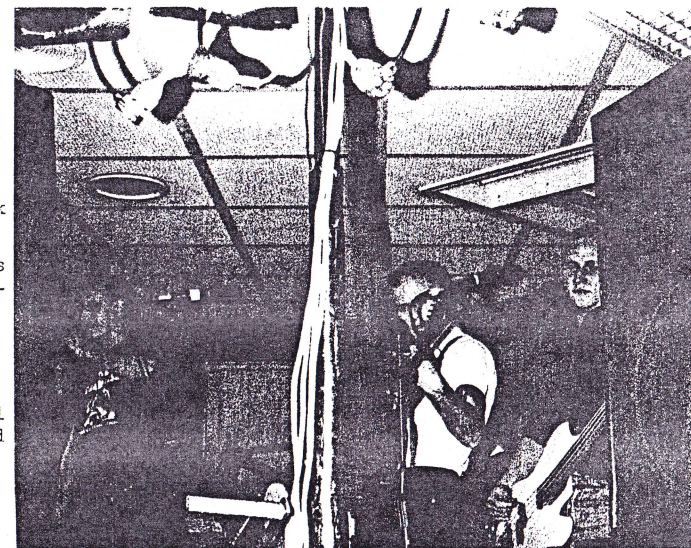

12. What future plans have Fortress got ?

We intend to record more and hopefully play in other Australian states and we'd really like to play overseas.

13. Have you anything else to add ?

Thanks to Chris and British Oi! for the interview and cheers and a hail to all our racial comrades in Great Britain. Our 7 track EP entitled ' Fortress ' is now available on Rock O Rama Records and you can write to us for info etc at the address given at the beginning of this interview.

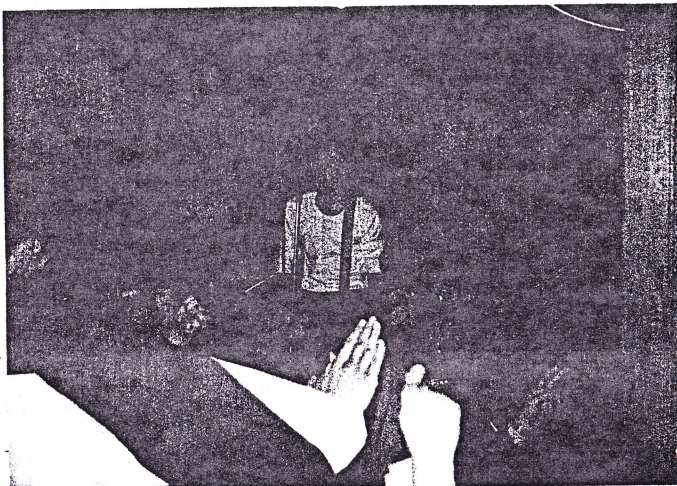

Cheers to Scott for completing this interview and good luck in the future!

THE HEALTHY SCALPS

The 'Healthy Scalps' area force to be reckoned with in the Hungarian Oi! scene and have a large and loyal following, because of the language barrier my thanks for this interview go to Thory of Pannon Bulldog Zine who translated it for me, lets hear what the Healthy Scalps are all about

1. When, why and where did you form ?

The Healthy Scalps formed in the summer of 1986 in Hungary and were a band formed from the collapse of a previous band called Flugas Futam.

2. Could you tell us a little more about 'Flugas Futam' ?

Well going back in history I had a punk band called Anti - T in 1981 and we changed our style of play to Ska in 1983 and with this we changed the name to 'Flugos Futam'. By the way the Healthy Scalps are made up of skins from Budapest and Szentendre.

3. Going back to the original question, why did you form the band ?

At the time we wanted to unite the youth against communism as when we started our nation was still under a communist regime.

4. Whats the current line up ?

Zoran - Guitar & Vocals 27, Czimi - Bass 21 and Apu - Drums 28.

5. How can you describe your music ?

Well, the music is built up from a rock & roll base to create a melodious Oi! music which shows our influences of bands such as the Toy Dolls, Skrewdriver and the old classic Oi! bands. Skrewdriver haven't influenced our music but there ideas have, we would like to get in touch with them.

6. What are your songs about ?

In our lyrics there is the stance of nationalism, the topics of girls, beer and of course football. Our aim is to please all that attend our gigs for the 40 minutes of our set, we hope to appeal to everyone. Not only the skinheads, but white people of all walks of life.

7. What are the politics of The Healthy Scalps ?

Well we are nationalist. When the communists ruled this land we sang abrupt anti communist songs and landed in alot of trouble for it. Zoran was arrested several times and Czimi was sent to prison and a few fellow skins had to leave the country for fear of being sentenced to jail terms of about 4 years. They fled to Spain.

8. How is your nation now the Iron hand of communism has gone ?

It is no doubt better but it is also worse. The fat communists that were in power still are around in power but are preaching capitalism and only work for the interests of the USA and Israel. The Hungarian folk are still oppressed in there own land.

9. Changing the subject.

Back to the band. Have you any merchandise available ?

No not at the moment but soon we will reprint our t-shirts which have sold out. We are trying to plan our own LP and also a Hungarian compilation LP which we will have 3 songs on.

10. Do you think there is much of a market for Hungarian Oi! music ?

I reckon all in all we could sell about 10,000 LPs judging by the reaction to our demos etc. You see not only skins like us, but rockers, metals, punks, and even some disco lads. We play for our country and our countrymen. If you want to know more about the 'Scalps' then write to me at - Petrovity Zoran, Szentendre 2000, Ustotos U. 2/C, Hungary.

11. How many attend you gigs ?

Well it is anywhere between 300 -600. Our last gig was all ticket and all 500 tickets went very easily. Over the years I bet thousands have seen us.

12. At these gigs have you ever had any trouble ?

As you can imagine, a big amount of people, obviously there will be some wankers that just come along for trouble. This is the reason why we now have the Scalps Security.

13. All in all how many gigs have you done ?

Its impossible to calculate. I know we did 8 under the name of 'Flugos Futam' and about.....60 with the Scalps, maybe more.

14. How can you see the Hungarian skinhead scene developing over the next 5 years ?

There are more and more skins each day, yes there are plastic ones in those but they will soon drop out of the scene. We need more people who will keep the faith for ever.

15. What jobs have the band got ?

Zoran is a cook, Czimi is a plumber and Apu is a computer operator.

16. Apart from work and the band, what other hobbies have you ?

Zoran likes cooking for his family and friends and hes also a bit of a football hooligan.

17. Anything else to add ?

I'd like the white youth, the world over to get to know what beauty nationalism really is and work hard to promote it, and cheers for this interview - Oi!.

Some of the 'Scalp fans'.

well lots to tell you about this issue in the News from the RIGHT side, so less of this waffle and on with whats been going on.....

'Out - Skin Complex ' Facist or Fetish ' was the name of a weekly programme 'Out' which caters for the abnormal subhumans of our society, the Gay and Lesbian sect. Well this programme basically went into how skins are thought of as ' turn on ' material for queers. It was a blatant explicit programme which in one sickening scene showed a AIDS infected queer dirtbag walking down the street wearing a 'Queer as F**k ' t-shirt and than it showed another poof following but it was trying to make you think he was a skinhead for example, he had a NO Remorse patch on, Skrewdriver t-shirt etc, well you are made to think that the skinhead is going to do over the sausage jockey, ohno, he turns out to feel his balls and kiss him. I mean what is this stink! It waffled on about ' Gay ' skins, well if you ask me, isn't that a lie in itself, how can you be a ' Gay ' skin. Its abnormal, its disgusting. The one big scoop Channel 4 had in this programme was well known, being, Nicky Crane famous for his picture on ' Strength thru Oi! ' and the artist of a few Nationalist LP covers admitted he was a poof, its been rumoured for a longtime but now its official and oh dear hes suddenly not a racist either but as he puts it a ' Individualist ', well bottom boy, we don't need you! I will not go on about this programme as its basic shit, but lets put the matter straight, Protect our people from AIDS, we have no need for Abnormal Immoral Diseased Scum, OUTLAW HOMOSEXUALITY NOW!

Back to the media again for a minute, The Independant on Sunday had a large three page article on the ' Right Wing '. Entitled ' Looking for the Far Right ' it concentrated on interviewing fallen leader Ian Anderson (NF), Lady Jane Birdwood, of the CHOICE organisation, Mrs Joy Page of the Immigrant Control Association (??), and naturally in any right wing article Mr John Tyndall. Now yet again a stench of something my dog departs of out of his bottom was surrounding this article from the very beginning. Praising such things as the ANL (Anti Nazi League) and how good it was to hear Elvis Costello songs (????????). Well I'll only pass comment on what it said about the BNP. It mentioned a BNP papersale in London but mostly about the Highly SUCCESSFUL march held in Walsall recently where about 300 attended. But as per usual the press didn't see it as successful but quite pathetic as they put it. Time after time, the press, the T.V put us down and we still strive on, so as with the ' Queer Programme ' mentioned above, don't trust a single sole, as we have what they can't buy, we have our racial pride!!

Changing the subject a little now.....Chris Falk the National Director of the ' United White Skins ' was recently in touch and asked for a mention, well the U.W.S were formed in Aug.91 as a defence against immigrants who wanted to destroy our race, and they want to establish chapters of the U.W.S across the world. The UWS is made up of N.S/Nationalist skins and are currently activate in big leaflet and papersale drives. If you'd like to know more about the UWS or indeed form a unit, write to...UWS, PO BOX 1641, Columbia, Md, 21044, USA.

After the recent Violent Storm tradgedy there was an inquest by the coroners office into the cause and deaths of the passengers and members of violent Storm in the car. A verdict of accidental death was reached. The Violent Storm LP ' Celtic Warriors ' which was finished in the studio a night before the fatal crash is with Rebelles in France now and so should be out soon. On listening to a rough tape of the LP its really good and so make sure you get it on release.

I was recent ly sent a couple of interesting video lists, the first from ' Nordland ' Videos is a German ran outfit that sell gig videos of German gigs and also has a video for sale of the gig in Blackburn in April featuring Skullhead and No Remorse. Other bands in the list are Squadron, Bound For Glory, Final Solution, Storkraft, Endstufe and many more. At 35 DM (12.50) per video its good value, so, write for there comprehensive list now -

Nordland Videos, Stefan Rist, Albert Schweitzer Str.14,
D - 3061 Beckedorf, Germany.

The other list was off ' Freedom Videos ' and is a more political video catalogue with videos on Hitler, Waffen SS, Holocaust Trials, Great historical cover ups and much more, they also sell the great ' Ritorno A Camelot ' video which features amongst other things Skrewdriver & Peggior Amico live in Italy. Also currently ' Freedom ' are putting together a Skullhead video. For more info write to Freedom Videos, BM Truth, London, WC1N 3XX, GB.

Recently at the PO Box I had a envelope full of adverts for a organisation called ' Against All Odds ' which is selling National Socialist t-shirts and has its contact address in Nottingham. If you want advertising space in British Oi! then please write and ask as just a load of ads isn't good enough. The t-shirts seem alot of British Movement influenced. Write soon.

Streetwise clothing were recently in touch to ask for a mention. Well Streetwise are a dutch merchandise outlet who specialise in Skinhead clobber such as Ben Shermans, Jeans, Sta Press etc etc and do have a good catalogue. Did anyone see the rather good article in the Sun some time ago about the rumours that David Irving the popular revisionist forming his own political party, well it carried a interview with Garry Bushell asking Mr. Irving about his historical views etc and his feelings on race and nation. His replies were well put and quite familiar to those who support the BNP. Now I'm not a'Sun' fan but this article didn't put Mr Irving down, and for once this was prime advertising for our cause. Perhaps Garry would like to interview Mr.Tyndall or Richard Edmonds next ??

Some more lovely white babies were brought into the world recently and were twin girls Sophie Louise & Aimee-Jay and weighed in at a bonny 4lb 4oz, 5lb 10oz respectively. They are the proud daughters of Skottie & Sam from Gwynedd, Wales, Skottie who serves in the Kings Royal Hussars in the Army would like to thank Sam for giving him such beautiful daughters.

A skinhead was recently in the press in Cardiff for allegedly calling out at the Police "Oink Oink" and " Okay Bacon F**k Off Pigs " and than the article goes onto print that 18 year old skinhead Brynley Michael attacked them with his ' Look like Dr. Marten Boots '. He was fined and what with costs etc the total tallied up to £325 so what about this eh ?- Well I for one am sick of hearing about young white folk apparently attacking the police late at night, surely the Police can handle such petty name calling like that ? We need to end this police state and soon!

Theres been up roar in the local press in Reading and even in some national papers about the activities of the BNP in areas of Reading. Readings Council so disturbed at the rise of nationalism in Reading have called a top level meeting with police chiefs to stop it. Allegations have gone as far as saying the leaflets of the BNPs are illegal and the BNP are only bothered about inciting racial hatred in Reading. So what is the Socialist Worker or the Militant pushing his crap at you inciting ? Oh, I forgot, they're for immigrants, for poofs etc and thats OK. One council member from Readings housing department even commented that anyone of the councils tenants found to be nationalist will be evacted, how dare they do this in our land? Because we are letting them, The people of Reading and the people of Britain, join in with your local nationalists and make sure this stops happening now!

More NEWS FROM THE RIGHT SIDE NEXT ISSUE.....

SKREWDRIVER NEWS

Yet again here goes with the ever popular Skrewdriver News, since it has appeared in British Oi! it has gained alot of interest and kept, alot of people who don't get to hear all of the Skrewdriver developments up to date with it all. So remember, if you want to keep upto date with the No.1 band, then you can only read the 'Skrewdriver News' in this Skinzine and no other.....Over to Ian for the latest happenings.....

Over the past few months, Skrewdriver and the individuals in the band have been very busy indeed. Johnny B and Jon Hickson have been standing in for No Remorse and recently travelled to America to do a gig which will apparently be coming out as a live LP. The Stigger solo LP has been shelved for the time being but White Diamond has ressurected and the second LP by the band has now been recorded, with the songs being mostly written by myself and a few tunes by Stigger, tracks include a ballad sang by Stigger entitled 'No Mans Land' and other tracks 'Rise Up', 'Refugee', 'Outlaw', 'Politician' & 'Take No Prisoners'. 'No Mans Land' is in the same vein as 'The Snow Fell' and I think it shall be a popular number, as well as 'Refugee' a strong number about people who come into our countries and are given housing and Jobs before our own needy folk. This especially applies in the former Eastern Germany territories.

Stigger and I have also recently performed the 'Patriotic Ballads' live. The first was a gig in Germany and went down very well, as we didn't know how people would react to slow numbers. The second time we've performed them was at a Nationalist meeting in mid-september in Mansfield, Nottinghamshire, which, as like the first, we were well received and thoroughly enjoyed the evening.

Tracks that were played at these gigs included 'The Road to Valhalla, The Green Fields of France, The Devils Right Hand, Pheonix Rising, One Land, One in a million, plus many more, and of course 'The Snow Fell'. The performance in Germany, which was the best of the two gigs is available on video for £14 inc P&P from the newly formed 'Skrewdriver Services Northern Division' - see the advert at the end of this article.

Last but very much, not least, Skrewdriver performed at the recent Blood & Honour concert in South London which was a great success, even with the forces of international zionism trying to stop it, about 700 actually made it to the gig and it is thought that

White Power

Police stopped about another 800 - 1000 coming to the gig. However the concert went extremely well and all bands that played on the evening - Skrewdriver, No Remorse and Swedes Dirlwanger did very good sets, which were received well by the enthusiastic crowd. The news coverage of this gig was both local and nationally put out on both T.V and Radio and on our T.V screens we witnessed the scenes of Police cowardice towards the reds, we will not forget! We have several other plans in the pipeline for the very near future, so there we go.

Fascism is on the march again in Germany, bringing with it the worst racial violence since the '30s. Denis Campbell trailed Britain's 'white racial nationalists' as they sought inspiration in the fatherland. Photography by Rolf Walter.

'Sea-gull! Sea-gull! The tattooed right arm of a British skinhead juts skywards, three fingers pointing at an imaginary passing bird. His crooked mates collapse laughing, then return to their bottles of cheap, strong German beer.

Welcome to the wacky world of neo-Nazi British skinheads abroad. This little ceremony is the skins' way of avoiding arrest in Germany. It's an in-joke-cum-protest at the ban, strictly enforced, on giving the proper Nazi salute — the right-arm-raised, five-fingers-forward *sieg heil!* Under German law, praising Hitler is *verboten*.

Six British skins are enjoying themselves greatly taunting the German police with this prank. They are part of a 25-strong British contingent of 'white racial nationalists' who have come to Germany to honour Rudolf Hess, the Third Reich's deputy *Führer*, on the fifth anniversary of his death.

It's August 15, two days before that date, and the British are heading for Wunsiedel, the town in Bavaria where Hess is buried. They

plan to march alongside several thousand 'comrades' from Europe, the US, South Africa and beyond, then hold a Hess memorial rally.

The neo-Nazi turn-out has grown in each of the five years since Hess's suicide in 1987: in 1988, just 220 turned up; in 1990, with the Berlin Wall down and Germany approaching reunification, around 1,000 came, including some from the former Communist state in the east; last year, 2,000 attended.

This year's event, however, is set to be the biggest yet, attracting maybe 5,000 and confirming its position as the biggest jamboree in the international neo-Nazi calendar.

With right-wing extremists the world over inspired by what they call 'the reawakening of Germany' — the dramatic shift to the racist right since reunification — no self-respecting neo-Nazi can afford to miss it.

Little wonder that the neo-Nazi British National Party sends a contingent every year. The BNP — condemned by its critics as a party of organised racial violence, for which many BNP members boast criminal

convictions — has no problem keeping company with Germans involved with racial attacks.

The participants in the Hess memorial march feel their date with destiny is fast approaching. They take heart from the high level of support gained recently by parties of the openly racist right in countries like Austria, Belgium and, of course, reunited Germany itself — proof, they say, that white Europeans are finally 'waking up'.

The British believe similar things will start happening here soon too. Their general attitude was summed up in one remark: 'If it's racist for a party to say "Put your own people first", I have to agree with it.'

The problem for the British visitors is that this year's event has been banned.

That's why they're currently kicking their heels in a car park on the outskirts of nearby Nuremberg beside the city's main TV mast. Most have come from Britain in a minibus driven by a short, bearded, veteran far right activist called John Peacock. He organises the BNP's international activities and co-ordin-

ates his own group, Euro-Ring — described by *Searchlight*, the anti-fascist magazine, as 'an international neo-Nazi club, the neo-Nazi equivalent of networking, but on a pan-European basis' — under whose auspices the trip is being made.

European Nazis unite

On the coming Bank Holiday weekend, many will be back on their travels. Destination: Diksmuide, a small town near Ostend in Belgium, where neo-Nazis from all over the world come and join a massive annual Flemish nationalist gathering. Come November, it will be Madrid for the anniversary of Franco's death.

Peacock describes his role as 'linking white racial nationalists all over the world. My main concern is that we never, ever want to see a brothers war with members of the same race fighting each other, destroying the best of the race. That happened in World War II and it was a disaster. If you want to talk about a Holocaust, that was the Holocaust — the waste of 56 million lives.'

But the growing links between neo-Nazis internationally are causing alarm among anti-fascists in Germany, which is experiencing a massive upsurge in serious, violent racist attacks on immigrants of all nationalities: Turks, Angolans and even white Europeans from Poland and Romania.

Klaus Berger, a spokesman for the Berlin-based publication *Antifaschistisches Infoblatt*, says Peacock and his ilk are getting ever closer to many of the headline neo-Nazi groups in Germany whose members attack, and sometimes

exception, however.

Berger fears that British neo-Nazis, possibly bent on trouble, may become involved with their 'racial brothers' in Germany. Last October, for example, three members and two fans of the Midlands-based notorious neo-Nazi skinhead band Skrewdriver were arrested for allegedly being among a group of 15 skins who brutally stabbed a young man with long hair — 'a known communist or anarchist' — in the east German town of Cottbus.

He claims that the Hess march is usually followed by a wave of late-night attacks on immigrants by those who have attended.

One of the British neo-Nazis told me: 'I've no problems meeting German "comrades" who've been involved in attacks on refugees and asylum-seekers. I don't condone the attacks, but I understand them. I understand people feeling they've got to do something.'

Does he feel sorry for the people attacked, and the families of those killed? 'I'm sad it's come to that. (But) I'm not going to burst into tears; I don't care basically. I'm only interested in white European people.'

'Whites in Germany — and Britain too — have been pushed into attacking immigrants by their repressive governments.'

'A mass base for fascism'

Graeme Atkinson, *Searchlight's* European editor, has been based in Germany since early 1989, when racist attacks began in earnest. He maintains that 'while the current situation in Germany isn't a Fourth Reich in the making, I do fear that

the ground is being laid here for a mass base for fascism'. He points to:

- the nine racist killings by neo-Nazis since March.
- the 979 racist attacks, officially designated as 'xenophobically criminal incidents', between January and May this year which resulted in physical damage to people or property; over 100 were fire-bombings.
- a recent report by Germany's Internal Security Service which said the number of people active in 76 different neo-Nazi groups rose from 32,000 in 1990 to 40,000 in 1991 —

kill, 'foreigners'. Last weekend, for example, German police resorted to tear gas and water cannon to disperse right-wingers who, cheered on by locals, were attacking a centre for asylum-seekers in Rostock.

These assaults — including the fire-bombing of refugee hostels — appear to him almost to be condoned by the Bonn government which, he says, 'is using them to distract attention from the country's economic problems. People involved in these attacks don't have the impression that what they're doing is wrong because almost daily the media and politicians talk about how "the boat is full", — that there is no room for any more immigrants, refugees from persecution or asylum-seekers. Slaves fleeing the current crisis in the Balkans are an

not counting the 27,000 of the Republican Party, led by a former SS soldier.

● big votes recorded by far right parties: in April in the state elections of the German state of Baden-Württemberg, the richest area in the European Community, neo-Nazi parties got an astonishing 538,000 votes.

● surveys of German public opinion which show a dramatic surge in racist attitudes, especially among the young.

In such a climate, it's little wonder that Chancellor Kohl's Christian Democrat administration is considering amending Germany's liberal asylum laws to make entry for foreigners much harder. Only opposition from the Social Democrats, who control the upper house of the German parliament, is preventing what many see as inevitable.

Another feature of the grim situation in Germany is regular violent clashes between fascists and their opponents, mostly drawn from the

'There's no political will to root out the wire-pullers who are organising the racist violence.'

GRAEME ATKINSON

student population and politically 'autonomous' groups, the non-aligned left. Andreas Thaler, an activist with Berlin's Anti-Fascist Network, says that the neo-Nazis — who use Molotov cocktails, iron bars, bricks, baseball bats, iron bars and sometimes even guns — must be opposed or the consequences for Germany could be horrendous.

'The situation is getting worse all the time,' reports *Searchlight's* Graeme Atkinson, 'because there's no political will to deal with the problem, to root out the wire-pullers who are organising the racist violence.' It is many of those 'wire-pullers' Peacock calls his 'friends'.

Hess must be honoured

In the Nuremberg car park, the British contingent is joined by about 20 Germans and two young men who announce themselves via broken English as activists in the French neo-fascist PNFE. Though the motley crew of short-haired, black-shirted youths might make many people cross the street, at the moment they are less like Hitler's well-organised elite and more like disgruntled and confused holiday-makers on a package tour from hell.

Everyone waits for two coachloads of German neo-Nazis to arrive from Munich and take them to an undisclosed venue where they can stomp around to their heart's content. Some expect to be heading east, into the former German Democratic Republic; others say they will

hold the event in a field in the middle of nowhere if they have to. Hess must be honoured come what may.

A few German police arrive, taking up positions at both ends of the car park, just to keep an eye on things. Nobody bats an eyelid. 'Sea-gull!' taunt the skins, just to keep themselves amused.

Stocky, black-shirted Stephen Cartwright is the BNP's west of Scotland organiser. He describes Hess as 'a martyr', explaining that Hitler's deputy flew to Britain in May 1941 on a peace mission to 'make sure that racial brothers, the British and the Germans, and other Europeans, and the Americans who were being pushed into the war, did not kill each other in a Zionist-inspired, fratricidal war. What was the point? If you read any National Socialist literature of the time, the Nazis wanted Britain, as racial brothers, to join hands and smash international communism, which was undoubtedly wholly Jewish-controlled.'

'When Churchill discovered that Hess had been captured in Scotland, he said, "deputy *Führer* or no deputy *Führer*, I'm going to see the Marx Brothers" and went to see a movie. That shows you how interested in peace he was at the time.'

If only Churchill had taken Hess's advice, the neo-Nazis' argument goes, then the tens of millions of white 'brothers' who died in World War II would have been spared. 'So would the blacks who fought on the Allied side,' Cartwright adds charitably.

'Hess wanted the white people of Europe to live together in racial harmony. He was a great man, undoubtedly. He served 46 years in jail for the terrible, terrible crime of trying to stop a war, and was murdered in his prison cell in 1987 by the allies. For those 46 years, he never repented his beliefs' — inspiration indeed for the neo-Nazis now hemmed into the car park by about 100 police.

As we talk, some German police tap on the car window. They demand passports, fire questions, write down names and addresses and search our car. These are no ordinary *polizei*, however: they wear dark green boiler-suits, black trainers and carry US-style batons but no pistols. These are the USK, the Bavarian special commando police.

The officer in charge of the ordinary police, Superintendent Karl Geyer, 'I did a week's study course at your Bramshill police academy,' he says smiling — is more polite. He explains that six neo-Nazis have been arrested 'in order to prevent crimes that have to do with this forbidden meeting'. The problem is weapons — teargas guns, baseball bats and sticks — and badges with illegal symbols from the Nazi era — swastikas, Odal runes and Celtic crosses — found during the rigorous searches of everything in the car park.

The Nuremberg Six comprise four Germans, including two neo-Nazi skinhead girls 'who had the teargas guns in their car for self-defence', according to a comrade, and two Brits: John Peacock, for carry-

ing articles about Hess emblazoned with swastikas in his briefcase, and a Walsall skinhead called Adie, arrested for having Viking runes, SS rings and a swastika badge.

Restoring British purity

Darren Kelly, a fearsome-looking skinhead who organises the BNP's south Birmingham branch, is another big fan of Hitler and the Third Reich. 'He's the greatest man who ever lived. National socialism hit the nail right on the head.'

Several hours pass. Some of the skins head off in search of beer. It becomes obvious that the German police have no intention of letting the assembled neo-Nazis reach the Hess march. A German neo-Nazi with a mobile phone rings his comrades on the coaches from Munich; they too have been detained.

Confusion ensues, with none of the neo-Nazis quite sure what to do. During the hiatus, a British participant, 'Mr J Gould from Peterborough' — who looks to be in his seventies and looks dapper in suit and tie — reveals that he's a member of something called the Church of the Creator. This, it transpires, is not your average 'hallowed be thy name' type of set-up. The Church of the Creator has no congregations, he says. And no, it's not a fundamentalist Christian church.

It's a racial religion which believes that the white race is supreme; Gould explains, failing to point out that the Church is a pagan outfit: 'an aggressively pagan, com-

pletely barmy American organisation, totally unrelated to any Christian church,' according to *Searchlight*, which puts its British membership at under 100.

It could hardly be a Christian church, says Gould, because its members reject Jesus's teaching that all men were created equal. Swallowing that would prove uncomfortable for people who believe that whites are the master-race.

'Some of it is a bit silly, a bit extreme,' admits Gould, who produces 'The Little White Book', the Church's 'bible'. Page two explains that: 'The "W" of our Logo stands, of course, for the WHITE RACE, which we regard as the most precious treasure on the face of the earth. The Crown signifies our Aristocratic position in Nature's scheme of things, indicating that we are the ELITE. The Halo indicates that we regard our race as being UNIQUE and SACRED above all other values. WHITE PEOPLE AWAKE! SAVE THE WHITE RACE!'

In Hitler's footsteps

Two hours after their arrest, Peacock and Adie are released. Soon after, the police depart, three hours after they first appeared. It's now 1.15, too late for the neo-Nazis to drive to their assembly point, 350 kilometres away, in time to attend the march — which may not even go ahead anyway. Peacock & Co decide to make the best of the situation by paying a visit to the stadium in Nuremberg which Hitler built in

1934-35 to host the annual rallies of his Nazi Party.

Tomorrow, when the situation has quietened down a bit, Peacock says, the BNP will again attempt to go to Wunsiedel and pay 'a silent tribute' at Hess's graveside. They've already taken a collection to buy a wreath.

With the departure of the police, the six skinheads repair to a pub. The rest head off in the minibus to the stadium. Some collect bits of fallen masonry as souvenirs. All take photos of each other standing on the central podium, the so-called

'"Hitler's the greatest man who ever lived. National socialism hit the nail right on the head."'

DARREN KELLY

'Führer's pulpit' from where Hitler addressed Nazi gatherings more than 100,000-strong. The view now is less impressive: the large open area in the middle has been turned into an athletics track, and grass and weeds grow out of the concrete steps on all four sides.

Inside the decaying stadium's main building, an exhibition shows Germany under Nazi rule. With many big photos of Hitler on display, some of the British neo-Nazis pass cameras around, snapping each other standing beside the *Führer*. Although the exhibition reveals the true horrors of the Third Reich — like *Kristallnacht*, the Nazi pogrom against the Jews in 1938, and the concentration camps — all that is lost on the British visitors, who revel in the Nazi memorabilia.

The visitors' book is attacked with gusto. 'Read The Leuchter Report. Glasgow BNP — a reference to the 'scientific' report, published in Britain in 1989 by Revisionist historian David Irving, which 'proved' there were no gas chambers at Auschwitz. Another reads: 'Pictures of Belsen in the museum are fakes. Those victims were starved as result of RAF bombings.'

Outside, John Peacock lists the far right British organisations involved in Euro-Ring. They range from the now almost irrelevant National Front, through the 2,000-strong BNP to quasi-paramilitary groups like Aryan Resistance and the British Movement. 'They all want basically the same thing, a whites-only Europe, but they just see different ways of getting it.' Peacock likes to bring such people together 'in an atmosphere of co-operation and friendship'.

Asked how a white Europe can be achieved, Peacock denies violence is necessary. The right way, he insists, is 'through the ballot box. That's why I'm a member of the

BNP. If I didn't believe that, I'd be forming some kind of paramilitary group.'

While the far right is doing very well in many European countries in elections, the BNP's 13 candidates at the April 9 general election received only handfuls of votes — except in Tower Hamlets, east London, where the party's *Führer* and deputy-*Führer*, John Tyndall and Richard Edmonds, got 1,100 and 1,300 each. This does not worry Peacock, who polled just 521 votes in Blaby, Leicestershire.

'That's all going to change,' he states. It may be only a few hundred in each constituency now, but in five, ten or 20 years time... His voice trails off.

Peacock believes that the BNP is in effect a party of destiny whose day is not far away. 'People across Europe are becoming more aware that it's only racial nationalists who are saying the things they believe in. In Britain, people will eventually realise that and say, "This is what I believe in and the only people saying it are the BNP". We will eventually succeed.'

Nuremberg rally

Back at the Nazi stadium in Nuremberg, the six skinheads have finally arrived back from the pub, carrying six-packs of beer. They could not know that, 200 miles away, 2,000 neo-Nazis had evaded police roadblocks to hold an illegal Hess march in the town of Rudolstadt.

The pan-European audience gave its biggest cheer of the day to Michel Fati, a French neo-Nazi who has boasted of killing Serbs while fighting as a mercenary on behalf of the Croatsians, when he said: 'Today we are killing the last of the communists in Serbia, and tomorrow we will destroy the tyranny of democracy.' Police said they couldn't break up the illegal assembly because they had too few officers.

Anti-fascist Klaus Berger was right to warn of racist violence afterwards: a large group of the neo-Nazis attacked some Turks at a motorway service station on their way home.

Adie, the skinhead arrested earlier, appears inspired by his visit to a genuine Nazi monument. His tongue loosened by the beer, he talks enthusiastically about the prospect of a 'race war' in Britain. 'If there's a race war, I'll go up in the front. I'll fight. I'll kill people if I have to. In a race war I'd be killing people — blacks, Jews, Asians and politicians, because it's their fault that immigrants are here in the first place.'

Then he and his mates also tour the exhibition, behaving, according to one member of staff, 'perfectly'.

But it wasn't to last. With the large amount of beer starting to take its toll, the skinheads' common sense deserted them. Outside the exhibition, 'sea gull' gradually gave way to the real thing: the outlawed 'siege hell'. The *polizei* were soon on the scene and arrested all six. Deprived of honouring their hero, they now faced the prospect of a night in the cells of a German police station.

They'll still be back next year, though. ■

REVIEWS

DEBOUT VOL 4 - Rebelles Europeens.

I had a few francs knocking about so I thought I'd send off for the latest compilation offering off Rebelles. Three bands are on it and they are Aussies White Noise, Italians Verde Bianco Rosso and Swedes Division S. Only 9 tracks on this LP but its not really impressive as I've had the demos for the Italian & Swedish music for sometime and so I found it a little out of date but without a doubt the most surprising thing about the LP is the difference in White Noise. Its sounds like a new singer and for some reason its like hardcore music, not Oi! as on there LP but the one track of there is great and is ' Viking Thunder ' which makes the LP. Also Division Ss track ' Utsugarna ' is powerful and good.

ENGLISH ROSE - NEVER BE SILENCED - Rebelles Europeens.

About time these Leicestershire lads got there LP out and what a cracker. 10 well put together, well done tracks, spreading the nationalist skinhead word. Tracks include ' Smash Red Action, For Race & Nation, Police Aggression, Traitor Beware and my personal fave - ' S.H.A.R.P ' which is translated in to - ' Skinheads are Racially Proud ' and what a kick in the balls for any SHARP idiot who listens to it, so well done English Rose and lets have some more soon.....

THE CROSS - RISE & CONQUER - Rock O Rama Records.

A great CD from a new band to me and wow, I'm really impressed with them. I'd only heard a rough demo previous to me buying this, and the quality is amazing, 12 catchy songs from this up and coming Canadian outfit with tracks including ' Armed Rebellion, Nordic Warriors, Canada Rise UP, Hail the Celtic Cross and the brilliant - Road to Victory which is a track which detail the fight for a nationalist rebirth across the globe and in doing it mentions, Jean Marie Le Pen, Republicana, British Movement, David Duke etc to name a few. Also theres a humourous remake of the classic ' Great Balls of fire, but this time round its ' Great Cross of Fire '. I have alot of hope for these.

FORTRESS - DEMO.

Now as mentioned in there interview previous to this, Fortress have a mini LP out and well I had this 7 track mighty classic demo sent to me, as so I'm assuming this demo, has gone onto vinyl, but I'm not sure. A good demo with some hard hitting songs and lyrics, the songs that stand out for me are ' Pheonix Rising, Parasite, Free Me and the classic ' I Hate Commie Scum ' which has a powerful tune and point blank lyrics. I'm hoping they do a full lenght LP next as It should be a cracker.

RITORNO A CAMELOT - Live Italian video featuring Kontingent 88, Peggior Amico & Skrewdriver.

After the initial boring shots of a tent and the filming of a meeting I couldn't understand the bands are filmed, only one Kontingent song is videod which is a pity as I think they are good, Peggior Amico, who I was really impressed with are next and play there Italian classics with Ciao the singer really getting the crowd worked up. Skrewdriver play a great long set of all the classic and in about the middle of it do 'Suddenly and Snow Fell ' with just Ian & Stigger like on the ballads. The classics like White Power, Hail the New Dawn are all there and so worth getting. Available from Freedom Videos and I hear maybe Skrewdriver Services soon.

RIVAL - Debut LP '1991' & Second LP as of yet untitled.

Two really well sounding LP's with a touch of the European/British style of Oi! on them, alot of US music is sometimes, too fast but Rival play a blinder. I haven't enough room to review both fully but tracks off '1991' include 'Kick in the head, Elite, Dead & Buried, Society, Loser and the great track with brilliant music 'We got the right' a real anthem! The second LP is a bit better and they have developed there sound to a more professional sound. Tracks include ' Backstreet Violence, Kids of Today, Secret Army, Time Marches on, Border Patrol and Blind Justice I wouldn't like to say my favourite as most are good. Look out for there interview in No.25 of British Oi!. Well done RIVAL.

Editorial
Comment.....

Well here we are at No.25 of Britain's best loved, longest running Skinzine. Well sadly all good things must come to an end but this isn't the last British Oi!, No.26 will be the last and shall be the usual issue with news bands etc but it shall also be a commemorative issue which will detail the past and what British Oi! has been through since I started the zine in '86. I've decided to call it a day as now I have a family which keeps me on my toes and work commitments are quite tiring. Don't fear, I shall still be doing things for the movement, like BNP activities, Blood & Honour unit for Derby etc so I'll still be occupied. Anyway, as I say No.26 will be the final edition of British Oi!. Its one for the Oi! collector as it will be a limited edition.

Well onto other matters, thanks for buying No.25 of British Oi!, I hope that you enjoy it. The contents of this zine is - the regular photos of oi! - interviews with Radikahl, Rival and Extreme Hatred, Ian Stuarts 'Skrewdriver News', my roving reports from round the globe in 'On the World' which features the lovely country of Switzerland and some other bits and bobs for your amusement/enjoyment.

So until the Grand Finale in No.26, just think, VICTORY WILL BE OURS!

Chris

Well I got to hear about Radikahl from a German friend Dicker who said they were his local band and were getting a strong following. So hence, I wrote to them and they replied with a interesting interview. Here goes.....

1. When, why and where did you form

It all started in 1989 with 3 young lads from Furth/Nurnberg, Germany who wanted to make music. This band was called 'Giftgas' which means Toxic Gas and they achieved only a 3track demo produced by themselves. There followed over the next 6 months alot of changes and a new line up with a new name. This was the birth of Radikahl. Since then the line up has never changed and so for a few years we have played music for the skinhead scene.

2. Whats the current line up then ?

The current line up is : Mandi - Vocals - 22, Spike - Guitars - 22 -, Thomas - Bass - 24 and Markus - Drums - 23.

3. Why the name Radikahl ?

Well, the name Radikahl is very powerful in German. Its a word brought together from two words. RADI comes from Radical, and we changed the Cal to Kahl and this means something like 'A head without hair' or skinhead.

4. What topics do you sing about ?

Firstly, we are a very proud nationalist political band. Our songs come from the topics that concern German Nationalists, anti communism, patriotism, Skinhead fun in life, and of course everyday like in our local area.

5. Are you a political band ?

At first we must add that we are skinheads, not party members. We believe in a way of life where we need no political parties, but being realistic we can see the depressing sight of our nation. Yes we are political and believe in patriotism and a national spirit. This spirit is important to all white europeans and all of the European blood worldwide. We fight to keep our culture and spirit alive against all the creatures that would like to destroy us. If you listen to our song H.K you'll hear our strong beliefs.

6. What do you think of parties such as the REP, FAP, DVU etc ?

As we say we are not party types but we must have unity with party types as alone we wouldn't have the numbers or the force to stop evils like communism, immigration child murderers etc etc. In Germany we have alot of Nationalist and Patriotic parties but they have no unity, some even are anti skinhead, so this type we think are shit!

7. What influences Radikahl both musically and politically ?

We are influenced musically by Skrewdriver, Indecent Exposure and Endstufe. Politically we support the Blood & Honour movement.

8. Have you got much of a local following ?

The skinhead scene around here is OK in and around Nurnberg/Furth. But we do have a few different skinhead groups but most or all don't really stay in contact with each other. A good regular meeting point is missing but many skins do support the local football team 1FC Nurnberg in the football bundesliga. There are also some unpolitical skins, some scooter lads and some f*****g SHARP scum. Our local support is great. In one record shop where our first mini LP came out both that (Retter Deutschlands) and our t-Shirts sold out within 2 weeks.

9. What other German bands do you rate ?

Only one German band have inspired us and that was the old skinhead band Endstufe. But we stay in touch with other bands like Storkraft (Especially). Tonstörung, Wotan, Bomber, Werwolf, Noie Werte etc...

10. Could you tell us about your gigs ?

Ohh, we've played about 10 -15 gigs all in Germany and they have been with German bands and other bands like Skrewdriver, Dirlwanger, No Remorse, Skullhead, Division S and Bound For Glory and Final Solution from the US on there debut in Germany.

Our best gig on the musical side was the concert in Cottbus in '91 as it was the 1st birthday of German reunification. We played with Storkraft, Tonsörung and Skrewdriver/Ian Stuart, you might remember the Cottbus Six. Many attended. Other memorable ones were

the open air one in Brandenburg and a gig in Weimer this year on 14th March with the two US bands as mentioned. Our worst was on May 23rd '91, it was our debut gig and fellow bands Wotan, Werwolf, and Storkraft were also billed. About 550 were there and after two bands had been on loads of fighting broke out and people put fighting before the Oi! music. This was a sad day in German skinhead history.

11. What merchandise have you available ?

We have got alot of various things for sale like t-shirts, records, patches but for an extensive list write to .PLK NR. 19 18 12 E, D-8500 Nurnberg 1, Germany. We have two t-shirt motifs and per t-shirt they cost £8 inc P&P.

12. Could you tell us about your record etc ?

Yes we released our first demo tape as a mini LP on Rock O Rama. This LP is called Retter Deutschlands and there are 7 tracks on it, 8 on the tape. In July we recorded our first full length LP called ' Finde Deinen Weg ' which we hope to have out by the time you have this interview printed in November. There are 12 songs on it and we think its turned out really well.

13. What future plans have you got as a band ?

At the moment we have no real plans as we've done alot of gigs lately and spent alot of time on the LP and merchandising etc so for now we'll rest a bit as we have other things to do, like family life etc which is more important. Also we've had a bit of trouble with the German laws concerning our lyrics on H.K.

14. What other hobbies have you all ?

We all have interests in sports and training like Boxing, running etc and Bassist Thomas has his own family, and of course we all have our girl friends and work.

15. Anything else you would like to add to conclude this interview ?

Thanks for taking time out to interview us and show interest in us, we send our best regards to British Oi! and to all British Nationalists and Patriotic Skinheads, EUROPE AWAKE - R A D I K A H L.

Many thanks to Radikahl for the informative interview and the details of all your band history, by the way, RETTER DEUTSCHLANDS is a great mini LP and well worth getting, a rough band with some great songs.

Extreme Hatred

Well heres a band that are making a name for themselves now on the US Oi! scene, they are Extreme Hatred and recently were highly praised for there performance at the Aryan Fest '92 . Wellll lets hear what makes them tick.....

1. When, why and where did Extreme Hatred form ?

We formed on March the 1st 1992 in Orange County, California. We started Extreme Hatred Skinheads as a skinhead gang

and also Extreme Hatred the band as there were no other bands in our area who were racially concious, and we felt the need to get our message out.

2. Whats the current line up with ages ?

Martin - 26 - Vocals, Chuck - 28 - Guitar, Jason - 22 - Bass and Scott - 21 - Drums.

3. Why the name Extreme Hatred ?

We thought of a couple of names before settling on Extreme Hatred. One of the names we thought of was 'Hate Crime' but that will most likely be one of the names of our songs in the future, so we decided on Extreme Hatred as it seemed to fit our attitudes, also because of the Extreme Hatred Skinhead Unit and Skinzine in Orange County, that subscribes to our beliefs.

4. What topics do you sing about ?

We sing about a variety of subjects that concerns our race these days. Our song ' Race Riot....Lets try it ' is about how we won't be pushed about by non-white gangs. We'll stand and fight 'till the death to keep our race pure and supreme. ' Injustice ' was written for the members of The Order and other comrades who are doing time solely because of there racial views. ' Hey ' is about being a White Power Skinhead and how no one is gonna change us or our beliefs.

5. Who influences you both musically and politically ?

Martin : Musically - Condemned 84 and Ian Stuart, politically I'd say the whole band are influenced by The Order.

Chuck : Bound For Glory, Skrewdriver & Guttermouth,

Jason : Battlezone & Bound For Glory,

Scott : Bound For Glory, Battlezone, Skrewdriver and Social Distortion.

6. Whats EH's view on Bush & Clinton ?

Bush & Clinton are both just like all the other politicians who we think are liars and can't be trusted.

7. How is the skinhead scene in your area, Orange County ?

We have a moderately sized skinhead scene in O.C. right now, but it seems to be growing. Hopefully, we'll have a good strong movement here again, like we did back in the late '80s. We have a lot of strong support, not just in O.C. but across the USA.

8. How can you see this scene developing over the next 5 years ?

Well from what we see in this area, and from talking to other skinheads across the country, it seems to be growing a great deal. The new skinhead 'organizations' that are developing, seem to be more underground than they have been in the past years, but there are more skins none the less.

9. What do you think of the K.K.K., W.A.R., Christian Identity etc ?

This is no longer a war of words but a war of action. So we support all organizations who are out there actively doing something to strengthen and to help the White Race. Thom Robb's KKK and other conservative groups like these have no part in our plans as we are concerned ?

10. How many gigs have you done and who with ?

We've played at a few parties and recently opened the Aryan Fest '92 but due to sound problems it didn't turn out so good, the gig was with No Remorse & Dirlewanger in Southern California.

11. What recording plans have you got ?

We recorded a demo recently that turned out poor, quality wise and so we are in the studios now doing another one. Also we hope to get a LP one day.

12. What's the band's verdict on the L.A riots ?

Our song 'Judgement Day' was written about this rioting soon after it started. We, by no means support the cops in this case or any other for that fact. Skinheads have been beaten and harassed by the cops since the movement started. We have no support for the blacks and mexicans that rioted. Basically, F**k the cops, F**k the rioting hoardes and F**k South Central L.A - BURN IT DOWN.

13. Apart from the band, what other hobbies have you got ?

Martin : Going to Jail !

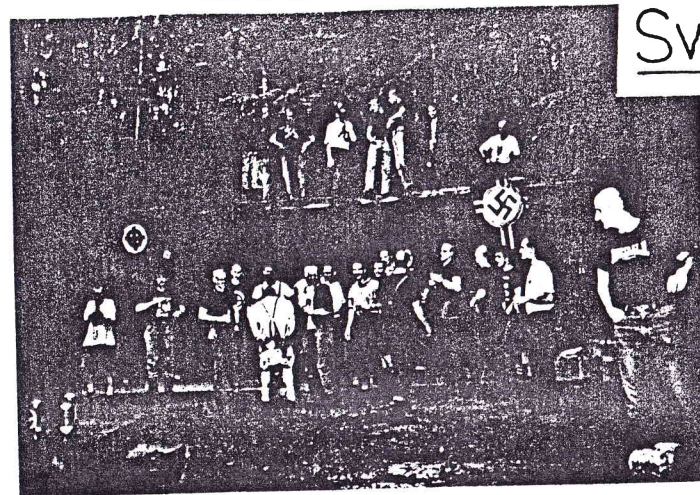

Jason : I like silk screening t-shirts and patches etc...

Chuck and Scott : The band takes up most of our time.

14. Anything else you would like to add to conclude this interview ?

First of all thanks to Ed of Bound For Glory for telling British Oi! about us, and if anyone would like our demo tape out soon, it will cost 5 dollars from Extreme Hatred, PO Box 18502, Anaheim, CA 92807 - 8502, USA. We also do the Extreme Hatred skinzine for 3 dollars.

Cheers to the band for answering the interview especially Scott. Good Luck.

Switzerland

Well British Oi! still digs deep to bring you the news from all countries in the world and an indepth report of a country, a skinhead movement and generally what makes it tick. Anyway, as it says above, this issues 'On the World' features Switzerland, the picturesque country of skiing, alps and chocolate. Anyway on with the report, special thanks to Tattoo Rudy and Pat Item for your help.....

Right lets kick off with this and find out a bit about the

country. Switzerland borders - Germany, Austria, Liechtenstein, Italy and France, once a strong wealthy nation it has gradually and still is in mass decline. It seems huge amounts of money are being spent to say help out farmers but they haven't increased taxes so therefore the nation is in a huge national debt. The national debt is about 50 billion francs, say 19 billion pound in sterling and that works out at about £2754 per each man, so in my view the government is in a disastrous position. There is high inflation, high food prices, high unemployment and that country will soon be bankrupt. So to be a skinhead in the country, he has to be aware of the situation and I reckon push the stance of nationalism, as this would lead them out of disaster. It makes an interesting fact and this was quoted from a swiss national paper that 41.6% of those who draw state benefits, dole etc are third world immigrants.

The countries main industry is Precision machinery, machine tools, watches (Rolex) etc, Foodstuffs like Nestle foods, cheese and silent products like Swiss banking, tourism and insurance. The chocolate has become world renowned as great and the most favoured bars by the swiss are, or makes should I say are Nestle's, Lindt & Spruengli, Tobler and Milka.

The ruling political parties are a type of coalition and are - The Federal Council and exists of Liberal Democrats, Two swiss peoples parties (Farmers & Tradesmen), Two Social Democrats and a delegate from The Christian Peoples Party. Nationalist or National Socialist Parties are not openly active, the right wing Mutschellan Front (RNF) caters for skins but I'll say more of those in a moment.

The immigrant situation in Switzerland is quite frightening, of a population of 6.9 Million, 1.25 Million are of immigrant descent, which makes up about 18% of the population. Interesting the prison population is made up of 65% Foreigners and in Zug its 80%. The drug trade is basically a monopoly of asylum seekers, on the top of the list of street dealers were Serbians & Kosovo Albanians, but the traffickers are mainly Ghanans, Columbians and Nigerians.

Switzerland will not expell anyone who has a work permit but is not of swiss origin and it is said that only 3% of the asylum seekers were actually persecuted in there native countries, 97% were and are just opportunists invading the nation to reap the rewards of state benefits. It takes about 18 months for the state dept to decide whether the 'seeker' is true or false but in that time the average one gets about 2000 Francs a month, which is about £770 for just being in Switzerland, roughly this is the same as a swiss labourer working a 40 hour week ! Call that justifiable.

Well, what do you think to that news about Switzerland then, quite depressing, but there is a better side to Switzerland in the obvious form of nationalism and lets see whats happening on the skinhead nationalist scene.....

Unfortunately there are no Swiss skinhead bands at present which is a bit sad, so come on you swiss, get your act together do something. There were two bands in the past, the first called 'Blut und Ehre' (Blood & Honour) from Zurich, and secondly from Basel 'Sturmtruppen' (Stormtroops) who released a LP with Rock O Rama. The four members of 'Blut Und Ehre' went on to form a new organisation called the 'New National Front'.

The skinhead scene in Switzerland is still quite small with only, about 150 real skins from mainly larger towns and cities. The best organized are the 'Swiss Hammer Skinheads' which is a unit of the American formed network of skinhead groups/gangs. Most skins live in Zurich & Lucerne or surrounding areas. There are also some good real skins in French parts of Switzerland like Lausanne and skins from areas such as Bavaria, Vorarlberg, Swabia and Alsace have more closer ties to Northern & Eastern Swiss Skins than the central swiss skins. If you want to see a gig in Switzerland, it's a drive or train to Germany as Swiss gigs just basically don't happen.

But what about merchandise etc. Well as I have found out from my various On the World reports, records seem to be bought straight from the main dealers like Rebellies and Rock O Rama, this is how it is in Switzerland, one shop does stock records but I get the feeling most records are bought by mail order, or at gigs when they travel to them. Doc Martens, Fred Perry and Lonsdales are all available in Zurich but Ben Sherrans and all the t-shirts on today's market are all mail order again and bought from either Germany or England.

Skinheads in Switzerland haven't really attracted mass media attention as of yet, like in time it happens all over the world but minor incidents have been reported linking skins with racial violence etc, it seems local papers take great pleasure in slugging skins off but the national press don't bother much.

On asking a swiss comrade about which preferences he and his mates have to beer and lager drinking the man in question replied ALL! Now we all enjoy most drinks but I wanted names etc, unfortunately, this wasn't to be, all I can say is that local brands seem more popular than the national brands, and if it makes you feel good, it will do, especially in large quantities.

What of the future of the Swiss skinhead scene, well at the present things seem to be happening a little more, as mentioned the Swiss Hammer Skins has formed to create a bit of unity and strength and above is there calling card and on the other page is the photo of the Swiss National Day 'Hammer Skins Party' which apparently went well with lots of beer and a good atmosphere. There are some well put together zines on the Swiss market, the first is 'Der Totenkopf' (The death's head) which covers bands, news, has photos etc etc and is available from Patrik, PO BOX 204, CH 6048, Horw, Switzerland. Cyrill is the main person to contact from the Swiss Hammer Skins at there above address. 'Der Totenschlaeger' (The Cudgel) is another well put together produced zine and covers a more political scene but also skinhead stuff, this is by the 'R.M.F.' at Refi, Postlagerand CH 8967, Widen, Switzerland. Both of these are written in German. Then there's a French written zine called 'Helvetie Blanche' (White Helvetia/Switzerland) published by R. Pythoud, Valentin 34, CH 1004, Lausanne. All go for £1 inc P&P or something like 300 Swiss Francs.

Well that wraps up my look into Switzerland. It seems interesting that such a beautiful country is being swamped by alien immigration and no one is really standing up and denouncing it, as maybe, the people need someone to join and fight back. We'll have to keep a close eye on the country and see what develops.

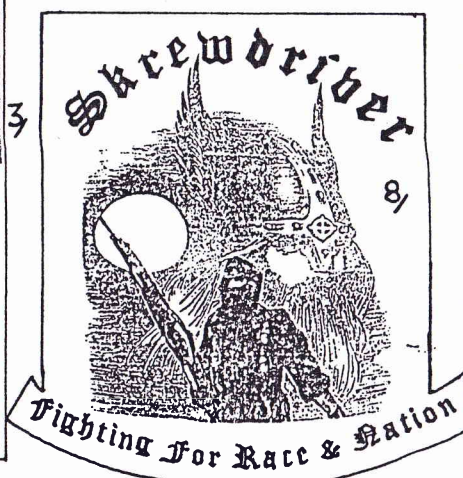

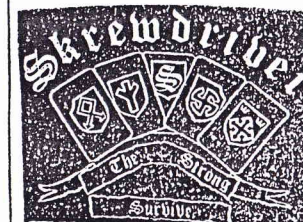

Many thanks to all my Swiss comrades, who without, this article, wouldn't have been possible, British Oi! salutes you!

News From The 'RIGHT' Side

Well welcome to your regular news pages that'll keep you upto date with the goings on in the band scene, the newspapers and basically anything of interest to your good selves, the readership. Lets see whats been going on in the press.....

A week or so after the Waterloo gig and the trouble caused by Red Action/AFA etc I was told to look out for a magazine called Select which is basically a pop magazine, you know the score, Madonna, Kylie, all the leftie bands etc etc, well it had a write up about the gig, complete with a good few photos, one of the aggro, one of Ian Stuart taken sometime ago, one of a injured skin etc, the article, named 'The Battle of Waterloo' was so biased, so pro the aggressor, in this case the reds, it was basically rotten to the core. It described how skins dress, the patches etc and said who nice it was to see some SHARP skins opposing the gig. It goes on and on about how evil it is to be a patriot and love your skin and tells of how Blood & Honour came about and tells basically of the Skrewdriver history. Then these words I quote 'Stuart is a deeply f****d up man' referring to Ian Stuart. Well in my eyes if Ians f****d up for loving his land and his own people, we must all be f****d up according to this writer. Well to really delve into history and smear us more this mag goes back to 1974 and brings you upto date on racist attacks, why put on the youth, guilt of the past, or at least try to, just remember in the end, we never forgive, and NEVER forget. The article which covered 5 pages also included a article on the German skinhead scene, much the same vein as the above mentioned.

As my wife was in labour with our second child what did I happen to find, while waiting bored stiff in the delivery room in the earlier part of labour and flicking through the magazines on a shelf I bumped into a article in Cosmopolitan, you must understand I was bored, a article entitled 'Dedicated followers of Fascism' which all in all apart from the verbal denouncing all mags say and preach it gave a insight into the importance of women within the white racial cause and how they tick. It detailed two women one namely 'Claudia' who was the leader of the West Berlin Deutsche Frauen-Front a part of the German Alternative movement and also from Britain a lady called 'Isabel' who was a BNP member. It blatantly went on about the past, Hitler, Jews etc but in all fairness could have been alot worse, but one thing that did anger me was they interviewed Gerry Gable of Searchlight/Communist Party/AFA fame and he really put the dagger in as to be expected but what he wrote was a s true as Elvis still being alive today. I've mentioned this article to try and generate a bit of interest by women readers who read womens magazines regular, to send in anything that might be of interest to myself and the nationalists reading.

Well thats about it with the big newspaper stories for this issue. What about the T.V. Well over the past few months BBC Wales/Cymru have been sniffing about asking questions about Violent Storm etc and the tragedy of the fatal car crash in which all of you out there know about. Well I received a phone call of a Carol Voysey (I think spelt this way) asking if I would like to be interviewed for a documentary about the band, its past etc, I agreed at first and made plans for a interview, at the end I pulled out of the interview due to family requests of the band etc but she persisted in phoning and phoning not just me but other people aswell like Celtic Warrior members etc. I beleive they are really trying to dig deep and smear the band but we'll have to wait and see, needless to say they have been banned from a couple of recently organised Blood & Honour East Midlands gigs and shall remain to do so. It was scheduled to be screened in late october/early november but as I compile this, it still hasn't been shown, congratulations to the lads who told them where to go!!

I recently attended the British National Party (BNP) annual general meeting in London in late October, it turned out to be a really good day, about 500+ attended to hear some good speeches, ones to remember where Ken Hendersons from Rochdale, as he is point blank and tells the truth and also the great speech by the french PIPE leader who received a standing ovation at the end of his speech. About 100 unwashed reds surfaced to oppose the gig but were taken away by the Police. After the meeting for some really stupid reason the old bill decided we couldn't go our own way home etc and marched us through Westminster (amid chants of Rights for Whites, BNP etc) on the tube across London and then let us go our separate ways.

On enquiring why we had to do so, I was told they had taken enough shit at the previous Waterloo gig they wouldn't allow us to do anything at all. Strange. The reds, scummy journalists and special branch had plenty of cameras to film us but in return we had a few photographers of our own to take snaps of there faces, which they didn't like!! Hail Victory to all in attendance!

On a lighter note, lets see whats been going on in the skinhead world.....

It is rumoured Rebelles Europeans are literally bankrupt after a costly USA trip went all wrong, lets hope not as they have done some great work..... New LPs due out now are Celtic Dawns debut, English Roses debut, a new one by Brutal Attack, the second LPs from White Diamond & Patriotic Ballads..... Also out now a reprint of the Ovaltines EP 'British Justice' which although not brilliant has to be a collectors item.....IMPORTANT...Rock O Rama are phasing out all of its vinyl and only doing CDs from now on, I hear Skrewdrivers 'After The Fire' has already been deleted and put only on CD, so all you budding collectors, get your vinyl now, before its too late.

English Rose have started a new deal with Rock O Rama and should be recording as this zine hits the streets and its rumoured to have a track with your truly aswell as a few others on backing vocals. God help English Rose. By the way if you'd like to contact them there new address is PO BOX 249, Derby, DE21 9EG, GB. After the Battlezone split, they have reformed as 'The Battlezone' and have none other than Martin Cross of Skrewdriver, Brutal Attack, Empire fame on bass. I'm led to believe they plan a LP and then are calling it a day, no gigs just the LP/CD. Church of the Creator band 'RAHOWA' have had a name change and are now called Centurion.

Another one for the White Race. Thats the news and great it is that comes from Dave a comrade from Sheffield as his wife Debra gave birth to a bouncing boy Joshua David who weighed in at 7lb 12oz and was born on 30.9.92. This makes a brother for Rebecca there older daughter. Congratulations Dave & Debbie.

Anti Pop the mail order business that used to deal in mainly Link Records have been in touch to say they have set themselves back in business again after a while but now also stock the Rock O Rama Records and can get all Rebelles, Link and Dim records on request with a waiting limit of 14 days. For a list of what they've got write to Anti Pop - PO BOX 201, Yalding, Kent, ME18 6HF, GB, send a SAE.

The British Unit of the Aryan Resistance Movement have a new address as the old Birmingham address is now defunct. Now its A.R.M. BM3803, London, WC1N 3XX. Write to them and find out what they're about.

Some new zines have come to my attention, they are all American and worth buying, firstly theres - Hail Victory(2 dollars), PO BOX 81, Descanso, CA 91916, USA, Secondly - Frontline (Same Price) - Big Al, PO BOX 304, Caldwell, N.J 07006, USA and last but by no way least - Extreme Hatred (Same price) c/o Scott, PO BOX 18502, Anaheim, CA 92817, USA. All are willing to exchange other fanzines and all are well worth getting.

Some sad news just in before this issue goes to print is the death of former Bound for Glory singer Eric who was savagely murdered in cold blood by a so called fellow skinhead, which I'm led to believe was a SHARP supporter. All that I know is Eric and this scumbag had a arguement in a club one night and they decided to go outside to sort it out with there fists, but the SHARP scumbag obviously frightened of this pulled a gun out and shot Eric in the face - dead! I shall try and get a more detailed story for next issue, but our thoughts must now be with Erics family and friends who have lost a great man, a true warrior to the cause. Lets avenge the death of this warriors - DEATH TO SHARP! Eric RIP Comrade - Sleep Well.

THE ONLY GOOD COMMIE IS A

Skrewdriver News

Well here we go for another installment and insight into what the worlds best nationalist band and as usual contains information on the other projects Ian Stuart and fellow band members are upto. Well lets leave it upto Ian to tell us whats what.....

The last few months have as per usual been busy for the members of Skrewdriver what with doing gigs in Newcastle supported by Skullhead who although haven't been doing much lately are still dedicated to the cause, a gig in Staffordshire with Razors Edge, a Patriotic Ballads gig in Nottinghamshire which was very successful and a gig in Derbyshire. The year was rounded off with a excellent gig in the mining town of Mansfield which was superbly organised and went ahead without a hitch. Incidentally a mass police presence saw no violence and the 500 or so that attended had a great night of White Rock Music. Some gay marxist group calling themselves Anti Fascist Action (A.F.A) claimed they would prevent the gig going on but as with Waterloo they miserably failed and there was not one of these perverts to be seen. The gig probably coincided with one of their paedophile forum meetings.

More gigs have now been planned for the next couple of months so if you want to come along then listen out on the grapevine for the redirection points or easier contact your local Blood & Honour organiser who should be providing transport etc. Lately most gigs have been organised by the active Blood & Honour Midlands Division.

On the record front - Patriotic Ballads II 'Our Time Will Come' and the second White Diamond LP 'Power & The Glory' are now ready for release after a short delay with a cover mix up! The Klansmen shall be recording a fourth LP in February. Some new Skrewdriver songs are now being played at gigs and include the now quite popular ' Bang Goes the Neighbourhood ' a story of muggers etc.

ABOVE - IAN & STIGGER IN GERMANY.

Recently Rock O rama Records who have always stuck by helping nationalist bands from around the world recorded a triumph in the courtroom against the German Government who were trying to band several records. The case was dropped because of lack of evidence. It seems that this did not please a organisation of Jews in America. This subversive organisation is called the Anti Defamation League and is used to cause trouble for anybody they don't agree with all over the white world. Apparently they even flew people to Germany to open a private court case against Rock O Rama. Anyway no serious damage is expected. You'd think they'd be satisfied after getting Western soldiers into danger by convincing our governments to go to war against Iraq again - wouldn't you?? Talk about a pointless war to protect and benefit Israel eh!

As British Oi! goes to press a half hour documentary on the 'Rise of the Right' has gone out on British BBC 2 called Public Eye. Well they tried to smear Blood & Honour and showed various photos of the White Christmas gig in Mansfield, for once the BBC had nothing new to tell the media and had to rely on old Skrewdriver footage to show the nation, why ?, well for all the hounding of various nationalists including myself and no less than daily phonecalls to Chris of this zine, we ignored there pleas for help and shut them out. Hence they no nothing of our movement. Lets keep it this way and by all means neccessary avoid contact with the media and there lackeys. They didn't gain access to Waterloo or Mansfield and in the future it will be the same!

Before Christmas Skrewdriver were due to play a gig in Italy, due to unforeseen circumstances we unfortunately missed the plane, we apologise to our Italian comrades, and look forward to our next journey out there.

Sickly Jon Hickson our bassist has his latest offering out on CD anyday, details of this can be found on the British Oi! review pages. Its called 2 MAD and resembles the Sex Pistols style!

Well thats it for this time. Skrewdriver or any band member can be contacted through the Skrewdriver Services Northern Division at PO BOX 249, Derby, DE21 9EG. A SAE guarantees a reply. See our ads for merchandise.

Cheers - Ian Stuart & Skrewdriver.

PEN PALS - Why not make one of these lads day by dropping them a line. I mean they are doing 25 years or so each so have a bit of time to write. Contact either/both :

Review Sheet

LAST CHANCE - Compilation LP by Last Chance Fanzine.

Well first off well done to Alex for making the effort to promote British bands but the bands that are on it could have definately done better, names like Close Shave, English Rose and Razors Edge I expect better from as it seems production of this material has lost some grit through mixing etc compared to the demo versions. 12 songs by 6 bands with the debut of Scottish band 'British Standard' no doubt being the best on the LP with two basic, but good Oi! tracks 'New Europe' and 'Violence Rape & Murder'. But a close second must be the fast and ferocious tracks 'Socialist Worker' & 'I'm not a bad man' by Grade One.

PATRIOTIC BALLADS II - 'Our Time Will Come' - Rock O Ramam.

Number 2 in one of my favourite 'ideas' on today's music scene, I like the slow stuff like these ballads more and more. The distinctive guitar and talent of Stigger and Ians vocals shine through as No.2 beats the pants off No.1. Tracks to be mentioned off this 12 track CD are 'Another Prayer for the dying' a track dedicated and about the tragic death of Paul Carter the murdered nationalist. It contains haunting backing vocals of Zoe who also now drums for Ians 'White Diamond'. Also other classics include 'Our time will come, The Lions Roar, and the anthem 'Never Give In'.

SWASTIKA - 4 track demo.

Four tracks by a new Swedish outfit but sadly the quality is a bit naff but the music and vocals do seem to have potential, tracks include 'Race War, Day of the Rope and Nikan Aldrig Stoppa OSS', maybe a band of the future.

OIFFENSIVE - France Demo.

A basic and a bit disappointing demo of 11 songs from one of the up and coming new breed of French bands. Tracks include 'Viking, Kojak, Zoulou, Adolf' and more. With a bit of quality recording they could be ok but this is a bit crap.

TRIEBTATER - 8 track demo.

A blinding demo from one of Germany's newcomers. Great stuff, fast music, slow music and no nonsense nationalist lyrics, tracks include 'Volk Wach Auf, Stolz, Blut & Ehre, and Fuhrer, well done Triebtater and watch out for them in your next British Oi!.

WHITE DIAMOND - 'The Power & The Glory' - Rock O Rama Records.

A second LP from Ian Stuarts rock group White Diamond but it could easily pass as good as Skrewdriver. 8 new songs and 2 cover versions make up a blinding second LP to make up for the poor finished product of their debut. The added difference to the band now is a full time drummer in the form of Zoe Briggs who as mentioned earlier already does the backing vocals on a few of the ballads tracks. Stigger also sings two songs 'To Freedom We Ride' a rock version of the intro off 'No Turning Back' and a ballad 'No Mans Land', tracks to excite the masses are 'Rise Up' 'Refugee' and 'Power & the Glory', be sure to get it!!

VACANT LOT - 'Stay Mental' - Rock O Rama.

A brilliant debut from this Canadian band 'Vacant Lot' this CD really takes some beating. 12 raucous Oi! tracks, not really political but still great, they on this CD show a band, well rehearsed and well played, tracks include 'Carry On, Oi! the Ultimate sound, Victory, Musta bin a good one' and my favourites 'Who Commits the crime, Blizzard Army (A football anthem type song that reminded me of the Rejects) and The Border'. All in all I'm well happy I received it, get it or be without a really good CD.

VIOLENT STORM - 'Celtic Warriors' - possibly Rebelles Europeans.

Well the tragedy that surrounds this forthcoming LP has been well told among skins world wide and in the media but for this LP, which was finished the night before the fatal crash makes it much more of a tribute to the fire lads. At present it hasn't not been sent to Rebelles due to family reasons but eventually it shall see the day of light. Tracks include new and old with songs such as 'Land of my fathers, Give us the right to be proud, Time Bomb, Europe of the Peoples, Come Inside, Stand or Hide, Pure Impact, and my personal favourite mainly because

it reminds me so much of the lads and its 'White Eagles of Snowdon' which includes the moving but haunting guitar work by Sheeley. A record never ever to be forgot, the people never to be forgot. All in all a great LP.

PRESSURE 28 - Demo '92.

Theres a little resurgence of the non political bands lately so I wrote to these to see what they are about, not bad stuff but recording could be better. 4 songs called 'Working Class Man, We're Alright, Kids on the move & Oi's Alive'. Best track for me has to be 'Working Class Man' a real Oi! classic, I'll be interested to see how these develop as they do have potential, and are due to appear on the 'British Oi! - Working Class Anthems' LP by Hammer Productions soon.

2 MAD - 'From the Cradle to the grave' - Rock O Rama.

This was originally going to be the final Lionheart LP but due to Jaki not singing on it the lads decided to call themselves 2 Mad. Jon Hickson plays guitar and also sings and the end result is quite good, some funny songs, some serious, all with hard razor sharp music, of the rock kind. Tracks include 'Don't come near me - Crusty Punks', 'Bullshitter' a rip off of Motorhead the song, 'Breakfast with Bernard Manning' 'Its so easy' and more to make up 11 good tracks. Out soon and available from Lionheart, PO Box 249, Derby, DE21 9EG, UK, Only on CD and it costs £12 UK, £13 Europe, £14 World. Also from this address from Lionheart are a few remaining LPs of 'Ride of the Valkyries' another good LP with great music for £8 inc p&p UK, £9 Rest of world. Two LPs well worth getting hold of now!!

BOUND FOR GLORY - OVER THE TOP - Rock O Rama.

What can I say about these that already hasn't been written, fast and slow tracks on this latest CD make it the best so far from the US of As best band. Tracks include 'Over the top' a catchy nationalist anthem, 'Stuka Pilot - Fight Or Die' 'The Good Fight' 'Bound For Glory' 'Nothing to Hide' and my favourite off the CD being 'Victory Song' which is a song dedicated to the Confederate Knights of America and has some great music and lyrics to it. More tracks make it up to an 11 track CD that will take some beating, getting it is a must. Well done BFG.

BULDOK - Patriot Demo - Bohemia Records.

The debut from one of Czechoslovakias finest bands, produced by their manager Karel it has turned out powerful to say the least, but as per usual the language barrier doesn't let me enjoy the lyrics. 14 tracks of powerful white racist rock to get most feet tapping, tracks include 'White Storm', 'Our Anger', 'Invasion', 'Wake Up Europe', 'Elite', 'Bulldog' and more. All in all well done to the lads of Buldok and lets hope we hear more off you soon, comes in a well presented case too. £3 or 5 Dollars inc P&P from Karel Duben, Komenského 357, 542 01 Zacler, Czecho-SLOVAKIA.

WRITING FOR ONE.

Here's a band that are slowly making a name for themselves over here in the UK but are well known and well liked in the USA where they originate from. I thought I'd write and see what Rival are about.

1. When, why and where did Rival form?

Rival formed during the summer of 1990 in Detroit, MI. Pat & Sean decided to form a skinhead band, for the love of Oi! you could say. Bill & Jim were in another Oi! band at the time called the Rogues and joined up at a later date due to other line ups just not working out.

2. Could you tell us about the line up?

The current line up stands as : Jim (23) is Vocals & Drums, Pat (27) - Bass, Sean (20) on Guitar and Bill (23) also on Guitar.

3. Why the name 'Rival'?

We decided on the name Rival because of the way skins are viewed by the general media, as enemies or opponents. It's a sort of sarcastic play of the term, actually you could say the opposite is true, as far as the white public is concerned.

When Bill & Jim joined we were gonna change the name of the band to the 'Works' because our style changed. We heard 'The Works' is a slang term for Snack (The Drug) as so because of that we stuck with Rival.

4. Have any of Rival played in any other bands?

Yeah - Pat was the original bassist for A.L.D which means Almighty Lumberjacks of Death. Sean played bass for a short time with The Unclean and Bill & Jim are in the Rogues as well as Rival.

5. Could you tell us about your songs?

Jim basically writes about all the bullshit he sees happening around locally, nationally and worldwide. To name a few songs there's: "Put up a fence" a song about the illegal mud immigration into our country everyday, "1991" is about the Zionist controlled media and their efforts to brainwash the average American, "Dead & Buried" is about Detroit and about how f**k'd up it is, "We got the right" is basically a skinhead pride anthem.

6. Are Rival a political band?

Yes and NO. We touch on some political subjects which we hope will raise a few eyebrows of our listeners. We vary our songs so that not all of them are just about White Power. Jim is involved in the 'United Front' a local movement you might say and the rest of us aren't affiliated with one group or party but we do support all movements that support the interests of the white race.

7. What do you think of things like the KKK, WAR, CI etc?

Naturally we support them and their efforts to protect the white race, we can't really say which is the best or worst as most do have good and bad points. However the KKK has a tremendous amount of history behind them and there still going, that's respectable to say the least.

8. What merchandise have you available ?

Well our two LPs are available ('We've got the right' & 'The True will Survive') are on Rock O Rama on CD and Vinyl and we have t-shirts with the eagle design, thats about it.

9. How is your local skin scene and could you tell us about it ?

The local skin scene is quite good and always looking better with new bands popping up like Nationalist Rebellion, and Lax Resist & The Hooligans. Local skins follow us and our mates and some good punks and some rockers too.

10. What on the USA skinhead music scene, do you think is good/bad ?

We're not overly familiar with the US skin bands, as alot sound like hardcore and we are not crazy about that. There are some real cool bands though and some of our faves are - Bound For Glory, Final Solution, Bruisers, Arresting Officers, Forced Reality, Nationalist Rebellion and Lax Resist.

11. What other hobbies do you have ?

Since we all work for a living, hobbies we don't really have time for, other than the band, and our favourite hobby is drinking down the pub, other hobbies include Fishing, Collecting Records, Camping Up North, Hockey and Sean snowboards.

12. Anything else you would like to add ?

Thanks to all for any support or interest. Cheers to you Chris for the interview and HAIL VICTORY SKINHEADS! Stick to your guns, mates. Keep our secret army alive. Rival can be contacted through Force Majeure Records, PO BOX 39148, Detroit, MI 48239, USA. Our t-shirts are 10 dollars inc P&P.

Cheers to Rival and Bill for answering the interview, good luck to you all.

Keep up, don't waste no time, For this feeling,
I would lay my life on the line "
Ian Stuart '92.

Dear Readers,

Fisrt of all, many thanks for buying
this long awaited twenty sixth issue of the worlds
longest running skinhead fanzine. The new board of
edittors wish that you enjoy what you read.

The saddest news ever to hit the skinhead
world, that is what happened on September 24th. Ian
Stuart, lead singer of world No.1 skinhead band and
Boo a 23 year old skinhead tragically passed away in a
freak accident on the way home from a evening out with
good friends in the town Burton On Trent, Staffordshir
-e. Boo died instanstantly on impact but Ian with
severe head and chest injuries was rushed to hospital
but sadly lost the fight for his life the following
morning with his father, who travelled from Blackpool
at his side.

Never since, has there been such emotion,
so many tears cried for a true hero, a man admired by
his following, a man who dedicated his life towards
the cause of National Socialism. He gave us his ideal
of a pure land, his great talent in music and the gre-
at lyrics, On 24th of September 1993 we lost a living
LEGEND. May we never forget his fight, his fire rages
within us, one and all. We dedicate British Oi! to
these two fallen comrades. Enclosed in the zine are
four sets of inspirational lyrics, these were you Ian,
REST IN PEACE COMRADES, SLEEPWELL AND GOD BLESS YOU.

The Staff - British Oi!

WE WILL ALWAYS KEEP UP YOUR FIGHT,
YOU WILL NEVER BE FORGOTTEN.

Mist upon the Downs - Skrewdriver off The
Strong Survive LP.

1. In shrouded forests, in Englands leary dales,
An air of mystery, off long forgotten tales,
Well times stand still, the flowers swayand
river passes by,
A blaze of freeze, a mystery, where the autumn
breezes sigh.

Chorus - I will remember the mist upon the
down,
That september the mist upon the down

2. The country roads and winding lanes, leading to th
-e hills,
I walk and gaze upon the land until I've had my
fill,
Peace of mind is yours to find in a countryside
so green,
And theres no man could stand and fail to be
ruled by this scene.

Chorus.

3. Misty days and secret ways, beneath the Autumn
dreams;
Falling leaves upon the ground, yeah the calm is
all around me,
But troubles come and problems rise, the woodland
full is strong,
Surrounded by the forest deep, there is no right
or wrong.

Chorus Twice & End.

Newsdesk

Well where the hell do we need to start. So much has been happening as of late I'll try to put in all the interesting stuff.

Squadron have kicked Lenny the vocalist out of the band for apparent lack of dedication. He had never written a song for the band and had no real commitment. Brad the bassist has informed British Oi! they strive on but with Jimmy the guitarist singing and playing the songs. Also its rumoured that Lemmy of Motorhead plays drums for them, or is he just a lookalike, see for yourselves soon, as they promise to be gigging soon and whilst on the subject of Squadron, recently in Germany on the way to a planned gig with friends and local buddies English Rose were nicked by the Police and held for no apparent reason until a time whereas it was impossible to do a gig. Released at about 2.30 am where they headed for some drinks at a all night boozier. But not only were these bands nicked, about 100+ were held aswell. None were charged, but unfortunately for the state, a gig went ahead with a few German bands playing.

Although this summers Aryan Fest UK was called off by the old bill with threats and harrassment, a gig, which was very successiul went ahead in a staffordshire town. Skrewdriver, Noie werte & Razors Edge played blinding sets to over 300 in attendance. The beer that had been purchased for the Aryan Fest, all 10,000 cans or it will soon be given back, so a fun time will be had by all.

Battlezone recently played a comeback gig with Celtic warrior on 25th Sept in Bristol. Naturally the gig was dedicated to Ian Stuart & Boo. Unfortunately, the moron element were in attendance and decided to ruin a 'minute -s silence'. Needless to say, they were dealt with, where is your respect ?? Note this idiots only made up a hanaful, the mass attendance were silent.

The great USA zine 'Voice of Revolution ' has a new address, its now PO BOX 68333, Portland, Or. 97268. The latest issue has some great articles that include a great C.18 action report. Buy it - 2 dollars.

Brutal Attack completed a successiul tour of the USA & Canada with playing gigs with bands like, The Voice, Das Reich, Max Resist, Aggravated Assault and Aryan of Canada who are made up of a couple of the great Canadian Oi! group Vacant Lot. The band second on the bill at all of B.A's gigs was the mighty Bound For Glory. Unfortunately Martin Cross had to leave the tour early, so Ed from B.F.G. took over on guitar. Brutal Attack & BFG also went into the studios and recorded a split CD called 'Bound For Attack' which is rumoured to be brilliant and out soon. B.A plan to go back soon.

Have you seen the news recently about the BNP electio -ns etc, if you haven't where have you been ? Well I won't go into the election etc but just look at the injustice going on every sunday now down in Brick Lane. The ANALS (Anti Nazi League) demonstrate each sunday and the BNP who want to sell in the area as the have dome for the last ten years are nicked just for heading in the direction of Brick Lane. Also 4 BNP have been charged with Violent Disorder after clashes the Sunday after the victorious Tower Hamlets election. But as seen on the T.V on both main news programmes it showed ANALS kicking the BNP on the floor. Where has justice gone eh? One of the 4 BNP nicked was 50 year old Richard Edmonds, National Organiser of the BNP. If old J.Tyndall gets his finger out and cooperates with other comrades, experienced in security, instead of messing up rallies, paper sales etc, would go ahead etc listen to your members!

Razors Edge the up and coming ' Voice of the Midlands have started recording there LP. Title unknown to me at present. They have a good t-shirt out for £6.50 inc P&P from PO BOX 3324, West Bromich, B70 7NP, England. They soon plan gigs in Ulster which follow up success-ful gigs in England, Germany and Belgium. Look out for them.

A fanzine aimed at disuniting our strong Skinhead unit -y seems to be doing the rounds. Its called Einherjar, and goes onto slag down C18, Ian Stuart and British Oi! old editor Chris. Its illegally used the PO BOX for Geordie zine onward also. If it arrives on your door-step, bin it! Seems a old 'infiltrator' is involved in it.

The self styled Pontifex Maximus or Big time leader of the sect/cult Church of the Creator Ben Klassen recently committed suicide on Aug.8th. In June '92 he stepped down as leader claiming to be broke. His body was discovered in his bed at his home which overlooks his church of the creator compound. With him gone, I wonder what'll happen to these self styled reverends now. Apparently the COTC have a branch in the UK.

The interesting newsheet 'News from the White House' goes from strength to strength with its bulletins becoming more regular and more intellectual in its articles. Send 3 dollars or £1. for sample copy to NFWH - PO BOX 6088, Harrisburg, Pennsylvania, 17112 0088 - USA.

One of the best merchandise lists in the USA must be wolfpack services which has an extensive range of t-shirts, tapes, CDs, Records, badges etc. For a catalogue write to wolfpack - Po Box 80, Garden Gr, CA 92642. Good prices too.

The Skinhead world video specialist 'Jasa of Finland' has some great new films out which include Peggior Amico video & Battlezone video. He does a video service for any band interested and only requires, say a t-shirt and CD or something for doing it. Why not get in touch with Jasa, Asiakkaankatu 6 B 19, 00930 Helsinki, Finland. Jasa also does a good zine called AINASKIN.

The well known and really great newspaper from the USA 'The Truth at Last' has released a great paper all about British Union of Fascist leader 'Sir Oswald Moseley' which details his fight for Britain etc and has some great photos etc. For a copy send £1 or 3 dollars to the truth at last, PO BOX 1211, Marietta, GA 30061, USA. The paper is called 'Action'.

Sadly British Oi! must report the story of Austrian nationalist Gottfried Kussel. He was recently given an extremely long sentence of 10 years for organising a N.S party. We wish Gottfried all the best, but comrades as one is imprisoned, one emerges to fight! Support Kussel and support the cause!

SUDDENLY - SKREWDRIVER off the Warlord LP
and Patriotic Ballads Part One.

We live in changing times,
The sudden voice, of now a crime,
Power blows, through an evil pen,
Freedom's lie, is growing thin.

One day if suddenly, I'm forced to take
my leave,
Will you still carry on, with the things
that we believe,
One day if suddenly, they take my life
away,
Will you still be fighting, to win a
brand new day.

The people stood against us,
they seemed to be above the law,
when the power listens into,
private moments of our lives,
the power to come, kick down your door.

Chorus Twice.

The strength has come from ideals, many yearsold
The strength that has survived within our blood,
The strength I've always recognised and they
sworn to drag it down,
He wants to drag our people through the mud.

Chorus . End.

Memories - White Diamond - Off the Reaper LP

Like the warmth of the sunshine,
Like the joy that's carried, on a warm summer
breeze,
Like green shoots in the Autumn,
Like new leaves on the bare winter trees.

Chorus - Memories,
Treasured Memories,
Memories,
Of times gone by.

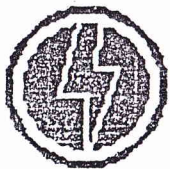

Something that comes up that reminds you,
Forgotten times make you think of times gone by,
Like a faded picture in a old frame,
Memories are stirred as the seasons fade and die.

Chorus X 2.

Like the faded glories of long ago,
Something that you miss, but you know it can return
Something that you wished, that you'd gone and
done,
You want turn back the clock, will you ever, ever
learn.

Chorus that repeats until fading.

Razors Edge

Well heres a band that featured in British Oi! No.22 and since then have done a hellava lot so here they are again with another interview to update everybody.

1. When, why and where did Razors Edge form ?

We formed in July 1990 to really boost a declining Nationalist skinhead scene in the Birmingham area. Our current line up is Andy - Vocals, Dirk - Guitar, Kev - Bass and Sid on Drums.

2. Could you tell us about your forthcoming LP ?

We've recorded our LP on a new German Label called 'Di-Al Records'. The title of the LP will probably be 'The Flag still Flies'. We've recorded 10 tracks for it and they are : Marching On, Read all about it, Jobs not immigrants, If your a red, Into the storm, The flag still flies, Ulster Freedom Fighters, Rocking the Reds, No Room here and Skinheads don't run. The LP should be out in December/January.

3. Are you happy with the finished product ?

We are still mixing the tracks but yes its coming along OK.

4. Which topics do you consider the most important to sing about ?

We consider the topics about immigration, smashing the reds, and supporting the loyalists in Ulster to be our most important topics.

5. Could you tell us about your most recent gigs etc?

On June 19th we played our first European gig in Germany. In a area called Konigswusterhausen near Berlin. Five other bands played at the gig and the local media claimed over 700 attended.

In July we played on the 10th in New Barnet, London with Brutal Attack and on the 31st with Skrewdriver & Noie Werte in Burton. This was a excellant gig with a large crowd but smaller than the same day planned Aryan Festival. Our last gig was in Notts on Sept. 4th with

Skrewdriver, which sadly reflecting was Ians last gig.

6. When British Oi! last spoke to you, you were planning a Ulster gig ? Tell us more ?

Yes, this is still a possibility but nothing definate has been arranged yet.

7. Is Dirk still in Close Shave ?

NO! Dirk has left them.

8. Is there a message you'd like to contribute about the sadly missed Ian Stuart ?

We were all shocked to hear of Ians death, it is a big blow to the Blood & Honour scene. We got alot of our inspiration from Ian & Skrewdriver and he will be sadly missed. Ian gave us alot of help and encouragement and we will never forget him.

Rest In Peace Ian. See you in Valhalla.

9. Apart from the band, what other hobbies have you got?

Dirk does alot of Weight lifting & training, Andy supports West Brom & Rangers, Kev & Sid support Birmingham & Rangers.

10. What future plans have you got ?

British Oi! would like to thank Sid the drummer for answering the interview Cheers, Good Luck to Razors Edge, if they are playing near you, see them, really good band.

BRUTAL ATTACK - RESSURECTION - Rock O Rama.

This is what I call Brutal Attack at there best. A great LP to mark the bands rebirth. Some thumping tracks of great white power rock n roll. Well done B.A. Tracks include 'No Shame/No Guilt', 'The Wolf, Lone Raider of Salvation, Rock the Nation, Under One Flag, Build it Up' but a great ballad called 'Embers of Yesterday' stands out just above ballad 'The Wolf'. Its upto you B.A to lead the way, keep this up and you definately will. 10/10.

BRITISH OI! - WORKING CLASS ANTHEMS - Hammer Records.

A good variation of the new phase of Oi! bands but also a couple of the classics - bands include Section 5, Condemned 84, Blank Generation, Close Shave, Pressure 28, Boisterous and probably the best on it are the Straw Dogs although the recording quality could have been better but they have that fast and vicious edge. 7/10.

WHITE TERROR - Declaration of War - White Terror Records.

A good debut CD from this promising U.S label and this comp. has bands like Midtown Bootboys, Bound For Glory, Extreme Hatred, Fight for Freedom and Storm Section on it. Quite few good tracks. Good cover too. For more info on this and Blood & Honour USA write to W.Terror, PO BOX EO, Garden Grove, CA 92642, USA. 14 dollars CD. 0

ENGLISH ROSE - The FLAME STILL BURNS - Resistance Records

The second and by far the best LP by Eng.Rose. Some great tracks that include 'AWB, Alive & Kicking, You Aint a mate, Hang the IRA, Lightening Strikes, Never Change Me, We Remember You and more. Well done Jonesy and Co. Should be out soon - 10/10.

FORTRESS - SEIZE THE DAY - Rock O Rama.

Had a copy of this given to me recently when Scott the singer of Fortress came over to GB for a holiday from Down Under. What a record. Some really fast hard hitting anthems to stir the masses. Tracks include 'Victory or Valhalla, White Power Rocks what you need, Now is the time, Black wind fire and steel, Defenders of the faith and lots more. The more I listen to it, the better it sounds. 10/10.

Desert Storm Maxi Single - No Remorse & Dirlewanger.

This proposed "12 was recorded in the USA in Sept '92 and at present hasn't been released as Rebelles Europeens seem to have closed. The No Remorse tracks are 'We Fly the Swastika & Bob Matthews ' and the Dirlewanger tracks 'White Power Rock n Roll & Honky Tonk Rebel'. Four good tracks with White Power Rock n Roll sticking out as the best, with Dirlewanger sounding like AC/DC. 8/10.

SQUADRON - COMBAT, BATTLE & BURN - Rock O Rama.

One of the best bits of music to my ears in a longtime as its fast and furious and has some great things on it. Tracks include 'A song for Europe (Der Sieg Wird Unser Sein)' 'The Elite' 'You Know the Score' 'Mr. Media' and more. 12 tracks in total with remakes of the Manowar classic 'Blood of the Kings' and the Strikes 'Skinhead' all in all a great LP with some great additional sounds like Bob Matthews etc. 10/10.

SKREWDRIVER - HAIL VICTORY - Rock O Rama.

Sadly the last ever Skrewdriver LP and really the one to remember Ian by. A great LP with the usual Rock sound with also the usual ballads that Ian loved so dearly. 12 tracks that include 'White Noise, Mother Europe, Vampire, European Battlesong, Time to die, Fools No More' and the two outstanding tracks - 'House of Treason' a song on what Ian thought of the crooks that run our country from the house of commons/Parliament and has a great tune with catchy chorus. Then there is the great ballad 'Old Albion' which is a stirring number about how we must withstand the pressure and fight for our freedom. Smashing. Also it has a good intro before the track 'Hail Victory' called 'Diamonds in the Dust'. This sends Skrewdriver out with a bang. Ians music will live forever. Get Hail Victory. 20/10.

BRUTAL ATTACK - INTO APOCALYPSE - Rock O Rama.

Probably the worst record to come from Brutal Attack ever. Not really worth typing about. Only good track is 'Shine On' - 3/10.

This track is off the Skrewdriver LP 'Freedom What Freedom'.

1. There is a road and it leads to VALHALLA,
Where only the CHOSEN are allowed,
There is a boy, with a dream os VALHALLA,
A place in the land of the GODS,
But in the heart, where the fire burns FOREVER,
Where life goes on for those who FELL in
Battle,
The gods are waiting, the moment he falls in
FIGHT,
And he will RISE when the sun goes down.
2. Raised high his sword as he cried out VALHALLA,
His dream had become reality,
And tonight he will dine on the road to VALHALLA,
CHOSEN to feast with the GODS,
But in the heart where the fire burns FOREVER,
Where life goes on for the mighty young VIKING,
The journey has finally come to an end,
AND HE HAS RISEN AS THE BRAVEST OF THEM ALL.

EDITORIAL - British Oi! No.27.

Dear Kinsman,

First of all many thanks for buying this copy of British Oi!, the worlds longest running skinzine and thats official, 8 years and still going strong. We hope that what we write about strikes a cord of interest to you.

So much has happened since No.26 we've made a extra long news pages for you. Also we have two exclusive articles done by the sadly missed, never forgotten Ian Stuart, one of the being a letter he wrote maybe only a week before the crash happened. You see Ian was up in court facing charges of Assault amongst other things and all it was really was self defence against one of our systems failures, yes a drugged up freak. This letter explains his true feelings on the matter. If you don't believe its his letter send 20p & SAE and we'll send a direct photocopy of it. The other item he did and yet again is exclusive to British Oi! is a poem which details his love for our land. Read it, its great stuff. The lyrics we included in the last issue, 26, proved popular especially with european readers who have difficulty in understanding the songs. This issue also includes some touching letters British Oi! received from comrades across the world.

EDITORIAL CONTINUED.....

You may well be wondering, what the photo on the cover is from. Well British Oi! was sent it at Christmas time from our loyal comrades in the White Aryan Resistance (W.A.R) Oklahoma unit. Its obviously a great tribute to one of the Whitemans true martyrs - Robert J. Matthews of the fighting force ' The Order ' who in his last battle was burned to his death when he wouldn't surrender to the F.B.I. Well this tribute was put up, as shown on a billboard in downtown Tulsa, Oklahoma on Nov.27 and the billboard measured 15m x 2.5m. Oklahoma WAR tell us that the local ethnic population and various White liberals went bonkers. Well done lads - Hail The Order. Perhaps in Britain next year we could do something for Ian Stuart ?

Alot of people wrote last issue about subscription rates, well for a six issue subscription it costs in the UK £7 inc P&P, Europe £8 inc P&P and the Rest of the world £9. We can accept cash (£££'s) or your own currency but if paying in your own currency please add on a extra £2 to cover high exchange costs. You can also pay by Cheques/P.O.s made payable to - R.I.D. So lets hope thats sorted.

British Oi! sends its sincerest apologies to Groove Records of Sothampton. In No.26 we stated that their address was 2 Cheddar Cl. This was a mistake and the proper address is Groove Records, 14 Cheddar Cl, Woolston Southampton, England. We hope our apologies are accepted and we hope no serious problems occurred.

The editorial staff and close associates to British Oi! would like to point out a very important development within nationalist circles. Recently the BNP have been slagging off and denouncing the security force C18. And to the extent telling members to disown them. Well we support C18 as its doing what the reds have been doing to us for years. However we are not anti-BNP but would like to see a end to this silly episode. Then perhaps some real gains would be seen!

RIGHT HANDED NEWS!

From now onwards, British Oi!, each issue will be covering extensive news coverage about whats going on within our movement to keep folk upto date with comrades developments across the globe. We will report about what we hear.

One major thing that has happened in the last month is the launch of the first Nationalist record label in Great Britain, at present its still in the making but I'm assured it will go ahead, now for the name of it, I.S.D Records (Ian Stuart Donaldson - Get it ?) has been mentioned but as of yet not definite. Well done the creators behind this venture, its what we need! From what I hear a regular, well produced news bulletin will be vastly distributed on a regular basis to keep people in touch with its developments. British Oi! will keep you upto date with news as we hear it. Talking of record labels it seems the USA is leading the way at present with two new labels, White Terror record -s, PO BOX EO, Garden Grove, CA 92642, USA and Resistance Records, PO BOX 24700, Detroit, MI 48224, USA. Resistance have informed British Oi! that 6 CDs will be available from them now as you read this by bands Aryan (Canada), Aggravated Assault, Nordic Thunder, The Voice, Max Resist and the Hooligans, all from the USA and Rahowa (Canada). All CDs cost 20 dollars or 14 dollars for cassette version, they will accept pound -s. White Terror Records however will soon release a great CD by new band ' Das Reich ' and the venture with Brutal Attack and Bound For Glory called Bound For Attack. Which has some classic tracks - see reviews.

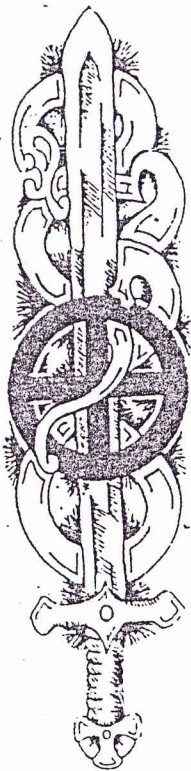

There are some new publications on the scene, addresses can be found on the 'zine page but definately worth a mention is new skinzine 'Rampage' which has its first issue out now. Jonesy of English Rose was going to do a zine from the same address called 'Stormbringer' but pulled out of the idea due to lots of band commitments, so some of his mates started up 'Rampage'. Issue one includes news, photos, interviews and more.

The other publication well worth a mention is a glossy magazine of 48 pages in length entitled Combat 18. It details there victories amongst other things. Well worth buying. Well put together.

A new project is in the making in the good 'ole US of A. Its called Project Tribute - A tribute to Ian Stuart. Some well known ' names ' have offered to donate tracks to it. Obviously putting out a CD is an expensive thing, so they have a plan to raise funds and as they say, help promote a lost hero. If you donate 25 dollars to them you receive a CD on release, for a 50 dollar donation you will get a thank you on the back cover printed. This seems like a good venture with profits being donated to Blood & Honour (if it ever comes out again ??) and the rest towards creating further projects. If your interested write to : PO BOX 898, Walnut, CA 91788, USA.

A good short tribute was recently put out by Blood & Honour for Ian. If you haven't got it, send a SAE to BCM BOX 8514, London, WC1N 3XX, England, or IMO etc.

You may have heard of a french zine called ' Zera ' well don't be fooled by there so called nationalist stance, its come to our attention that they are sharp supporters (so they have some eh!) and to prove it beyond belief they even interviewed and gave space to the Anti Fascist Action band Oi! Polloi. They state they support them in the interview, aswell as the Blaggers etc, Blacklist them now - spread the word!

You've heard all the stories about how bad the German bands have been treated by the courts, I've heard, this story, that story, so I thought hang about whats really going on....

Storkraft have been in the wars, the bass player Jorg eventually ended up with a two year suspended sentence and a huge fine with added costs that amounted to about £10,000, he also has to do 180 hours community service at a mentally handicapped centre in Bremen. He received these penalties for giving a ' Hitler Salute ' on a video recording of a gig also in Bremen and for also having some extreme (in the German laws eyes!) lyrics on there LPs Dreckig, Kahl & Hundsgemain (Dirty Bald and Mean) and 2nd LP Mann fur Mann. Apparently breaching laws for inciting racial hatred.

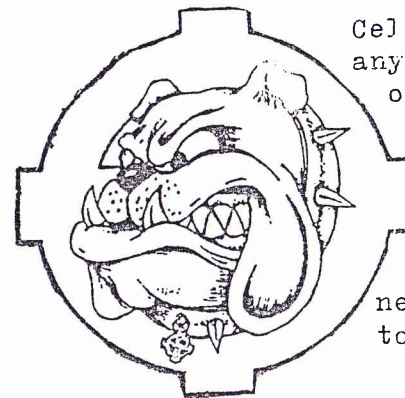

But Storkraft continue and have two new records out called 'Mordbrenner, gehoren nicht zu uns' (Murdering arsonists don't belong to us) we think called this to ease there sentences, and ' Wir sind wieder da' (We are here again). Not satisfied with the charges that were brought against these lads, the crown prosecuter wishes to reopen the case with harsher terms, we'll keep you upto date on developments.

Radikahl have also fought court cases vigourously. The Nurnbrg based band had there trial at the same courthouse as the famous Nurnberg Trials of 1946. Each member received initially a £775 fine each and a suspended jail sentence. This however was dispensed and a harsh fine of £4,300 per person was dealt. In addition to this court costs and lawyer fees have to be met! They need your support German comrades, help them out!

Lets start on with a bit of Rock Against Communism world wide news....

Battlezone have made a return to the live scene with them doing gigs in Czech Republic and recently in Birmingham. Alex is still vocals but the line up is now Antonalla on Guitar, Doc - Bass and Charlie - Drums. The gig in the Czech Republic was a tribute to Ian Stuart gig with around 500 in attendance. Czech band Buldok played support. Co-incidentally after the gig Buldok the band had a terrible car crash but luckily non were seriously hurt, but the car a total write off. Also in this area recently the Bohemia Hammer Skins has formed with one of its addresses being PO BOX 70, Trutnov 54102, Czech Republic. Also in this region they have launched a new nationalist party mainly ran by skins called 'Vlastenecka Fronta' or Patriotic Front in English. Once off the ground they will contest elections and are currently stepping up activities to promote its name throughout the republic. Makes a change to see a party welcoming skins eh - Mr Tyndall. The parties address is V.F - PO BOX 8, Slapanice, 66451, Czech Republic.

Squadron the best band knocking about at the moment in the eyes of British Oi! made an impressive show at the White Christmas gig in Nottinghamshire recently. Due to a faulty PA system they could only use the one guitar but had the dance floor packed with there stylish way of playing. The house went mad to songs such as Our time will come, Der Sieg Wird Unser Sein and No Red Flags, A cover of Skrewdrivers Hail The New Dawn also went down great, Well done both bands on the night Razors Edge and Squadron.

Celtic Warriors still haven't signed any deals with any record labels as of yet but do have some offers. They now have quite a few new songs and are improving each time we see them. Lets hope '94 is Celtic Warriors year.

British Standard from Glasgow have new singer called Brad, they hope to get something happening soon.

As this goes to press English Roses new LP 'Flame still burns' hasn't been released but are expecting it to be anyday. They have a new guitarist none other than Martin Cross - ex Brutal Attack. Martin also is currently working on a project with Billy of Celtic Warriors called Crossfire. But at present that's all we know.

A new French band called Viking have written a good tribute song about Ian Stuart called 'He was Never Silenced'. They hope to record soon after some more practice.

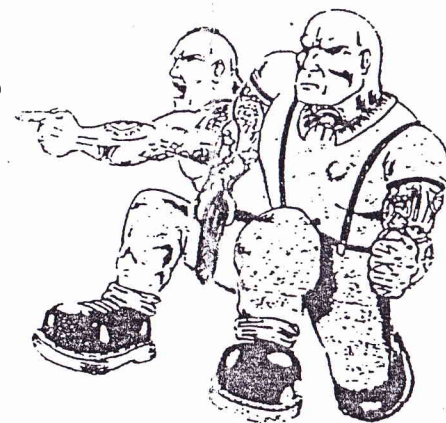

Noie Werte have a new EP out now but as of yet we have not heard it.

Bound For Glory have set plans for their fourth LP but not on Rock O Rama but as mentioned earlier Resistance records. It should be recorded in late February. It will be called 'The Iron Eagle Flies Again' and apparently no one will be disappointed. It's a US label don't forget and they can say what they like! BFG have also recorded a track for a Hammer Skins EP which should be out soon which also features The Bully Boys, Nordic Thunder and Max Resist.

Out of the ruins of Vacant Lot splitting up has come two bands, Aryan and Bitter Grin. Aryan are obviously political but Bitter Grin more Oi! based. They have a EP out now on Walkwerk Records Germany called 'Happy Christmas'. Aryan have a CD out soon or out now on Resistance called New Storm Rising. As of yet I've heard neither band so we can't comment on their musical styles, quality etc.

No Remorse have not been up to much recently. They have a LP planned and have signed to the German label Skull Records, the new LP will be called 'European Skinhead Army' when it will be out is, well, whenever. It seems Skull Records have ripped off two USA bands namely Vanguard & Final Solution. Apparently, they both recorded LPs in the studios and sent the tapes to the firm. They had to pay for the studios themselves which was no doubt a lot of money. What is this, a nationalist, supportive label, or more fat cats out to make a quick buck? English Rose had problems getting their payments too, but after persisting, Skull coughed up the money!

Last but not least in this issue's news pages, British Oi! would like to wish Burton on Trent Skinhead Pete and his wife Anne (sorry Jane) our congratulations on the birth of their third child, a beautiful bouncing baby girl Victoria weighing in at 10lb 6oz. This makes another sister to youngsters Shaun and Alice. Whens No.4 Pete?

So that's all the news for this time. Please send in any news that maybe of some help. See you next issue.

DISCLAIMER

The views expressed within the pages of British Oi! are not necessarily those of the editor and should not be interpreted as such. We speak in the interests of the great British right of Freedom of Speech and do not mean to cause any unnecessary suffering to any person or persons!

Dear Fellow Nationalists,

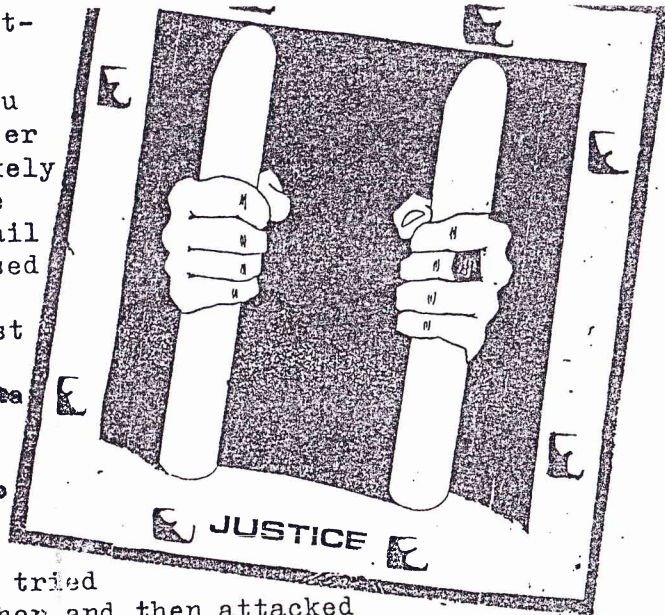

As you read this letter it is very likely that I will be beginning a jail sentence imposed on me by the British Zionist puppet state. My crime was to defend the girl that I was engaged to from a drug crazed freak.

Who first off tried to manhandle her and then attacked me three times. The police, as usual have altered their statements to try and incriminate me as much as possible. Even before this trial I have realised that however much of a liar the druggie proves to be, along with his police allies, the decision has already been made to find me guilty. This will prove, that if you are a nationalist in this country, despite the fact that you have been attacked and were only acting in self defence, the Zionist puppets running the so called justice system, will convict you of a crime. The truth, justice no longer exists perverted twisted system. If you don't believe in the propaganda, and toe the line of the multiracial state, you need not expect to receive justice.

If the state thinks that by jailing me for defending a girl against one of their systems junkie products, they are going to dishearten me and shake my nationalist beliefs, they had better think again. As Nietzsche said 'That which does not destroy us, makes us strong. And they may rest assure that I will be back again, fighting for race & nation, They can't kill our music and our spirit will never die.

Hail Victory, Racial Regards,

Ian Stuart.

The Flame that never dies

By Ian Stuart - Never got recorded.

In every British heart, there burns immortal flames
A pride that never wavers, a valour yet untamed,
The enemies of Britain, won't cease to wonder why,
They cannot beat the strength of the flame that never dies,

In depths of English countryside, there's something
in the air,
A pride filled sense of history, of battle uncompared,
A love of life and rural charm, besets the lands
blue skies,
And no one can ever dampen the flame that never dies.

On the sides of Scotland's mountains, the feelings
all around, the stirring skirl of pipers, none can
beat the sound, the heather on the loch side, the
streams that ne'er run dry, They can try but they
won't kill the flame that never dies.

On the streets of Ulster, The flag is always seen,
A sign of distant victories, and more that yet
shall be, To stay as part of Britain, many heroes
died, No enemy will smash, the flame that never
dies.

The Welshman in his country a language of his
own, there's strength in British union, ensuring
safer homes, Diversity and cultures are the British
people's pride, and together we can stand and fuel
the flame that never dies.

They'll try and kill the British people and try
and grind us down, They can jail us on false
charges, repression all around, But
as British men, we will not bend,
our Union Jacks will fly.

AGAIN THEY'VE TRIED
AND FAILED TO KILL,

THE FLAME THAT NEVER DIES

The above was printed in the largest newspaper in
the city of Bremen, Germany, in the memorandum section.

Dear Comrades,

Much loved and sadly missed, when we think of the best musician and a great friend and a true european patriot, we think of Ian Stuart. In our hearts he is still alive and he will always be on our minds.

Ian Stuart, REST IN PEACE, our heartfelt condolences go to his immediate family and friends, Ian, we'll see you again in Valhalla, From all the fans of Ian & Skrewdriver from Gelsenkirchen - Germany.

IAN STUART

Patriot

Dear Comrades,

The terrible news reached us on the 26.9.93 in the evening. We were horrified, and we are all still not able to grasp the full extent of what has happened. To us personally, Ian was more than just a good musician, he was for sure the father of right wing rock music in the world. With his untiring committment and his loyalty towards the movement, he was an example to us all. Throughout the years of being fascinated fans of Skrewdriver, one thing has become clear to me. It was Ian who showed and proved even to the Germans for many years, that nationalists have to stay together in solidarity. History shows us that the narrow minded behavious of many europeans has made our nations pay with the blood of our kin, in many wars. Ian was a true and honest european, who recognised the problems and has contributed to the fact, that now european nationalists are united more than ever.

I bow to our dead and sadly lost comrade, with the pride to have known him, to see him as a true son and soldier of europe and we all know the gods will be with him. Ian was one of the greatest sons of England. He does not linger amongst us now but in our minds he will live forever. True Germans Hail Ian! Our heartfelt condolences to all Ians family and Friends.

Marcus Ferbach & The Kempen Rheinland Skins.

From the Standarte Nordland Skins,

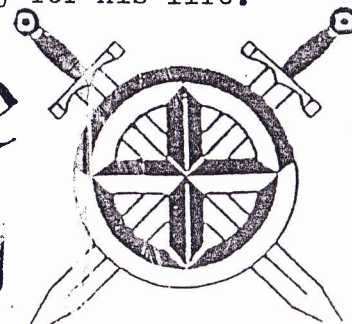

Without Ian Stuart we have lost one of the worlds most important leaders and idols for the white youth. He did lots to help the German Nationalists and awoke white youth in our fatherland.

We remember all the good concerts, we remember the fun and laughs we had with him, also the the important ideas he gave us, We are mourning Ian Stuart.

The best thing we can do now is to continue the fight that he fought so vigourously for his life.

SEE YOU IN VALHALLA - IAN!!

PENPALS...PENPALS...PENPALS...

To maybe start off a penpal column depending on you the readers British Oi! is starting off with a Derby Skinhead called Lee Slater who would love to correspnd with Skinheads male or female from the United States or from Australia. Lee is a avid fan of Fortress, BFG, Midtown Bootboys etc. So come on drop him a line at - Lee Slater, PO BOX 249, Derby, DE21 9EG, England.

OPPRESSION!

As you read this you will know that the much waited for and important gig that was going to be a great tribute to Ian Stuart was cancelled the very morning before the gig after one of the main London organisers was told by one of Scotland Yards most influencial bobbies that all hell would break loose if the gig went ahead.

Now this gig was one of the best organised events in a longtime with it really acting as a movement with several organisers around Britain and Europe only knowing a 'safe' redirection point and the odd person that didn't know one of these was directed to go to the open 'Free for all' redirection point. Now the opponents on the day as per usual were the rabble of drug users, dossers etc, daddies little rich kids from Universities across the UK, known to us as the Anti Nazi League, they planned to demonstrate against the gig, but where, they didn't know either of the redirection points, so why wasn't this classed as an illegal assembly?

Now on the day as mentioned Scotland Yard summonsed the gig organiser and banned him letting the event going ahead, a question the organiser put over was, why not let it go ahead, you'll know the venue, we'll all be contained in one place, no bother. This to you and me is a sensible solution to our and the police problems of policing on the day. Flatly denied and the old bill refused point blank, it would not go ahead.

Another question was asked, but why? Because of the threat to Public Order as the ANALS planned to oppose it along with the BNP also oppsing it. Honestly this is what was said. The BNP opposing it, who needs enemies with friends like this!

Now by this time its heading on for 12 noon on the gig day before the word gets out, that the event is off. Luckily quite a few British Skins were saved making the pointless journey south for it. But you had several hundred Londoners, Germans, Dutch, Swedes, French all milling about London. A long way to come to be let down. Sadness and anger at the news that the gig was off created scuffles and a bit of argy bargy with the old bill and the odd gang of Reds on the look out for the odd couple of skins.

By nightfall London is estimated to have had about 2000 nationalists there for the gig which is very surprising as the venue would only have held 800 at a squeeze. It is said a gang of tooled up thugs were ambushing unsuspecting little mobs of skins in full view of our lawmen. Also the rent a mob rabble of the IRA - Red Action were milling about with Balacclavas on with items such as hammers etc on themselves. WHY WEREN'T THEY NICKED ?

By this time quite a few pubs across London had large contingents of skins/nationalists in them. At roughly 9pm the police entered a public house in the interests of Public Order and started literally throwing there weight about, if you didn't move, you got it! All this for the sake of a gig. If it would've gone ahead the British Folk would have been none the wiser. A good gig, lots of beer drunk, so hence improving a blokes trade, good music and good night. But no at the beginning of the week, a advert on the behalf of the ANALS on the trendy multiracial kiddies show 'Reportage', by the way I thought advertising wasn't allowed on the BBC! It let loose with, the ANALS plan to smash our gig! Then a operation by the Police that must have accumulated a hellava lot of tax payers money for man hours! Listen to the voice of reason next time ?

Up in rural Derbyshire a get together did happen on the day and we were given a pub, well we took it over and had Skrewdriver on litrally all night which went on for quite some time. About 120 attended and a minutes silence was held in Ians memory with lots of shouts of Hail Victory, German style afterwards.

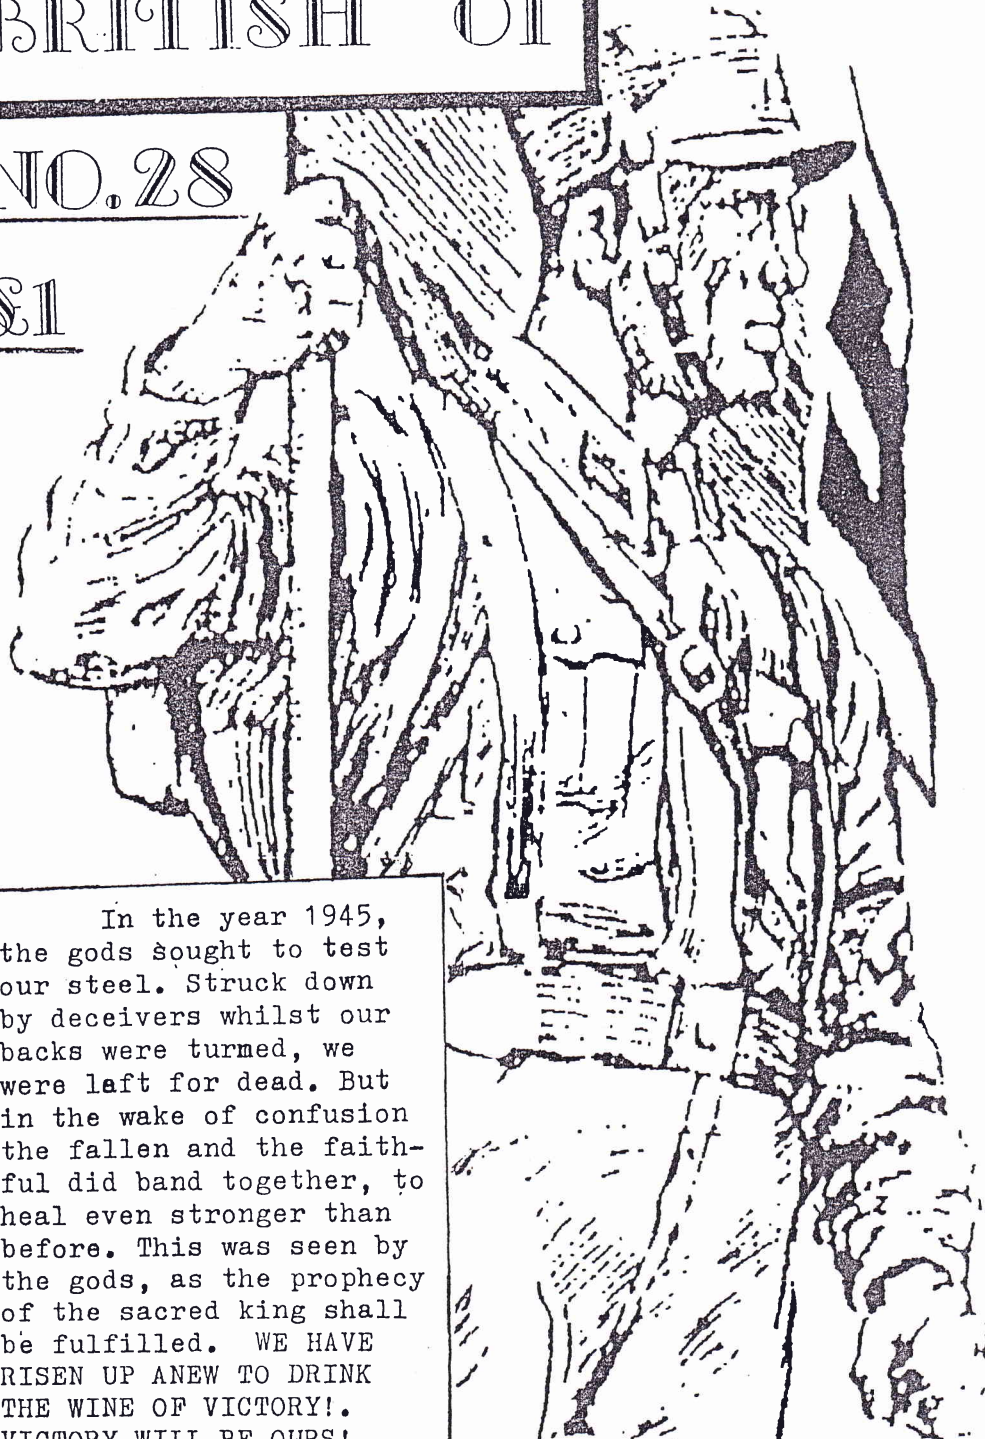

On the night the news came to us also that a contingent of the Midlands CIB had demolished a communist bookshop in a reprisal attack. Sadly the lads who did it got nicked but have all been bailed pending further enquires. We'll keep you upto date on the developments on that.

The British Oi! Team rounded off the night at a Derby Nightspot after what we thought was a ruined day ended up OK. Cheers to all the lads who had a good dance in the pub, and don't forget, the old bill claim a victory. They might have won the battle, but not the war!

EDITORIAL - British Oi! No.28 - APRIL '94.

Comrades,

Firstly, many thanks for buying this zine the longest running zine in the world. Cheers for the great response to No.27, now down as the best selling issue of British Oi! to date, which just goes to show that at this time in the important stage in our struggle loyal comrades are supporting a zine that gives you no nonsense news and lots of it. This issue contains the usual 'Right Handed News' and a return of the record reviews, which was missed out in NO.27.

The reaction to the article 'Oppression' in NO.27 proved interesting by the volume of mail we received on the topic of the unfortunately cancelled Ian Stuart Memorial gig. We had several blow by blow accounts of what really happened down in London and proved to what extent the government will go to suppress our great Blood & Honour movement and the strong pride behind our army of supporters.

While the police were chasing european nationalists around London, why weren't they bothered about real measures of policing, such as stopping

terrorism om mainland Britain. I mean, lets say 400 bobbies probably more but for arguements sake, 400 bobbies out to stop pure patriotism. Right, a huge pay packet, massive tax bill which we have to forfill, huge congestion of traffic in London as places were shut off and yet all for a gig. But recently three bomb site for mortars have been found around one of the worlds busiest airports and one near the Queens home Windsor, and yet MI5 have arrested noone or nobody. So to the state we seem more of a menace than the IRA and there left wing allies. Maybe one day we could put it to the British people and plainly ask - ' Will you allow these patriotic gigs '? 'And save thousands of pounds ? ', or, 'Shall we harass and cause mayhem to a oppressed minority'?. I know for my sake, I'd prefer reall policeman on our streets, out to smash marxist terrorism, stopping huge drug dealing in our cities, ensuring there is no, no go areas in Britain where British stock cannot walk freely. But thats just me, perhaps Joe Blooggs would prefer stopping a gathering of kinsman at a venue to pay respects toa fallen hero rather than stopping terrorism, but BRITISH OI! VERY MUCH DOUBTS IT!

And yet our government still persists in talking to the legal side of Terrorism - Seán Fein and disputing and squabbling over this and that. Even though as we've stated they have tried to cause more massacres on our shores. The loyalists in Ulster have been under this threat of terrorism for decades and have stood strong together and are beating it with their motto NO SURRENDER!

Another big debate within our world we are in is the battle of South Africa, the short fuse has been lit and the bomb will soon explode. The pictures the news media, both TV and Press, brought across to us of the sad fates of three proud Boer AWB men was a typical sign of the world wide oppression nationalists face. When do they show such gruesome pictures of ANC/Communist people getting slaughtered by Inkatha Zulus. They don't, only a small mention on the

and yet on our TV and in our press it showed a Boer a true son of Europe with his hands in the air admitting surrender to the troops and police surrounding him but cold bloodedly shot point blank in the head. The AWB have vowed to avenge each death of any AWB member and boy, they don't lie. Mr. Media - you may have a fat wallet for these scenes, but I hope your conscience is clear and maybe one day you will sleep in peace. Viva Eugene Terre Blanche!

Then we look across to the states, what have we there we have the zionist puppet Mr "Yes I smoked pot, it did me no harm" Bill Clinton as president. The scandal of his wife shredding important state documents and vast sums of money missing from business accounts is just the tip of the ice berg. The great US paper The Truth AT Last is great at pointing out articles as they say themselves ' News suppressed by the daily press '. Recently they have been exposing the life of Mr Clinton and especially the story over Clintons illegitimate child, he created during one of his many exploits with an african prostitute/drug addict. The Truth at Last points out now a large glossy type mag in the LA area has offered readers One million dollars if anyone can prove this little small half caste isnt Mr Clintons. Now downtown mags don't offer money for nothing. Its yet to become a huge news story but mark my words, it will. All this and hes the head of now the most powerful country in the world. Maybe Ross Ferot would've been a better President or David Duke.

Last but very least in this extended Editorial we would like to pay our respects to the four lost comrades namely Paul Casey, Brian & Darren Sheeley and Jason Oakes, sadly lost two years ago in a horrific car crash on the M4 motorway. Your spirits live on within us, Your burning flames will never dim, HAIL COMRADES!

See you next issue. Victory!

The Editor & Staff of British Oi!.

RIGHT HANDED NEWS!

Well whats going on within our scene, lets have a look.....

Hammer Records have been in touch with the latest developments from them, coming soon on the label is the debut LP from the enjoyable, no nonsense lyrics band 'Blank Generation' if you haven't heard the single 'Another Victim' get it. This debut LP should be out as you read this. Also a new Section 5 LP should be out within 2 months. The Straw Dogs have a new single out called 'Another World' much in the same vein as 'Dead On Arrival' but this isn't on Hammer but a yank label Krowbar. However Hammer are distributing it, for more info and sales, write to Hammer Records & Promotions at BCM BOX 1977, London, WC1N 3XX.

Helen of Oi! have also been in touch and tell us forthcoming releases include a single by Pressure 28 called ' You've Been Had' a LP by Cambridgeshires Another Mans Poison and also a split LP in the summer by the bands Braintance & Pressure 28. Helen Of Oi! can be reached at Flat 3, 15 Spring Gardens, Ventnor, Isle of Wight. H-O-O pointed out there label is strictly non political!

Meanwhile I.S.D Records the new label for the true Nationalist bands of the great island of Britain have reported to us a surge of support not through letters but the size of orders it has received for its first

SMASH COMMUNISM

Ian Stuart

release as mentioned previously in British Oi! No.27, the great Skrew-driver CD 'Hail Victory'. It has now gone in for its second pressing and out in roughly 2 months will be ISD's second release namely the long awaited third LP by Squadron 'Combat, Battle & Burn' which though due for release on Rock O Rama never saw the light of day. ISD will make no compromises to anyone and will release it with the lyrics in there original form, not the way Rock O Rama wouldve chopped and changed it to fit into Germanies tight race relation laws. The CD will include such great songs as 'Song for Europe (Der Sieg Wird Unser Sein)' 'Mr Media' 'The Elite' and lots more. Look out for it as it shows Squadron in a new light, still have some Skinhead type songs but the vast majority of the tracks are rock/thrash especially the track 'Death before Dishonour'. Buy it. ISD can be contacted through BM BOX 5608, London, WC1N 3XX.

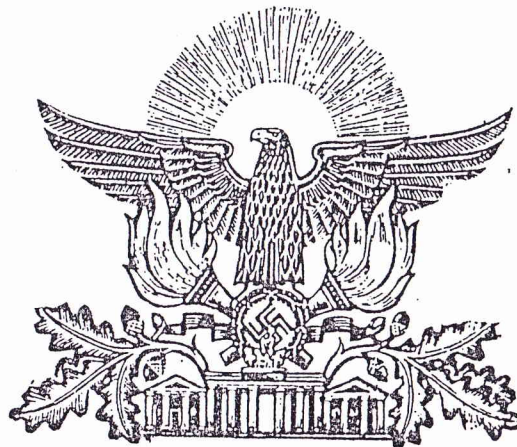

Razors Edge the 'making a name for themselves' band from the Birmingham area have just released there debut LP on new German Oi! label 'Di-AL Records'. The LP 'The Flag still flies' has some classic nationalist tracks on it. See record reviews. To contact Di Al write to PO BOX 2305, D91012, Erlangen, Germany.

New French Skinhead label 'One Voice' has two releases for sale namely singles by 5th Column tracks - Bordeaux and Tous Uns and 9th Panzer Symphony EP. Only 35FF inc P&P from D.Christian, 31 Rue des roquettes, 49500 Segre, France. More items expected to be on sale soon.

Another new label to have opened up for business is U.S.R Records of Germany, as of yet we don't know the address but forthcoming releases on the label include the debut by the hard hitting Czech band 'Buldok' amongst others. U.S.R stands for United Skins Records.

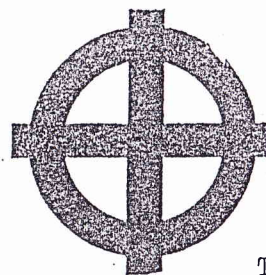

Another new label is fastly becoming a force to reckon with is the Swedish label 'Last Resort Records' who have four releases available namely :- Vit Aggression 'Death to ZOG', Division s 'Attack', Dirlewanger 'White Power, rock and roll', Odins Anglar 'Bla gult blod'. All of which have great covers especially the Division S cover which is also available in poster form and depicts a warrior slaying his foe, great artwork and a tremendous amount of colours incorporated into it. The Vit Aggression CD has a masked gunman on the cover, aiming his sub machine gun at you, this is a proper photo not a drawing with the title 'Death to Z.O.G.'. These can be bought via the great Swedish Skinzine/NS publication 'Blod & Ara' (Blood & HONOUR) along with an impressive list of NS marching music, speeches of the like of Robert Matthews, William Pearce and more. Write to Box 6035, S-151 06 Sodertalj, Sweden. Send a IRC for a list of goods. Staying in Sweden, patriots Ultima Thule made the British press in February when the Independant did a article about them and how they are spreading race hate through there music. Tell anyone who has listened to the music will know that Ultima Thule basically sing about Nordic Mythology and the magic that surrounds the topic. Whats wrong with a youth that love and are proud in there nations roots. Perhaps Take That in the UK could start singing about Arthur & the great saints of old. We beleive the only reason the press dislikes the band Ultima Thule is because they sell vast amounts of records which promote pride, and nordic pride at that, not the systems rhetoric of the perfect multicultural concept. So lets hear a cheer for Ultima Thule. If you'd like to contact them for news, merchandise then write to :- Box 3065, 61103 Nykoping, Sweden. Staying in Sweden band news is Dirlewanger have split up, not sure why but

they have. Swatika the band are busily getting there act together for forthcoming gigs and recordings after a short halt to there schedule as one of the lads was imprisoned.....there are two new bands who have emerged also called 'Brigad Wotan' and 'True Blood'.....Rumour also has it that Division S are working together with U.S band The Bully Boys.....The Swedish NS movement also has a new national contact address, White Aryan Resistance can be contacted at Box 2, 232 21 Arlov, Sweden, this is shortly known in Sweden as VAM!

Over to the U.S of A. Well at present I have no new news to report from the new record label Resistance Records except Bound For Glory should've recorded there new LP for them by now called 'The Iron Eagle Flies again'. I would've reviewed some of the releases from Resistance, but, as of yet I haven't received my order even though it was three months ago.

White Terror however have been busy and have released 4 CDs now, One as previously mentioned, the comp White Terror 'Declaration of War Vol.1' but now also CDs by The Midtown Bootboys 'The Time will come', Das Reich 'Triumph of the will' and Bound for Attack 'the CD co-done by both Bound For Glory and Brutal Attack. We can only guess the Midtown Bootboys CD is of the demo of theres which has been knocking about for some years, but really quite brilliant with the classic track 'Jutice - At the end of a rope'. They also have two tapes out - Vanguard 'Its time' and 'White Riot - Victory'. The Vanguard tape is the proposed LP due out on Skull Records but as they were ripped off, they have released it professionally on tape. Write to PO BOX EO, Garden Grove, CA 92642, USA or from the Canadian Wolfpack Services at PO BOX 8, 13143 Monk, Pierrefonds, Montreal, Quebec, H9Z 1TA, Canada. CDs cost 26 dollars, tapes 12 dollars.

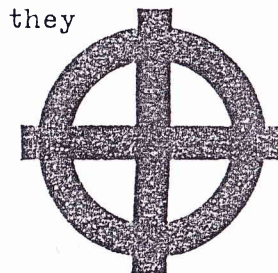

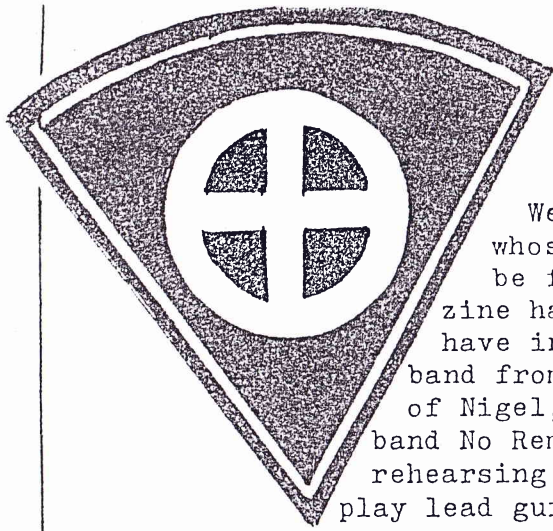

Its a good thing to hear of non Skinhead bands getting there acts together and promoting the views of Nationalism. The surprising news of ever popular Hardcore band 'Carnivore'. They have a track called 'Race War' which details a war in the not to distant future. They sell

T-Shirts with the Afrikaner Symbol (3-7's) on the front and on the back theres a drawing of whats supposed to be a Carnivore gig with a large audience of Skins and Metalheads all with the Afrikaner Resistance symbol on them. Carnivore aren't just in it for the shock value either, the lead singer Peter Steele is proud to tell his aryan beliefs to people, if asked on the matter. Good on you Carnivore, another band in the same vain and also perform the same 'Race War' track are thrashers 'Type O Negative'.

Thw.Nationales Presse Archiv (National Press Archive of Postfach 533, 15230 Frankfurt/Oder, Germany, were recently in touch and asked if they could have a mention to promote there project. The NPA are aiming to build up a huge archive of nationalist material from zines to books of every topic involved within the policies of National Socialism. It currently is setting up this aim, to combat the promotion and distribution of left wing material, initially to enlighten the German youth but with a aim to broaden its horizon with your help. Why not write to them and find out more. Send a IRC for info.

Have any of you out there listened to the Heavy Metal band 'Manowar', there lyrics are very stirring and heavily promote a sense of Nordic pride. British Oi! ventured to see them recently in Milton Keynes. Manowar have just completed a huge European Tour - The Agony & Ecstasy Tour, at Milton Keynes they dedicated a song to all in attendance who weren't Heavy types. it went out for all the skinheads that they welcome at there gigs and to all true europeans who they admire! They then went into 'Hail to England'. What a night, one to cherish. Manowar are officially the loudest band in the world!

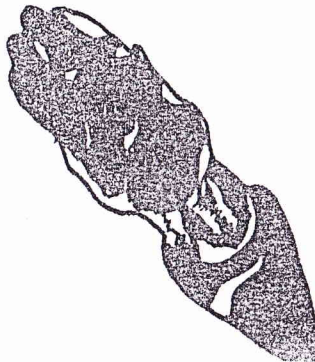

NEWS

Welsh heroes 'Celtic Warrior' whose address and lyrics can be found elsewhere within this zine have been busy lately, they have increased the size of the band from 4 to 5 with the addition of Nigel, the guitarist of Skinhead band No Remorse. Nigel has been rehearsing alot with the band and will play lead guitar. He has been a inspiration in the way there new material is turning out. New tracks by Celtic Warrior include the catchy White Reich, Brand New Day, Traitor, Land Race and Heritage, Fatherland, Wrath of Zion and a dedication song that goes out to one of the lads who died in the infamous crash of Violent Storm, its called 'We'll never forget(Jason Oakes R.I.P). Celtic Warrior were due to record for German label 'Skull Records' but have heard about there bad reputation and have signed a deal with new German label Di-Al. It should be out within 2 months as recording of the LP should be happening, as you read this. Catch Celtic Warrior if they are playing near you as they are improving and blossoming into a No.1 Nationalist group.

Staying down in Wales, British Oi! staff placed flowers at the grave of lost comrade and bassist of Violent Storm, Paul Casey on the recent anniversary of the crash. Wreaths laid at all the lost lads were laid by the Cardiff Blood & Honour Crew & Celtic Warrior. They will never be forgot.

A new zine has come to the attention of British Oi! and is well worth seeing and reading, its called Pitbull Skinzine and is available from Alex Billochon, 20 Rue Jeanne D'Arc, 59260 Lezennes, France.

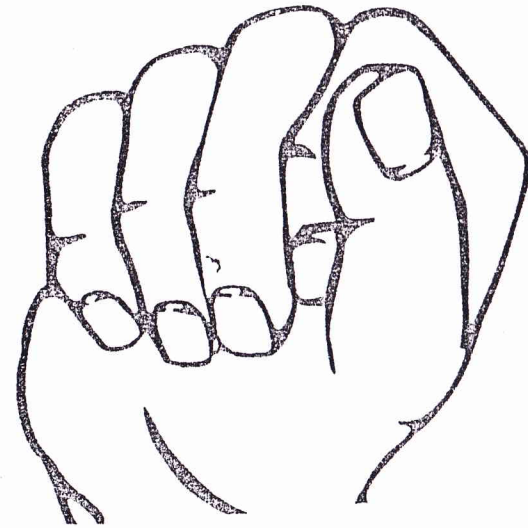

Well we all thought Gary Glitter was bad for making Comebacks but Brutal Attack sure do take some beating. It was said at the time when the great CD 'Ressurrection' by B.A was released, it was there last. Well they're back! Currently being recorded is Brutal Attacks 8th LP entitled 'Conquest'. 12 tracks are on it and its said to be bloody good. One track to watch out for is a ballad called 'Always Near', a great song all about Ian Stuart this track will also appear on the forthcoming I.S.D compilation LP of songs dedicated to Ian.

Squadron are busy getting material also for there 4th release and plan a single on new US label Krowbar.

British Oi! has received several letters asking about how to get vinyl releases as they have no CD player. Well basically, the larger labells don't use vinyl anymore. Labels such as ISD, Skull, Rock O Rama etc only use CDs. Some of the smaller mostly Oi! labels do vinyl but it is hard to come by, basically as a CD is cheaper to produce, although its price wouldn't indicate so! CD players can be found at every electrical store for as little as £80-£100, and most Stereos have the facilities to adapt to one. So keep up with the times and get hold of one now!

Before we end this issues news pages, RID mail order have informed us that they have two new t-shirt designs available, one a new Skrewdriver design, the other a I.Stuart memorial shirt. R.I.D have also redone the original Blood & Honour shirt, the one with the big red block across the chest with the large three 7s. R.I.D catalogues can be obtained for the price of a SAE to PO BOX 249, Derby, DE219EG.

Thats it till next time, See ya.

Reviews

Well we missed the reviews last issue
 and we apologise to the bands who we had
 promised to review. We've included
 everything we've had lately in this issue.
C.Ds

DAS REICH 'Triumph of the Will' - White Terror Records

A debut CD from one of the new up and coming US
 bands. Well worth getting hold of. They sound a cross
 between Bound For Glory & Skrewdriver. 10 tracks
 with the best tracks being 'Ballad of Earl Turner' &
 'A gun in my hand'. 9/10.

SKREWDRIVER - 'Hail Victory' - I.S.D Records.

Previously reviewed but it was sometime ago, now
 released I thought I'd give it a mention. Ians last
 ans some say best. 12 great tracks including the
 great 'House of Treason' 'Old Albion' 'White Noise'
 and more. £12.50 inc P&P from R.I.D products. 10/10.

RAZORS EDGE - 'The Flag still Flies' - Di-Al Records.

A great debut LP & CD from this good Birmingham
 based band. Also launching Di-Al records. 10 great
 tracks of rocky/Oi! music which includes crowd
 favourites such as 'Ulster Freedom Fighters' 'Jobs
 not immigrants' 'If you're Red' 'No Room Here' and
 more. Get it as Razors Edge are a force to be
 reckoned with! 10/10. Razors Edge can be contacted
 at PO Box 3324, West Bromwich, West Mids, b70 7NP.

HEROES IN THE SNOW - Viking Power Rock n Roll -
 Ragnarock Records Sweden.

Dirlewanger under a false name with there third CD.
 A false name as they are trying to enter the shops
 as a patriot band as Ultima Thule have done success-
 fully. This sounds like a cross between the Rolling
 Stones and AC/DC but with racist overtones. 10
 tracks that include 'Hail all the comrades' 'Crossfire
 'Riot' 'I stand alone' and more. Very high quality
 recording. Get it. 9/10.

VIT AGGRESSION - 'Dod at ZOG' - SCEA Records.

A long awaited debut CD by one of the most popular
 Swedish bands. A very good cover and a very good CD.
 12 tracks all in Swedish unfortunately but good
 musically. Tracks include 'Paraiter' 'Fosterland
 vakt' etc.

Vit Aggression cont...

other tracks 'I vilddjurets skugga' and more. A good rocky/Oi! CD 8/10.

DIVISION S - Attack - Blod & Ara.

A great CD from a fast progressing Swedish band. A great cover design of battling warrior. Only 9 tracks but its well worth getting. Tracks include 'Attack' 'Den Nya Avelin' 'Valhalla' 'En Hylling (For Bob Matthews)' and lots more. A very well produced rock band, heavy at times. Buy it. 10/10

BARSARKARNA - 'Ode to Ian' - Ragnarock Records.

A mini CD of only three tracks but a fitting small tribute to Ian Stuart. The first track 'Ode to Ian' is a smashing song and spells out Ians courage, his honour, his life. The second track is a remake of the S'driver classic 'Land of Ice' and the third 'Rape & Plunder' a vikings story! 3 corks. Get it. 10/10! All these CDs are available from Blod & Ara, Box 6035, 15106 Sodertalje, Sweden, priced £13 inc P&P.

ENGLISH ROSE - 'The Flame still Burns' Skull Records.

At last the CD we've waited nearly two years to see the light of day is out. English Rose have progressed since their debut LP Never Be Silenced and it shows on this CD. 10 tracks which include 'AWB' 'Rock Against Communism' 'Alive & Kicking' 'No fried of mine' and more. Available for £12 from Rampage Skinzine, address elsewhere. Get it. 10/10.

Singles & Demos.....

Odins Law - Demo.

A great 5 track demo from a up and coming Canadian band, includes tracks 'White Revolution' 'An eye for an eye' Back with a bang'

and the best track of the demo 'Erik Banks Lives On' a good tribute to the former BFG vocalist - murdered by scum. Odins Law are rumoured to have signed with Resistance Records but nothing on paper as of yet! (9/10)

NO REMORSE - European Skinhead Army - Demo for LP

Not a bad demo for the forthcoming LP. Some of it traditional No Remorse type stuff but some of it rock n roll 'ish and some rock. Quite a good blend. Tracks include 'Our honour is true' 'Another one bites the dust' 'Flame that never dies' written by Ian Stuart and more. 8/10.

STRAW DOGS - Another World - Krowbar Records.

A good two track single by the London Oi! band. In a similar vein as 'Dead on Arrival'. tracks are Another World and Millions like you. Get it. 9/10.

NOIE WERTE - Ein Harter Weg - United Skins Records.

A great track from Noie Werte is like a breath of fresh air. Now two tracks of them on this single is great. Tracks are Ein Herter Weg & Danke. Danke is my favourite out of the two. All profits from this EP will help pay fines of those imposed on bands like Radikahl etc. Buy it for £3 from Postfach 29, 15742 Wildau, Germany. 9/10.

BLANK GENERATION - Another Victim - Hammer Records.

A great single from this punky/Oi! band from High Wycombe. Another Victim details how a sick child molester should be hung up high. Great! The other track being 'No Consolation' A single that needs to be in your collection. 10/10.

BOISTEROUS - Harry was a hooli - Hammer Records.

Its not like British Oi! to critisize but this single says nowt! Two run of the mill Oi! songs from this Geordie band. Harry was a hooli & He died hoping. If you like Oi! you'll like this. I didn't. 4/10.

BRAINDANCE - Streets of Violence - Helen of Oi! Rec.

A well put together three-track EP by another Skin/Punk band, fast, furios, and good, tracks are Dirty Punk, Streets of Violence & They judge us. Get it. 8/10.

CLOSE SHAVE - 'Attack' - Helen of Oi! Records.

One of the worst singles I've heard to date. Thank god lurch didn't sing for them from the start. They've never been the same since Fluffy 'Gravel Voice' left the band. Well this single has no high point, only lows. The song Attack is about when Close Shave had a fight and got battered at a gig and as they can't accept that they have sang saying the other lads, who happened to be Skrewdriver Security are a bunch of cowards, I believe this was not so as we saw Lurch existing the hall fast with blood all over the place extremely fast, to slag down lefties etc is OK, but fellow nationalist skins is, well a disgrace. No wonder at a gig not long ago the crowd threw bottles at the band and chanted 'Razors Edge, Razors Edge! 0/10

British Oi! would've brought you more reviews, especially of the releases of Ristance Records material but as of yet after 2 months of ordering we haven't received anything, as of yet we are not sure if the letter and order arrived to them but its being looked into!

RESISTANCE RECORDS have a glossy magazine out now named simply ' Resistance ' and is quite a read. Its the White Power scenes Kerrang in quality etc. Covers news of all of there bands and interviews with Aryan, Das Reich, Swastika and more. To buy it, its 2 dollars worldwide! From PO BOX 24700, Detroit, Michigan 48224, USA.

C O N G R A T U L A T I O N S

British Oi! wishes the best of luck and congratulations to Flubs (Squadron Guitarist) & Fran who were married on St. Georges Day (April 23rd) in South London.

STIGGER

Well British Oi! brings you yet another exclusive article, its a indepth interview with one of Blood & Honours most talented guitarists, former Skrewdriver member Stigger, you know, the one with the long hair! Well stigger is in high regard in our movement after his deep involvement with Ian Stuart and there classic CDs 'Patriotic Ballads' and the heavy music of White Diamond. Well lets see what stigger has been upto.....

1. Could you tell us about your recent trip to the recording studio with Germans 'Noie Werte' ?

Yes, we went into the studio at the end of March, it is the follow up to the German British Friendship CD, with Noie Werte, me on guitar & Keyboard and guest vocals by Ken McCauliflower of Brutal Attack.

The tracks are called :- Freedom Fighters, Stalingrad which is a awesome song, a cover version of Tommorrow belongs to me which we made a little heavier, and also a cover of Better Dead Than Red which is worth listening to, if only for the solo which was played by Jimmy of Squadron. He had 5 seconds to fill in with a solo and you've never heard so many f****g notes in your life. I swear he took his shoes and socks off!! Flash bastard!

Another song Ken and I worked on after a crate of Hoffmeister, was one that Ken had the lyrics to a song, but it had lost its tune over the years, and it was too good a chance to pass up, so being the patriotic chaps we are, we gave it a new lease of life, are are very proud of the end result. The song is called 'Tell England that I love her' and its a cracker.

We finished the album off with an acoustic version of German British Friendship which was just me and Steffan and is a fitting song to end a great time with our German friends in the studio. I don't know when the release date is yet, thats Steffans decision as he financed the whole project and the record label has only just formed, so I don't know much on that, but its run by our own people so I hope they will give us value for money and keep the costs down as much as possible!

2. Rumour has it that you and Ken will record, could you tell us if the rumours are true ?

As I have already stated, we only recorded one track together (Tell England...) but it is possible that in the near future, towards the end of this year, I will go into the studio with Ken and record an album of folk orientated music along the lines of 'Tell England'. I have lots of music written and Ken writes some brilliant songs, and his enthusiasm in the studio tends to rub off on you so it seems like a natural progression to record something together.

3. Is it true you are going to form your own rock group which will do a few Skrewdriver numbers ?

I'd love to form another band or join an existing one but its finding the right people to work with and once you've taken away all the shitheads, the backstabbers and time wasters, that doesn't leave alot of people. I would like the sound to carry on from 'Hail Victory' where its more rock orientated.

As far as playing Skrewdriver numbers, I'm in two minds.

Alot of people and bands think its wrong for others to do Ians songs, which I tend to agree with if most of the set consisted of Skrewdriver songs just for self promotion. But the bands I have seen or heard of covering a song have only done one or two and have been done in the spirit of Ian, and a tribute to him, and everyone enjoys to hear them live again, so I see no reason not to play them. After all, it is another way Ians words and music will live on forever.

4. Since Ians death, how do you feel the movement has reacted, progressed/collapsed etc ?

I think it is only now that the state of the movement be assessed. I think it has sunk in the way that Ian isn't around anymore, and that if anyone was going to drop out they would have done so before now.

I personally don't know anybody who has called it a day because of Ian, quite the opposite infact. Alot of people who knew Ian are only know just learning his beliefs and have asked for CDs and want to come to gigs, since alot of people couldn't pay there respects at the time.

Everytime you see a documentary about the right wing in any country, be it Britain, Germany, USA etc you will always hear the name ' Skrewdriver ' mentioned, or at least see a 'Skrewdriver T-Shirt'. This is the extent of Ians influence on the white youth of the world. He did and will with his songs carry on doing more than anyone else, also its upto to us to make sure this gets carried on, if we don't Ians work will have been in vain.

5. As a Skrewdriver guitarist, which track is your personal favourite ?

From the older stuff, I love 'Showdown' 'Streetfight' 'White Rider' and 'European Dream'. The latter two I never got to play live, which is something I'll always regret. From the albums that I participated in, I have to say my favourite is 'Night Trains' from ' Hail Victory'. It was so easy to record with Ian and he captured the spirit of the song perfectly.

It has been said that Ian, being a Englishman, that how could he write about the lives and feelings of the German soldiers in such graphic detail ? The man was a genius!

Other favourites of mine are the ' Patriotic Ballads' version of ' The Snow Fell ' 'Takin our Freedom away' from the Klansmen LP and ' Outlaw ' from White Diamond. That about covers them all.

6. Have you any plans to do a solo LP as your voice was well received when you sang and played the tracks 'Wishing Well ' and 'No Mans Land' ?

I hate singing. I don't mind doing backing vocals or working out a tune, but my voice sounds like someones biting my nuts, so I'm not too keen. The only reason I did 'Wishing Well' was because it was too high for Ian to sing, so I got conned into it (Thanks Pal!), but seriously, I'd rather write the music and play guitar.

7. What are your aims over the next 12 months ?

Over the next 12 months, I hope to play live with a new band, also to have 2-3 recordings out. As I've already mentioned, the recording with Ken from Brutal Attack, and a third German British Friendship, so I'll keeping very busy.

8. Lastly, have you anything else left to add before we conclude this interview ?

Yes! I'd like to thank Jimmy, Brad and Lemmy of Squadron for the use of the equipment in London, Thank Ken and his missus for their hospitality, the invitation is extended to Notts. Thank Manowar for the brilliant gig in Milton Keynes! Yahoo! Thanks to 'Fat Bloke' for the interview and to everybody for there support.

Hail the Victory -- Stigger.

British Oi! would like to thank Stigger for the time taken to do this interview and wish him the best of luck for the future.

As soon as Stigger has material for sale R.I.D mail order will stock it, we'll keep you upto date on that. All the songs etc that stigger has mentioned are currently in stock with R.I.D - PO BOX 249, Derby, DE21 9EG.

Tracks include - Mr. Media, The Elite, Truth will Prevail, This ass we grind, two covers that are 'Skinhead' by the Strike and 'Blood of the Kings by the mighty Manowar. My favourite track being 'The Europe Song' or to me and you 'Der Sieg Wird Unser Sein'. 10/10. Buy it for £12.50 inc P&P from either BM BOX 46, London, WC1N 3X1 or BM BOX 5608, London, WC1N 3X1. Don't miss it.

WODIC THUNDER - NOEN TO HATE - RESISTANCE RECORDS.

A great CD with alot of power and aggression, well played and presented etc..11 tracks that include 'Back to Valhalla' 'United, White & Proud' 'Rising above all' 'My honour, my pride' and my favourite which is really catchy 'Fence Sitter' the tale of the liberals within our society. Also includes a cover version of Legion 88's 'We'll Overcome' which is good to hear in english. 10/10.

ARYAN - NEW STORM RISING - RESISTANCE RECORDS.

ROUND FOR GLORY - The Fight goes on - Resistance Rec.
The fourth offering from the best US act, and we've not been let down. 11 hard hitting nacial tracks which show us BFG in a new light, they're much heavier, this is located by the CD being digitally recorded, tracks include 'Time Bomb' 'Doctor Martin Dental Plan' 'Judgment Day' a great tribute to Erik Banks & Ian Stuart called 'Moment of Serenity/Facewell' and the impressive cover has photos of the two sadly lost comrades and my favourite off the CD 'The Iron Eagle Flies Again' which is a hard hitting classic, one to stamp along to. Can BFG improve on this? it'll take some doing. Its a must 10/10.

CELTIC WARRIOR - We will never forget. Dist Records.

Has the world gone professional all of a sudden, everything I hear is really impressive as is this CD, done by the Welsh lads. Very professional sound with great catchy tunes. Tracks include 'Worth of Zion', 'White Reich' 'European Dream' 'Fatherland' 'White Eagles' and my favourite which is 'Brand New Day' a great song, well done Billy and the lads, oh not forgetting the great Klansmen type track called 'Mississippi' which is a real gem. Get it 10/10.

and all of his men turned and charged. The shocked Soviets quickly retreated and the day was saved. Degraelle himself was wounded several times but always returned to his unit. After this Degraelle returned to Brussels in August '44 to a heroes welcome with over 100,000 cheering him.

A communist puppet government in Belgium sentenced Degraelle to death on 27.12.44. He continued his fight on in Estonia and Passau falling back to Norway when the war ended. Albert Spear had a getaway plane standing by in Oslo which he let Degraelle use. On VC day Degraelle and one aide took off for sanctuary in Spain. Without enough fuel for the long journey they had to make a crash landing on the border of Spain on a beach. In the meantime Degraelle's brother, who was never involved in any politics on the war was murdered by Reds in Belgium. Degraelle's wife, mother and father were thrown into prison mistreated and all three died. Degraelle's 8 children were adopted out and names changed. With the help of the Catholic church he was finally reunited with them all in Spain. Degraelle, ran a successful business, wrote several books on WWII and addressed many meetings. A reporter once asked Degraelle if he had any regrets about fighting in the war and he replied "Only that we lost". He held audiences with Patriots from who would travel to see him from around the world, as if on pilgrimage.

We never had the pleasure of meeting such a courageous hero, our race will surely miss him.

"Leon Degraelle, a man among men, a hero leader, and fighter for the RIGHT, his departure left this earth quieter as he found his way to the heavens".

For more info on Leon Degraelle write to The Youth At Last, PO Box 1217, Roselle, GA 30067, USA.

RIGHT HANDED NEWS!

SWEDEN From the 'Land of Ice' news as they are keeping very busy, both musically and politically. It stated in B.O.I No.28 that Last Record records was the main label in Sweden well actually it seems 'Blod & Ans/Svens Records and Ragnarock Records are producing more. Releases by these labels so far have included Vii Aggression, Division 3, a split Bully Boys/Div.5 CD, Heroes in the Snow, Odins Angles and Snakeskins. Also a comp. CD called Nordland 3 is out and read several reviews for more on that. Future releases include a 4 track mini CD by new comers 'Brigade Motan', No Remorse 'Forewell Jan Stuart 4 track CD that includes the little track, a remake of 'See you in Vallalla' and 'European Skinhead Army', a No Remorse/Swastika five CD, a Division 3 halft type CD called 'That the beauty of the Angel Woman will not perish from the earth', 'White Pride, World Wide Vol.1' with No Remorse, Bully Boys, Swastika, Eric Owens and 5 tracks from Resistance Records bands, 'Land of Ice' a compilation with Swedish bands which is a tribute LP to Jan Stuart.

WHITE

PRIDE

Woodland Vol. 3 and a single to the Angus Fund for Freedom (released by them) and a full length CD by No Remorse but these untitled as of yet. All CDs can be bought for £12 inc P&P from Holstead, Box 6035, 15106 Soderstolje, Sweden.

Mentioning the Bully Boys from the USA, the deal of making a split CD came about after Rusty the singer/guitar player was in Sweden and recorded it all himself, doing vocals plus all the instruments. However, Rusty is back in the states now and will be rehearsing with a full line up for a future CD, so watch out for it. The Orden magazine in London stocks a few of these Swedish CDs also, for a list of merchandise off them, send a SAE to BM BOX 5608, London, WC1N 3XX.

Also in Sweden the question over Ullima Thules patriotism is under question, they recently hosted a anti racist concert in Sweden. If this is so, then boycott Ullima Thule now. Rumour has it that since large record sales they have opened up there own record shop, they recently released a called type CD.

DENMARK - Well Danish Skinns have finally made a deal into the Skinhead world when recently the 'Danish National Front' organised the first ever Skinhead White Power gig in the country, on the 11th of June, 300 attended coming from Denmark, Sweden, Germany, Norway, Finland, Italy, England, USA and France. It was organised to celebrate the history one of the worlds oldest flags, the Danish flag of 775 years old.

Sveitika (Sweden), Bithannasia (Germany) and

Triumph of the Will

the time will come

Bound For Glory (BSA) were killed to play and did successfully until half way through when the Police arrived and announced that the German Skinns couch had been burned out by the left wing punks and other Red scum.

Things settled back down and Bound For Glory finished a great set but had a surprise for the crowd when Ken Reckless of Brutal Attack got on stage to sing 'Bound For Attack' which went well.

The gig finished on a high and a collection was made to help the Germans get home but luckily the Danish Police had already organised a coach for them and apparently the Germans donated the collection money to the Danish NF to help them carry on the good fight.

GREAT BRITAIN - In dear old Blighty whats been going on, ISO Records inform us the new compilation CD will be out within weeks and bands included are Razors Edge with tracks 'Against all odds & The Day its got to be', Squadron with tracks 'Final Salute & Build the new dawn' and People Matters from USA, Brutal Attack, a new band who I believe are called 'CIB' and possibly a band called Section 88 but thats not definite yet. This band is a line up of old Bullterons members (No Alex) and a member of the Aussie band 'Open Season'. To contact ISO for info on current releases, merchandise and future news write BM BOX 5608, London, WC1N 3XX, enclose a SAE. They have recently released the Squadron CD 'Combat Bitter & Bitter'.

Squadron have been busy of late with recording and gigs, they've recently played in Germany, see review, recorded for ISO (As above) and played

gigs in Co. Durham, in England and France with 5th Column and Viking. They have also recorded a single for new US label Knowledge Records (PO BOX 40183, Baton Rouge, LA 70833 0383, USA) with two tracks, namely 'Water Dem Nuts' (under the Swastika) and 'Just like sheep' which are in the same vein as the 5th Column mind under sea track off Combat Battle & Burn. Should be out in about 2 months. Knowledge Records already has stocks of singles by bands 'Max Resist, Straw Dogs, and Kunkwists 88'. Squadron can be contacted at 87 Box 44, London, WC1N 3BN, enclose a SAE for free merchandise list, they have new shirts out now.

CELTIC WARRIOR have also been busy recording their debut LP after all these years. Well it's been worth the wait, read reviews on that. They've played Sweden with No Remorse, but lost a member of their line up, Nigel, who has returned to Australia. However a new guitarist in a similar vein to Stigger and his rock style has joined as lead guitarist, they also have a new drummer as Clonkey the normal drummer is currently in prison. C.Warriors CD is out on Di-Al Records but can be bought from the band at the C.Warrior address elsewhere in the zone.

ENGLISH ROSE are temporarily out of action due to Johnny the vocalist getting sentenced to 18 months imprisonment, he will be released in February and the band will be back on the road. They did however record 4 tracks before Johnny was sent down and two appear on the ISO comp. Two will be on a single on a different label. The tracks are 'Voice of the right', 'You know our name - we're Blood & Honour', 'White & Proud' and 'Choose your side', the songs have a great lead to them and reminded British Oi of Condemned 84 but with the balls to sing about National Socialism, look out for these tracks. They have a new merchandise catalogue out soon available for a SAE from PO BOX 19, Coalville, Leics, GB.

BRITISH STANDARD - the Scottish band who have had some line up problems for a year or so now have seemed to have sorted themselves out, they have a new singer called Brad, and a new drummer called John, lets hope this time they can do something creative, WATCH THIS SPACE.

BATTLEZONE - have called it a day, not sure why but Alex Elliot the singer has also stopped doing the Live Last Chance, apparently things haven't gone to his favour recently, so a second LP by Battlezone has now been shelved.

RAZORS EDGE - are on a high after the release of their debut CD 'The flag still flies' and have gigged both at home and abroad, namely Germany. They have recorded for the ISO comp. but unfortunately have a line up problem after new Bassist Rick from Coventry has supposedly quit the band to concentrate on his marriage and a future family life. Lets hope R.E find a replacement soon. The tracks for the ISO comp. include 'Against all odds' a filling tribute from the Drumma kids to Ian Stuart, very catchy number.

NO REMORSE - I'm not sure what they are upto recently, alot of deals with Sweden record labels but no live shows but are apparently playing the Agony Fest. in the states this year.

GERMANY - As per usual more court cases have been brought against Nationalist bands. 'Triebkisten' had a hard time at Stuttgart's court after charges of granting these fans at a gig in Schwabisch with a 'Eieg Heil' and a NS salute. The charges alleged they were promoting the outlawed NSDAP and each member received prison sentences suspended for 6-10 months and fines of £186 - £1200, the local press made a meal of the situation and discredited the lyrics as listed with poor rhythm, the lyrics were "Arms folded fists clenched and always ready for a fight".

Also the brothers who run the label 'Skull Records' have been sentenced to 500 community work and fines of 18000 for producing the CD/EP by Heafstock which contained proscribed views.

Hamburg band 'Di Brownz' had their home searched on suspicion of racial hatred. Police found their first demo which contained a track called 'Neger Dreck' (Negro Filth), they were charged with inciting racial hatred, even though the band had already disbanded in late '93. The band members were sentenced to 24 months imprisonment (suspended) and fines of £200 - £400.

A relatively new band have made a impact on the scene with a great demo, they are called Rheinwacht, the band contains members of bands Stenkraft, Volkhaus and Sohee Onkelz, the demo is very patriotic but clearly stays within the limits of the tight oppressive racial laws within Germany.

Another new CD to make a impact is the Saccara mini CD 'Der Letzte Mann' (The Last Man) which has lyrics which could attract problems from the German authorities but we hope not, there previous CD is called 'Sturmfront und das vermachsen' (Stormproof and deep rooted). The band formed in '86 and the debut CD was the last war as mentioned above which appeared on Skull Records.

If your reading this and plan a trip to Germany, don't forget if your going, NOT to wear any outlawed symbols, as shown below.....

CZECH REPUBLIC - Well the Czechs have been busy. They've formed their own record label called 'Warriors Records' which is affiliated with the Hammerkins Czech Republic Branch. Their first release will be by Czech band 'Buldok' a CD called Fire and Ice. Peggion Amico played a gig over there to a crowd of 700 plus. All went without a hitch and apparently a helluva lot of beer was drunk by all.

Four skinheads were arrested over there for Sing Railing in public, apparently the first ever to be so after the government brought in tough anti racist laws.

A new unit of the Imperial Knights of the E.N.K. has also been formed and they are producing a regular magazine for members over there.

ITALY - Haven't really got much news from Italy as they always seem too busy eating Pizzas. One thing is that Peggion Amico have lost their boss player Andrea. Also P.A will soon be trekking to Great Britain to record a mini CD called 'The Italian British Friendship' which will also feature Stiggen, some of Squadron and maybe Ken of S.Attack.

CANADA - No band news, but sadly a Hammerkin named Sasha got shot by Police in Montreal but as of yet we don't know if it was fatal

U.S.A - So much going on I shall only point out the important happenings. Sound For Glory were on national radio both interviewed and music played, apparently the interview kicked some serious ass and was a good advert for the band and our cause. Incidentally BFG have a new merchandise catalogue out now so for more details write to PO BOX 6773, E.51 Paul, MN 55106, USA and for a list from the newly opened BFG Euro Services write to BM BOX 1933, London, WC1N 3XX. Always send something to cover postal costs.

Lastly in this issue news comes news of some of the births to nationalist families worldwide. A big hearty congratulations goes out to all those mentioned from the British Oi team, may your nights be sleepless.....

Sarah Marie, born 3.40am on 11th June in Mansfield is the new daughter into the family of Sean and Tracey of Mansfield, Nottingham, she becomes the sister of Kurt.

Josef the guitarist of Czech band Bulldog has a new son also named Josef who was born on the Fuhrers Birthday 20.4. Nice one.

Two births in the band of Sound for Glory, seems they've been busy.

Ed the guitarist had a second daughter on March 18th and named her Eva, making a sister to little Lisa. Meanwhile

Joel (Vocals) is proud to announce his wife gave birth to a baby boy on May 1st and named him Evan.

As we've stated. CONGRATULATIONS.

GIG REVIEW CONCERT IN CHERNITZ, GERMANY. JUNE 18th '94.

Upon arriving in Chernitz, we were greeted by the sight of an enormous hall, big P.A and at least 400 comrades and NO POLIZEI. A minor miracle in this day and age. So it was safe to assume that this concert was actually going to go ahead, as the bands warmed up we headed for the bar.

First band on were 'Elbstrum', the dance floor filled and the night began. A good tight band with a Rock/Oi sound, couldn't identify any of the songs but were very listenable.

Next up were the 'Boots Brothers' who now have four CDs out so they are obviously well known, cover versions of 'Chaos' and 'Sweet home Alabama' and a song called 'United Skins' which was very reminiscent of The Arresting Officers, and they were well received and the crowd slammed and pogoed along.

Then on came 'Oithamais' for a couple of songs, as I don't think all of the line up could make it, but still a few good catchy numbers and good to see a few bands turn up even though they weren't on the play list.

Onwards with 'Boitake Patrioten' apparently a new band but they must have alot of practice as they were very good.

Next up were supposed to be 'Swastika' from Sweden but unfortunately they were in the recording studio this weekend and hence declined to attend. Their replacement was 'Peggior Amico' from Italy who seem to have brought along 30 supporters with them.

So on they came and blasted into a 16 song set, with their fans chanting, saluting and battering each other to death on the dance floor.

MIDTOWN BOOTHBOYS - THE TIME HAS COME -
WHITE TERROR RECORDS.

The old demo from the Boothboys finally makes a CD, great stuff, good old catchy radical rock, tracks include 'Free the Order', 'Sleep Wall Rudolph Hess' and 'Bang Bang', I'm glad I have it. 10/10.

BAHWA - DECLARATION OF WAR - Resistance
Records.

The debut from one if not the best U.S or maybe Canadian I think bands on the scene, christ its hard hitting stuff and well played powerful music, I've had it on the CD player for weeks along with Nordic Thunder (See review later) as I love it. 11 tracks that include tracks 'White People Awake' 'Triumph of the will' 'Third Reich' 'Victory Day' and my favorite 'Avenge Bredden' the song that details the disgraceful bombing of innocent people of Bredden during WW.2. Don't miss it, the only low point is a remake of the Uptartars ballad 'Solidarity' done live which loses it completely. Still it gets 10/10. Can't wait for these lads to do a second CD.

AGGRAVATED ASSAULT - IT COULD HAPPEN TO
YOU - Resistance Records.

Sadly it did happen to me, I bought it, a CD which if you like non stop mass calling race chanting mindless lyrics this is for you, this is the non thinking mass CD. Tracks include 'Kill a Red' 'Get out' 'Fetch the Rope' 'Sieg Heil' and the only number I like 'Aggravated Assault', I suppose its part of my collection. 6/10

ITS THE YOUNG WHO WILL
BENEFIT FROM THE FIGHT
THAT WE ARE WAGING
AGAINST THE SYSTEM NOW.

THE VOICE - VERDUNKELN - Resistance
Records.
The debut CD from a up and coming US band with something to say, good music, good lyrics. A credit to call them a radical white rock group. Tracks include 'Blue Pride (A old U.S.A track), Warriors Call, White Warrior, Storm Rising, Bring down the Hammer and my favourite 'Revenge' which I could guess would be a crowd pleaser at live gigs, fast and furious. Get it 9/10.

BLANE GENERATION - OUT OF MY HEAD - Hammer
Records.

A debut from a new British Oi band from Buckinghamshire, it follows the release of the great EP 'Another Victim' and its no let down, fast and furious, this skin/punk outfit play with alot of viciousness. Tracks to look out for are 'Problem Child, Violent End, Out of my head, and Ain't life grand. from Hammer, BM BOX 1977, London. WCLM 3XX. 9/10.

Denmark has a great new outlet for videos in the form of NS '88' videos, who do all the different varieties of video to suit any country, VHS Britain, etc etc. They have a fully comprehensive list which includes - Storkraft, Skrewdriver, Bound For Glory, Celtic Warrior, Squadron etc etc and political rallies, such as KKK Fests etc. For a full list write to NS 88, Poste Restante, 3400 Hillerod, Denmark, new videos being filmed and released constantly.

South Africa for all your AWB memorabilia - Pendants, Patches etc or just for the latest AWB bulletins write to: Mrs M Terre Blanche, PO BOX 274, Ventersdorp, 2710, South Africa.

The AWBs newspaper 'Sweepslag' is a great read, most articles are in both Boer African & English and the photos of the all the marches, freedom of towns etc are stunning, Support the AWB. They are really fighting at the sharp end, so any donations etc for receiving newsletters are greatly received by them.

ITALY have been busy lately, it seems our point of them eating too much Pizza has prompted some of Italies finest to get in touch and tell us whats going on.

Peggior Amico have just released there new CD entitled 'Sulla Pelle Dei Ribelli' into English means 'Ready for Battle' and is a smashing CD, really powerful stuff and although its in Italian they have provided at the back of the lyric booklet a english guide to all the songs which is great.

This is on Tuono Records, CP Succ 6, 36100 Vicenza, Italy for £12 inc P&P. Also out on Tuono is the new nationalist band 'ADL 122' single which is also very good. Future plans for Tuono include a Nomina Dresda single and Londinium SPQR single, the latter being Italians living in London.

Another band making a name for themselves in Italy is Corona Ferrea which in the next issue we will hopefully bring you more of.

However Tuono seem to be the main organisation in Italy and are actually a part of the Veneto Front Skins organisation, represented of course by P.Amico. Tuono also carry an extensive catalogue of skinhead records from Oi to Skrewdriver. Check them out.

Tuono records has also organised a memorial gig for Ian Stuart that took place on 17th Sept with disco and ADL 122 and Gesta Bellica. As of yet we have no report of how it went.

SWEDEN well quiet for the time being except that Issue 3-4 of Blod & Ara, Swedens Blood & Honour is out and wow, what an issue, complete with some amazing marching photos of VAM I think. Address elsewhere. Also in the forthcoming months a major new project shall be sprouting up, based in Sweden. More on that as we get it. Sweden has also staged a Ian Stuart memorial gig with Swastika headlining. By the way, the Blod & Ara if in english, would probably blow away any other competition from any other mag, its truely a radical NS read.

GERMANY well has been quiet or at least for the British Oi reporters based out there. Friendship Records have released Part 2 of 'German British Friendship' which has 7 tracks and is brilliant. See reviews. This can be bought for £12 inc P&P from RID PO BOX 249, Derby, DE21 9EG, GB. It includes Stigger, Ken McLellan, Jimmy of Squadron and Germans Noie Werte.

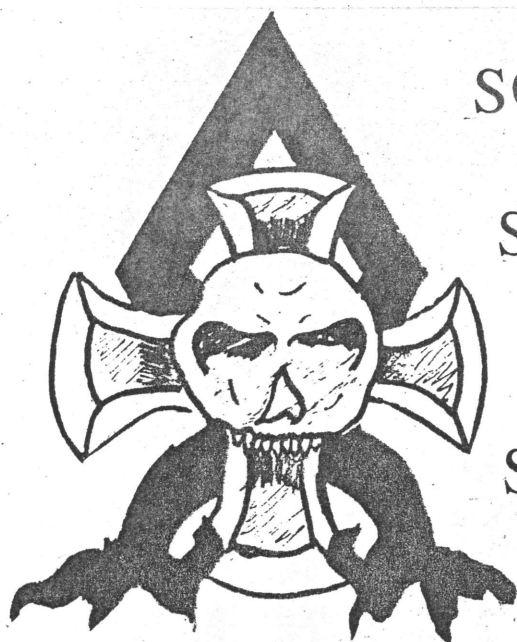

A well organised gig also went ahead in Berlin on 17 Sept with 4 bands playing that included 'Noie Werte, Radikahl, Razors Edge with Martin Cross on Bass, and Celtic Warrior.'

This is it for this issues 'Right Handed News' but next issue we'll be back with a whole lot more including a indepth scene report on the USA bands if it works out OK. Anything you'd like to include, then help British Oi out and send it in.

2 Hours on a plane and you're in the land of the vikin, "Hearts of Fire, Land of Ice" ringing in my head. Such a beautiful place, the air is really fresh, and more importantly, there are loads of skinheads - Great.

The concert itself was held in the centre of Stockholm, with all the audience assembling at the local 'Skinhead Barracks', which is a club/bar supplied by the government for Swedish Skins. I know you're thinking, it's a joke but seriously it's the truth.

A really nice venue, big stage, another enormous P.A. system and a good crowd of over 400 comrades.

The clock struck 7.30pm and a young Swedish band "Asa" hit the stage, good Oi sound with good vocals, they rocked the crowd for about 40 minutes, all the songs in Swedish but they were good and really tight.

About 8.30pm, Swedish heroes 'Swastika' took to the stage, an impressive bunch this lot, they've played very regularly this year and their commitment and dedication is obvious. Song after song thundered from the speakers, and then they burst into Skrewdrivers 'Streetfight', great version, they also covered 'After the Fire' which was great too, I understand they are recording an album soon, which should be great.

Swastika played for about an hour and then 'Squadron' hit the stage. After 10 minutes of the usual feedback, Jim got his guitar sound right and they flew into 'Take the Sword' which was well received - "Come on Sweden....Hail the New Dawn", the whole crowd pogoed to this Skrewdriver classic and they continued to dance through 'Burn the books', 'Master Breed', 'White Law', 'R.I.P.', 'No Red Flags' and newer songs like 'Mr. Media' and 'Der Sieg Wird Unser Sein' which were also well received.

Disaster struck when Jim broke a guitar string during 'Behind a White Mask' but Swastika were on hand to lend Squadron a guitar. A very new song followed called 'Just like Sheep' which is a track about how the immigrants are basically cannon fodder to the Zionist scum and their commie partners, a real rocker that one, the crowd loved it. 'Voice of Britain' kept the crowd dancing and then the end of the gig came Ian Sturges' memorial track from the lads 'A final Salute' which slowed the crowd down to a sea of raised hands in tribute to Ian, remembering the good times he gave us.

Rocking For Race And Nation

Squadron played for about an hour and a half, and the atmosphere in the gig was great. The police had turned up outside but basically to observe evryone as they left, so once again, a great gig, no trouble at all, very, very well organised with about 25 security, all clearly identified by their t-shirts - Nice one.

Sweden actually has 10 night clubs that just play Heavy Metal, infact they have a radio station that just plays heavy metal, lucky bastards.

I saw the bands and a gang of other Swedes along with Rusty of The Bully Boys - USA, and Nick of Div.S head off to a club where apparently they didn't emerge until 5am the next day.

A great time was had by all and Squadron would like to add, a big thank you to everyone concerned with organising the concert.

Hail Sweden - Keep on Rockin.

SQUADRON - A FINAL SALUTE.

A man once told me, there was no justice in this world today,
And that freedom was corrupted, and there was a price to be paid,
And as I listened, he spoke, and I learned from what he said,
And I still recall the pain, when you told me he was dead,

The loss of any brother is a bitter pill to take,
But to stand in silence and hide your views, is a bigger mistake,
You always told me to be proud, of the things that we believe,
always stand up and be counted, don't live life on your knees.

Chorus.

You were the Warlord, the spearhead of our cause,
You were the White Rider, who rode with, the Gods of War,
You were the Patriot, the fire burned deep in your eyes,
We'll carry on your songs 'till the day that we die.

Now you are with us forever as your spirit still lives on,
Just like all our other heroes, that we've ben parted from,
I know you're in Valhalla and you watch our nations pain,
You can see the struggle continues, you didn't die in vain.

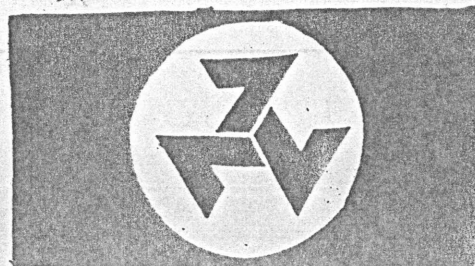

Chorus.

Ian Stuart, You were taken away,
But they'll never silence what you had to say,
24th-9th-93, engraved in my mind,
We'll carry on the songs till the day that we die.

Freikorps

The following article is written by Kai the Freikorps vocalist, who are a great band from Germany :

Freikorps formed in 1988, the reason being there were alot of NS skinheads in our area, Lubeck, but no band.

After some local gigs in our region we started to gain support from fellow skins and have created a good loyal support from hardcore N.S skins. We went into the studio and recorded our first demo tape '*Rock Geggen Links*' which we sent of to Rock O Rama records to see if we could get a deal. Herbert of R-O-R promptly phoned us straight away, he liked our music and gave us permission to enter the studios again to do our debut CD. We recorded it at the legendary Hawkeye Studios where bands like Storkraft, Werewolf, and Endstufe have recorded music. Our debut CD '*Land Meiner Vater*' came out in 1992, late due to Herbert delay the release all the time.

After this we received letters from all around the world, stating they liked our style and music, as a band we were surprised, as we never thought our first CD would be a success. So this inspired us to write new, more powerful better songs for our second CD and at the beginning of 1993 we entered the studios again and recorded '*Immer Rewig*', this eventually was released at the end of '93 in December and has already sold well over 10,000 copies, which we beleive is good for a German NS skinhead band.

Our best gig so far with our band has to be the one in February '94 in Bremen with Endstufe and The Boots Brothers, as there were over 1000 Skinheads there and after our first song almost all of the crowd sang along to every song with us.

Currently our third CD '*Wie Die Wikinger*' is in the works and also a solo CD of mine, which has a guest appearance by Ken of Brutal Attack who sings one track on it, this will be out in late October on Excalibur Records (Postfach 100672, 44706 Bochum, Germany).

Freikorps have and always will be a White Power Skinhead Rock band, we will never sell out, Cheers for reading this,

Kai - Freikorps.

Nordic Thunder

Well Nordic Thunder have now become one of the freshest new acts to come out of the USA after the release of their debut CD 'Born To Hate' was released on US label Resistance and so British Oi sent them along a interview to find out more.....

Interview answered by Ryan.....

1. When, why and where did you form?

Nordic Thunder formed in '92 with my brother Bob, a bassist called Eric and myself. Since then we've had many changes, our current line up is : Joe-Vocals

Bob-Guitar, Craig-Guitar, Mike-Bass and Myself (Ryan) on Drums.

2. What cities do you originate from and is there a large National Socialist presence there ?

We're all from the Tri-State area (Delaware, New Jersey, Pennsylvania) where the scene is pretty big, there are other bands in the area such as Aggravated Assault & The Voice and we usually get together on the weekends.

3. About your CD 'Born To Hate', are you happy with it ?

I think our CD turned out pretty good, Resistance has done an excellant job on all of their CDs, very high quality etc. The best tracks I think are 'Never Backdown, My Honour My Pride, and Back to Valhalla', and as far as we know its selling well.

4. You've also released a self financed single 'A change of scenary' what future plans have you ?

After recording our CD we recorded a track for the 'Hammerskin Nation' single and released our own 4 track single as mentioned, this has been received by our people really well, as of yet our future plans are either a new "7" or CD, we're not sure.

5. What gigs would you say have been your best/worst ?

We've played a number of different gigs over the years and the best I think was with Brutal Attack in the summer of '93, I can't think of any we didn't like, we have fun either way. We've just done a gig with BFG in Georgia and at present have no more planned.

6. In the U.S, what was the general feeling when Ian Stuart died?

Ians death was a great shock to all of us. Hes influenced everyone in the NS music and will forever. He will be remembered as a great man and musician. His spirit lives on in all of us.

7. Which U.S political Parties/Groups do you support ?

There are alot of good things happening and groups worthy of support, ones worth looking into in the states are : NS Vanguard, Confederate Knights of America, Combat 18 and C.O.T.Creator.

8. In Britain we still aren't sure what being a member of a Hammer-Skin unit is all about, tell us ?

Hammerskins are basically a brotherhood of Skins dedicated to the N.S cause, we are groups who support events such as gigs, rallies etc, our group is one of many and we are a tight network.

9. Which bands on todays scene to you find the best/worst ?

Some of my favourite bands today are - British Standard, Skullhead, Aggravated Assault, Das Reich, Freikorps (Germany) and Action Dissidente from France. The only ones I hate are the ones who haven't got the guts to sing what they feel and refuse to speak there minds. In some countries you legally have to be a bit tactfull but in the USA you have no reason not to say what you feel.

10. Do you plan another CD on Resistance ?

We would like to do another CD soon but no plans as of yet. It could be called 'As the tension grows' but we're not sure.

11. Will the new material be in the same style as Born to Hate ?

Yes it will be in the same vein, although I think we've grown better musically, some songs a little faster, our next CD will blow the old one away.

12. What future plans have you then ?

Mainly to play more gigs and do a new CD.

13. Any closing comments ?

Cheers to all the British NS Skins, write to us. Remember Ian Stuart and never give in, Wipe out ZOG, cheers to British Oi.

Cheers to Ryan and Nordic Thunder for the interview and good luck. For more info of merchandise etc write to N.T PO Box 9441, Newark, DE 19714-9441, USA. They have several t-shirts and you can buy the singles and CD also from them.

ANSWERS P.13.

GERMAN BRITISH FRIENDSHIP Vol.2 'Songs of Hope'.

Great to see a follow up to the previously successful mini CD on Skull Records. This is great. 7 tracks, 4 in English, 3 in German. The people involved in this project are Stigger, Ken of B.Attack, Jimmy of Squadron and of course Noie Werte. Tracks include 'Stalingrad, Der Morgige Tag ist mein, a remix of German British Friendship' and the best of all a beautiful song sung by Ken called 'Tell england that I love her'. Roll on No.3. 10/10. Available for £12 from R.I.D PO BOX 249, Derby, DE21 9EG.

BOUND FOR ATTACK - 'Bound for Glory & Brutal Attack' - White Terror Records'.

The long awaited CD from these two well known bands, and what a wait. Only 7 tracks but each is a masterpiece. Tracks include 'Bound for attack' 'Calling Out' 'The Fear' a comical remake of 'Bad moon Rising' entitled 'Race war Rising' and the best track on it 'All Hail' which incidentally includes Ed the BFG guitarist singing in German. Heavy stuff. 9/10. Available for \$24 from White Terror, PO BOX 212, South St.Paul, MN 55075, USA.

BLOOD & HONOUR - Comp.Vol.1. ISD Records.

The first of many compilations planned by ISD and this is well worth getting. 20 tracks all in all from bands such as Skrewdriver, B.Attack, Squadron and more. Tracks to watch out for on it are 'Old Albion' 'Final Salute' 'Against All odds' 'Push On' and lots more. People moan about short CDs, well this is over 70 minutes of music and still only £12 from Squadron Services BM BOX 46. London, WC1N 3XX. Watch out for Volume 2. 10/10

'Thunder in the North'. Comp. tape. White Terror.

A compilation by White Terror composing all of Canadian Hammerskin bands and to me was my first introduction to all of the bands on it except Torontos 'Odins Law'. Features 6 bands namely 'White Riot, Excessive Force, Involved Patriots, Odins Law, Negative Response and Ragnarok'. All show great potential and are quite thrashy based bands. One track on it is a must to hear, called 'In Blood, In Faith' by Ragnarok which is a gem. \$14 from the White Terror address above. 8/10

PEGGIOR AMICO - 'Sulla Pelle Dei Ribelli' - Tuono Records.

A great debut release for Tuono Records from the mighty Peggior Amico and what a CD. The language barrier is a problem but the sheer ferociousness is great. Really tight music, obviously well rehearsed. Tracks include 'Peggior Amico, Stato Di Polizia, Osa, Pronti Per la battaglia' and more, best track for me 'Giornalisti Terroristi'. 9/10.

BRITISH Oi - Number 31

WINTER 94.

Welcome to this the 31st issue of British Oi Skinzine, the longest running and best zine in the world. We have progressed into a formidable force over the last few months and have increased our readership by 50% and are gaining more by the day. So thanks for supporting us.

This issue brings you the sad news about Joe Rowan the singer with Nordic Thunder from the USA who was shot by a vicious immigrant thug in a brawl at a late night shop on his way home after a gig. Yet another sadly lost comrade, or to put it into the words of Bound For Glory's Ed the guitarist "I'm still in disbelief, he was such a happy guy, he was a good friend of BFGs and had spent many good times with us, now his 2 children are fatherless because of the scum who took his life". Ironically Joe was on his way home after attending the Resistance Records organised gig in memory of the White Rock legend Ian Stuart.

Rest in peace Joe, you have your seat next to Ian in Valhalla. Your spirit lives on with rage within us.

British Oi No.31 is dedicated to Joe Rowan who died on Oct.1 '94 murdered by scum.

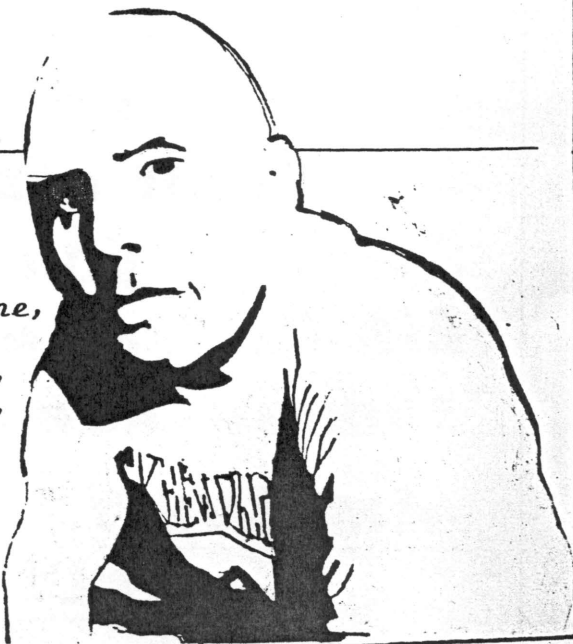

Until next issue, enjoy the zine and keep up the great support. Victory will be ours.

The British Oi Team. 88 - 14 Words.

IN MEMORIAM.

"Ian Stuart 24.9.93,
One year on and the pain hasn't gone,
The battle continues,
You feast with the gods in Valhalla,
Your fire is in our hearts forever,
So my good friend good-bye,
Until we meet in the sky"

British Oi.

Taunts, then shots

The above headline 'Taunts then shots' was featured in the local Wisconsin newspaper reporting on Nordic Thunders vocalist 'Joe Rowan's' death, the sub headline was 'Supremacist is killed in racial confrontation', we would have reproduced the whole article but our copy of it was quite poor quality. It went on to report.....

'A New Jersey man after attending a White Supremacist concert was shot to death early on Saturday morning during a confrontation with black customers in a late night shop. A black man, Naseer Ghani, 19, of Racine, Wisconsin was arrested on a charge of third degree murder in connection with the slaying.

Joe L. Rowan died soon after the shooting at 2.15am at a near hospital from wounds sustained in the left side of his body below his shoulder.

Ambulance crews arrived to find Joe on the back of a pick up truck and rushed him to hospital.

After several hours of questioning, the police charged Ghani and kept him until late Saturday but later released him of all charges with his lawyer stating "the supremacists on the scene basically pointed out the only black man on the scene". "Ghani claims two blackmen who speeded off in a car were the killers". Ghani the Police later revealed was wanted on a outstanding warrant for battery on his girlfriend but except this had no criminal record as a adult.

This is how we feel.....

Joe has left behind a wife Shiela and two beautiful young children, a three year old son Gavin and a 3 month old baby girl, Kelsea. He died on his 22nd birthday.

Although Joes mates on the scene witnessed the whole shooting etc and formerley identified the black killer, the Police have done little, well nothing to Mr. Ghani. So it seems you do even murder white people now and get away with it, where is justice, well British Oi will leave that with the Hammer Skins of the USA, they must make justice prevail.

I now quote what Joes wife Shiela had to say to the press....."Joe was basically only shot as he was a skinhead. Its a shame that somebody elses life without thinking about that person, if that persons a father, and they just shot. He had a really close bond with his son, how do you tell your 3 year old that his father isn't coming home."

Joe and Shiela had been married since '91 after a relationship lasting 6 years.

Joe was a talented motor mechanic and a great musician who made great music, check out Nordic Thunders CD 'Born To Hate' from Resistance Records.

If you would like to know more about Joe or Nordic Thunder then write to Nordic Thunder, PO BOX 9441, Newark, DE 19714-9441, USA.

Or if you would like to send any messages to Sheila Joes wife or donations etc to help the family out, write to Sheila Rowan, PO BOX 4, Newtown, PA, 18940 USA.

British Oi recently sent Sheila our deepest condolences, she wrote.....

"British Oi, It was nice to hear from you, I know Joe is happy to see how much he was loved and respected, hes probably bragging to his comrade Erik Banks. Thanks again for taking the time to write to me.....Sheila & Gavin & Kelsea Rowan".

IAN STUART — Remembrance Gig!

The time had come for us to commemorate the death of our lost leader. This year we knew it would go ahead with some shrewd precautions being taken over the redirections etc. And went ahead it did. We travelled down the M1, M25 etc until we hit Sheerness in Kent. Upon arrival at the venue we realised how many had actually got there, roughly 500 I guess of all nationalities - German, Italians, French, Swedes and of course Welsh, Scottish, Ulstermen and the English.

First band on were the French band 'Bifrost' who started at about 7.30. They played for about $\frac{1}{4}$ of an hour and the crowd liked them although the language barrier made understanding them a bit difficult. But they played a tight heavy set.

Next up were 'ADL 122' from Italy who had brought a large contingent of followers and they played in the same vain as Bifrost, gruff singer powerful music, good band.

On came Noie Werte & Stigger on guitar, they were performing hot off the release of the second German British Friendship CD and played a blinding set including 'German British Friendship' which had the crowd singing along and dancing. They played for about $\frac{1}{2}$ an hour and did great.

Next up Welsh lads 'Celtic Warrior' who were really on form. Thundering bass, heavy guitar, these lads meant business. They played tracks off there new CD like 'Brand New Day' (Dedicated to British Oi) 'White Eagles' 'Wrath of Zion' and favourites such as 'Combat the Nation' 'Land of my fathers' etc. C.W are really getting there act together and play some great music and Billy's talents as singer are shining through. The crowd went wild to them.

Next up were Squadron who because of time had to cut the set short but blasted out the crowds favourites with Jim the singer getting the crowd going well. They played the tracks 'No Red Flags' 'R.I.P' 'The Final Salute' 'Hail the new dawn' and a cover of 'Hail Victory' which sounded great. Well done Squadron. Jims vocals and guitar skills will progress this tight little group into White Power stardom.

Last on were Razors Edge, who like Squadron had to cut there set due to the shortage of time. The played the tracks 'U.F.F.' 'No Room Here' 'Jobs Not Immigrants' and a couple of covers tracks including 'Free my land' which had the crowd going mental. Andy had all the crowd singing along waving banners etc.

After 20-30 minutes of chatting to all and sundry the gig came to an end. A great tribute to Ian, the venue incedentially was awash with our banners and flags and it looked great. No trouble, lots of great music, lots of cheap lager. Roll on next year.....

Germanies

Noie Werte

Well heres a band who since they formed a few years back have gradually built up a loyal German following and have made friends all over Europe with there great music. Interview conducted with Steffan - Noie Wertes' vocalist....

1. When, why and where did Noie Werte form ?

We formed in 1987 and all come from in and around the Stuttgart region of Germany. Our current line up is Steffan on Vocals, Kay - Drums, Olli On bass and Michael on Guitar. This is a steady line up.

2. What did you think of the British 'Ian Stuart Memorial gig' and how were you received by the crowd ?

It was a great gig and with some good bands, all of the crowd were great and the organisers did a fine job, especially getting the gig to go ahead under the current pressure from the state but it was a great tribute to Ian. A big thank you to our British comrades.

Concerning our set of songs, well I think the people liked them especially the German British Friendship track which had everyone singing along.

3. What other gigs have you recently done ?

We played a gig in Chemnitz thats in Middle Germany with Razors Edge and Celtic Warrior from Great Britain which was great. About 700 people turned out for it and made it a night to remember.

4. How is the German British Friendship Pt.2 selling ?

Its going better than expected and is getting good reviews from the world over. The mix of German and English lyrics pulls in a large sales market and spreads the nationalist word out to more folk.

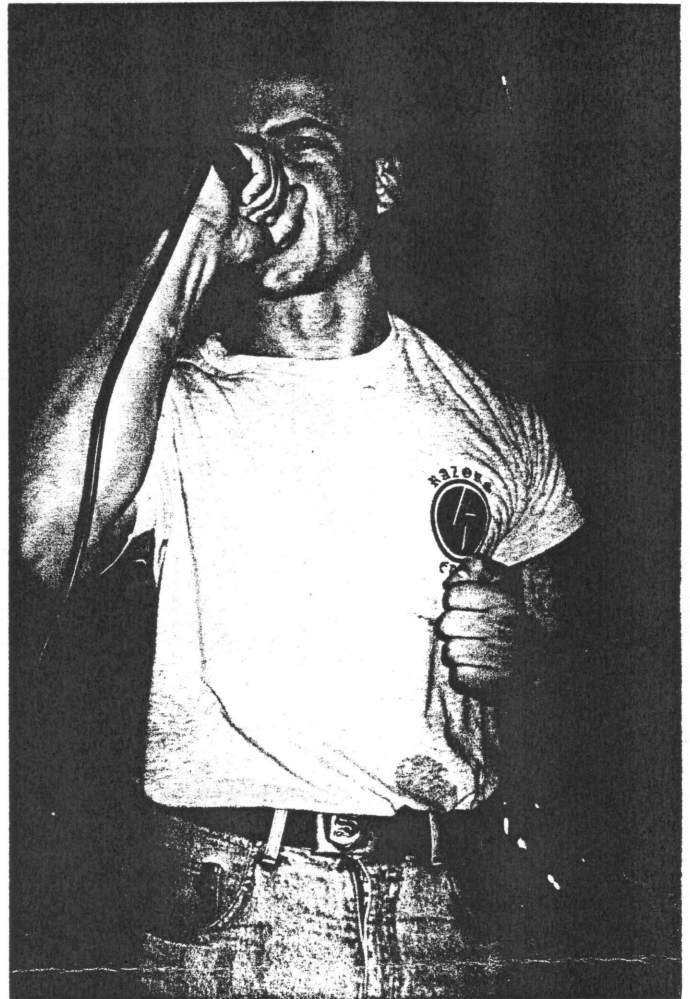

So far in only 8 weks of its release we have sold over 2300 copies.

5. Whatever happened to Skull Records who released G.B.F. No.1 ?

I wouldn't like to say. I know they have had alot of court cases and other problems so the firm will probably close.

6. Which would you consider the best - Vol.1 or 2 ?

Vol.2 quite easily, the music and sound quality is alot better.

Steffan.

7. Was it good
fun recording
with the British
lads in London?

It was a very
big thing for us
to participate with
our English brothers
and yes all the
time during the
recording we had
a laugh. It was
excellant.

8. On the CD you
have a track
cullled 'Stalingrad'
can you tell us
about the lyrics
behind this song?

Ollie/Bass - Kay/Drums. Note Ians Banner.

The song is about all the German soldiers who fought in World War 2 to make it a free europe and failed in the end, because of the bad weather etc..We're putting over the facts that although they lost and died etc, that they were the best soldiers.

9. About a year ago you realeased a single as a fund raiser to help
pay fines for heavily fined band members etc how did it all go?

It was a fiasco in the end. We did it with all honest intentions
but the bloke who released it is now in jail and thats all we know,
we don't know if money went to people etc...

10. What current German bands do you view as the best?

Two years ago we had an explosion of skinhead bands but since quite
a few have split etc. There is now only a few left and so every band
is important for our scene so I'd say they're all good and rather not
point out one band as good/bad etc...

11. Any future record plans?

We want to record a new CD in the first few months of '95 and if
all goes well we want to record a third German British Friendship CD
in the summer next year.

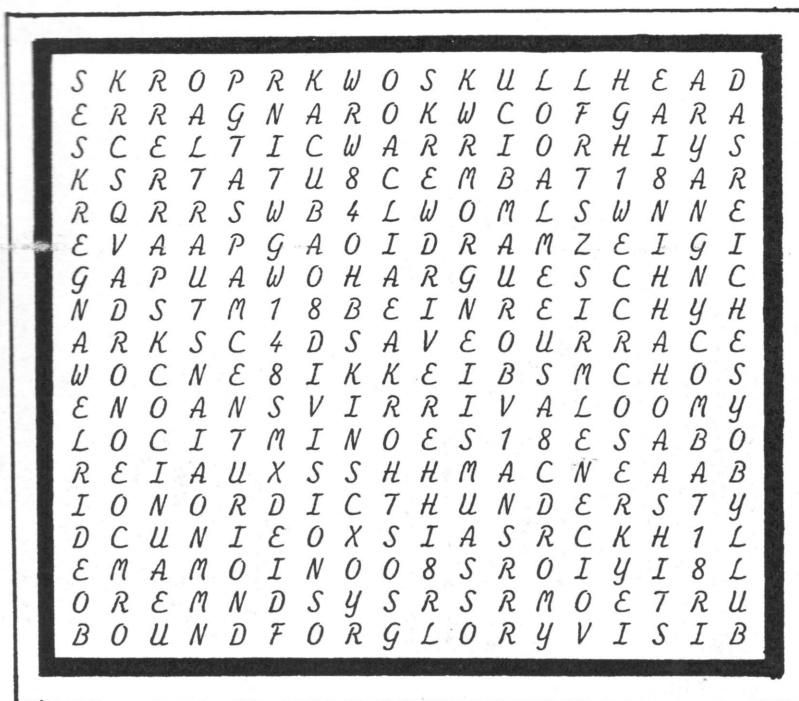

12. What do you hope to acheive over the coming year?

Gigs, new CDs and a better future for white people in Europe.
Noie Werte should have a new list of merchandise available like t-shirts
patches etc so write to us at : Friendship Records/Noie Werte,
Postfach 810264, 70519 Stuttgart, Germany. We have the GBF 2 CD for
£13 inc P&P.

13. Any closing comments?

Only best regards to British Oi and hello to our English brother
Stigger, all the lads, Celtic Warrior, Squadron and Razors Edge
etc.. and remember NEVER GIVE IN.

RIGHT HANDED NEWS!

Welcome to this the best upto date news coloumn on our glorious nationalist scene. Its covers anything from gigs, to new bands, bands splitting, weddings etc, if you have anything that may be of interest then drop it in however trivial, however important but please keep these news pages alive, also new merchandise etc, British Oi goes out to well over 600 people so to get a advert would be highly beneficial to you. Well read on.....

GREAT BRITAIN has per usual been keeping busy with Brutal Attack getting steady line up together which now stands as - Ken on Vocals, Stigger (Ex Skrewdriver) on Guitar, and two Jims, one Jim (Ex Battlezone) on Drums, and the other Jim on Bass. They should be parading the new line up at the up and coming White Christmas gig and are hot from the studios after completing the latest Brutal Attack CD 'Rising Above All', alongside the band, Ken and Stigger have recently entered the studios and recorded a string of ballads and a couple of rocky songs for a forth coming release on 'I S D Records' which as I've heard the rough mix of the material is shit hot. More news on it as we know it.

Sudden Impact are back with a bang and have been rehearsing for the last few months and will be gigging again with a possible recording contract up for grabs. As of yet we are not sure of the line up but Paul D. is still the singer.

Squadron have recently performed gigs in Czech Republic and Poland with a variety of support acts which we will bring you more of next issue but the gigs have ben a success. They have also enjoyed airwaves success as they have been played several times on Serbias main radio station, one wonders is this why the Serbs are attacking Bosnia, are they hearing 'No Red Flags & Der Sieg Wird Unser Sein' which is causing the adrenalin to attack. Maybe...Also the band informs us that they have a complete list of merchandise available including all the 3 CDs, a range of t-shirts and the new single 'Unter Dem Hakenkreuz' which is selling for £3 inc p&p from Squadron Services at BM Box 46, London, WC1N 3XX. Be sure if ordering a catalogue of gear to send enough money or stamps etc to cover postage.

Celtic Warrior have also been busy and have there debut CD 'We will Never Forget' out on LP & CD and is selling fast. Be sure to get it as it is a smasher. They too have a large list of merchandise and some quality shirts for sale. Send a large SAE for details to PO BOX 214 Cardiff, CF1 7UX, Wales. Nigel the bands additional guitarist was recently refused entry to the country due to financial reasons but he will be doing European gigs as hes now in Holland.

Razors Edge have also been keeping busy with gigs with Squadron in Czech Republic and Poland. Martin Cross of Skrewdriver/Brutal Attack fame is also on bass for them now replacing Mark who left the band for personal reasons, not by disagreement with the band. R.E have also just recorded two tracks for a DI-AL Records compilation LP due out in the following months. They still have there debut CD available 'The Flag still flies' for £12 inc P&P from PO Box 3324, West Bromwich, B70 7NP, also t-shirts etc available.

WATCH OUT for a new band set to record a full length LP in the spring of next year called 'Bulldog Breed' with Jonesy of English Rose fame with Blakey also of Eng. Rose along side Brad and Jim of Squadron. The LP will be called 'Made In England' and will be Oi music, a back to basics experiment I guess.

New from ISD Records over the coming months will be Skrewdrivers infamous gig at Waterloo which was captured live, get it as its a blinder and great quality sound. Ian is really on song on it. For more info on ISD Records send a SAE to BM Box 46, London, WC1N 3XX.

LASTLY a few announcements.

A new zine has just been launched and is solely done by nationalist prisoners, amply called 'Behind the Bars'. Its also being done in conjunction with the newly formed 'Blood & Honour Prisoners Assoc.'. It will be circulated free to all registered P.O.Ws, so if your a comrade inside or have a mate who is drop his name and address to 'Behind The Bars' PO BOX 3017, Barnet, Herts, EN47PY. For a sample copy send £1. They also require donated gear such as pens, pencils, stamps, etc etc.

Congratulations to Oz and Ann of Lincoln on the birth of there newborn baby girl 'Harley Louise' who weighed in at a bouncing 8lb 3oz on Sept.3. She makes a proud addition to a family with elder daughter Chelsea. Good luck, and as always from British Oi, may your nights be sleepless.

LUXEMBOURG has a skinhead who wishes to buy Nationalist band Storkrafts music but cannot get it anywhere. Can you help?

If so send written details of prices etc and what you've got to:
Paul Wagner, 15 Rue De la Vallee, L-8046 Strassen, Luxembourg.
Paul wants CDs if possible not records.

A great new German skinzine is out now called **Moonstomp** and is written in english, covers bands, etc. Number 3 out soon.

Send £1.50 to Moonstomp, Postlagernd, Postamt Bestwig, 59909 Bestwig, Germany.

Above and below the Italian Skins protesting against harsh new laws.

This operation follows previous clamp downs which have happened since the anti-Skin/Nationalist law was brought in. The law involves stopping racial activism but as always only if your white.

The V.F.S have promised us they are still alive and kicking and plan a massive reaction against the states laws within the coming weeks. Send your letters of support to VFS, GP 12, 36045 Lonigo, Vicenza, Italy.

SWEDEN has as always been active over the last months. A gig was held as a remembrance gig for Ian a week before the British gig with two bands playing - Odinium & Swastika.

Swastika have been in the studio to record there debut full length LP and includes a version of the Skrewdriver classic 'Streetfight'. The LP will be released on Motstand Records.

Motstand incidentally have a wide range of great t-shirts available. Aswell as CDs/Patches etc. For a full list send a IMO etc for it to : Motstand Productions, Box 6035, S - 15106 Sodertalje, Sweden.

Rumour has it that within the coming months a new zine will be launched to conquer the world entitled 'Nordland' which will be in Swedish and English, full colour photos etc etc. Watch this space.....

SLOVENIA is quite erupting as a skinhead nation with its football teams becoming overtantly patriotic/nationalistic.

In the recent months the Police have mounted full scale battles against organised Skinhead football hooligans and have tried to wipe out a notorious gang called 'The Trotters' who have been blamed for attacking people in a vicious assault in Maribor and destroying shops, cars, and the foreign population. So watch out for news of Slovenia hoolies on TV etc.

A new zine has emerged from Slovenia too, called Obrtoglavec in english Skinhead. As of yet I'm not sure of the address.

DENMARK has seen violence against its upsurging, Danish N.S party escalate when the communist opposition tried to storm the shop they use as a headquarters but as the DNSM had heard through moles within the communist parties of the planned attack they were ready and waiting and as the reds appeared they chased them, with anybody that got in their way told the truth, and made to heed the error of their ways. I'm led to believe that the DNSM is made up of a mixture of Danish and German organisers in exile over there. They produce a well laid out informative paper called 'Fædrelandet' which points out their views and opinions etc. Looking at it, they have close links to the NSDAP/AO of the USA. The paper can be bought from them from their address which is: Postboks 1882, DK-2300, København S, Denmark.

United States of America well as per usual the US skins have been busily organising gigs and in the recent months have organised as I've already mentioned in the Joe Rowan article, the Resistance Records 'The Flame that Never Dies' gig featuring Rahowa, Centurion, Aggravated Assault, and more. This attracted over 300 people and was filmed using 3 cameras so keep your eyes peeled for the video. Also in September was the annual Aryan Fest, which featured Cross lightings, stalls, bands including Extreme Hatred, Eric Owens, Rahowa and Bound For Glory. Scott for Fortres fame from Australia was on holiday in the states at the time and did guest slots with BFG at both of these gigs and played the smash song 'I hate commie scum' amongst others.

Also in the states the records industry has released some quality sounds from bands: Extreme Hatred called 'Now is the time' on Pheonix Records, Pheonix have also released 'Folk the System' by Eric Owens. Resistance have released the CD 'Fourteen Words' by the Creator band Centurion which is reportedly brilliant. See reviews. Also Resistance as I write this should have released the Max Resist & The Hooligans debut CD and also have plans to release CDs by No Remorse (a best of type CD) a new CD from ex Midtown Bootboy members called Berserkr, and they have also signed Fortress from Aussie land. Which judging by the first two CDs will only be a classic. Rahowa plan a second CD called 'Cult of the Holy war'. Also on Resistance they have signed a rock music act called 'New Minority' who sound like a Whitemans Bon Jovi (So Brad of Squadron says), but more appeal to the youth the better. Resistance seem to be leading the way and are showing us how to get over to the youth and basically the population.

Nordic Thunder also plan to release a final CD which will contain their latest single 'A change of scenery' and some new tracks that they recorded before Joe was shot. Should be out by April next year. The rest of Nordic Thunder may carry on with a band but not under the title Nordic Thunder as without Joe it wouldn't be the same. Nothing definite as of yet though.

Also some new blood on the scene in the states includes 'Angry White Youth, Stronghold, Confederate Storm & Shamrock'.

Going Places?

I recently had a chat with a Ex-Skinhead in a pub who collared me in a semi drunken way, stating how he fought for the cause but could see how my views and music were going nowhere, and claimed this is why he dropped out of the scene. Well before I stated whats been acheived recently I had a quick think to prove to him we were going places.

I thought, well lets look at our scene.

Blood & Honour is in full working order again, with it being produced every two months, by a new editorial staff, making it once again one of the best reads in the world, gaining favourable publicity and making great gains. A far cry from the old editorial incompetance of putting it out once in a blue moon.

I thought of all the fanzines still producing, I know from British Oi alone that more people are buying it and that the call for streetlevel racist zines is desired. I see in Britain alone about 5 great zines being produced, read by large readerships, with there production being top notch, being pieced together on either computers or word processors, and the contents of these zines, such as the Order and Thor Would being interesting, enthusiastic, and in some really amusing.

The great European magazines such as the Swedish 'Blod & Ara' which its impressive format but radical N.S views.

U.S magazines such as the very regular and informative Blood & Honor and of course the uprising 'Resistance' mag which could be called the white mans version of a mag similar to metal mags like Kerrang or Metal Hammer. All of these being promising, all improving per issue the distribution across to both long time nationalists and also to new comers to our alternative scene, opposed to red domination of the media.

Well our music I thought. Well what can be said, it seems the days of the shoddy 3 chord wonder Oi band have died, with the exception of course to utter crap being produced by so called White Power skins in Japan? White Power Japs? No I don't think so. The new breed of White Rock are very professional in approach, each member of each band, constantly trying to better himself, which for us only holds one things, better music for our ears. True melodic, but still with that vital punch, of uncompromising white racial rock. Just look at the standard of music and production on Dirlewangers 'Heroes in the snow' CD, the lyrics to Squadrons 'Final Salute' and the strong feeling that accompanies it, and the timeless, eternal lyrics of Ian Stuart, the list is endless.

I thought of our record companies, ISD, Resistance, 4 Swedish labels, 3 new German labels and more, all producing and promoting our scene, colour CD covers, pull out booklets etc, all adding to the standard of professionalism, being bought and distributed by thousands of people.

So as I turned to answer this drunkards, stupid, uneducated remarks, I stated, you've lost that spark, the flame of white pride, one day, you will live to regret what your views are. He turned and cowardly left the pub.....

REVIEWS

CENTURION - 'Fourteen Words' - Resistance Records.

A debut CD from one of the most promising acts from the US of A with this hard hitting selection of 11 tracks that are, well a musical mixture of thrash, skinhead rock and ballads create a masterpiece of music. I suppose, something for everyone. Tracks include 'Count the dead' 'White is my heart' 'Retribution' 'Heed the call' and my two favourite tracks on the CD 'This planet is ours' a heavy bass thundering track to stomp to and 'Grandfathers Tale' a slow ballad similar to Rahowas style I'd say which is great. 9/10.

KONKWISTA 88 - 'Freedom or death' - Thor Records.

A good CD from a band I had only heard a demo of previous to this. Musically brilliant and reminiscent of Brutal Attack/Skrewdriver. Lyrically I can't comment as its all in Polish but the CD booklet does give full translations in english to let us know what each is about. Best tracks 'Signs of truth' and the great 'Gates of Valhalla'. Write to Konkwista at PO BOX 104, Wroclaw 57, Poland. 8/10.

EXTREME HATRED - 'Now is the time' - Pheonix Records.

What a blinding debut CD, fast, furious and extremely hateful. 15 songs, none of which are slow but the production is great and so you can understand whats being said. Tracks to look out for are 'In my eyes' 'Now is the time' 'I am the man' and the great 'A.F.F'. 9/10. For more info on this write to E.Hatred, PO BOX 18502, Anaheim, CA 92817 USA.

ERIC OWENS - 'Folk the System' - Pheonix Records.

A different CD to review in alot of ways. No heavy thundering guitars etc but bagpipes, flutes and acoustics. 4 Irish folk songs and 3 ballads with one of which called 'We will remember' about Ian Stuart who Eric Owens knew from his days he lived in London, some years ago. The folk is well played and in my view a good bit of refreshing music. 7/10. More info write to E.Owens, PO Box 45866, Los Angeles, CA 90045, USA.

VIDEO Review.

Ian Stuart Memorial Concert, feat. Adl 122, Bifrost, Celtic Warrior, Squadron and Razors Edge.

The video of this great evening. Where are Noie Werte though ?? But although they aren't in it, the video has come out great with 2 cameras used and the sound is great. See it all, see the minutes silence etc, its all on it. Recorded by NS 88 videos (address elsewhere in the zine) but also sold for £12 inc P&P from Squadron services at BM BOX 46, London, WC1N 3XX. Watch it as its a great night to remember, and if you were there maybe you'll spot yourself. 10/10.

RIGHT HANDED NEWS!

Welcome to this issues ultimate news pages 'Right Handed News' which tries to capture everything or most things that are important and going on in our mighty patriotic movement, BUT we can never have enough information to use, if you have anything that would be a interesting article, etc then be sure to send it in, anything goes, such as gigs, new zines etc etc.

Well anyway, enough of this chit-chat and on with the news.....

Great Britain - Well to start this report we bring you important news of recent developments within the Blood & Honour movement.

Three prominent organisers involved in the B&H scene have been raided by the Police for various reasons but namely to seize B&H material, CDs and other political material.

Blood & Honour is as most will know under a new progressive editorial board and was due to have a new issue out around christmas time, Out of the two raids two have been reported to the crown prosecution service and are currently under investigation, but as of yet no charges made.

The Police seized the new B&H zine and I guess more importantly also a batch of new ISD CDs namely the Waterloo Gig by Skrewdriver, which has no doubt put a spanner in the works, but I'm sure it will surface again soon, as for the comrades who were raided, as mentioned there fate is as of yet undecided but, it looks like they will be

made an example of, to anyone who wants to stand up for there beloved race and nation, our traitorous government will try to smash, British Oi! wishes the lads all the best, and watch out for the new B&H out soon from there normal address of BM Box 5608, London, WC1N 3XX or from your local B&H unit/organiser.

We will keep readers upto date with any developments regarding the case....

Belfast Blood & Honour comrades were recently in touch to say to comrades not to write to there Ulster address as used by Loyalist/NS zine 'Ulster Torch' as the Police have shut it down, as allegedly the security forces and the powers that be agreed that Blood & Honour was the only threat left in Ulster, as B&H would become the new terrorists (Christ are these people real?) so any mail to Ulster B&H/Ulster Torch zine should be sent to BM Box 5608, London, WC1N 3XX.

Whilst on the topic of B&H PO Boxes the North East B&H unit recently were in touch and ask us to announce this....Please no mail to be sent regarding Skullhead merchandise as there is none available anymore, all of Onward fanzine have sold out and a new issue won't be out until spring of '95. as the editor is serving a jail term. Please only use PO. Box 86, Sunderland, for B&H info, NO SAE no reply.

—WE ROCK

THE REDS!—

Right handed news

also from the North East it is announced Skullheads last recording 'Victory or Valhalla' will surface on either a "12 or mini CD in the future. It has been released on vinyl through Rebelles Europeens but British Oi advises readers to steer clear of Rebelles after several readers have been ripped off, if any other readers have any news on Rebelles activities, we'd like to know.

Onto music...English Rose have just had a new single released on new French label 'Boha Records' and features 2 tracks 'Choose Your Side & White & Proud' which can be bought for £3.50 from PO Box 19, Coalville, Leics, GB.....Squadron have

been busily gigging across the globe, firstly the White Xmas, see review, also out in Italy in late Jan with bands M-Rossa from Lucca Italy, Archivum (Hungary), Corona Ferrea and ADL 122 from Milan which went great, 400 in attendance with large contingents from Hungary and Switzerland making the journey across to it. Inter Milan hooligans, only a handful tried to cause some trouble outside the gig but were apparently taught a lesson in fighting tactics by the strong Veneto Fronte Skins and left quite hastily. Squadron have also gigged in Poland & Czech Republic in the same weekend and played a gig in Grimsby, in England aswell. They also have a new single out on US label Krowbar records called 'Unter Dem Hakenkruez' and costs £3.50 from BM Box 46, London, WC1N 3XX, this is Squadron Services.....Celtic Warrior have finally received there debut CD from German label 'Di al Records' called 'We will never forget' which is tipped to be one of the most sought after CDs ever with its classic music on it, get it now for £12 from PO Box 214, Cardiff, South Wales. They also have t-shirts, sweatshirts etc out, send a SAE for a list. Celtic Warrior fans will be able to catch them as they prepare for gigs in February and March, contact your local organiser for details etc.

We'd like to point out that on March 13th it will be the third anniversary of the deaths of the Violent Storm band members namely Paul Casey, Darren Sheeley, Brian

Sheeley and close friend to the band Jask. Your memories will never fade, sleep well my brothers, sadly missed, but never forgotten.

Section 88 one of the new breed of bands for '95 were recently in touch and sent a practice tape which showed some good signs and lets hope they will start gigging soon.

Theres a new band forming who needs some band members, they require a guitarist and drummer and would like to hear from anyone interested in forming a NS skinhead band, either write to British Oi or contact one of the West Country skins at any gig.

Germany has been busy as per usual with some exciting new merchandise on the market. **Noie Werte** have released a wide range of German British Friendship & Noie Werte T-shirts with some very eye catching designs to coincide with the recent release of G.B.F Vol.2 called 'Songs of Hope'. Write to them at Postfach 810264, 70519 Stuttgart, Germany for a catalogue.....**Freikorps** the increasingly popular nationalist band from Reinfeld played a gig in Wilhelmshaven in front of 300 people alongside German band 'Bootsbrothers', also Freikorps are hot out of the studios with a speedy realese of the Mini CD 'Abschied' which only has 5 tracks but is really good and features one track with Ken of Brutal Attack. Also Kai of Freikorps has recently released a CD called 'Asgard' which is ballads and also to coincide with that a Asgard ballad video of apparently extremely high quality. For all these and more contact Kai, at Postfach 1138, 23854 Reinfeld, Germany.

Also recently Endstufe have recorded a new CD for release soon on Rock O Rama and Sturmtrupp are planning a new CD in the near future.

Denmark well not too much happening band wise but British Oi recently met the lads who record the great videos for NS88 productions and received the latest catalogue, which contains of course a wide amount of videos, plus CDs and yes, your very own British Oi, write now for a catalogue to NS 88, Poste Restante, 3400 Hillerød, Denmark. They have the latest White Xmas gig for sale amongst others.

Czech Republic - held a memorial concert for Joe Rowan the murdered singer of USA skin band Nordic Thunder with bands 'Hoste, Diktator, Buldok, Squadron & Konkwista 88' which was successful with over 300 attending and with a pint of bier at 30p a large amount was consumed, about 9 different nationalities attended making it truly a united show for Joes memory.

Sweden has seen more activity with the release of a global compilation on Motstand records called 'White Pride World Wide' - see reviews, which includes Rahowa, BFG, Aryan, Swastika and the Bully Boys amongst a few...In Sweden they have now officially launched a new movement called Nordland which will hopefully produce a glossy magazine in 3 or 4 different languages and release a wide range of merchandise. For more info write Box 6035, Sodertalje, Sweden. Also released was a Swastika and No Remorse Live CD.

France - has seen new skinband Viking release a 6 track demo with tracks including 'Chaos' 'Skin Normandie' 'Hooligans' and the catchy 'Stop Immigration' track winning the best track of the demo award. Viking recently also played at the White Xmas gig.

Australia has seen the return of one of its prominent figures being Scott the singer for great Aussie band 'Fortress' after a holiday to the USA and Canada on which while in Canada Scott was involved in a bar room brawl which ended up with Scott being imprisoned, but comrades rallied around and Scott was bailed out and escaped back to Australia. While in the USA Scott has made a deal with Resistance Records to record a new CD this summer, but meanwhile to keep fans happy Fortress plan to record two tracks for a Swedish compilation CD, tracks being 'For faith and for folk' and 'the truth sets you free' being described as a different style to previous recordings. They also played a gig in Adelaide on December 3rd which apparently went really well. For more info on Fortress and for

merchandise etc write to PO Box 553, Moorabbin, VIC 3189, Australia.

United States of Amercia - well as per usual the states has been busy, Resistance Records have released new CDs by rock group 'New Minority' called 'White Straight & Proud' which British Oi! has heard and is somewhat pop music rock but, it must be said, we need this type of band to attract the masses, rather than just the skinhead minority, also Resistance have released new band 'Berserkr's debut CD 'Voice of our ancestors' which is rumoured to be one of Resistances best to date, Berserkr are made up of some of the old mid town bootboys band, but I'm told the CD is quite heavy in sound rather than southern rock style like the MBB played. Resistance Magazine is also out No.3 which has a fitting tribute to Joe Rowan, a Berserkr interview, and a hellava lot more.

Bands around the world have also been recording for the Project Tribute CD being put together by Resistance and Pheonix Records with so far Britains very own Squadron doing

three tracks including Skrewdrivers classic 'I can see the fire' and the popular 'Stand Proud', also BFG will be recording two Skrewdriver numbers for it which maybe 'Streetfight' and 'If theres a riot' and will apparently be recorded as close to the originals as they can.

BFG have also recorded for a forthcoming comp CD from German label 'Excalibur' with tracks called 'Back in the Fatherland' and 'Widerstand' sung in German by Ed the BFG guitarist.

BFG have also had some interesting times in there state as of lete.

A record store that had sold out of there 'Fight Goes On' CD asked the band to come to the shop to make an appearance to all the young fans of the band, a group of about 15 baldies (Bald headed druggy types) turned up to cause trouble with the ringleader being black. They tried to argue with BFG but when out argued they were going to resort to violence, 15 against 3 of BFG but they bottled out, the black then admitted he had all the BFG LPs and he had Brutal Attack and Skrewdriver patches on his jacket and the weird thing of all was he had a tattoo of Ian Stuart on his arm, pure insanity, in the end the baldies were kissing BFGs arses and left without a word, the record had no damage don to it, so hes happy and supports Resistance all the more, apparently this black ringleader also is a reader of English skinzine 'Rampage' which shows you never know who your dealing with.

I can just picture Squadron signing pictures and LP covers in Virgin records in downtown London, only 15 opposition, if Squadron did do it, I'd say more like 1500 were turn up to stop it. Well done BFG.

A comrade to British Oi is trying to set up a large directory of NS/Nationalist addresses for publication in 'The White Pages', instead of 'Yellow Pages' get it?

Well Miles would like to hear from you if you have a zine/band etc, write now to Miles, PO BOX 24051, Federal Way, 98093 1051 - USA.

Thats all folks, more news next time.

Record Reviews

White Pride - World Wide - Nordland Records.

Theres a few things about this CD that are truly marvellous. First off the very catchy cover and sincere dedication to Joe Rowan and then theres the tracks. Some already released by Resistance, others new. 16 tracks in all by bands such as Aryan, Centurion, BFG, Rahowa, Konkwista 88 and Freikorps but the CD has to go to Swastika who really are great, hard hitting skinhead classics, roll on Vol.2. 9/10.

Freikorps - Abschied - Excalibur Records.

5 tracks of exciting German Skin music. All I can say is catchy due to the language barrier but well worth adding to your collection, track 5 features Ken of Brutal Attack in a classic number 'Who are you', buy it 8/10.

Squadron - Unter Dem Hakenkreuz - Krowbar Records.

A fast and furious two track single with it being a collectors on red vinyl. Tracks are Unter Dem Hakenkreuz and Just Like sheep, with my vote going easily to Just Like Sheep, a very catchy sing along song, in the same vein as Squadrons last CD. 9/10.

English Rose - Choose Your Side - Boha Records.

Two great Oi! tracks from these likely lads of the Midlands. Another single with two tracks, these being 'Choose Your Side & White and Proud' which are very good and ones to bop along to, one thing that workd in English Roses favour is they play Oi! rather than the thrash most bands are putting out nowadays, refreshing stuff.

9/10.

Video Review -

White Xmas in the Midlands, GB.

Featuring Squadron, Razors Edge and French sons 'Viking'. Over two hours viewing in great quality brings over the great night when over 400 attended this annual do. Viking play a short tight set and get the crowd going with Oi tracks like Chaos and a mixture of French and English material like 'Skin Normandie' & 'Stop Immigration'. Onto Razors Edge whose set includes 'UFF' 'Jobs not immigrants' 'No Room Here' and a rendition of Skrewdrivers 'Free MY land' with Stigger joining in. Lastly Squadron - 75 minutes of the ultimate in White Power music, with tracks like 'Behind a white mask' 'Our time will come' and the 'Final Salute' who can afford to miss this. A NS 88 production. 10/10.

Bound For Glory

'Bound for Glory' have become one of the worlds most known, most popular and most professional bands on our White Power scene to date and recently answered the interview with some interesting replies.

BFG are really starting to break new ground in the states and deserve 100% support from all distributors etc across the world.

All answers by Ed the bands charismatic spokesman.....

1. Ed, whats the current line up?

Ed - Joel (Vocals), Carl (Bass), Ed (Guitar), Mike (Drums).

2. How come Rich the drummer on 'The fight Goes on' CD has now left ??

Ed - It was mainly a geographical problem, Richie lives in Brooklyn in New York which is over 1000 miles away from our homebase of St. Paul. We never really got to practice, we just got together and did our thing for concerts where

we meet. We really needed to practice on a regular basis and to do this we had to find a local drummer. We would all like to point out, that if it weren't for Rich helping us out, there are alot of concerts and recordings that we couldn't have done without him. He really sacrificed alot and did a great job for BFG and we will never forget that. As we are concerned he will always be a part of BFG.

As for our new drummer, hes quite incredible, he plays a double kick like a madman, hes extremely brutal! It feels real good to be playing regularly again.

3. How is your latest CD 'The fight goes on' selling ?

Ed - I don't know the exact figures but I do know its into its second pressing, we've sold over 250 in our area alone, so I guess its doing quite well.

4. As a on looker into the white power scene in the states, tell me, it seems Resistance Records are doing a hellava lot. Are they really doing alot ?

Ed - Resistance really has been treading into new territory and causing quite a wave in the U.S. The major key to the success of Resistance is the professional attitude and onlook they have taken on. Everything is top notch to them, the magazine, the production on the releases, the concerts and the initiatives of getting cassette and CDs in the stores. Another thing is that they have lawyers to do battle for the company against those who would seek to destroy the company. Everything is run quite professional. I believe the left wing agitators really have no way of approaching Resistance and many people in America defend the sale of our products in the name of Free Speech.

Keep in mind, Resistance is only one year old and alot has been accomplished so far.

5. What plans have you for a new CD and will it be in the same vein as 'The fight goes on'?

Ed - We have no name as of yet for our next LP which will probably be recorded next summer, the material is already written, some of the titles are 'Behold the Iron Cross' 'Siegfried' 'Fight On' 'To untamed lands we sail', and we have a unnamed track which deals with our view on the I.R.A and there murder of innocent people.

Musically the new LP will be more technical and heavier than our last and we will have more studio time to produce it and perfect it.

I guarantee the new LP will blow 'the Fight goes on' away.

6. Why then did you decide to go into a heavier style ?

Ed - I firmly believe that harder times, means harder music. And we just let some of our anger and aggression out, in our music.

Also the production was done by a man who knows his work well. Some have tried to classify our music but I think its hard to put a label on us, I don't try to write music in any particular style, I just put my hand on the fretboard and let my fingers do the walking.

7. What gigs have you done recently and which would you consider the best since you've been in Bound for Glory ?

Ed - Our most recent gigs were last fall, the last being Racine, Wisconsin at the big Resistance Records show, before that locally, in California, Detroit and Georgia.

My favourite show we've ever done was in March of '93 in Buffalo, New York, and my favourite overseas was in Denmark June '94.

8. Do you plan anymore European dates ?

Ed - Most definately. So far we've got Sweden and Italy in February and maybe some more later in the year.

9. Could you tell us about BFG merchandise ?

Ed - Yes, we have a wide range of stuff for sale, write to us at PO Box 6773, E.St.Paul, MN 55106, USA for a catalogue.

10. How can you foresee the N.S scene devolving over the coming say 2 years ?

Ed - Its only going to get bigger and better. As conditions in the U.S worsen, tolerance for the system is hitting all time lows and our music and views are becoming more and more accepted. I think it could be quite possible for racial rock to be quite mainstream in 2 years. Theres definately alot of talent that proves we are gaining strength.

Continued overleaf.....

11. What music are B.F.G into and which USA skinbands do you rate as the best ?

Ed - We all listen to a vast variety of music. Speaking personally I delve heavily into classical music and I also enjoy skinhead rock 'n' roll and I guess I've gotten into death/power metal. I especially like the Swedish bands such as The Unleashed, Edge of sanity and Hipocrisy to name a few. The music is extremely aggressive and lyrics are 'norse' based.

The U.S bands I rate are Berserkr, Centurion, Das Reich, Nordic Thunder, Stronghold (The first skinhead death metal band) and another band which I believe haven't recieved enough recognition as they deserve is No Alibi from Buffalo, NY. They're really hard hitting. The U.S really has a great variety of bands and music, which makes the future look good. Another excellant band is 'Day of the Sword' which is a one man band, the LP Scott made is completely incredible.

12. Away from the band, what hobbies have you got ?

Ed - We all work jobs (Actually Carl has two)full time from 40-60 hours a week, we all have families, as all the parents out there will know that this is a task in itself, so after this lot, the band, practice, sorting mail etc not much time is left over. However we all play sports we work out, and we like to go shooting, get tattooed, go to local shows and off course drink a few choice beers with the boys at our local pubs.

13. Any last comments.....?

Ed - Hail Ian Stuart. They say from acorns, mighty oaks grow, I believe Ian is responsible for planting a lot of forests.

They will support any organisation in the USA who has the guts to stand up for the N.S/Nationalist cause but will in no mean terms denounce the movements/groups who aim at destroying the movement, such as conservative KKK groups etc.

They also have a wide range of other litrature that they distribute such as 'The New Order' by the NSDAP/AO party, plus numerous items of merchandise like caps, badges, t-shirts CDs etc.

If you want to find out more about the SS Action group write to Ted Dunn, National Director, SS Action, BOX 67, Dearborn Heights, MI 48127, USA.

THE
BLOOD OF THE VIKING
FLOWS
THROUGH OUR VEINS

Well Spain has in the last year seen an explosion of Nationalist and skinhead activities.

Here we will try to tell you what is happening in the land of sun, sea, sand and sex.....

Amnesty International the so called Freedom movement to help imprisoned and ill treated folk across the world has stated that in Spain, that "Nationalists are a threat to the mere survival of Spain". Don't they understand that Nationalism is about a nations pride/survival.

Well new laws have come into action in Spain, and are anti - racist. It is now outlawed to express your true nationalities feelings.

Skinheads have suffered alot under new laws and at present 30 members of the N.S group 'Accion Radical' are all awaiting trial for illicit association to a NS group. In other

Spanish News

regions the story is the same, white pride being stamped on, with a iron heel.

Recently the drummer of 'Klan' one of Spains No.1 skinhead bands fled the country after being found guilty of assault on a Redskin and was told he would get 3 years but before sentencing he escaped, al for a mere fight, in Britain probably a fine would have been imposed.

Another band member from the up and coming group 'Estirpe Imperial' was given 12 years after a gang fight with comie punks. 12 YEARS! A murder victim doesn't get that here.

But both bands go on with both releasing LPs in the near future.

Division 250 probably the best known Spanish NS skinband have released a debut LP on Rebelles Europeans called (Blood of the conquerors) and plan a new LP with the year on the popular Italian label 'Tuono'.

The strangest thing I have ever heard is the following.....A band called 'Batallon De Castigo' who are all in prison and blatantly NS have applied to the home office to record a LP, but were bluntly turned down, can you imagine a NS skinband in Brixton nick practising ??

Concerning gigs etc, Spain has had its fair share in '94, most memorably the one held by NS grouping 'Bases Autonomas' on Oct.12 to celebrate Spains National Day with 300+ attending.

Back to the political oppression in Spains draconian state...

Well the new laws state that if there is more than 3 people together in paramilitary clothing they are a subversive group and the supposed leader can face upto 6 years imprisonment, what happens when theres a gig ? Do you all get nicked ? Oh well, I said the laws were strange, but then again our laws will probably become the same one day, if they haven't already ?.

Spain is such a beautiful country with a great climate, Spanish skins, love there land, they have showed there love by joining the nationalist crusade to save there land.

Keep the HARD fight - Viva Espania.

SWASTIKA

SWASTIKA are now becoming one of the best known Swedish bands. Spearheading the upsurge in White Power music, sweeping Sweden.

All answers by Matt the singer....

1. When, why and where did you form?

Matt - Swastika formed early '91 in our home town of Linköping. We didn't play our first gig however until Nov '93 with No Remorse and Trueblood and which turned out a excellent debut gig, we were very well received.

2. Whats the current line up ?

Matt - Our current line up is :
Mattias on vocals, Johan on Lead guitar, Bitten on rythm, a new member Micke on Bass and Jimmy

on drums. Over the years we've had two line up changes, one of them recently with Rolle our old bass player moving back to his home town which is a long way from here, so we had to find a new bassist, Rolle is now playing in the band 'Barsarkarna'.

3. Why choose such a radical name?

Matt - We chose the name as it is the symbol for our struggle. The rising sun, and a new dawn for our aryan race. We want people to know where we stand, we hate hypocrites.

4. What gigs have you played and which was the best/worst ?

Matt - Up to now as I write this we have done 5 gigs with bands such as 'Bound For Glory, Celtic Warrior, No Remorse, Squadron, Barsarkarna, Brigad Wotan, Oithanasie etc.

I think our best performance was in Stockholm with Squadron & Asa (Reviewed in Brit.Oi No.30) or in Sollebrunn with No Remorse & Celtic Warrior. In Stockholm about 400 attended and in sollebrunn about 700-800 and both were great.

Our worst performance was absolutely our gig in denmark with B.F.G & Oithanasie. Only three of us made it and had far too much to drink. We all regret the gig, but don't get me wrong, the gig was excellant with BFG and Oithanasie both playing brilliant, a flop for us only, if you have only seen us once and it was at this gig, we are better than that poor performance.

5. We understand you have recorded a full length CD, could you tell us more ?

Matt - Our CD is called 'In Hoc Signo Vincas' and the tracks are (In english)-Call of the reich, The fallens blood, Sweden Awake, Goliats song, Hang em high, race war, Unity, Runes of power and a cover of the Skrewdriver classic - Streetfight.

6. Why such an unusual name for a CD and what does it mean ?

Matt - In Hoc Signo Vincas means 'In this sign shall we conquer' which speaks for itself. Its Latin.

7. Which track do the band consider to be the best track on it ?

Matt - I can only speak for myself but I think Runes of Power and Call of the reich are the best.

8. What merchandise have you out??

Matt - We noe have a split CD out with No Remorse live called 'We play for you', 2 different compilations with 3 & 4 songs on

them called 'Nordland 2 & White Pride Worldwide' and two different t-shirts, and I hope by the time you read this our full length CD. Our merchandise can be bought from Nordland - Box 1088, 11479 Stockholm, Sweden, send a SAE for a list.

9. What bands in Sweden and across the world do you like ?

Matt - I like all the other bands in Sweden like Storm and Barsarkarna etc and enjoy all bands who are seriously into N.S. My favourites are BFG, Centurion, Berserkr, Rahowa, and Nordic Thunder, my favourite Swedish band are Vit Aggression.

10. What plans have you for the coming year ?

Matt - Hopefully to play many gigs, sell alot of records and maybe record some new material.

11. Away from the band, what other hobbies do you have ?

Matt - apart from the band our hobbies include weight lifting, putting out leaflets and racial material etc and generally preparing for RAHOWA.

Also we have jobs which are : I'm a porter, Jim & Johan work in a factory and Micke is a butcher, and Biten is a Carpenter but both Micke and Biten have both lost there jobs.

12. Do you all get together each week for a drink etc ?

Matt - The skins in our town who have been skins for 8-9 years etc all stick together and drink together etc, but lately alot of youngsters are coming onto the scene and we have to take time out to explain our ideas etc and make sure they just don't turn out to be shitheads, the young ones seem to be popping up all the time now.

13. How can you see the Swedish scene developing over the coming years ?

Matt - We are getting stronger and stronger and the future is ours if we want it to be. We have a great amount of support for our scene and the leaders of racist units in each city are quite advanced in methods of propaganda. We will allHail Victory.....88...

14. What do you think of bands like Ultima Thule who have played Anti racist gigs ?

Matt - Bands like Ultima Thule have sold out and will never mix among our circles again, they are filth. they are now the worst piece of trash in this country. They are greedy capitalists and one day the time will come when they will have to pay for their crimes against our movement.

15. Any last remarks ?

Matt - The Fight Goes On!.

Dear Racial Comrades,

Firstly many thanks for buying this issue and to all the readers of British Oi-No.32 which became the best read British Oi to date, the first initial print of it going in a few days and the second print nearly out of stock means British Oi sold over 1000 copies, cheers to you all, it must be a good sign for white skins across the world, but a bad sign to our enemies "We're on the RISE". So keep up the great work of buying/distributing the best zine in the world, get our message across, get our word out.

Well this issue amongst other stuff contains a interesting interview with top Polish Blood & Honour band 'Konkwista 88' who have there recordings sold in most Polish record stores, roughly selling 15000 of everything they release and also a interview with Eric Owens from the US of A, who if you haven't heard of him, he plays Aryan folk music, ballads etc. Also of course the usual articles 'Right Handed News' the most informative news pages within our White Power scene, plus photos, charts, reviews and lots more, so read on and enjoy.

One last thing, British Oi has a few good comrades in prison who need envelopes, pens, stamps and money to help survive inside. These are comrades who were jailed fighting for our cause, they did there bit, now do yours, if you have anything that could help them out, please send it in to us, we'll pass it on. Until next time.....

VICTORY SHALL BE OURS.

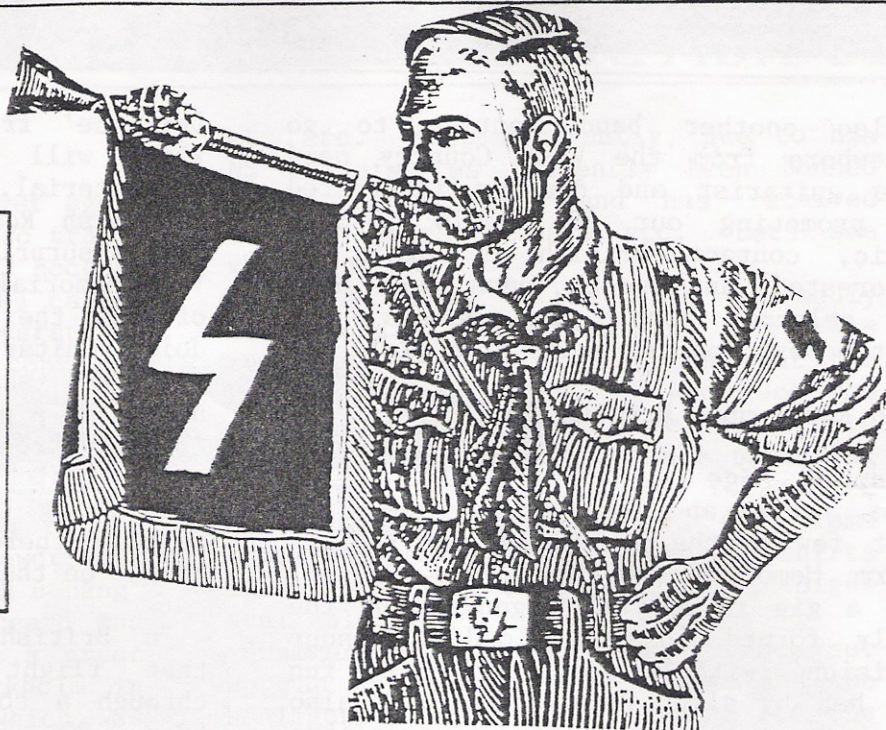

The British Oi Team.

"We're British people ,European people here to listen to a concert ,while the police are outside saying we can't have one. When down the road Public Enemy are playing ,saying 'Kill whitey' there allowed to play. You've got the Pogues on the other street saying 'Bomb the British people and up the I.R.A. ' Theyre allowed to play .SO WHY THE POLICE TELLING US WE CAN'T HAVE A GIG IN OUR OWN COUNTRY?

RIGHT HANDED NEWS!

Great Britain - Well as per usual alot of things going on.

We've had the well highlighted news of the return of high profile football hooliganism and the whole blame being put on to the shoulders of NS group Combat 18, with the media literally carrying out a witch hunt to find out who are the organisers etc. On Sunday the 19th February the newspapers were full of 'C18' and its allies i.e The Order magazine, Blood & Honour etc. Well guess what little dirty little scumbag raised his head to comment on C18 and its leadership? Well none other than the rip off merchant himself Neil Parish who once sold all the Skrewdriver Merchandise alongside Paul 'I've no band' Bellamy (AKA Burnley). This little bit of filth puts names to faces and literally has turned supergrass by informing to Police and all and sundry about all he knows. Christ what a fool. The papers were do I need to say wrong in 99% of what they printed. What will they blame on 'C18' next? The Rwanda war? the mind boggles, and as this goes to print 'World in Action' documentary program on ITV has broadcast a 'C18' insight which made alot of accusations about relevant comrades within our scene, it seems big brother is out to screw them something good and proper, as of yet the lads haven't been charged with anything but we await the inevitable

avalanche of charges to come soon through state pressure to silence 'C18'.

Onto music.....

New bands to appear at the up and coming St Georges Day gig will be new British bands 'Conquest' from Norfolk and 'Avalon' originally formed as '19th Twice', whats that I hear you cry, 19th letter of the alphabet is 'S' well twice is two 'ss', get it, well they are now called 'Avalon' after the ancient valley of Avalon of King Arthur, aswell as top USA act 'Das Reich' plus Squadron, Razors Edge, English Rose and Celtic Warrior, I hope the bar has an extension to 4 in the morning with all these?.

Going back to 'Avalon' from Coventry, well they have recently formed and are a 4 piece band but need a guitarist to make it a five piece for better sound, thay currently have a rehearsed set of 6 of there own songs - 'C18 are calling', 'Nations Hope', 'I Will give', 'Whose Education', 'They've taken our lands' 'With Unity & Pride' plus four cover songs from Skrewdriver 'Voice of Britain' & 'Tomorrow belongs to me' from Brutal Attack 'Rock against communism' and B.F.G 'Over the Top', watch out for them. As I say they need an additional guitarist, if you can help drop a line to British Oi and we'll put you in touch.

Also another band wanting to go somewhere from the West Country need a guitarist and drummer interested in promoting our NS ideals through music, contact British Oi again if interested and we'll pass you onto the relevant people, or speak to one of the West Country skins at a gig.

Band Round up - British News....

Razors Edge - having been gigging here there and everywhere over the last few months including the Violent Storm Memorial gig (See gig Review) and a gig in Belfast organised by the newly formed 'Ulster Blood & Honour Division' with a good turn out, fun was had by all. Razors Edge have also recorded two tracks for a Excalibur Records (Germany) compilation, called 'Skinhead (Take the streets back) and 'Europe Rising', two tracks that really rock along, surely to be crowd pleasers. They plan to record a new CD with Di-Al records of Germany soon and also one for ISD Records as they have plenty of new material.

Celtic Warrior - have also been just as busy, including of course the memorial gig they have gigged in Gloucestershire, London and Holland with New band 'Rune' with Nigel Ex No Remorse on guitar, this gig however turned in a mass punch up and so had to be cancelled. The Warriors have also been busy putting together there second CD 'Let the battle Begin' for Di-al Records but met with a small problem during the recording of it due to getting deported from Holland for allegedly trying to organise for Blood & Honour, that tickles me, In Holland you can smoke drugs, visit a brothel etc but can't be patriotic, seems the government must be making a mistake somewhere along the lines. But Celtic Warrior steam on, watch out for them at the future gigs.

Squadron - have also been busy with there new single out called 'Unter Dem Hakenkreuz' on a US label and recording for Resistance Records up and coming Ian Stuart tribute CD with the tracks 'One fine day, Open up your eyes and Stand proud', they also plan to enter the studio within the coming month to start recording 'Decade of

Defiance' fr Swedish label 'Nordland' which will be a mixture of new and old material.

English Rose - are back with a bang with a surprise appearance at the recent V.S Memorial gig with the addition of Dirk the Razors Edge guitarist also doing Guitar for the band. They have some new shirts coming out soon and also plan a project with Squadron called 'Bulldog Breed' to be done in the coming months which on all accounts will be a blinding CD. They also plan to re-release there second CD 'Flame still burns' on there own label.

In British Oi No.31 we advertised that flight jackets were available through a comrade who used the Razors Edge PO Box in West Bromwich. Unfortunately the jackets in the end fell through and the deal was off, Razors Edge would like to point out that they had nothing to do with this, but it was the responsibility of another comrade. All orders that were sent for the jackets will in time be returned and no cheques etc have been cashed at all.

Congratulations - go out to British Oi readers James & Caz of Inverness in Scotland on the birth of there baby girl Taylor born on the 28th Nov.94 weighing in at a healthy 7lb 8oz. Well done and wish wish you the standard British Oi wish - May your nights be sleepless, Cheers.

Also Congratulations to Jonesy of English Rose who recently married longtime fiancée Sue after his release from one of her majestys institutions. Cheers for the great party and disco at night, well done.

Would you believe it ? The Business, one of Ois most like bands recently played in Italy at a communist club in Bologna with left wing fools 'Klasse Kriminale' incidentally Alex of Battlezone is engaged to one of there members, going back to the Business, they even had a hammer and sickle on display. As a Italian comrade stated "There surburban rebels lyrics should be changed to - We wear the hammer and sickle, never Union Jacks', how true.

A look at the white world.....

U.S.A - Bound For Glory have yet again been extremely busy recording two tracks for a forthcoming Excalibur Records Comp. (Same one as Razors Edge) called 'Back in the Fatherland & Widerstand' which British Oi received a copy of, two thrilling tracks of heavy skinhead rock, incidentally 'Widerstand' is sung in German by Ed the bands guitarist, BFG have also recorded two tracks for the Resistance Ian Stuart CD (Same as Squadron) being Skrewdrivers 'If theres a riot and Back with a bang' which again in turn we have heard and think are great. It should be a great CD. BFG also gigged in Stockholm in Sweden to over 500 comrades which was caught on video by a joint venture of NS88 Videos with Nordland Productions which used 4 cameras for high quality, when we here more on that, we'll let you know. BFG also will play at a Metal Festival in Michigan with another 30 bands, last years festival attracted over 5000 people so this year it should be more, BFG have vowed to 'Win 'Em Over'. Some big metal magazines have also taken a keen interest in BFG including largely read 'Pit Magazine' from the states. BFG also plan to re-release there debut LP 'Warriors Glory' onto CD with two extra tracks, so watch out for that.

Lighthing Rod - the self styled Punky/Rock/Oi band from Colorado have ben intouch and sent us several samples of there music which although is slighty different to your avaeage music, its good. There latest CD White Uprising contains 4 tracks 'Revenge, A moment in time, stand and fight and Familiarity'. Dave Custer the singer of the band also does MSR productions, see advert elsewhere in zine, and wants to hear from bands as hes setting up his own label. Write to MSR Productions 6095 West 95th Ave, Wheat Ridge, CO 80033-3647, USA.

MSR Productions also promote and sell the Matt Duffy White Power Radio Show which is a actual radio show broadcast from a college campus in Fitchberg USA. British Oi has written to Matt for more info and we await it but the tapes MSR sell are great with a mixture of Oi, White Power Rock

etc etc. Matt apparently, due to his NS beliefs has presently been banned from the airwaves and has received several death threats etc. Lets see what happens.

Sheila Rowan - the wife of sadly lost Nordic Thunder singer Joe, was recently in touch to tell us that the Eastern Hammer Skins, of whom Joe was a proud member, has some collectors t-shirts and patches for sale promoting the memory of Joe. Send now for a list of goods to E.H.S, PO BOX 483, Toms River, NJ 08754-0483, USA - T-shirts 12 dollars, Patches 5 dollars, 2 designs available.

Hammer Head Productions - a new set up ran by Shawn of Max Resist and the Hooligans has a CD out soon, its the live recording of the Joe Rowan memorial gig in Detroit's Westside Clubhouse. The gig featured The Voice, Confederate Storm, BFG, Shamrock, Centurion, Aggravated Assault and Max Resist, 2-3 tracks from each band have been taken for the CD which promises to be one of the best USA releases of '95. All profits will go to benefit Joe Rowans children. Send 20 dollars for a copy to PO Box 1371, Rochester, MI 48308-1371 USA.

Patriot the USA so called Patriotic Oi band recently released a CD called 'Cadence from the street' on GMM Records and states on the back of the CD 'F*** off to all Fascist pigs', well we say this, F***k off commie scum. Avoid this CD like the plague, also on GMM records from Atlanta they have released a comp. CD called The USA of Oi Vol.2 with 20 tracks from 20 different bands, half of the bands are of mixed race and play crap music, the CD even has a black rapping song on it, avoid this too.

The Wretched Ones a band from the US I've never really like have released a CD on there own Headache Records called 'The Wretched Ones' which actually is really good. 16 tracks of fast roucous Oi music, one to get, tracks to watch out for on it are 'Working man' and 'The first song'.

Resistance Records have releases now by Max Resist called 'Renegade Youth' and New Minority 'White, Straight and Proud' get them now.....

Holland - a new band has formed namely 'Rune' and feature Nigel formerly of No Remorse and Celtic Warrior on Guitar. Rune will have two tracks on a future Di Al comp with the tracks 'Soldiers and Wigger'.

Sweden - as busy as ever, after promoting another successful show with Bound For Glory the Swedish Record labels have been busy, with Svea Musik releasing a split CD of Vit Aggression and Germans 'Freikorps', 3 songs in Swedish, 3 in German, 4 in English and 2 a mixture of Swedish/German. They also plan a follow up to there successful 'White Pride worldwide' CD with Vol.2 - 'White Solidarity' featuring Fortress, Brutal Attack, Vit Aggression and more. This will be out in June. Nordland have released there own glossy colour magazine which takes over from 'Blod & Ara' and is very similar to Resistances mag but in Swedish, but well worth getting. Nordland plan the release of the grea band Swastikas debut full length CD soon as detailed in British Oi No.32.

Australia - and Fortress have had a change of line up and have a new guitarist replacing Anthony and are auditioning new drummers. A new record mail order service will also be set up over there soon and also the first issue of the newly formed Aussie Blood & Honour Divisions magazine will be out, which although will cater for all the world will hopefully carry alot of Aussie news and action.

Poland and a up date on our band interview with Konkwista 88, they have now released there new tape called 'European songs of Glory' and is digitally recorded and gives off great quality recording, buy it. It will be on CD in early May.

Slovakia and yes we have yet another new division to our mighty Blood & Honour ranks, this time from the mentioned Slovakia. They have produced there own radical magazine with colour cover and have some great plans, write to them at PO Box 87, 850 07 Bratislava 57, Slovakia. Mention British Oi, as this with all enquires from reading this zine.

Germany - Well as per usual, lots happening in the Fatherland.

A new political group has been set up and its aim is unity and wishes to hear from NS comrades from across the world. They're called the 'Deutsche Nationalisten' - German Nationalists. If your interested write to D.N - c/o B.Penzholz, Uthmannstr 7, D 12043 Berlin Germany.

Friendship Records who produced the German British Friendship 'Songs of Hope' CD have an impressive list of merchandise available from T-shirts featuring Noie Werte designs to G.B.F designs, my favourite on the list goes to the design 'Mein Freund ist Deutscher' - My friend is German. Nice one. Write to them at Postfach 810264, 70519 Stuttgart, Germany. They plan a regular bulletin soon aswell to keep folk upto date on developments with there organization.

Freikorps the ever popular German band have a new CD out on Rock O Rama called 'Wie die Wikinger' and had a recent gig stopped by the Police who through the organiser in prison on trumped up charges. Kai of Freikorps will also record a full length CD this summer with Ken Mclellan for Excalibur Records. Excalibur incidentally were raided recently by the 'Thought' Police on charges of selling and promoting racial hatred. Apparently it was due to the fact that Excalibur sell some American CDs. They face fines to the equivalent of £6000.

Sad news to reach British Oi is that after the recent Violent Storm Memorial gig 4 German skins in attendance had a tragic car crash on the way home and sadly 2 died, one girl, one lad. The other two are seriously ill in hospital. Our thoughts go out to our lost brothers, such a sad coincidence to the Violent Storm crash that they were remembering at the gig. Sleepwell.

' From where one falls, one hundred will rise and carry on the fight, the fight for the survival of our glorious race'.

"You have to do your bit for Britain, some of you in here tonight may not be members of any political party, **but you must do your bit for Britain**, gather information of all the parties and choose whose right for you, but don't do nothing"

Ian Stuart - Waterloo Gig - London.

This minor speech above was one made by Ian at a gig in between songs. As it states, don't do nothing, do your bit.

Ian always encouraged unity, although he had personal differences with many people, he would never publicly denounce anybody, who was active amongst our cause. This small speech encouraged two comrades to British Oi! to join the nationalist scene and are now active people, doing a hellava lot for the good of Britain. They were inspired by Ian.

How true Ian was in his speeches, they always seemed to be thought of as second best to his music but for me as a Ian Stuart fan of many years, I loved to hear his opinions on people in the news, political strategy and more.

I remember with pride a speech Ian made concerning an attack by the AWB of South Africa on a governmental building, he was very happy at the way they had stormed the building and promptly took over proceedings to promote their nationalist views. Ian commented on how the scummy liberals suddenly came face to face with these strong AWB commandos and cowered in fear but trying to make out they had always supported Mr. Terre Blanches men in black. He commented on how the so called hard liners of the left, had scattered with fear at the sight of the whitenen.

Everyone listened, took it in, thought about it, surely to do this, its the work of a shrewd politician with a goal.

Obviously Ian was a musician, promoting White Pride ahead of his political career but I shall always remember his voice and the way he detailed matters.

Back to his speech at the beginning of this article.

Are you doing your bit? and fighting with all of your pride to save our national identity and historic traditions ?.

To achieve Ians objective we must all dig deep when asked to donate to funds for prisoners, we must miss the occasional episode of Coronation Street to get out leafletting/postering and we must keep up our fight for existence

Ian we will carry on the fight.

AND DO OUR BIT.

SKREWDRIVER

DID - U - KNOW

'Night Trains' the great ballad off Skrewdrivers last LP 'Hail Victory' was originally called 'Troop Trains'.

'The original cover for the "Justice for the Cottbus Six" CD was banned under German law as it featured Ian standing in front of three masked men. Apparently it was too subversive.

'Ian wrote a song about his past friendship with dead gay 'Nicky Crane' amply titled 'Bockwurst Eater'.

'Lemmy of Motorhead fame appeared on MTV for a interview and expressed his condolences to Ians family and friends soon after Ian had died'.

'That the night before the infamous Waterloo Gig in London, a black glassed Ian in the face, and stated "Thats your gig over then Nazi"- Was it over, Ian lost two teeth in the attack and still did the gig.'

'Ian & Stigger were made honourary members of the Veneto Fronte Skins of Italy.

KONKWISTA 88

Well Konkwista 88 are fastly becoming household names in there native Poland, with there very catchy form of white power rock, reminiscent of Skrewdriver meeting Cock Sparrer musically with very powerful lyrics and a rough voice. I thought British Oi could find out more..... All answers by Czerwony the bands guitarist....

1. When, why and where did you form ?

The band began in Wroclaw/Poland at the end of 1990/beginning of '91. We started as there were no other skinhead bands in our town.

2. Why the name Konkwista 88 ?

Konkwista in english means Conquest, this is our voyage to capture new lands, the 88 is nothing special, we like this name.

3. Whats the current line up and what jobs do you do away from the band ?

Our line up is Adam On bass/vocals, myself Czerwony on guitar and Glowa on drums. Adam studies history, Glowa electronics and I'm now unemployed.

4. How many gigs have you done and which were the best/worst ?

We've played about 30 concerts in Poland and Czechoslovakia, its hard to say which was

the best/worst. One of the best has to be one of our most recent in Wroclaw in Poland with Buldok & Diktator from Czechs and Squadron from England. We had a great time. Also we have good memories from gigs in Poland with 'Honor' and one a couple of years ago with No Remorse.

5. You have a CD out called 'Freedom or Death' are you happy with it and is it selling well ?

We're very pleased with our CD. Its selling very well abroad but in Poland CDs are too expensive so we sell compact cassettes and we've already sold 15000. My favourite track is 'Bramy Valhalla' as its dedicated to our friend Robert Lewy who died in a car accident.

6. In Poland, can you produce National Socialist literature or is it illegal??

In Poland the law are against us, we can't publish Nazi literature. Its a prison sentence if you do, some of the band and friends have been punished for fights against immigrants.

7. What other Polish bands are there ?

There are a few bands but the best band is a band called 'Honor'.

8. Where do you get your inspiration from?

Our music inspirations come from Skrewdriver and most Blood & Honour bands. Also Motorhead, AC/DC and Bohse Onkelz.

9. You have lived through a communist regime and now so called Democracy. Is it much better than before ?

Now it is much better, you can drink beer in the street, have a lawyer in court and Police just can't imprison you for no reason. But in the olden days, all the Poles knew who the enemy was, and who was your friend, now its not that simple, we have capitalism now like you've experienced for 60 odd years.

10. How large or small is the Polish skinhead scene ?

In Poland there are many skins, probably between 10-15 thousand, unfortunately most of them don't know whats going on, and are easily led by parties such as Polish National

KONKWISTA 88

Society (PWN).

11. It is said that Polish and German skinheads don't get along and have had several battles in the past on the countries border lines etc, why is this ?

It is the young skins are provoked by people like the movement PWN to hate the German folk. I have friends on both sides of the fence, German and Pole and they don't want aggro with fellow N.S folk, or fellow skins, the only people that profit normally are the Polish mafia who sometimes stir up trouble for there own ends, we need time to understand each other, we have a long history of violence between the two countries but now I beleive that we should all unite against the one common enemy of our lands....

12. Any closing comments....

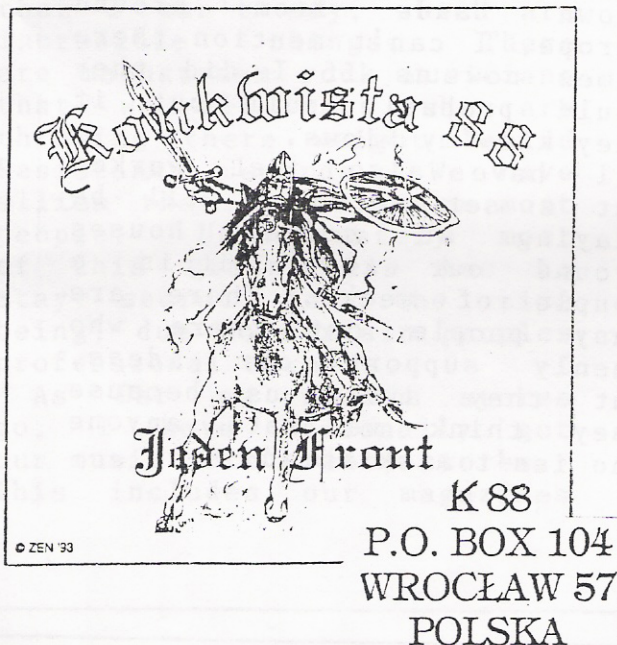

Greetings to all skins, except sharp and red skins in GB and the world. Unite together against zionism and immigration.

For a full list of Konkwista 88 merchandise of patches/CDs/Tapes/T-shirts etc write to K88-PO Box 104, Wroclaw, 57, Poland.

Since this interview was conducted, I am informed by the band that they have some new taped recordings available.

ERIC OWENS

Well heres a man who has brought a new style of music onto our white power scene with music which contains traditional values, folk, ballads etc.

British Oi has spoken to Eric on a few occasions over the phone but thought lets do a proper interview to find out what Eric is all about.....

1. Why did you decide to play Aryan folk, rather than the conventional skin bands etc ?

Eric - I grew up listening to folk music so I've always loved it. After my last band broke up 'Youngblood', I decided to get more serious about playing folk music. Bands are alot of hard work and often alot of personal conflicts. So I decided to record alone. Of course the shortage of White Power, Skinhead, Irish traditional musicians in Los Angeles was also a consideration.

2. What instruments do you use for the music ?

Eric - On my last CD, there was guitar, vocals, Tin whistle, Highland Bagpipes Bones and Bodhran. On my next CD there will also be some piano work, and I may add a Bouzouki player.

3. What previous experience have you had within the White Power scene?

Eric - I have been in several Oi bands over the years, Youngblood being the most notable as we had a LP out on Rock O Rama and appeared on No Surrender Volume 3.

4. How has your music been recieved and has it attracted more than just N.S people ?

Eric - Yes, it has been very well recieved by the White Power movement and it has also been well recieved by others. I'm getting regular radio play on an alternative radio show in France. From this I have done several interviews for various alternative music magazines in France too. Also I will appear on a French Alternative compilation, along with some fairly well known bands from around europe, I can't mention there names now as If I did they would probably pull out if they knew my views.

I have also just worked out a set which I will be playing at coffee houses around our town within a couple of weeks. There are many people out there who openly support our ideas, but they avoid us because they think we hate anyone who isn't a skinhead.

5. In the USA which political party would you suggest to europeans to support?

Eric - Even though its not a party, I would suggest supporting Resistance records in any possible way. They have huge plans for promoting the white race and the people involved are of sterling character and any help you give them will go very far towards helping our cause. Right now, I don't know of any political party doing as much to encourage white youth.

6. Which U.S bands do you view as the best ?

Eric - My favourite bands in the U.S right now are Centurion, Berserkr and Bound For Glory. I believe that these bands are going to break new ground for White Power music, and I think that things will happen, far bigger than any of us have ever dreamed possible for our music scene.

7. You state that Resistance will break new ground. Is this really happening?

Eric - Defeinitely, there impact has been more than they have stated, I personally know things that I can't say, which are incredible things. There are mainstream rock musicians that we all know who are throwing there weight behind Resistance records. We have allies that would amaze most people. Unfortunately most of this great news has to stay secret for the time being, due to certain peoples professional careers.

As far as record stores go, I have personally got our music into twenty stores. This includes our magazines

in newsstands, liquor stores, book stores etc. There are people doing this all over the country.

Believe me there are very big things happening and its only just starting.

8. On your CD 'Folk the System' you have a track called 'We will Remember' for I.Stuart. How did you view Ian?

Eric - Ian was amazing. He took a virtually dead movement and breathed new life into it. He turned a movement full of eccentric old weirdos into a vibrant youth culture...worldwide.

9. Have you any merchandise available ?

Eric - I have my CD 'Folk the System' for \$20 from my address and t-shirts from Pheonix Records.

10. What about gigs ?

Eric - I have played concerts with Extreme Hatred and at the last Californian Aryan Fest. Also on Tom Metzgers 'Race & Reason' TV show. All well received.

11. What are your future plans ?

Eric - To records more music and get across to more people who aren't curently involved.

12. Any last comments ?

Eric - Cheers for the interview. I want to say hello to all my English brothers. Write to me at : Eric-PO Box 45866, Los Angeles, CA90045-0866,USA

BRITISH OI! GIG REVIEW

Saturday 11th March 1995.
The Violent Storm Memorial Concert.
Wells, England.

Three years on since the tragic accident that claimed Violent Storm, the Welsh Nationalist band the lads Paul Casey, Darren Sheeley, Brian Sheeley and Jason Oakes will live in our hearts forever and through the music that is now carried on by Celtic Warrior. R.I.P Brothers.

As usual I was travelling with Squadron, all was going well until the mini bus' engine blew up, shit. Full marks to Micky of the Ovaltinees who stopped and picked up the drum kit, so that the gig could go ahead, even if Squadron couldn't make it. After two hours on the side of the road, the AA towed us back home, we changed transport and set off again, unfortunately we didn't arrive at the gig until 9.30PM.

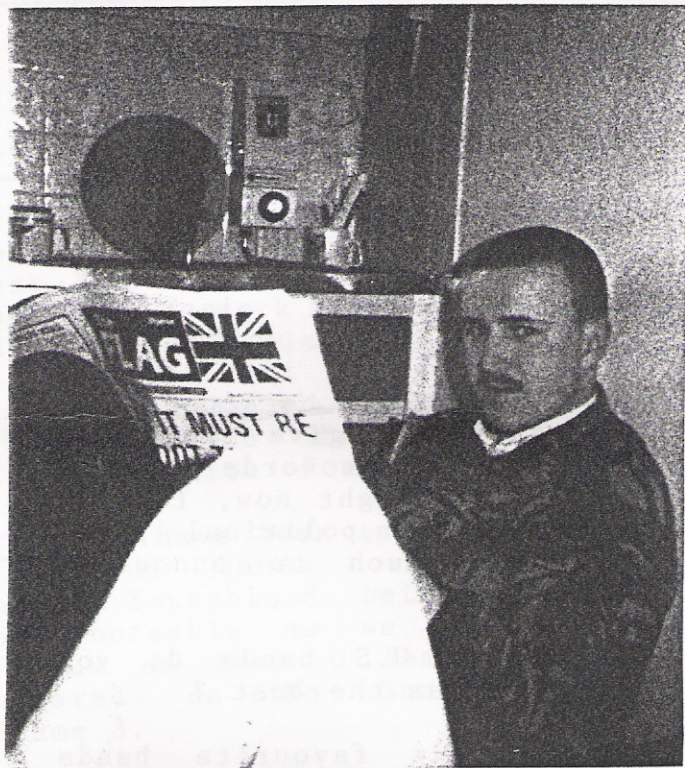

Billy and Celtic Warrior had already kicked off the gig blasting out classics like 'white eagles' 'land of my fathers' and then stopping for a couple of minutes silence in honour of Violent Storm. The crowd all fell silent for the duration and then cheers shook the building to "Violent Storm, Violent Storm, coming to reclaim you have been warned", the set continued with 'Brand New Day' and all the other favourites, great gig lads.

Next up....yep English Rose are back. Good to see Jonesy and the boys back on the road. They played a classic set including 'Never be Silenced' 'Wasting Away' and of course 'England belongs to me', but the best of the set was 'The voice of the right', the first time I'd seen it live, great job lads, keep it up.

Brummie Heroes 'Razors Edge' took to the stage, blasting through all the crowd pleasers such as 'The flag still flies' 'Marching On' 'No room here' and 'U.F.F' and excellent covers of 'The way its got to be' 'Free my land' which had the security struggling to contain the exuberant dancing in the crowd - nutters.

Next up were Squadron, as always opening with 'Hail the New Dawn', and ploughing through 'Our time will come' 'R.I.P' and 'Final Salute' onto 'Open up your eyes' and 'Master Breed'.

With the clock reading 11.45pm Celtic Warrior took the stage again and played 'See you in Valhalla' and White Reich finishing off a great gig and a great

evenings entertainment. Everybody there enjoyed the show and for those who weren't - where were you?? The beer was on plentiful supply at only £1 a bottle for Stella Artois and the night made sure our fallen comrades will never be forgotten.

Rock against communism is alive and kicking, special thanks have to go out to Smurf, Sean and Rolly for putting on the gig - Hail Victory.

REVIEWS

Nordland III - Svea Musik - Sweden.

The third in the series of Swedish comps featuring Swedish acts and this features 'Storm, Totenkopf, Asa and White Warriors'. Good stuff and well played music in the typical White Power style for example all bands obviously take influence from Skrewdriver. Nice CD layout etc - 8/10.

Lightning Rod - White Uprising - MSR Prod.

The third CD from up and coming 'Lightning Rod'. Only 4 tracks but catchy tunes and exciting lyrics make this a must for White Power music lovers, the style of the Sex Pistols meets Brutal Attack. Best track out of the four is 'Revenge' - 7/10.

Berserkr - Voice of Our ancestors - Resistance Rec.

The debut CD from the ruins of the Midtown Bootboys but with a mighty death metal type style but on the odd track especially 'Deutschland' the Southern Rock style of Midtown shines through. Not exactly the best CD since 'Hail the New Dawn' as the Resistance magazine stated but it is great. Tracks to watch out for are 'Berserkr, Bitter Harvest and Across the desert sands'. 9/10.

Ken McLellan & Stigger - Pride - LSD Records.

The best CD reviewed for some time, blinding CD of 10 tracks of ballads, rock and more including a very catchy song called 'Get yourself Tattooed' but Stigger and Ken have done especially well in the way they bring across the defiant message of 'Z.O.G - We are here to stay'. Best tracks are 'Sleep well my brother' and 'The drum and the bugle' the first sang by stigger the second by stigger and Ken - inspirational - buy it from R.I.D. 10/10.

Max Resist - Renegade Youth - Resistance Rec.

A well laid out CD from the new storm arising from the white power Oi scene still thumping away in the states. Renegade Youth is the debut CD from Max Resist & The Hooligans and it kicks ass. 10 tracks of raucous Oi with the tracks including '14 Words' 'Victory or Valhalla' 'Out on a limb' 'Boot Party' 'Flight Jackets' and my favourite on it the first track 'Max Resist'. Good to see a good USA Oi CD amongst all the recent thrashy stuff of which I am a fan but its refreshing to hear something different. 9/10.

Freikorps - Wie Die Wikinger - Rock O Rama.

The lasted offering from one of Germanies finest bands of late. 11 tracks of Rocky Oi tracks German style. Tracks include 'Wieder Mal Sommer' 'FFF' 'Alter Freud' and my favourites 'Wie Die Wikinger' and a tribute to lost comrade simply named 'Erik Banks', the language barrier obviously hampers the enjoyment but all in well done. 8/10.

Dear Racial Comrades,

Many thanks for buying this issue of the worlds longest running skinzine issue 34.

No.33 out sold No.32 as the highest sold ever, so we're on a roll, make this issue even more widespread, ask your mates if they'd like a copy, buy in bulk, we do excellent rates, but do your bit and promote our mighty Blood & Honour scene.

Onto this issue.....

We did plan on including a Max Resist & The Hooligans interview but sheer space to provide this has delayed it until No.35. Its a cracking interview, so watch out for it. But this issue does contain a great Brutal Attack come Ken McLellan interview, a interview with new Norwegian band 'Vidkuns Venner', a article on top USA band Berserkr, a article on John Amery a brave man who formed the voluntary unit of the Waffen SS British Div, plus charts, news, reviews, photos and more, so read on,

Until No.35, stand proud,

Der sieg wird unser sein!

The British Oi Team

Sir Oswald Mosley addressing an out-door post war rally held by the *Union Movement*.

FOREVER MOSLEY

The day we heard that Mosley died,
a part of us died too,

What a wonderful leader this land
might of had,

If the many had followed the few,
He could have had a easy life,
instead he chose to fight,

For the good of dear old England,
Its people to unite,

But time was running out, the war
came to intervene,

If that had never happened who
knows what might have been,

Maybe others yet unknown will end
the struggle started long ago,

And reap the harvest from the seeds
we set to grow,

As we give a last salute and say
a sad farewell,

We say god bless you Mosley, in
our hearts you will forever dwell.

VIDKUNS VENNER

VIDKUNS VENNER are a up and coming Nationalist band from Norway, and are slowing gaining good support in this country, lets find out more...

1. Could you tell us a bit about how you formed etc ?

V.V started in '93 under the name Rinnan band, named after Henry Rinnan Norways most well known 'Torturist' during WW2. In the autumn of '94 we had to chang our name because the family of H. Rinnan were suing the band because the name is protected under the law.

2. Why the name 'Vidkuns Venner'?

Vidkuns Venner means in english Vidkuns Friends after Vidkun Quisling the Norwegian NS leader of old. The reason for this is we wanted a NS related name.

3. Could you tell us about some of your songs ?

We have recorded 3 tracks under

the Rinnan band name - namely 'Til kamp mot zog' (In battle against ZOG), Blitzhuset Brenner (The reds house is burning) and 'Jan Holthe Rap' (About a traitor). As V.V 2 tracks 'Norge er vart' (Norway is ours) and 'Odin Herre' (Odin Master). All these tracks are on BootBoys Vol.1 a CD by Bootboys Rec. Norway.

4. From who do you get you political and musical influences ?

Our political influence from Vidkun Quisling the great leader murdered by ZOG and musically from Skrewdriver, Metallica, Vit Aggression and No Remorse.

5. What gigs have you played ?

We've played gigs with a few local bands and have a gig this summer with Svastika, Varas and Berserkarna.

6. How is the Norwegian NS scene?

The Skinhead/NS scene is now bigger than ever, we had a house in Oslo where we all got together for a great time. In February some red scum had a demo outside, but we chased them away. Then the Police surrounded our house and stormed it, they beat some of the girls and one ended up in hospital, they stole our t-shirts and CDs.

7. What parties are there in Norway worthy of support?

Fedrelandspartiet(Fatherland Party), SI (Stop Immigration) and Zorn 88.

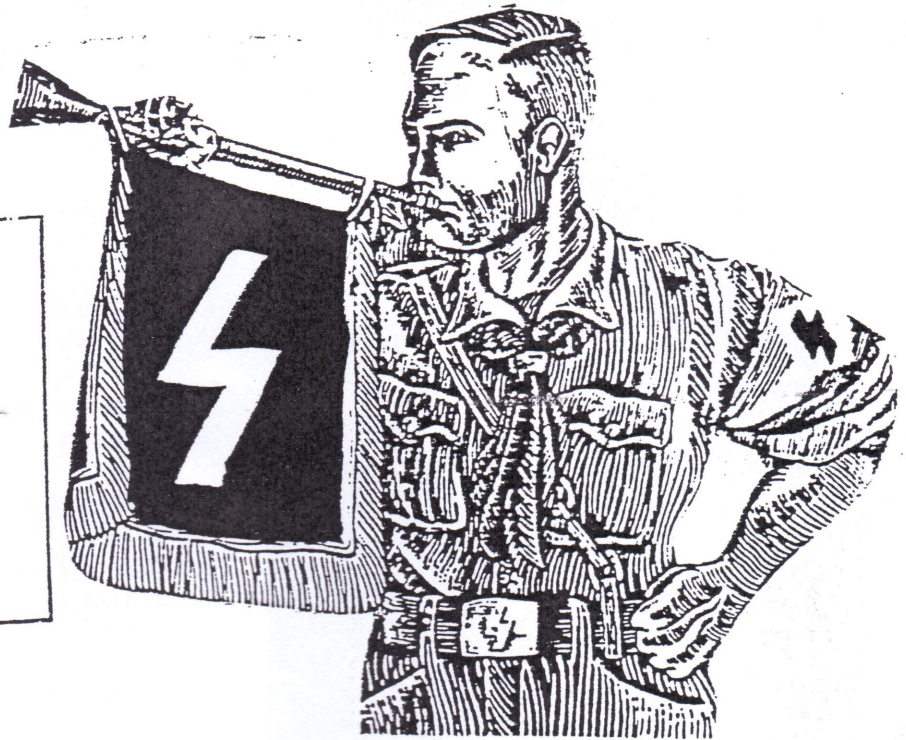

8. What merchandise have you ?

We have t-shirts and sweaters, one with the Rinnan band logo (a skin shooting a ZOG) and one with Vidkuns Venner logo and Eagle with Sunwheel on. Also the CD as mentioned.

9. What are you future plans ?

We are going to record two tracks for a CD called a 'Tribute to Quisling', contact Bootboy Rec. at PO BOX 72, 3053 Steinburg, Norway.

RIGHT HANDED NEWS!

Well where do we start off this ever increasing article 'The Right Handed News', well lets start at home, whats going on.....

On the political front, the future looks good for National Socialists in Britain. The National Socialist Alliance (NSA) has been launched with a few extremely good meetings of debate and plans for the future were discussed and solid foundations have been laid to make the NSA work, basically the NSA is a grouping of many groups, note the Alliance, all putting forward there views and opinions on policies, street activities etc, but individually worked as the NSA has no leader to boss you about, if you want more Info on the NSA write to Derby NSA, PO BOX 249, Derby, DE21 9EG, this isn't the official nationwide address as I believe a HQ is yet to be settled but Derby NSA will let you know a bit more, but start up a cell in your city or town, promote our glorious white race. So far some Klan groups, BM groups, all of the Blood & Honour official units, some BNP units aswell as C.18 have pledged support, we're on the rise.

We've had enough of the BNP/NF rhetoric, and sheer lack of development, when the BNP/NF start doing something worthwhile then fair

dues but until then in British Ois view stuff 'em.

Still as to this date no charges have been brought against the C18 lads who were raided some time back, they have however been charged with GBH on a Lesbian School Teacher from Halifax on farcical evidence, who if it was with anyone else the case would've been thrown out, but as the Oualtinees once sang 'British Justice ?, there aint no f**k*n British Justice!'. But as things develope we'll keep you upto date.

Onto music.....

In GB ISD have released the 'Victory or Valhalla LP' on CD but with a additional 10 or so extra tracks, remixed and actually turned out brilliant, also with a well designed cover of Viking artwork/photos. They plan a best of Skrewdriver CD soon with 20 tracks featured, then possibly a best of ballads CD, featuring not just the Patriotic Ballads but ballads off Skrewdriver, Klansmen and White Diamond CDs like 'Mist on the Downs' 'Memories' 'Freedom(What Freedom) etc. So the future looks good. Its rumoured that a USA label may now release the Police conviscated CD 'Skrewdriver - Live at Waterloo' CD but we'll have to see.

Blood & Honour are also working

BRITISH OI!

on a book about Ian Stuarts life entitled 'Ian Stuart - Martyr' or something along these lines, if people can help out with any photos, any fond memories of meeting Ian, seeing Skrewdriver etc then please let B&H know, contact them at B&H, BM Box 5608, London, WC1N 3XX. Talking of books the 'Ian Stuart Everlasting Songs' book once sold in the UK, printed by Belgiums Excalibur Books is now banned in Britain, France, Germany and now Belgium I think due to the lyrical content of 'When the Boat Comes In' so if you had bought a copy, its now a collectors item.

A St.Georges Day come Adolf Hitler Birthday celebratory gig was held in Cambridgeshire this year and attracted well over 400 people to hear the bands 'Avalon, English Rose, Celtic Warrior, Razors Edge and Squadron', the crowd were great and no trouble occurred, lots of beer drank etc, good to see a large amount of new faces at the gig, showing that B&H is marching on into the year 2000. New band 'Avalon' played a tight small set which included Skrewdrivers Voice of Britain and Tomorrow Belongs to me aswell as there own songs that included a catchy song called 'C18 are calling', the crowd really took to them, it must be said how improved the sound quality is at gigs now, clear as day. Best band of the night were Celtic Warrior who did a very rousing set which had the crowd going wild, there set included a great new song called 'Let the Battle Begin' the title of there next CD which is very influenced by Brutal Attack styles on 'I got the power', as rocky as hell. English Rose also had the crowd going crazy with a cover of the Cockney Rejects 'Oi Oi Oi'. Next gig, make sure your all there, they're really improving, good venues, good comrades, good music.

A recent gig at the beginning of June was held in the West Country with Celtic Warrior & Razors Edge playing, yet again filling the hall and a good night had by all.

Big news is there will be a Summer Aryan Festival in England this year,

the destination will be known nearer the time but it will go ahead as this time we have two back up venues aswell as farmland for the initial first option, keep your ears peeled for this, don't miss it. British and European bands will play.

Onto band news.....

Celtic Warrior have been busy in the studio and have finished there second CD entitled 'Let the battle begin' which also features Stigger the Ex-Skrewdriver guitarist on Lead Guitar. Speaking to Billy the singer of the band recently he called it his best recording to date, beating there debut CD 'We will never forget' which has in its self gained a mass of favourable reviews. Songs on the new CD include 'Destiny' 'Shadow of the Wolf' and a song for fallen brothers in Violent Storm and Ian Stuart called 'For those who've gone before'. It should be out in August on German label Di-Al Records. While in the studio Celtic Warrior also recorded two tracks for a up and coming Di-Al Compilation CD, they recorded a remix of there cathcy song 'Celtic Warrior' and also a cover of the Skrewdriver classic 'Our pride is our loyalty' out soon. To contact C.W write to PO BOX 214, Cardiff, South Wales.

Bulldog Breed the new British band composing of Squadron and English Rose members have finished recording there CD entitled 'Made in England' see reviews for more on that, but it will be released on there own label called 'Dignity Records', its a Oi type of based CD and has turned out great. Write to Squadron Services, BM Box 46, London, WC1N 3XX for more info.

English Rose have been hastily catching up on lost time and plan to go into the studios soon to record a new single for a new USA label anyday and it will feature a remix of two tracks one called 'When the lightning strikes' which never saw the light of day, it was recorded for Skull Records of Germany. Also for Skull they recorded 'The Flame still burns' which they've redone

with new lyrics and have dedicated it to Ian Stuart. They also have three new designs of t-shirts available, one being a very eye catching Polo shirt. Contact English Rose for info at PO Box COA 19, Coalville, Leics LE67 1DS. Also English Rose will be billed in the large French gig planned for July alongside fellow Brits Squadron, Italians ADL 122 and more, contact UJV of France for info.

Squadron aswell as doing the Bulldog Breed 'Made in England CD' have also been preparing to go into the studios to record there 'Best of' type CD for Nordland of Sweden called 'Decade of Defiance' which will contain mostly old tracks rerecorded but also some new tracks for good measure. This I think should be out be late Autumn.

Razors Edge have been busy as of late aswell gigging up and down the country and have put together enough new material for two new CDs which they will soon be doing, one for ISD Records and one for Di-Al in Germany, as of yet not known to British Oi is there song titles or CD names.

Avalon from Coventry who played there debut gig at the recent St. Georges Day concert have had a line up shuffle as Aky the drummer has had to part ways due to personal problems, but Avalon carry on and have found a replacement and they should be entering the studio to record two tracks for the next Blood & Honour comp. CD Vol.2 in the coming month or so.

Talking of Avalons debut gig at the St. Georges Day do as already mentioned British Oi has discovered the gig was digitally recorded and may actually make it onto a CD, lets wait and see.....

Onto other news from across the globe....

Freikorps from Germany recently played a mini tour of the states and played alongside bands such as

Bound for Glory and the Bully Boys, we shall feature more on this in British Oi 35.

Slovenian comrades report a new Blood & Honour division has been formed and they plan to release there own B&H zine 'Kri In Cast' Blood & Honour in Slovenian, there also a great skinzine from there called Skinhead, write to Ervin, Segova 18, 68000 Novo Mesto, Slovenia for more info.

Theres a great new distribution network thats up and running in Norway called 'Nordeffekter' which stocks a wide range of merchandise including your very own British Oi, contact them at PO BOX 104, N-2060 Gardermoen, Norway.

Its been reported to British Oi that Yugoslavian band 'Direktori' have released a second CD but NS Skins have blacklisted it as it was funded by ZOG.

The Hammerskins who are growing by the day have a zine now available as there official voice called The Hammer Press, if you'd like a copy send \$3 to PO BOX 24084, Little Rock Ar 72221, USA.

Across the border into Canada, Resistance Records boss 'George Hawthorne' was sentenced to 12 months in prison for attacking a red women in Toronto two years ago, he has been bailed out further to an appeal hearing but look destined to do some jail term, but by all accounts the Canadian Judicial system is very leniant. Resistance in the meantime have released 'Renegade Youth' by Max Resist and 'The best of ' No Remorse. Also a bumper issue of there magazine is out now - No.4.

Resistance also plan to release a CD of Death metal type music by NS bands called White Death.

Bound for Glory recently played a gig Milan, Italy with several hundred in attendance.

Nordic Thunder have put the finishing touches to there final release after the shooting of singer Joe Rowan and its called 'The Final Stand' and includes 10 tracks never released on CD before, \$15 from N.T, Dept. B.Oi, PO BOX 9441, Newark, DE 19714, USA. Support this.

German authorities are really getting nervous about the rise of the NSDAP/AO movement from the USA as they've formed a Police unit just to try to combat its rise in the fatherland, they have been able to contact Danish ZOG to extradite the incarcerated NSDAP leader Gerhard Lauck to Germany, to face crimes against the people, or something along these lines.

Also in Germany a recent beer garden party by skins was stormed by the Police who were kitted out in full combat gear complete with machine pistols as they thought it was a nazi gathering, luckily a car full of 'outlawed' CDs etc got away before any serious charges could be made, a comrade in attendance expressed how disgraceful and unhumane the treatment towards skinheads is now in the country, this zine is now deemed illegal in Germany, not due to its content but the symbols it contains, such is democracy!

Its seems Australian National Socialists could face a hard time soon after Aussie ZOG made it clear new laws will be passed to stop any racism and jail terms will be handed out to anyone even saying racist comments, one wonders, will they outlaw rap Black power bands too?

France has seen an explosion of Skinhead bands throughout the country with as many as 15-20 bands now actively rehearsing etc, this summer the NS youth movement plans a festival of these bands so keep your ears open.

Well thats all for this issue, Right Handed News will be back next time, until then.....14 Words.

Late News....Late News Just in.....

Squadron have just faxed our office and have told us more about there forthcoming Nordland release 'Decade of Defiance', its now complete and has 18 old tracks, rerecorded which include 'all the classics' i.e 'No Red Flags' 'Our time will come' 'Behind a White Mask' etc and also 5 new tracks namely 'A fine day to Die' 'No Surrender' 'Vote with a bullet' 'In our lands' and a song written by Ian Stuart and musically composed called 'A sense of honour'. The old material has been speeded up to suit there new style and under better quality recording.

One last thing to think of, life is seeming hard for White Power bands well spare a thought for a band called Mayhem a thrash band, there old singer called, wait for it, 'Dead' killed himself in April '91 and the band put out a tribute for him on a CD, they've just brought our a new CD called 'Mysteries of Satan' dedicated to there know murdered guitarist, are they jinxed ?? Something to think about.....

BRUTAL ATTACK

The following interview was given to British Oi! by now defunct Skinzine 'Rampage' who we would like to thank.

Brutal Attack are one of the most well known bands the White Power scene has ever known, but where have they been over the last couple of years.....

1. The first question has to be Where are Brutal Attack, are you still together and whats the line up ?

Ken - Yes B.A are still very much together, although we haven't played live since we returned from our North American/Canadian tour in late '93. We have as you'll probably know released a album 'Conquest' and have since finished the follow up called 'Valiant Hearts'. The line up is....

Ken McLellan - Voice, Danny Hooper on Guitars, Merv Shields (Ex Skrewdriver) on Bass and Tim Dogg on Drums.

2. When can we expect to see you live again ?

Ken - We have a gig planned for Frankfurt soon but England we're not sure, we have one planned but at present the details have to be

kept secret.

3. You have mentioned the U.S/Canadian tour, how did it all go ?

Ken - Our whole tour was a great success. The U.S bands have greatly improved over there during the last few years with the best undoubtedly being B.F.G. Theres no one in the world to touch them. Each gig we were well received especially the final show in Montreal.

4. We know you've been busy of late with the 'Pride CD' alongside the charismatic Stigger and also a while back the German British Friendship Volume 2, how did they all go ?

Ken - Yeah Stigger and I did the Pride CD on I.S.D RECORDS which has turned out brilliant. I wrote the lyrics, Stigger the music. The GBF was good we had a great time, there are plans for a follow up later this year.

5. How come Conquest was released on German label Excalibur and not Rock O Rama ?

Ken - There is no relationship with Rock O Rama anymore. We are solely signed to Excalibur which is run by a very good friend of mine.

6. Over the years you've released a handful of releases etc. What three tracks would be your favourite ?

Ken - We've actually released nine albums and countless other tracks on singles, comps etc. My personal favourites being.....

1. Always Near - McLellan/Hooper
2. White Pride/White Passion - McLellan/Whittington,
3. As the drum beats - McLellan/Heywood.

7. Whats there to be expected from Brutal Attack in the near future?

Ken - As mentioned, new album, possible gigs and more.....

8. In your early days you were very much Punk, what are your fond memories?

Ken - Of course almost all memories of early B.A are good ones. They were good days and we've been here all through the emergence of B & H and R.A.C.

9. How did the change from Punk to Rock influence come about?

Ken - Just sheer natural progression.

10. How did you first meet Ian Stuart and what effect did it have on your life?

Ken - I first met Ian in '82 in Skunx a club in Islington, London. We were a right wing punk band and Ian came to see us play, and then asked us to support Skrewdriver, we agreed and Ian and I became firm friends.

11. You've already stated you've been through the emergence of B&H/RAC well what have been the best days?

Ken - I think the early days of R.A.C after the split from the National Front (NF) and the forming of the now world famous grouping Blood & Honour. Regularly playing to crowds of 500-600 people with bands Skrewdriver, Sudden Impact and No Remorse.

12. Do you think the scene will survive?

Ken - Most definately as the young bands now are much better than we were at there aga.

13. What is your top 5 songs?

Ken - 1. Suddenly - Skrewdriver,
2. Alright Now - Free,
3. Bad Company - Bad Co.,
4. The Snow Fell - Skrewdriver,
5. Pretty Vacant - Sex Pistols.

14. Any closing comments?

Ken - Thank you everyone for the support and patience over the years.

BERSERKR

Almost seven years after the release of the Midtown Bootboys demo 'Boot Party 88', original members Rip (Bass) and Tony (Guitars) are united once again. Original Midtown singer Chris Jones continues his federal sentence on trumped up charges of conspiracy to violate civil rights. His scheduled release is in January '96. He is a man that will not be broken.

Together with Chuck (Vocals) and Stacy (Drums) a new band was formed in Dec. '93 called **Berserkr** a name chose as they felt it captured the violent and powerful style of there music and a message of the ideas the represent.

Only three months after forming Berserkr were signed to Resistance Records and in turn a full length album was recorded entitled 'The Voice of Our Ancestors'. Though the album features new versions of two Midtown Bootboy classics, the album as a whole bares little resemblance to the old material. Great production quality with a deep death metal influenced sound has indeed broke through some new barriers for the white racialist music scene.

They are inspired by such bands as Pantera and Black Sabbath and lyricly by the tales of old, the Odinist religion of which they all support as a way of recapturing our heritage and spirit of folk which has sadly been repressed.

Berserkr made there debut gig performance in Sept. '94 at the Resistance Records organised gig in memory of Ian Stuart, in Milwaukee, Wisconsin, to a enthusiastic crowd. They have since played several gigs with non White Power bands in their local area.

Currently they are back in the rehearsal studio writing new material for their second Album which will be recorded roughly now.

They have some great t-shirts available so drop them a line and support 'Berserkr'... at PO BOX 4242, Tulsa, OK. 74159-4242, USA.

Skinhead teenagers accused of killing parents and brother

The photo on the left is one of Bryan Freeman one of two White Power Skinhead brothers accused of murdering there parents and younger Brother.

Bryan Freeman (17) and younger Brother David (15) whose family home was based in Salisbury Town, Pennsylvania, USA, who are both over 6ft and 16st in weight were arrested in Hope, Michigan after a 500 mile two day cross country chase in which they were tracked by the FBI.

They were arrested with there cousin a fellow skinhead Nelson Birdwell (18) where all three were taken to court in shackles, chains and under armed guard. Bryan has the band name 'Berserkr' tattooed on his forehead and David has 'Sieg Heil' on his Eyebrows.

They have been charged with three counts of murder of there parents and younger brother who were all stabbed and bludgeoned to death, Police picked up knives and other weapons at the home believed to have been the murder weapons.

Both Bryan and David were followers of the 'Christian Identity Movement' a kind of Christian NS movement in the US led in Eastern Pennsylvania by Mark Thomas.

As of yet British Oi doesn't know of the outcome of this trial and puts a plea out to American readers to keep us up to date with its proceedings which we will bring directly to you.

This article does in no way condone the murders of any family and prints it to give its readers the news of whats happening in the skinhead world.

If they murdered the family in cold blood they must accept the ultimate sentence of death as should all murderers.

As British Nationalists we must promote the view of Capital Punishment.

A Salute To John Amery

The Britisches Freikorps or British Free Corps (B.F.C) were the voluntary unit of the Waffen SS obviously made up of British Soldiers who were convinced of what side they should be fighting on. The article that follows details of the origins in small detail of the great man who had the hind sight to found a British SS - John Amery.....

John Amery was the founder of the 'Legion of Saint George' and also the founder of the 'Anti Bolshevik League', both of which later became the British Free Corps Waffen SS Unit, or Britisches Freikorps. Amery would boldly stand up at British POW camps across Europe and try to unite a Army to fight alongside the Germans to defeat the Communists on the Russian Front.

John Amery came from a prominent British political family, he was the son of Leo Amery who worked for Churchills government as Minister to India. John Amery was working in Paris at the outbreak of the war, and spoke out strongly against communism and the international zionist finance at meetings of the Right Wing Fascist based French Peoples Party. When War broke out the French Peoples Party organised the 'Legion of French Volunteers against Bolshevism', which at its peak amassed an incredible 25,000 Frenchmen into battle on the Russian Front.

At this time of war breaking France was officially still at peace with Germany but England had declared war against the Fatherland, thus with this the Germans hesitated in allowing Amery to create a British Legion Against Bolshevism, but as the war progressed at last in Feb.'43 Amerys plan was officially accepted and he started speaking to the POWs. He wanted his force to wear regular British Uniforms but the Germans insisted they wore German SS uniforms with

the Union Jack flag in a shield on there arms. The BFC as it became known never amounted to many and acted as a support unit, i.e helping out in bombing areas, clearing debri etc, to driving convoys of German supplies etc but played an important role in a small way contributing to the German war effort.

Amery resigned in '43 from the BFC but his fate had been sealed by the pro-communist Labour Party which took over England immediately after the end of the war.

J.Amery was captured in 1945 in Milan, Italy, returned in irons to England and tried as a traitor to the British Folk although he pleaded he was a wholehearted British Patriot, his claim was to unite and fight the communists to liberate the world from its evil clutches. Amery was found guilty and hanged at Wandsworth Prison on Dec.19 1945, a true fighter, a great thinker, true to the very end.

It should be noted he also fought alongside the Nationalist forces in Spain under direction of General Franco.

REVIEWS

'In Hoc Signo Vinctes' - Svastika - Nordland.

The long awaited full length CD from one of Swedens finest bands. Well worth the wait. 10 powerful White Power tracks that include 5 Swedish and 5 in English, both as good as each other. Tracks to watch out for are 'In Hoc Signo Vinctes' 'De stupades blod', the powerful catchy 'Runes of Power', the song for Mandela 'Hang him High' especially the catchy chorus and the best of all 'Racewar', with words like 'You say discussion we say, what for, we solve this problem with a pure....war' brilliant. The CD also includes there tribute to Ian Stuart in the form of 'Streetfight'.....10/10. Nordland can be contacted at PO. BOX 1088, S-114 79 Stockholm, Sweden, Price £14 inc.P&P. Great cover layout etc.

'Ragnarok' - Skullhead - I.S.D Records.

The latest release from ISD in the form of long lost Skullhead LP 'Victory or Valhalla' with an additional 11 tracks. The Victory or Valhalla was only 5 tracks you see. On this classic 16 tracks of great Georgie White Power rock. Tracks to watch out for are 'White Slag' 'The Voyage' 'Good Times' the explosive 'Victory or Valhalla' and the brilliant timeless 'Memories', the tale of what Skullhead think of the IRA. Buy it now. Well laid out CD with a great Viking burial photo on it.....10/10. £12 inc.P&P from BM Box 5608, London, WC1N3XX.

'Faith & Fury' - Mistreat - Ainaskin Rec.

The debut CD from Finlands 'Mistreat' on new Finnish label 'Ainaskin Records'. First time I'd really listened to Mistreat and I must point out they're a powerful Oi band, sort of 'Guttersnipe Army' meeting 'English Rose'. Well onto the CD 19 tracks all in all which include 'Veteran' 'Troubles' 'We must be ready' 'Now's the time' 'Faith and Fury' and the best I believe is a catchy bop along track pop pickers, not 'arf mate 'Fourth Reich'. CD is £14 inc.P&P from Ainaskin Music, PO BOX 158, 00701 Helsinki, Finland.....8/10.

'The Best of..' - No Remorse - Resistance Rec.

Now before you all scream, Why are you giving No Remorse publicity during the current situation we have with Paul Burnley in the UK, I'd like to point out, I was sent this CD as a promotional gift from Resistance and news that all profits

and royalties will be given to Sheila Rowan the wife of lost Hammerskin Joe (Nordic Thunder). Therefore its a good cause. Onto the CD..... Well presented with full songbook the CD captures the better of No Remorse recorded in the USA. 16 tracks in all that include 'Son Of Odin' 'This time the world' 'Race Traitor' 'One folk, One faith' 'Under the Gods' and my favourite 'Keep it White'. Rerecorded in much heavier rocky vein. Available from Resistance Rec. PO BOX 24700, Detroit, MI 48224, USA.

'Wenn Wir Marchieren' - German Battle Hymns.

A great CD full of marching music from the Third Reich days, well produced and high quality adaptation of this great stirring NS music. Full lyric booklet. Produced in association with Excalibur Prod of Belgium and ISD Rec. For more info write to BM Box 5608, London, WC1N 3XX.....8/10.

'Made In England' - Bulldog Breed - Dignity.

This is a review of the actual tape of the forthcoming Bulldog Breed CD, a variety of band members from English Rose and Squadron brought together to create a fast rocky/oi classic on there own self funded label 'Dignity'. Tracks to watch out for are the punching 'Made in England' 'We Hate You' 'Fact Or Fiction' and remakes of Oi classics 'Oi Oi Oi' and 'Taken for a ride' but the best has to be 'Proud and True' a stirring Aryan ballad. Out soon, buy it, £12 inc.P&P from Squadron Services, BM BOX 46, London, WC1N 3XX.....10/10.

A well recorded video that starts off showing all the stalls etc at the gigs and progresses onto the bands, top performances from Svastika and Division S are overshadowed by the sheer brilliance of the mighty Swedish band Midgard Soner who really know there music, brilliant. A rousing reception of Right Handed Salutes welcomes on the mighty BFG, from here there no stopping Ed and the gang, all the classics are there, the great thing about the video is you feel to be a part of all the excitement, Buy it or miss out on a great.....10/10.

RIGHT HANDED NEWS

Well here we are again for another instalment of the highly excitable news pages 'Right Handed News' the most upto date news pages, there are on our mighty Blood & Honour scene, lets start at home....

Great Britain - alot of new developments on the home front, and with the new goings on, the future does look quite interesting.

WARLORD is the name of a new Midlands band, made up of two ex-Skrewdriver musicians, namely Stigger on guitar and Mushy on Drums, Mushy drummed of the great Hail Victory CD, and Cat, formerly head of Skrewdriver Security on Vocals, and Graham formerly of White Power band Avalon from Coventry, who have sadly split. The lads have chose the name Warlord as a tribute to Skrewdriver and of course Ian Stuart. So far the band have had a few practices with all going well, with the lads rehearsing the full set of songs off the Hail Victory CD for there debut gig at the Ian Stuart Memorial Concert in the Midlands this year. After this gig, I believe the lads will work on new material aswell, but to get established, as I say will play the Hail Victory songs.

Also Stigger will, by the time this goes to print, have played a Patriotic Ballads gig in Italy with Steffan of Noie Werte, we

shall hopefully have a review of that gig, next issue.

NO REMORSE have reformed but without the popstar himself Paul Burnley. The line up consists of Ex-No Remorse members who have stated, that they are sick to death of Pauls complete anti-unity stance and how hes using the Blood & Honour scene for his own ends, as they stated in a recent issue of National Socialist magazine 'The Order' "The name - No Remorse - belongs to the band, not Paul", fronting the band now is Big Jacko who stood in for Paul at the White Xmas gig in Mansfield, Nottinghamshire in 1992. Jacko looks the part, and is said to be alot better singer too. The band will also be debuting at the Ian Stuart Memorial Gig in September, with a set of Old No Remorse songs and there own, new stuff. They will be recording tracks also for the forthcoming compilation CD 'Blood & Honour Pt.2'.

SKULLHEAD have effectively reformed and too, look set to play at the Ian Stuart gig, they have a new singer also, but the line up is pretty much the same as before, Skullheads recent release on ISD Records called 'Ragnarock' is available for £12 inc P&P, £13 overseas, from PO BOX 86, Sunderland, SR1 1LO, England, with

all cheques and P.Os made payable to 'Skullhead'.

AVALON from Coventry have sadly split after only one gig, due to personal problems within the band, but as mentioned in the Warlord news article, Graham the guitarist of Avalon is now on Bass with these. It is rumoured however that Avalon will record a couple of there tracks for the next B&H compilation CD, one of the tracks being the catchy 'C18 are calling', also springing from Avalon maybe a new project of ballad type material, from two of the band members, we'll keep you upto date on this.

RAZORS EDGE have been busily rehearsing new material in preparation for there next CD entitled 'Whatever it takes' but we believe it will not be recorded until late this year and will be on the ISD label, they are also in the studios as this goes to print, recording two tracks for a up and coming compilation CD on German label Di-Al called 'No more brothers wars' with Razors Edges' contribution being two tracks 'Let us not forget' about Rudolf Hess and 'Hands across the sea'.

CELTIC WARRIOR are busy as per usual and we will keep this report short as they have a page article elsewhere within this issue, but Billy of the band is finally bring out the lost classic CD 'Violent Storm' CD and Di-Al wil soon release Celtic Warriors second CD 'Let the battle begin', see write. The band are hot on there heels, after gigs in Ulster and Derbyshire.

ENGLISH ROSE are busily taking time off from a recent hectic schedule to concentrate on new material for a forthcoming CD on ISD Records leter this year, as of yet untitled but will contain tracks with names such as 'By any means necessary' and 'Our race ia all'. English Rose have also been approached by Excalibur Records of Germany, Nordland Records of

Sweden and a new Portuguese label, all concerning contributing tracks for compilations coming soon.

The band also planned to have two tracks recorded and sent off to a new USA label, but have had alot of hassle from the studio they used, apparently the recording engineer doesn't mind the music being done, but hates the lyrical contents. The tracks being 'When the lightning strikes' and 'the flame still burns' dedicated to Ian Stuart.

SQUADRON - have as per usual been busy and have completed there 'Best of' CD 'Decade of Defiance' for Nordland Records of Sweden, which contains all the favourites plus new material, but with Jimmy singing it all rather than old singer Lenny, and new drummer 'Oh god, is that, that bloke from Motorhead' - Lemmy the stixman. Squadron are billed on this years Swedish Aryan Festival in September and have recently completed gigs in Derbyshire and France, alongside British counterparts English Rose, Italys' ADL 122, Viking and more.

I.S.D Records will by the time this is out will have pressed the first volume of 'The best of Skrewdriver' and it contains the tracks - 'Built up knocked down, Boots and Braces, Back with a bang, Showdown, Blood & Honour, Tomorrow belongs to me, Voice of Britain, New Boss, Europe Awake, After the fire, Old Albion, White Power, Hail Victory, Free my land, Snow fell, House of treason, White Rider, 46 Years, Hail the new dawn, Anti Social, Stand Proud, Sick Society and Our pride is our loyalty'. Also to coincide with the CDs release ISD will be bringing our several new Ian Stuart/Skrewdriver posters, and a colour songbook for the CD. Buy them, Volume 2 will follow as Ians works are not that easy to cram onto one CD, also a best of 'Patriotic Ballads' is planned, also repressings of previous ISD releases 'Skrewdriver Hail Victory' 'Squadron - Combat,

Battle and Burn' and 'Blood & Honour Vol.1' 'Ken & Stigger - Pride' and Skullheads - Ragnarock' will all be available again after alot of people have missed out on them, and demand being high.

For the rest of Britains news.....

A very successful Blood & Honour Social was held in Oldham, Lancashire, with a good crowd in attendance and most importantly showing the reds, that B&H is alive and kicking in a area that has been quiet for such a while.

The Order magazine, R.I.D mail order and ISD all plan to release full colour catalogues of merchandise soon...

A new 100% Blood and Honour supportive fanzine will soon be released from Leicestershire, with the emphasis being placed on promoting the White Race.

Blood and Honour Scotland is now up and running and has already staged a very successful social evening and plan gigs soon, if your Scottish and want to be in 'The know' write to B&H Scotland, PO Box 2206, Glasgow, G33 4NQ. They also sell fanzines such as British Oi, The Order etc, plus CDs and there own t-shirts etc, write to them now, they have also released a Scottish B&H bulletin, support them!

It has come to our notice that Oi record labels around Britain and Europe have been promoting the 'F**K Reading' and 'Punk and Disorderly in '95' music festivals to be held in London and Belgium. Both gigs have band line ups, including 'Sham 69, Anti Pasti, One Way system, Chelsea' and many more, now to the point, the gig adverts promote the slogan 'Love music, Hate facism' - they are against us, don't go to these gigs, they are money making scams, British Oi states 'Love your race, take

pride in your race'.

Also Oi distributors 'One Stop Music' also known as 'One step Records' promote a CD called 'Oi a world invasion Part 2', this CD contains the same motto 'Love music Hate Fascism' but also photos of bands that include 'The Templars' that include immigrants and a picture of a band from Belgium or Holland canoodling in the shower nude, only men too, the CD itself is on Spanish commie label, Bronco Bullfrog, who also promote The Oppresseds new EP 'Anti Fascist Oi' - more like 'Anti Hetrosexual Oi' - don't buy there goods, and let them know why!

Lastly to conclude the British news on a lighter note, Squadron have informed us to tell readers to watch out for a TV programme called 'Kavanagh QC' in which two of Squadrons security team appear as members of some false 'Nationalist group', keep your eyes open.....

Onto world news...

U.S of A ...Well as per usual, theres alot of stuff happening on stateside.

Berserkr are in the studios now recording there second CD for Resistance Records entitled 'Crush the Weak' which promises to be more thunderous than there mighty first CD 'The Ice man has risen again'. Resistance also plan to release a double CD tribute to Ian Stuart soon which has modern day bands doing covers of Skrewdriver tracks, bands include Berserkr, BFG, Squadron, The Voice and many more.

Freikorps the German band toured the states and played gigs in three states with the highlight being the gig in Texas alongside the Bully Boys. One of the gigs however was stopped due to Police harrassment.

Bound For Glory have sensationally left Resistance Records after

problems over royalty payments. BFG has since signed a deal to do a CD for both Di-Al and Excalibur as a joint venture between the two firms. The CD will be called 'Siegfried'. The Voice have also left Resistance due to the same reasons and have released on their own label a great 4 track EP entitled 'Aryan Warrior' but contains a track done originally by a British band called No Remorse 'Backstabber' and they have dedicated it to Ken Mc of Brutal Attack ?? Why. Aggravated Assault have also been busy on new material and have a new crowd favourite called 'Natural Born Killers' which incidentally coincides with Warren the vocals of the band have a large 'Murder' tattooed on the back of his head.

Well done to the Hammer Skins in Italy and Switzerland over the large collections raised and donated to Joe Rowans wife Sheila and two children. White Unity in action.

Hammerskin Press is a well presented skinzine and is the voice of the Hammerskin Nation, for a sample send \$3 to PO Box 24084, Little Rock, Ar 72221, USA, also another good US zine is Warriors Call and is also \$3 from PO BOX 247, Cheswick, PA 15024, USA.

Also MSR Productions offers a wide variety of nationalist material from CDs, EPs, T-shirts and more, they are also the contact address for US Band 'Lightning Rod', write for a list at MSR, Dept. B.O, PO BOX 1291, Wheat Ridge, CO 80034-1291, USA.

Eastern Europe... In Czech Republic a new band called ZAST 88 have recorded a demo, and Excalibur and Buldok have both recorded for Nordlands new release 'White Pride World Wide Vol.2' and newly formed label Warriors Records now has rights to duplicate ISD material on tape, write to them at PO Box 70, Trutnov 4, 54102 Czech Rep.

The Slovenian Skins made themselves known at the recent Blood & Honour gig in France where ADL 122, Viking, English Rose and

Squadron played by chanting continuously 'Slovenia, Slovenia' and Squadron dedicated 'Our time will come' to them all.

Slovenias magazine 'Kri in Cast (Blood & Honour)' will soon be available.

In Russia, the Moscow division of Blood & Honour have been in touch to tell us how they are getting on. They have started a magazine called 'Up to Zero' and although completely in Russian, which looks like everything upside down, the format is good. There is also a Moscow White Power skinhead band called 'Russian Ghetto'. British Oi will see if we can find out more about the size of the Russian Skinhead movement.

In Poland 'Honor' the second best band to 'Konkwista 88' have released a CD called 'Steel Revenge' and contains tracks with such titles as 'In the day of triumph' and 'Born White'. New band 'New Order' will soon record a demo called 'Racial Purity'. Apparently the Polish scene has really ballooned to a massive size getting the authorities extremely worried about the amount of National Socialists there are.

New record label 'Streetrock' have just released a CD single by Germans 'Kahlkopf' called 'Zeichen Der Zeit', if British Oi is correct, we believe it is Skull Records under a different name, so beware, if not support them, write to Karlstr.68, 73312 Geislingen, Germany.

After alot of Police bans and events getting stormed by ZOG a gigged happened in Germany with well over 800 in attendance to see bands Idee Z, Sturmwehr 08/15, Endstufe and Foirtoss, new band Idee Z from Berlin apparently unknown had the crowd going wild dancing.

Long running German skinzine 'United Skins' has been forced to stop and shut down its PO Box by the Police after raids on its editor, any mail sent to them now will fall into our enemies hands, BEWARE!

Celtic Warrior

Let The Battle Begin

Also at a similar time Celtic Warrior are releasing 'Violents Storm' long delayed CD, 'Celtic Warrior'. The CD was due to be released on French label but due to the sad and tragic death of the band 'Violent Storm' it never made it to them, the only survivor of the car crash was Billy now singer of Celtic Warrior and he has the data tape to release the CD through ISD Records. Everyone should buy this CD out of a mark of respect for the sadly lost and fondly remembered comrades, all proceeds will be going to the fallens families.

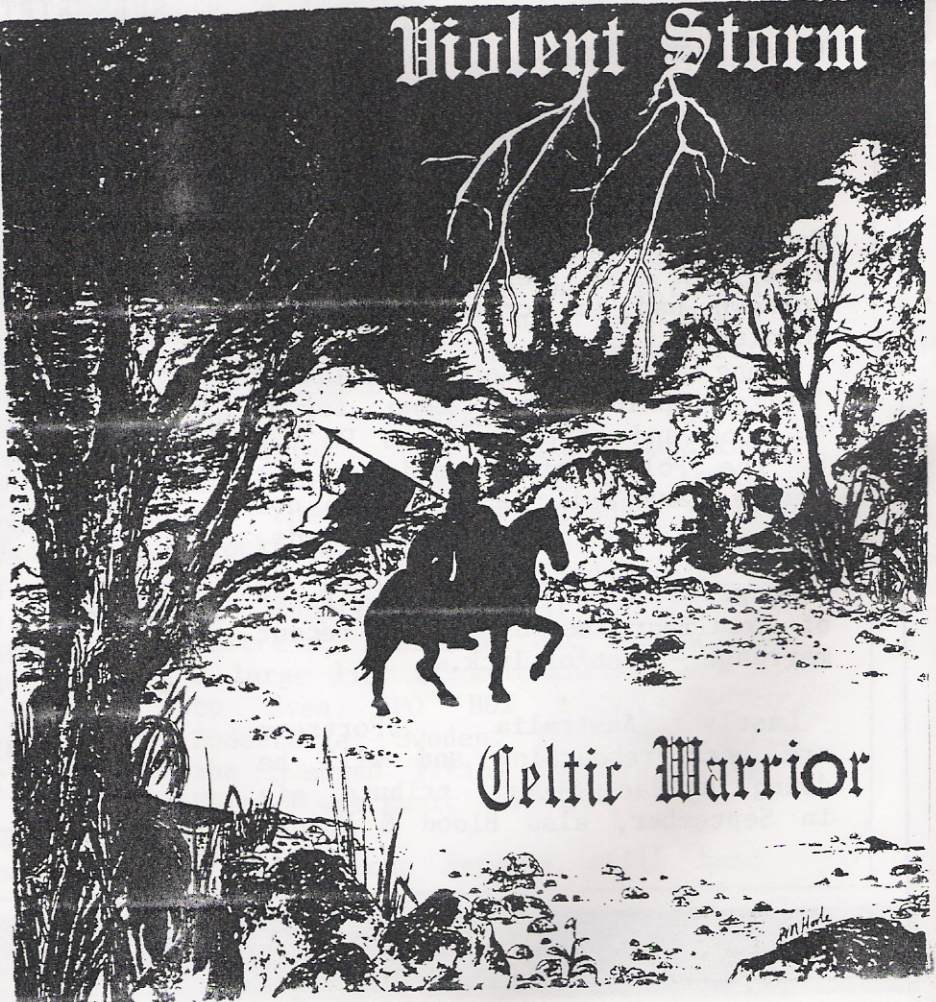

Onto the CD, it contains 15 rip roaring Oi/rocky tracks, that include such titles as 'The price of freedom' 'Armed Forces' 'Time Bomb' 'The right to be proud' 'Stand or hide' 'Europe of the peoples' 'No cause' and more with my favourite being 'Under Attack' a track about the way the media treat us all. Buy it soon.

Celtic Warrior have also recorded two tracks for a Di-Al comp with the tracks being Skrewdrivers 'Our pride is our loyalty' and 'Celtic Warrior' the bands anthem.

Celtic Warrior, the now well known Welsh Blood & Honour band, have a hectic schedule of releases planned for the coming months, as shown, these pictures are copies of the bands CDs.

On the left is the bands second CD 'Let the battle begin' and will be released on German label 'Di Al' Records soon, it contains nine new tracks with titles such as 'Hail the Warrior' 'Under the rule of ZOG' 'Destiny' 'The Dragons Roar' 'Freedoms Flame' and 'Whites with Attitdudes'. British Oi! was given a tape to review of this CD and its great. It shows the natural progression the band have made, and they now sound very rocky, helped incidentally by Stiggers guitaring on the CD. The best tracks in British Oi's view are definately the title track 'Let the Battle begin' a very catchy number and the very direct approach of Whites with attitudes'.

Aryan Holiday!

When the masses are holidaying on the isles of Crete, in Spanish concrete hell holes like Benidorm or shouting and screaming at other drivers trying to tackle Paris by Car, then think of somewhere meaningful, thorough breed Aryan families can go and enjoy his countries Heritage, its panoramic views, its exciting seas, its sheer history, well the British Oi Family this year invaded the legendary coastline of North Cornwall and the town where supposedly King Arthur reigned the nation in Tintagel.

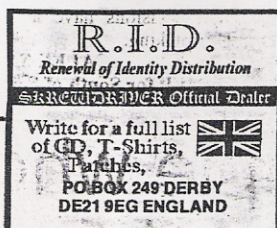

The area has of course all the facilities you'd want, i.e - Plentiful amount of Pubs, camping areas, caravan sites etc but mainly we went there to view the historical ruins of Camelot Castle, Merlins (The Wizard) Cave, and various other sites such as Slaughter Bridge, the great mystical Stones of Bodmin and more.

If you've ever been to this part of the world, the first thing I noticed was how clean, refreshing and near as damn it, how 100% white the region is, crime is near zero and the hustle and bustle of everyday life is thrown away for tranquillity and enjoyment.

Each gift or souvenir shop is all of Celtic origin and boasts posters, t-shirts etc of King Arthur, Excalibur and more.

We spent a week there and will definitely be going back.

Visit somewhere worthwhile and learn about your land, go back to your roots and take it all in, like me, you'll love it.

POEM

The following poem was given to British Oi! recently by Paul of Nottingham Blood & Honour, if you a poem, send it in....

One seed can start a garden,
One drop can start a lake,
One doubt can give us something,
To channel all our hate,

That seed will grow into a tree,
Standing strong, to protect you and me,
There so proud for all to see,
These are my dreams,
My dreams set us free,

The lake emerges a stream, that flows
into the sea,
Pure and fresh like our country,
Never drying up, just like our hate,
If we don't act soon, it'll be too late,
For all our dreams, to set us free,
Now our dreams become reality,

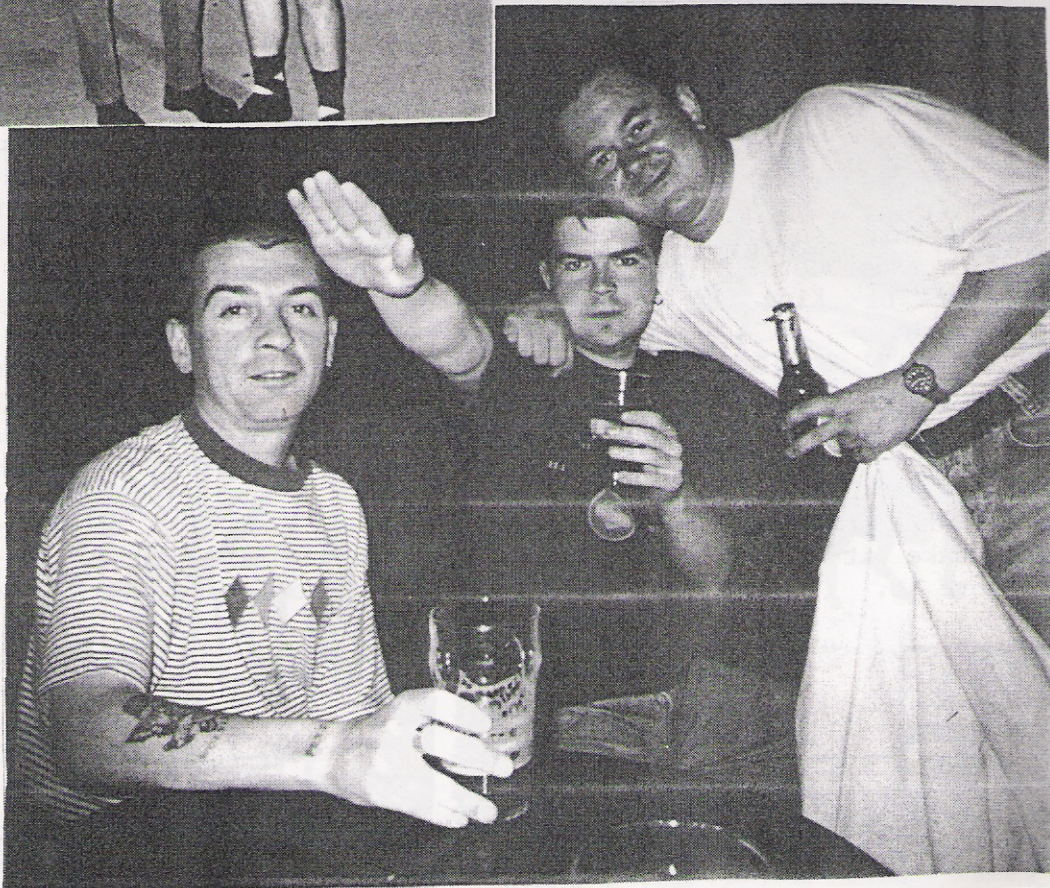

If I give you something to channel
your hate,
Will you act now, seal our nations fate,
If we stood together, we'd be so
strong,
Millions of us Aryans, can't be wrong,
Our hate grows stong, just like the tree,
Planting a forest of people, like
you and me,
When our branches spread across the
world,
And as we gain control, watch our
banners unfurl.

Max Resist

Max Resist are a US band that originate from the state of Michigan and have now established themselves as one of the best Oi bands on the USA network. We sent along the following interview to Sean the bands singer.

1. When, why and where did Max Resist form ?

Sean : We first started jamming together in late '90 in a town just North of Detroit. I had already been in a band (Hakenkreuz) and wanted to try again. It wasn't easy finding people to play in a band that was gonna sing about Skinhead White Power and the like but eventually we made it happen.

2. Why the unusual name of 'Max Resist and the Hooligans'?

Sean : At first we had no name, we had been together for 6 months and felt we may be ready to play a show, so we started to think of a name. We talked about other bands names and after a few laughs, Maximum Resistance came up, shortened it,

sounded like a persons name, we liked the idea that our band could have a name of a fake person, that also means 'a great effort to overcome evil in our time', it can be said in many different ways, we added the Hooligans as a joke, you know like 'Peter & The Test Tube babies or 'Herman & The Hermits' etc. but thats starting to become too long and old, so from now on its just gonna be 'Max Resist'.

3. Who has given you the most inspiration since

you started the band ?

Sean : Thats a good question. With so many good bands around now, its not easy to come up with new ideas and material, we have tried hard to create our own sound and to stay original but many people like to compare us to the older Oi bands and label us a Oi band. We are influenced by alot of old Oi! bands but also new bands like BFG, Fortress, Rival and the Rogues, aswell as many others. We never try to imitate though but do acknowledge the great work of bands we love who first attracted us to the scene like Blitz, Last Resort, 4 Skins and Skrewdriver. Without a doubt Ian Stuart has been our greatest inspiration - Hail Skrewdriver.

4. How many gigs have you done?

Sean : Oh, well thats not too easy to answer. It has to be between 30-35, our shows are normally good and we've had no exceptionally bad ones but the best ones that stick out so far are our first gig near Chicago

BRITISH OI!

with Aggravated Assault, Voice, Rival Final Solution and BFG, this was alot of fun, and also a gig in Montreal, Canada with Brutal Attack, BFG, Aryan, The Voice, Rahowa and Aggravated Assault. There was about 700 people there and they were a tough crowd, but we got them moving and had a great time.

But I must tell you our most memorable gig was last summer, a outdoor gig, where everyone was really drunk and we were on last, it was really late, Warren the singer from Aggravated Assault and "Hammer Joe" from Nordic Thunder were messing about by the big Bonfire. They had a can of Petrol and kept filling up beer bottles with it and throwing them into the fire, one of the bottles bounced off a log and landed on the stage, where we were playing, catching the amps and stage on fire, we kept playing and only missed one verse of one song we were playing as it was quickly put out, a crazy night.

5. How did your debut "7 single sell 'Traitors Beware' ? and were you happy with it ?

Sean : We were really pleased with the finished product with it being our first release and all. It sold out of its first pressing in 7 months, I'm not sure if it'll be repressed, you'd better write to Krowbar Records at PO BOX 40383, Baton Rouge, LA 70835-0383, USA.

1. Could you tell us about your new CD on Resistance Records and was was it delayed for so long?.

Sean : The title of our CD on Resistance is 'Renegade Youth' and my favourite tracks on it are 'R.J.M' 'Bootparty' and 'Romantic Violence', well I like them all but I'm kinda biased, with it being our band.

It was delayed for a couple of reasons, one being that last year we did over 12 gigs and had no time to go into the studio and another reason was we had to teach our new bass player and drummer the songs but also Resistance likes to time there releases with there publication 'Resistance Magazine' and because Berserkr and Centurion came out last time, we had to wait, but its out now and we hope everyone whose bought likes it.

7. Which USA political groups offer good reading etc for interested British National Socialists - WAR, KKK, SS Action?

Sean : All the groupings that you have mentioned have made alot of news in the past but with Gun rights being challenged currently alot of white people have been joining whats called state Militias which claim to be non-racist but the amount on non-white people in these militias is nearly zero. The ADL (Jew Group) and Federal government are very worried about these groups who are constantly training in paramilitary operations

and stock piling weapons and ammunition. It'll

interesting to see what happens next, maybe another 'Waco'?

I don't know.

(Since this interview was done, the Militia group in Max Resists state 'Detriot' were linked with bombing by a white supremacist on a

federal building.

8. How is the skinhead scene in your area and do you get much aggro off enemies such as reds?

Sean : There are lots of active skinheads in our area and a couple of good bands like Sham Rock and Rival, who have now split up. The commies steer well clear incase we hurt them again. Black gangs can be bad trouble so we avoid them. The media is our worst enemy and then theres the cops, but as we are so subversive, they find it hard to keep up with us.

9. What do you hope to achieve over the coming years ?

Sean : We want more shows, record more songs and perhaps see Skinhead music become more popular. We want to show young white kids that its OK to be proud of your race and historical back ground which you don't see much of anymore.

10. Any merchandise for sale?

Sean : Yeah we have some t-shirt designs and of course our CD, write to us at PO BOX 08-1371, Rochester, MI 48308-1371.

11. Any closing remarks ?

Sean : We would like to thank British Oi for its interest in the band and to all our comrades across the globe for the constant support, people like Ted Dunn of the SS Action Group, and we hope everyone gets the chance to buy a copy of our CD/Cassette, thanks again - '88' '14 Words'

THE MOST HATED SYMBOL

The following article was originally written by the active US - NS movement the SS Action Group.....

Two thousand years ago, the most hated symbol on earth was the cross. The most hated idea was christianity. The early christians were persecuted, crucified, and fed to the lions in the Colosseum for their beliefs. In those days it took guts to stand up for christ, christianity and the cross. The arly christians stuck with it and finally won.

Today nearly two thousand years later, the most hated symbol is the Swastika. The most hated idea is national socialism, and NO man dares mention the name Adolf Hitler favourably without fear of persecution. Adolf Hitler stood up and proclaimed that he loved his Aryan/White race and how we must fight for its survival to make sure it never perishes. This is what Adolf Hitler lived and died for under the banner of the Swastika. The 'Hated' Swastika is no more a handicap for us, than was the 'Hated' cross to the early christians. The truth is never a handicap.

Like Jesus Christ in his time, Adolf Hitler is the most lied about man on earth today. Nowhere can there be found favourable words about him, only lies and hatred. Like the early christians before us, we will rise from the depths of persecution and hatred to rescue our race and bring to all the white people of the earth the ideas of the greatest genius in two thousand years....Adolf Hitler.

The SS Action can be contacted by writing to PO Box 67, Dearborn Heights, MI 48127, USA. They sell political propaganda materials, music, t-shirts and lot more, they are also extremely street active, get involved.

BRITISH OI! REVIEWS

Not many to review this issue so I thought I'd delve into Sweden and see whats on offer, I'll review the non Swedish material first.....

Rock for our Destiny - Comp.CD - Excalibur Records.

A long awaited compilation but well worth it, 13 tracks all in all, 2 from each of the following Bully Boys, Freikorps, Wolf (Ken of B.Attack with Kai of Freikorps) Viking, Bound For Glory, Razors Edge and one track from Nordic Thunder.

Tracks to watch out for are Skinheads (Take the streets back) by Razors Edge and a very powerful rocky track 'Thought Control' by the brilliant Bully Boys. But as it goes a great CD not a bad track on it, Nordic Thunders 'Change of Scenery' is brilliant, Vikings (France) 'Stop Immigration' very catchy and 'BFGs - Widerstand' with Ed singing in German powerful. Buy it ...Excalibur Postfach 100672, 44706 Bochum, Germany.

Bound For Glory - Warriors Glory - BFG Productions.

A rerelease of Bound For Glorys' debut LP on Rock O Rama now on there own label and on CD, great to see it on disc and a couple of extra tracks too and a better cover (inset card etc) 14 tracks all in and ones to watch out for are 'Capital Punishment Now' 'Onward to Victory' '100% White', Buy it from BFG PO BOX 6773, E.St.Paul,MN 55106, USA.

Nordic Thunder - Final Stand - Own label.

The last CD by Nordic Thunder and what a blinder, brilliant, 9 very politically uncorrect songs, some rereleased off the change of scenery single but most not released before, tracks to watch out for are 'As the tension grows' 'The truth will set you free' 'Gun Control' and 'IRA/ANC'. A fitting tribute to Joe Rowan - murdered by scum. Buy it from Nordic Thunder, PO Box 9441, Newark, DE 19714, USA.

Stronghold - Demo.

I had this tape sent to me recently

by a comrade in London - Cheers. Stronghold are a Skinhead White Power Death metal band from Las Vegas, this is a 4 track demo, and when I say fast and heavy I mean it, tracks are 'As the battle rages on' 'Crush the hordes' 'Dismembered' and 'Hate Corps', best being 'As the battle rages on', very different but good, write to them at PO Box 338, 3675 S.Rainbow Rd-No.107, Las Vegas, NV 89103, USA.

Now as I stated I bought a load of Swedish material which I shall summarize, cheers to Marcel and NS88 for donating some, British Oi supporter No.1.....

Svenskar'.....'Morbyligan - Tors Aterkomst' on Mjolner Records is the cult swedish rock bands latest offering, brilliant stuff, very norse influenced, tracks to watch out for are 'Asgard' but I knew the music from 'Tuesdays Gone' by Lynyrd Skynyrd but great anyway, 'Den Maktige Tor' 'The mighty thor' and 'Frejas sang' big band, great CD, for the rock lovers out there.....Heroes in the Snow - Thats how is goes making trouble with me' is the bands second but I must say, no way near as good as the first but it does grow on you, a bit heavier in sound and the singer is different, but still rocky music, tracks include 'Destroy' 'Zombie' 'I stand Ready' and 'Thors Hymn', on Ragnarock Records.....Ragnarock Records again and this is called 'Valhalla - Rock for Sweden Pt.1' bands are Volund Smed, Pluton Svea, Karolina and the Svea Skins and lastly Heimdall. Thunder in the cities and Mr 9 to 5 are covered on this CD, good cover designs and booklet.....'Ny Tid' Midgards Soner on Ultima Thule Records. A great CD with powerful music and lyrics, includes a track redone off Romper Stomper called 'Romper Stomper' also brilliant tracks 'Ny Tid' 'Stop the Madness' and 'Fight for Victory'.....Lastly a brilliant CD by Pluton Svea called 'Genom Kamp till seger' classic tracks are 'Civil War '94 and 'Sweden Arise' see competition.

LOCATION : DERBYSHIRE

DATE : 29. 7. 1995

BANDS : Celtic Warrior, English Rose and Squadron.

Well the day had come for a gig in Derbyshire as we hadn't organised one for a while.

Somehow the communist scum of the Anti Nazi League had got a sniff of it and for some reason thought it was a Rock Venue in Derby, that some of our comrades drink at, so on the day the ANL (or ANALS as we prefer to call them) announced they would stop the gig from going ahead in Derby.

A small but loyal contingent of the British Oi Team went down the town for a drink before getting taxis to the venue of the gig only to find roughly 40-50 ANALS of the lowest form possible chanting and screaming abuse at anything remotely Aryan in appearance. This is true, they were chanting - "We will mix, we want drugs, we don't want no Nazi thugs", says it all about them really, our principles of true National Socialist ideals, a pure race, a pure spiritual existence, no multi racial, not drug infested, I rest my case, needless to say the locals actually opposed this fools, well done Derby.

One look at our crew and the Reds scattered, say no more, 1-0 to us, then onto the gig.

A small but familiar venue we got to and obviously sampled a few fine ales, and onto the bands, which for them must have been bad as in the crowd of roughly 250 people it must've been over 100F in heat. But they went on.

Up first was Welsh boys Celtic

Warrior who if you've seen them have an electric set tracks included 'Celtic Warrior' 'The Dragons Roar' 'White Eagles' 'Ole Ole' the No Remorse cover and also a cover of the Brutal Attack classic 'Let it burn', Billy asked the crowd "Any requests ?" - "Let the battle begin" we shouted and into it with the might of Thor they led...Brilliant...Get there new CD out soon.

A short pause and Leicestershire Blood & Honour Oisters were up on stage 'English Rose' - like Vikings gone Berserk they entered into a fast list of English Rose and cover versions. Set included 'Wasting Away' for imprisoned comrades, 'Never be Silenced' 'Rock Against Communism' 'AWB' and covers of 'Blood & Honour' and 'White Power' C.84s 'Skinheads' and Cock Sparrers 'England Belongs to me' all received well with a good strong mob of lads dancing even in the incredible heat. One of the best shows I've seen English Rose do to date, heavy, fast, clean sound.

More beers, more chat and onto headline band of the evening 'Squadron'. an exciting start of the set brought us the vicious heavy song 'Death before Dishonour' which led into 'R.I.P' 'Behind a White Mask' 'Our time will come' 'Just like sheep' 'Unter Dem Hakenkruez' and a brilliant cover of 'Hail Victory' which Jimmy must have broke a guitar string in but the crowd carried on singing making it more exciting, Ian would've been proud. A great set with as hellava lot of dancing but one funny point was when one Dutch comrade in attendance, a big bloke 6"5" - 18st in weight lost his contact lense while dancing only to have ten or so people try and find it for him.

Another great Blood & Honour Midlands gig, and more to the point, they continue to go on 2-0 to B&H on the day.

Location - Gothenburg Sweden.

Date : 24.6.95.

Bands : Das Reich (USA), Storm, Totenkopf, Kraftschlag (Germany).

I arrived at Gothenburg airport at 10pm a few days previous to the gig, already suitably intoxicated, to be met by half a dozen Swedish comrades all giving it the right handed salute. Right there and then, I knew I would have a good time. Half an hour later we arrived at the flat I was gonna stay in, only to be told to dump my bag as there was a party going on. It was getting better by the minute.

A short walk and we were at the party with about 30 other comrades of several nationalities, all speaking perfect English and all trying to give me alcoholic poisoning, something that would not change the whole week I was there. When I booked my holiday for the gig I had no idea that Sweden was celebrating their Midsummer Festival that week. Midsummer is basically a week where the whole country tries to drink the alcohol stocks of Scandinavia dry. It was this night through a Vodka induced semi coma that apparently I was asked to do Security for one of the bands.

As I'm only 10st soaking wet, so it must've been my steel toecapped IM Shoes that swung it for me. I readily agreed when I found out payment for security was a large amount of free beer, free entrance and a free security t-shirt thrown in. I'll now cut straight to the gig as I've bored you all enough already....

On the day of the gig, there was a communist rally to try and stop the gig, but there was no trouble as the Police kept the scum well away from us, and they'd also stopped 700 Red scum crossing the border from Denmark. The funny thing was how helpful the Police were, laid on buses to the gig and gave late arrivals escorts or a lift to the gig. The thing that really had me falling about with laughter was a Policeman apologising to us for arresting a German Skinhead who had smacked a Somalian. On arriving at the gig (a turkish run club) it took about an hour for everyone to pay and get in so at about 8pm we started. There were about 600+ in attendance mainly German (250) and of course Swedes, but also Finns, Dutch, Norwegians and not forgetting 3 English.

There were 5 bands playing - Storm,

Totenkopf, Kraftschlag (Mix of musicians from Finland, Germany and Sweden) and Das Reich from the USA, the fifth band were Swedish but I can't remember there names.

Storm - Good young group, musically sound, own material, good warm up act, got the crowd suitably excited.

Totenkopf - another young band, excellent sound, all own material, lead singer plays the crowd very well and is a good singer, obviously one of Swedens best new acts.

Kraftschlag - the reason why most of the crowd were there, real crowd pleasers. Tight, loud, a heavy rock set, not bad as they all come from different countries and only had one hours rehearsal Sang in German and mostly there own stuff, but did a couple of People Haters covers. The singer was excellent and the drummer was one of the best I'd heard, well worth seeing.

Das Reich - not having heard any of their material, I was looking forward to hearing some of their stuff. Most of the crowd hadn't heard much of them either and responded coolly. Lyrically and musically they are great but unfortunately there set was cut short by a drunk Norwegian who invited himself onto the stage and made a speech about the "Great" (sic) Paul Burnley.

I will hold fire on my verdict of these until I've heard them again but I think that there £3000 price tag a bit over the top.

So the gig came to an end and after doing security all night I was almost deaf but completely drunk, so its a tale of both swings and roundabouts.

Reviewed by Tony of Lincolnshire B&H.

The above gig was put on by Nordland productions based in Stockholm, Sweden, they also release CDs, a great colour magazine and have a wide range of merchandise, for a list write to Nordland - BOX 1088, S-11479 Stockholm, Sweden.

VIDEO REVIEWS

As mentioned in the previous issue of British Oi!, heres the video reviews, all videos have been donated for review by NS 88 videos, Poste Restante, 3400 Hillerod, Denmark (Unless otherwise stated), NS88 stock a very wide variety of skinhead white power videos, write to them for a full catalogue, mention British Oi if writing.....

Gothenburg, Sweden, 15.4.95 - SS Totenkopf, True Blood, Pluton Svea.

A video of very good quality and sound presents the new upsurging force in the Swedish white power scene. This is the annual Adolf Hitler Birthday gig. SS Totenkopf kick off a fast and loud raucous Oi set of a mix of Swedish and English tracks and get the crowd going wild, very reminiscent of early Storkraft style, good singer and good general appearance and well rehearsed set. Onto True Blood, obviously a very new band and little or no life to there set, with the crowd reaction being literally zero, some interesting material what with a bit more rehearsing could be a class act, track to watch out for is 'White Rock N Roll singer' but sadly they lack the viciousness needed at gigs, but as I say obviously will get better with experience..... Pluton Svea get onto the stage to a mass of right handed salutes, obviously crowd favourites, blinding set of Swedish and English material that includes a great cover of 'Skrewdrivers - Thunder in the cities' played great, this band are going somewhere, well rehearsed, very tight set, the crowd go wild and the viewing is intense. The video finishes off with a band mix of tracks, buy it - 8/10.

Stuttgart, Germany 8.8.92 Ian Stuart & Stigger, play Patriotic Ballads.

The video was once sold by R.I.D but now only by NS 88 and well worth reviewing, a full set of ballads to stir the soul, to give inspiration for the hard fights ahead. Set in a busy pub Ian leads into each song with wit, his great humour, and of course his political feelings, tracks are all there 'Tomorrow belongs to me' 'Green fields of France' 'White Power' and one very rare one never recorded called 'Bang goes the Neighbourhood' which was originally planned for a Klansmen CD, Stiggers fine guitaring accompanies it all, buy it now. £15 from NS 88 -10/10.

Skrewdriver - Compilation '77-'93.

A compilation of Skrewdriver tracks from live gigs and also a few interviews with Ian thrown in . It kicks off in 1977 showing Ian singing Antisocial as a Punk, really rare stuff, brilliant, it goes from '77 to '82 and a track from each year from then. Tracks include White Power, Showdown, Smash the IRA and more, the quality isn't that great in parts but very nostalgic video, produced by Ainaskin Videos in Finland, also sold by NS88.

8/10.

Das Reich - Live in Club Valhalla, Sweden.

A great video of Das Reich in the club Valhalla as they go through all of there songs such as 'Ballad for Earl Turner' 'Which way Whiteman' 'Voice of America' and loads more, some new. This is actually a sneak preview video of whats to come but I'm led to believe the live music will be dubbed over by studio recordings. Very good stuff but as its in a club behind closed doors it lacks the crowd dancing, sieg heiling etc. Available soon from NS88 - £15.....9/10.

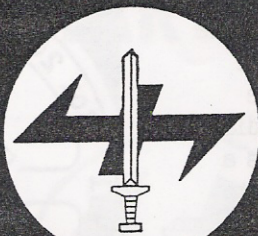

White Power Music Compilation Vol.1.

A great video that includes several bands and in producing this a vast amount of cameras must've been used, not just the boring view of the band but all angles of the band, the crowd, marching snaps thrown in etc. Bands on this include Pluton Svea, Midgards Soner, Squadron, Celtic Warrior, Razors Edge, BRG and more, Squadrons track 'Too strong to be changed' takes some beating with the stage set up etc being very impressive. Get it from NS88 or Ainaskin Videos as its a mixed venture video for £15 each, really well worth it.....10/10.

If you'd like to contact either NS88 or Ainaskin, write to :
NS88 Poste Restante, 3400 Hillerod, Denmark.

GREAT BRITAIN - Lots happening on the home front as always.

ISD Records have released no less than three CDs, two videos and an array of posters. The CDs are 'A collection of hate' by the USA band 'The People Haters', 'Live in Waterloo '92' by Skrewdriver, which is now out even with the first pressing getting confiscated by the Police and lastly in conjunction with Billy of Celtic Warrior, the long awaited Violent Storm CD amply named 'Celtic Warrior'. The videos as per mentioned are two full coloured covered videos with Skrewdriver live, Video No.1 live in Germany features Skrewdriver in great quality playing a open air show and Video No.2 being Skrewdriver live in Derbyshire,

which includes some stunning camera work and a brilliant atmosphere topped with great music which really makes this compelling viewing, British Oi even gets a mention, can't be bad Ha Ha. Lastly the posters ISD have brought out are three black and white posters and one full colour, great photos of Ian singing and the colour one is the same as the blood stained Ian on the back of the Squadron 'Combat, Battle & Burn' CD, incidentally Ian on this night was attacked by Anti Fascists alongside Ken McClellan and even at odds of way over 10 against one they came out victorious.

All these goods and more should be available from stockists all over Britain and Europe who deal with ISD merchandise like R.I.D, Groove, NS 88 etc etc. Videos £15 each, CDs £12 inc P&P, and posters £3 each. Support ISD and your supporting Blood & Honour.

They plan new realeases of Brutal Attack Live, Razors Edge, Celtic Warrior and Blood and Honour Comp. Vol.2 over the coming months and also a new video of Skrewdriver of unreleased footage.

Lets have a look at the state of what the British bands are upto...

NEWS SUPPRESSED BY THE DAILY PRESS

WARLORD have played two gigs to date and have proved worthy competition to the 'old' established bands with there lightning set of Skrewdriver numbers and new material to come soon aswell as there debut CD on ISD Records which is in the pipeline. They played at the Ian Stuart Gig and also recently at a farewell.gig in Heanor Derbyshire to a great landlord who has always supported our gigs etc. Stigger incidentally will have one of his tracks off the Pride CD 'Sleepwell my brother' included on the Ian Stuart tribute CD by Resistance called 'The flame that never dies' out soon. Also Graham of the band whose the bassist from now defunct band 'Avalon' has also been into the studios and recorded two Avalon tracks for the forthcoming 'Blood & Honour Vol.2 Comp. CD' on ISD.

Watch out for Warlord, coming your way.

SQUADRON have been over to Sweden and Hungary recently (See gig review). The Swedish gigs were a kinda mini tour and they did three dates across the country with numerous bands in support, incidentally Stigger of Warlord played with them doing some of the great Patriotic ballads, the tour I assume was to coincide with the release of the bands latest CD 'Decade of defiance' which should be out by the time your reading this on the Nordland label.

The band however at present are taking a short break from the scene after the heavy schedule but will honour two dates already booked in the USA at Christmas time in Ohio and Texas.

NO REMORSE have been gigging up and down the country introducing there new singer 'Big Jacko' at have played gigs in Wales (See Reviews) and also Derbyshire, the band have also played in Germany where due to the Police cancelling three booked halls,the bands, and all the crowd numbering about 1500 ended up in a Car Park and due to a faulty PA system no one except

No Remorse played by using a practice amp which apparently was more like an acoustic set but had the crowd going wild, a battle erupted with the Police during this and over 150 were arrested including J.C the bands drummer who was later released.

They have a new set of songs also that include tracks such as 'In ZOG we trust' 'White Revolution' 'Exterminator' 'SS - Double Victory' and a remake of the Sex Pistols 'God save our Queen' entitled 'God save our Race'.

No Remorse plan a Live CD on ISD Records in the near future and also a full length studio CD called 'Exterminator'.

Catch the band as they're really well rehearsed and great entertainment.

RAZORS EDGE are in the studio as this is released recording there new CD on ISD 'Whatever it takes' and have also been into the studios and recorded two tracks for the new B&H comp CD which are called 'No Surrender' and 'Hail Blood & Honour'.

The band have gone through some line up changes but look settled with the addition of Kelly on bass alongside Martin Cross on Guitar.

They played a short but impressive set at this years Ian Stuart gig and plan an invasion of Australia, yes Australia, the band have been approached and asked to play in the first Australian Aryan Festival in New South Wales in January alongside one presumes the mighty 'Fortress'.

They also have two tracks due out anyday on a compilation by DIAL Records called 'No More Brothers Wars' with the tracks 'Hands Across the Sea' 'Lest we forget'.

Also in the pipeline for the band is a split CD on DIAL from Germany, split with a Dusseldorf band, six tracks each, called something along the lines of 'Eternal Friendship' in a similar vain as the German British Friendship material.

BRUTAL ATTACK have had some bad

news, Excalibur there records label has been shut down by the German ZOG but they march on and British Oi is informed they are in the studios as this goes to print for a Swedish label rumoured to be 'Svea Music'.

Also White Terror Records of the USA are due to release the 'Best of Brutal Attack' on CD.

Brutal Attack have been linked with a planned Finnish gig this Christmas, surely Ken, if your gonna do a gig, it has to be your British fans ?

ENGLISH ROSE have gigged at the Ian Stuart memorial and have been into the studios and recorded a few tracks for the Blood & Honour Comp and also some other compilations planned, the band also now have a CD out which contains there first and second LPs on it which are 'Never be silenced' and 'The flame still burns'. They are apparently taking a short break from the scene to write new material for there next full length CD rumoured to be on ISD.

CELTIC WARRIOR have been gigging hear there and everywhere including trips to Ulster, Derby, Caerphilly and by the time this goes to print Italy too. They have stocks of the new CDs 'Let the Battle Begin' and the great Violent Storm CD 'Celtic Warrior' plus loads of shirts etc, write for a list to PO Box 214, Cardiff, South Wales, GB.

Billy of the band has also been working together with Martin Cross and have done several songs under a new name of 'The Order', some rocky, some ballad type of material.

Onto other news from the British W.A.R....

Life Rune Books have a tape of a band called 'Dresden' for sale, the tapes called 'Call of the Blood' and is racial rock/ballads etc, write to Life Rune at BCM Box 6089, London, WC1N 3XX, it costs £5.50 including P&P, £6.50 overseas.

CONGRATULATIONS to Gary and his wife Izzy on the birth of baby boy Kieran-Ian born on the same day as the Ian Stuart memorial gig (Typical women eh Ha Ha) and weighed in a bonny 6lb 9oz and makes a brother for first child Britannia, we at British Oi give you the great salute of....many sleepless nights!

There are new issues of the Order and Blood & Honour now available for £1 and SAE from BCM Box 5608, London, WC1N 3XX.

Also Scotlands Blood & Honour have there second magazine/bulletin out and is available for 50p and SAE from PO Box 2206, Glasgow, G33 4NQ (Cheers to the Scots lads for the photos - may the haggis be with you!).

The Oppressed the Oi scenes Anti Fascist Heroes (?) played recently at a rave club in Cardiff.

Lastly Groove Records Mail Order which gives continual support to our scene has a great catalogue, send a SAE for a Record/CD list to Groove, Dept.B.Oi, 14 Cheddar Close, Woolston, Southampton, SO19 2EZ, England.

Onto WORLD NEWS.....

UNITED STATES..At Resistance the news is the latest magazine is out and is a bumper 52 pages of White Rock news, interviews, political articles etc, also they have released the second Rahowa CD entitled 'Cult of the Holy War' and anyday now the Double CD tribute to Ian Stuart 'The Flame that never dies'.

A new Mail Order service has also started in the states and is called 'Stormfront Records' and so far only has stocks of a handful of CDs including the great Nordic Thunder CD 'Final Stand' and White Pride 'Your loss is our gain', for a list of merchandise and news of how they plan to expand write to Stormfront, Dept, B.Oi, PO Box 2004, Fond Du Lac, WI 54936, USA.

Rumour control says that White

Rock Hardcore band 'Berserkr' have split up, maybe a sick rumour but I'm told there second CD has been recorded and is called 'Crush The Weak', Berserkr were apparently hoping to play at a gig in Ohio with Squadron and BFG at Xmas, lets hope its not true as Berserkr are a brilliant band.

In British Oi No.35 we stated that Das Reich cost £3000 to play a gig in Sweden, we have been told this figure is somewhat over the top and the band only ask for money to cover air fares.

MSR Productions has a second tape of German NS music out now called 'Viking Youth Vol.2' \$10 from MSR PO BOX 1291, Wheat Ridge, CO 80034-1291, USA, they also have a comp. CD out soon featuring an array of bands including Vaginal Jesus, Crew X, Lightning Rod and more, it will be called 'Leaderless Resistance - A pan aryan compilation'.

BFG have stated there next CD will now be self funded after the closure of German label Excalibur and the one after will be back on Resistance after royalties were sorted out. The band now have a second guitarist called Dennis, the brother of Drummer Mike. BFG have asked British Oi to quosh rumours that there next CD will be thrash metal, they have said "The CD will be in pure BFG tradition".

New issues of Blood & Honour USA, Warriors Call and Resistance are out now so buy (See fanzine lists). A new zine for Aryan Women also called 'Valkyrie Voice' is great, write to PO Box 10, St. Joe, Arkansas, 72675, USA (\$3).

BATTLEAXE are a new up and coming band from San Diego, they have been busily playing concert in the USA and have a debut CD released soon, we'll bring you more news on them as we hear it.

SWEDEN - As per usual lots going on in the land of Ice, Nordland Records have been busy and have released new CDs by 'Division S' and 'Kraftschlag' a great German

band and Nordland over the coming months plan to release the Squadron CD 'Decade of Defiance' anyday. They also have the rights to release the new Rahowa CD and sell in Europe and they also plan releases of Swedish bands 'Totenkopf and Heysel' and later on rereleasing white pride world wide Vol.3.

Bad news is 4 Skinheads, aged between 18 and 15, murdered a 14 year old white boy recently and has obviously created extreme bad anti skinhead publicity in the country with the Swedish ZOG using it as an opportunity to stir up hatred against a growing scene.

Ragnarock Records have released new CDs by 'Odium called Hart mot Hart' 'Rock for Sweden Part 2 'Motstand' and Heimdall 'Sweden Awake'.

Svea Music however have released a great compilation called 'White Solidarity' and amongst featured bands are 'Brutal Attack and Fortress'. svea will also release a mini CD with five bands on it in the first week of December called 'Santa was a skinhead' and the bands are Volund Smed, Vit Aggression, Heysel, Vargflock and Freikorps. The songs are all well known christmas carols sang our way!! For more info write to Svea - Box 2019, 151 02 Sodertalje, Sweden.

DENMARK - NS 88 have a new and impressive catalogue out which contains most of the CDs mentioned in this issue plus an array of videos which would make Steven Spielberg a bit angry!

NS 88 are also working together with Ainaskin videos in Finland to produce a skinhead video fanzine which will have interviews, adverts, and lots more, for more info write to NS 88, Poste Restante, 3400 Hillerod, Denmark.

FINLAND - Theres several new Finnish bands to align with the great Mistreat namely a band called 'Pig Killer' and a studio band called 'Viking Division' who do a C18 support song.

There was also a Finnish gig

with Freikorps and swastika playing that went ahead even against hysterical rantings from ZOG.

NORWAY - has seen a rise in the NS scene with help from a band called 'Storm' who have released a CD called 'Nothorn Wind' and has very heavy nationalist leanings. In Trondheim a big city in Norway there's a new Patriotic band who shall release a CD in the spring of next year, our Norwegian comrade forgot to tell us their name. Also in Stavanger, South Norway a gang of young skins are starting a new zine called White Revolution, write to Einsatzgruppen, PO Box 131, 4001 Stavanger, Norway for more info.

Fritt Forum is the best Norwegian magazine available and has some articles in English. Write to FF at Box 104, N-2060 Gardermoen, Norway.

ITALY - Not too much to say about Italy this time except several gigs are planned and one will include Celtic Warrior and Poles 'Konkwista 88' which will be near Milan.

ADL 122 are working on their new CD which should be out before the end of the year and also Gesta Bellica and Corona Ferrea will have a full length CD released in a few months, Tuono Records have done some great work for the white rock scene in Italy and have gained a great amount of interest from Joe Public to our side, write to them at C.P SUCC.6, 36100 Vicenza, Italy.

GERMANY - Well big news as already mentioned is that Excalibur Records has been shut down by the German ZOG on the grounds that the lads who ran the label, Peter and Fussel, were selling illegal merchandise, namely Resistance material, which obviously is outlawed in the anti democratic state. Peter received a jail term of 14 months and Fussel 18 months as he had the 'offending' material at his home, Peter however has lodged an appeal against sentencing but apparently has little hope.

Excalibur had made great advances

for our scene and will be greatly missed, British Oi's thoughts are with the lads and also the families they leave behind.

VINCENTE DIRECTORI PUBLICATIONS are one of the leading German labels for Patriotic music at present (see records reviews) and have ambitious plans with forthcoming releases by Sturmtrupp 'Die alten Zeiten' and new CDs by Sturmflagge and Asgard (Kai of Freikorps is this one man band) and a list of videos etc, write to them at Directori-Postfach 1365, 21505 Glinde, Germany.

The N.P.A and Anti Antifa are two great German organisations carrying on the fight in the fatherland and are literally at the forefront of any street activities, they are currently having extreme problems with ZOG as is all Germany, but they have asked British Oi to announce to our readership and to anyone interested in their struggle not to use their existing address due to a fear of postal malpractice, please write to PO Box 705, D-15207 Frankfurt, Germany. Support these!

Some people say, especially newsmen, media moguls etc that the German regime in Bonn has halted the rise of German NS/Nationalism, well from what we hear 'they' at Bonn had better watch out as it's on the march.....

SWITZERLAND - the only news I get from the beautiful country is from the very active Hammerskins, they have produced a great magazine and features your favourite zine - yes British Oi, write to them at PO BOX 656, 6014 Littau, Switzerland.

The Swiss Hammerskins also recently had a summer party which was well attended but some traitorous elements grassed about it to the Police and now the unit is under Police investigation and complete media contempt.

EASTERN EUROPE to round up the news, in Serbia the scene has exploded and in every city a strong unit of Blood & Honour supporters is growing, White Eagle zine is

a great Serbian zine available from Marko-Blaze Jovanovica 12/6, 11160 Belgrade, Serbia. Also a new band can be contacted through this address and are 'State Impact' who have a good demo out and hope to maybe do a Serbian - British Friendship record.

In Slovenia an attack on 3 Amnesty International members who were apparently seriously wounded by skinheads has led to increased problems from the Police who have infact set up a special anti Skinhead unit. Arrests have been made after the incident and two Slovenians charged alongside a German Skinhead who had no connection to the fight.

The Slovenian President in the meantime has publicly apologised to the Amnesty brigade and swore to land harsh sentences on the alleged assailants.

In Slovakia there was a large gig on 5th August with numerous bands playing including ADL 122, Konkwista 88, Corona Ferrea, and Czech bands Conflict and S.A.D plus other Polish and Hungarian bands, about 800 attended. For more info on the Slovak scene write to Blood & Honour Slovakia, DEPT B.OI, PO Box 87, 850 07, Bratislava 57, Slovakia. They produce B&H Slovak edition and also a NS mag called 'Natural Violence'.

Well that rounds off this issues NS Right handed news, but we put out this message to our readers, please send in all relevant news that we can use - GIGS, Band News, Activity reports, New zines, Births, marriages, it all adds upto a comprehensive read, so write in to RHN PO BOX 249, Derby, DE21 9EG, Great Britain.....Cheers '88'.

RAGNAROCK RECORDS

A HISTORY.....

Ragnarock Records was founded in the summer of 1993 by Lars Magnus Westrup and a handful of Nationalist businessmen and activists. Its purpose was to produce and distribute Swedish Nationalist rock music as an alternative to the establishments degraded and cosmopolitan 'MTV culture' and in order to spread the message of national revolution among Swedish Youth in general.

Mr. Westrup had a long history of involvement in both media and the nationalist movement. He started out as a member of Sveaborg, the elite force of Swedish NS activists during the second world war and later became the founder and director of the Swedish Radio Station on Mallorca during the nationalist regime of General Franco, naturally causing an uproar in the zionist controlled media back home in Sweden. After the death of Franco, Westrup returned to Sweden and quickly became the press secretary of the Nationalist Framstegspartiet (The Progressive Party). He also established close relations with Per Engdahl, the world famous Fascist ideolog and leader of the 'Nysvenska Rorelsen' (New Swedish Movement).

True to his convictions and character, comrade Westrup

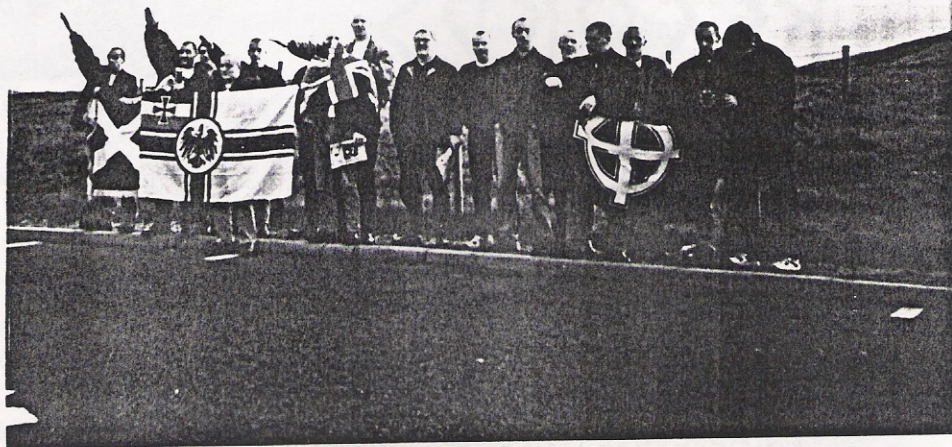

despite reaching the age of 70 years and suffering from ill health, immediately realised the political potential of a Swedish Nationalist Rock company. He put in all his media skills and managed to get Ragnarock on the air both in radio and television, followed by hysterical articles in the 'Swedish' (and even Norwegian) newspapers. This way he like no other gave Swedish White Rock 'n' Roll a face and made it known to the Swedish public in general.

However his ill health eventually won the battle the cosmopolitans never could win. On the 16th May '95 comrade Westrup travelled onto Valhalla after serving our cause till the very last day of his earthly life, but his company lives on in the spirit of comrade Lars, a true Viking warrior who never backed away from danger and controversy when his fatherland called him.

Ragnarock have been the main driving force behind the Swedish scene for many years, they're responsible for the releases of band like the great 'Heroes in the Snow' 'Dirlewanger' 'Barsarkarna' 'Plutons Svea' 'Storm' and many more, most if not all are sold in the mainstream Swedish record stores and some have become best sellers, support Ragnarock, support the spirit of Lars Magnus Westrup.

Left to Right : Ian
Ted, Danny, Dean.

Involved Patriots are fastly emerging as Canadas No.1 White Power band and have gained alot of fans over the last year who have enjoyed there heavy style fof music so much so Nordland Records of Sweden have signed them up for a forthcoming Cd release, British Oi though we'd find out more about them and this is the end result, questions answered by Ted and Danny of the band.....

1. When, why and where did Involved Patriots form ?

Danny - Basically from '88-'91, I was in a Grindcore band during which time I became involved as a Skinhead. In '91 the Grindcore band I was in split up and I then decided to start another band but this time not just to play music but for my Race!

2. Whats the current line up and have you experienced many problems with line ups in the past ?

Danny - The current line up is Me(Danny) Lead Vocals/Guitars, Dean on Guitars and backing vocals, Ted on Bass/Backing vocals and Ian on drums.

Yes we've had alot of line up changes, everytime we were ready to do a show or go into the recording studios someone would quit, it was

very frustrating, always the guitar player too. I used to play the bass parts but through a mutual friend I met - Ted who is a good player. So I decided to take over the guitar playing and then we also acquired Dean who was also in the Grindcore band I mentioned earlier, and now the line up is pretty solid and I don't see any problems arising.

3. How did you come about choosing your name ?

Danny - Being a skinhead with National Socialist values, it was important to me to have a name with meaning. We thought of a bunch of names but when **Involved Patriots** came up I knew that was the one. Involved Patriots defined is : some-one or some person fighting with full strength for there race in thier country.

4. In your area, how is the NS/Skin scene and do they support you ?

Ted - In eastern Canada where we are situated, the scene is finally getting better after a bit of a lull. There hasn't been any shows for a while so giving examples such as numbers of folk etc is kinda hard, but we've recently put on a small show with **Max Resist** and about 80 people turned up, I know

that may seem a small number, but we kept the show a secret and only told a few trusted comrades about it. So it was just mostly friends and their friends. The next show we put on is gonna be huge. There is tons of support for Involved Patriots from all over the world, we get letters of support from everywhere, France, Germany, UK, even Serbia!

5. How many gigs have you done?

Danny - Involved Patriots have done about 10-12 shows due to line up problems and as Ted just said we just did a small show with Max Resist which was our first show in a long time. But now we have some deicated players in the band people are gonna see alot more of us on the White Power circuit. The most memorable concert we have done was playing at the '1st memorial concert to Erik Banks' with B.F.G, Aggravated Assault, Aryan, Rahowa, Max Resist and more....It was a great honour to be a part os this show.

6. The Canadian laws on Racism are very similar to Britains 'Hate Whitey' laws, how does this affect your band ?

Ted - We have to be very careful. ZOGs anti white laws in Canada are tough and to be charged with a hate crime is very easy, so promoting shows is done by word of mouth and flyers sent to friends/comrades. We have alot of people in our region so turnouts for gigs and political activities are normally quite large, in Montreal the commie scum stay well away, so problems with these fools don't normally arise.

7. How is Canada in General ?

Ted - Canada is a very beautiful country but it also has a government bent on destruction of its founding race, the Euro Canadians, with such tactics as the promotion of multi-culturalism which I might add, the government spends endless tax dollars on, and the promotion of Queers

and the like. You can't watch a T.V programme without some kind of Faggot/sex deviant promotion, be it a commercial, sitcom, or even the news, the youth of today are being subjected to an endless barrage of sexual blasphemy, so as you can see, ZOG is not only trying to destroy our great race through racemixing but also by encouraging Homosexuality thus ending Pro-Creation. Enough is enough, it must be stopped.

8. Whats your views on the French independance claim on Quebec ?

Danny - I think Independance will get alot of people motivated to help themselves, the way it is now, ZOG decides for us by letting in masses of immigrants with thier 'Open Door' immigration policies. The time has come for Quebequois to decide for there own future, we've been struggling for our independance for 30 years now, the Canadian Government (ZOG) sure hasn't been good for us, lets see what we can accomplish on our own! The way I see it is, we are not turning our backs on the rest of White Canada but saving a part of White Canada, which are the white people from Quebec.

9. Back to the band....Could you tell us a bit about your songs ?

Ted - All of our songs are in English with the exception of one in French. All our material is based on National Socialist ideals and the great '14 Words', we try to inform the white youth of whats right and wrong in this sick society we are forced to live in.

10. What plans do you have to produce a CD ?

Ted - We just got out of the studio at the beginning of october and our debut CD is out in December available from Nordland Records in Sweden. It has 12 songs on it with one special cover song in memory of the late great Ian Stuart. Also we have three songs on Nordlands 'White Pride World wide Vol.2'.

11. Any merchandise available ?

Danny - Yes we have three t-shirt styles available and patches soon, write to Involved Patriots, CP 913 Succ.B, Montreal P.Q, H3B 3K5, Canada.

12. What other Canadian bands do you rate as good/bad ?

Ted - There isn't alot of bands in Canada right now but the ones who spring to mind are 'Odins Law' from B.C a very good band, 'Aryan' whci I don't really know whats happening with them, and 'Rahowa' who have just realeased thier new CD 'Cult of the holy war' which is supposedly excellant, we encourage all white youth to start bands, if they sound bad, practice will solve that, Bad doesn't exist to me.

13. What do you hope to acheive over the coming year ?

Danny - Success over success, we want to play shows, shows, and shows. To get the message of white unity into kids heads so that we can prevent total abomination of the

white race.

14. Any closing comments ?

Danny - We would like to thank British Oi for this interview and also I'd like to add that because of British Nationalism and people especially like Ian Stuart there is a movement today, without Ian Stuart there would be no White Power music scene.

Ted - Thanks to British Oi - 88.

Cheers to I.P for the indepth interview, good luck for the future.

BRITISH OI! **MUSIC!**

CELTYC WARRIOR 'Let the battle begin' - Celtic Pride Records.

As already mentioned in British Oi! No.35 this great CD is now available for all and sundry to buy. A great CD from the Welsh warriors. 10 heavily racial tracks to get your feet stomping and arms raised, tracks to watch out for are 'Let the battle begin' 'Under the rule of ZOG' and 'Whites with attitudes', buy for £12 from PO BOX 214, Cardiff, Wales, GB. 10/10.

HONOR - Steel Vengeance - Thor Records.

A CD I received to review recently and wellm, what have I been missing out on, this Polish band are great, very melodic, very good musicians. 10 tracks, ones to watch out for are 'Sign of the eagle' 'On the triumph day' 'Genocide' and the great 'Lets Arise', well presented cover too, buy for £12 from BOX 2361, 50-951 Wroclaw 3 Poland. 9/10.

BRUTAL ATTACK - Valiant Heart (Rising above all) Excalibur Records.

The final chapter in the Resurrection trilogy. This CD shows Brutal Attack in a fast spirit with some very catchy tracks. 19 tracks all in all, which include 5 old demo tracks that include 'RAC' 'Through the darkness' and 'As the drum beats' and 14 new tracks in traditional B.A fashion. Tracks include 'Keep the faith, Red Death, Firestorm, I pray I will return' and my favourites 'Salute' a catchy anthem type of song and a great Ian Stuart remembrance ballad called 'The last day of summer' - brilliant. £12 from Excalibur Records, PF 100672, 44706 Bochum, Germany. Buy it.....10/10.

STORM - Nordavind - Nordeffekter Mail Order.

A new band from Norway consisting of band members from already existing Norwegian Rock bands, strong Viking Rock, that has caused quite a stir in Norway, as established musicians aren't supposed to sing nationalistic music 'or so they

say!'. Folky/Rock maybe a better way of describing this. Tracks amount to 10 and include 'Villemann' 'Lokk' 'Utferd' and the chilling 'Innferd' language barrier a small problem but still very enjoyable....Buy for £12 from Nordaffekter, Postboks 104, 2060 Gardemoen, Norway....9/10.

WHITE PRIDE WORLD WIDE VOL.2 - Nordland Records.

Part 2 of the White Pride world wide compilation CDs, this well laid out CD complete with a huge '88' on the disk features Swedens 'Swastika' & 'Storm', Canadas 'Involved Patriots' Czech Republics 'Buldok & Excalibur' USAs 'The Voice' and 'No Remorse (One with Paul)'.

16 tracks all in and what a scorcher, Swastikas tribute track for Rudolf Hess entitled 'Spandau Hero' is great, very rocky, very fast, Canadian debutees 'Involved Patriots' a very heavy rock sound that would easily give metallers 'Berserkr' a run for there money give us three brilliant tracks, my favourite being 'Ignorant Society', Storm give us some very catchy heavy Oi! sounding material with a great new version of the Stormfront classic 'not in vain' about Robert Matthews and Buldok deliver the goods with three rip roaring tracks. Buy it for £12 from Nordland, BOX 1088, S-11479 Stockholm, Sweden. 9/10.

SWEDISH / GERMAN FRIENDSHIP - Last Resort Records.

A new friendship created, obviously influenced by the original German/British friendship created sometime ago. This features Swedens 'Steelcapped Strength' and Germanies 'Volkszorn'.

10 tracks, 6 in English, 4 in German. Steel-capped Strength for me are great, fast Oi music in a typical Swedish style, best tracks are 'Victory' 'Dignity' and the great 'Blood in your face', Volkszorns best has to be the catchy 'Heim-atrecht', £12 from Last Resort Records, Box 149, S-13623 Haninge, Sweden.....8/10.

ASGARD 'Der Sturm Bricht Los' - Vincente Directori Publications, Germany.

The second CD from Asgard, a project created by Kai known to us as lead guitarist and singer of German band 'Freikorps', Kai, on this actually plays all instruments and sings.

10 tracks in all, some slow Oi! tracks, but most very catchy fast Oi!/German style. Tracks to watch out for are 'Felsen in der Brandung' 'Arche Noah' and a very rocky, somewhat Skrewdriver influenced 'Auf in eine neue welt', buy it now, well laid out cover too, £12 from Vincente Directori Publ., PO Box 1365, 21505 Glinde, Germany..... 9/10

STURMFLACGE 'Im Zeichen des blutes' - Vincente
Directorii Publications, Germany.

A band reformed from the '80s who the German state banned, they tried to ban this but the record firms lawyer worked well and here it is, 13 tracks all in all of very catchy Oi! in typical German style, basic music, with heavy lyrics, deep voice etc. A variety of varitaions of Oi make this appealing, some rock n roll types, some ballads, some fast, a good mix. Tracks that I really enjoyed are 'Blaue augen, blondes haar' 'Namenloser held' 'Unser Folk' and 'Ich bin ein deutscher', the language barrier obviously is a problem, but I'm a German Oi! fan anyway, so if like me you like this type of stuff, buy it, well laid out colour cover etc, buy for £12 from V.D.P, PO Box 1365, 21505 Glinde, Germany..9/10.

'FUORI DAL GHETTO' - Italian Comp. - Tuono
Records.

A new compilation from Tuono Records - Italies premier White Power label. 'Fuori Dal Ghetto' (Out of the Ghetto) features all Italian bands - Peggior Amico, ADL 122, Gesta Bellica, Londinium SPQR, Intolleranza and more, a mixtures of styles on this actually, from ballads to Oi to skinhead rock which is good. Well laid out CD and in my view the best tracks being 'Fuori dal ghetto' by Peggior Amico and 'Toni era uno Skin' (Tony was a skin) by ADL 122 which brought back good memories of the Ian Stuart gig in '94 when they featured on the playlist. Buy it now from Tuono Records, C.P Succ 6, 36100 Vicenza, Italy for £12 including P&P.....9/10.

VIOLENT STORM - 'Celtic Warrior' - ISD Records.

The long awaited release of the tragically lost band of lads from Cardiff, Billy the only survivor of a horrific car crash has worked long and hard on this release and in conjunction with ISD Records here it is, 16 rip roaring tracks, remastered and digitally tuned to give great sound quality, tracks include Violent Storm classics 'Celtic Warrior, Europe of the Peoples, Stand or Hide, The Same Inside and the haunting guitar on the original 'White Eagles of Snowdon' make this a great CD, I reckon every nationalist skinhead in the world should have this in there collection first off as a mark of respect and secondly as its great, buy it for £12 from Celtic Warrior, PO Box 214, Cardiff, South Wales, UK. make POs/Cheques to N.Bartlett.....10/10.

More Working Class Anthems - Hammer Records.

Part two of the 'Working Class Anthems' LPs from London based Hammer Records. Bands include Section 5, Super Yob, The Burning and more, not a good cover etc but some tracks are

quite catchy such as Section 5s 'Slut' and The Burnings 'Eternal Fool', I'm not sure how much but available from Hammer Records, BM Box 1977, London WC1N 3XX.....8/10.

CONDEMNED 84 - 'Amonst the Thugs' - Hammer Recs.

I didn't know Condemned were still going but yes and this proves it, but haven't I heard it all before this type of tinny music doesn't appeal to me, tracks include 'Our Colours, Elite and Enemy within, non political material in large. Available from Hammer Records as above, this grows on you.....6/10.

DRESDEN - 'Call of the Blood' - National Vanguard.

A tape release from a USA band called Dresden who promote a new kind of music for White People. Titles are 'Horst Wessel Song, ZOG/Blood and soil, White Amerika, The Stormer and more. A starnge music, bit of synthesizer, choirs etc etc, different, available for \$10 from National Vanguard Books, Box 330, Hillsboro, WV 24946,USA.7/10.

IAN STUART MEMORIAL GIG

30th September 1995

Location - Near Caerphilly, South Wales.

Bands featuring : Celtic Warrior, English Rose, Warlord, Swastika, Razors Edge and No Remorse.

The day had come for the most important gig of the year, the time we remember and honour our lost martyr 'Ian Stuart' the great leader of Blood & Honour and talented musician with Skrewdriver.

For weeks on end people had been contacting British Oi³ for more details but due to security being of utmost importance we had to decline all knowledge of its whereabouts, but on the day the main organisers from across the UK would give details to all interested parties, that wished to attend.

So we made the trek into Wales and arrived at the venue at roughly 5 O'Clock and first off, no reds spotted, no plod. So off to a near boozier and taste some fine Welsh ale. After a few beers and chat to comrades who were there from all over the UK, Sweden, Denmark, France, Germany and more we made our way to the hall for the gig.

After getting in, more beer and see whats for sale, all sorts, badges, patches, an impressive stall by R.I.D and well it was spend, spend, spend.

On first came **Celtic Warrior** unfortunately missing Stinko the bassist due to illness but another comrade filled in quite good. They really got the crowd going, all the battle hymns thrashed out including 'Let the battle begin' 'White Eagles' 'Whatever it Takes' 'Brand New day' and more, got the crowd of which incidentally easily topped 500, warmed up with an array of raised right arms.

Up next were **English Rose** the Leicester lads who played a well rehearsed tight set of crowd favourites like 'Wasting Away' 'Skinheads' 'SHARP' and 'England belongs to me', had the crowd going wild.

Next up after a short break and time for more

flowing beer were **WARLORD**, there debut gig, what a show, well rehearsed, heavy sound, they blasted there way through 'House of Treason' 'Fools No More' 'White Noise' 'White Power' 'Smash the IRA' and more, to thunderous cries of 'Sieg Heil' they played great, a fitting tribute to Ian.

Next in line were **Razors Edge** who although only played a short set, due to time running out - I assume ?, played crowd pleasers such as 'Ulster Freedom Fighters, No Room Here, Jobs not Immigrants' etc, had the dance floor packed with a horde of Aryan warriors with asttitude problems, hailing the spirit of Ian.

Next up were Swedens **Swastika** who were playing there debut gig on British soil and wow, what a tight well reahearsed set of lads, they led into thunderous versions of White Power, Streetfight, In Hoc Sign Vinces, Racewar, De Stupes Blod, and more, Matti the singer really got the crowd involved and had the mass of arms raised. A great set and a fine example of how good some of the European bands are.

Incidentally before Swastika came on a two minutes silence was held for Ian with everyone in the hall taking heed and respecting, and honouring Ians name. Well done everyone who did this, after two minutes silence, I raised my right arm and saluted with the other 500.

Last up were **No Remorse** without the superstud himeself Paul Burnley, instead a well rehearsed gang of lads out to prove a point, that they're the real No Remorse not Paul and the various musicians he uses across Europe as hes too frightened to show his face in England. But they looked the part, big Jacko the singer can best be described as 17st of muscle on legs, a great frontman. They unleashed the berserker spirit with No Remorse tracks such as 'Smash the Reds, N****r, This time the world, and more oldies, plus new tracks of which I didn't really catch the titles of but I think one was called 'In god we trust' plus a great singalong version of the Sex Pistols 'Belsen' track. Considering this was there only gig they did great, look forward to seeing them again.

After these **English Rose** and **Razors Edge** did a couple of encores to keep the eager, but fairly drunk crowd happy.

Of all the bands on the night, I beleive all played great but Stiggers new outfit **Warlord** played exceptionally well and many a tear was in our eyes to hear classics such as 'Fools No More and House of Treason' being played, a great gig, for a great man,

HAIL IAN STUART.

GIG - Patriotic Ballads - Location - Italy,
Featuring Stigger and Noie Werte -26.8.95.

Off we go again, its been too long since I last visited my Italian brothers. This was to be a Ballads concert arranged by Steffan from 'Noie Werte' with me (Stigger), himself and his drummer 'Kai' playing guitar.

We were met at Venice airport by Caio a leading figure in the Veneto Front, who then drove us to meet the rest of the lads at a hotel, in one of the scenic areas of Veneto. This was thursday 24th.

We all had a meal, about 20 of us, and sat up exchanging stories and drinking 'Vats' of Vino ubtil about 2am.

Friday the 25th - A late start which was appreciated and it wasn't until dinner time when we made a move to the site of the concert, we spent all afternoon there getting things ready for the next day. Another hard night of drinking and feasting followed - 'Burp!'.

Saturday the 26th - What a hangover! Terrible stuff Red wine, and it goes straight through you, my arse looked like the Flag of Japan.

We arrived at the concert site mid-afternoon, the place was a hive of activity, and since the weather was nice it was decided to have the gig outside, so everybody was involved in setting up a marquee and the P.A system, a few beers and a sound check and we were ready.

A good crowd turned out - Swedes, French, Germans and of course the Italians, even some Yanks.

I'm not sure who the first band were, they had a small girl playing a full size Bass guitar, as though it was a double bass, a keyboard player, a guitarist called Dario who thought he was Elvis (?) and three singers - strange but true.

They played traditional Italian Nationalist songs that sounded really good, but as for understanding the lyrics, they could've been calling me a wanker and I'd have no clue, got the crowd going - good band.

Then it was our turn, Myself and Kai had only one practice so I was very impressed how well he performed. We started with 'Tomorrow belongs to me'. The set seemed to have only lasted 5 minutes, but we actually played for 2 hours, songs included 'Suddenly, Night Trains, Gone with the breeze, Snow fell etc etc etc'.

Words fail me to describe how I felt. The last time I had done these numbers was with Ian and especially during 'Suddenly' and 'Gone with the breeze' I felt a great sadness, I often wonder, did Ian know something we didn't ? But I think it was a message of hope, after all that has happened, after all the blacklistings and hatred from the media, WE ARE STILL UNITED across the seas as strong as ever. Other songs we played included 'Devils right hand, Green fields of France, Returno a Camelot, Sleep well my brother and the Road to Valhalla.

There was a disco after the gig and everyone got merrily pissed, there was only one bit of trouble between the Veneto Skins and the Milan skins but that soon blew over and the night ended on a high note.

Sunday the 27th - time to fly back to 'old blighty', what a great time I've had, everyone agreed the concert had been a great success, I'd like to take this opportunity to personally thank Caio and all the Veneto Front for their kindness and hospitality, also the big difference between England and Italy is the fact that it is more of a family to them, they all eat together, fight together and most of all, pull together and make sure everything they do is a success, I have nothing but admiration for them.

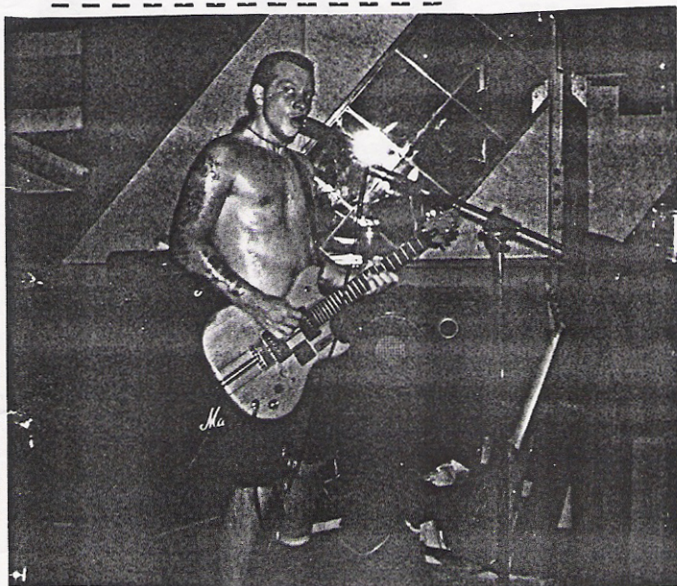

Roving Reporter STIGGER signing off.....88.

Patriotic Ballads, Pride and German British Friendship CDs are available from R.I.D merchandise and all feature Stigger, Ian Stuart, Noie Werte and Ken McLellan, priced at £12 inc. postage and packing...also available from RID is a large range of t-shirts, CDs etc etc - RID PO BOX 249, DERBY, DE21 9EG.

PATRIOTIC

BALLADS

Ian Stuart Memorial Gig - Sept. 30th '95, Hungarian
Blood and Honour Division.

Bands: Archivum, Valhalla and Squadron.

Venue: The Viking Club, Budapest Hungary.

The Eastern Block Tour continues and we were warmly greeted at Budapest Airport. It was a great honour to be the first British B&H band to be invited to play Hungary, and we arrived a day early to take in some sight seeing.

First up was the 'Buda Castle', its built nice and high and gives an amazing view of the city and because theres a river that runs right through Budapest, the view bore an uncanny resemblance to London, the castle was great and we wandered to check out the 'Catacombs'. Theres over 20 miles of underground tunnels below the city, connecting the Castle and Parliament building, the tunnels were used by the Third Reich during WW2 and now theres a guided tour telling of 1100 years of Hungarian history, about all the kings, and even about when the Hungarians defeated Genghis Khan. Hungary has a very anti-zionist history and thats probably why the country has halved insize after WW2, infact Rumania was given land equivalent to the size of Hungary today.

Theres plenty to do in Budapest, all the usual Western influences, Pizza Hut, Burger King etc and we were pretty impressed with the full sized posters advertising the Memorial gig in the centre of town alongside Iron Maiden.

Still, thats enough waffling, onto the gig..

Theres very few cars in Hungary, the buses and trams are free and so is the underground, if you avoid the ticket collector. We took two trams and the underground to the gig which was amusing with all the gear, but after a short

walk we got to the club.

A good sized club, nice high stage, 2000 watt P.A and 30p a pint, and theres over 1000 skins in Budapest, its going to be a good night.

About 600 comrades attended the gig, Poles, Czechs, Slovenians and Hungarians, the atmosphere was great and Archivum took to the stage. We were most impressed when the front 200 people started dancing, it was like Skrewdriver in 1984 all over again. Archivum were good and tight, their songs were about the old Police state, anti communist, Third Reich etc, and they are really impressive.

Next up were Valhalla who only changed there vocalist and drummer one month previous but they also played well, the high spot of there set was 'Hail Victory' in Hungarian.

Last up were Squadron, lagging a bit as usual but so would you at 30p a pint. They opened with 'Death before Dishonour' into 'Hail the New Dawn' and all the usual set, 'Just like Sheep' had the crowd rocking and 'Open up your eyes' and a 'Final Salute' were all well received and they ended with 'White Power' and 'Hail Victory', a very succesful gig, no Police, no real aggro and the assurance that Ian Stuart will live on in Hungary for the rest of time.

We couldn't face the bus and tram so we got taxis back, it cost £8 for two taxis so we weren't too bothered.

Full marks to the Hungarian crew for there excellent organisation and hospitality, they even fed us with Hungarian Goulash, thanks as always to Rok and the Slovenians for there non stop shouting throughout the gig and if your passing Hungary one day, drop in, it might surprise you.

BRITISH Oi

Welcome to British Oi No.37, the first of 1996 and so a very belated happy new year to all the readers of this zine, supporters, fellow comrades.

This issue has some exciting contents, an intensive interview with North American rocksters 'Rahowa' which is very good reading, a interview with Blood & Honour populists 'Razors Edge' who have a fantastic new CD out now, plus news, a readers poll of '95 which examines your tastes in music and politics for '95 - cheers to all who took part in that, and lots more, so we hope you enjoy this issue.

Apologies go out to readers who pointed out to us that in last issues editorial we stated there was a new section of TV and Film reviews, this was shelved due to lack of space in that issue and we have decided to leave it all together now.

A big welcome also to new readers who British Oi has gained in large numbers mainly due to a favourable review in Resistance Magazine from the USA. But please note all USA readers that we use correct English in our publication and will continue to spell 'Honour' correctly - Ha Ha.

Well onto the zine.....

What did 1995 bring our movement, basically a few ups and downs, mostly ups though. ISD Records have gone from strength to strength and released a half a dozen or so CDs which have sold out once and most have entered a second or even third pressing with great help from US comrades at White Terror Records the Skrewdriver classic CD 'Live at Waterloo' saw the light of day and is available from ISD

in Denmark or White Terror themselves, so it was released even after Police intervention in the way of dawn raids on Blood & Honour activists Chas & Will who have incidentally been charged with upto six separate charges which include distributing material that may incite Racial Hatred. This charge I'm led to believe includes the ISD release 'Combat Battle & Burn' by now split up band Squadron. The lads have been to court on three occasions now and its been refered to the Crown Court - The Old Bailey. C & W good luck.

These raids were basically the down point of the year, apart from the usual attacks from Nationalist has beens like John Tyndall and his BNP pressure group, the scene grows.

The NSA now into its second year has a large support throughout Britain and has indeed frightened the news media.

Our gigs have been plenty, '95 saw the final gig ever at regular drinking hole 'The Nags Head' in Heanor in Derbyshire go ahead with Warlord, Celtic Warrior and No Remorse playing to a great crowd. This venue will be missed but it did give us some great times. All over Britain B&H has staged concerts, Kent, Essex, Glamorgan, Derbyshire, Durham, the list is endless.

Not one had any opposition from the Police or Red thugs and all were calm with no fighting etc, which shows how well our stewards perform.

The years most notable shows must have been the great St, Georges Day gig in Cambridgeshire and the fantastic Ian Stuart Memorial in Caerphilly, Glamorgan.

Great to see Stigger back with a band too - Warlord. A great personality in the scene that we genuinely need.

Well that sort of sums up '95, alot of new faces appeared, which was great also, and to add alot of old faces resurfaced. Well done Blood & Honour Britain - lets make '96 better.

Until next issue - Keep the faith.

BLOOD & HONOUR our movements leading publication will next issue have a colour cover to improve its imagine and to take the more professional road, B&H contains to improve after alot

BRITISH OI!

alot of recent setbacks.

Blood & Honour Scotland also have there latest bulletin out priced at 50p and a SAE from PO Box 2206, Glasgow, G33 4NQ, which contains news, views etc etc.

Onto British bands.....

'Squadron' once one of the leading bands have split up due to personal problems within the band, they played there very last gigs in the USA over the christmas period, see review pages about these, and there last British gig in England was in Coalville the home of English Rose where the bands both expressed contempt for the B&H movement.

'CELTIC WARRIOR' - have been very busy as of late and have recorded an array of songs for various compilations etc to be released throughout the year which include tracks - "Song of Ages" "Thank you (Scum)" "Soldiers of the Reich" for a variety of labels such as DiAb, SFE in France, ISD and more. Stigger of Warlord appears on some of the tracks as does Martin Cross of Razors Edge.

Martin Cross, Billy and Clarke of Celtic Warrior have also recorded some great tracks under the name of 'The Order' and will be on compilations again, tracks to watch out for are 'Ride onto Valhalla' 'Europe' 'Loyalist' and 'Remembrance Day' which are brilliant.

Celtic Warrior themselves have two new members in the form of Damon and Wol two comrades from Gloucestershire and have fitted in very well. However Stinks of the band who sadly had to leave the band for health reasons is now back on his feet and ready and willing to get back into business, so competition for band places should prove great.

The band have an array of CDs, T-shirts and more for sale - write to PO BOX 214, Cardiff, South Wales enclosing a SAE.

The band have several shows in the pipeline that include the must for all Blood & Honour fans 'The Violent Storm Memorial Gig' listen out for more details soon.

WARLORD - have been busy rehearsing for there forthcoming CD on ISD entitled 'An old and angry god awakes' which will include the tracks 'Beautiful England' 'Brave Ulster' and 'Fatherland - Fatherland' - the CD should be recorded by early March, and out not long after. They have worked at it for a long time so when the CD is released it is something special, vocals I'm told will be done by a variety of the band including Stigger and Whitey.

Warlord have t-shirts available with a great design on them and cost £8 inc P&P from R.I.D merchandise PO BOX 249 Derby DE21 9EG, also Stigger of the band from this address sells the German British Friendship CD 'Songs Of Hope' for £12 inc P&P.

RAZORS EDGE - not alot to say as the interview really says it all but British Oi must add that we like the bands new heavier style, much better influenced by Martin Cross on guitar than the first CD. Also Sid the drummer is rumoured to support poor First Division outfit 'Birmingham City' please send all donations for his medical help to the Razors Edge PO Box.

STORM SECTION - yes before you all shout "What that USA band" - yes that USA band. But no they here now, two of the members from California have moved over here and have formed a band with the help of the West Country skinheads and by the time you have read this would've played there debut gig on British soil...another new band into the ranks of 'Blood & Honour'.

CHINGFORD ATTACK - after completing there debut gig just before christmas the band have been rehearsing alot and plan to cause mayhem throughout Britain this year, watch out for them, they play numerous cover versions plus a nice tribute track for 'Searchlight'.

NO RETORSE - are just back into the country after playing yet another gig in Germany, making it now three gigs, this latest one near German City 'Rostock' to a crowd of over 600+ that apparently went wild dancing to the band and the band seem more popular than ever. They have numerous new tracks now which our tight race laws permit me from writing the names of. Catch the band when you hear of one of there gigs as they're certainly one to see.

BRUTAL ATTACK - plan to play a gig in Sweden, well should've done it by the time you read this, with support from Swedens Vlt Aggression and more. Also Ken has been approached by Australian Blood & Honour to do a gig out there in April which he has agreed to. Going along with him is Stigger of Warlord who will play Guitar. They will perform a strong set of Brutal Attack tracks with help from Aussie musicians on Bass and Drums and also perform a set of tracks from the fantastic ISD release 'Pride'. But Ken you haven't answered my question posed in the last issue "When are you gonna play in England?"

Onto other B&H news.....

British Oi would like to pass its congratulations to Ross & Wife from County Durham on the birth of his baby son. This message was sent to us by the Durham Skins. May you have many sleepless nights.

Blood & Honour Scotland have hit the newspapers as of late and have been blamed for all sorts of activities, the Scotland on Sunday quoted 'Scottish recruits are raising funds and being trained to prepare for a racial war'.

Europe Anke fanzine has now ceased but has merged with the Third Legion a active unit of Nationalists in the West Midlands. The new zine will then be called 'Third Legion' with No.1 out soon, support them, they're part of the NSA network, send 5 X 19p stamps to The Secretary, BCM BOX 3335, London, WCTN 3XX.

Onto other news...

NORTH AMERICA - well a hell of a lot going on as per usual, the mighty Bound For Glory have now released there fifth CD entitled "Behold the Iron Cross" and is said to be quite thrashy but has great finishing touches such as Eric Owens featuring on a track with him adding flutes to the song and also the backing vocals of Centurion. To get it send \$20 to BFG - PO BOX 6773, E.St.Paul, MN 55106, USA. The band also have a large list of other merchandise.

The Voice haven't got a contractual problem with Resistance Records as stated in No.35 of British Oi and have indeed just finished recording there new CD for the label, there has never been a disagreement with the band apparently and even the band members do not know where the story arose. They have a new and heavir sound with a couple of the new song titles being "ATF/FBI" and "Naseer Ghani (The killer of Joe Rowan - definately not a love song)."

Resistances long awaited 'Flame that never dies' double CD pack should be available as you read this, its been delayed several times but now all bands have contributed and it should be a smasher, for more info write to Resistance at PO Box 24700, Detroit, MI, USA. Bands include Day of the Sword, Bersenkr, BFG, Involved Patriots, Midgards Soner and loads more, make sure you get it.

Blood & Honour USA has changed its address from the state of California and gone to Minneapolis, so write for the latest B&H USA with \$4 to PO BOX 7419, Minneapolis, MN, 55407, USA. Support this great zine.

Ironland Patriots Canadian branch are

awaiting the release of there debut CD on Nordland Records Sweden and is called 'Another One Died' and is apparently not for the faint hearted, I.P featured in British Oi No.36.

New band from the states called 'The Blue Eyed Devils and consist of Ryan and Bob from Nordic Thunder and two other gents, they've played a couple of shows already and are said to be really good, they plan a split CD with Shock rock band Aggravated Assault on new label Tri State Terror Records in March.

Speaking of Tri State Terror Records, they have just released 'Tri State Terror Vol.1' with five tracks by The Voice, Aggravated Assault and two unreleased by Nordic Thunder.

Valkyrie Voice is a new Womens magazine for NS women that is and is quite a real, good features and well worth looking at, also from there address is Totenkopf Services which sell numerous CDs, shirts, patches etc and also Edelweiss Services which sell hand crafted traditional items, plus also paintings etc done by The Order in prison with all proceeds going to The Orders' families write to PO BOX 10, St.Joe, Arkansas, 72675, USA.

White Terror Records have new releases out in the form of the brilliant 'Day of the Sword' called 'Ear to Ear' which is really fantastic, this isn't a band really but a one man band, hear it if you doubt me, but its one of the best releases in a longtime, CD includes a five track tribute of Skrewdriver songs for Ian. White Terror have also got the rights to officially sell all ISD Merchandise in the USA which include Skrewdriver 'Live In Waterloo' write for a large catalogue to PO BOX 212, S.St.Paul, MN, USA.

Theres a new edition of the Hammerskin magazine out called 'We are the Law' this zine is great, now not for its superior content but for the interview with a self proclaimed 'Dictator' from the states called M.Grimes. This looney tune claims to have been predicted by 'Nostradamus'. He states in the interview in the zine " Nostradamus predicted Napoleon and Hitler and a third called Grime, my name is Grime" - this guy is great, wears his SS uniform around New York etc, hes apparently been on several TV shows with Klan type robes on but green in colour with his adopted emblem of the pentagram on it. Buy We are the law for this mans interview alone for \$3 to 2101 W.Broadway Suite 166, Columbia, MD 65203, USA.

Lastly about the states, in the news over there, theres been a big stink about 22 soldiers based at the mighty Fort Bragg who were found out to have links with white supremacist groups, all now are in the Civil Disturbance Division.

From these findings the US Army hierarchy have ordered a worldwide investigation into extremist activities in the Army ranks, its findings are due on March 1st.

Well the Turner Diaries pointed out that there was support within the armies of the USA, how true a fictional book has become.

Lastly - new band 'Intimidation One' from Oregon have a demo out called 'Frontline Fighters' for a copy send \$8 to PO BOX 33160, Portland, OR 97233, USA.

ITALIA - from the land of the Pizze, the news is good, the well established and organised Skinhead club 'The Veneto Fronte Skins' have now been in existence 10 years and plan an array of celebrations - Happy Birthday lads.

The SPQR Skins of Rome recently held a demonstration in memory of comrades : Franco, Francesco and Stefano who were murdered by Communists in 1978, it gained nationwide TV coverage, and shows our martyrs are never forgotten.

Milans bands ADL 122 and Corona Ferrea have been busy, both playing a successful gig in Hungary on 23rd December and ADL have there new CD out called 'The Angel of Death' and also a limited edition Christmas single. Corona Ferrea have in the meantime completed there debut full length CD due out on Tuono Records in a couple of months.

Italy has seen the rise of several new bands that have a nationalist following but aren't skinheads namely '270 Bis', 'Palabestia', 'Attacco Frontale' and a Patriotic Ballads type band called 'Isola Bianca'.

Theres a well put together Italian zine out now called Assalto Sonoro who also have a distribution service and are selling a great demo tape by a band called 'Subalpina Skinhead'.

See reviews for more on those releases.

Swedens Ragnarock Records have also released two new CDs namely a new CD from the brilliant Plutons Svea called 'Stoveltcamp' and a CD by

heavy Swedish band Barsarkarna called 'White Covers' basically all cover versions.

Hot news is that Nitton the singer to Swedens top punk skin band Midgards Soner has left the label of Nordland and has gone to the media denouncing them as nazis. This comes just after the band have released a new cd called 'Nordens Kall'. Whether he has defected against us I'm not sure but we shall find out.

In Denmark the Danish NS Movement (DNSB) has been granted a licence to broadcast its own radio and its now put out on a twice weekly basis with it talking topics of interest to NS folk and also playing a load of our music, response we are led to believe has been great.

Denmarks Video masters have released a great video called 'A decade of defiance' and follows Squadron on there mini tour across Sweden last year, also features interviews with Stigger and Squadron, performances by bands Totenkopf, Heyssel, Odium, Herces in the Snow and more. A truly great video, well worth every penny, £15 from NS 88, Poste Restante, 3400 Hillerød, Denmark. Soon from them is the 1995 Ian Stuart memorial gig.

RAZORS EDGE

RAZORS EDGE are now top contenders for best British Blood & Honour bands and are hot out of the studio where they have recorded there second, and long awaited CD 'Whatever it takes', alot has gone on with the band since we last interviewed them, so heres a updated article, all answers by Andy.....

How come Dirk left the band and who is the line up now?

Dirk wasn't interested in doing any new material with the band and so we replaced him with Martin Cross formerley of Brutal Attack and we also lost our bassist and Kelly - Martins wife now plays this role, and still Me (Andy) on Vocals and Sid on Drums.

How does this line up compare to previous ones?

I think all our previous line ups were good but I think we are doing our best stuff with this new line up.

Has the new line up changed your style of music as Martin is quite 'rock' orientated?

Yeh, I think we have a heavier sound now, everyone whose heard our new material seems to like it, so I think we are going in the right direction.

Could you tell us about any recent recordings?

We've recorded two tracks 'Comrades in Unity' and 'Lest We Forget' for Di-As new compilation 'No more brothers wars' which should be out anyday now, also two tracks for Blood & Honour Vol.2 entitled 'Blood & Honour' and 'No Surrender' on ISD Records which is out now and also our second CD on ISD called 'Whatever it takes' which is also just out now.

Could you tell us more about the new CD?

Well as I've said its on ISD Records and is called 'Whatever it takes'. Its a powerful CD in my eyes and blows away our first one. Some of the tracks speak for themselves like 'Free Loyalist Prisoners' 'Rights for Whites' 'Smash the race law' 'Rule Britannia' and a song dedicated to a fallen comrade 'Ginge', its a ballad called 'With the gods you ride', infact the CD is dedicated to Ginge, a loyal friend and dedicated patriot.

What gigs have you done of late?

We played in Belfast with Celtic Warrior at the start of December and also a great gig recently with Chingford Attack, No Remorse and more in Essex, also we will play this years 'Violent Storm Memorial Gig', in March.

How do you view the current Blood & Honour movement?

I think the B&H/Skinhead scene is so well established and organised now that it'll always be strong, we are getting stronger each day.

Is it true you're gonna do a split CD with a German band?

We've had to put that on hold for a while,

BRITISH OI!

we had planned to do a split CD with a German band for Excalibur Records but as you know Peter and Fussel of that label have big problems with the law and face imprisonment, but it is still something we'd like to do, maybe with another label.

What bands on today's scene do you rate as Good/bad?

There are so many good bands about now, too many to mention really, my personal favourite is 'Fortress' from Australia. I couldn't say there are any bad bands though.

Away from the band - what hobbies have you?

Relax at home, write songs, go to the football, just the usual things really.

What political movement in Britain today do you support and why?

The National Socialist Alliance (NSA) as it's a real attempt for NS unity, and that's got to be a good thing.

Any closing comments?

Yeah cheers to Jim, Kev and Rob for all their help over the last couple of months and thanks to Merv for backing vocals on 'No Surrender' cheers - 88 -

Andy - Razors Edge.

Cheers to Andy for the interview, if you'd like a list of Razors Edge merchandise which includes t-shirts, sweatshirts and CDs, send a SAE to PO BOX 3324, West Bromwich, BT07NP.

BRITISH OI!

RAHOWA's COMING OF AGE

British Oi Interviews George Eric Hawthorne, Vocalist of RAHOWA

Well most of you are aware of one of the worlds most popular bands - namely 'Rahowa' who are spearheading the Canadian NS music scene as well as creating the mighty Resistance Records empire etc, Rahowa have recently released there new CD entitled 'Cult Of The Holy War' which is totally out of this earth, in its amazing production quality, its musical content and sheer originality. Well we at British Oi thought it was time we found more out about these guys and sent these questions along to George the bands vocalist.....

Firstly - could you tell us a bit about the bands formation and its members ?

Well the current line up is : George Eric Hawthorne (Lead vocals/Guitar), Jon Latvis (Lead Guitar/Piano/Cello/Keyboards), Graham Stolz (Rhythm guitar), Carl Alexander (Synthesizer), Jim Jones (Bass) and Wolfgang Mortuus (Drums). The band formed in the summer of 1990 and has had the same primary membership in Hawthorne/Latvis since the outset. Dan Armstrong (Of Centurion), was a founding member of the band that influenced the writing of our first album. The second album was composed entirely by Hawthorne/Latvis. We have just added a seventh member to the band, a girl named Kelly Scott, who plays Violin. You can hear her on new songs we are recording for Nordland Records' White Pride World Wide Vol.3 we also want to start adding female vocals.

George Hawthorne & Jon Latvis

You chose your name from the Church of the Creator slogan 'Racial Holy War', are you still creators, if so why this doctrine over National Socialism ?

Yes, we would most appropriately be called Creators. We borrow alot of our ideas from Creativity. But we do not choose this over National Socialism, but rather as concepts to augment NS values. For instance, most of Nietzsche's concepts are compatible with National Socialism, but Nietzsche died 20 years before the party formed. It is not necessary to say that Nietzsche is or is not NS. His values fit into the eternal truths and archaic wisdom of our forefathers, and are therefore righteous. Therefore many people who do not restrict themselves with labels are still NS at heart.

On your second CD 'Cult of the Holy War' you have totally changed you style to a Gothic/Metal/Classical formula - why this big change compared to your debut CD 'Declaration of War' ?

Our debut CD 'Declaration of War' was written 6 years ago. By the time it came out, it was no longer revolutionary as far as the music went. Many white power bands had foreshadowed it with greater creations such as Berserkr, Centurion and Bound For Glory for instance. So when we wrote 'Cult of the Holy War' we started recording it only a few months after the writing finished. So the music is more in line with our current direction. However we feel that there are many similarities to the first album. Songs like The Trial, Victory Day, Exodus and White People Awake from the Declaration of War would still fit into this new album. The only difference is we progressed as musicians, I studied vocals for years, and we added more keyboards and classical instruments. Also, the production improved dramatically, basically, RAHOWA has come of age as a band.

Has the new CD been well recieved ?

Absolutely, We were concerned, because this album is so different than anything that has ever come out of our genre, that it was a really daring move. But our attitude as artists is that we want to create

BRITISH OI!

Cult Of The Rahu War

something that we feel came from our own racial souls. We wanted this album to be authentic, so we allowed ourselves the flexibility to create what needed to be born. And people love it, which to me is like an added bonus - something you never consider while you are creating music, but something that no artist can deny being very important.

Its said, that RAHOWA recently played at a Metal Fest. in the states, how did it go and in your eyes, do you believe it converted anyone to our side ?

We did not play the festival in the end, it was the Milwaukee Metalfest, but we did have our version of "The Snow Fell" put on the 3000 sampler CDs that were sold in the promo bags, and we also payed money to have 3000 copies of Resistance inserted into the promo bags. The response was tremendous. I think that the majority of the metal scene, to use the term loosely, is on our side, but we just have to reach out to them. Ian did it first and some great modern White Pride bands are following his leads. We have to get away from this attitude that only skinheads can be brothers. We have three long hairs in RAHOWA now, BFG has three also, that is what white unity means - not the

ability for Skinheads to go to a gig without beating the crap out of one another, but rather for race to be the uniting factor, not income, fashion or music. We are too few in our ranks to allow any divisions to weaken us.

How many gigs have you done and which would you say has been your best/worst ?

The best show we ever played was on A.H.s birthday in 1993. MTV was there filming the concert and we put on the performance of a lifetime. There were no reds there, no fighting, and everybody was together. We celebrated like world conquerors that night, and it was also Aryans first show, opening the gig for us. We have played about 25-30 over the years and roughly another 100 acoustic 'Rahowa Unplugged' type concerts at parties with our comrades.

In Canada the Anti Racist brigade are active like in England, do they stop your gigs ?

Well, they used to surround the halls where we played, but they never succeeded in getting a show totally cancelled. Cut shorter yes, but never actually cancelled.

Also its said George that you will be arrested if you gig on Canadian soil, due to race-laws?

RAHOWA

I don't need to tell you or your readers that the system wants me stopped very badly, not just for Rahowa but also for Resistance Records. The media hates me, and is always beating the war drum against me and my family. TIME magazine, The Washington Post and The New York Times all interviewed me just last week, to give you an idea how popular my mug is in the media. In Canada we have a "hate crime" law intended to "stop the spread of hatred" but the Police must first have the approval from the Solicitor General before they can use this law. I was informed by an insider who is sympathetic that the Police have got this approval and are waiting to charge me. I will see what happens as I am intending to play a show soon in Toronto.

In the USA do many record store sell Resistance merchandise ?

Not that many, but I'd say a few dozen do. Plus we have just gotten a mainstream distributor, so record stores that get requests for our records can order them. We have sold hundreds of records through this route.

What person (s) has had the most influence on you politically and musically ?

Ian Stuart. When I was younger (I'm only 25 now - still young) I would listen to Skrewdriver and Ians music helped me to dream. He taught me to feel for my kinfolk like no other. Music has a special power that books and speeches can never match.

What modern day bands do you like ?

Moonspell (absolutely incredible Portuguese band - they sing in English, check them out), Laibach (phenomenally creative revolutionary Fascist band), Blood Axis (Atmospheric avant garde apocalyptic uberfolk band), Type O Negative, Danzig, Pantera, Morbid Angel, Metallica, The Cranberries, Storm, Division S, BFG, and Berserkr, 50% of my time I listen to classical composers.

In Canada, which NS parties do you recomend ?

There is only one righteous Racialist group in Canada - The Heritage Front. They are nationally organized and 100% dedicated. Wolfgang Droege, their leader was a member of The Bruder Schweigen (The Order) write to them at PO BOX 564, Station R, Toronto, ON M4G 4E1, Canada.

Whats your views on movements such as The Hammerskins who haven't taken off in the UK ?

I do not publicly endorse or disparage any organization trying to organize and build a

successful movement. Personally I believe that people should act independantly, and that all organizations serve to divide. I would like to see a movement more based upon ideas rather than titles, we are united in our beliefs, everything else divides. Eventually you always, always, always end up with dissension, which becomes a schism, and then we waste our time fighting each other instead of promoting our ideas to a new people. This is a new era for the WP movement, we must act accordingly, using new approaches, I believe Guerilla Propaganda war is the way to go, act and disappear, no names, no organizations, no "house of cards" that the system can bring down, As far as organizations go, I think that the Hammerskins are top notch. I can't speak for all of them but every group has its knuckleheads and its truly dedicated leaders. But on the whole many of my best comrades are Hammers.

Whats Rahowas plans for the coming year ?

We are working on doing a tour with a mainstream band. We want to promote the hell out of our new CD and just give it a chance to be heard by people. We are also working on a 90 minute 'Rockumentary' video on Rahowa and our history as a band.

Away from the band - what do you get upto ?

I lift weights, run, work on Resistance Records and Resistance magazine, read, write of which I'm currently writing a book. Outside of the band and the record label I'm a totally normal guy that doesn't have much fun. I am a bit of a health nut so you'll rarely find me in the pub or night club. I like to learn - study history and to work on building myself physically and spiritually.

To conclude the interview, have you any closing comments ?

Indulge in the sacrament of Blood, for blood alone moves the wheels of history. Become a temple of strength and power, and challenge yourself to great heights. Rise beyond your limitations and accept nothing less than greatness from yourself and your comrades. Question all convention, even your own decisions and constantly re-evaluate all things. A New Years Revolution-31.12.95.

Cleveland - Ohio - USA.

Featuring - Max Resist, Blue Eyed Devils,
Aggravated Assault, BFG and Squadron.

Reviewed by Dave - Warriors Call Skinzine.

On New Years Eve, myself and about 8 other NS Skins travelled to Cleveland, Ohio for what promised to be an all around great way to spend New Years, surrounded by comrades, having a good drink and seeing some of the best white rock n roll bands around play, including English band Squadron.

Arriving at the venue I had the chance to look around, the hall itself was ver spacious definately large enough to hold the 400 people who turned up.

There were all sorts of vendors selling all kinds of merchandise from books to the latest CDs from the USA and abroad and of course t-shirts from all of the bands etc.

Onto the show, first up were 'Max Resist' who as per usual were no let down. They played quite a few songs off there debut CD which really had the crowd moving aswell as some great cover songs with the best one being a great version of 'Built up, knocked down' which would've made Ian Stuart proud.

Next up were a pretty new band from the same city as Aggravated Assault (Atlantic City, NJ) a band named 'The Blue Eyed Devils', two ex-members of Nordic Thunder are in this band and although the music style wasn't quite the same, you could see the talent was there. These guys blasted through quite a few originals with the best song being about the 'plight' of our 'native American' Indians called 'Wagon burner', they also played a rousing cover of Condemned 84s 'Skinheads'.

After the Blue Eyed Devils up came 'Aggravated Assault' who took the crowd hostage and played a few of there songs off there CD but mostly totally new material. They played a song called 'True Heroes Never Die' dedicated to all our fallen heroes, 'Natural Born Killer' 'Hammer Joe' for Joe Rowan, a GG Allin (?) cover called 'You hate me, I hate you' and a great cover of the Arresting Officers 'Disorderly Conduct' and more.

'Bound For Glory' took off where Aggravated assault left off as far as power goes, these

Above - Warren - Aggravated Assault.

Minnesota Vikings played alot of tracks from the 'Fight Goes on' CD and alot of material from there brand new CD 'Behold the Iron Cross' which was pretty heavy, but most of the crowd seemed to like it just fine. Finally the band we had waited to see.....

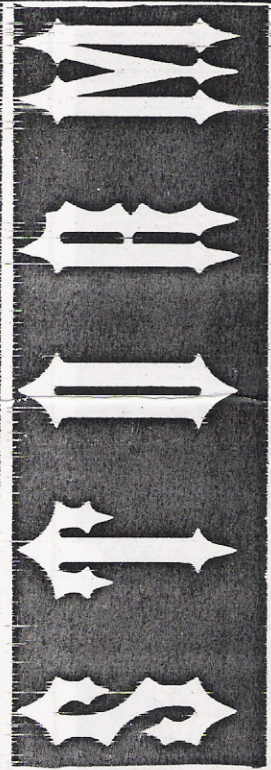

'Squadron' played some great songs and were no let down, including 'Just like sheep' 'Time for change' 'Burn the books' and great covers of Skrewdrivers 'I can see the fire' and 'Hail the new dawn' that had the whole crowd going crazy. Mid set there was a fight, or many fights and the band had to cut short there set and only played 7 or so tracks.

The promoters decided to stop the show which in my eyes was wrong as lots had travelled hundreds of miles to be there, also overseas.

Overall a very good show that ended sadly but also a great way to greet in the New Year.

The gig was organised by 'The National Alliance'/'Life Rune Records' of the USA.

STORM are one of Sweden's top NS bands and have gained large support throughout the country and indeed throughout Europe as a talented, well rehearsed band, heavy on vocals, heavy on guitar, a traditional formula - but the best. After being voted in by you the readers as 'Best European band' in our readers Poll in '95 we'll be thought we'd get in touch with the band and find out more about them....

Could you tell us where and why did you decide to form the band?

We started in a little place called 'Nodinge' which is near 'Gothenburg' - well in sometime late 1993, we played mostly cover versions of Skrewdriver, Dirlwanger and so on.

We started the band to combine our musical talents and our NS beliefs, writing pro-white songs about what's really happening to our people and our once free Europe instead of all the multicultural garbage that they brainwash our people with.

Why the name Storm?

Because it's a good name, meaning the same in both Swedish and English, it tells our foes about the NS Storm that's rising to stop the false prophets who try to steal our birthright.

You have a unique style, heavy vocals with a lot of backing vocals and a heavy style, who influenced you to play this way?

We try to create as heavy a sound as possible and yes we sometimes sing lyrics twice to mark out important bits of the songs, to make it more powerful.

I don't really know of any special influence that made us play this way, we basically just mixed all our influences and also created a sound of our own.

Which is your favourite Storm track - why?

So far I would say 'There comes a day' off the Split CD with Freikorps. It has both good music and lyrics, it has a message of hope and hope for forthcoming glory, and it tells how it's not too late to make our dreams become reality. It is up to ourselves to make it happen, only white unity can lead us to the coming white victory.

What about future recording plans, are there any?

We are about to record our second full length CD called 'Is it too late?' in February for Svea Music. It will contain 14 tracks - 7 Swedish/7 English and it will hopefully be out before summertime.

After that a mini CD with 6-8 tracks in German/English/Swedish and this will include some new material but also some revamped older songs that we feel we should've done better in the studio the first

time around.

We shall also record two ballads for the coming White Pride Ballads CD on Svea Music, plus hopefully some other tracks for various compilations.

The Swedish NS scene grows, who would you advise British comrades to write to, to learn more about your movement ?

Yes our movements grows thanks to many good organisers who have all done a great job building up the movement, we have many new NS activists joining our cause.

Instead of writing to a specific political party I would advise people who are interested to know more about the Swedish NS movement to get in contact with our Swedish organisers who are well known in Europe for organising marches, gigs etc...

Nordland magazine will tell you all you want to know about the Swedish scene.

British Oi understands that the Swedish government wants to bring in new anti-nazi laws, could you tell us more ?

Yes we are about to get our share of anti white laws from our traitorous government.

The Swedish government are truly worried about the advances our movement have made and so they have to make new laws to stop us.

They want to create new laws against marches (not reds), gigs (not reds), symbols (not reds) and so on.....They have even talked about outlawing boots with white laces in as it symbolises that you're a evil 'racist'.

But to change the laws against freedom of speech and your right to have your own opinion they have to wait until there next elections in 1998, then they will kick out the old democratic laws and bring in the new anti whiteman laws.

We think they may be along the similar lines the German government has done to there people.

Do you believe these new laws will frighten activists off the streets ?

The new laws will maybe scare a few off but most of us will stick with it be it legal or illegal.

Never be silenced 'No Surrender'.

Which bands do you consider to be good/bad in Sweden ?

Our music scene is very strong now, with many good new bands playing for the cause.

My favourites are Dirlwanger and Vit Aggression but there are too many good to

mention, none are band though.

Your guitarist also plays in new band 'Odium' are the two bands Storm & Odium interconnected then ?

No, we have borrowed Odiums guitarist a few times to get a heavier sound when we play live, but thats all. They are good friends of ours but Storm and Odium are two different bands.

Above - Daniel/Guitars on left and Kenneth/Bass vocals on right.

What do you hope to achieve over the coming year ?

To spread our message to as many white brothers and sisters all over the world as possible, hopefully we can do our share by convincing white youth to open up their eyes and join our cause and save our great race before its too late.

Whats you message to British Oi readers who voted you best European band and how do you feel to this ?

Knowing that theres many good bands in Europe it came as a complete surprise to us, we feel honoured and proud of it. It proves to us that our music has reached outside Swedens borders and that people appreciate what we are doing, and that feels great.

We'd like to thank the British Oi readers who voted for Storm, you've made us proud.

Thanks.

Do you have merchandise for sale ?

We only have two t-shirts for sale (one is pictured below) and they cost 120SKR each or same value in your money, send cash in well sealed envelopes to our address - Storm Box 9, 44041 Nol, Sweden. Only in sizes L or XL.

Could you tell us about your gigs ?

We have only done six so far due to cowardly ex band members who didn't dare play live with us, so we had to turn down many offers, The best gig so far was in Dejje in the Summer of '95 with Kraftschlag and Heysel.

To get your good sound and style you must rehearse alot ?

We used to rehearse twice a week before we were kicked out of our rehearsal studio in the summer '95 due to protests from local politicians after we were exposed in the press and TV as a 'Dangerous racist band'.

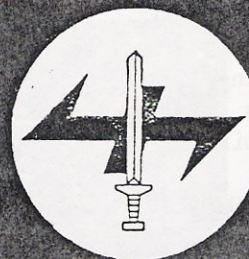

That led to a member dropping out so now its the two of us myself (Kenneth) and Daniel on Guitars. We hope to find new members soon who aren't afraid to stand up for our ideals and play live very soon.

So what are the bands immediate plans ?

First of all to get a steady line up, write and record more material and last but not least play live again both in Sweden and abroad wherever people want to see us.

Closing comments : Thanks again to the readers for voting for us we are honoured. Racial comrades keep up the great fight. 88.

Record Reviews

Here goes for this issues record reviews, British Oi would like to thank the Record labels of Tunono (Italy), Resistance (USA), Nordland, Svea and Ragnarock (Sweden) and Vinc.Directori Pub. (Germany) for there continual support and supply of CDs to review - cheers.

STURMTRUPP - 'Die Alten Zeiten' - Vincente Directori Publications.

A great thundering CD by one of Germanies best bands to date. 13 tracks in all, some political, some football hooligan type songs etc. Heavy typical German music, stuff to stamp the floor boards to. Great cover and inset card. Tracks to watch out for are 'Walhalla, Sturmtrupp, So ein tag, and its title track 'Die Alten Zeiten'. £12 from V.D. Publ. PO BOX 1365, D-21505 Glinde Germany. 8/10.

PLUTON SVEA - 'Stoveltramp' - Ragnarock Records.

A great second CD from one of Europes best bands and in my view second best to Swedens fantastic 'Storm' - but Pluton Svea play a different style. Rocky/Oi tunes - 11 tracks in all, 4 in english that include a remake of No Remorses' 'Invisible Empire'. Also a great humorous cover of rock n roll tracks 'See you later alligator' but with new words - NS style³ Tracks to watch out for are 'Stoveltramp, 14 Ord, Vapnad Kamp and 'Hail the Swastika'. £14 from Ragnarock Records PO BOX 1009, S37201 Ronneby, Sweden.9/10.

BARSARKARNA - 'White Covers' - Ragnarock Records.

Another great Swedish band but why all this, when a band of 'Barsarkarnas' quality has recording chances why not do new strong material - originals. This CD has 14 tracks all of which are covers that include 'Sorry' 'European Unity' 'The Real Enemy' etc etc, not band but I believe a band that can do alot better, another collection piece I guess. Quite amusing is the cover version of 'Rahowas' White People Awake'.....6/10.

BRUTAL ATTACK - Greatest Hits Vol.1 - White Terror Records.

A best of from one of the best. A good strong release from our USA comrades, Ken McLellan has selected 14 tracks which are his favourites to make up this Vol.1 collection. Tracks include 'My Struggle, The Wolf, Return of St.George, We won't run, Let it burn and my favourite Brutal Attack track 'The Warrior Awaits'. Buy it for £12 from White Terror - PO BOX 212, S.St.Paul, MN 55075, USA...10/10.

SANTA WAS A SKINHEAD - Various Artists - Svea Music.

A six track mini CD from Svea in time for Xmas '95 with six well known traditional christmas carols made Skinhead style. Bands include 'Volund Smed, Vargflock, Heysel, Heimdall, Vit Aggression and Freikorps. Best track I believe to be 'White Christmas by Vit Aggression' - I like this bands new heavy thrashy style. Buy for £8 from Svea PO BOX 2019, S15102 Sodertalje, Sweden.....9/10.

STORM / FREIKORPS split CD - Svea Music.

Svea seem to be really getting their act together and this proves it, a well laid out CD, good cover, photos etc - two very good bands. I've really started to open my eyes to the European talent about nowadays and it must be said that Storm are Swedens No.1 band and Freikorps Germanies best. Six tracks from Storm that include very strong powerful lyrics/vocals and heavy pounding music there tracks include 'Stormvarning, There comes a day, Unity is Victory and the brilliant chanty song 'Deutschland'.

Five typically good Freikorps tracks that include 'Our time will come (Not the Squadron song), The Flag still flies (Not the Razors Edge song) and the brilliant song 'Sverige' very catchy, fast and great. Buy this from Svea or miss out on a classic.....11/10.

WHITE SOLIDARITY - Compilation CD Seven bands - Svea Music.

A great Comp CD that appeared just before Xmas and proved a great present for many no doubt. Seven bands who are - Brutal Attack, Vit Aggression, Fortress, ADL 122, Mistreat, Freikorps and Max Resist. Two tracks each, great to hear some new Fortress tracks at last and what corkers - tracks are 'For Folk and Faith' and 'Truth sets you free' two great Max Resist tracks entitled 'Cl8' and 'Everlasting Memory'

a tribute to Joe Rowan. All bands present some great music. Good cover and inset card, only £12 from the Svea address.....10/10.

DIE VOLLSTRECKER - 'Gotterdammerung' V.D. Publ.

A debut from a new German band 'Die Vollstrecker' Rock/Oi music with strong patriotic lyrics, 11 tracks in all with the songs including 'Eines Tages, Helden, Jugend Dieser Zeit, Anarchisten and Ungerechtigkeit and my favourite being the bands own song 'Die Vollstrecker' which bellows out the lyrics "Deutsche Musik - Ja das ist deutsche musik"

"Deutsche Musik fur unser schones land"

"Deutsche Kameraden singen fur ihr Heimatland"

£12 from V.D Pub.....9/10.

ASCARD - Komm Mit Uns - V.D. Publications.

Another mini CD this time from ASCARD one of the side projects of Kai of Freikorps fame, well played music as always from Kai with his good style of play. Tracks are Europes Youth, Politiker, Odins Sohne, and three others. Good CD layout etc. £10 from VD Publ.....9/10

UNLEASHED - 'Victory' - Century Media Records.

A mainstream thrash band from Sweden who play a Norse based style of music which concentrates it lyrics around the Norse myths. So it can't be bad eh. Fast furious but bloody good, shops like HMV and Virgin in the Midlands refuse to sell it because of it patriotic overtones but the band march on, smaller independant stores stock it. Tracks include 'Hail the New Age' 'Victims of War' 'The Defender' 'Precious Land' 'Against the world' and 'Beserk'. Buy it.....10/10.

RAHOWA - Cult of the Holy War - Resistance Records.

One of the most talked about CDs of late, well publicised in many mags including British Oi and all the talk is about the bands diverse sound, very true. This CD isn't your Oi CD or even rock, its Rahowas originality at work, fabulously recorded to extremely high standards and the mass array of instruments used is incredible. The music I'd say is a mix of metal/rock and Gothic music, so Oi boys beware, Georges voice compared to there debut CD has dramatically changed but overall to there advantage. 13 tracks in all that include 'Man Against Time' 'When America Goes Down' Might is Right 'Rahowa' God is dead' 'An ode to a dying people' a great tribute to Skrewdriver in the form of a wonderfully mastered version of 'The Snow Fell' and my favourite off the whole CD 'The Last Battalion' - I must add that I can see Georges influences of Manowar and Type O Negative in this CD.

One CD not to be missed, £13 from resistance Records PO Box 247000, Detroit MI 48224, USA....11/10.

STEELCAPPED STRENGTH - 'Sons of Glory' - Last Resort Records.

A new up and coming Swedish band that play very similar to Skrewdriver but a bit more basic, the singer is very similar too. Good stuff. Twelve tracks that include 'Bring back our land' 'The Honour is our strength' 'Burn the drugs' 'True Skinhead' and a cover of Skrewdrivers 'back with a bang', a band to really hear, £12 from Svea Music.....9/10.

TRUEBLOOD - Ain't Gonna Die - Midgard Records.

Another Swedish band - christ how many is there out in the land of ice, but yet again a good CD, all in English too. Basic Oi band but very entertaining with a touch of rock 'n' roll too. YTracks include 'Local Hero, Bright Future, Karl XII, White Resistance Rock N Roll, Pervert and more. Buy it again for £12 from Svea Music.....8/10.

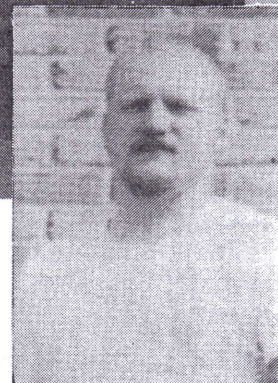

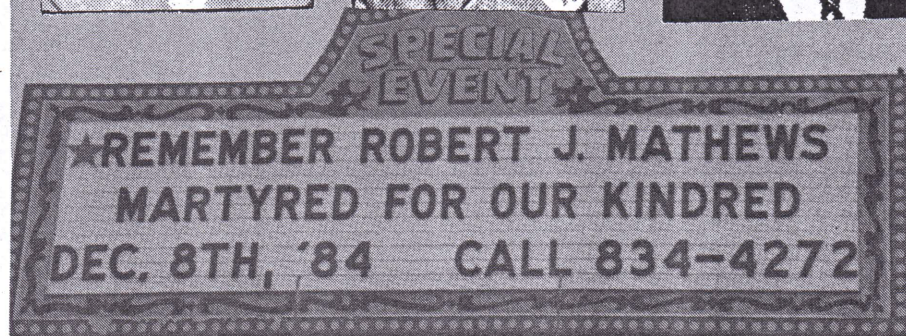

BLOOD & HONOUR VOL.2 'Various Artists' ISD Records.

The second compilation from ISD and what a corker, 21 tracks in all from bands 'No Remorse, Razors Edge, Celtic Warrior, Violent Storm, People Haters, Day of the Sword, Grade One, Live tracks from Warlord, German British Friendship, and Squadron, and lots more, well worth investing into, well designed cover aswell, all in over an hours worth of music, contains a rare track by SKREWDRIVER also. Miss it at your peril....£12 from NS 88, Poste Restante, 3400 Hillerod, Denmark or from your local dealer.....10/10.

Comrades of British Oi!

Many thanks for buying this latest edition of British Oi and may I first add that I hope you notice the much better print quality of this here issue as compared to the last issue where several readers received poorly copied zines, the whole thing was out of our hands, but we are back with a bang. So a big apology to all and we hope you still enjoyed the zine in general, the Rahowa interview proved immensely popular as too did the Readers Poll, this will now become a regular yearly thing.

Well as stated on the cover, the zine is now 10 years old, or infact just over, a true decade of defiance as Squadron put it. We have done a small article elsewhere in this issue which lets you know a bit about the zines history which we hope you find interesting, heres to the next 10!

Cheers to all the people by the way who resubscribed last issue, an amazing 46 were up for renewal and so far 44 have resubscribed and we've had 26 new subscribers too, the British Oi Army is on the march, if you are reading this and do not subscribe, do it today, details elsewhere.

This issue contains the usual amount of interviews plus also a sincere 'In memorandum' page dedicated to Ilse Hess the brave wife of our Martyr 'Rudolf Hess', who sadly passed away recently, British Oi is dedicated to her.

Well I'll let you carry on reading the zine, but don't forget, For the memory of our Blood & Honour founder - Ian Stuart, we carry on.

Its the way its got to be.

British Oi Team '96.

Men will talk about almost anything.

Men will fight for very few things.

And men will fight to the death for only the most basic of motives. They will fight heroically (that is, with supreme sacrifice - which is what heroism means) only for idealistic aims they hold greater and more holy than their own personal survival.

Only when you can make a man feel, deep in his heart, that survival of his loved ones, his honour, or his whole people are in deadly danger, will he risk his life to do battle against overwhelming odds, where his own personal survival is unlikely.

When our people have had enough of the Liberal lies and Conservative cowardice, then we will be ready to start the patriots backlash.

EXCALIBUR

EXCALIBUR

Excalibur have steadily been making a name for themselves through out Europe and especially the Eastern Europe countries such as there home nation the Czech Republic, Slovakia, Slovenia, Poland and more, well its about time we got to know more...

Could you tell us about the bands history ?

Excalibur formed in June 1994 out of the ruins of old local band 'Diktator'. We wanted to start a new band with a better attitude towards our scene, better lyrics, stronger, powerful music etc. We had to kick out our old singer as he was basically a nutter, a real nut job and he couldn't sing well either, fortunately Karel a friend of ours who helps the band alot introduced a new lad who hadn't sang in a band but was just the person we needed, we played our first gig after only two months practice.

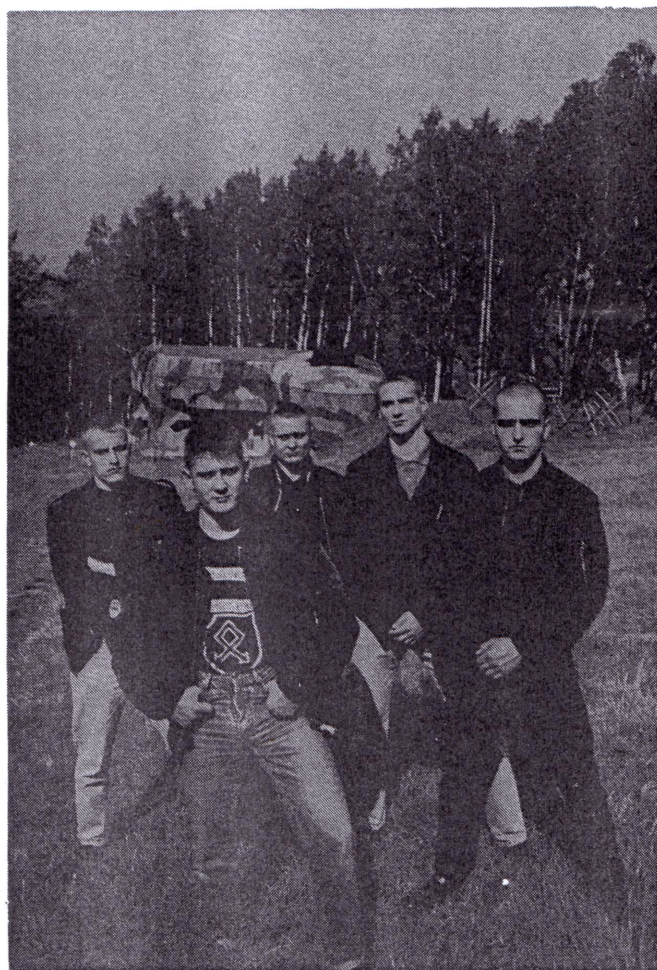

Our current line up is...
Bruno on Vocals, Zerzy on Lead guitar, Mario on Bass, Lukas on Drums and Martin on Guitar.

Could you tell us about your record plans ?

We've recorded 7 of our songs in total, for four different compilations..being 'White Pride World Wide Volumes 2 & 3', 'No more brothers wars' on Di Al and a compilation being put together by the Polish label 'Thor Records' In March/April we shall record our debut CD for Czech label 'Warriors records'.

Why the name Excalibur, do you believe in the ancient t myths, like King Arthur etc ?

We think its a good name, known by all within our movement, we do believe in old legends and myths

and the Excalibur is a symbol of hope for our lands, so its a good name for a white pride skinhead band.

How many gigs have you done and which do you consider to be your best ?

We've played about 10 gigs in the Czech Republic, once in Poland, and once in Italy . At these gigs were the bands 'Vlajka, Buldok, Zast 88, Utok, S.A.D, and Conflict 88 from the Czech Republic, Konkwista 88 from Poland, ADL 122, Corona Ferrea, Gesta Bellica and Peggior Amico from Italy and Britains Squadron and Celtic Warrior. The best so far was with Squadron in the Czech republic and also our last one in Milan, Italy, also we'd like to say here our biggest thanks to the Milano crew for inviting us to this superb concert.

Could you tell us about other Czech bands that you rate ?

At the moment other Czech bands include 'Vlajka, Conflict 88, Zast 88, S.A.D, Hlas Krve and Utok. The best is for sure Vlajka and they have a brilliant CD out now on Warriors Records called 'Skin n Roll'.

What Czech leaders of today and yesterday give you inspiration to reclaim your lands ?

Only the Czech leader of old Radola Gajda who was the leader of the Czech Legionnaires where in Siberia he led his force into battle and totally smashed the Red Army. After his return to our land he became leader of the Czech Fascist Movement N.O.F.

Today only the Bohemian Hammerskins we believe in. We are proud to be a Hammer skin band.

What are the bands musical influences?

Its hard to say in a few words but we have influences coming from Skrewdriver to Bound For Glory, Berserkr, Centurion to bands such as Bathory, Manowar, Slayer, Paradise Lost etc.

Could you tell us about some of your songs and the stories behind them ?

We sing most of our songs in Czech but we have at the moment three songs written in English given to us by Ed from BFG. 'Stalingrad' is about the heroic men who fought the Reds and froze in the icy fields. 'Brain Washing Master' is about the media men who try to destroy our culture by poisoning the minds of the youth of today. 'Bily Rytir Ian' is our dedication to Ian Stuart, 'Hunter' is based on the book and the man who gets equal with our enemies and '14 Words' is about all white activists across the world.

What do you hope to achieve over the coming year ?

First of all we are looking forward to doing and getting out our debut CD which should be called

'1945' and getting it heard by comrades across the world, secondly we want to do as many gigs as possible.

Any merchandise available ?

At the moment we just have the compilation 'White Pride World Wide Vol.2' and soon t-shirts, for more info write to us.

How can you see the Czech movement developing over say the next three years ?

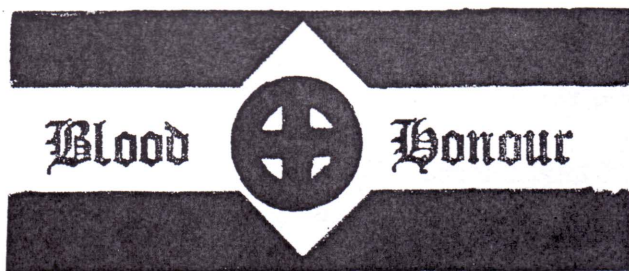

Quality of all our magazines, and bands etc will get much better and we shall increase largely in numbers, but we must be prepared for vicious state oppression, more than we've ever seen (The same goes for the world over...Ed) but it will be time to show everyone that we are strong.

Any closing comments ?

Thanks to you mate for the interest in the band and we give a big salute to all the British Oi readers, we would like to thank and send greetings to all our friends across the world especially Ed, V.F.S from Italy, Our friends in Milano, Wroclaw and Germanies Di Al Records and bands : BFG, ADL 122, Corona Ferrea, Peggior Amico, Gesta Bellica, and Celtic Warrior.

Anyone interested in the band can write to us at : PO Box 70, Trutnov 4, 54102, Czech Republic.

Cheers to Excalibur for doing the interview and for all the help Karel D. provided in getting it, good luck with the new CD.....B.Oi...88.

RIGHT HANDED NEWS!

Yet another instalment of the leading news pages of the Blood & Honour circuit, lets start at home.....

ISD RECORDS have an array of plans in the making and are currently in the process of releasing the first full length CD of the new 'No Remorse' without Paul the popstar entitled 'Rostock Barbecue' and highlights the bands new aggressive back to basics manor. ISD also have the exciting promise of forthcoming releases, of none other than Canadian band 'ARYAN' who have recorded the new CD which as of yet I don't know the title of. Also 'MAX RESIST' one of the USAs favourite bands firstly plan to do a few compilation tracks for ISD then maybe a full length CD. The 'PEOPLE HATERS' have recorded another full length CD for ISD but this will sadly be there last due

to other plans which include creating a new band called 'THE HATEMONGERS', so watch out for that, no doubt no nonsense lyrics!

Also hot from ISD is the new CDs 'Whatever it takes' by Razors Edge, 'Smash the Reds-Live' by No Remorse and 'Live' - Celtic Warrior and ADL 122.

ISD can be contacted through Blood & Honours central office at the address EM BOX 5608, London, WC1N 3XX, England, CDs cost £12 inc P&P.

Hot on the scene is the new style Blood & Honour with a full colour and new professional style layout, I hear some fools are saying Blood & Honour GB is dead, think again dropouts, just looking at the advance of the movement today shows how much we are rising.

News on the court cases of Charlie and Will two B&H activists

has been adjourned until late June I think and then it will be the full two week trial. Martin Cross was recently raided by ZOG and had all his royalty copies of his new Razors Edge CD confiscated and various other bits and bobs, it seems a Police informant is working within a split off group from B&H and is feeding ZOG all the info it wants.

The infamous British newspaper 'The Sunday Times' recently also ran an article inciting that Charlie of B&H, David Irving - Revisionist Historian and the BNP chief John Tyndall were all connected to the USA bombing in Oklahoma. The extremes that which 'they' are going to stamp us out is amazing, C18 will probably get the blame for the recent problems with British beef, if 'they' had there way!

We were inundated with letters after last issue enquiring as to why 'English Rose & Squadron' are opposed to Blood & Honour, to save valuable reading space, and my last statement on these corrupt characters is to say - 'A White Pride band exists to promote the movement, of which we aim to build to a massive size, NOT for personal fame, NOT for personal profit, no one man or band is bigger than a huge movement' thus this is where the bands have gone wrong, both bands I have known for alongtime especially English Rose whom Jonesy was once a great comrade and friend, but one day you have to make a stance. But the movement is exploding, regardless the lies you'll here, so support Blood & Honour 100%, Ian Stuart created a force to be reckoned with, lets make sure Ians true creativity continues.

The last few months have seen gigs in Derbyshire (see gig report) and the great Violent Storm memorial gig, 6 bands played at each, all showing solidarity for the cause.

As EURO '96 - football championships approaches, beware of odd looking characters watching you, British Oi has been approached by the local press asking about it, my comment to the media men

was "I didn't know Wales qualified" which stumped them, but take the matter seriously, originally there was talk of putting all the well known (to the Police) football hooligans and also the known active nationalists into internment camps for the duration but it seems to have died away but mass Police surveillance will occur.

Good luck to Scotland by the way!! We await the hate mail - Ha.

onto other matters concerning you average Patriotic Youth out there.....

Sudden Impact have now a strong line up and plan to gig soon and also do a new CD for ISD in the coming months, Paul D. the bands vocalist I quote as saying "The scene is really tremendous now, we can't wait to catch up on alot of wasted time", the new style of the band can be heard already on the B&H Comp Vol.2 with the belting track 'United' and also a cover of Skrewdrivers 'Built up, knocked down'.

Warlord have finally got things sorted within the band and have experienced a line up change with Whitey leaving the band due to his incompetence, the new CD currently under production for ISD 'An old and angry god awakes' will be sung by beefcake himself, yes Blood & Honours Gary Glitter - Stigger. Watch out for this, I'm promised it will be a powerful release.

Razors Edge have been a bit quiet as of late due to Martin Cross injuring his arm and not being able to perform but the band did a slot in Derbyshire recently thanks to help from Graeme on Guitar (from Eastenders - Chingford Attack) and are proving to be maybe, dare I say it a contender for GBs Numero uno band. They are hot at the moment with the great release on ISD - 'Whatever it takes', by the way a sneaky bit of news comes to us from the R.E camp is that the next CD they plan later in the year will be called 'Strength through blood'.

Celtic Warrior have been quiet recently due to Billy the bands

singer attending the Australian Blood & Honour festival alongside Ken Mc of Brutal Attack, Billy and Ken will be out there for a month. However Celtic Warrior in the summer should have enough material for a new CD, and various planned compilations, for a comprehensive list of merchandise of the band write to Celtic Warrior - Dept.B.Oi, PO BOX 214, Cardiff, Wales.

It is rumoured Billy was spotted singing the Patriotic Ballads in a back street pub in Newport, Gwent recently, the dogs haven't stopped howling since - Ha Ha.

No Remorse as previously mentioned in the beginning have the new CD 'Rostock Barbecue' available and have been busy gigging in Avon for the Violent Storm concert, and also another trek to Germany where well over a 1000 people attended and really went down a storm, the gig incidentally was also a gathering for a comrade who is facing a prison sentence.

Round up of the other band....Chingford Attack the explosive new act from East London are a new promising act with there violent aggression manor and lyrical contents, we wish to see more of these, well they plan to record for a compilation soon I'm told. Avalon have got there act together and have played a couple of gigs and plan to record a couple of tracks for Pure Impact Records of Belgium and then hopefully a split CD on ISD Records, the band playing a blinding set in Derbyshire recently and look certain to be popular. Storm Section have now gigged a couple of times over here now, Harlow, Derbyshire and Avon and created there own following, get to see them, Neil the bands singer informed us recently "I'm staying here now, I love this country" nice one Neil. New band 'Conquest' are out and about gigging now also, so keep your eyes peeled for them. They debuted at the V.S gig recently.

Blood & Honour now has a Leicestershire Division, if your in that area contact them at PO BOX 74, Hinckley, Leics, LE101ZH.

The well known British NS newsheet 'The Putsch' has sadly ended but has joined the staff at 'The Order' magazine and all subscribers will be honoured through this, no rip offs, The Putsch has played an important role in the creation of the N.S.A organisation in Britain and should be commended, so long to its editor 'Albion Wolf', see you in the Order.

Lastly congratulations goes out to Blood & Honour Scotland activist Jamie and his wife Anne on the birth of wee Craig, which makes a second son for them, and a brother to son wee Jamie, och eye the noo buddy and we present you with the golden award of the great motto "May you experience many sleepless nights".

That concludes British news, lets look at the USA...

Remember White American Youth who changed into 'Final Solution' the first US - NS band to play on German soil well they are back together after a break within the band with a great new CD 'White Revolution' and is \$18 from PO BOX 734, Midlothian, IL 60445, USA, Chris the bands singer also has created another band called 'Romantic Violence' and play a Rockabilly style.

Tri-State Terror Records ran by Ryan of Nordic Thunder/Blue Eyed Devils fame is a new label and already have two great releases out namely 'Tri state Terror Comp.Vol 1' see reviews, which contains the bands 'The Voice, Aggravated Assault and Nordic Thunder, and just out a split CD by Blue Eyed Devils and Aggravated assault called 'Hate Crimes', which has ten tracks which include a couple of cover versions. Write to them at PO BOX 9441, Newark, DE 19714, USA..CDs cost \$15.

Stormfront Records have a great illustrated catalogue out now, for more info write to PO BOX 2004, Fond Du Lac, WI 54936, USA and they carry all Resistance Merchandise, and many others.

BULLY BOYS drummer Scott.L has apparently had a scrape with the law and I hear has been arrested

on a charge of attempted murder, but the charge is flimsy and he hopes to be free soon.

The 'White Knights of America Skins' are an active radical group who need support, if you live in the USA and are interested write to PO BOX 800871, Dallas, TX 75380.

Bound For Glory have been busy as usual, they've been over to Europe again, this time France, and also plan a mini CD release for this summer, I presume on there own label again entitled 'Freddies Dead' no not about Freddie Kruger but our musical man 'Freddie Mercury' the Queen who died of AIDS, it will apparently be more in the style of 'The fight goes on' rather than the new thrashy style on 'Behold...The iron cross'. The band will then begin work on there sixth CD entitled 'Charge of the light brigade', which Ed the bands guitarist has already called a "Masterpiece", for a complete list of BFG merchandise send a letter to PO BOX 6773, E.St. Paul, MN 55106, USA.

Canadians Involved Patriots have a selection of t-shirts available now with some great designs, for more info write to Ted, CP 913 Succ B, Montreal, PQ H3B 3K5, Canada, the band also should be now have the new CD by them entitled 'Another one died', for \$20 Canadian.

A great new Swedish distribution service has been set up called 'Germania' and has its first full comprehensive list now available, they are also British Oi distributors, write to them in support to Germania, P.R, S65002, Karlstad, Sweden

According to Norways No.1 magazine 'Fritt Forum' it says Scandinavian authorities are trying to outlaw NS rallies, demonstrations, gigs and even music and that four Swedish Skin/Oi record companies are under investigation.

In February Svea Music staged a Brutal Attack concert in Sweden and flew Ed from BFG to play guitar alongside Ken, although through mass Police intervention the gig venue had to altered the gig went ahead with about 1000 in attendance, apparently many more hundreds were turned away at the countries borders and also stopped from getting into certain towns and cities comrade

A BRUDER BROW....

WAS IT WORTH IT ?

W A S I T W O R T H I T ?

A Bruder Answers...

In May of this year the Regional Director overruled U.S.P Marion Staffs recommendation that I be transferred. This makes me the third person since Marion Jail became lockeddown in the 1980s to go through the program and not get transferred. I was informed by one of the staff members that it was a matter of timing (The Oklahoma Bombing). Had my transfer papers gone in a month earlier, I would have been transferred. Thus providence has decreed that I remain in this hell hole a bit longer.

My German ancestors had a saying that went something like this 'None lives through the night if the Norns so decree'. Fate does play some strange trick on us. In the case of my transfer denial fate dealt me a pleasant surprise. My oldest daughter recently moved to Indiana, a five hour drive from here. On the weekend of July 2nd and 3rd she, her husband and my three grandchildren came to visit me. This was the first time I had seen my daughter since before my trek to the Northwest in 1984. My daughter was barely 14 years old then. Now she is a grown woman with children of her own. I was happy to see them, but there was pain there also. I wanted to crawl through the glass that separated us and hug them until they cried to be let go. I could never describe the pain of looking at my loved ones and not being able to touch them.

The parting on Sunday afternoon was hell, but nothing compared to what I felt as I sat in my cell the next day with tears running down my face as post visit depression set in. I sat looking at photos

of my children and grandchildren contemplating on the irony of having fought so hard for their future that I lost their present. Then I broke out one of my prized possessions being my collection of photos that mothers and fathers from all over the White world have sent me of their children. Looking at these photos and those of my family brought to mind a question I am often asked "Was it worth it ?".

Was it worth it ? What a ridiculous question. Nothing is worth losing your family and rotting in Prison. However "Was it worth it ?" and "Would I do it all over again ?" are two different things. I truly believe that our culture and the survival of our Race are in jeopardy. As a man who holds the virtues of Honour, Loyalty and Duty as the core of my soul, I was duty bound to do no less, infact I am amazed that no one has picked up where we left off.

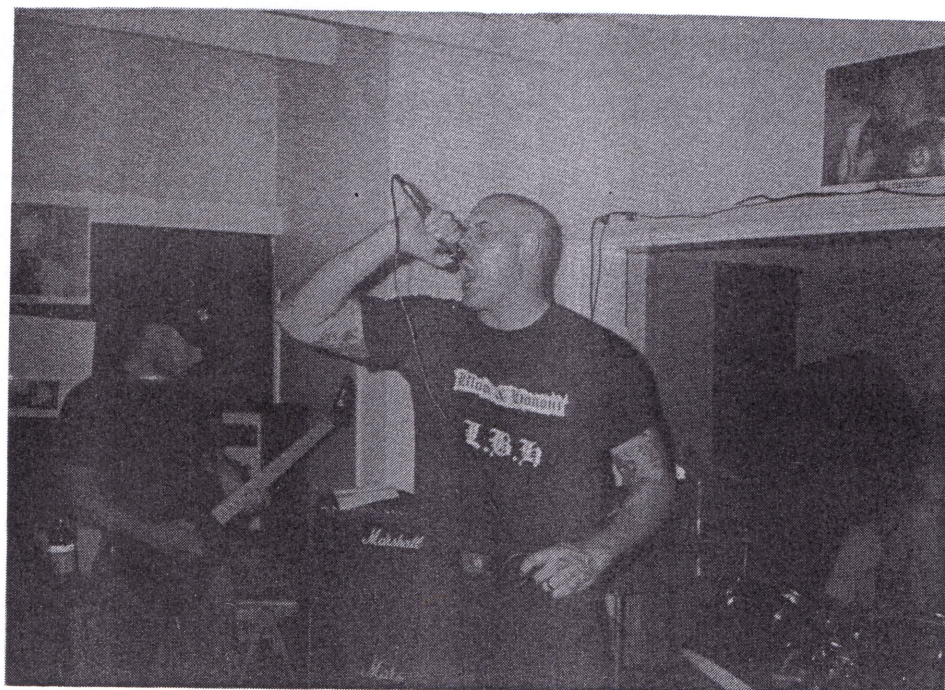

The survival of our Race is on the line. If it takes the imprisonment of one third of our men and the death of another third in order to win this war, then it is a cheap price to pay. The alternative would be far worse. Would it be worth it to those who die or suffer in prison ? Hell No. But, it will be worth it to future generations of white children. That is what this struggle is supposed to be all about. Those with a White Soul understand this. Those without a white soul make up excuses of why they cannot or should not fight.

BRITISH OI!

BLOOD & HONOUR NO REMORSE FIGHTING SCUM!

The band 'No Remorse' is to a nationalist music lover - a household name, it also carries the name Paul Burnley along with it, sick of the goings on, that Mr.P. Burnley was doing, original members decided to reclaim there band back and start out fresh, we caught up with Wolf the bands guitarist at a recent gig and asked him the following questions.....

Firstly - why did you decided to carry on the name 'No Remorse' ?

Good question, we didn't just form to use the name 'No Remorse', Gary S our bassist had played in No Remorse for over nine years, I myself had played in No Remorse and Jacko our singer stood in for Burnley on several occasions, J.C our drummer had only drummed for French band Bifrost though. The name belongs to Mark who originally formed the band not Burnley who joined at a later date, Mark gave us his blessing to use the name, so its not a case of just reusing the name, but a case of kicking out Paul Burnley out of the band and carrying on. The name is the bands, if your not in the band, you can't use the name, you can tell Burnley that!

How has the band been received without Paul Burnley ?

The band is 10 times better now and you could see this if you attended our first gig in Harlow when the crowd went mad, also at the Ian Stuart gig in Wales and also our 4 gigs we've done in Germany, we believe we go down a hellava lot better without him.

Out of these gigs which would you say was your best ?

The best musically the first one in Harlow, we've also played there since, and not far behind the great tribute gig for Ian last year, the best atmosphere though was at 'Dennim near Rostock-Germany' when we played all the new stuff.

At British Oi! we understand you are producing a new full length CD??

Yes thats right, the new studio CD is called 'Barbecue in Rostock', and is pure hate - our fans will love it.

Back to the Paul Burnley matter, to gig goers wont it be confusing to have two N.R bands ?

No as Paul doesn't have a band and hasn't had in ages, he uses session musicians! We are a complete band, so it must be obvious what his game is !!!

As a radical NS band, where do your

political loyalties lie ?

With Adolf Hitler.

Your 'Live' CD 'Smash the Reds' out now on ISD, is it being well received?

Its really surprised us how well and how fast it is selling, apparently the fastest selling ISD release to date.

Under the inevitable Labour government looming over us, how do you believe it will affect our scene ?

It can't do us anymore damage than under the present tory government. Who in our opinion are guilty for some of the biggest acts of treason against the white population, it was the tories who sold out to the I.R.A, it was the tories who introduced more immigration intake and also the tories who have created the harshest race laws and also the tories who turned Britain into and big brother type state, what more will labour be able to do?

Away from the band, is it true that Jacko actually performs as a stunt double for Arnie Swarchenegger and was asked to go on the Gladiators?

Yes something like that, he appeared in the incredible Hulk but refused to be painted green and he was picked to go on the Gladiators but refused to work alongside Sharon Davies.

What hobbies do you have ?

Basically the cause, but also smashing reds, boxing, weights, etc.

What do you hope to achieve over the coming year ?

I myself face certain prison sentence this year, which I believe you have mentioned in British Oi.

However the rest of the band are carrying on and hopefully Stigger if I ask him nicely will stand in for me and keep it all going.

Any closing comments ?

Yeah, I hope all the traitors in our cause get what is coming to them very shortly, people like Brad from Squadron and Jonesy from English

Rose who have never done anything active for the cause, just sit back and sing about it, what good is this. All they wanna be is popstars and live off the NS scene, when in the end the bands split you will never see them about again due to the fact that they are not movement people and never will be, they have tried to split the movement for merely personal gain, by telling lies and informing on there so called comrades, they have no support and so can only spread there poison by writing letters to everyone across the world and telling lies behind peoples backs - how brave, all I will say isKeep on running.....88.

Cheers to Wolf the guitarist for No Remorse for this interview, it was most needed to clear the air over certain matters concerning Burnley etc, we wish him and Charlie the best of luck at court but sadly as Wolf has stated prison looms, so when this happens British Oi aswell as other publications will be launching an appeal to help them as P.O.Ws and also the families they have left behind, you'd appreciate it if someone helped you out, these lads are facing jail solely for advancing our cause, so mere money I believe is no object, when it happens we will tell you more about this, but get your mates each week to have a small whip round, and help someone who will need it.

Also support No Remorse, we have heard a sneaky peek of the forthcoming CD and its very powerful, ram it down your throat lyrics, great stuff.

British Oi! remembers....

ILSE HESS

Beloved Wife of Rudolf Hess

British Oi brings sad news, the death of devoted wife of Rudolf Hess, Ilse on the 7th of september 1995. Below we reproduce a poem written by the German Nationalist Prisoners Association....

A proud heart ceased to beat,
A great spirit gone to another world,
What he bore, no other would bear,
His influence will outlast our time.

It will remain the shame of the wars victors,
That hate and revenge, not justice, determined there actions,
That they write history, with blood and torment,
For speaking the truth, he came to harm.

I will silently curtsy the grand old man,
Who unflinchingly stood be his word,
truthfulness and loyalty was his character strength,
He gave his life for his fatherland.

Rudolf Hess died in the Allied Military Prison in Spandau, Berlin, after 46 years of cruel imprisonment. His crime, trying to restore peace in Europe, before another world war was to throw the world into a senseless slaughter. All decent Europeans salute him as the Martyr for peace.

His loyal and courageous wife, Ilse Hess, followed him to the other world we call Valhalla on September 7th 1995 at the grand old age of 96 years. She lived the life of a brave and loyal woman, and carried the responsibility of being the great Rudolfs wife with great dignity.

She embarked, after the war, each day, each week, for the freedom of her husband, she bore Rudolfs only child, a son named Rudiger who to this day fights on with his fathers spirits, Ilse possessed the characters of a true German Patriot, she had energy, stoutness, and very robust, all the qualities, that an upright and noble minded person can always admire.

Ilse Hess is one of these female characters of our history, that is well worthy of all our respectful admiration.

Rest in Peace - RUDOLF & ILSE HESS.

Many thanks to Max for supplying the text for this article, a great character, Ilse Hess - we salute you 88.

BRITISH OI!

THE STORY SO FAR.....

BRITISH OI!

10 YEARS ON

Well has it really been 10 Years or just over since British Oi No.1 appeared....it sure has.

Alot has happened in this time but join in with us on reflection of these 10 Years.

British Oi started in 1986, March of that years to be precise and was printed by none other than the local Labour party councillor who was doing his 'help the kids of the street' bit, he ordered his wife to do the zine without knowing of its right wing stance and handed it over to us and didn't charge a penny. The zine incidentally featured Skullhead, Skrewdriver and Section 5 amongst others and sold very well in and around Cardiff where the zine was then based, especially down at Cardiff City where the presence of Skins was then great, also sales around the UK soared after it appeared in the music magazine 'Sounds'.

At this point in time, British Oi was involved in the White Noise Club, the musical wing of the National Front, it had everything you could need, a good selection of merchandise, a strong line in political publications and more then anything, mass support from this nations patriotic youth.

British Oi stayed with 'The White Noise Club' even after Blood & Honour split away from the NF as we believed it was the best thing to do, and at the time we believed the lies and smears that NF leader at the time Derek Holland was saying about Ian Stuart and the rest of B & H like No Remorse, Sudden Impact etc. For a while Ken McLellan sided with us but he joined B & H too, only leaving British bands Violent Storm and Skullhead.

Throughout all of this British

Oi continued publication and sales rose by the week and we got in contact with alot of bands, zines etc from every White nation in the world, ties that have stuck to this day.

In '88, it was decided by all involved in British Oi to leave the 'White Noise Club' and pledge loyalty to Blood & Honour, we had spoken to Ian Stuart, and he welcomed us to his side, from that day on, Ian and British Oi were close comrades.

Bands in this period of '87 - '88 featured in the zine were quite numerous, British Oi as the name states also used to promote alot of the non-political bands such as Condemned 84, Section 5, The Glory etc, but also strong allegiance to B & H featuring reviews, gigs, photos and Interviews with all major acts such as Skrewdriver, Brutal Attack, No Remorse, Italies Peggior Amico, Swedens Dirlewanger, Frances Brutal Combat, the list was endless.

We decided in 1990 to basically stop promoting Oi that much as, well to be honest, all the British Oi readership were 99% Blood & Honour and thats what they wanted to read about, political bands, political debate etc.

1991 saw the zine travel up into Derby in the East Midlands, it saw a change in the editorial team or now commonly known as the British Oi Crew and is still here today.

Ian Stuart had also moved into a Derbyshire town and so co-operation with one another was inevitable, Ian was dismayed at the way some of Blood & Honour was being ran and we did actually talk of stopping British Oi and relaunching the old NF journal 'New Dawn', but it was never to be, Ian however did start writing for the zine and contributed

BRITISH OI!

each issue with the ever popular Skrewdriver News section which had all the up to date news of the worlds best band, plus photos, gig news etc etc.

1992 saw British Oi get raided by the Police under suspicion of inciting racial hatred, producing a magazine liable to inflame racial hatred and criminal damage on various indian take aways etc.

British Oi was never charged with anything as to this day the zine believes it is essential for the survival of a zine to always keep a zine totally 'on a legal basis', the Police however did confiscate hundreds of fantastic gig photos many now I would say were priceless of Ian Stuart, also our complete collection of British Oi from issue one etc and did indeed put a spanner in the works.

Ian encouraged us to keep it going and so it proceeded a few months later.

At this time in the UK most Skinheads were now pledging support for the British National Party (BNP) and the NF had really gone into obscurity, a split in them created groupings such as 'The Third Position' and 'The Third Way' and one group remained called the NF.

British Oi on estimation has featured well over 100 bands in its existence, helped maybe more than 20 of them get record deals, and sold literally well over 25,000 copies of the zine to a worldwide network of comrades.

The subscription 'Army' grows by the week still and we've even subscribers from such obscure places such as Central Africa, Iceland, New Zealand and Russia.

the movement grows in general at a good pace, the sad death of Ian Stuart in Sept.93 and the horrific car crash of fallen comrades Violent Storm have been the low points but both have given us great music, inspiration for the movement and most importantly spiritual guidance. I wouldn't have missed Skrewdriver or Violent Storms gigs ever and now I have great memories.

So as the next decade begins we will carry on where the last decade left off, I'd say the zine has improved in lay out, in graphics etc but have alot to do to get to standards set by mags such as resistance and mordland but at the end of the day, I'm supplying a fanzine, which provides its 1200+ a good informative read, as long as they keep on enjoying it, we'll keep on supplying it.

So from the days of selling it in school corridors, and now selling it on the world wide scale we believe as a mob of lads we are doing something right.

So heres to the next decade.....for the Glory of Blood & Honour and the spirit of Ian Stuart and Violent Storm...we carry on.

You too can now be a part of the British Oi Subscribers Army.

Out of the ashes of Nordic Thunder.

BLUE EYED DEVILS

TRI-STATE TERROR.....

The **Blue Eyed Devils** are a fairly new band from the Tri State area which is the same part of the USA that bands like Nordic Thunder, Aggravated Assault and The Voice hail from. We reviewed one of there first gigs in the last issue of British Oi and thought we'd like to find out more about the band.....

When did the band form ?

We formed in the summer of 1995. The line up is Drew-Vocals, Bob-Guitar, Scott-Guitar, Cliff-Bass and Ryan-Drums.

We hear some of the band have been in previous bands, can you tell us more about this ?

Bob and myself (Ryan) were both in Nordic Thunder and Scott used to play Bass for Aggravated Assault. Cliff has been in some other bands aswell.

About Nordic Thunder, has the last CD 'Final Stand' been selling well and has the support for Joes wife and family been good ?

The Nordic Thunder CD 'Final Stand' has been selling very well since its release last April, and support for Joes family has been good aswell. Its good to see people within our scene helping out and taking care of each other. We can never forget what Joe lived and died for.

Why did you choose the name Blue Eyed Devils ?

The name 'Blue Eyed Devils' was basically made up by blacks and the other immigrants in our country, they use it to describe the white race. They feel whites are evil and feel we are out to basically oppress the black race. So its a fitting name.

What musical style do you follow ?

We basically play American styled hardcore with some Oi and metal influences.

BRITISH OI!

Could you tell us about some of your songs ?

We have a song called 'Wagon Burner' which is about the American Indians. They were the red plague in this country before the white settlers came and destroyed there families. We get sick of hearing about how we should feel guilty about what the whites did to them.

A song called 'Stronger' which is about skinheads and how the movement grows despite mass media and peoples hate against us.

Have you any CDs planned ?

We recorded five songs in December for an up coming split CD with Aggravated Assault and this CD will be called 'Hate Crimes' and should be out for March '96 on our own 'Tri state terror label'.

Could you tell us about gigs you have done ?

Only two gigs so far, one at the 'Whitemans weekend' in Tennessee with Aggravated Assault, Max Resist and Extreme Hatred which was pretty cool, about 150 turned up for that one, and the other was the 'New Years Revolution' on New Years Eve in Ohio with Squadron, BFG, Aggravated Assault, and Max Resist, about 300 attended this one and it was a fun gig.

What other USA bands do you rate as good / bad ?

Well I also play in Aggravated Assault who I've always liked. Max Resist are great and I also like Extreme Hatred, The Voice and Centurion. I can't think of any shitty ones except the non political Oi bands who are nothing but fags.

What do you hope to acheive over the coming year ?

Hopefully loads more gigs, record a full CD and play Europe if possible.

Any closing comments ?

Cheers to all with the NS skins worldwide...for info write to....

CAUGHT LIVE....

BY BRITISH OI! - 9/3/96 - DERBYSHIRE

A promising gig was organised in Derbyshire by the Blood & Honour East Midlands Division.

Six bands were billed.

We arrived at the venue, at about 6 o'clock to be welcomed by well over a hundred already there who were happily drinking and looking at the various merchandise stores there present which included R.I.D and Celtic Warriors stuff.

About 7.30 and now with a crowd of about 180 in attendance the first band got onto the stage.

Storm Section the USA/British friendship unleashed into a very Oi come hardcore set of songs well recieved by the crowd that included the tracks 'Day of the rope' off the White Terror Compilation, they had got the crowd warmed up.

Next up were **Avalon** and the Coventry lads played a blinding set, Bod the singer also looks the part with his aggressive appearance. They went into tracks such as Skrewdrivers 'Showdown', and there own 'No more lies' and the ever popular and very catchy 'C18 are calling' which had the crowd raising there right arms. The band play a Oi style and are very powerful, you would never had known it was only the bands third gig, well done.

Next up were by now the ever popular **Chingford Attack** from East London who always bring a large contingent of support and like thunder in a Oi world played tracks like, well some we cannot write in this zine, due to there titles but also the Cockney rejects 'East End', there song 'Chingford attack', 'Jew Boy' the People Haters song and there tribute to Searchlight Magazine the anti fascist publication called 'Gerry' which coincided with the venue as it was apparently booked under the name of Gerry Gables Birthday Party. This band really get a good reaction from the crowd, and I can foresee they will become crowd favourites, if they aren't already.

Up next **Razors Edge** unfortunately without Martin Cross on Guitar due to an injury to his arm, but Graeme the Chingford Attack Guitarist amply fitted in well and with the strong guidance of Kelly on Bass the band performed all the crowd faves such as U.F.F, Jobs not Immigrants, the extremely popular 'Marching On' and also a great cover of the Skrewdriver classic 'The way its got to be', they played a fast set of only about half an hour but we are promised that Martin

Cross will be back soon and the band will be seeking revenge for gigs lost, and this promise means that they will be doing all the new material off the new fantastic CD 'Whatever it takes'.

Now before Welsh lads **Celtic Warrior** started there set, it was announced that there would be a minutes silence observed in memory of the sadly lost comrades of **Violent Storm**, 4 years on, this being the nearest gig to the date they died - 13.3.92.

You could've heard a pin drop, 100% of the crowd paid respect with a right armed salute, and after the minutes silence, then a roar and a sea of Sieg Heils.

Celtic Warrior instantly went into the track 'Violent Storm' which had the dance floor packed, and also the tracks 'Let the battle begin' 'White eagles' 'Time Bomb' and a great version of Brutal Attacks 'Let it burn'. The crowd danced throughout the whole set which lasted about an hour and the lads played the best I have seen them in a longwhile, well done boyos.

Warlord the band to rise out of the ashes of Skrewdriver headlined but this time without Whitey the bands original singer and it seems this is how the band will continue with Stigger on Guitar and also vocals, Graeme (Also of Avalon) on Bass and Mushy on Drums. The band performed alot of the Skrewdriver classics such as 'Tomorrow belongs to me, Europe Awake, White Power, Smash the IRA and more, one song to listen to was Warlords version of the great 'House of Treason' which instead of the political speech against Parliament spoke about the idiots which blood and honour has now outcast, which in line with the song ended with chants of Wankers instead of Fools. You know who we mean, well done Stigger.

The band also performed some new tracks which I believe were 'Motherland/Fatherland' and 'Beautiful England' and they proved to be powerful White Pride Rock Anthems, they will incidentally be on the bands new CD entitled 'When an old and angry god awakes'. They had the dance floor buzzing aswell, and apart from Stiggers mickey taking out of certain people the band would've been brilliant.

I was told afterthe gig that Stigger apparently puts two pairs of socks in his undies to impress the girls.

A great night - we march on - Mike/B.Oi!

RECORD REVIEWS

BY BRITISH OI! & MIKE MILES

NO REMORSE - 'SMASH THE REDS-LIVE' - ISD Records.

The first CD release of No Remorse without the now forgotten popstar of Rock Against Communism - Mr Paul Burnley. This CD is brought to us by ISD and boasts a full colour cover and inset card, and also a colour back cover, very professionally done, and what more can I say except 100% White Power.

The CD contains 19 tracks in all, but only 13 are listed and feature No Remorse faves such as its title 'Smash the reds, This time the world, Bloodsucker, See you in valhalla and We salute you' plus new tracks such as 'Exterminate YA' and 'In ZOG you trust' and also a rendition of the Sex Pistols 'Belsen was a gas'. Well recorded live CD, good crowd involvement and some great comments by Big Jacko the bands singer.....10/10.....£12 from BM BOX 5608, London, WC1N 3XX.

TRI-STATE TERROR : Vol.1 - Compilation - Tri State Terror Recs.

Debut release from this new label 'Tri state Terror Records' and what a corker. Bands featured are the Tri State bands 'Nordic Thunder' with some demo and raritie tracks, The Voice - demo and rarities again, and four great live tracks by 'Aggravated Assault' from a Canadian concert. Well laid out, good photos and a great mix of tunes, the surprise to me was the power of Aggravated Assault live, as the yanks would say 'Awesome'! Much better than on there release for Resistance. Best tracks are Aggravated Assaults 'A.C.Boys', The Voices swansong 'The Voice' and the thundering drumming on the great catchy track 'Day of the rope' by Nordic Thunder make this great.....9/10...£18 from T.S.T, PO BOX 9441, Newark, DE 19714, USA.

A.D.L. 122 - 'L'Angelo della Morte' - Tuono Records.

The second CD by Italies ADL 122 (I think, correct me if i'm wrong) and what this band gives to me is pure energy, all the tracks are OI/Rock and have excitement, slogan type anthems etc. The band know how, in there individual way to really entertain.

Songs to definately watch out for are 'Skinhead - 88' 'Pull the Trigger' 'The angel of death' the title track, and the ever popular 'Tony was a skin'.....Well laid out, good cover art.....9/10 - £12 from Tuono Records, C.P SUCC 6, 36100 Vicenza, Italy.

BOUND FOR GLORY - 'Behold....The Iron Cross' - BFG Productions.

The fifth CD by BFG I believe and as Ed the guitarist describes it 'Harder music for harder times' he isn't far wrong. Well laid out CD, great inset card, and notably made on there own label after the intended label 'Excalibur' in Germany was shut down by ZOG.

10 tracks in all, ones that stand out are 'Siegfried' with guest backing vocals by Dan of Centurion, 'To untamed lands we sail' 'Behold the Iron Cross' which is a thundering explosion of White Pride Rock and details the brave German armies fight in W.W.II. Best track for me is by far though the great track 'Divided by Hatred' a rock anthem which has guest folk artist 'Eric Owens' who accompanies the track by playing the 'Tin flute' on the track, a must. £12 from BFG Productions, PO BOX 6773, E.St.Paul, MN 55106, USA....10/10.

FINAL SOLUTION - 'White Revolution' - Viking Sounds.

Remember 'White American Youth' well they grew up and became this band 'Final Solution' and they have with the help from Viking Sounds Records have recorded this 11 track CD, very well laid out, great lyric booklet and a very 'terroristic' photo on the back cover all adds to its content.

The band themselves are quite Oi sounding and quite typical of American bands with its 'strong' lyrics, some great snippets have been added to tracks too, such as before the first track the band have added an excerpt from 'Reservoir Dogs' and before the track 'White Revolution' they have added a Martin Luther King speech and also a bit of Adolf Hitler (I think). Tracks to watch out for are 'Ragnarock' 'Skinhead Pride' 'Hail Victory' and the very catchy 'Final Solution'....\$18.88 from Stormfront Records, PO BOX 2004, Fond Du Lac, WI 54936, USA...9/10.

RAZORS EDGE - 'Whatever It takes' - ISD Records.

Well where do I start, a CD eagerly awaited by Blood & Honour fans the world over, the new Razors Edge CD, this time on Britain's own ISD label.

A very well laid out CD design, the warposter design cover unleashes the bands total commitment to the NS cause, the inset card and dedication shows the bands comradeship to a fallen friend and the photos are great.

Onto the music, 11 tracks in all, a new improved style, obviously worked on within the band but also with the notable influence of now Rock against communism veteran Martin Cross. Tracks include 'Rule Britannia' 'Free loyalist prisoners (L.P.O.Ws)' 'With the gods you ride' 'One Voice (NSA)' 'Smash the race law' and the absolute icing on the cake the roaring anthem of 'Whatever it takes' takes the band to new heights, who ever said British Blood & Honour was dead had better eat their hats, buy this or miss out on a real white power rock gem.... £12 from BM BOX 5608, London, WC1N 3XX.....10/10.

'Leaderless Resistance' - MSR Productions (USA)

Fully titled 'Leaderless Resistance - a pan aryan compilation' is a new comp from MSR in the US of A. 28 tracks in all and the bands are Vaginal Jesus, Freikorps, Lightning Rod, Saccara, ADL 122, Crew X, Day of the Sword, Peggior Amico, Ethnic Cleansing, Bound For Glory, Max Resist, Das Reich, The Voice, Mistreat and Intimidation One. Over 79 minutes of great music.

Many styles are represented on this - Oi, Thrash, Punk, White Rock etc and all adds up to a great CD, tracks that I personally enjoyed are a very powerful thrashy number by Vaginal Jesus called 'Get out', the catchy Oi song 'NS Skinheads' by Crew X, Day of the Swords 'In the shadows' and the Voices 'Naseer Ghani (the murderer of Joe Rowan)', some great live tracks by BFG and a great Oi band called Intimidation One give us a song called 'Oi Oi Portland'.

Buy it for \$18 from MSR, PO BOX 1291, Wheat Ridge, CO 80034-1291, USA....9/10.

VLAJKA - 'Skin 'n' Roll' - Warriors Records.

The first CD I've ever received from the Czech republic in the form of the debut CD by Czech faves Vlacka. Firstly I must add how well put together the CD is, good colour cover, lyric booklet etc, nice style.

Onto the band, a very powerful Oi come rock band, I'd say similar in music to Finland's 'Mistreat' but the vocals a bit clearer and heavier.

10 tracks in all that include one in Nicky Crane 'Queer Bashing' which is great and a special number for the band a tribute to Ian Stuart, aptly named 'Ian Stuart R.I.P' but unfortunately it's in Czechoslovakian, all 10 tracks are but it is their native tongue. Other translated titles are 'Czech Legions' 'Join Us' 'Street fight' 'Memory' and 'Tomorrow', the lyric booklet has all the lyrics in English but the songs are sung in Czech.....A must for any worthy collection, a good debut from a new record label too...£12 from Warriors Records PO BOX 70, 54102 Trutnov 4, Czech Republic.....10/10.

GREAT BRITAIN.

EDITORIAL NO 39.
SUMMER 1996.

British Oi! readers,

Cheers for once
again buying Britains best skinzine.

The whole zine seems to be
running more efficient now and sales
still reaching new highs, infact
issue 38 had sold out 5 weeks into
its release which shows we are on
the march.

We now have distributors in
England(4), Ulster, Scotland, Wales, Italy
Sweden (3), Denmark, U.S.A,
Switzerland, France and more, and
they are truely the main stay of
support behind this zine, so to all
you distributors - Cheers. If you
however want to distribute it, then
drop us a line for bulk rates.

No.38 also proved popular with
its new layout and better print
quality, this we shall maintain and
hopefully improve as time progresses.
However people have said increase
the price of the zine and bring out
a colour cover etc. Basically British
Oi! is a skinhead magazine, and is
at grass roots level, skins and NS
folk want news, and info about whats
going on, not hype so we have decided
against this measure. The higher
level publications such as Blood
& Honour have the colour covers which
is great but, as they say, WE ARE
HAPPY AS WE ARE.

Until next issue brothers -
sisters, stay strong, For the cause.

BRITISH OI! VOICE OF THE PEOPLE

NEW ORDER

New Order are an up and coming Polish band and have played a few gig, lets find out more...

Could you tell us about the bands formation - Nowy Tad (New Order) formed in the autumn of 1993 but didn't do much until '95, our main reason for forming was to reach out to the youth of our country, the bands members are : Przemek - Vocals, Maciek - Guitar, Robert - Bass and Tomek - Drums. We chose the name New Order as a name that looks towards the future and ultimately a NS victory.

Could you tell us about some of your songs - For example, one of our songs is called 'Iv Rzesza' and is about revolution in our Europe, 'Red Invasion' is about our on going fight against communism and 'Old Values' is a typical Skinhead song, about our way of life etc.

Could you tell us about gigs you've done - Two so far, once in Wroclaw with Konkwista 88 which was great and our second with in Jawor with Peggior Amico and Konkwista 88, we also have plenty lined up for the near future.

What about recordings - We have recorded three tracks for Thor Records of Poland and we hope to do a LP/CD but it all depends on someone financing it.

What political party do you support - There are lots of parties in Poland but instead of uniting against our foes they are quarreling, our enemies however in the anti fascist movements seem well organised.

How is Poland now after the demise of Communism - well the shops are fully stocked and housing is easily available but folk aren't happy as the cost of everything has trebled and unemployment is very high.

Back to your recordings can you tell us more - Well the tracks will be on a compilation on Thor Records with fellow Poles Konkwista 88 and Baranki Boze aswell as British bands Razors Edge, Celtic Warrior and more - out soon I hope.

What bands have inspired New Order - Well loads really, we love our music but our idols are Skrewdriver, Skullhead, BFG, Fortress and Nordic Thunder.

Any closing comments - We'd like to say hello to all the NS skins around the world and tell you that we are keeping up the hard fight against the ZOG in Poland, hello to the British OI! Crew and cheers for the support with the zine. we hope you will hear us soon, For 'New Order' 88.
To contact us write to New Order C/O Robert, Mickiewiczza 11/2, 59400 Jawor, Poland.

BRITISH OI!

RIGHT HANDED NEWS!

Hello and welcome to yet another instalment of news from the British Oi! newsdesk and another edition of 'Right Handed News'. The response for these pages is growing by the day, with news of gigs, planned Cds, new CDs out, even down to births and marriages which is great, but please, keep on sending the relevant info in to us at 'R.H.N' PO BOX 249, Derby, DE21 9EG.

GREAT BRITAIN....NO REMORSE have been as busy as ever and have played a gig in East Germany on 17th of May with German/Swedish band 'Kraftschlag' and German heroes 'Radikahl' who must be back after a lean spell after a brush with the law over the bands lyrics. No Remorse are also hot out of the studio and there new CD 'Barbecue in Rostock' is now available and is a back to basics CD, very similar to the No Remorse debut LP 'This time the world', its aggressive

cover art, drawn by none other than Canadian band leader Griffin of 'Aryan' shows the bands radical direction. Barbecue in Rostock is out on ISD Records and available from all regular stockists.

Warlord led by t-shirt terrorist Stigger (Have you noticed how his shirts never have necks or sleeves) have completed rehearsal for the forthcoming CD 'An old and angry god awakes' and recording is due to be finished in late June for hopefully a August release all being well. The band have recently gone down a storm at the St.Georges Day gig in London and also in Derbyshire recently, the CD will be on I.S.D Records. Stigger has also recently done some ballads to feature on an up and coming Polish Compilation CD.

Razors Edge have been popping up here there and everywhere and have laid down two tracks for two different compilations one being

the crowds favourite and Skrewdriver cover 'Free My Land'. Razors Edge also plan a split CD with none other than U.S.A band 'Max Resist' who seem a bit disillusioned with many things going on in the states. This split CD on ISD records will be entitled 'The Whitest Power'. The band have also gigged in London and Derbyshire recently.

Celtic Warrior are back at it after Billy the bands bulging singer had a long holiday over in Australia, where upon Billy and EX-Celtic Warrior member Nigel recorded nine tracks for a forthcoming CD on a new Aussie label under the band name of 'Broadsword', Billy said to British Oi! recently "Its in a similar vain to 'We will never forget' style" so R.A.C fans keep an eye out for that. Celtic Warrior themselves are currently getting a load of material together for a new CD planned for later this year on ISD Records again. They have also recorded a couple of tracks for a compilation. Also while Billy was in Australia he performed a Celtic Warrior gig with Nigel on Guitar, an 'Open Season' member on Bass and Fortress' drummer, the gig went well with Fortress and Brutal Attack also playing, see gig review.

Celtic Warrior and Razors Edge members also involved in the side project 'The Order' now have a mini CD out with only has three British tracks and two German, write to C.W at PO BOX 214, Cardiff, Wales for more information. 'The Order' plan to record for the next Blood & Honour compilation planned for the near future.

other band summaries, 'Avalon' have released a rough demo of the band, I'd describe it more as a practice tape but it gives an idea of what the band are about, they also now have a contact address and its also the contact address for Coventry and District Blood & Honour and it is BM BOX 6826, London, WC1N 3XX, a new t-shirt is planned by Avalon, so keep your eyes peeled for it, also from this address a great new NS zine has

surfaced called Strength and Will and is fl inc P&P. Avalon plan to record 5 or 6 tracks for ISD that will be put alongside 5 or 6 Chingford Attack tracks for a split CD in July/August.....Storm Section the Bristol based Anglo-American outfit are still at it and have gigs planned for July and as an off shoot, the County Avon lads have started another band up as of yet untitled and will do just cover versions and will include alot of old Skullhead material, which isn't heard sadly anymore..... A new Drum Corps band have now played at two gigs and get the people in the mood for the nights entertainment at gigs and play a mix of modern and NS marching music from the '30s, they are called 'ReichForce' and come on stage looking well smart, look out for them.....another new band to watch out for from Derbyshire will be 'Violent' a new bunch of lads to the scene with a very aggressive stance and 100% NS, we've seen the band rehearse and will say, beware! Veterans of the R.A.C scene Brutal Attack as mentioned in the Celtic Warrior article also gigged out in Australia with a make shift line up and also recorded a half a dozen or so tracks for German label Excalibur I think for release and I believe is a kind of Aussie/British friendship CD. B.A have also got yet another new CD out on Swedish label 'Svea' see advert elsewhere.

Onto other British News....Renewal of Identity (R.I.D) the well known Skrewdriver outlet will not be selling Skrewdriver CDs anymore as they have been badly ripped off by Rock O Rama Records but they are very much still alive and kicking and have a new glossy catalogue available with a large range of t-shirts for sale, for a list send a SAE to RID PO Box 249, Derby, DE21 9EG....A new unit of Blood & Honour / N.S.A has opened in Yorkshire and so any interested parties in that region write to Blood & Honour East Yorkshire Div. PO BOX 51, Bridlington, YO16 5WZ..... Police tried to stop a Ulster

Loyalist march through the city of Bolton on April 12th after skirmishes between Combat 18 activists supporting the Loyalist march and counter demonstrators mainly from Anti Fascist Action and Anti Nazi League, the march however went ahead after a 90 minute stand off by the Police. Afterwards it is reported the Reds were nowhere to be seen....similarly in London two weeks later the A.N.L/A.F.A attacked a Loyalist march and injured a few pensioners but at the end of the march where the C.1.8 lads had gathered they chased 250-300 red scum off the streets, terror being the operative word!....British Oi! has yet again been at the end of more evil penpushing articles in a couple of Red journals especially the well known expose mag 'Searchlight' or 'Searchlies' to be more truthful, what is this rag worried about, we are just a music zine but these gutter press find it amusing to write lies and complete drivel, so we must be doing something right.

Onto other news.....**POLAND** has been a place of very high activity for the Blood & Honour NS scene, in Rybnik City over 500 attended a ADL 122, Konkwista 88, Honor and Excalibur gig, a few weeks later Bound For Glory also played there with over 450 attending with fellow bands Konkwista 88, Honor and a very popular new Polish band called 'Feniks' - skins from over six countries attended, There is a new Polish band called 'Landstorm' and also a new chapter of the Hammerskins been formed, other news from Poland includes a white power shop opening in Szczecin City, which has come under attack but remains open, in Aushwitz-Birkenau camp, about 150 Skins from the Polish National Party marched through it in memory of all Polish civilians lost there, the very next day in Rome Jewish militants attacked the Polish embassy claiming the 'Polish government supports Neo Nazis', also in Poland a demonstration of over 350 skins and NS folk protested

against new proposed anti free speech laws.....**CZECH REPUBLIC** the singer of popular band 'ZAST 88' is in jail awaiting trial, Police made several raids on Skinzine editors which included well documented zine 'National Struggle' and is experiencing many problems with the law, February saw 500 people attend a RAC concert on Northern Bohemia which featured 'Vlajka, Excalibur, Slovak guests Kratky Proces and Biely Odpur, this gig was to promote Vlajkas new CD and also welcome the return of Kratky Proces after two years off the scene. Excalibur and Kratky Proces have both signed to Czech label 'Warriors Records' and both plan CDs this year, for more info write to B.H.S, PO BOX 70, 54102 Trutnov 4, Czech Republic....**PORTUGAL** has seen alot of anti skinhead/NS aggression many skins and nationalists were arrested after a riot occurred where a immigrant died and many were wounded, it has severely dented the scene there but carries on good fashion with two new zines appearing called 'Justice and Freedom' and 'Luzofensiva'...also in Portugal a new division of Skingirls has formed who are keen to get in touch with other skingirl units and can be contacted at - Apartado 50508, 1700 Lisboa, Portugal.....**FINLAND** a where a new skinhead cafe opened but has witnessed a stinging attack on it, not by reds but by jealous money makers from Sweden named as only counter partners of Nordland, the future of the cafe is unsure? Mistreat the Finnish heroes also plan a new CD and also new releases are planned by fellow Finns Pig killer....**SWEDEN** has witnessed Svea releasing a new Brutal Attack CD ' Battle Anthem ' and they also released the new instalment of the compilation CDs 'Nordland - No.4' which includes Heimdall, Heysall, Volund Smed and a great new band called ' Germania ' who are only 15-16 year olds, write to Svea at PO box 2019, 151 02 Sodertalje, Sweden, Ragnarock Records have also released a few new CDs and one includes the new band 'Spandau',

see ragnarock interview for more info.....**DENMARK** has seen NS88 bring out several new videos including the great Ian Stuart Memorial concert in Wales and also the brilliant St.Georges Day gig in London and also the formation of a wing of NS88 called NS Records and they have already released two CDs namely a remixed better version of the Open Season LP 'Frontline Fighters' and also Commando Pernod 'Live', they have also signed the great band Kraftschlag to its camp. write to NS 88 at Poste restante, 3400 Hillerod, Denmark, mention British Oi if writing.....in **GERMANY** Vincente Directori Publications have been very active and have brought out several new CDs from the bands 'O.D' 'Zerstorer' 'Asgard' 'Die Vollstrecker' 'Drom' and others for a list write to PO BOX 1365, D-21505 Glinde, Germany, see reviews for more info....Germany has witnessed several more gigs going ahead including one as mentioned recently with GBs No Remorse, seems the underground movement is really growing too.....Also a new band making a name for themselves are 'Thors Hammer' from Berlin, a young outfit but 100% behind Blood & Honour.....**U.S.A** hasn't seen many goings on for a change, or maybe our contacts aren't keeping us informed, the new edition of Resistance is out now and Resistance have also released the long overdue double CD 'The Flame that never dies' by many bands, also they have just released the new Berserkr CD called 'Crush the Weak', as of yet we haven't heard any of these to review. 'The Thule' is a great new NS zine from the states and is mainly catering for Aryan P.O.Ws but we really enjoyed its contents, write with \$3 to Volksfront, PO BOX 33074, Portland, OR 97233, USA. Tri State Terror Records the popular label from the USA have been busy and are really getting there act together, they have released a new split CD of 'The Blue Eyed Devils/Aggravated Assault' called 'Hate Crimes' and are also the official dealer for Nordic Thunder

and Agg.Assault and have many t-shirts etc of these bands available, write to them for a catalogue to PO Box 9441, Newark, DE 19714-9441, USA. Bound For Glory as already mentioned in the Polish news played in Poland, and also while over in Europe played in Germany on March 9th, unfortunately Joel had to get back to the U.S so the vocals were left to Ed the guitarist to do, also as a guest slot, Ken of Brutal Attack showed up and so Ken and BFG did a B.Attack set. INTIMIDATION ONE

Intimidation One are a fairly well known band in the USA and have caught the eye of the European white pride rock fans with there thumping track 'Oi Oi Portland' on the great MSR Productions (USA) compilation 'Leaderless Resistance'. British Oi! thought we'd find out more.....

Could you tell us a bit about the bands formation ?

Originally we formed in early 1994 in Portland,Oregon. The line up consisted of Dylan-Guitar, Jekyl-Vocals, Aaron-Drums and myself (Jason) on Bass. September '94 saw a change in line up and our line up is now-Dylan - age 26 - Guitar and lead vocals, Chuck Bigot - 25 - drums and myself (Jason) on Bass and back-ing vocals.

Why did you choose the name Intimidation One ?

The reason we choose Intimidation One was because in this city, Hate-crime USA, Intimidation One is the state statute one is charged with when one has committed a racial or biased crime. In 1988 two skins, Ken Meiske and Kyle Brooster, charged with the beating to death of an Ethiopian national: although the crime was a mere accident that happened during a streetfight, they were charged as they were deliberately out looking for immigrants to kill and beat

which was really not the case at all. Needless to say they lost in court and are now in state institutions serving time for the cause. Since then even a verbal comment made in the presence of another comrade, such as "I'm gonna beat you J@* boy" will land you an Intimidation One charge and a minimum of one year in prison.

Could you tell us about your musical style and about some of your songs?

We are in the process of releasing a 18 song album entitled 'A call to Warriors'. This album is dedicated to Eric Banks from BFG who was murdered in Portland by anti-racist scum on New years eve 1993.

Its been said that we sound like a cross between the Midtown Bootboys and Condemned '84, but if I were to nail it down to a specific style I would call it American Oi or just plain White Power rock n roll. Some of our faves of the forthcoming CD are 'Urban Decay' which pretty much tells two stories one about Erics murder and the other about Ken and Kyles incident another is 'White Nationalist Skin-head'which explains itself. All in all you'll find this album is pretty much pushing white unification and remembrance for all the martyrs of our cause who are either dead or P.O.Ws.

**100% UNITY
NO MORE NO LESS**

BRITISH OI!

How many gigs have you done and with who ?

About 15 gigs in all, 12 of them only small gig (50 people and under) here in Portland with various Punk rock bands. The bigger 3 gigs though were the '95 Aryan Youth assembly at the Aryan Nations Compound with Odins Law from Canada, C.I.S from Utah, B.F.G and us. Then a gig put on in Globe, Arizona by the Arizona Hammerskins which featured us, Extreme Hatred and Battleaxe from California. The third large one was in Portland on New Years Eve in honour of Eric Banks who as I mentioned earlier was murdered by cowardly scum that night three years previous. The gig featured us, Eric Owens and a new project called 'Battalion' which is Greg from Odins Law, Our drummer Chuck Bigot and a guy called Boxcar Barnes who plays bass. They have a very heavy metal edge with a spice of Oi! added, very powerful music.

Since the Oklahoma Bombing, how has it affected the White Power movement in the USA ?

We cannot speak for the entire United States on that question, what we can say is Janet Reno (Head of U.S Prosecuting Attorney) has just passed anti-terrorist legislation this year. It will directly affect racial groups around the country in the long run. But the bombing itself has not affected us here in Portland yet. ZOG has always been

down on the Portland scene, fabricating stories to imprison as many of us as they can before the shit hits the fan.

What NS political parties do you support and why ?

Dylan and I are NS skins, Chuck is a straight up bigot who hates everyone, but as a band we work closely with the Volksfront, they are a European American Cultural organization dedicated to the preservation of Aryan heritage in North America.

Tell us what bands do you like ?

Well we have a wide variety of musical tastes, Chuck on one hand tends to lean towards U.S metal bands such as Morbid Angel, Rahowa, Bodybag and Centurion, while on the other hand Dylan and I listen to American bands such as Max Resist, Midtown Bootboys and B.F.G (Warriors Glory).

Lyrically we are inspired and influenced by bands such as Skrewdriver, Brutal Attack, No Remorse, BFG and Skullhead come to mind first. As far as music goes again, Brutal Attack, Skrewdriver, Midtown Bootboys, Section 5, Condemned 84 and some local Portland bands such as Tattooed Corpse have major influences on our sound.

Away from the band, what hobbies etc - football ???

We do alot of winter recreational sports, Chuck is into snowboarding, Dylan into to computers and I'm a full time electrical student, as far as soccer we don't follow it as much as we do U.S hockey.

What do you hope to achieve with the band ?

100% unity - no more, no less. No more brothers wars. We want people to remember and never forget our fallen comrades and P.O.Ws, they are in there for us, we are out here for them.

Any closing comments ?

We would like to express our sorrow to Paster Richard Butler of Aryan Nations whose wife past away.

WHOSE CULTURE ?

Whose culture are we supposed to be saving from extinction ? The western white civilisation is the one, then why even in our movement do we experience alien cultures creeping into our scene.

I don't wish to name names for simply disunity means, but last year at one of the major British B & H gigs a foreign band played a strong set of white pride anthems, very well in fact, but the singer had a baseball cap on BACKWARDS just like say - Crap bands, sorry rap/hip hop bands from the states.

I know from watching these lads that the crowd were angered at the singers get up, and when mentioned to him, he flung it to one side.

Now back to the subject, its our culture, lets promote that, not align with alien trends to be 'Trendy'.

I recently watched a video made in the USA by Resistance Records and it featured the great band 'Berserkr' on it, yet again, good strong music, but the singer danced, acted and swore like our alien invaders.

To say to the crowd 'Hey man, yeah F@*/k@* hell' 'lets move' etc, haven't I heard, all the multicultural brigade do this!

We don't need all this, I imagine if Ian Stuart could have witnessed these backwards caps, the dancing, he'd have chuckled I think.

Promote our people, our traditions, our ancestry, if you don't want to then your in the wrong game.

Written for British Oi! by Alan of Warick.

Whats your views on this matter, are you also against this anti-western culture brigade, let us know.

THE LAND OF THE FREE

Across this great land, in the towns, the cities and on the farms, people, by the millions are contracting an insidious disease. Most of the victims are unaware of being infected in any way.

The name of this disease is MINDWASH and the symptoms are : apathy, complacency, ignorance, willingness to accept what they are told at face value, aswell as the act of comfortably finding a soft, little spot in the silent majority and leaving it to the other guy.

The bureaucrats, the government officials, the authorities, the movers and the shakers, including those shadowy figures that move in the background of corporate and industrial finance. They are all laughing with glee, as the sheep head for the slaughter.

They laugh because their program of control of our lives is coming to pass. They achieve this one bite at a time, one little piece of freedom taken away.

Your choice for many things has gone, for instance : you have to wear seat belts, you have to wear cycling helmets, you have to drive at a set speed, etc. The population is so mindwashed by the terror tactics and sensationalism of the media, that most are thankful that it is 'not them'. They really believe that all this only affects the 'other guy'.

If we fail to unite and stand up, set goals, and work to achieve these goals, with organisations both political and social, we will wake up to the horrifying realisation that we are 'forbidden' to stand up, speak out and even to dream. We can only remember in secret, until even that fades along with freedom.

There is a cure for MINDWASH, it is called 'Truth'. Promote the truth, share the truth, and do it with honour, it cannot be left to others, and cannot be left for later. It must be done NOW! and it must be done by YOU! If not, then we have only two remaining alternatives and they are 'Pandemonium and Slavery'!!

BRITISH OI!

AVALON

AVALON are a welcome addition to the Midlands and indeed British Blood & Honour scene and have been busily whenever possible gigging up and down the country. British Oi! caught up with the lads recently and heres what they had to say....

When did the band form and whats the current line up ?

Bod : The band got together about two years ago after talking about the lack of bands in Britain at the time compared to Europe and the world in general. After various line ups with numerous people leaving because of personal problems the line up is now Myself (Bod) on Vocals, Graham on Guitar, Shag on Bass and Razors Edges Sid on Drums. We'd like to say thanks Sid of Razors Edge for helping us out on drums when needed cheers.

Why the name Avalon ?

Bod : Originally we called the band 19th Twice (SS) but changed it to Avalon as we are all Bryan Ferry fans on the quiet (not). We just thought it better as we are a British band and we wanted a name connected with our heritage and myths before even our legends are dismissed as

anti-zog propaganda.

How important do you think it is these days to form a new Blood & Honour band ?

Shag : Its really important to have new bands because it stirs the s@*te up the reds. We are also supporting Ian Stuarts beliefs of 100% uniting nationalists all over Europe, thus resisting ZOG.

Graham : I think every town and city in every country should form a band under the B & H banner, ability does not come into it, and Avalon are proof of that, everyone has a responsibility to spread our word to the masses.

Could you tell us about some of your songs ?

Bod : 'Dogs cock' is about the ethnic minorities playing our national game of football and the sheep in the crowd cheering and chanting their name, great role models for our kids eh!

'Whose education' about the communists brainwashing our children in school.

'C18 are calling' explains itself.

'Our honour is true' about the fight for National Socialism.

'Blood & Honour - Blood & Soil'
for all that is foremost in our
minds - R.I.P Ian Stuart.

Could you tell us about your gigs
to date ?

Bod : We've played 4 gigs so far
and are willing to play anywhere,
our first was St.Georges Day '95
which went down well seeing as it
was our first gig, our second was
in Harlow in Feb '96 and was shit
as I was rat arsed and forgot my
lines, and the third and forth in
Derbyshire which both went well.

Is it true that you have members
of fellow Blood & Honour bands
'Razors Edge and Warlord' in Avalon
?

Shag : Yes its true, we've had more
line up changes than Cardiff City
F.C (Ed...Good teams need to change
its line up to improve even more...to
our foreign readers 'Cardiff City'
are Britains championship side
supported by British Oil!). We all
get on well and are planning a
blockbuster CD together soon.

Graham : Although Sid is the drummer
with Blood & Honours Razors Edge
and I myself am also in Warlord
it never seems to be a problem.
As long as none of the other bands
have a problem we should be OK,
Sid is concentrating his efforts
on Razors Edge and quite rightly
so, but Sid helps us out which is
great of him and I have no problems
laying in both Avalon & Warlord.

Have you any recording plans ?

Bod : We have a couple of projects
within the pipeline at the minute
and awaiting confirmation, we hope
to record quite a bit in the future,
its hard to record in our home town
'Coventry' now as all the studios
are ran by scummy reds.

Graham : Like Bod says there are
one or two things in the offering
but as a British band our first
loyalty will always be to Britains
Blood & Honour, I.S.D was set up
as a platform for us all to use
and we will support it in any way
we can (Hint Hint).

Whats your opinion of the current
NS scene in Great Britain ?

Graham : Well its never boring is
it ? Politically wise it seems that
everything is in place but our own
people seem intent on destroying
it, I support the N.S.A for the
ideas and ideals which it represents.
If other people or parties of British
National Socialism do not want to
be part of it, then fair enough!
I do not pretend to know the problems
between the bodies but I really
do wish we could all sit down and
work it out, at the end of the day,
whose losing out ? 'US'. As Ian
Stuart once said 'Together we are
strong, divided the enemies are
just laughing at us'.

How is the NS scene locally in your
native Coventry ?

Shag : The NS scene is going great
in Cov. We've got rid of the
arseholes and deadwood and now have
a hardcore of National Socialists,
also the chicken sacrifices are
more frequent due to the council
leasing us the London Rd Cemetary!

Is it true Graham that you once
wore a wig to a interview for a
job ?

Graham : Bloody hell! How did you
find out about that ? Yes, yes
its true. It helped me get the job
promoting fundraising for the
freemasons. I no longer have it
as the chief editor of British Oi!
gave me couple of green shield stamps
for it but it proved to small for
his head, I understand he now uses
it to go ferret hunting on a sunday
afternoon.

What do you hope to achieve over
the coming year ?

Shag : What I really want is a large
female following who are gagging
for it at every single oppurtunity.

Bod : To help further the B&H cause
and cause as mush shit as possible
for all our enemies.

Any closing comments ?

As a band we'd like to say
hello to Biggsy and the rest of
the P.O.Ws. You're not forgotten.

RECORD REVIEWS

BY BRITISH OI
KATHY O SHEA

ASGARD - Sieg Des Glaubens - Vincente Directori.

Another Asgard release from Vincente Directori Publications the up and coming German label. Asgard if you've followed them are a off shoot from Freikorps the German R.A.C band. Well this CD is in a much very similar vain and includes the tracks 'Wie Bruder' 'Weisser wolf' 'Erinnerungen' and 'Freiheit'. A good CD, well layout box etc.....8/10.

BOUND FOR GLORY - Live in Switzerland '87

A live recording from back in '87 when BFG were still getting to grips with things. So obviously more of your Oi! sound which plenty prefer. Well recorded set that includes 'Dresden' 'Capital Punishment' 'Onward to victory' 'Winds of change', all in 13 tracks. Worth getting hold of.....8/10.

SKREWDRIVER - 'We've got the power' Live.

Remember the live LP out back in '87 well its on CD now, it doesn't say which label. All in 24 tracks, 15 live, 8 from a Hail the New Dawn demo and When the boat comes in off the 'This is white noise EP'. Tracks include 'Streetfight' 'Strikeforce' 'Boots and Braces' 'Race & Nation' and more, but I think what makes this CD is the great photography within the CD booklet.....10/10.

'O.D.' - Zeit des Erwachens - Vincente Directori.

Another release from V.D.Publ. in the form of new German band 'O.D.'. Good heavy music with nationalist lyrics, similar to Storkraft I think, 11 tracks that include 'Joe Rowan' 'Menschlichkeit' 'Meine Welt' and 'Meine seele Kotzt' good CD lay out.....8/10.

'Drom' - Alles Oder Nichts - V.D.Publ.

Another release from the active V.D.Publications, this time the second CD from Germans 'Drom', a heavy blend of music, quite matched with Iron Maiden in some riffs but the singer more your typical Oi vocals. 15 powerful tracks, well laid out CD book and cover....9/10.

Intimidation One - A call to Warriors.

This is a review of the pre release tape

the band sent me and has the full 18 tracks to be released and what a great band, very powerful, very Vengeance meets Condemned 84, some very catchy songs and straight to the point american style lyrics, the lads didn't send me a track listing but I'd guess at some of the best songs titles as 'Gang Riot' 'Frontline Soldiers' 'Another Fallen Comrade' 'I'm one of the few' 'White NS Skinhead' and a song called Bootparty which has very similar music to No Remorses 'Smash the Reds'. A great band and I hope they get the recognition deserved for such a well put together recording....10/10.

BRUTAL ATTACK - Battle Anthem - Svea Music.

The latest installment from the B.A camp and also a new label for the band in the form of the mighty Svea from Sweden. Very well put together CD booklet, lyrics etc and some great photos first catch your eye, then 12 good tracks, much better than some previous recordings which have rated as a bit bland, a bit more back to the Tales of Glory type era, tracks include 'Is this the end' 'Forever England' 'The Quest' and my favourite 'Dear Mother' a catchy ballad with a female vocalist.....10/10.

ZERSTORER - Wenn die Stunde schlacht - V.D.Publ.

Yet another V.D.Publ. release and yet another new German band named 'Zerstorer' which I'm led to believe means 'The Destroyer'. Nine tracks in all that has the typical but good German sound that thuds on. Tracks include 'Zerstorer' 'Idealist' 'Neue Welt' 'Unkraut' and more, good layout etc.....8/10.

BLUE EYED DEVILS/AGGRAVATED ASSAULT - Hate Crimes - Tri State Terror Records.

A new release from Tri State Terror one of the emerging forces within the white rock music industry. This has five tracks from each band and the five Blue Eyed Devils tracks being the bands debut release, they include some of the old Nordic Thunder line up. Shocking cover with good inset card. Aggravated Assault also show a much better side to there previous poor release on Resistance with five very powerful anthems to get you moving. Tracks to watch out for from the Blue Eyed Devils are 'N.N.' 'Wagon Burner' and 'Personal War' and tracks from Agg.Assault are 'Hey' 'Love Song' 'You hate me and I hate you', get it.....10/10.

AVALON - Demo.

A small taster from one of B&H's new boys. Good look at the band but a bit poor quality. Best tracks 'Dogs Cock' 'Our honour is true' and 'C18 are calling'.....7/10.

FOR SEGREGATIONISTS ONLY VOL.2 - Various artists
Sunwheel Records.

The second anti-segregationist CD and what a great CD it is. This CD has 17 tracks and 13 different artists performing such as 'Odis and the three bigots' 'Jessie James' and 'White Riders', similar vain as the first 'Johnny Reb' Cd but this has more of a comedy feel to it and also alot of the tracks are more jazzy, tracks include 'The souths gonna rise again' 'NAACP Prayer' 'Segregation Wagon' and 'The New Sheriff'....get it Rednecks.....8/10.

OPEN SEASON 'Frontline Fighters' - NS Records.

Well the dreadful LP of old, originally released on Rebelles Europeens, remastered, remixed, speeded up and what have we got, a great CD from one of Australias original White Power bands, this really is 200 times better than the poorly mixed original. Tracks to watch out for are 'Its Time' Southern Comfort' 'Knightrider' and 'The Slag', if you like your music fast, and in a Oi! style then this is for you.....9/10.

'The Flame that Never Dies' - Various-Resistance

The 'Project Tribute' CD from Resistance Records is out now and has 35 tracks from 24 of todays better known WP bands such as The Bully Boys, The Voice, Aryan, Extreme Hatred and Rahowa. All covers of Skrewdriver songs except 5 'In memory' tracks to Ian, only one poor band and it called 'Eurocentrifugal Force' a synthesizer band who completely spoil Ians great 'free my land'....10/10 for Ians Lyrics,7/10 for the bands copies of.

ST. GEORGE FOR ENGLAND

Shout for St.George, Patron saint of all England,
Hoist then the flag, that should wave O'er the
land,

Come forth the knight on his snowy white charger,
And he will lead an invincible band.

Our country is getting so close to disaster,
We need a strong leader to help put things right,
To put us all back on the footpath to glory,
To show us the way, that its best we should
fight,

The things that we fight are intangible foes,
Like dissatisfaction, inflation and greed,
In wartime we found that, we all pulled together,
Inpeace, as in wartime, there is still that
need.

Then SHOUT for St.George, patron saint of all
England,
Hoist then the flag, that should wave o'er the
land,
Come forth the knight, on his snowy white
charger,
And he WILL lead an INVINCIBLE band.

VAGINAL JESUS

WHITE ROCK DEATH METAL STYLE

Vaginal Jesus hail from Milford, Connecticut in the good 'ol US of A. They play a very shocking style of thrash/hatecore music, they have two singles available and also three tracks on the great MSR Productions compilation CD 'Leaderless Resistance'.

British Oi! thought we'd check out what makes V.J. tick.....

Could you give us the current line up ?

I hate to give you a blow off answer, but it doesn't really matter as we don't use our real names anyway, for the record, we have a singer, guitarist, bassist and drummer, this is what matters to us, not who does what.

We've got to ask, where the hell did you get the bands name ?

I guess there's no avoiding this one eh! We came together after being introduced by a mutual friend who later joined us as singer. At this point we were chiefly interested in making anti-Christian death metal, but only as a joke band. We were all racists, but we were all much younger and more concerned with making horrible noise with disgusting, obnoxious and irrelevant lyrics. This by the way was in April of 1988. We had already created a few songs before even thinking of having a name for this mess. The drummer said "Vaginal Jesus", it was disgusting, offensive, and made no sense at all, it was perfect. By 1990 there was a definite change in us, we were writing vehemently racist songs exclusively. We decided to document this coming of age with our first EP 'Jesus Saves...his pennies', it has a mix of both racial and non racial joke stuff. Then came our second single 'Best Rodney Down' which is 100% racially conscious. There is definitely no joke about these songs.

So here we are 8 years since our formation, we had considered a name change a while back, but we thought why bother! We have already made a niche for ourselves, our name is an eye-catcher to lots of people who wouldn't normally listen to the normal white pride rock stuff, and hey lets face it, a name like Vaginal Jesus is going to provoke a reaction in almost anyone

who sees it. Do people really wonder what bands sound like when they have names such as 'Odins Nordic Hammer' or 'Northern Warrior Skins' or something like that. Sure the White Power skins eats that stuff up, which is fine, well actually its great if you want to preach to the converted, but I feel there are many potential frontline fighters out there just waiting to hear what we have to say, and if it takes the odd name to do it - why not, we have nothing to lose but activists to gain.

Do any of V.J belong to any political party or group ?

No members of V.J officially belong to any one racist organisation, we generally find such institutions to be polarizing, and in fighting is the most unconstructive.

We are very familiar with all the well known outfits such as Church of the Creator, Aryan Nations, Klan groups and W.A.R etc.

We need to understand one another and work together against our common enemies, not each other.

Whats the scene like in Milford where you live-

The racist scene in New England RULES if your in the Jewish or Black communities.

White racials are few and far between, Connecticut once I remember had over 40 true skins, and now I can barely think of five. I only hope they have like me grown there hair not to assimilate but to infiltrate.

Where can we get your music ?

Our singles are sold out but we are on a compilation CD with three tracks on the label MSR, for more info or for a copy of the CD send \$20 to MSR - PO BOX 1291, Wheat Ridge, Colorado, 80034-1291 - USA.

We hope 1996 will be a good year for recording but we all live apart and just getting together is difficult.

We aren't as prolific as many other bands but what we lack in quality we more than compensate in rage!!

BRITISH OI!

What about V.J gigs ?

We do not play them. We may lose money some people will say, but we are not in it for the money, why should we be ? Too many people involved within the Racist struggle are just like Zions Capitalists, to them money is the main issue, above all.

We want to spread the message as far and wide as possible, infact, we have to, but we don't need money made organisers to do this.

Use your money to distribute copies of Nationalist publications, get them out to the masses, subscribe etc, this is where money should go.

Any closing comments ?

Cheers for the interest in the band, we are glad to appear in your zine, My time is your time, we're all in this together. Last comments, I never have lastly comments, If you'd let me I'd take up this entire issue. I'll leave you with something to chew on : Always remember that if there is no environment, there is no race, so please never litter, and try not to waste materials, use recycled products whenever possible. This may all sound preachy but this is what I feel is important, if we stick together we can't lose. '88'.

Cheers to V.J for the short but interesting insight into there band, if you get the chance to hear them - do! They're fast, heavy and good. To contact them write to VJ - PO BOX 53, Milford, CT 06460-0053, USA.

NF

NEW DAWN FOR

THE FRONT...

The National Front or mostly known as NF has in the last months seen a dramatic change in leadership.

The NF have split again, one side which you've probably seen standing in local elections called the 'National Democratic Party (NDP)' and the die hards keeping the traditional name of NF.

This latest split has left a sour taste in many NF supporters as with the NDP went bank accountants and property the NF owned.

But undeterred the NF die hards have grouped together and have brought out a broadsheet newspaper called 'The Flame' which is quite similar to the old NF paper 'The Flag' a mass array of stickers and campaigned in numerous elections.

The new leadership has promised a back to basics for its policies and reading its literature this proves to be correct and good.

If your interested in the NF, its papers or more why not drop them a line at PO BOX 274, Hemel Hempstead, Herts, HP2 5JW.

Although these guys aren't NS we feel are very worthy of support. The NF has alot of history, keep it going.

CAUGHT LIVE BY BRITISH OIs.....

MIKE MILES

Above Billy of Celtic Warrior, note the Aussie Flag in the back ground.

B&H HITS AUSTRALIA

It was the first international gig ever organised in Australia, normally gigs are limited to just the single Aussie band 'Fortress' but since the formation of B&H Australia the lads have really got things together, on the bill were Celtic Warrior, Brutal Attack and Fortress.

The actual British bands had mostly stand ins as to fly them all over would require a big lottery win.

Celtic Warrior were first up and did a small but very powerful set of about six song and the highlight being 'Let the Battle begin', this really got the crowd over about 200 moving.

Next up were Fortress, who were great, they played and sounded just like on the CDs, in my view the best band on our scene today.

Brutal Attack finished off the gig with all there old favourites and had everyone singing along.

My thanks go out to Scott & Fotress, Sam and all the B&H Australia lads for there friendship and hospitality - Billy/Celtic Warrior

This year the annual St.Georges Day gig was held also on another well known date - yep A.Hs birthday 20th April. A lively audience and a good venue, originally it was gonna be outside in the car park but the weather soon put an end to that.

First up were the N.S.A drum corps also known as 'The Reich Force' who got everyone in the swing of things with a melody of marching tunes.

Next up were 'the peoples champs' Chingford Attack who played a powerful and very aggressive set that included 'East End' a rejects cover, 'Return of St.George' a B.A cover and there own songs that by our lovely race laws are permitted I am not allowed to write, but a fast great set, the ultimate being the Gerry Gable tribute track!

Next up were Razors Edge I think, who played a blinding set of all there new material off the great ISD release 'Whatever it takes' and also other new tracks to be out soon like 'Comrades in Unity' - really got the crowd going and a sea of right arms filled the room.

Next up were Warlord and Blood & Honour beefcake himself Stigger, it must be said that this band really perform well as a unit, very well rehearsed, they went into many Skrewdriver classics including 'White Noise' 'House Of Treason' 'Tomorrow Belongs to me' and also a great new Warlord track 'Beautiful England' which is really a crowd pleaser, the crowd packed the dance floor.

Foreign guests 'Peggior Amico' from Italy were up next and they had brought with them about 30-40 followers who even before the Italians had started there set were going wild. Peggior Amico really can play, a very tight set, thundering chorus' and each song had all the Italians chanting along, really into, good job the security at the front knew what they were doing. British Oi! also got a dedication of Peggior Amicos frontman Caio and the song was the rip roaring 'From the ghetto' - Cheers. A great set by our Italian comrades.

Last up were No Remorse, by now the venue was absolutely red hot in temparture. No Remorse went into classics such as 'Smash the Reds, Race Traitor, This time the world, and even better new anthems such as 'Barbecue in Rostock' and 'Zigger Zigger'. Jacko really does get the crowd motoring. A great set completed a great night. Well done B&H London.

BRITISH OI! INTERVIEWS....

SWEDENS PREMIER RECORD LABEL

RAGNAROCK RECORDS

Ragnarock Records are at the forefront of the White Pride record industry not only in Sweden but Europe and the white world over. We featured a history of Ragnarock in a previous edition (No.36) which proved very popular so we thought we'd follow that article with a interview with Tore Hirdman the labels manager.....

When did the label start and what was your debut release ?

Ragnarock Records was started by comrade 'Lars Magnus westrup' and some colleagues of his in 1994. The sole purpose was to promote Swedish nationalist rock. It was the first label of its kind in Sweden. The first release was the re-pressing of the unobtainable 'White Power Rock N Roll' by Dirlewanger - under the name 'Viking Power Rock and Roll' by Heroes in the Snow - to ensure the possibility of free distribution through normal channels. The second release was our own production 'Bla-Gult Blod' (Blue and yellow blood) the Swedish colours by Odins Anglar (Odins Angels) and this was pure melodic viking rock with patriotic lyrics.

Since these how many have you done and which five have been the most popular ?

We have now released 21 CDs on our own label and assisted in the production of about ten more. Our five most popular are :

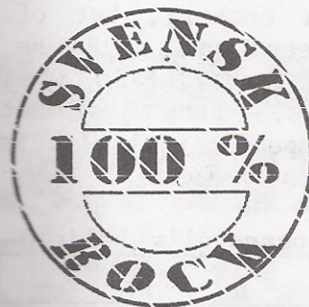

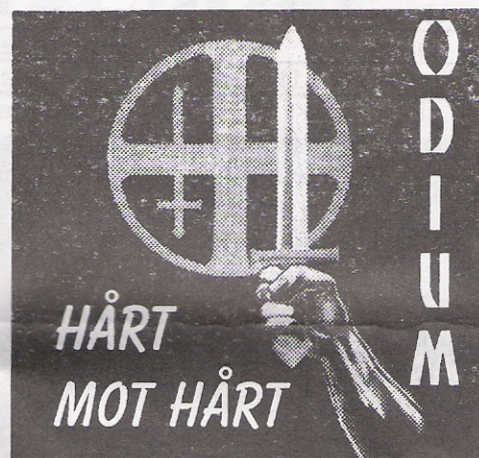

1. Bla Gult Blod - Odins Anglar,
2. Viking Power R'n'R - Heroes in the Snow,
3. Dirlewanger 1986-90 - Vol.1 & 2,
4. Hell seger - Storm,
5. Stoveltramp - Pluton Svea.

What releases do you have for the near future ?

We have just released 'Frihetskampar' by a new group called 'Spandau' which sounds like a fusion between Pluton Svea and Odium (meaning great). We are preparing for a new CD with the Odal Man (Hard hitting Nationalist ballads), a few compilations and a full CD with popular new comers 'Nibelungen'.

In Sweden do you have high street record stores stocking your releases or are you censored as much as us Brits ?

Some of our productions are sold by "normal" stores through "normal" distributors but due to media hysteria thats only a small part of our distribution. But most importantly we have our

own network of nationalist distributors and even a shop in Stockholm selling all our goods (More power to you Asgard shop!!).

Some new race laws have been introduced into your country, how will this effect your label ?

To be trueful we don't know if these supposed new laws are made up media lies or for real, whatever there is no chance of stopping White Pride music. The texts can be changed to fit in with the laws of the land or even the whole production and distribution moved to a neighbouring country (One good thing about the EU eh...), Ragnarock will never be silenced.

If the laws are introduced would you have to delete some previous releases to fit in with new laws?

I think all our releases are within the frames of any law as we do take care to avoid primitive abusive and unnecessary vulgarity, but you never know do you!

What Ragnarock release is your personal favourite ? (British Oi's is 'Hell Seger' by Storm)

The Storm release is both very good and very popular. Its hard to choose one over the other - they're all excellant, if you pardon our bragging! But I guess my favourites are Odins Anglar and Volund Smed when it comes to Viking Rock and Dirlewanger and Pluton Svea when it comes to WP rock. But its all a matter of taste. The important thing is that the message is Nationalistic White Pride.

So far you've stuck with mainly Swedish bands, do you plan to release other European bands etc ?

We feel that our main obligation is to promote the music scene of our own country, but of course we have been and will be assisting foreign bands/labels when they ask for this. But this must be based on respect without interffering in others business.

Do you personally believe that music

is a better propaganda material for our scene, rather than leaflets, papers etc ?

We need all aspects of propaganda, music is one and very powerful it is. But I fear that some tend to get involved totally in this and forgetting the more "non glamorous" sides to our struggle.

With Ragnarock Records what is your ultimate goal ?

Our intention/goal was, is and will be to promote white pride among our people. We feel that we are engaged in an important cultural mission.

Any closing comments ?

We need more unity and co-operation among labels and organizations including the Swedish scene! More power to the Blood & Honour Resistance movement!

Tore Hirdman - Ragnarock Records.

Cheers to Tore for the very interesting interview, to recieve a catalogue of all the Ragnarock releases write to - Box 1009, 37201 Ronneby, Sweden.

We wish Ragnarock great success.

*Our Leader Ian Stuart,
 All my life I've admired,
 Through the lyrics of battle
 and the songs of white pride,
 The encouragement he gave us,
 While misled youth, he showed
 true leaders powers,
 He told us the truth,
 Now your not here, we still sing
 your songs,
 We do the things you told us,
 not a word of them wrong,
 Our hearts burn your fires of
 pride,
 Ian Stuart for you, from the
 war ahead we will not hide.

BRITISH OI! VOICE OF THE PEOPLE

BRITISH OI! INVESTIGATES...

WHAT FUTURE FOR PORTUGAL ?

Theres been a large surge in anti-skinheadism in Portugal at the moment with the left wing government seriously trying to stamp the movement out with an iron heel. British Oi! is examining whats going on.....

On June the 10th '95 there was a big fight between NS Skinheads and immigrants from the former Portuguese colonies such as Angola and Mozambique.

One immigrant died and several others were injured and taken to hospital, that same night nine skins were rounded up by the Police (including 2 skingirls).

From that day the government who are left wing have been pressed into attacking the NS scene.

Many raids on comrades homes have happened and six more skins were arrested in October, as we write this, only the two skingirls have been released, leaving 13 comrades in jail with the warrant for the arrest of Portuguese band 'Combate's singer who is on the run.

They face charges over this immigrants death with the Police over reacting and charging them with 'Genocide' charges and if found guilty could face anything from 8 to 25 years in jail.

All this importance put on rounding up skins while in the meantime Portugals drug industry, robbery and rape is all on the increase.

Since these restrictions by ZOG the scene has hit back - new groups of NS folk have united and a few zines, a record label, a NS internet page for Portugal, a new political party called the National Alliance have formed, showing the authorities that they won't be

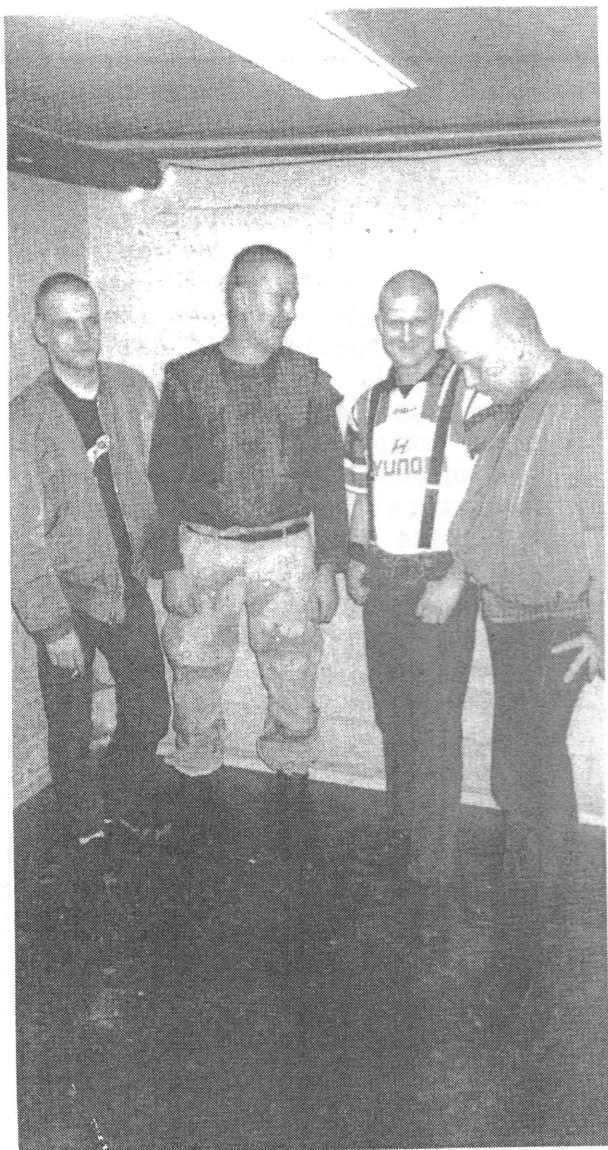

beaten. Also an active NS grouping called the 'Lusitanian Motherhood' a unit of Skinhead girls has attracted media attention, they refuse to merely be a support group to us males but to be as active as us and they have some great propaganda available through there address at - Apartado 50508-1700 Lisbon, Portugal. As a aryan organisation the 'motherhood' wish to generate support for them by using the weapon of teaching the young about there countries heritage and instill pride into its people.

There is a rough ride ahead for the comrades of Portugal, our minds are with you comrades in Jail and we wish you well, we salute the Portuguese who are still fighting the ZOG.

✠ SKINGIRLS PORTUGAL ✠

MISTREAT

MISTREAT are one of Europe's finest White Power bands around at the moment, and with their set of powerful singalong type of Oi! anthems who can dislike them, British Oi recently met up with the band when they visited Britain recently for a gig in British Oi's hometown Derby and did the following interview with Muke the bands Singer and also bass guitarist.....

1. When, why and where did Mistreat form ?

We formed our band in Kouvola which is in the Eastern part of Finland. At the end of '88 with a different name, at the beginning of '89 we changed it to Mistreat, we formed the band for two reasons, one was that there was no Skinhead bands in Finland and secondly we were all bored and pissed off and needed something to do.

2. How important a step was it to start Finland's first NS skin band ?

Extremely important, people here needed that initiative to start doing things, things that had been going on elsewhere for years, like zines, bands etc.. Now we have a few zines, a couple of bands and one record company which releases our music.

3. Why the name Mistreat ?

Violence is always incorporated into the skinhead way of life and it will always be near to us, as we say "We are mean Mistreaters, and we Mistreat you all the time" dedicated especially to our enemies.

4. What's the current line up ?

Muke (Me) : Vocals/Bass guitar,
Arska : Guitar,
Miika : Guitar/backing vocals,
Jonne : Drums.

5. You have a CD out called 'Faith & fury' how has it sold and has it been well received by the skinhead world ?

It has sold just over two thousand copies and people have liked it wherever we have travelled and everywhere where we have sold it, so yes we think it is quite popular.

6. What forthcoming CD plans have you got ? With which label ?

We have recorded tracks for

a split CD with German comrades Kraftschlag which will be out soon on NS Records from Denmark and hopefully after that we are gonna make our own second CD on our label Ainaskin Music later this year.

7. About gigs, how many have you done and which would you consider your favourite ?

We have played about 40 gigs during our time together as Mistreat and I think our best one was in Finland in 1995 with Swedens Swastika, Germanies Freikorps and fellow Finns Pig Killer. We have also gigged with Konkwista 88, Noie Werte, Peggior Amico, Radikahl, Heimdal and of course the British bands Avalon, Warlord, Razors Edge, and Chingford Attack.

8. How have you enjoyed your visit to Britain ?

I still don't know Ha Ha, lots of beer you know!

9. As a political band, what political views are of the utmost importance to you ?

We don't wanna mix up our music and politics, but of course we are a NS band, we want at the utmost to keep Finland clean, we don't want any communists, or a immigrant influx.

10. Could you tell us a bit more about the Finnish NS scene ?

The Finnish NS scene is small bit is growing at a steady pace. In the eighties there was about 300 skins in the whole country and now theres about 500+, its small compared to England for instance but we have to remember that there is only 5 million people in our land. There are a couple of other Finnish NS bands called Pig Killer and Brutal Skins.

11. Are there any NS political parties ?

There was a couple of parties but none of them exist anymore.

12. What do you hope to acheive over the coming year ?

As we've already said, we are gonna do our second CD and play as many gigs as possible both in our land and also abroad.

13. Any closing remarks ?

Thanks to you British Oi! for the interview and I wish all the best to you and best regards to all your readers from the land of a thousand lakes. We hope to see you again soon.

Muke & The Mistreat.

Cheers to Muke for the interview and also for the great gig that you performed for Blood & Honour Great Britain recently, if by chance you haven't heard Mistreat then send off now for there CD Faith & Fury for £12 inc P&P from Mistreat PO BOX 158, 00701 Helsinki, Finland.

RIGHT HANDED NEWS!

NEWS SUPPRESSED BY THE DAILY PRESS

Welcome to yet another edition of your favourite upto date news pages 'Right Handed News'..we seem to be gathering alot of info as of late and so I say thank you to all that have kept us upto date with band news, gigs, new CDs, births, weddings etc..but don't forget 'Keep writing in'.

New from ISD is the new No Remorse CD 'Barbecue in Rostock' CD complete with interesting cover and numerous photos etc..very raw White Power music at its bluntest, not for the faint hearted to say the least, and most of all a kick in the balls to Paul Burnley who still continues to use the name regardless of not having a band.

Also from ISD 'Hate' by the People Haters, another round of discussion by these notorious Americans, the CD starts off with a track called 'WE STILL HATE PEOPLE' say no more.

To come from ISD in the next couple of weeks is the new and long awaited Warlord CD (See review

elsewhere) and planned is a compilation featuring Blood & Honours new boys 'Chingford Attack, Avalon, Legion of St George' and USAs Max Resist.

On ISDs sister label from Belgium - 'Excalibur' under licence from ISD they have the new 'Voice' CD out entitled 'Rage'. Yet another band following in the footsteps of Aryan, Max Resist and Aggravated Assault who have all left the USA label Resistance due to royalty difficulties.

Martin Cross the ex-Brutal Attack and now guitarist for GBs 'Razors Edge' has also been charged with the same conspiracy charges and a variety of other race related charges with comrades Charlie and Will, the charges on all three are quite farcical, and the Police are now even trying to make out that C18 were behind the attack on the Mushroom Bookshop - a communist store in Nottingham which over 16 Blood & Honour fans were arrested with 11 of them getting prison

BRITISH OI!

sentences. The Police know that Charlie, Will and Martin were in London that day as it was the day that BFG and Resistance Guru George Hawthorne were in London for the initial Ian Stuart Tribute gig which the Police stopped and also stormed the pub where B&H loyalists were. How will they make such falsehoods stand. Their trial will begin in December.

Ulsters annual 'Orange Loyalist' marching season has passed now with the shout being 'Rule Britannia', the Ulster folk have proved yet again that they are not interested in sitting down with Fenian Terrorists at a so called peace process. The violence that erupted across the country proved that Ulsters folk are British, want to stay British and most of all that there will be 'NO SURRENDER TO THE IRA'.

Onto British band news....

New bands onto the scene are 'Legion of St. George' a London based band who played their debut gig recently in Coventry area and had a short but strong set that included titles such as 'Gods right hand' about Colin Ireland the convicted Homosexual killer, 'European Volunteers' about the British Freikorps, 'There goes the neighbourhood' about our lovely multi cultural towns and the bands anthem 'Sons of St. George', they also performed the popular Vengeance track 'Pride & Pain'.

Other B&H new boys 'Conquest' have finally got their act together after a few false starts and should have gigged by the time you read this and feature a couple of cover versions including the Macc Lads 'Feed your face', a British Oi! reporter recently watched them at a rehearsal and commented how tight their set is.

Derbyshires 'Violent' recently appeared in the new Colour edition of Blood & Honour and stated their intentions, they also should be gigging soon and have tracks that include such titles as 'Bulldogs can kill' 'Bakewell Riot' about the bands snare up with crusty fools

and a new number 'Aryan Militia'. Violent are a mean looking bunch of lads - beware.

'Avalon' Coventrys' Blood & honour firm are busy at it, while sticking with anything offered to them by ISD, in the meantime they have been offered a deal by Belgians 'Pure Impact label' and by the end of September should be finished in the recording studio, the CD will be entitled 'Strength and Will' and will include the tracks 'No faith' 'Still fighting' 'To help my race stay free' and also two covers 'Triumph of the will' the Ian Stuart classic and 'Wounded man' the Brutal Attack song..watch this space for more news on that.

'Warlords' new CD is out now and getting some rare reviews from White Power fans the world over, very rocky with the influence of Skrewdriver being very prominent, some intelligent lyrics too, when in an age of some poor songs, they really do shine through, the band will be playing at this years Ian Stuart memorial concert as will all the British Blood & Honour bands and have a busy schedule ahead.

Chingford Attack (to be featured in British Oi! No.41) played a successful gig alongside fellow Brits No Remorse in Italy with Italian bands Corona Ferrea and Gesta Bellica on 29th June with over 400 in attendance and a gig organised by the newly formed 'Skinhead Girls Italia' movement, apparently a tape of the gig has been made, so keep your eyes out for that.

Razors Edge have also been into the studio to record two tracks for a Polish compilation CD and they have done the tracks RAHOWA which Andy the bands singer recently stated to British Oi! "its one of the best tracks we've ever done" and also the cover of Skrewdriver classic. "Free MY land".

Onto other British concerns.... the leading British NS organisation the National Socialist Alliance (NSA) has now a central support office which is acting as Headquarters, anyone interested

in the NSA can write for more info with a SAE to The Secretary, BCM BOX 3335, London, WC1N 3XX, they will pass on your details to the relevant activists in your area, and arrangements etc to meet up for activities can be made, support the NSA and your supporting the British survival!!!

A new Oi! mail order firm has been set up in the UK called 'Shelflife Records' and will offer a wide range of LPs/CDs etc for a list send a SAE to Shelflife Recs, Dept. B.Oi!, New Road, Crook, County Durham, DL15 8EH.

Also just for sale from Blood & Honour is the double CD released by Resistance Records as a tribute to Ian Stuart and features many bands as reviewed in No.39 of British Oi!, bands include Squadron, Bully Boys, Extreme Hatred, Rahowa, Svastika, Aryan and many more, complete with song booklet and short essay by Paul Burnley all for just £18 inc P&P from BM BOX 5608, London, WC1N 3XX, all cheques etc made payable to 'The Order', buy it now or miss out on a great tribute to Ian.

The Business the once well respected Oi! band from the '80s who as you should know have turned there back on those who made them what they are/were and now play either behind slogans such as 'Skins against Nazis' or as recently in the USA under a 'Hammer and Sickle Communist Flag', well they had a surprise recently when they organised a gig in Kings Cross, London when amongst the crowd in between the Pakistani skins and Black skins and SHARP losers and not forgetting Anti Nazi League supporters a mob of over 75 Blood & Honour supporters stood proud and dished out some punishment, well known faces from the past were seen running for cover as apparently the venue was smashed, it is also said that Roi Pearce will be reforming the Last Resort and be playing Anti-Racist concerts, well be sure to boycott them.

Well onto a lighter side of matters, congratulations goes out to Paul & Trudy from Middlesborough

on the birth of their fourth son named Jack who joins elders Darren, Philip and James, many sleepless nights comrades.

Also congratulations to Paul and Claire from Inverness on the birth of their first daughter Rebekka on 20th June '96. British Oi! hopes the nappies are plentiful - Ha Ha.

Also congratulations to Tony and Izzy from London on the recent marriage from all the Chingford and London B&H.

Well that ends this issues British news, if you have any news sent it in OK...onto other world news....

SCANDANAVIA...as per usual loads going on, firstly I don't know but it seems Nordland have stopped putting out material or am I wrong ? they were once at the forefront of the Swedish movement but we haven't seen a magazine or a new release from them in ages, whats up ?.....NS Records from Denmark plan to release eight CDs over the coming couple of months and that includes the Mistreat/Kraftschlag CD as mentioned in the Mistreat interview, seems they have big ambitions.....The singer of Pluton Svea one of Swedens best bands has been arrested for stabbing somebody and things for him personally do not look good... a new political group in Sweden called 'The National Alliance' has been formed but as of yet hasn't taken off, apparently leading Swedish activists are not happy at the groups attempts to stamp on already existing groups and were rumoured to be behind an attack on a NS shop in stockholm called 'The Asgard Shop'....Svea Musics leader has been charged with 'Racial Hatred' for the track 'We're Ready' by Mistreat on Svea great compilation 'White Solidarity', seems the new anti race laws are coming into effect, show your support for Svea and buy there material as they are 100% behind B&H....two young Skinhead Girls only 15 and 16 years old have also been charged with 'Racial Hatred' for giving the 'Right Handed salute' against a anti-fascist rally, fortunately

the girls got off but it shows how low the Police are now stooping to quell the NS surge in Scandanavia....Ragnarock Records have some great new CDs available for a catalogue write to BOX 1009, 37201 Ronneby, Sweden.....a new Skinhead club has opened in Gothenburg and soon one will be opening in Norway.....Storm the British Oi! readers best band in Europe Poll winners have just come out of the studio where they have completed there second full length CD entitled 'Is it too late ? (To save our race)', 14 songs in all that are mostly english and feature track titles such as 'Our freedom is a lie' 'Still marching on' 'This means war' 'Mother Europe' and also a cover of the Skrewdriver classic 'Our pride is our loyalty' for info on Storm write to them at Box 2006, 44911 Nol, Sweden.....Midgards Soner have been commented by Nordland Magazine as being Reds, basically because the band have taken the approach towards supporting National Socialism via the 'Lets love our race motto' rather than the 'lets riot, kill, burn etc banner' so for this Nordland called them REds, judge for yourselves by listening to the bands music especially on there second CD 'Nordens Kall' when they have song worshipping Ian Stuart etc, seems good to me.

ITALY...29th June saw Britons No Remorse, Chingford Attack, Gesta Bellica and Corona Ferrea play with over 400 attending, the next day after the gig went without any problems the Police raided the organisers being some Skingirls, but all in vain as the gig had gone ahead, as Caio the Vocalist of Italies Finest 'Peggior Amico' recently commented 'Another Anglo Italian Friendship event that went on in pure fascist style'...Italy is buzzing with gigs lately with a gig or social happening each weekend...a few weeks ago there was a demonstration against the 'anti Skinhead laws' passed two years ago, about 500 comrades (over 90% were skins) marched to the centre of Triest the largest city in the

far North East of Italy near the Slovenian border, apparently the Police were really panic stricken at the sight of so many skins but to the common folk in that region they came out in support of them.

EASTERN EUROPE as per usual has been busy... In Slovenia the Police have been clamping down on the Blood & honour movemnt out there and raided its organisers hiomes and took the script for the forthcoming Blood & honour Slovenia magazine 'Kri & Cast' but the lads who produce the zine say it will be out shortly from there address at PO BOX 272, 8001 Novo Mesto, Slovenia and Slovenian B&H will also soon have a big gig/party to celebrate one year of B&H out there...Russia has seen a massive surge in support of the NS scene and the skinhead way of life is gripping hold, there are a few bands now and for more info see the NS88 video magazine Kriegbericter which has a special report about them... BLOOD & HONOUR Serbia have organised a gig in Ruma near Belgrade and Hungarian bands 'Archivum' and Valhalla will perform alongside Serb bands such as 'State Impact' they laos plan a large Ian Stuart Memorial Concert which so far has six bands to play...POLISH skinhead group 'Rezystencja' have a new CD out called 'My Jestesmy Skinhead'....

NORTH AMERICA...Hot news is Scott the man behind the great 'Day of the Sword' CD (yes it was a one man band) has been arrested under suspicion of 22 (yes 22) armed robberies, Day of the Sword were due to visit Europe soon too with musicians playing the instruments with him....The Voice will have a new CD out anyday called 'Rage' and will be released by ISD sister label Excalibur from Belgium....White Terror records have released a whole quota of Brutal Attack CDs with the permission of Ken McLellan and infact British Oi! has some for sale, we have Tales of Glory, Steel Rolling On and 'The Best of B.A Vol.1' all at £12 inc. P&P each, White Terror have plans to also release a CD by a new USA band called

'White Wolves' who White Terror have described as better than 'Day of the sword' which should prove fantastic.....In Canada there was a planned gig with a load of bands billed (Rahowa, Brutal Attack, BFG, Involved Patriots, Aryan and Excessive Force) but Brutal Attack and BFG were turned away at the Canadian border and the authorities found out about the gig and started detaining people at the border for upto seven (yes 7 hours just for the want to go to a gig - such is democracy) hours and confiscating all White Power/NS material, where the venue for the gig was the Police stopped all incoming traffic noting vehicle information plus copying peoples ID cards etc, apparently most of the U.S.A comrades who did get to the gig have vowed never to return as now there faces are known to the Canadian ZOG, these folks never had drugs, guns or anything on them illegal but only white pride which Canada has deemed ILLEGAL.....better news from Canada though is the formation of a new band in the Calgary area called HateTank who include former Involved Patriots member Ted, the band soon hope to be gigging and plan some recordings, the Calgary Hammer Skins have also brought out there own fanzine entitled 'Hammer Skin news' and is well worth reading, for a sample send a donation to Box No.30058, 1323N-6455 Macleod Tr.SW, Calgary, AB Canada, T2H 2VB...USA skinzine Warriors Call has delayed the release of its new edition for a while due to work committments but will be out in the autumn so write to them at PO BOX 421, Turtle Creek, PA 15145, USA....Vaginal Jesus the ever popular NS Death Metal band have recorded three new songs and will release them and will hopefully be securing a album deal soon, they also have a split off band now called 'Mudoven' which will be in a similar vain to VJ...well that kinds of completes the right handed news for this issue, we bring you the news as we are told it with no holds barred, please keep all the letters coming in,

we need them to keep the good work going, send your letters to Mike Miles, PO BOX 249, Derby, DE21 9EG, UK, we need more continental news especially from Germany and France so get in touch.....88/14.

A MAJOR SUCCESS ???? OR NOT !!!!!!!

People often say to a dedicated Nationalist/National Socialist "Why do we bother, when life can be trouble free as long as you go with the flow and stay out of the way of trouble", the power within us that gives us this spirit of cultural survival, isn't in my book, taught to you or preached into you, its in your blood, we have the same warrior blood that ran through the ancient conquerors. WE bother as we care for our nations, care for our race, care for our well being. Its OK to avoid trouble and never to stir the status quo, or is it, if no one protests, then nothing will alter, when things are altered, people will state - "Christ, how did we put up with that" etc.

Just look at the state of play within England or Britain as a whole, recently we've seen a ex-convict now South African President visit Britain and get given the royal treatment, honorary degrees from Universities, talked his way to getting so many more million pounds worth of aid for the wealthy nation of South Africa, christ, they even gave this exconvict (Mandela) the freedom to London, the keys to the city.

Look over into Ulster and the Protestant Orange Order are not allowed to march along routes to celebrate the 'Battle of the Boyne' as they might upset so called 'Nationalists' or more correctly Marxist I.R.A supporters, are we to bow to the demands of terrorism, yes will be the answer from John Major and all his pathetic bunch, who incidentally doubled there wages lately. Any strong leader would've a longtime ago given the directive to the Army to wipe out the IRA and its Marxist allies, this would create mass support for Major and maybe swing an election in his favour but no, hes to concerned to talk about a peace process (sic) which as even the IRA scumbag Gerry Adams claimed was in 'Shambles'. Make

a stand Major, stamp out these vermin, while your talking peace, they are laughing at us, bombing Manchester recently for instance, one minute "yes, we'll lay down our arms", the next, half of Manchester is destroyed, so much for peace.

Major also is running the gauntlet for British people over the proposed European Union and one currency etc, has he ever once asked the people how we feel, he makes one comment about boycotting the Eurocrats over the Beef Scandal and he gains popularity, so Major should ask the people to vote in a referendum, or are we already under there control ?

We have alot more problems, which you don't need reminding about and all should be addressed and solutions found, this is why WE are bothered for the well being of Britain and the well being of the true Britons - man, woman and child, we are not a one policy movement, don't forget, we are National Socialists, and so we need to express to folk our socialist views, these will gain support.

Personally rally local groups of parents to complain about say 'Traffic levels near schools' or more to light 'The security at schools' gets people involved, and once involved introduce them to other policies and political matters concerning family and financial matters, at grass roots level, this is where the support can and will be won.

Awaken the warrior blood within these people and make them realise that the time for action is now and make them understand to love ones own people is no crime, it is a complete crime to sit back and bow to the status quo, so act today Warrior folk.

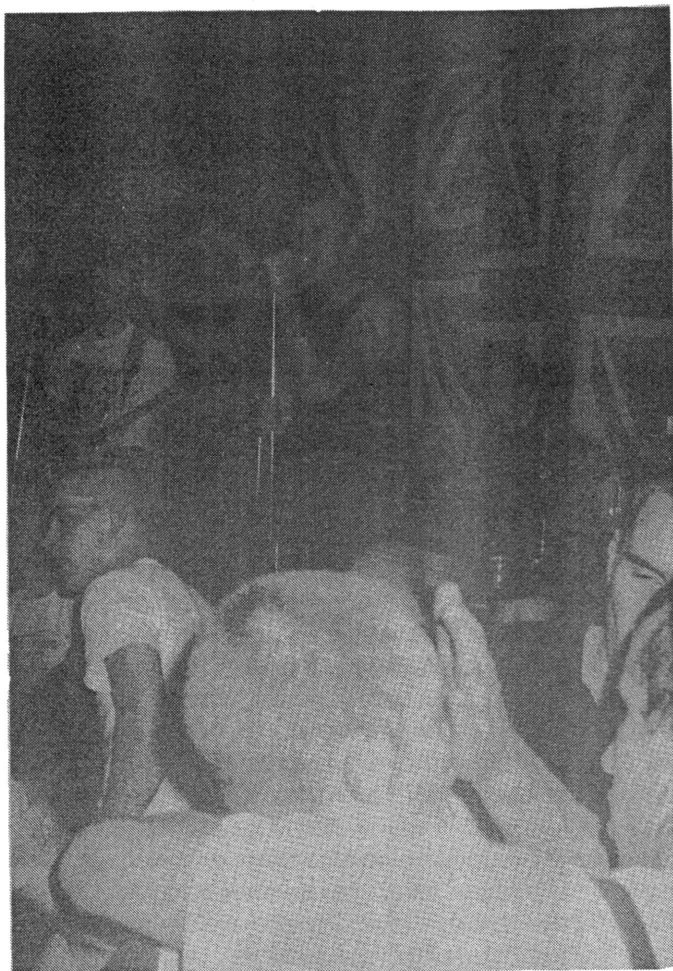

THE BLOOD IS STRONG!

CAUGHT LIVE

BY BRITISH OI..
MIKE MILES

Gig review by Jasa of NS88 videos from Denmark, gig review from 13.7.96 near Berlin/Germany, featuring Noie Werte, Thors Hammer, ADL 122, Archivum, Aryan and Brutal Attack.

Over 1200 NS skinheads gathered together for the Pan Aryan Festival to see bands from Five countries. Unfortunately I don't remember the name of the first band that opened the gig but they weren't any thing special anyway, there is

about 120+ bands in Germany but the quality is poor in the newer bands with about 88% sounding exactly the same.

Anyway on with the gig, the next band up were Archivum from Hungary who played a short set while people really were more interested in chatting outside, the venue was great with two large Bars and the drinks were cheap too!

Anyway after the Hungarian band the word spread that Brutal Attack were next or should I say Ken McLellan was to perform with support band 08/15 a band from Dusseldorf, the hall filled in minutes. They played all the legendary B.A tunes so well that one might even think it was on CD, Ken started with 'Tales of Glory' and to put it bluntly it was the best set I've ever heard, Ken Mc is definately the best singer around and a superb showman aswell, the atmosphere was something unbelievable, the song 'Always Near' - Ians Tribute was sung together with Griffin of Aryan and was probably the most touching song of the evening. After Ken had sucked the energy out of everybody it was time for Noie Werte.

But sadly by this time most people had gone outside to get some fresh air as the hall was hotter than hell. After them a new B&H Berlin band Thors Hammer performed and they were also joined by Jens of Kraftschlag to play the best of Kraftschlag tunes.

ADL 122 were next and they were well received with there melodic set and an excellant cover of the Nordic Thunder classic 'A change of scenery'.

After ADL 122 had finished the clock was approaching 2.30am and only about 300 were left to see Aryan hit the stage and they only played a few numbers as the drummer had trouble with the drum kit, but Aryans sound is very original, too bad that they were the last band.

Brutal Attack really stole the show, great. The most positive thing of this gig was that there was no hassle from the police at the gig, it seems more relaxed in the east of Germany, and so trouble free. Thanks to Berlin B&H for organising the gig.

See some of this gig and an interview with Ken McLellan on the NS 88 video magazine 'Kriegsbericht' No.2 out soon, £10 inc P&P from NS 88, Poste Restante, 3400 Hillerod, Denmark.

BLOOD & HONOUR MIDLANDS

Above Avalons Graeme.

On 6.7.96 the Midlands Blood & Honour division organised a gig in the Warwickshire town of Nuneaton, unfortunately due to other commitments only two bands were able to play namely Avalon and new boys 'Legion of St. George' from London.

Held at a Liberal Club in the town, no doubt to adhere to our Liberal ways (?) the venue was soon full of over 200 skins and nationalists.

Legion of St. George played first with a good OI!/RAC set and had there mates dancing about, a very well rehearsed band that includes two ex-members of OI! band 'Another Mans Poison', highlight of the set was a version of Vengeances 'Pride & pain' nice one, watch out for these guys....

Next up were local lads Avalon who went straight into Avalon anthems such as 'C18 are calling' 'No More Lies' and 'Dogs Cock' also some Skrewdriver covers. They had the venue going wild.

Both bands did another set each and the gig ended with Andy of Razors Edge and Avalon doing some more cover versions, a great night.

HAMMER SKINS IN ITALY

Above ADL 122 in action.

Gig : Corona Ferrea, ADL 122, Soluzione Violentia and Subalpina, in Fossano - Italy.

This concert was organised by Assalto Sonoro and the Italian Hammerskins, It was held in a small town called Fossano near Torino and held openair, about 150 attended, mostly Italians but also a small group of Germans, French and of course our mob of Swiss Hammerskins.

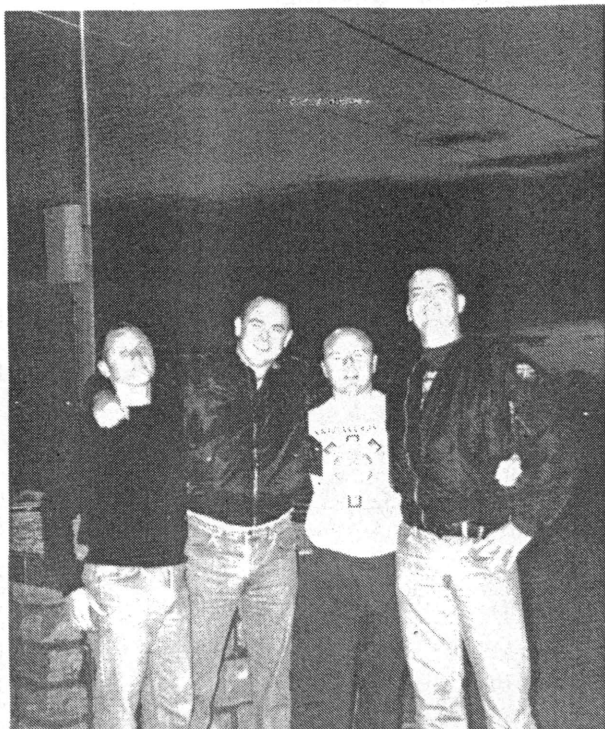

The first group on were Soluzione Violentia which played well with a strong set of Italian songs, after a small break it was Corona Ferrea next, these Milano guys played brilliant and included songs off there new CD on Tuono Records like Centuria, Excalibur, No Remorse and 'Who', it had the dance floor packed, they also played a few covers such as 'Hail the New Dawn' 'Sweet Home Alabama' and Combat 84s 'Rapist'.

After a small break and a few ales ADL 122 came on stage, they started with no mercy and played a really powerful set such as 'Skinheads 88' 'ADL 122' 'Anni Passati' 'Skinhead Girl' and 'Pull the trigger'. They also played the cover version of Nordic Thunders 'Change of scenery', a tribute to murdered brother Hammer Joe.

Lastly Subalpina Skins took to the stage but by this time ADL 122/Corona Ferrea had stole the show but still played well. Cheers to all the Italians for the great evening.

CELTIC WARRIOR

Above from Left to right :
Dave - Bassist for Fortress, Troy - Fortress Security, Billy - Celtic Warrior and Scott - Vocals/Fortress.

Well there been alot happening in the Celtic Warrior camp as of late and so your roving British Oi! caught up with Billy the bands singer in a Brains Beer pub in Cardiff for the following interview, time had to be taken over the answers hence lots of beer being drunk....

1. Hello Billy, could you tell us the current line up of Celtic Warrior as we hear there has been a change ?

Hello Mike, yes the line up is currently Me on Vocals, Clarkey on Drums, Stinko on Bass and Brad on Guitar. We seriously haven't been able to find Miffy our regular guitarist for several weeks due to his drinking problem so Brad our tattooist has taken his place, Brad is a good guitarist and a friend

from 10 or so years ago.

2. Recently you gigged alongside Brutal Attack and Fortress in Australia, how did it all go and is Aussie Blood & honour got much support ?

The gig in Oz was great although as Celtic Warrior we only played 7 songs because Nigel and I used the drummer and bassist from Fortress. They filled in well despite us only having the one single rehearsal before the show. Fortress were excellent as to were Brutal Attack.

As for the OZ blood and honour scene, its strong considering the size of the country, people live so far apart but they have a good system of doing things.

3. While you were in Oz you did some recording with Aussie Nigel under the title 'Broadsword', could you tell us more ?

Well since Nigel left Wales back for his motherland of Australia we have kept in touch and I always said that one day I would try and make it over there. In the meantime I had been sending him lyrics in the hope that he could construct some music for them, I had saved up enough money to go over and it coincided with the Fortress/B.A gig. Nigel suggested we record them under the name 'Broadsword'. Between himself and three friends of his they had raised enough money for the studio and the pressing of the CD and so we went and did it, it is called 'God opf thunder' after one of the tracks and is available now. Its not a heavy CD like many nowadays but fairly low tempo, the best I've ever recorded to date.

4. Back to Celtic Warrior, what plans do you have for your next

CD and what will it be called etc?

We are currently working on 12 tracks for our third CD which we are hoping to be ready to record around September. We have decided that the title will be 'The legend lives on'. Some of the titles of the songs are U.V.F, The name of the game and Blood Ties.

5. Do you have any band merchandise available ?

We have a large list of merchandise, send a SAE for a list of CDs, T-shirts and lots more, the Broadsword CD is £12 inc P&P from PO BOX 214, Cardiff, CF3 9SS. Any cheques or POs made out to N. Bartlett.

6. Is it true that in Cardiff the red scum have waged a small war against you Bill ?

Things have been quiet lately in Cardiff regarding the Anti Nazi League (ANALS) scum and the other red mobs.

But about a year ago they printed a poster with my picture on it and a bit about my naughty little antics that I get upto on it by being in Celtic Warrior etc.

They pasted them up all over Cardiff and they asked people to ban me from there shops and run me out of my hometown Cardiff. Unfortunately for them, nothing has ever happened, Oh well better luck next time eh!

7. How has the Violent Storm CD been received by the Skinhead world?

Not as good as I expected, in my opinion every skinhead, patriot, Nationalist and National Socialist should have a copy of it even if its just to respect and pay tribute to the lost lads, after all, the money goes to the families of the lads. All in I've sold about one thousand copies which is shit really considering the size of our scene the white world over.

As they have sold I've been giving the money to Pat Sheeley who is Brian and Darrans mum, she has passed money onto Caseys family and also spent £2000 on a head stone

for Brian and Darrans grave.

8. In South Wales, how is the Blood & Honour scene now ?

The B&H scene here is good, there not too many skinheads now but the band still has alot of support. Of course we have the idiotic SHARP organiser Roddy Moreno here in Cardiff but Roddy don't you realise that SHARP stands for Skin Heads Are Racially Proud!!!

9. When will we see you gigging next ?

We have a gig lined up in Ulster soon with fellow band Razors Edge and also of course the Ian Stuart Memorial Gig.

10. Is it true Billy that you once entered the Mr Universe competition but only came second ?

No its not true, I would've but I pulled a muscle the day before the show so I had to drop out, but Clarkey entered instead and won Mr Puniverse competition Ha Ha.

11. Any closing comments ?

Thanks to Mike and the British Oi! crew for buying the Beer and the interview also and for all the British Oi! readers - Our time will come. Watch out for our next CD. Hail Victory - Hail Blood & Honour.

Billy.

P.S If anyone finds Miffy contact us at our PO Box and if hes drunk, don't give him anymore!

CREW X

Crew X are a fairly new band and hail from Dunn Loring in Virginia - US of A. We recently spoke to the band and asked about there history etc....

Crew X began in '93 and as of yet we have only performed a couple of gigs, one notably in Washington DC which went well, currently Crew X are rehearsing solid for gigs and also they hope for a mini CD release early next year, so far they have only recorded the one track being 'Nazi Skinheads' for the MSR Productions compilation 'Leaderless Resistance'.

The band are very NS in its ways and believe action **MUST** be taken now to take the future for our kids in the right direction.

Pat Buchanan the Republican candidate is supported by the band because of his 'Close down the Mexican border' view but they say Buchanan is too wrapped up in religious and abortion issues etc and has lost his way slightly.

The band choose the name Crew X as a joke as in the USA there is a itch relief spray called 'Cruex' and was thought up over several beers one night.

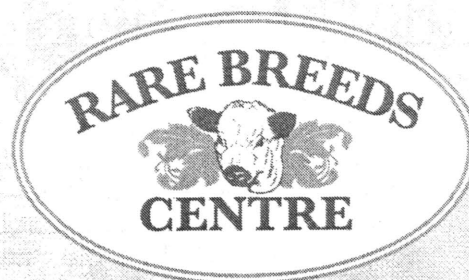

Asked about there views on the USA scene Crew X replied "Resistance is professional and can rival anything labels like Geffen can put out, but \$20 for a CD is way over the top, other mail order firms are a con so you have to watch out where you write.

Recently Crew Xs singer was called into a talk and they aim to eventually get onto the main programmes as a articulate speaker for our cause, a speaking equivalent of the great newspaper 'The truth at last'.

Asked about the future "Be prepared for changes in the social structure and don't get caught on the wrong side in the coming economic divisions, your ability to function in a computer orientated world depends on you, avoid run ins with the law until the time is right, as life is short so get the most out of it, live the 14 words."

To get in touch with this band write to PO Box 211, Dunn Loring, VA 22027, USA.

Cheers to Crew X for the insight into there band, we couldn't use all of it due to lack of space but watch out for them in the near future.

VALHALLA

Valhalla formed in Feb.'95. All of the bands members had previously played in another Hungarian skinhead band called 'NC38' (93-94) which put out a popular demo called 'Vagyalom' but only gigged twice.

After NC38s demise, the two guitarists Zoli and Laci, started working on new and better songs and late in the summer of '94 they decided to form a new band. NC38s drummer Balazs joined them and Pepe - NC38s singer came in early '95 after he finished his military service. Valhalla was born.

Valhalla played their first concert on April 22,'95 together with Hungarys most popular NS band Archivum and as new band called Patriot. To date Valhalla have played over 15 gigs with Hungarian bands such as Archivum, Patriot, Verszodes, Nemzeti Front, and many more and also fellow europeans Squadron, ADL 122, and Corona ferrea.

Three weeks before the gig with Squadron, Pepe and Balazs - respectively the singer and drummer were kicked out of the band but two new members were found and the concert went ahead.

The new drummer Frank had played in Hungarys first skinhead band 'Oi Kor (1983-6), but he then moved with another Hungarian Skin to Australia, they met up with some Melbourne Skins and formed the band 'Phoenix rising', the line up of this band were Scott/Vocals, Frank P. on Guitar, Sid/Bass and Frank T./Drums. The band lasted from 1988-'90 where the two Franks moved back to Hungary after the fall of communism. Shortly after Scott and Sid formed Australias finest 'Fortress'.

The new singer and also bass player - Jabba, also plays for Archivum.

EURO 96

The recent Euro '96 football championships brought the English folk a sense of pride in itself once again, the flags were flying, choruses of 'Rule Britannia' were ringing out from back street pubs in Devon to Tyneside, the supporters of England were dolled up in patriotic face paints, just for the game of football, blatant Nationalist comments were spread across all the tabloid press and the general feeling was 'We are Proud to be British', unluckily the English went out in a dramatic penalty shootout against the 'old enemy' Germany, and as in days gone by England were knocked out by the eventual winners of the competition. Throughout the land the patriotic fever turned into anti-foreigner mayhem with huge amounts of damage being caused to Take Aways, Foreign makes of car etc....the pain of losing hurt down deep.

But what will come of all these acts and Patriotic emotions ? Now that the football is over...I shall tell you NOTHING. Its great to show your true colours, but don't just forget your Pride and Pain that you felt on that sad night for English football, footie fans remember your land in its time of need, remember its heritage and plan your future on how you want it, not how some twisted politicians would want, make your own destiny.

Take to the streets and tell the power mongers your feelings and support the people with the same beliefs as you, this infact doesn't just mean footie fans but all of the British Folk.

You have lit a candle, don't let it burn out. Briton Awake, Britons Arise.

RECORD REVIEWS

BY BRITISH OIS
KATHY O SHEA

SHUTDOWN - 'Pray for war' - Peckerwood Records.

Shutdown are the USA band the Bully Boys under a new name, the reason being in my view is that they have changed there style a hellava lot and now are more styled into heavy hard rock/thrash which is sad as there tracks on the 'Rock for our destiny' CD were great without all this popstar mentality. 11 tracks all in and over all I don't think theres one racial track on it ? why ?.....7/10.

FREIHET NU - Mini Compilation.

A compilation brought together by the unity of the Swedish record labels Svea, Ragnarock and Nordland, 5 tracks, five bands - being Svastika, Nibelungen, Heimdall, Storm and Vit Agression. Best tracks are 'Pa Vag Mot Seger' by Nibulungen and 'Tro, Hopp och kamp' by the mighty Storm. Well packaged, good quality, lets have some more of this unity (!)...8/10.

DEAD FUTURE - 'I Nationens tjanst' - Ragnarock.

A new band to emerge from the land of ice, in the form of this punky sounding band reminiscent ofg Midgards Soner in some ways. 12 Tracks all with a point to prove, includes a couple in English too...good debut....8/10.

NORSKE LEGION - 'Norske Legion'- Pro Patria.

A CD single from this new Norwegian band and what a cracker, 4 strong tracks, very much in the same vain as Pluton Svea, who I think must have been involved with it, best track of the four is 'Gjennom kamp til seier'...7/10.

CORONA FERREA - 'Skinhead Action'-Tuono Recs.

A debut CD from one of Italies best Oi bands, very well presented and well recorded by the Tuono Records mob. 10 tracks in all of fast raucous Oi! with a few in English too, best track is definately the catchy singalong track 'Who' - or as its goes 'Who, who, who the f@ck are you!' say no more, also the tracks 'Legion of hate' 'Combatti' and 'Excalibur' stand out....£12 from Tuono, C.P Succ 6, 36100 Vicenza, Italy.....9/10.

KRAFTSCHLAG - 'Live at the Club Valhalla'-NSrecs.

A great Cd from this new Danish label from the Vesterbrog region. 15 live tracks from one

of the best German bands around at the moment, very good sound and well performed, best tracks are 'Klansmen' 'Kraftschlag' 'Deutsche Jugend' and 'Auslanderhure'...£12 from NS records, BBC Box 243, Vesterbrog, 208, 1800 F, Denmark..9/10. The NS Records crew would like British Oi! to point out that in our last edition we said it was a division of the video masters NS 88 which it isn't...sorry chaps.

NO REMORSE - 'Barbecue in Rostock' - ISD Recs.

The first full studio CD from the ressurected British heroes of No Remorse, this CD really blows away the dirt Paul Burnley has left in his trails. Point blank, ram it down your throat NS music, Oi! sounding, 11 tracks in all that include 'Zigger Zigger' 'Together we are strong' 'In zog you trust' and a cover of the Sex Pistols 'Belsen was a gas'..Jacko the bands vocalist really comes across very powerful on the whole CD, well packaged too with a quite amusing cover.....10/10. Available from all ISD dealers.

CELTIC WARRIOR, ADL 122, BIFROST - Live at the Ian Stuart Memorial Concert, England, '94 - I.S.D Records.

Good cover of Billy of Celtic Warrior singing at the afore mentioned gig and also colour photos of ADL 122 and Bifrost, a CD from a very good gig, the sound quality is second to none, 25 tracks all in, 10 from C.W, 7 from ADL and 8 from Bifrost, best tracks are definately 'White Reich' 'Brand New Day' and 'Combat the Nation' by C.W.....9/10.

SPANDAU - 'Frihetskampar' - Ragnarock Records.

One of the best new bands around at the moment, this young bunch in 'Spandau' can really play, rock music is its best description, with a thundering sound, probably Ragnarocks release of the year, 12 tracks that include such titles as 'Borja Packa' 'Guardians of the white race' 'The blood is strong' and 'For vart land', a must for all you white power music fans...10/10.

INVOLVED PATRIOTS - 'Another One Died' - Nordland Records.

A smashing debut CD from the best Canadian band around at the moment, very fast hardcore/metal type of style, initially I was shocked by the cover but on reading the inlet card you understand why the band chose it, 12 great tracks that include such W.P anthems such as 'National Socialism is on the way' 'In blood In Faith' 'Give Respect' 'Final Fight' and even a great Skrewdriver cover 'Flying the Flag', the more I listen the better it gets....10/10 and

available for £12 inc P&P from I.P PO BOX 453, Succ.Lasalle, PQ, H8R 3VR, Canada.

BROADSWORD - 'God of thunder' - Records firm unknown.

The well publicised CD as already mentioned in the Bill/Celtic Warrior interview, very melodic even Ballady in places that really does show Billy in a new light, great stuff, 8 tracks that include 'Hand in hand with the devil' 'Brave Ulster' 'Odins Maidens' 'Loyal to the cause' and my favourite, and a fair tribute to the great land of wales called 'My Wales' buy it for £12 inc P&P from PO BOX 214, Cardiff, S.wales.....10/10.

BOUND FOR GLORY 'When the hammer Falls' - BFG Productions.

We'll just a quick review to say the BFG lads have rereleased this one of there best CDs on there own label and it includes two additional tracks, a great CD all in all with such BFG classics as 'Valhallas Calling' 'Aryan Nations' 'One of the Few' and 'Us against the world' - a must for every white power rock fan... £12 from BFG PO BOX 6773, E.St.Paul, MN, 55106, USA.....10/10.

VANGUARD - 'Its Time' - White Terror Records.

A tape brought out many moons ago by this USA band that also includes Ed from BFG, thus transformed onto CD, catchy OI!/Rock tracks but the quality is a little 'tinny' for my ears but still as a collector I had to get it, tracks include 'Spirit Reborn' 'White Resistance' 'One of us' and 'Friend to foe'....8/10.

ROCK 'G' SOCKS - Boser Spab - B&H Records.

A new German fun band with namely Olaf from Oi Dranz fame and Kai from Freikorps, not political but good, very OI! influenced and I'd guess if I could understand the lyrics they'd be similar to the Macc lads but more pro Skinhead, the title of the CD 'Boser Spab' means 'Bad Joke'. Tracks include 'BSE' 'Lollek & Bollek' and 'Die Huren'.....8/10.

BOUND FOR GLORY - 'Never again' Mini CD single.

As a preview of the CD I only have the tape so I'm not sure which label but I believe its either BFG own label or the Polish label 'Thor Records'. However on to the CD - five tracks being 'Never Again' 'School of hard knocks' 'Still standing here' 'Hey Joe' and 'Freddies Dead' - similar vain to the previous CD 'Behold the Iron Cross' but these tracks seem more political and in my eyes alot better, some good strong heavy guitaring too, best tracks

are 'Still standing here' and the ultimate tribute track to the dead faggot Freddie Mercury 'Freddies DEad' a great catchy number which starts off with the tune to 'we will rock you' but BFG have changed these words to 'Aids will kill you' - very fast, catchy and good, BFG back to there best.....10/10.

WARLORD - An old and angry god awakes - ISD RECORDS.

The debut album from one of the most promising bands in the British Blood & Honour scene lately, this CD shows Warlord in a new light as at gigs up until now they have played mostly Skrewdriver covers, but this is all new material, 10 tracks in all that include 'Beautiful England' 'Europes Bride' 'Brave Ulster' 'The Journey Home' 'Motherland/Fatherland' and my personal favourite on the CD 'Honour' a very catchy number, another great release from ISD, available from Warlord at £12 inc P&P from Warlord C/O British OI, PO BOX 249, Derby, DE21 9EG.....10/10.

JOE ROWAN Memorial Concert - Live from the Westside Clubhouse USA - Various Artists - Hammer Head Productions.

A CD recorded at the aforementioned clubhouse where seven of the USA best White Power acts played a fitting tribute to the sadly lost Joe Rowan singer of Nordic Thunder, bands include The Voice, BFG, Sham Rock, Centurion, Aggravated assault, Max Resist and Confederate Storm. Great sound quality and all bands perform well, I especially enjoyed the aggressive Aggravated Assault and also newcomers Confederate Storm. Buy it for £12 from PO BOX 81371, Rochester, MI 48308, USA.....9/10.

NO MORE BROTHERS WARS - Various Artists - Dial Records.

A CD nearly two years in the making and well worth waiting for, 10 different bands with two tracks each, bands include Friekorps, Portugals Combat, Czechs Excalibur, Spains Estrirpe Imperial, Italies Gesta Bellica and two of Britains best 'Celtic Warrior' and 'Razors Edge', some great melodic sounds and for once alot of the tracks are in english, the CD is dedicated to all our lost comrades fighting in pointless wars, NO MORE BROTHERS WARS. £12 inc P&P from Razors Edge, who have some of the best music on the CD from PO BOX 3324, West Bronwich, West Midlands, B70 7NP, cheques payable to Razors Edge, buy it now.....9/10.

If you want a CD reviewing in front of over 1000+ readers send your tape/CD in now.

**EDITORIAL
NUMBER 41**

Racial comrades, loyal readers of British Oi skinzine,

Well firstly welcome to this No.41 of British Oi which is as per usual full of news, interviews, reviews and lots more, we hope you enjoy it too.

This issue it has been decided by the editorial staff and British Oi Team in general, will be our last issue ever, British Oi has alot of history, has seen good and bad days over its 11 or so years of existance but the decision has been made due to many reasons being...

1. Two of its Crew including myself Mike Miles will be moving to the USA and so didn't want to hand the zine over to people considered unworthy to carry on the zines positive issues etc.

2. As editors we have been involved within alot of infighting lately with the opponents of Blood & Honour etc, we are disgusted by many peoples actions and the need for personal wealth over promoting White Pride really strikes anger point with us, we have been used by alot as a baseball bat within this quarrel

and we will not except it anymore. We view the worldwide condition of the scene as bad, in 11 years of British Ois existance it has never been so divided.

Idiots prey on the internet, all spreading a malicious cess pool of lies.

The popstar mentality creeping in with many bands, touring the White world over, earning money, a social club more or less, you know these bands.

These and maybe a hundred more reasons all interconnect with each other.

But it is not all doom and gloom, on one side of the fence - our side - the Blood & Honour side - the movement grows continually and is as positive, as active, as professional as ever. The gigs go off with no communist interference and more bands appearing each month.

The popstar element doesn't exist within our ranks, I for one have seen the bands play gigs for no money as long as they know where the money is going, I've witnessed band members donating royalty monies back into the movement, these are true actions of the true B&H members.

So the zine comes to an end, we hope over the years we've pleased you, interested you and encouraged you to wake up. Within this zine is a thank you to all over the last few years who have made the zine worth doing, who without it wouldn't have been possible or as enjoyable.

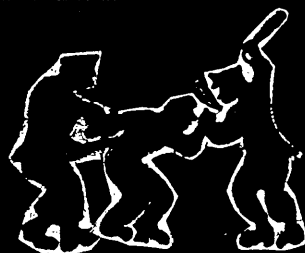

Also a note to all the subscriber army, firstly fear not people who have outstanding subscriptions with us, firstly your name and amount of issues still outstanding will be passed onto fellow Blood & Honour Midlands zine 'Strength and Will' which is a very good read, or if you don't wish to recieve this, then drop us a line and we'll refund you OK, but we recomend Strength and Will to you all OK.

So as we finish here, wise up, think for yourselves, stop the fighting, and start unity.

Mike & crew. 88.

ROMANTIC

VIOLENCE

British Oi interview Balazs the singer of up and coming Hungarian band 'Romantic Violence.....

Could you tell us how the band came about ?

We formed in the spring of 1994 in our capital city of Budapest. We formed to have basically something to do but also to get our views across, our line up Balazs-Singer, Kristof-Guitar & Keyboards, Norbert-Bass and Peter-Drums.

Who influences the band musically and politically?

Musically by a variation but we pride ourselves on our own style, our favourite bands however are : Skrewdriver, Sham 69, Deep Purple, and Van Halen. Politics doesn't really interest us although we are nationalists, an old English lord who lived in the last century influences us and his name was Hugh Cecil - he led a young rebellious group in Parliament and its said the word 'Hooligan' came from his name.

Could you tell us about some of your songs ?

Our music is rock style with Oi! overtones, all our songs are about things that have happened to us, our songs sing about life on the streets, our land, honour, girls etc.

How is the skinhead scene in Hungary ?

The scene alters from town to town, In Budapest I'd say about 400 skins. I think the first skins appeared in Hungary at about '82-83. The first band we know of was 'Mos Oi' and Oi Kor and 88Group. In 1991-92 came the second generation of Skins and alot of new bands such as M.A Skins, Action Unity and Baldlilys. The best skinzine ever from Hungary was Budapest zine called 'Pannon Bulldog'. The best gig so far was in December '93 when several bands played to over 2000 people and no trouble at all.

What gigs have you done and who with ?

We've done about 15 gigs with Hungarian bands with the best being in the Viking Club with over 400 fans attending which we played with Archivum and Hyde Park, the reason being the atmosphere was electric and I think we played well.

Do you follow football ?

what a question, I follow my team Ferencvaros and haven't missed a game in several years, I've been all over watching them like Zurich, Madrid, Bremen, Copenhagen and more, we have a big crew at the football. This year we've played in the Champions League also.

Any merchandise available ?

The following things can be bought from us...Perdita Szerellem our tape for £5, Poster A3 size colour - £1.50 and Sticker for 5 -£5 from us at - Romantic Violence, Management, 1399 Budapest, PF 701/1287, Hungary.

What is your main objective in the band ?

Our plans are to do as many gigs as possible in as many places up and down our country or even maybe abroad ? We'd like to get lots of people into our music and get them into our style.

Any closing comments ?

Only Cheers Mike for the interview and a big hello to all the British Oi readers.

AGGRAVATED

ASSAULT

Aggravated Assault are one of the leading USA white pride bands and have gained a strong following throughout the world now, they play a fast OI style music with aggressive lyrics, Kathy recently phoned up the band and this is the outcome.....

1. When did the band form and what is the current line up ?

The band formed in 1991, the current line up is Warren/Vocals, Brent/Lead Guitar, Scott/Rhythm Guitar, Ryan/Bass and Todd/Drums.

2. You are part of the A.C Boys, could you tell us about this gang?

A.C.S formed in 1986, ten years later we're still drinking, fighting and playing music for National Socialism.

3. Could you tell us your thoughts of your debut CD 'It could happen to you' ?

We think the lyrics were powerful and straight forward and we also thought it was poorly produced which we are not happy with.

4. How do you compare that CD

to your latest split CD with the Blue Eyed Devils called 'Hate Crimes' ?

Due to Scott our new engineer, Hate Crimes really showed us as we would have like 'It could happen to you' to be like and so showing our true sound.

5. Tel us about your recent gigs?

We played a New Years Gig with Squadron, BFG, Max Resist and our mates the Blue Eyed Devils. We've also played in Montreal with Involved Patriots and Blue Eyed Devils.

Our best gig ever we believe was in Wykes, Pennsylvania with Brutal Attack, BFG, Nordic Thunder, The Voice, and Max Resist. It was the biggest open air gig ever in the USA and great night.

6. What future recording plans have you got ?

We plan our second full length CD to be out before Christmas on our comrades label 'Tri State Terror'.

7. Would you be prepared to travel to the UK for a gig ?

BRITISH OI!

We would very much like to visit the UK, but due to possible long term jail sentences this may not be possible. The case is in the courts as we speak.

8. Is it true that Warren was invited to go on a US Chatshow and so inturn had 'Murder' shaved in writing on his head and so they banned him ?

Although Warren does have Murder tattooed on the back of his head, the reason they did not appear on the show is due to the fact that the TV firm refused to pay the bands bar toll (Ha Ha).

9. Whats the bands view on active NS parties and action groups ?

We support all groups including GBs C18 who are wiling to fight in the streets no matter what society or even other movement members may think.

10. How come you left the flagging Resistance Lebel ?

Our bassist Ryan started up 'tri State Terror' Records and so it seemed easier with him.

11. What U.S.A bands do you consider the best and worst ?

We feel all the bands playing white power music are the best by far but bands like Stormwatch who are fencesitters should be ostracized from the skinhead movement.

12. What do you hope to achieve over the coming year ?

Should we be acquitted on all chrages pending against us, we plan on alot more shows, recordings and drunken nights from here to the U.K.

13. Any closing comments ?

Thanks to our friends down under, Canada, U.K (Jason and Crew),

Good luck Charlie, Martin and Will in your up and coming court case, thanks to Kathy and Mike from British Oi for the interview and to all the others - you know who you are for supporting us from the U.K. Keep on drinking and don't give up the fight.

Aggravated Assault can be contacted at AA C/O Brent, PO BOX 205, Plainsboro, NJ 08536, USA.

BRITISH OI!

RIGHT HANDED NEWS!

NEWS SUPPRESSED BY THE DAILY PRESS

Welcome to this the last edition of Right Handed News from the British Oi! crew.

Well importantly, Renewal Of Identity (R.I.D) the t-shirt and Skrewdriver CD people have relocated and are now not at the old British Oi address of PO BOX 249 but now at PO BOX 51, Bridlington, Yorks, YO16 5WZ and for the latest list send a SAE for a copy, the shirts are still as relevant as ever so support R.I.D created by Ian Stuart and carried on in Ians honour. Also RID have two new designs available now.

Well the ISD CD 'Barbecue In Rostock' by GBs No Remorse has really caused a storm since its release a few months ago and has made many headlines in the mostly upper crust press such as The Guardian etc and also the Welsh newspapers 'The South Wales Echo and The Wales ON Sunday', it has really ruffled Gerry Gables Feathers also with him declaring war on all who like the CD or even all who have a single copy, they

traced where the CDs were pressed in Wales (Hence the Welsh papers interest) and made them swear they wouldn't produce ISD material again (with the help of a top barrister), incidentally the same CD producing firm also print 'oasis' CDs, now is Gable moaning about this bands shear horrible eyebrows - I think not. But away from all the hype the left wing media have spouted, apparently the CD 'BBQ in Rostock' has sold more copies than any other ISD release with many being sold in Germany. The CD can be bought from ISD Records in London or from NS88 in Denmark, these are official dealers no other address can this be obtained as Gable and his phoney publication claim.

ISD have also released the Best of Skrewdriver Volume two and also a CD from German band Nahkampf and plan for the near future a CD by a new studio band from GB called 'Thunderbolt' who are made up of

held a small but respectful rally and the Cenotaph in London on Nov.10th the first Nationalist group to do so for a few years with also no opposition from the communist rabble, well done the front!

Its said that the BNP will field 50 candidates in next years General Election in GB and will get a Party Political Broadcast on TV in a last ditch attempt to revamp the flagging party, on one side we wish the BNP luck as there is always a need for a strong Nationalist party but is it all viable, I mean I bet all 50 candidates will lose there deposits of about £1000 I beleive or thereabouts, so £50,000 down the plug hole, which could be used on more needy maters, technology etc..we'll see ?

Scotland Blood & Honour should be up and running again within a few months after the original organisation changed its name to the Highlander as they aligned to the Resistance/Nordland side of the fence, shame really as alot of the Scots are great people, but the new unit is being lined up, so Scottish readers listen out for this.

Onto other news from across the globe....

Spain has seen a new lease of life on the Blood & Honour scene with several bands playing gigs, recording CDs and forming zines and record labels, namely bands like Division 250 have a great new CD out on Italies Tuono label, Primera Linea from Seville City have a CD out on new Spanish label Rata-ta-ta, there are two Skinhead shops in Madrid now also....

Poland...Salute zine Polands best zine has a new edition out and is written 100% English and can be bought for £1 from PO BOX 55, 02788, Warszawa 126, Poland...one of the earliest Polish bands now cult figures in there land have released a Brand new CD called '1986-1996' and is Oi! sounding with a strong message....Thor Records have brought out a compilation CD called 'Keep it white' which features an

array of bands, and they have also brought out the new BFG CD 'Never Again' as a joint venture with BFG Productions...Poles Regiment 88 who were really getting there act together have split up due to problems witht the law after the singer and guitarist were arrested for fighting reds.

Poland this year also organised its second white untiy festival which lasted over two days and featured over 6 bands from several different countries!

Germany...I've always been a fan of Friekorps but recently I had a LP of a band called the Droogies from 1991 and Kai is pictured on it complete with long hair and smooth look and after the dedications it states and I quote "No thanks to fascists everywhere" if you have any light on this subject then drop us a line at PO BOX 51, Bridlington, Yorkshire.

Serbian bands are becoming increasingly more active and a Ian Stuart/Joe Rowan memorial concert was held in the city of Cuprija with the help of the Serbian Radical Party, about 250 attended but the gig was stopped after only a short time after fighting broke out with the local gypsies, also shortly afterwards in the city of Kraljevo fighting with Gypsies escalated and two skinheads were wounded with gunfire and three arrested one being Serbian B&H band 'State Impacts' singer...a new band called 'Providence' have recorded a demo and they recently played in Budapest with Brutal Attack other Serbian bands to watch out for are 'Odal' formerly 'Revolt BGD', and Aggressija.

Italy held its annual Ian Stuart Memorial gig with the bands Noie Werte (GermanY) ADL122, Front Towards Enemy, Fronte 82, Gesta Bellica and Nervid'Acciaio and also last minute special guests Bound For Glory and Konkwista 88. 'Gesta Bellica' have since been arrested and imprisoned for what reason we still don't know...Blood and Honour Italy will be formed in January in conjunction with the Union of

BRITISH OI!

Skinhead Girls Italia.

The USA...well now much has come from the states so all we know is that Vaginal Jesus the contraversial Death Metal band have split due to problems and so please don't write to there PO BOX as its shutdown.

Another NS Death Metal band called Mudoven have an excellant demo out, now Death metal might be too harsh for some but all the lyrics are understandable, this band really do rock and I beleive given the right break within our movement they could reach new heights, there demo can be got (\$5) from Mudoven, PO BOX 174, North Branford, CT 06471-0174, USA.

Well enough news for now, and a hearty thank you to all who have given info for this service over the past years, without you none of it would be possible.

We thank our comrades who have given info from England, Wales, Scotland, Ulster, Sweden, Denmark, Finland, Norway, Germany, Poland, Slovakia, Czech Republic, Slovenia, Canada, US of A, Australia, Italy, Spain, Portugal, and the rest, you know who you are, we'll be seeing you soon hopefully. HVETRAMANNALAND PRIDE OF COLUMBIA

HVETRAMANNALAND are a rising band from the South American country of Columbia which now has a formidable skinhead movement, H'Land for short are part of the ever active skinhead organisation 'Skinhead Klan'...lets find out more....

When did the band form and whats the current line up ?

The band was formed in March of 1994 because we wanted to express our ideas to all the youngsters and to those in agreement with us.

The line up is: Gilmer/Drums, John/Bass, Juan Carlos on Guitar and Vocals.

Why the name Hvetramannaland and what is this in English ?

H'land means 'Land of the white gods', this name was given to our America by the ancient viking civilisations according to researches made by revisionist and NS writers such as Miguel Serrano, Jacques De Mahiev and even Otto Rhan in his book 'The court of Lucifer' talks about it. This is the reason we chose the name, as a memorial to the gods and the writers.

Could you tell us about your songs ?

We sing about our land and we want to show the people the danger ofg zionism which is ignored in this land.

Who or what is your worst enemy ?

Zionism is our worst enemy by any means, this is the enemy of all races.

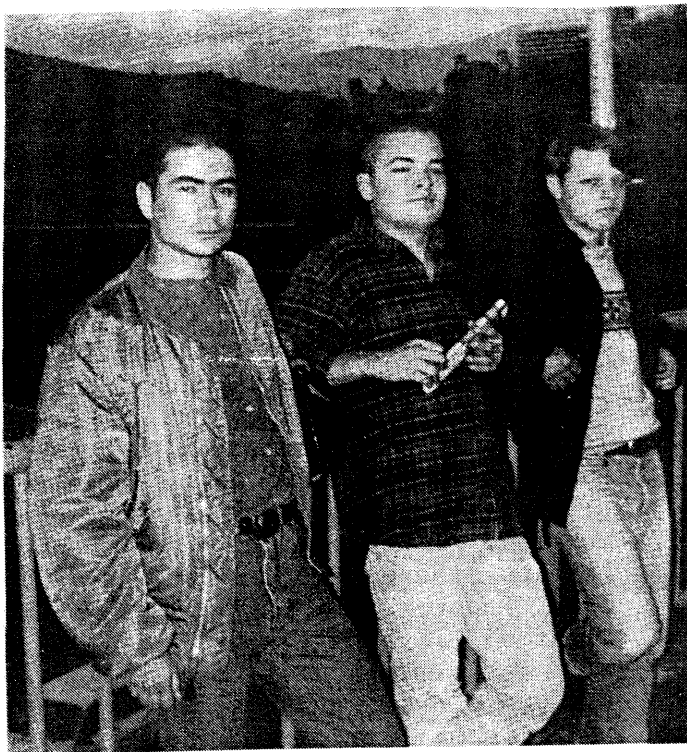

On our TV the only time we hear of Columbia is when its all about drug cartels etc, whats your view of this ?

Unfortunately in our country drugs have been pushed by politicians who are in touch with the drug barons, therefore the whole government is corrupt with one important factor, that being the lust for money.

The drugs industry is part of the zionist game. We are against it all and this is expressed in our music, also don'T trust all the TV shows!

How is the Colombian Skinhead scene ?

In our country there are strong skinhead gangs in the cities of Medellin (our city)

Rionegro, Pereira, and Bagota.

We are active through our unit of the Skinhead Klan and produce propaganda etc.

Which bands do you all enjoy/dislike ?

The most popular are English bands such as Skrewdriver, Brutal Attack and Skullhead, plus German and French bands such as Storkraft and Bunker 84, I don't enjoy Eastern European music.

In Columbia are the law against you as in GB ?

Fortunately that is one good thing about our land, there are no race laws and we are free to listen, perform, sell buy and promote our material how we want.

Away from the band, what do you all do ?

Gilmer makes clothing, John is still at High School and I Juan Carlos work as a Car Sprayer.

Any closing comments ?

Thanks to Mike for the interview, to all the readers of British Oi! remember we are keeping the faith in our land and respect all our comrades across the world for standing up for themselves....Victory will be ours if we stand proud and tall...88.

BRITISH OI!

O.D

O.D are one of Germanies well known bands, formerly known as Oi Dramz the band have just released a new CD on German label 'Vincente Directori publications and so B.Oi! wrote to Olaf of the band (also pictured right) and this is what he had to say....

Could you tell us a bit about O.D ?

The face of O.D changed often over the last few years In 1989 we recorded our first demo tape and many line ups have come and gone with only myself Olaf staying, Kai of Freikorps has helped me alot in the studio.

The actual name Oi Dramz doesn't mean anything, we didn't want a radical name as many other bands, we want people to listen to our music, not just get it cos its called something radical.

Could you tell us about some of your CD/LP releases ?

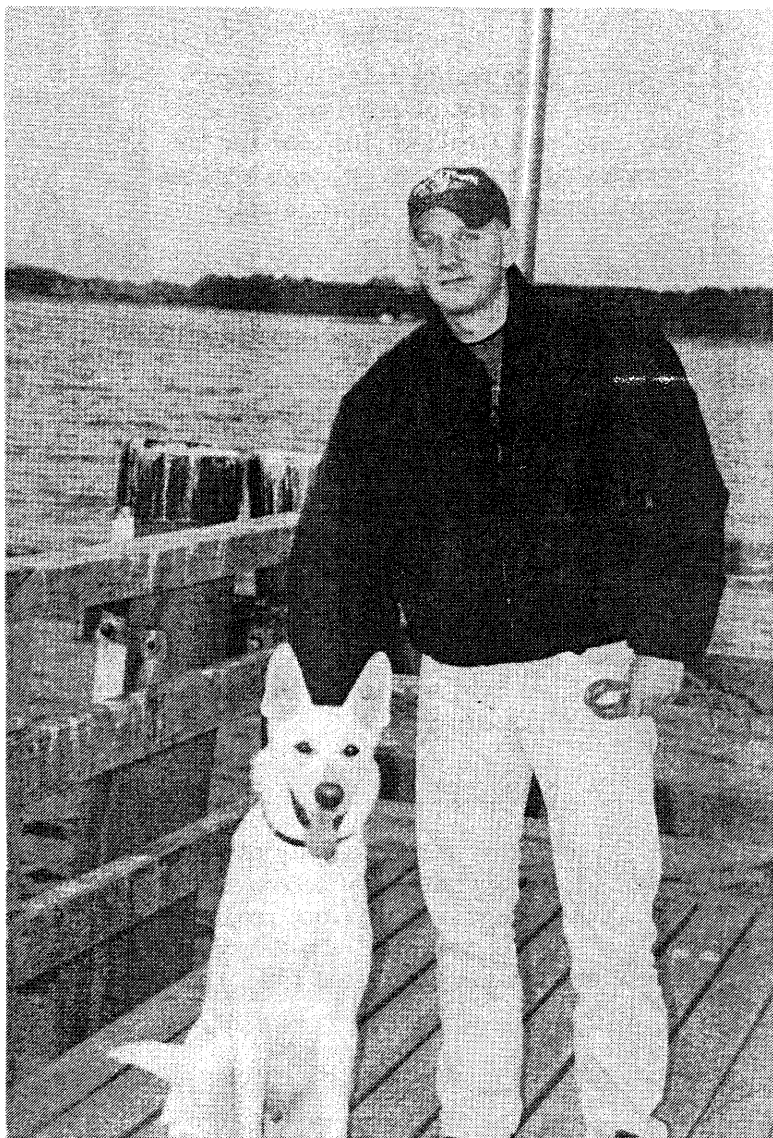

WE've recorded 4 CDs, 3 for Rock O Rama and 1 for Vincente Directori Publ. as they come from our hometown of Hamburg. There are :

- 1.Oi Dramz - Debut - pure Oi, hard nationalist songs.
- 2.Oi Dramz - 'Faces of society' - more metal style.
- 3.Oi Dramz - Skinhead (our best one) - German RAC music.
- 4.O.D - 'Time of the awakening' - again typical German RAC.

Other Oi Dramz songs you can find on the 'Norddeutsches Sampler' (ROR) and the comp 'Soundtracks of a new generation'. Our debut you can no longer get as it was to strong for the German laws.

Did you ever appear on the label Skull Records who ripped alot of bands off ?

No never and we're glad too. There have been a few bad labels only in it for the

money but also some good labels like Hause Records down by Jens of Endstufe and Peter Kress' label Excalibur which unfortunately doesn't operate anymore.

What gigs have you done ?

Over the years we've mostly been a studio band and so gigs have really been non existant but we did play once in our town of Hamburg, we have had a lot of offers though.

What German political groups are the best at the moment ?

I don't think there is a worthy organisation in Germany at present, I think they will all take the wrong way, we need at the end of the day a strong white pride feeling in our hearts to win the struggle at the end.

To win people over you have to do it smart and sensible, well packaged radio programs, newspapers and maybe TV to get mass support.

Do you get much hassle from Turk gangs ?

There are alot of problems with the Turk gangs and I believe its good for the average white man to get attacked by these gangs to make them wake up to it all.

Who are the best German bands around at present ?

Easily answered Endstufe, hooligan Beat and Vollstecker.

The German state is in a similar condidtion to the British, mass immigration, unemployment, ghettos etc, do O.D sing about these things ?

Over the 4 CDs we've done all subjects are dealt with, I write about alot of the pain I see germany in with little hope unless the mass awake again, I wrote on the last CD two ballads from my heart called 'My world' and 'My soul is spying'.

So do you belive your songs get people on our side ?

Its a victory for me if only pone converts to our opinions and I know many have. Other songs help diffrent people too like our song 'German Girl' who helped one of our fans win his Girlfriend back, thats good too.

We understand you had some difficulties with the law ?

Yes we had a hard hitting track on our secong demo which was our strongest track ever (indeed British Oi cannot under our laws print its title) and the band got two years probabtion and we had to pay money into a fund to help out immigrants - no this is no joke! Its really pathetic to see that you get the same punishment for being a drummer in a band as you would if you were a murderer, drug dealer or something.

Were there any Hess Demonstrations this year?

Many things were planned but the Police stopped alomost everything and I think only a few made the pilgrimage to Hess' grave.

Any closing comments ?

Times are hard but stand proud your whole life always regardless, don't listen to what others say about you, your OK - don't forget this, stay away from violence, violence is a tool for the media to use.

Lastly also Hello to Mike and the B.Oi! team and Danny of the Involved Patriots and Dennis and Calimero.....14.

ON THE SERBIAN FRONT

ARYAN FEST. '96 - August 10th.

SERBIAN BLOOD & HONOUR DIVISION.

Bands - Aggressia, Providence, Savrsenstro Kroz patnju, Bomba za Sistem and Drzavni Udar.

Venue - Rock Club in Ruma.

A promising gig was organised by the Serbian B&H div. and at about 9.30pm with over 100 in attendance the gig started, skins from Belgrade, Jagodina, Kraljevo and more were present.

First band up were 'Aggressia' a young bunch of lads who warmed up the crowd with a Oi! set, they played a few tracks which was highlighted by there cover of the Brutal Attack track 'The Blood is strong', this band have potential.

Next up were 'Providence' a new band from Jagodina but with well known members from the Serbian scene. Bajba the singer and also zine editor (The Order mag) dedicatedone track to Ian Stuart. Sound was reminiscent of USA bands with strong NS lyrics and they had all in attendance raising there right hands.

The second band from Jagodina were 'Savrsenstvo kroz patnju' or 'Perfection through pain' who have a album called 'Made in Serbia'out, hardcore type style with a strong anti muslims track they had the crowd going wild, these are great musicians.

Next up were 'Bomba za Sistem' or 'Bomb the System' from Kraljevo, a real Oi/White Power rock band and there song 'Race & Nation' was excellant, they support the British musical style which is great.

Last up were 'Drzavni Udar' or 'State Impact' from Belgrade, very powerful white rock, they sang 'Cigansko Tubre' (Gypsy scum) and the hymn for the Serbian lads 'Serbia for the Serbs' which really made the night end with a bang.

This gig was the answer to all the scum who spread lies, thanks to Serbian B&H div. The differences in styles showed that if you Oi, Metal, Rock or Hardcore, the Serbians stand united.

HONOUR

HONOR 1989-1996

In August 1989 the band Honor formed and that line up was Severyn on Drums, Krakus on Bass and Olaf on Vocals/Guitar.

All the music and lyrics are written by Olaf and in September 1989 Honor played there first concert and shortly afterwards were ready to record there first material a tape called 'White Front' which had 14 tracks. One of the tracks off this tape 'Our Honour' was released on a Belgian Compilation next to established bands of that time like Celtic Dawn.

The band made a name for themselves through this appearance and had many letters from Europeans interested in them. In 1992 they released there second tape called 'Ideal cost' with 10 tracks, some of these songs featured new vocalist Mariusz and showed a new style to the band. Bass player Krakus left at the same time.

Between '90-92 Honor along with fellow Poles Konkwista 88 linked up with the NS enviromental group called the 'Aryan Survival Front' but sadly the movemnt collapsed.

In 1993 they released the next two tapes being 'Triumph day' and 'Born white' and alot of gigs around the country.

After a break in the band due to work etc in 1995 the band released there first CD called 'Steel Revenge' which including songs from the last two tapes and also at the same time the band gave two tracks for a compilation called 'Oi for the homecountry' released by Fan Records who also signed a longterm contract to release Honor material.

WHOSE CULTURE REVISITED !

A few issues ago we featured the article 'Whose Culture?' exploring our music scene and how in our eyes it is heading down a commercial road and even the 'Alien' culture is influencing our bands by band members wearing baseball hats backwards like the Black hip hop/rap bands that are around today and bands in the states that in between songs scream to the crowd words such as 'Hey guys lets f@@k this shit man' etc etc.

Little did we know that this article would cause quite a bit of contravertise with people claiming the article was rubbish to people claiming it was about time someone spoke out about this topic.

However the general feeling in the roughly 100-150 letters we received on the matter were in favour of ousting the backward baseball hat brigade and Eddie Murphy fans.

STORM the Swedish No.1 band stated to British Oi - "Well done on this thought provoking article, we have seen at first hand what you mention and think the article was one of the best we've ever seen in any skinhead magazine".....whereas Ed from USA White Power metal band **Bound For Glory** stated and we quote "British Oi you've got it all wrong, the baseball hat backwards isn't a black thing at all but dates back to the 1920s when baseball catchers turned them backwards to make sure they could see the ball, but if people wear them side ways that is definately wrong".

Another turn in development in this matter surfaced recently in Resistance magazine where it states RAHOWA appear on a CD alongside popular Death Metal/Thrash bands from the USA and says how RAHOWA is hitting the mainstream music industry. Now am I on my own now in saying that for years our slogan was 'Against red front and massed reaction' and 'Rock against communism', but RAHOWA want to be in the mainstream which is ran by the hook nosed race and communist allies, so does this mean RAHOWA will have to sell out ? It must, sod the music industry, we have created our own, we are not hear to try and be in theirs!!!

In the same edition of Resistance it reviews a fanzine from the city of New York called 'Seconds' which includes a RAHOWA interview (What a surprise!) but the magazine is multicultural and has the Asian Starlet herself 'Yoko Ono' on the cover, what do you think ? Are we alone in our feelings of being let down when many seem just want to earn money and fame.

We want a response to this article and our findings will be reproduced in the British fanzine 'Strength and will' in the near future, write to us at - PO BOX 51, Bridlington, Yorkshire, GB with your views, come on tell us what you think, any letters may be quoted OK.

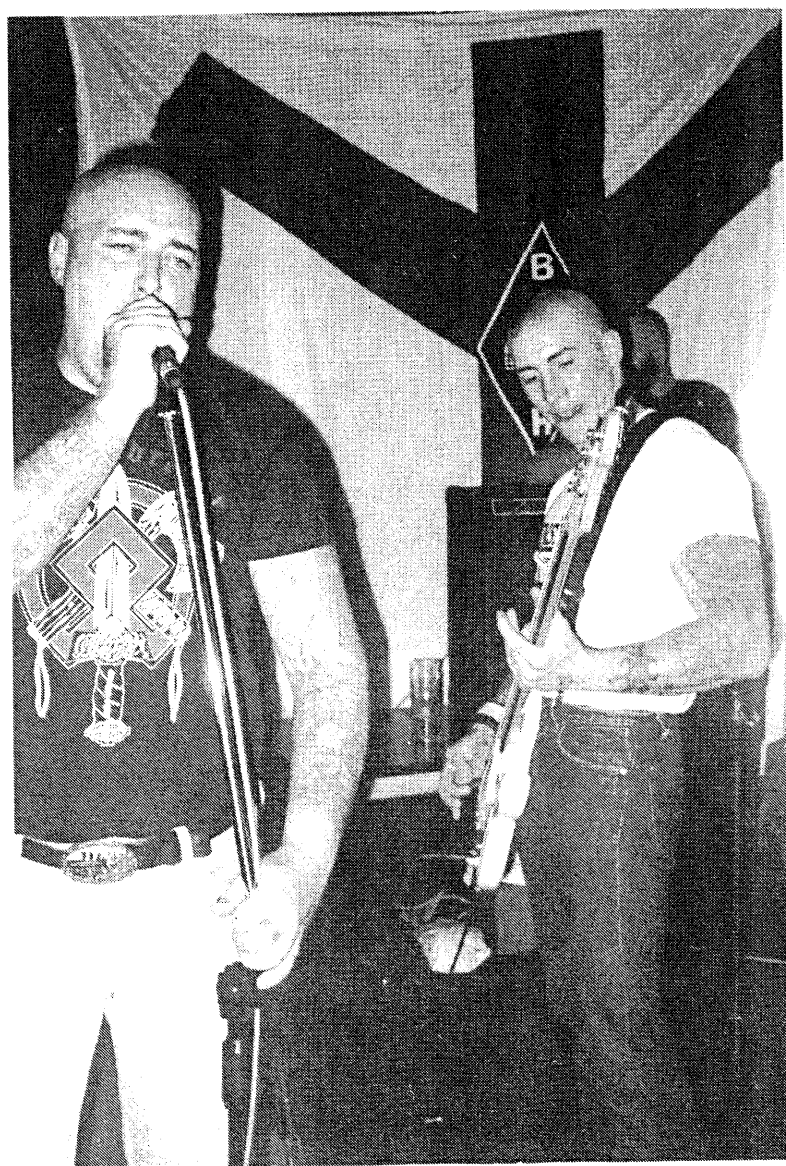

So come on White Power music lovers and NS activists the world over, its our culture we promote and its our culture that is dying due to mixing with the wrong blood, keep our race alive and don't be influenced by 'THEM'.

CHINGFORD ATTACK

"WHITE POWER SKINHEADS
EAST LONDON STYLE"

Chingford Attack are establishing themselves as one of the most uncompromising Blood and Honour bands about to date, and over there short existence have gained a strong following, we recently caught up with the lads after the Ian Stuart Memorial gig and this is what they had to say.....

1. When, why and where did you form ?

When ? October 1995, Why ? as we have something to say and it was the best way of doing it and where ? Chingford - where else.

2. Whats the line up ?

L.T - Guitar - Vocals,
J.C on Drums, Marco on Bass and
Mick - Vocals.

3. Why the name Chingford Attack?

One sunny saturday afternoon 7 masked skins and 1 masked Reverend attacked a gathering of communists. The following week the local newspapers headline was 'Chingford Attack', we thought it was a good name for a band to have, so it stuck.

4. Could you tell us about some of your songs ?

East End - a remake of the old Cockney Rejects number, Chingfords in East London so our firm enhyoy it.

Chingford Attack - about our favourite pass time, enemy bashing.

Shadow of yourself - LT sings this one and we don't know what hes going on about.

5. How many gigs have you done so far ?

About 10 we'd guess, we've partuculary enjoyed the gigs in Harlow and Derby when we played with Finlands Mistreat and also our trip recently to Italy which was fantastic, we shall be

BRITISH OI!

conquering Germany soon too.

6. About this Italian gig, can you tell us more ?

The gig was brilliant, good crowd, good beer, well organised and thanks to the USGI for everything, the other bands were Centuria, Corona Ferrea, Gesta Bellica and No Remorse.

7. How difficult is it for you to organise rehearsals etc living in such a multi cultural cess pool in London ?

No problems really, lots of venues, lots of practice venues etc.

8. How do you view today's Blood & Honour movement ?

The scene is looking stringer than ever, the popstars have gone leaving dedicated NS Skins in our ranks, we have our own CD label, gigs every month, professional magazine, also now unity of a load of bands.

9. Any recording plans ?

This year we will record our debut CD and also some compilation tracks for various companies, the CD itself will be for ISD and should be out for January.

10. What ambitions with the bands have you got ?

Well to stick at it, improve our movement and make it grow.

11. Any closing comments ?

Cheers Mike for the interview, and also to anyone else who has helped out with the band in any way - Cheers see you at the next gig.

Chingford Attack can be contacted at PO BOX 12041, London, E4 9YE.

SIR OSWALD MOSLEY

1 0 0

YEARS OLD

"What Mosley so valiantly stood for could have saved his country from the hungry thirties and the Second World War"....Labour Party leader Michael Foote, London Evening Standard, Oct.22.1968.

November 16th 1896 saw the birth of the leader of the British Union of Fascists 'Oswald Mosley', this year marking his centennial with celebrations occurring all over the UK which included a mass mail out to the media with copies of Mosleys paper (reprinted by the USA newspaper 'The Truth at Last') 'Action' which detailed his achievements and political programs.

I have written this article to commemorate Mosleys life and struggle and to try and sum up in only a small way why he was such a powerful man and also why we as modern day National Socialists can learn so much from his tale....

Sir Oswald Mosley (1896-1980) was born into an aristocratic family from which he inherited his title and was educated at Winchester and at the Royal Military Academy, Sandhurst, proceeding along a path well worn by his social class.

When Sir Oswald was eighteen World War One broke out and Sir Oswald served in the Sixteenth Lancers in France and then in the Royal Flying Corps. It is said that his war experiences exercised a profound impact on him and his career in politics.

Between 1918 and 1931 Mosley was a Tory, then an Independent Tory and then a member of the Labour Party. In 1931 he helped to form the 'New Party' after the cabinet of the second Labour Government refused to endorse his plans for national reconstruction, a task that had been allotted to him as chancellor of the Duchy of Lancaster, with the crushing defeat of the New Party in the 1931 General Election, Mosley began to move towards the most decisive phase of his career and on October 1st 1932 he formed the British Union of Fascists (B.U.F) with only a mere 32 followers, this action followed a recent

BRITISH OI!

visist by Mosley to Benito Mussolinis Italy.

The BUF quickly developed into a well organised political party but along the way it did run into some problems as for instance some of the so called respectable support abandoned him upon the grounds that they disapproved of the street violence and antisemitism in the BUF at the time.

The BUF became even after such incidents the biggest Patriotic Organisation in the English speaking world with some 70,000 members in over 400 branches nationwide by 1934. Indeed when its newspaper Action was launched some 160,000 copies were sold.

In 1939 Mosley and the BUF held the largest indoor rally ever held in Londons Earls Court Exhibition Hall where over 30,000 people attended to voice there anti WW2 protest, no more brothers wars.

It is claimed that it was the outbreak of World War Two which only stopped Mosley becoming the British Prime Minister, which indeed would've changed todays society, instead of this Liberal democracy and mass influx of immigration, British folk would be governed by patriots who would there peoples best interests first.

The BUF became routed in local community politics at grass roots level with alot of energy pumped into the East End of London, where support was immense, armies of BUF supporters or Blackshirts as they were known due to the Black Uniform worn, could be seen on every street corner etc distributing the word of the 'union'.

The Government or certain elements of it were quite frightened at Mosley and the BUFs rise that in 1936 passed The Public Order act, it banned the political uniform of the blackshirt which hindered street recognition and activities but the BUF went on. Indeed it even campaigned during the beginning of the Second World War.

In the Spring of 1940, when German Invasion looked imminent, Mosley and leading members of the BUF were interned in Jail, with these detentions the BUF severely struggled but avoided ruin. Mosley was released from Internment in November 1943.

After the war Mosley reconstructed his political organisation as the Union Movement but the political current worked against him amongst the hiearchy although still popular to the working man, sadly this great man suffered in the later years at the polls and called it a day. He had stood against the red aggressor and tried to blow gusts of clean air down the corridors of power

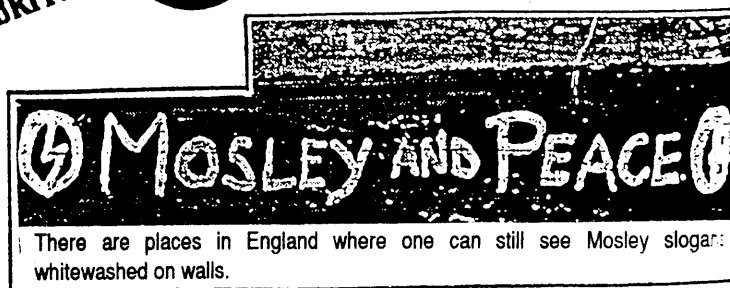

but failed.

But Sir Oswald did leave us his determination, political programs and opinions, Mosleys views are now more relevant than ever and apply 100% to the conditions of this day and age. Rally round and honour this great man.

1896-1996 - Mosley 100.

GIG REVIEWS

Ian Stuart Memorial Concert.
Blood & Honour GB Division 21.9.96
Reviewed by Ray Howa.
Organised by B&H Midlands.
Bands - Legion of St, George, Avalon,
Warlord, Chingford Attack, Finlands
Mistreat, No Remorse and Razors
Edge.

We got to the redirection point near Tamworth in the Midlands early and so after several beers the place had ballooned and was bursting at the seams. We were all given maps to the venue about 7pm and off we went.

We arrived 15 minutes later at the venue, a large social club and after a hour or so well over 250 were in attendance with two more coach loads and some vans arriving late to swell our ranks over 400 people.

First band up were B&H new boys 'Legion of St. George' who played a well rehearsed set and were commented by some lads to be very much in the same vain to London band of the '80s 'The Die Hards' - good to see new Oi bands with all this Thrash crap about the highlight of the set being 'There goes the neighbourhood' which'll be a crowd favourite with its catchy chorus.

Next up were locals lads who had brought a good following 'Avalon' who papaded there new drummer James who fitted in well, the band played a few cover versions most noteably 'Triumph of the will' aswell as there own anthems like 'C18 are calling' and 'Dogs Cock'.

Chingford Attack were up next and fizzed through a load of numbers and had the crowd going mad including tracks 'Gerry', 'White Power Skinheads' 'East End' and 'Dirty Bastard'.

Up next were East Midlanders

'Warlord' spearheaded by the T-shirt terrorist and oh gosh doesn't he look like Roger Moore(not) Stigger the bubbly guitarist/vocalist. They only played a short set but had the crowd going mad to new track 'Beautiful England' and old Skrewdriver classics such as 'Tomorrow belongs to me' and 'House of treason'.

Two minutes silence came next, you could have heard a pin drop in the hall, 400+ raised right arms honouring a true man, after two minutes one hell of a loud 'sieg heil' from all there.

Mistreat from Finland were up next, sadly rushed by a shortage of time they only played 5-6 songs but showed there pedigree belting out the Cock Sparrer cover 'England belongs to me' aswell as there own anthems 'Hang the mugger' 'We're ready' and more, there is only 4 in this band but they are so powerful you'd think 8 were on the stage, well done Mistreat.

Razors Edge were the next to jump at the stage and headed straight into 'White Survival, Whatever it takes, Free My land, Lest we forget, and more, Razors are always well rehearsed and Andy the frontman really does get the crowd going, the dance floor was well hotting up now, with bodies flying everywhere.

Last up were the new 'No Remorse' with Big Jacko as frontman who went into a fast furious set of 'Smash the reds' 'together we are strong' 'Barbecue in Rostock' 'Race Traitor' and loads more, by this time the bar had shut and so all attention was at the stage, christ you couldn't move for the mob dancing and barging away.

All ended shortly afterwards with no aggro, well stewarded and not much Police involvement, another memorial WILL be held next year so be there. Remember Ian Stuart.

Many thanks from the organisers go out to Graham 'The Undertaker' who without his help the gig wouldn't have been possible....88.

OSWALD MOSLEY GIG

A celebration for Oswald Moseleys 100th birthday was organised for the 23rd November and we set off to a village near Bury St Edmonds for what promised to be a good evenings entertainment.

We got to the venue, a best described as a Scout Hut with a bar.

First band up were B&H new boys 'Conquest' who played a blinding set including two cover versions, one being the 'Smack Song' from Romper Stomper and the other an alternative version of 'Blockbuster' revamped and called 'Zogbuster' which had the Conquest lads & lasses dancing away, these lads sounded great and I look forward to seeing them again.

Next up were Legion of St. George who played a short but fast set and got a sea of raised arms up in the air. Very raw Oi! at its best.

Coventrys' Avalon were next and played a brilliant set, probably the best I've ever seen them, I look forward to seeing these on vinyl as they will go places, come on some record label, cut these B&H loyalists some slack. Their set included 'Dogs Cock' 'C18 are calling' and a great cover of Skrewdrivers 'Triumph of the will', they also invited Mike the singer of German band Thors Hammer up on stage to do a version of 'Free My Land', and to top it off to get the Ulster B&H dancing a good rendition of Loyalist song 'The Sash' was played. Well done Avalon.

Up last were Warlord who for some reason were without Mushy there drummer but JC of No Remorse filled his place very well, they played tracks off their debut CD on ISD and also various cover versions, lastly Stigger got Mike (Thors Hammer) and Martin from Swedens 'SS Totenkopf' up as guest vocals to play 'Blood & Honour' the S'driver hit.

Only about 250 attended but a good night all in all.

BALLADS UP NORTH WITH STIGGER

Well Blood & Honour North East had put together a gig, only a local one for their lads on 30th November and had invited Stigger up to play the Patriotic Ballads.

A car load of us had travelled up from the Midlands to it and arrived at County Durham village Chilton at about 6 O'clock where roughly 80 lads were already drinking.

Stigger when we spoke to him was nervous about the night as it was a rushed affair and he hadn't had time to sort a proper set but true to form it proved a night to remember.

At about 9.30 about 100 lads filled a small but good venue and after t-shirt buying from the various stalls it was time for the music to begin.

Stigger started off with 'Old Albion' off the Hail Victory CD and had all of us singing along, the sound quality was perfect.

Stigg (The t-shirt terrorist) went on to play classics such as 'The Snow Fell' the brilliant 'Mist on the downs' 'Gone with the breeze' 'Free my land' and 'Suddenly' as well as Stiggers ballads off the Pride CD such as 'Get yourself tattooed' 'Stand tall' 'Sleeo well my brother' and 'Drum and the bugle'.

The atmosphere was brilliant, no aggro, just good fun, the North East lads really made us welcome and if wanted we shall go back again soon.

Each song Stigger sang had all of us singing along and with Stig being a great personality the night was a jewel.

Get along to see him perform the ballads as its good stuff, to all those who missed this gig, be there next time.

Cheers to the North East B&H who can be contacted at PO BOX 183, Durham, Co.Durham.
